## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Have elected only people,no because of your heritage rubbish.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Roads are our most important thing.

**2a. Is there anything you would spend more on?**

Northwestern motorway extension to bypass kumeu,Huapai.

**2b. Is there anything you would spend less on?**

Cycleways.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Not used enough.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Need to keep some investment.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The port is run badly has been for a long time.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Need to keep rates down.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

No.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

So they can be used for everybody.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Need a stadium, perfect spot for it.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Do not support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in	Support

2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Do not support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

No.

## Local board priorities

7a. Which local board area does your feedback relate to?

## Rodney Local Board Priorities

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

#22

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Very Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Fairly Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Fairly Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Not Important
Develop pathway connections in Green Road Park.	Not Important

**Tell us why**

Keep rodney updated.

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

Good.

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Huapai

**8. Do you have any other comments?**

Need a motorway to bypass Kumeu huapai to stop traffic issues,with all the building going on it makes sense.

Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better roading - widening the northern motorway, building carpark buildings for the Park and Ride. Bring back the public bins.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less housing development and more roading development

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

I like the capped public transport, Sydney are amazing with theirs and would be awesome for Auckland to be the same.. I don't use public transport but if rates, caps, reliability, ease of use was like Sydney/Australia, I would use it but until then, no.

### 2a. Is there anything you would spend more on?

Better bus network, more direct than just going to the Bus hubs

### 2b. Is there anything you would spend less on?

Agree with removing the bumps

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

So much opportunity to bring more to the stadium area

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport, especially out west - eg getting the train line to Kumeu going! It's long overdue! Increasing lanes in busy areas, rather than just widening verges and doing other things that don't actually help traffic.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

The money spent on updating pedestrian crossings is crazy and I would really like that to be stopped.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

I agree with dynamic lanes + more reliable public transport

### 2a. Is there anything you would spend more on?

As above - Public transport, especially out west - eg getting the train line to Kumeu going! It's long overdue! Increasing lanes in busy areas, rather than just widening verges and doing other things that don't actually help traffic.

### 2b. Is there anything you would spend less on?

No. We need to spend more, not less on transport and roads.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

If it's of benefit to the area, but ONLY if it doesn't cost more than current maintenance.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

I think it's better to keep the investment as is. It's served us well currently.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

As above - it's served us well as is

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

We need to think about the future and change, not keep doing things the same way

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

We don't need more waterfront apartments or park areas. It's a waste of money

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

As above

**Tell us why**

Rodney needs its roads and public transport fixed above all else - not things like playgrounds and toilets and parks. As someone who has lived in Rodney for 30 years and witnessed it's huge growth, roads are the biggest concern by far here. It's becoming very unpleasant to live in this area thanks to increased growth and no improvement to roading and infrastructure.

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

Fail to address our biggest issue - roads and public transport.

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Waimauku

**8. Do you have any other comments?**

Please improve our roads to enhance traffic flow and bring the train to Kumeu or even Helensville!

Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Roads but let’s face it the cost is inflated by the contractors so we (the ratepayers always loose)

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#33**

Get rid of stupid festivals, cut out catering at all functions. Get rid of anyone on a salary of \$200,000 or more. Get rid of buildings and assets. Get rid of committees that cost money and produce nothing. Get rid of independent contractors paid a fortune. And keep going like that.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

How a crossing can cost \$500,000 I don't know but someone has been making a killing from the gravy train

**2a. Is there anything you would spend more on?**

Effective transport

**2b. Is there anything you would spend less on?**

Speed humps, cycle lanes, cones and enough traffic management for a tiny pothole or on a rural road where most of us know to stop and wait and please explain to me why a grader driver was paid for sitting reading his paper for 4 hours because a water tanker wasn't available (total waste of money)

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

Couldn't care less we don't even have a swimming pool in Warkworth

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

Because no doubt a committee will be formed who will fleece the fund with huge expense bills and no doubt no accountability for any decisions made

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

See previous answer

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

See answer re the fund, There will be no accountability for decisions taken and it will yet another gravy train for someone

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Just think about it

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Other

**Tell us why:**

Sell the lease for 50 years for hotels and put some really tough conditions and rent increase terms in

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important

#119

Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

recreational services (a swimming pool/ council leisure center) in the Northwest - Kumeu/Huapai/ Hobsonville area. The closet council run pool is in Henderson/ Albany, both close to 30 mins away.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

remove Waste Management - Minimum Base Service. we pay a separate company to empty our general waste. not sure why we are paying this fee as Council do nt provide general waste bins in our area (Rodney).

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

there is little to not work happening to fix Northwest and the issues with transport backlogs at Huapai/Kumeu and the link to SH16.

### 2a. Is there anything you would spend more on?

Fixing the issues with transport in the Northwest. I recently calculated how long it would take me to get to work if I used public transport. It would take over 2 hrs door to door. In the car the max time it has taken is 1hr 30 mins and most days its 1hr. there is no incentive to take public transport when it takes double the time.

### 2b. Is there anything you would spend less on?

central transport and focus on the outer suburbs where most at commuting into the city from.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

this money is better re-purposed.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Rodney and others should keep to their current pay and throw. it works for the residents and provides them with control on how much they pay (per size bin needed) and the frequency

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Not Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Fairly Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Very Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	I don't know
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	I don't know
Develop pathway connections in Green Road Park.	I don't know

**Tell us why**

the parks listed are not in Rodney, they are west auckland. The only park listed in Rodney is Riverhead and this was refurbished last year. What about upgrading Huapai domain/ the park space and toilet facilities?

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

Transport links (not just road) to the city and minimizing congestion in and out of Kumeu

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

White painted road crossings that have served us for generations perfectly well.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Wasting money especially on bike paths, raised crossings, wasteful urban regeneration. Eke Panuku and AKL Unlimited should be shut down.

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

We are wasteful and focused on bike. Most of us do not ride bikes.

### 2a. Is there anything you would spend more on?

White painted crossings, northern bus way and three lanes into the city on the Northern motorway

### 2b. Is there anything you would spend less on?

Bike paths and raised crossings

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

It is an old whiter elephant. Pull it down.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

### Tell us why:

Our holdings are so low now we should optimise the money invested and exit AIAL prior to the next capital raise.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Why sell the port when it has only started its commercial, operational and cultural turn around? If you wait three years you are likely to get a significant larger price for any lease you can sell. I would review options during the next LTP development as this asset will be worth significantly more then.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

We need to develop a future fund and the dividend flow will assist in that.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

One option Council should consider is transferring ownership of POAL into the future fund. This will allow the Fund Manager to place commercial pressure on the port company to continue to improve. It will also stop the incessant demands of Councillors who simply do not understand business and the role of shareholder v manager. By retaining ownership of the port company in the fund it also allows for a number of the self insurance ideas to be achieved, as the fund manager could sell a lease of the port in a future emergency.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Capt Cook and Marsden wharves can be SOLD back to the city only if Bledisloe North Wharf is consented and constructed.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

The sale of Bledisloe wharves back to the city would mean a significant reduction in POAL profitability and this would directly impact on Council dividend streams, a write down of the value of the port company. Additionally this will prevent the development of Bledisloe wharves into a future world class cruise terminal for NZ.

Clear storm water course properly and avoid flooding , Between Pinewoods Motor camp and Red Beach Surf club is a tidal stream that storm water flows into .

Rodney Council accepted full responsibility to maintain , they were about to clear all weed growing out from Pinewoods side that sits on the inside of the bend , and helps

flood residential land, then next they were going to dredge from storm water outlet to beach , this never happened as Auckland Council took over Rodney Council had already built a retaining wall on residents side of the stream due to erosion as on high tides and storm water flow cut into the banks, high tide flow has never before been a problem now though with increased storm water the property build up has created it all charges down to Red Beach being the lowest land. And of course Auckland Council have denied any form of responsibility since they took over even though they talk of CLEAR FLOW WATER.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Yes, get control of auckland transport and drastically change their culture, mandate and ability to sign-off on projects. They are without doubt the worst performing organisation in New Zealand.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

In my experience (i have been on numerous committees and boards of local sports and cultural organisations) the council throws up unnecessary hurdles for community groups to get things done. I can personally recall a \$50k report that was totally un-needed prior to a community building a small path around a dis-used quarry, or having 16 traffic management people work for 2 days to "repair" a soakage pit in a small rural town that took 1 hour to unblock. This type of wastage simply ruins the councils reputation. So...less red tape - figure out a way to approve community projects in a more streamlined and simpler way.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

public transport is essential but i would like to see better use of technology to optimise routes, vehicles, traffic lights etc. Again, as with all things council there is tremendously inefficient facets at play.

### **2a. Is there anything you would spend more on?**

Technology. (good tech that is - no more SAP)

### **2b. Is there anything you would spend less on?**

SAP.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

### **Tell us why:**

we dont need a stadium of that size - but we do need one of circa 5-10,000. For example, regional rugby / football finals. So, maybe remove the roof / office / corporate boxes and replace with something that can actually be used on a weekly basis. The surrounding grounds are excellent and should also be redeveloped more eg one of the

soccer pitches to get a small seating area eg 1000 pax, i also think the tennis centre needs work as well - it is clearly under-funded and needs help...

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

I do however think that north shore airport or whenuapai should be developed to cater for turbo-prop planes reducing the need on auckland airport - with half the city's population north of the harbour bridge, surely it is time to offer better airport options. Auckland airports location is surely a contributor to traffic issues.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

ultimately this is premium land and creates a myriad of issues in roads. i am for a gradual reduction in the ports and returning the port land back to community use. I also think the council does not have the skills to do this job well.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

there is a. lot of good rheroric and some good points in "how we will measure it" but from my observation mayors and CEO's come and go so no-one will really be accountable if they are not able to adhere to this report. So where does that leave ratepayers?

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

i think the answer is obvious.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. **Tell us why**

i really struggle with trust when it comes to the local board. They have overseen some simply terrible decisions over the years but given the sheer size of rodney i think that the allocation of 80% based on population and 5% based on area is a policy that is poorly suited to rodney (by far then largest zone in auckland). New playgrounds and toilets are all good - But - and its a big but, why does it cost so much to do? the new toilets in omaha cost over \$1m - this is insane - why does everything have to be gold plated? surely there are more pragmatic solutions out there. You mention supporting community groups to restore our waterways - where exactly? - i live in point wells and am not aware of any council support to restore the whangateau estuary or adjoining rivers. I am not aware of any insistence by council to stop the use of septic tanks in our town (water simply runs into that estuary) - why on earth has this not been sorted? everytime there is rainfall the e-coli levels spike - this is a resource the community wants to swim in, yet are hamstrung by an ineffective council.

The new bollards in front of the community centre and library in point wells is another example - no one asked for this and yet we end with a "solution" that cost ten times more than it should have and subsequently has altered the way the residents use the car park.

Shoemith reserve has an abandoned bowling club with a surface that two well funded and organised community groups have offered to take over and develop - at NO cost to council - yet, council does not want to consider these groups as they think it might. - might, become a new library in 10 years. In the meantime, the land just sits there completely un-used - why is council and the local board so ridiculously difficult to deal with?

As for kids accessing the librarys more - a noble goal, but childrens literacy - this is NOT the role of council

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

good - but getting value-for-money from Auckland transport will be critical - AT is easily the worst performing CCO and i sincerely hope they can sort out its under-performance.

## Rodney Local Board Priorities

### 7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support most priorities

#### More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Not Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Fairly Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Not Important
Develop pathway connections in Green Road Park.	Not Important

### **Tell us why**

Local arts centres can hold fund raising events. Facilities for young people important to keep them occupied and distracted teenagers from crime.

### **7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

Could go further, like more raised crossings in milwater, instead of toilets in parks.

### **As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Silverdale (Rodney End)

### **8. Do you have any other comments?**

Reduce wasteful processes and rework which just bleeds taxpayers money.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Build multi storey parking garages at all the NX1 bus station hubs, ie Albany, Silverdale

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less events

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Raised pedestrian crossings and many cycleways complete waste of money.

### 2a. Is there anything you would spend more on?

More parking facilities at Albany and Silverdale where there is a huge influx of more houses.

### 2b. Is there anything you would spend less on?

Musical and beach events.

## 3. Which options do you support for the North Harbour Stadium?

Change the operational management

### Tell us why:

Terrible to tear down a fairly new stadium. Make it cheaper for different groups to use the facilities.

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Fairly Important

**More specifically, what do you think of each priority we've listed above?**

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	Very Important
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	Very Important

Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	Fairly Important
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	Very Important
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.	Very important for the community to have lots of reserves, boardwalks etc for long walks and to assist with mental health and physical health.

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	

Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	
Develop pathway connections in Green Road Park.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

toll road to develop road or tunnel over or under brynderwyns to whangarei

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

less recycling which is not working and we dont have food scraps collection anyway

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

less on stupid road obstructions designed to slow traffic but which actually cause hazards in the road. Queen street lanes are a case in point where now when there is a fire engine, it can hold up the busses from bottom of town to k road for ages for nothing because there is only one lane each way!!

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

it seems like the accountants are suggesting this scheme to provide themselves with well paying jobs and power. It seems very speculative.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Seems the council could make more money if ports was leased, but we do NOT want the wharfs extended. If you do lease them please put in a clause of no wharf extensions.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Future fund is just greedy boys speculation fund run by fat cats with big salaries and no consequences to their salaries if they make a loss or less than forecast

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Rail services would need strengthening. I dont think residential on those wharves would work as it has not worked on old princess wharf.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better communication and management on waste.

Better regulation on land and construction rules - more concrete means more environmental disaster and flooding. Focus on refurbishing.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Stop spending so much on road development, have a strong and more efficient public transport system.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

As said before. Agree on the fact to make public transport more reliable and efficient (who don't), but for this you can't rely on the current network, you have to develop it first. Swap road development for tramway for example, mostly on the Northshore, it would make a great difference on the congestion of our motorway.

**2a. Is there anything you would spend more on?**

Public services are struggling for all the past budget cuts - spending more is not the good word.

**2b. Is there anything you would spend less on?**

Stop now any current oil explorations.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

It has been a waste honestly, everyone says it.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

AIAL is a huge source of income for Auckland Council, why would you share it.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I have to read more about the Auckland Future Fund.

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.

We therefore request that Auckland Council allocates \$8.02 million in funding within the Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf lifesaving club facilities, as per SLSNR's Surf 10:20 Capital Development proposal.

Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Not Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Not Important
Develop pathway connections in Green Road Park.	Not Important

**Tell us why**

Spend should be minimised and focussed on essential services.

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

OK. No focus on cost/benefits.

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Snells Beach

**8. Do you have any other comments?**

There should be a focus on cost/benefit and value for money.. Ratepayers cannot afford to fund everything in these straightded times

Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Pave gravel roads in rural areas.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dumping money into stupid projects like the city rail link.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

I live in a rural area and my rates contribution goes to areas in Auckland i never go to and services that are not provided to me. I am tired of seeing over the top spending on pointless projects and wasteful spending by the council

### 2a. Is there anything you would spend more on?

Work on providing rural communities with safe roads

### 2b. Is there anything you would spend less on?

Cycleways, speed bumps and reduce the amount of council office staff.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

### Tell us why:

Needs to be utilized more.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

### Tell us why:

Cant keep squeezing rate payers, they are already nearly unaffordable and planned rises will put more pressure on already cash strapped house holds.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Ports of Auckland management have nearly brought the company to its knee's. Through bad decision making, personal vendettas ( Tony Gibson vs MUNZ ) shocking mismanagement and insane projects, i have no faith that they could deliver on any promise regarding performance or profit. The upper management in the Port is rotten to the core.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

To assist with keeping rates rises down.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

The land and wharves is under utilized under present management.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Is just a car park at present. Could be better used for public access.

Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Tarsealing unsealed roads in Muriwai and Waimauku especially Muriwai Valley Road

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Spending money locally where the people haven't been consulted on the spending.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Yes to more lanes - will be good for less time waiting in traffic for all.

Yes to: Stopping raised pedestrian crossings and cycleways as they are very expensive and unnecessary.

No to making public transport faster by rapid transit network actions - apart from bus lanes, I don't see how this will really make a difference.

### 2a. Is there anything you would spend more on?

Unsealed residential roads.

### 2b. Is there anything you would spend less on?

Projects that the people aren't consulted on that aren't necessary.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

### Tell us why:

Because its a council facility and therefore the community should be able to make the most use out of it.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Selling Council shares to the private sector is a recipe for disaster. We as NZers could end up with no power/no say over our communal land resources such as the airport. It should just not be an option!

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The second option of leasing the port land is a sensitive and profitable option.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Because I don't trust the Auckland Future Fund and what it might be used for.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Because if they're not necessary for the ports operation then why not use for something else.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

As per my comment above.

Refurbishing toilets and developing pathways do not seem necessary.

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

I agree with it in general. There are unsealed roads in my area that need to be sealed and I don't want to see other unnecessary road maintenance until our unsealed roads in Muriwai/Waimauku have been sealed.

Also 'Working with the environment to protect and preserve it should be common sense projects like keeping rivers clean and preventing pine trees spreading, etc, not driven by fear of climate change.

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Muriwai Beach

**8. Do you have any other comments?**

"Auckland Council is committed to supporting communities to recover and to chart a course for their futures, so they are more resilient and prepared than ever before."

- A comment I would like to add to this is that there were some people in Muriwai who were made Category 3 post landslides recently. I know that some wouldn't have chosen this for themselves and would have chosen to continue to live at their homes if it hadn't been for the overarching authority of the Council/Govt. In future, residents should be supported by being empowered to make their own choice/take their own risk into their own hands without being penalized by being coerced to leaving their homes as in the Cat 3 buyout scheme.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	Do less
<b>Parks and Community</b>	Do less
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

i live in the rodney district (dairy flate areas) all i hear is city city city... never ever does semi-rural north of the bridge get a mention! we pay extortionate rates for zero services, roads are awful, no street lighting, no public transport, no parks ect ect and yet we pay pay pay for what appears to be more services in Auckland City

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

how about addressing semi rural north of the bridge, dairy flat, coatsville ect what will we get for our extra rates, auckland is more than the inner city Mayor Brown!

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

would love some rapid transport options north of auckland city through to silverdale please

**2a. Is there anything you would spend more on?**

address the traffic issues north of auckland please

**2b. Is there anything you would spend less on?**

inner city, they get all the infrastructure money and care

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

the stadium is way too small, cant believe they built it so small, its a waste of valuable space

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

we need to get rid of assets we do not need and divert money to things we desperately need

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

makes sense financially

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

as long as north of the bridge gets some funding

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Stop building cycle tracks everywhere and fix roads. Even Cyclists use roads instead of cycle tracks. A simple example is Mission bay road.

I will happily pay more if money spend wisely

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Stop wasting money with your contractors. They are overcharging & put all the jobs up for tender instead of giving contracts

Stop having 2-5 year deals with contractors

I don't want to pay more when I see wasteful spending on traffic management companies, Unnecessary road cones, etc

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

So far you have received billions of dollars and Buses aren't on time, train cancellations happening more often

how can you ensure that problem will be fixed in the future but you haven't been able to do it at all for the last few years after receiving billions of dollars from regional fuel tax

**2a. Is there anything you would spend more on?**

make the public transport more reliable so people can catch it instead of having cancellations all the time

Auckland is the worst with cancellations of Public transport

**2b. Is there anything you would spend less on?**

CYCLEWAYS. Barely anyone use them

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

Give it back to the trust, they were doing fine before Council took over

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

To follow through with flood protection and water courses and get back to more maintenance on existing infrastructure as we had in the past, ie sweeping and clearing drains

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less on bikeways and cultural nonsense until we can afford them.

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

It is vital for our productivity to keep Aucklanders moving once they get onto the transport systems

### 2a. Is there anything you would spend more on?

Maintenance of our existing infrastructure and making sure that we have learnt from our past mistakes ie not letting people build or rebuild in past disaster zones

### 2b. Is there anything you would spend less on?

Everything that is not a priority over protecting ourselves from Climate Change

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

### Tell us why:

We have invested a lot of money and time in this stadium and have never fully utilised its potential

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

### Tell us why:

We need our council to provide services and administration of our city not to get involved in equity investments. Leave that to those who can afford the losses!

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Once again the council does not need to operate businesses that can fail as the POAL has in the past

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

We need to have an Emergency fund to protect us from future disasters as normal people should have and do have.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Other

**Tell us why:**

Halfway measure, just transfer the Captain Cook Warf

**5b. What option do you prefer for Bledisloe Terminal?**

Other

**Tell us why:**

Keep the Bledisloe Terminal as is and over 30 years reduce its use and share the loads between Northland, Auckland and Tauranga

**6a. What do you think of these proposals?**

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Auckland Council needs to raise revenue from non-property owners to more accurately include these people in the costs to run the council and Auckland services. Maybe an Auckland Resident Tax charged through rentals and collected by landlords for the Council or an Auckland Citizen Tax collected by the Council to truly reflect all citizens using Council services

**Albert-Eden Local Board Priorities**

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

I have a concern that without bins some will just discard wherever they like.

Develop pathway connections in Green Road Park.	Fairly Important
---	------------------

**Tell us why**

We need the community to support all Emergency Actions, minimise waste and Local pest control.

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

Great, but I would like to include more support for communities to get involved in local Pest Control to bring about better environmental outcomes, for example, better Bird protection and rubbish collection in the waterways and general community areas

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

clean out the deadwood at council and AT as per mayor Browns election promises.

Keep rates down, as per mayor Browns election promises

stop building cycle paths, and speed humps

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

If speed bumps, need maintenance, just remove them.

Stop building cycle lanes-no one uses them and cost the rate payer big time, while slowing traffic because of less road for cars

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

what you say doesn't explain a lot, 'making public transport safer.... what does that entail? You ask for feedback, but are not being told how you actually intend to do them, and at what cost!

**2a. Is there anything you would spend more on?**

road maintenance

**2b. Is there anything you would spend less on?**

staff, clear out those who are unproductive, and we know there will be plenty, who look busy but achieve nothing.

road cones!

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

once its gone, it will never be replaced

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

if assets get sold, I don't trust council with the money. It will get frittered away!or used on salaries.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Nothing ---- I currently see wastage and a loss of focus by engaging in more holistic and political feel good stuff. If you are in financial trouble you stop spending on the nice to have stuff and just spend on the core values

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#563

Entertainment - central city development (hey, we need transport before we can all enjoy the center)

Cultural stuff - All cultural stuff, because when in financial trouble we need to pare our spending back to building, water, waste water, rubbish and transport

Political directives like cycle lanes, EV charging, Free food to survey peoples ability to become vegetarian (thank you for all that free food from My Foodbag that you paid for but it did not make us want to be vegetarians) ----i mean, how the \*\*\*\*\* is paying for my food to see if I will become vegetarian

Cut these surveys --- they are completely biased anyway because if you look at Question 1b you can see that you hide all the bad stuff under general headings that include the good stuff, you just want to justify what you are doing, not get real feedback. Your surveys are designed to achieve a pre determined outcome anyway. Example: Stop this global warming initiaive stuff, it is making us go broke. No matter what we do for this we can not even alter in the smallest part the pollution from China, india, the US and so on, we make absolutely NO DIFFERENCE to global warming, we are too small. Sounds good and nice but it is pointless

## 2. What do you think of the transport proposal?

Don't support any of the proposal

### Tell us why:

You waste the regional fuel tax and redirect it to political favourites anyway. Here is another reexample, I live in Kumeu and for years there has been a transport surcharge on the rates..... exactly what have you done to help Kumeu. Oh yeah, your going to say the Waimauku to kumeu road widening" BUT THAT IS SO STUPID because that is 5KM upstream of the blockages so it only makes you get faaster to the blockages. Complete idiocy..... and as a result the regional fuel tax and the transport surcharge have effectively done ZERO

### 2a. Is there anything you would spend more on?

getting rid of half of council

### 2b. Is there anything you would spend less on?

Most of Auckland Council bureaucracy

### **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

#### **Tell us why:**

Stop spending when you are broke, sell off the land and redevelop what you can to make money

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

#### **Tell us why:**

Once you lose complete control of the airport Auckland costs will rise, transport to and from Auckland will increase in cost and transport to and from the airport will be withdrawn from councils already empty bank account. It is very short term thinking to sell these shares and lose the asset that returns a profit

### **4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#### **Tell us here:**

You sold the airport, your lease is just one step towards selling Ports of Auckland - Stop this insanity,

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Auckland Future fund is more political than practical. The underlying tenets are global warming and population reduction..... lets get back to basics

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

You are not going to listen anyway ---- Thats why so few people actually bother to vote, but you cant see that can you

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Council cant manage a profitable operation or functional facility without raising costs and restricting people based upon political agendas --- leave it alone

**6a. What do you think of these proposals?**

**#576**

IMO the council is over staffed. The one example is the gym I go to there are ALWAYS staff standing around yapping and having a great time. In private gyms they don't have time as they are always working. Get rid of some of the ridiculous council compliance rules in all areas of life and that will save lots.

Also ditch all "vanity projects" including the stadium - stop work on this immediately. We are broke so only the most urgent projects should be undertaken.

If I lose my job and have no income, I don't turnaround and install a new swimming pool - I expect council to treat my money the same way - stop squandering it.

Also, I object to money being spend on Māori only specifically vs Needs based for all Aucklanders. Race is must NEVER be a factor in deciding what ratepayer money should be spent on. If the rationale is preserving our culture and heritage, what about our Kiwi European culture - we have been here for 200 years - surely that must count for something but more and more I'm feeling alienated because I'm non-Māori, I'm male and I'm hetro, I'm a business owner and I'm a house owner and I'm continually made to feel bad and guilty about all these things.

## **2. What do you think of the transport proposal?**

**Tell us why:**

### **2a. Is there anything you would spend more on?**

### **2b. Is there anything you would spend less on?**

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

This is not essential spending. If the council needs to increase rates at such an unaffordable rate, these non-essential projects MUST BE STOPPED.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Let's get our debt reduced. Council claims to be making a profit from the airport yet our debt rate is increasing every month.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

- 1) Private operators will be far more efficient than the council.
- 2) freeing up council cash flow for ONLY the most pressing of council expenditure will offset some the interest we will be otherwise paying.
- 3) Reducing the costs for ratepayers People 's cost of living should be a council priority.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Use it to pay down our loans. If Auckland needs money urgently for the items allowed for int he future fund, borrow the money then.

It seems completely ludicrous to be saving money for a rainy day when we are paying such crazy amounts of interest on its out-of-control borrowing which is increasing at alarming rates.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

If there is going to be a huge cost to rate payers and no short or medium turn payback - LEAVE IT AS IT IS!!!

**5b. What option do you prefer for Bledisloe Terminal?**

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Quite simply there is nothing and I mean nothing at all in the plan for the areas of silverdale North...to Warkworth that I spend my life in ...what is there to discuss. Its more of the same.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less CRL that I do not use, less waste management that actually harms the climate whilst claiming that it makes it better, less centralised and minority based activities. Less staff, less offices ...its totally unclear what you deliver for those of us that live and exist without going into central Auckland which is about 30 -50 miles away most of the time and totally irrelevant to my life.

## 2. What do you think of the transport proposal?

Don't support any of the proposal

### Tell us why:

I can see that Auckland needs better public transport but whats on offer on the area I inhabit Silverdale and North is non existent but you want me to pay even more for other peoples subsidised transport and cycle ways for the very few. same old same old.

### 2a. Is there anything you would spend more on?

I would like to see far better public transport I don't see how buying expensive electric busses helps. There is no bus service here period. You never integrate them with the private sector and taxis , Uber etc. its as if its your way or the highway.

### 2b. Is there anything you would spend less on?

Ridiculous waste management schemes, electric busses, cycleways, committees , Aspirational pest control schemes, co governance.....etc.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

### Tell us why:

It is under utilised .....but we have very little in the way of venues on the Nth Shore, this looks very much like a proposal to sell it build rabbit hutch houses and provide some even more inadequate facility. ...somewhere else.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

finances are in a mess. You may as well put it in a future fund but we all know that at some point that fund will be used in an 'emergency' of some type and the assets will end up no longer being owned by the council. still you may as well do it

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Given the finances its a reasonable compromise...its what most business do.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Well you are really short of money and the rate increases proposed are already pretty shocking

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

You always end up giving the land away or totally mismanaging the money you get. Better to keep the asset producing income

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important

### **Tell us why**

What you provide is good. Its always incredibly expensive especially the toilets. Of course its very important to provide facilities for young people. The whole waste management piece is scam....where I live people are just dumping stuff. Turning badly manufactured \*\*\*\*\* from China into something else is nonsense we need better manufacturing and packaging standards in the first place.

### **7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

I don't know ...I've been here 11 years the population has increased dramatically the council services haven't. I don't see that changing any time soon. We don't even have a library in Silverdale. In fact Stillwater where I live isn't ven on the drop down menu thats how badly we are serviced. If we ever even get a bus service that will be a start.

### **As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Silverdale (Rodney End)

### **8. Do you have any other comments?**

Its a difficult task the options are limited. You are not really being disciplined or business like i your approach its more ideologically driven very expensively provided services with high cost base and in terms of what it delivers to this region here that I live in its very negative and unappealing. As I say we are not even on the drop down menu and as for public transport there are no busses and when you drive to get one they basically go into the city centre I never got there its 35 odd miles away. No doubt the Central Rail link will help some people but no ne out here.

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I live in Northern Rodney and your plan is very light on our area. The sealed roads proposal is good, but many of the sealed roads are in very poor shape. The Council plan needs to ensure equity across the city. That clearly is not the case in this plan.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

The inefficiencies of AT and other CCOS cost us enormously. Project management is very poor and wastage high. We need a 20% increase in good quality out comes from AT with their current revenue..

Stop wasting money on Queen St. The heart of the city is the waterfront. Queen St is not a destination.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Good public transport is key to reducing our carbon emissions and we must maintain the current roads in good order for all Auckland.

**2a. Is there anything you would spend more on?**

Rural communities are the third world of Auckland. They need to get their share of development. We don't drive 90 kms for an event at the viaduct.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Agree in principle but need to see a more robust business case.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

With the caveat that we need to see a better plan and the associated costs of adopting this proposal.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

The water front has become the city centre and focus for events. Every city needs a heart that it's proud of.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Support

Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Very Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Not Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Fairly Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Very Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Very Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	I don't know
Develop pathway connections in Green Road Park.	I don't know

**Tell us why**

It does feel like a plan for West Rodney. Hard to see where rural Rodney or Warkworth and East fit into this plan. There will be massive growth in Warkworth during these 10 years.

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

The major issue is to restore current infrastructure and seal roads. Where population increases other normal amenities need to be included

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Big Omaha

**8. Do you have any other comments?**

I assume big Omaha includes all. Areas East including Ti Point and Leigh.

We are in Rodney, it’s a complete waste of money to mow the sides of rural roads. The grass could easily grow long here and have no visual impact as the mowing lots terrible anyway. At least it’s natural untouched.

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop low bus services with low passenger numbers

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

Auckland has to recover from the history of not doing enough, soon enough, and have a more strategic focus on managing growth

### 2a. Is there anything you would spend more on?

Spend more on the weakest and most critical link between North and South with one access way - i.e. the harbour bridge - and without transferring the problem to an already saturated western link to the Greenhithe bridge

### 2b. Is there anything you would spend less on?

No

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

### Tell us why:

Stadiums should be a good business and should meet the needs of a vibrant city in a country with a strong sports culture.

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

### Tell us why:

Its the most strategic and logical proposal ever put to the people and simply MUST proceed in order for the Council to enable professional fund managers to be the custodians of the terms of engagement for the Auckland Future Fund

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The Council is not in the business of running a Port - it needs professional managers to be accountable for asset returns from a global opportunity base.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

The returns might best be split between funding Council services and the AFF

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

The Council should definitely self-insure and continue to develop the more innovative approach proposed in the Central strategy

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Auckland's natural environment has world-leading potential and should be the subject of a strategic vision for how the city can attract international acclaim for a place to live and attract business. Over time, the port should move to Whangarei and the Go

**5b. What option do you prefer for Bledisloe Terminal?**

## Rodney Local Board Priorities

### 7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support all priorities

#### More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Very Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Fairly Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Fairly Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	I don't know
Develop pathway connections in Green Road Park.	I don't know

**Tell us why**

The burden of Rates increases on fixed income people is already reducing their quality of life so continuing to things that are aspirational but not critical, should be controlled.

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

unsealed roads is a priority

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

I don’t know

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

infrastructure for Waste water and Storm water management

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

pay less for the the people underperforming in their jobs

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Traffic management is ridiculous. three trucks and five guys to pick up rubbish on the verge of roads is not sustainable.

**2a. Is there anything you would spend more on?**

increasing the density of housing so public transport works better

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Get rid of North Harbour Stadium. Keep some of the facilities and redevelop the remainder as apartments

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Move the port to Marsden point. Redevelop the port as a stadium and entertainment precinct. Get rid of Eden Park and Mt Smart stadiums.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

Support most of the proposal

**Tell us why:**

a lot of the raised pedestrian crossings are totally necessary and a waste on money/time and cycleways and very underutilized for the money spent.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

making the road actually work for the majority of road users i.e. cars.

things to just slow down traffic are not money well spent

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

It's a good stadium and needs to be used more

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I don't like the idea of Port of Auckland being privately owned, from what I've heard of other cities doing this it has ended up costing the city a lot more money in the long term

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

No. Pay less. Most people are suffering and cannot afford more. Do you not look at the state of the economy. If you ask for more your driving families not only out of Auckland but out of the country.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Yes, do less of everything so families can afford to live.

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

Save money is a priority. Council wares to kick as it is on flower beds for example.

**2a. Is there anything you would spend more on?**

No

Think about the families that cannot afford to live anymore and how you can help them.  
All your proposals do not help, but hinder them.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

Support most of the proposal

**Tell us why:**

Faster more frequent and reliable public transport is a must to keep the city moving.

**2a. Is there anything you would spend more on?**

Light rail that is simple. Above ground and/or on rubber wheels as in China. And it is clean and non-polluting.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

The stadium needs to serve the whole northern community. Not just rugby but all sports, events and community needs. More sports clubs could be based there.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Long term funding by spreading the investment risks and provide better returns for the community. I assume you are suggesting something similar the the Superannuation Fund.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The returns have been pretty woeful over the years to the council. Retaining the land and infrastructure is essential to protect Auckland's long term needs. Surely the returns on investment would be better than that currently returned by POA.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Once it is spent it is gone. More long term planning is needed.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

The shareholding should be more like Tauranga Port where the regional council only controls a majority stake.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Better public use can be made of these wharfs and they are not critical for POAL to operate.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

The operational are needs to be kept fully viable to enhance it's capital value.

**6a. What do you think of these proposals?**

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less interference from Auckland Transport in decisions over the city's future. They have screwed us up enough already.

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

Pedestrian crossings, sure! But we do not need the expenditure on the raised style. No more cycleways, please. They look good on paper but in this city of hills and distances they are ineffective in addressing the economic and environmental goals they are so often lauded for achieving. We are not The Netherlands, for goodness sake. It is not in our national psyche to adopt cycling as a commuting alternative.

Buses.

### 2b. Is there anything you would spend less on?

See above re cycling.

## 3. Which options do you support for the North Harbour Stadium?

### Tell us why:

More events other than sports events would draw more locals. Not all of us want to travel into Eden Park or the Aotea center for concerts, etc.

**Tell us here:**

Sounds solid!

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

Re the rollout of rates funded refuse collection for Rodney - NOTE: any rate amount targeted for this should not exceed the cost of one "pay as you throw" bag per week. All other incentives such as recycling and food wates collection (which I personally do not use) have resulted in a decrease in the average amount a household throws out as general refuse; i.e. one bag a week. Don't charge us more than that, please!!

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The problem with surveys such as this is you just have a set selection of options to choose from. For example, I can't click on one of your options for Transport because although I approve of better public transport services (and don't we need them) more roading is not something I want to see. It is very true that the more roads people build the more traffic turns up to use them. There seem to be some really wierd rules too,

for example we have a bus that passes the end of our drive, yet we are not allowed to use it because the nearest bus bstops are about five kms in either direction and the drivers are threatened with disciplinary action if they stop anywhere other than an expensive "official" bus stop.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Stop wasting so much money. Mayor Brown made a big thing about clamping down on wasteful expense but it seems people just take no notice of him. The amount of money that is wasted by Auckland Transport is criminal. The Council is hard up and carries a big debt burden so who was the jumbo who decided to spend god knows how much rebranding all the signs to be bi-lingual? I've nothing against that in principle, but it is a luxury item to be done when there's plenty of money in the pot. I am, though, dead against the racist idea of putting one language in big bold characters with the other in tiny ones.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Public transport needs to improve, and go where people want to go, not where AT wants to go. We also have the stupid situation where some services are too successful and create further problems. A good case in point are the NX1 and NX2 services from Silverdale. A great bus but unless you are there about breakfast time, where can you park? The park and ride was expanded but not by anywhere near enough. With more and more housing being built this situation is only going to be worse.

**2a. Is there anything you would spend more on?**

Better park and ride. Maybe a multi-story, though that would be expensive and, no doubt, take years of paying huge fees to consultants, then years of interruption whilst it is built.

**2b. Is there anything you would spend less on?**

Bike lanes. We actually saw a couple of cyclists in Silverdale using one the other day, first time for months. Then these ridiculously expensive raised crossings that cause damage to nearby buildings, can ruin cars' suspensions and are a menace for anyone with a back problem being ferried in an ambulance.,

### 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

#### Tell us why:

It's more or less a big white elephant as it is, so make it into something useful.

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

#### Tell us why:

I'm not sure I trust the Council to do it openly and honestly. We're always hearing stories about councils (not just Auckland) deciding things behind closed doors. What do they have to hide? Self interest?

### 4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

#### Tell us here:

Might have someone in charge who can manage it properly

### 4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

**Tell us here:**

It's an asset belonging to the ratepayer so should be used for the ratepayers' benefit

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Councils should stick to their core business, not diversify into other areas

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

As above, the Council should concentrate on its own matters, not diversify to areas better run by people who know what they are doing

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

Whatever happens it won't be ideal. No doubt some would get very rich off the back of the ratepayers, such as those lucky firms who have the contacts for the oh-so-expensive raised crossings

**6a. What do you think of these proposals?**

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increase of speed limits on motorways and main roads, More spending on widening motorways (more lanes) particularly north of Albany to Rodney, More spending on increasing capacity, frequency, pricing of busways on the North Shore and Rodney

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less spend on cultural events like Diwali, Kapa Haka, Chinese NY etc, spend less on raised crossings and crossings in general, red light and transit lanes, less spending on cycleways, less spending on turning roads into walking spaces, less spending on Maori outcomes and drop all race based policies. Reduce AT budget as they cannot be trusted to spend our money in a reasonable way. Reduce hours of libraries, CAB and other services. Stop development of housing on flood prone land immediately. Stop paying out people who's properties have been affected by floods, they should have private insurance to cover this if not tough.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Some of the plans sound good but there a far too many nice to have's in there rather than focusing on the biggest things.

### 2a. Is there anything you would spend more on?

Public transport, dedicated Busways for North, East. Trains for South and West. Electrify and extend rail network to Kumeu, Extend dedicated busway to Wainui expand Silverdale station. Cap/reduce weekly cost. Increase speed limits and frequency

### 2b. Is there anything you would spend less on?

Cycleways, electrifying ferries, western park and ride busway as they already have a rail network. widening walking paths and turning roads into pedestrian areas. Residential speed management and safety, reduction in red light and transit cameras. Stop raised crossings and similar wastage of spend by AT. Increase roading speeds on main roads and motorways rather than handicapping Auckland with ridiculously low speed limits. We are turning into a 3rd world country.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

The stadium is a waste of space and is barely even used for major sporting events. We either need to prioritise using it and spend money on it or get rid of it if we are going to continue prioritising Mt Smart and Eden Park (which are both terrible venues).

Could North Harbour Stadium not be redeveloped into a NZ Cricket Test Oval for Auckland with a 10-20K capacity?

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Not Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Not Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Not Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Very Important

Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Not Important
Develop pathway connections in Green Road Park.	Not Important

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do less
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Seal terrible damaging roads around Te Arai. Take our green waste away for free annually like our annual big rubbish collection

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less city development and more development of Wellsford Te Arai. Walking paths, bike tracks. Pedestrians currently share narrow dusty rough unsealed roads

## **2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

### **2a. Is there anything you would spend more on?**

Warkworth to CBD Auckland in one bus trip. Add regular passenger trains from Auckland CBD to Kaiwaka

### **2b. Is there anything you would spend less on?**

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

We need money to solve current crises

### **4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Fairly Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Fairly Important

Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Where I live there is a playground and once a week a council guy rakes the wood chip. Also once a week council workers “shape” the roadside maidenhair. Also the boat ramp gets wayerblasted. Also there are council workers that have a sleep in their Ute

while doing unnecessary tree trimming. Also there are council workers that seem to drive around and are actively looking for something to do. Who do the work orders sit with? That work doesn't need to be done. Also we have a bus service that runs twice an hour that literally no one uses unless it's school holidays and a couple of kids need to get into Warkworth. Also the bus that services the area has ruined the road. No one monitors that. We are quite rural and when there are trees etc that are getting cut down there is traffic control put in that blocks the roads for hours BUT there is hardly any traffic to control and there ends up being more traffic workers sitting in the trucks than actual traffic. Reduce the traffic control.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Reduce bus lanes and traffic management and speed limits.

### 2a. Is there anything you would spend more on?

### 2b. Is there anything you would spend less on?

Everything!

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

Don't reduce green space. Make it more accessible for people to use

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Overhaul the ratings system. Have a system whereby everyone pays a rate to live in and use the facilities in akl. More like a poll tax. All is getting bigger and yet the burden is getting bigger for property owners. My rates have gone up \$1200 in 2 years and I live an hour and a half from queen st and don't use the Auckland facilities

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

N0, my family are currently struggling to maintain our home under the constant rising cost of living. Further rising costs would likely mean we would re locate out of Auckland.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Working in the AK CBD I have witnessed the massive disruption caused by the City rail link. This project is a prime example of a high cost programme with limited long term reward to the general public. I would like to see less of these projects and more consultation with the Public as to what they are willing to pay for and be exposed to long term disruption as a result.

## 2. What do you think of the transport proposal?

Don't support any of the proposal

### Tell us why:

Many of the transport issues in Auckland stem from the infrastructure not coping with the population. I believe that the construction companies who build the new subdivisions should be held accountable for the increased impact on transport and be subject to levies or charges to offset the increased transport costs due to increased housing and population.

### 2a. Is there anything you would spend more on?

Consultation with the tax payers

### 2b. Is there anything you would spend less on?

Bureaucracy based administrative costs that are brought about by changing government leaders who start projects that are cancelled 4 years later.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

### Tell us why:

The North shore has limited access to a sporting venue / ground that could be used for concerts etc. If the current council can not afford to make the venue fit for purpose without passing on the costs to the public, privatise the venue so that it can still be used and those who want to utilise the venue can absorb the costs.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

The proposal doesn't clearly state what the benefit to the public is.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The current POA is an eyesore in the heart of our city. The Americas cup started some worthwhile improvements but its current state falls way short of what our major city should look like. If the council cannot afford to fix it, find someone who can.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

If the profits and dividends were used to fund AK council services I suspect that yet again the money would be used for projects that do not directly benefit the public.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

#904

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Because the Public should benefit from something that is in an area of the city that should be similar to other waterfront cities around the world.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

As above

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. ## Local board priorities

7a. Which local board area does your feedback relate to?

Rodney

## Rodney Local Board Priorities

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Not Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Fairly Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Very Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Very Important

#904

Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Fairly Important
Develop pathway connections in Green Road Park.	Not Important

### Tell us why

I prefer projects that benefit the whole community not just the few that use certain amenities or services.

### 7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?

I support proposals to improve roads if the improvements are done with some forethought which prevents the same areas being constantly re visited time and time again.

### As our local board area is so large, please tell us where you live so we can better understand the views from different communities

Rodney

### 8. Do you have any other comments?

More consultation with the Public will ensure the public get what they need and not more of what they dont need,

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Roads - The state of rodney roads with the increased population is horrendous nothing has been done in forever - Our Road has become more and more used as a throughfare and being gravel its is in constant need of repairs and our road is not the only one. Roads and flood management are the only things I am happy to pay more

for. Public Transport in Rodney is near non existant so rodneys roads should be PRIORITY

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Stop upgarding the parks - they are good enough in our area - its not necessary when the roads are so dangerous around here.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Huapai domain needs an upgraded play area. There are very few facilities for youth in our area. No swimming pools, public gyms, so something like a skate park would be of benefit.

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Very Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Fairly Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Very Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Fairly Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Very Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Very Important

Stop intensive housing. We have plenty of land and current intensive house sections are too small and so ugly! We need more greenery so allow it to grow with larger sections 600-700m2 minimum. Stop building ugly square boxes which are overrunning Auckland in all suburbs.

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	Do less
<b>Parks and Community</b>	Do less
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Stop the wastage. Stop 'gimmicky' ideas - the new compost bins are an example as the green waste is treated no differently than the bin waste. It doubles up on rubbish at the kerbside (just wait until a windy day when those small green bins blow everywhere) and is a huge expense with extra staffing & the additional vehicles congesting roads.

**#1105**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Stop all the cultural events while we have no money - the pride parade, the music events - we can't afford it at the moment.

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

Work with what we currently have to operate efficiently. Buses are cancelled at a moment's notice and people are put in taxis (Hobsonville Marina - January this year) Trains being cancelled on a hot day? The government road tax was used for everthing but its intended purpose. Bus stops on the Coatesville Riverhead Highway were put on the road and are now being moved - at what cost? Why wasn't it thought through.

**2a. Is there anything you would spend more on?**

No more speed bumps - they are dangerous. Providing parking rather than removing parking.

**2b. Is there anything you would spend less on?**

Remove existing speed bumps. Stop media advertising.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

New management will identify savings.

**#1105**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

It costs ratepayers money to own shares in AIA and we cannot afford it.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Lease it to a company who will run it efficiently but not invest the money into the Auckland Future Fund.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Rather than come up with ideas to syphon money into another fund (remembering that the 15c per litre petrol tax was not correctly purposed) it should be used to reduce rates to ratepayers.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Half of the problems with future proofing Auckland come from 50+ years of little or no maintenance on major infrastructure. This includes the ports.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#1105

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Until there is a viable alternative it's best to leave the Port alone. Concentrate on the myriad of other areas where you could improve efficiency, make savings and cut waste.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

People are not going to travel into the city to spend time on ??? public amenity. The unreliability of transport and the dangerous environment when you are in the city make it an unattractive prospect.

**6a. What do you think of these proposals?**

City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I think we pay enough in taxes and then this. You can't be trusted with your promises of 3.5% ongoing so i vote for less - we will get less anyway and pay more

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#1122**

Waste money. Stop the nonsense that is why you were elected. If you can't manage the finances, Auckland Uni has some great finance and accounting graduates who could do a better job

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

This isn't really a plan. Labour underfunded the roads for public transport and now we have more debt and no solutions. You need a plan you will deliver on and you've had enough money out of us to do it so do it

### **2a. Is there anything you would spend more on?**

Either decide to improve the roads or decide to offer affordable public transport. then put your money there and actually deliver

### **2b. Is there anything you would spend less on?**

Meetings and consultants to decide what to do and deliver nothing

## **3. Which options do you support for the North Harbour Stadium?**

Change the operational management

### **Tell us why:**

Operational management is often where efficiencies can be found. if it doesnt work shut it down

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#1122**

**Tell us why:**

we are so deep in the hole it doesnt matter anymore. do what you like just stop charging us more for your poor management. But if you sell and we pay more for goods you have failed

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Council funded services are barely working now is not the time for aspirational plans which fail to meet the mark

## Rodney Local Board Priorities

### 7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support most priorities

#### More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Not Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Fairly Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Not Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Fairly Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Not Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Very Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Not Important

#1122

Develop pathway connections in Green Road Park.

Not Important

**Tell us why**

Community groups is a waste of time and money - get on with managing the water ways. Who cares about parks when you can't access reliable power? when drainage is non existent? when there is no public transport to speak of? when the roads are in horrible condition? I don't care about a swing set i care about a 3 hour commute to work and the lack of mail service. You wont even mow the berms for old people. shameful

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

Fluffy \*\*\*\*\*. What about some real infrastructure that we can finally start to rely on? Parks? pathways? it is absolute madness. If i get a rates notification for 7.5% increase for a new park it will confirm beyond a doubt your absolute waste of oxygen

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Huapai

**8. Do you have any other comments?**

It is concerning to see these proposals. All these huge hikes (again) and broken election promises and for what? If you said to me that it would be 7.5% increase and onwards to 20% over a few years but there was something tangible in there i would hate it but i could accept it. This is total \*\*\*\*\*. This is the problem and you are perpetuating it

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No road humps or raised pedestrian crossings.

**#1131**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Stop wasting ratepayer money on this white elephant that should never have been built in the first place.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Better return and less risk

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Privatisation of port will likely lead to better productivity and competition with other ports. Better return from council.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Keep rates down

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No funding at all for Maori, Pacific Island, Asian & Indian race-based events, art & other projects. Race-based funding is racist. There are many many races who do not get race-based funding from Council for events/artwork. No race-based funding for any race is unifying. Race-based funding is seperatist, divisive & racist - a waste of rate-

**#1146**

payers money. We are all humans - that unifies us & is a good way forward. Hitler, Putin, Pol Pot, Idi Amin, Stalin were/are big fans of race-based funding to promote some races over others - that didn't turn out too well.

## 2. What do you think of the transport proposal?

I don't know

### Tell us why:

Many of the transport problems (eg. congestion) stem from over-immigration. Labour & National have built the immigration rate up to 126,000 net gain per year. Natural increase (births minus deaths) was about 20,000 last year. 146,000 people is more than the population of Taranaki. Look how long it took to build up the infrastructure of Taranaki !! Council should ask government to take the immigration rate down to 10,000 net gain per year. Along with a natural increase of 20,000 to 30,000 per year - this gives a population increase that Council can better cope with with regards to transport infrastructure,

### 2a. Is there anything you would spend more on?

Council should spend more time on cutting wasteful spending of rate-payers' hard earned money. For example - stop building race-based artwork such as the following extracts from a Local Matters article, Jul 5, 2023, headlined "Lighting up Mahurangi River" show:

"A new permanent public artwork on the Mahurangi River has cost the cash-strapped Auckland Council \$518,034".

"The project outcomes for this artwork aligns with our regional programme, which includes celebrating Te Ao Māori, supporting arts and culture, stimulating community activity and contributing to a vibrant and economically strong town centre." - A waste of money - stick to the basics - it's common sense - get it.

### 2b. Is there anything you would spend less on?

**#1146**

Council should spend Less On: on wasteful spending of rate-payers' hard earned money. For example - stop building race-based artwork such as the following extracts from a Local Matters article, Jul 5, 2023, headlined "Lighting up Mahurangi River" show:

"A new permanent public artwork on the Mahurangi River has cost the cash-strapped Auckland Council \$518,034".

Council is in serious debt. Any sensible household would spend their money cautiously in this situation. Communities can do a lot themselves without using rate-payers hard-earned money.

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

None of the priorities should involve the allocation of rate-payer funding based on race (Maori, Pacific Island or any race). Race-based funding using public funds such as rates - is racist. There should be no race-based seats on boards, council & in parliament. We are all humans - we all should have equal opportunities regardless of race (emphasis here is on opportunity. NOT outcome).

**#1191**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Private enterprise is more taxpayer efficient

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

The future always needs funding

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Port needs to move out of city central eventually

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#1191

**Tell us why:**

Public space benefits a central city, ports belong elsewhere

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. 7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
--	------------------

#1191

Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Fairly Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Very Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Very Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Very Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Fairly Important
Develop pathway connections in Green Road Park.	Fairly Important

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop wasting money on overkill pedestrians crossings and road cone cost wastage.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Looks like someone finally used their brains and thought strategically.

### 2a. Is there anything you would spend more on?

No

### 2b. Is there anything you would spend less on?

Cut out the Grants to Arts, functions and activities that can fund themselves via levies and or fees.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

The local region is growing so fast there needs to be change that will entice people to want come, either to use it and or the new facilities that will compliment it.

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

### Tell us why:

**#1197**

Leave everything as it is. Over my long lifetime 75 years I have seen promises that have been broken both by local and Central Government where money has been misused to meet other pressing needs. Everything now should be user pay.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Same comment as for 4a

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Allowing the revenue to go elsewhere is just topping up poor management. Consolidating Auckland years ago was suppose to reduce duplication , streamline activities and processes and minimise rate increases. As we have seen we have got the reverse of this through constant poor management at top level.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

#1197

Any change to the status quo will not generate revenue that can reduce rates. As in the past and even now the Council is so dysfunctional any new venture undertaken will add cost . See pedestrian crossing costs

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Leave as is , it is not broken just put more pressure on them for a higher return

The idea that the port is leased out and council loses control of future land use, which means the port is staying there building momentum in downtown and adds more trucks to our downtown roads is NUTS!

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Come on the Future Fund is a pipe dream and will only make money for the fund managers.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

The Future Fund idea is based on bad financial thinking. It sounds like money is being put into an income generating fund, but it is never going to be enough to fund the projects without taking out capital and watering down the fund. Don't do it!

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Fix the appalling state of Auckland's existing roads as the primary priority

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#1259**

Auckland, like many other councils, have lost their way in terms of delivery of the core services for which these organisations were originally established. One only has to look at the organisational structure to see how bloated the council has become. For example "cultural" and events involvement should be either aborted altogether or at least drastically reduced.

Spending crazy sums of money on unnecessary million dollar speed bumps, all weather turf and flood lights on sports fields that are rarely used to name but a couple of money wasters.

## **2. What do you think of the transport proposal?**

Don't support any of the proposal

### **Tell us why:**

Given the constant and avoidable failures within the transport network (particularly the train network where a large proportion of the budget is spent) a complete review and overhaul of the transport governance structure and organisation should be undertaken before anymore significant ratepayer funds are committed to upgrades.

### **2a. Is there anything you would spend more on?**

### **2b. Is there anything you would spend less on?**

## **3. Which options do you support for the North Harbour Stadium?**

### **Tell us why:**

AS it doesn't seem to get much use, given the cost to run it, maybe sell the land for housing redevelopment which is needed.

**#1259**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

From what can be gathered the income from the shareholding is irrelevant when one considers interest on council debt; so all shares should be sold and part of the debt paid off with the resulting funds.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Given the appalling fiscal and general performance of the port over the last few years better for it to be managed by an appropriate commercial entity that knows what it's doing.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Until the council gets back on track (i.e. ditching all the terrible wastage) it needs every cent of income to keep the bloated beast going and "theoretically" minimising rate increases.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

#1259

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

The proposal to transfer this land away from the Port just looks as though it will incur major cost with no clearly identified fiscal benefit. It would also be highly likely that yet another council entity would be created or enlarged to "manage" the tran

Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Not Important
Develop pathway connections in Green Road Park.	I don't know

**Tell us why**

These are either driven by special interest groups and/or aren't really core council considerations.

Usually when the council wishes to "enhance or improve" anything it means disproportionate spending when compared to the resultant benefits.

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

The rate at which council expenditure has been spinning out of control since the establishment of the so called "Supercity" means that either the council or its rate payers (or both) will be bankrupt in 10 years!!

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Waimauku

**8. Do you have any other comments?**

Auckland Council needs to be cognisant that they are spending ratepayer dollars not council dollars when making expenditure related decisions; a concept which seems to be wholly ignored.

I never thought I would see the day when my rates bill was more than my house and car insurances combined.

Hack back the bureaucracy, slash the "nice-to-haves" and root out the runaway fripperies that are rampant throughout the council apparatus. Focus on operating the core basics and fundamentals well and leave the showy bits and pieces to those who wish to fund them privately

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Specifically, strongly in support of the ~\$124m earmarked for improvement of unsealed rural roads. In Rodney, the rural roads are a disgrace.

I regularly host and interact with visitors from other parts of NZ and various parts of the world, and my visitors are consistently appalled at the state of our roads; in particular, our unsealed roads.

Rural unsealed road users in Rodney regularly have to endure unsafe driving conditions on pothole-ridden, heavily wash-boarded and poorly maintained roads which inflict increased wear and tear on our vehicles (blown out tyres, damaged rims, strained suspension etc.), and create accident-prone driving situations (e.g. head-on crash risks on blind corners as cars swerve across into the oncoming lane to avoid minefields of potholes).

To liken our unsealed roads to those of third world countries would be a gross disservice to those third world countries. To think that rural ratepayers (who are already under-serviced and over-burdened by a disproportionate share of rates payable relative to infrastructure provided rurally) have to put up with this state of affairs in what is sometimes unironically touted as one of the "world's most liveable cities" is laughable.

Sealing and fixing unsealed roads, in Rodney in particular

### **2b. Is there anything you would spend less on?**

Support most of the proposal

**Tell us why:**

I agree with stopping some previously-planned initiatives, such as some raised pedestrian crossings and cycleways.

**2a. Is there anything you would spend more on?**

Roads

**2b. Is there anything you would spend less on?**

CYcle ways

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Its underutilised at present.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Funds are needed by ACC

**4b. Which option do you prefer for the future of Port of Auckland?**

Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Less wastage

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#1305**

Yes as above. There is so much more Council could do. I.E the amount of people working on roads and doing them properly in the first place

**2. What do you think of the transport proposal?**

I don't know

**Tell us why:**

Because at the end of the day you will do what you want anyway

**2a. Is there anything you would spend more on?**

Yes. Roading repairs done properly and less speed bumps

**2b. Is there anything you would spend less on?**

No

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Because POAL are performing well

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Because the funds received by council should be used for council services

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No! Rates are unaffordable as it is ! Ridiculous that Im paying nearly FOUR THOUSAND DOLLARS a year!!!

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#1327**

Cut number of public servants. Bring salaries into line with Private business.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

Public transport is already heavily subsidized. The central rail loop is a ridiculous project that wont pay for itself when complete and will require rates increases to subsidize an option I will never use !

### **2a. Is there anything you would spend more on?**

No.

### **2b. Is there anything you would spend less on?**

Reducing roadcone stop/go obligations, reducing cycleways, reducing raised ped crossings.

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

### **Tell us why:**

Now is not the time for grandiose projects or unnecessary spending. The facility is more than adequate, we don't need a gold plated solution in these financially constrained times.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#1327**

**Tell us why:**

Makes sense to generate cashflow to free up funds which could be used to pay down debt obligations NOT to spend on more silly projects.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Generates cashflow and retains the option to cut council services. The public dont want a lot of the frippery they have decided to involve themselves in.

I support all priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Not Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Very Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Very Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I really just want the basics done right. An example of this: The ditch on the side of the road next to our property hasn't been cleared since the floods last year. Every time it rains, the road floods and cars nearly crash as it's deceptive. If we can't get a ditch cleared, what hope do we have in the rest being done properly?

**#1337**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Stick to the core essentials. Less events and nice to haves.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Planning. Please get it right the first time round.

**2b. Is there anything you would spend less on?**

Quick wins that have to be undone later.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

IF it brings in revenue over the long term to cover it's cost. Then yes.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**#1337**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

What is the problem that is trying to be solved?

**5b. What option do you prefer for Bledisloe Terminal?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. ## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No. Just cut the fat and waste.

The best approach would be to go back to regional councils who care it at least have a better understanding of local

Issues. No one voted for a Super City.

**#1448**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Cultural events are a nice to have, reduce these as cost of living is real for the majority of households.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Reduce cycle ways, no one uses them.

No one uses public transport but there is a need for elderly and others for this so ask these groups what they need before going ahead with a plan designed by people who never use public transport.

**2a. Is there anything you would spend more on?**

Removing speed bumps

**2b. Is there anything you would spend less on?**

Speed bumps

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

The current management have done little to help the venue succeed, the older model / management had good levels of success. The North Shore is developing rapidly and requires a facility such as this but run correctly with more value for the community.

**#1448**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Greatly reduce internal costs. Mayor Brown said he was going to cut the headcount. Where is that?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#1483**

Reduce non essential "feel goods" No more running concerts and events, sell off under utilised costly assets i.e North Harbour Stadium, get rid of idiots promoting raised crossings, planter boxes and painted roads, etc

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Clowns have spent 7 years basically making everything worse. Scrap everything they have done and start again with properly formulated ideas to improve traffic access and not hinder it.

### **2a. Is there anything you would spend more on?**

Redundancy and leaving packages for the current excess and useless employees.

### **2b. Is there anything you would spend less on?**

Wages and office space.

## **3. Which options do you support for the North Harbour Stadium?**

Council do not need to be involved in running it and certainly not as a CCO. We do not want another fiasco like Auckland Transport.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Why put it in a fund and then ask for rate increases. Just charge the new operator a cost as you would any other business and enjoy the profit.

### 2. What do you think of the transport proposal?

**#1511**

Support all of the proposal

**Tell us why:**

We have to invest to get more people using transport. Upgrades of fixes to roading is a must, however things like raised crossings aren't necessary unless it is proved to be in a high accident area.

**2a. Is there anything you would spend more on?**

Public transport. Get it working rather than cutting services.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

It used to be used a lot, then the management of it changed and now it sits there doing nothing. Get a management structure in that gets the events back, thinks outside the square for community use, make it accessible and making money. Then it can be upgraded.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I think this will then be the start of moving the entire POA wharf elsewhere.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Paying for cultural and entertainment events in central Auckland until rates go back to 3%

**#1589**

## 2. What do you think of the transport proposal?

I don't know

### Tell us why:

Public transport will always be slow if you rely on buses. Buses are NOT rapid transport. You would be laughed at in Europe and Asia. The throughput of passengers and speed of transport is always second-rate. A light rail system is desperately needed. Spending money on roads is just a short term bet. The more roads you build or improve the number of cars will catch up and we will be in the same position as now. Break the cycle. It is not difficult to pay for public transport now. Capping the fares sounds great, but only if the fares are increased.

### 2a. Is there anything you would spend more on?

Put in a congestion charge with a clever system of cameras to capture user details. It will make a difference for a few years, giving time for a long term solution, which of course will not be looked at.

### 2b. Is there anything you would spend less on?

Adding any new roads. We need to reduce the number of cars on the road, not encourage more.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

### Tell us why:

The north shore and hibiscus coast could support a professional sporting team... not rugby, maybe football. Above all the stadium needs to be used more.

**#1589**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

I hope that this fund will be the Auckland equivalent of a sovereign wealth fund. Investing outside of Auckland will open up many more opportunities and allow diversification. Makes sense to me.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

The port is an eyesore. Either move it or close it and sell off the land for development. The council could be partners in any redevelopment and maintain some interest.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I support most priorities

#### More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Very Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Very Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Very Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Fairly Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Not Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Not Important

Develop pathway connections in Green Road Park.

Not Important

**Tell us why**

Two arts centres in the south-west of the board seems that that area is rather well served. How about the rest of the board?

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Yes tar seal gravel roads, build more two lane in each direction roads

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less community & Maori activities

**#1616**

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

Public transport is a enormous waste of money :

- the infrastructure build costs are always five time what was originally budgeted.
- people do not travel in straight lines on mass, their destinations are more spread out like fingers from a hand.
- the running costs are never covered by the fares charged - people who use public transport should have to pay the actual true running costs of this service.

### 2a. Is there anything you would spend more on?

- immediate tar sealing of all gravel roads in the Akl area.
- more two & three lane in each direction arterial roads.

### 2b. Is there anything you would spend less on?

Cycle lanes and raised pedestrian crossing are a colossal waste of money - all they do is slow transport down, making all journeys much longer & far more costly.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

North Harbour Stadium is a white elephant.

Build an enormous underground car park where it is so that people after 6.30 a.m. in the morning may use the northern busway & still have areas to park.

Feeder service DO NOT WORK in rural & semi rural areas - people still have to use their cars to get to the bus station hubs so large parking is needed.

**#1616**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Akl city council has no business owning shares in the airport and should, sell them all.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

The port needs to be transferred out of Auckland & the land sold up by the council for future development.

**4c. If the council continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I don't trust that the Auckland Future Fund will become quango spending money on woke projects that are politically attractive to the people running it rather than the money being spent on desperately needed infrastructure.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Remove the port sell that land

#1616

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Here in Waimauku we see very little in the way of Council Services anyway so the Council should recognise this by lowering the rates we pay

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

As 1c

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

We see very little in the way of transport services in Waimauku

**2a. Is there anything you would spend more on?**

A train service

**2b. Is there anything you would spend less on?**

makes very little difference as there is very little spent on services in Waimauku

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>

Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do more
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Do less of this b/S of changing park and cultural centres names with dual names

Just an absolute waste of money.

Thought the council was trying to economise

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

Because public transport is so inefficient

Get someone to run it properly

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Sounds a far better investment prospect

**4b. Which option do you prefer for the future of Port of Auckland?**

**#1788**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Continued urban spread without any expansion of existing infrastructure - eg roads and transport Norwest

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

We have continually had taxes etc and there is very little noticeable change. I dont trust that funding will be spent where needed. Auckland is bigger than the CBD and city.

### 2a. Is there anything you would spend more on?

The West and Norwest have absoulety substandard transport services and roading conditions. This is an equality issue, especially with this unwanted urban sprawl making it so much worse.

### 2b. Is there anything you would spend less on?

Cycle ways, speed humps, PR to tell us what a great job they are doing.

## 3. Which options do you support for the North Harbour Stadium?

Other

### Tell us why:

Should we even be in the business of stadiums. Council can own the land and let operators run it at a commerical return.

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Once the shares are sold, they are gone. I do not believe we should be selling assets

Because I don't trust council to work to do anything except maximise their bonuses

A proper train service on the North Shore to get people out of their cars and free up the motorways.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#1926**

Stop wasting money on fancy cultural designs for simple construction projects.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Stop messing around with little short term projects that don't achieve anything.

Thing BIG, a train service on the North Shore, a full ferry service form Gulf Harbour and stopping at the bays on the North Shore. Make the state highways 4 or 5 lanes.

### **2a. Is there anything you would spend more on?**

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

Improving transport network connections is vital for economic development to reduce time wasted in traffic. However, this needs to go hand in hand with encouraging intensification of housing in central areas or around bus/railway stations rather than building more developments at the outer edges of the city

### 2a. Is there anything you would spend more on?

Improvements to the AT Hop card system. App has many issues, often doesn't load the live data and taking over an hour for any credit to be uploaded to the actual cards. Make it so your phone can be your Hop card. Would work soooo much better for high school students.

### 2b. Is there anything you would spend less on?

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

North Harbour stadium is a valuable event asset for the entire North Shore area. More should be done to encourage events as it is under-utilised. Possibly this could involve changing management or fees related to it. As a Rodney resident, I would love more events to be held at North Harbour stadium

Having more waterfront land available for public use is excellent. However needs to be balanced against the cost of increasing supply issues. Retaining Bledisloe terminal seems like a good balance

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

As I already pay an extra levy for transport (since I live in the 'Rodney' area), I would like council to actually use the money to maintain the gravel roads like they promised.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#1963**

Stop giving upper management big pay increases/bonuses. Stop hiring temporary contractors (project managers, etc) who always have a higher pay scale than if you just hired a permanent staff member in that role

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

The proposal has no benefit for anyone who lives rurally

**2a. Is there anything you would spend more on?**

Maintaining rural roads

**2b. Is there anything you would spend less on?**

Stop paying the roading contractors for fixing or replacing roads that 'lift' or are damaged within eight weeks of them being repaired.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Need to keep the stadium - just use it more for shows, expos etc.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Too risky

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

### Rodney Local Board Priorities

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Very Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Fairly Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Very Important

#1991

Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Fairly Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Very Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Very Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	I don't know
Develop pathway connections in Green Road Park.	I don't know

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Walkways and cycleways, art installations, non-essential projects

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

Offers more satisfactory outcomes within budget

### 2a. Is there anything you would spend more on?

Not on those but still need to fix Rodney unsealed roads

### 2b. Is there anything you would spend less on?

There is a general tendency to go overboard on safety but council needs to be realistic

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

### Tell us why:

This stadium should be paying its way while also meeting the needs of the local community

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Like the idea of leasing the port operations but 35 years is a long time to commit to that.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Need that funding NOW rather than later.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Support the idea of moving the port up north to Marsden Point. We need to free up traffic congestion to support future economic growth.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Doesn't work well for council now so why prolong the agony. Something needs to change.

**5b. What option do you prefer for Bledisloe Terminal?**

#1992

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Need to encourage cruise ships and they have to dock somewhere. Tourism is an area that can bring economic benefits to the city.

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Raised pedestrian crossings and cycleways

**2b. Is there anything you would spend less on?**

High tech payment systems. The system with the HOP card works fine as it is.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

The North Harbour Stadium was built at great cost by North Shore Council and funded in part by North Shore ratepayers. It would be extremely short sighted and wasteful to demolish the Stadium. It should be maintained so that it can be used, as originally intended, for sporting and other events e.g. concerts. Ticket prices should go a long way towards ongoing maintenance.

Puhoi

**8. Do you have any other comments?**

Three areas in relation to Auckland's forward planning which are crucial and which need stronger protection are trees (tree protection), historic buildings and historic houses and library services.

Trees, especially large and native trees, need much stronger protection. Developers and landowners should not be allowed to remove large trees or native trees for their own convenience. Trees are a taonga, providing enormous benefits to our wellbeing as well as being absorbers of CO2. The process by which trees are legally protected

**#2057**

needs to be simple and free for the person applying. We are losing too many of our significant trees to greed and selfishness. The whole process for protecting them needs to be overhauled to ensure that the end result is greater protection of a larger number of trees and not less protection.

Likewise, historic buildings and houses need greater protection. They are part of our shared heritage and once demolished, are lost forever and to us all.

Libraries need to be supported by Council and should remain free. They are not a luxury, but they provide a very necessary service for both our tamariki, rangatahi and adults.

for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools</b> .	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Do not support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. ## Local board priorities

7a. Which local board area does your feedback relate to?

Rodney

## Rodney Local Board Priorities

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	

#2164

Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	
Develop pathway connections in Green Road Park.	

**Tell us why**

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Change the law so that criminals don’t have to spend time in jail like they do in a hotel

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Don't support the islanders, we all have hands and feet, there is no difference

**#2167**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

New Zealand needs drastic reforms. Society is not designed to serve a small group of people.

**2a. Is there anything you would spend more on?**

Public Security

**2b. Is there anything you would spend less on?**

Welfare

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Whoever uses the gymnasium pays for it. There are already many free sports. Let individuals run the gymnasium and be responsible for their own profits and losses. If the government does not have management talent, let capable people manage it.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**#2167**

The New Zealand government is not suitable for fund investment because the government itself is highly bureaucratic and all matters need to be outsourced. All the money is earned by outsourcing companies. More importantly, many outsourcing companies are rubbish and are idealists.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

It is suggested to move the port to other cities to boost the economy of other regions and reduce the burden of transport vehicles on Auckland's poor traffic. More commercial projects can be added in the most prime location in New Zealand to boost tourism, commerce and housing.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

The city council is not suitable for running the port, so move it to other places. The city council is suitable for renting it out and making rent, but not for management.

**4d. Do you have any feedback on any other part of the proposal?**

**Henderson-Massey Local Board Priorities**

**7b. What do you think of our proposed priorities for Henderson-Massey in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

#2167

Our People – create opportunities that support connectedness, diversity and inclusion in our community.	
Our Environment – focus on initiatives that increase tree canopy cover, improve water health and provide for resilient and low carbon communities across Henderson-Massey.	
Our Community – ensure the maintenance and development of ‘fit for purpose’ local services and spaces meet the needs of our diverse communities.	
Our Places – support initiatives that improve walking and cycling opportunities.	
Our Economy – continue to support the Western Initiative to deliver the Youth Connections programme.	

**Tell us why**

**7c. What do you think of the Henderson-Massey proposed priorities for the 10-year budget 2024-2034?**

I support all priorities

**Hibiscus and Bays Local Board Priorities**

**7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Support the development of community led resilience networks in our area, so our community and organisations will know who

does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.	支持国家党改革，对不对 先改革再说，已经这么烂了，怕什么

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

**#2239**

Don't support any of the proposal

**Tell us why:**

I've no confidence the money will be well spent

**2a. Is there anything you would spend more on?**

No--I would re-allocate the existing funds and gain any needed new funds from selling/leasing assets. I would privatize where possible, encourage competition and let the open market make things more efficient. People will pay for and use the things that are good.

**2b. Is there anything you would spend less on?**

Bureaucracy and middle managers. Remove people resources being paid but not performing any function that stakeholders gain tangible benefit from. Reduce process barriers and the costs associated with those. Reduce waste on hr/ middle managers and useless position like DEI / equity or other roles that can be dropped without loss of capability.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is,Other

**Tell us why:**

not interested don't spend on this. Privatize it

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

If there is reduced costs and waste then go for it.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

reduce big govt

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

privatize it

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Other

**Tell us why:**

sell it / privatize

**5b. What option do you prefer for Bledisloe Terminal?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

Do not support most of the proposal

**Tell us why:**

Honestly, We can barely afford paying the rates as it is with all the mortgage and everything else. Adding more to rates would be devastating to families like ourselves.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

City council internal staff who are doing nothing most of their working days

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

There are higher priorities at the moment.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The city council shares in Auckland airport are one of the best investments for City Council. Selling these would get the council cash to get by temporarily, but on the long term it won't fix the issue.

**4b. Which option do you prefer for the future of Port of Auckland?**

#2297

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

**6a. What do you think of these proposals?**

All of council needs to attend to the basics and leave the rest until such time as it can be afforded- there is a mountain of basic infrastructure that need fixing. A more equitable distribution of costs and benefits across rural and urban sectors is badly needed. For example Why are rural ratepayer who have to transport their own rubbish several kms and pay for the bags subsidising green waster collections for those in urban areas

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

To reduce the number of council officials in positions but not fulfilling their duties.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

To reduce the taxpayer's money-wasting, meaningless government consultations.

**#2349**

## 2. What do you think of the transport proposal?

Don't support any of the proposal

### Tell us why:

There has been no improvement in the traffic situation since Wayne Brown became the mayor. I don't see that the council has any capability to improve the current situation but keeps charging every landlord.

### 2a. Is there anything you would spend more on?

Instead of only charging every landlord, every road user, whether they own a house or rent, or reside in Housing NZ, should be equally charged as long as they are registered vehicle owners.

### 2b. Is there anything you would spend less on?

The foolish and impractical bicycle lane construction plan. Absolutely a waste of everything.

## 3. Which options do you support for the North Harbour Stadium?

Change the operational management

### Tell us why:

If the current management isn't performing their duties, why not replace them? The same principle should apply to the city council as well.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

**#2349**

**Tell us why:**

Commercializing AIAL and introducing foreign capital will create a positive competitive environment, benefiting not only AIAL but the entire Auckland region.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

If the current management can not bring enough benefit, why not replace them? The same principle should apply to the city council as well.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

I don't see how council services benefit the community. It might be more beneficial to allocate the funds towards new concepts or foundations.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

One principle is that anyone in a position who cannot fulfill their duties should be replaced.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#2349

**Tell us why:**

I won't believe any claims the council makes about "public benefit" without seeing practical plans to support those claims.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

I won't believe any claims the council makes about "public benefit" without seeing practical plans to support those claims.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support

Transport	Do more
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

less mowing of rural verges, less art works in parks, just concentrate on the basics

**#2374**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

still need cycleways as alternate transport

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

get rid of all the orange cones, what a joke

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

don't need to upgrade it but good to allow others to use it.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

good idea

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support

### Henderson-Massey Local Board Priorities

7b. What do you think of our proposed priorities for Henderson-Massey in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Our People – create opportunities that support connectedness, diversity and inclusion in our community.	
Our Environment – focus on initiatives that increase tree canopy cover, improve water health and provide for resilient and low carbon communities across Henderson-Massey.	
Our Community – ensure the maintenance and development of ‘fit for purpose’ local services and spaces meet the needs of our diverse communities.	
Our Places – support initiatives that improve walking and cycling opportunities.	

#2374

Our Economy – continue to support the Western Initiative to deliver the Youth Connections programme.

**Tell us why**

**7c. What do you think of the Henderson-Massey proposed priorities for the 10-year budget 2024-2034?**

I do not support most priorities

**Hibiscus and Bays Local Board Priorities**

**7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?**

Fairly Important

**More specifically, what do you think of each priority we've listed above?**

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	Fairly Important
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	Not Important
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	Not Important

#2374

Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	Very Important
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

## Rodney Local Board Priorities

**7b. What do you think of our proposed priorities for Rodney in 2024/2025?**

I do not support most priorities

**More specifically, what do you think of each priority we've listed above?**

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Not Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Fairly Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Not Important

#2374

Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Not Important
Develop pathway connections in Green Road Park.	Not Important

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More repairs on fixing our roads around Rodney, instead if doing cheap fixes time and time again, spend a bit more money to fix them properly the first time

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2380**

Less wasteful spending, eg fixing roads that don't need fixing, paying for 10 different people- mowers to mow reserves as most of them just watch one person do it. Less lowering the speed limit on "un safe" roads. Just fix them

**2. What do you think of the transport proposal?**

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2458**

The rates have already increased massively in the last few years. I have to idea what they go towards apart from constant road renovations that nobody needs.

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

As above

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

Orange cones and useless road renovations

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#2458**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

You need to do more with less money. We already pay a \*\*\*\*\* ton, with constant increases every year, and see very little in return.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2472**

Trim the fat. Get rid of your useless mayor and others that just waste time and money.

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

We already pay more than enough.

**2a. Is there anything you would spend more on?**

Nothing.

**2b. Is there anything you would spend less on?**

Everything. Everything is way overpriced.

**3. Which options do you support for the North Harbour Stadium?**

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

recognise the rates costs for the elderly, have exemptions with means testing from a certain age because the rates rebate hasnt increased yet the rates have and even for many, even with the rebate, the rates still is a huge part of the weekly budge. It should not be costing an elderly couple in a basic 3bedroom home \$70 per week in council

**#2590**

TAX which in some ways is theft thinking you can incur this costly demand on elderly citizens for local projects they wont use

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less land banking, local grants to "charities", putting money into stadiums, leisure centers. There is a financial crisis right now and thinking you can simply pass the buck onto citizens is cruel. Especially when take for example the elderly, would NEVER use public amenities as such, live in smaller homes, and only rely on water and rubbish collections. Id suggest rather than a set "rebate" that there is also perhaps some sort of general means testing so the elderly are not forced from their homes because they cant afford rates. The majority will have no doubt already contributed heck of alot over their life time where youd think they would re recognized and exempt after a certain age. While your charging more to the younger ones who would be using the public amenities and sports buildings. I feel all these should be user pays as well. So for me, its not about asking the council to do less other than to quit what Ive mentioned but to have age brackets for rates where it is cheaper as you get older and exempt after a certain age with a means tested application. Understanding many will have plenty in the bank, the majority normal everyday workers who brought up a family, wont. I feel its cruel to kick the elderly out of their homes because they cant afford rates while you can gift hundreds and thousands to charities and invest in land banking means your charging too much. And also perhaps cut back on councillor wages and perks. And to cut back on unnecessary consultancy costs

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

Citizens cannot afford this, its cruel to demand the money from us. Get it from the government who we have already paid taxes to. Demanding it in the way of rates is unlawful

**2a. Is there anything you would spend more on?**

NO

**#2590**

**2b. Is there anything you would spend less on?**

Stadiums, land banking, beautification, parks. All needs to go on hold. You cant just keep continuing as if we have endless pockets. Get it from the government from the taxes we have paid, Only charge rates for rubbish, water and actual property services. If there isnt the money for other projects, simple, dont do it.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

Its for entertainment, if there isnt the money, dont do it. People will survive without it but putting the cost onto rate payers / elderly who dont use it is unfair. If it is done, get the money back through fundraising, sponsors and user pays not rate payers. Especially ones who will never use it

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

I have read about the CCOs when it comes to the wellington water crisis and drainage. Taking that as an example, money needs to go into local infrastructure. Ports whether shipping or air should be government not local council. Then the money from those things can go into infrastructure. Kumeu is an example. Very little has gone into infrastructure, storm water, etc but you continue to build and build more homes, then we get that flooding., Wellington, drains are in a poor state and should never had gotten that bad. More attention to where money and resources should be going with local infrastructure and services.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**#2590**

**Tell us here:**

Sell it to the government and have them manage it from our taxes. What if any comes back to the rates payer when Ports of Ak is run as a business. NONE, you diviy it out to wasted consultant fees and unnecessary projects!

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Increase the amount that can be collected with inorganic collections. 2mx2m since we have alot left behind if there is one whiteware and a few other things, only one or the other has been taken leaving the rest behind.

Allow for verge collections again instead of inside properties. Many have large gates that are closed while family is at work and cant just go leaving gates open. Verge collection does allow for people to scavenge but there should be nothing wrong with that. Everything is only out there over night and for a few hours the next day.

NETR should be gov run, not put on rates

Too much goes into things are are not necessary. I hate to think how much the new park in Parakai is costing when it wont be used. The population is low and low income despite the pools that arent as popular for tourism as they used to be.

**#2590**

We dont need exercises put under the guise of education. We have schools and common sense when it comes to waste management education. Public toilets YES, that IS a necessary service AND more needs to go into general cleaning of them.

People find their own activities, council shouldnt have any part in this. RSAs do a brilliant job.

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

Dont charge any more on rates. Instead, cut back on the "projects", staff. staff wages, consultancy fees, take your money from land banked assets and sell them!

Roads should be done by NZTA from RUC NOT rate payers. I dont drive so shouldnt have to pay anything from my rates. More should be user pays not put on rate payers. Give locals more say on where the money is spent. It seems with local councils, they make decisions, allow for submissions but ignore them and go ahead anyway. Its seems that even the councillors end up asking the locals to assist with stopping something from being done that may be coming from higher powers. When we are meant to be local run.

I do not agree with any so called climate action projects since I believe the climate crisis narrative is political propoganda for the globalist coffers. So much propoganda went into "its a hot summer due to climate crisis" Bull, there were higher temperatures in the past!" It will always cycle up and down but politics push fear mongering narratives and push incentives that end up costing the tax payer and rate payer. A total scam to make more money from a fake crisis. The floods in Kumeu were from poor council management and maintenance of the storm water!

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Kumeu

**8. Do you have any other comments?**

Dont charge us more for rates.

Give elderly means tested exemptions

increase the rates rebate in line with the last round of increase rates. Rates went up but the rebate didnt!

**#2590**

Put less into projects that could be funded outside from fundraising, sponsors, government and user pays.

People who dont use public services, stadiums etc shouldnt have horrific weekly rates burdens

Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Not if it means increases in the Rates as we already pay more than enough. You need to look at ways that you can work more efficiently instead of demanding more and more from the rate payers.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2601**

I would like the costs that are related to Council meetings and perks to be examined, made public, and reduced. The public is constantly having to reduce their expenditure. How are retirees going to cope with increases in costs as the rebate is capped?

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

If we are to meet the environmental changes we need to be transporting multiple people rather than our reliance on single cars.

**2a. Is there anything you would spend more on?**

Fast effective rail and another crossing for the Harbour Bridge to ease traffic congestion. This could be relieved also by a Tunnel.

**2b. Is there anything you would spend less on?**

Our obsession with providing more lanes for single cars.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

cycling and public transport infrastructure. cultural and environmental activism programmes.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

I support reducing investment in crossing and cycle ways, as well as more dynamic traffic management. I don't support increased investment in the public transport network.

### 2a. Is there anything you would spend more on?

Road maintenance and focussing on reducing traffic via opening up more lanes for cars, rather than trying to force people out of private vehicles by making driving miserable and untenable. The working class by and large do not have the luxury of taking public transport.

### 2b. Is there anything you would spend less on?

DEI programs. multi lingual signs. busses trains and bicycles - as those have been overinvested in recent years and are still terrible.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

### Tell us why:

sell it off. the council shouldn't be owning and maintaining things like stadiums.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

**#2639**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

i dont support selling off assets for the sake of future nebulous investments. i think the risk is too great that the money will not be spent well. id rather that the council either hold on to it, or sell it and use the proceeds to lower rates.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

i think the council should not try to enforce its objectives by putting increased pressure on the port. let them do port things, and you guys do council things.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I in no way trust that the auckland future fund has the ratepayers best interests at heart. focus on core council services.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

drop the future fund and focus on the core council services

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#2639

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

this is not something i percieve the council should be spending on at this time. the port already provides public benefit via dividends and economics. my preference is for the council to stop trying to mess with the port.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

i cant imagine taking this land would have no impact to port operations. as above.

## Rodney Local Board Priorities

### 7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support most priorities

#### More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Not Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Very Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Not Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Fairly Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2673**

Frivolous waste of money into the feel-good sector ie art works on motorways etc. Get back to basics.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

Unless it's actually a safety issue, then peoples common sense need to prevail.

### **2a. Is there anything you would spend more on?**

No

### **2b. Is there anything you would spend less on?**

I have had the pothole temporally fixed on the bottom of the road 4 x times now before it was permanently fixed. Surely it would have been more cost effective to do it right first time. I would love to know the extra cost involved in the temporary fixes only to have to spend the money on the final permanent job.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

### **Tell us why:**

This is not used as a major events venue often to warrant the cost. If the decision is to keep this resource then management needs to be put in place to bring in revenue.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#2673**

**Tell us why:**

This is an asset which at times of need can be sold to fund better infrastructure in Auckland City. Which is the council's duty.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The major asset of the land is still owned by Auckland rate payers but without the ongoing operational costs.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

The money should be used to lessen the burden of rates increases to Aucklanders.

NO NO NO - You said it yourself. Cost 110 Million - It would also lower the value of the proposed port lease by an estimated \$300 million or reduce the future profits and dividends the council earns from the port. With no guarantee of return on invest

**#2673**

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

Rodney - especially North West Auckland needs a focus on roading congestion and schools. Both of which I feel are more a central government issue. A lot of people here are on water tank / septic tanks etc and are self-reliant. What we don't want is to fund everyone else's services that we don't access.

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Huapai

**8. Do you have any other comments?**

I can't stress this strongly enough. We need to cut back on spending and get back to basics. We don't need to appease everyone with the "feel good" activities. Do things right the first time. Hold contractors accountable if a job does not meet standards or requirements.

If we don't have the money don't spend it. When we are back on a strong financial footing then we can look to bring in the extra's that are nice but not essential.

User pays applies to both individual households and councils.

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	

#2685

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

Rodney

## Rodney Local Board Priorities

**7b. What do you think of our proposed priorities for Rodney in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Not Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response	Not Important

#2685

Assessment study being undertaken in 2023/2024.	
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Not Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Fairly Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Not Important
Develop pathway connections in Green Road Park.	Not Important

**Tell us why**

There are far more pressing needs. Get the roads right. Employ competent roading contractors

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

Too broad. Focus on fundamentals

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Matakana

**#2685**

**8. Do you have any other comments?**

I feel totally forgotten. I live n a valuable property but have to ruin my car driving up a very poorly maintained metal road.

Maintenance on it is a shocking waste of money because it is so badly done.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Nope

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Pedestrian crossings and cycleways should be increased/as originally proposed and seen as a priority

### 2a. Is there anything you would spend more on?

As above

### 2b. Is there anything you would spend less on?

"traffic optimisation"

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

Cost and priorities of spending

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

Shareholding by AIAL provides control of Auckland of an important asset reflecting services available to Auckland and therefore NZ.

**#2689**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Economic and cultural development	As proposed
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Roads, Public Transport and that's it. That should be the primary focus for council.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2705**

Spending cuts on Council units which are not generating revenue. Arts and culture is great however this is not the time to allocate funds to it.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Seems like this has been proposed for a while however no/less action has been taken and it is still the same.

**2a. Is there anything you would spend more on?**

Nope just focus on the Transport and cut wasteful spending

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Holding shares AIAL is not adding any value when we are in dire need of proper transport options in the city.

### Rodney Local Board Priorities

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response	Not Important

Assessment study being undertaken in 2023/2024.	
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Fairly Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Not Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Not Important
Develop pathway connections in Green Road Park.	Not Important

## Whau Local Board Priorities

### 7b. What do you think of our proposed priorities for Whau in 2024/2025?

I do not support most priorities

#### More specifically, what do you think of each priority we've listed above?

We will work with our partners to build community capacity, from climate/emergency preparedness and community resilience to increased participation and community capability.	Not Important
We will encourage and support volunteerism and community participation, especially through environmental and ecological initiatives around the Manukau Harbour and foreshore, the Whau River and its tributaries, and our urban ngahere.	Fairly Important
We will continue to undertake governance-level engagement and collaboration with mana whenua and the other west Auckland local boards.	Not Important
We will work with the local BIDs where possible, to support local economy and to realise shared goals around climate action, community connection and belonging.	Not Important
We will consider accessibility and inclusion across our services, engagement, and other initiatives.	Fairly Important

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

My wallet is spent, every bill has gone up. There is no more room for the council to blow more of my money. The council has a terrible track record of spending money. Why give more and get the same result. Earn the privilege to ask for more before getting it. You are civil servants.

**#2719**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less unnecessary spending. The regions pay the most and see the least. Stop throwing money at art during a financial crisis. Now is the time for essential infrastructure repair and improvements. When the economy improves that's when we can add more art projects as a show of prosperity. Earn there privilege first.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

The planned initiatives are a money waster. They are nice to haves and aren't essential during a financial crisis.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

No point investing in public transport when it operates as a spoke wheel model. Not everyone is looking to head to the CBD. Too few carparks for those wanting to use public transport. Make it more accessible or stop investing.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

It is not surrounded my housing like Mt Eden. It has several access point for car, close to the Albany bus terminal. Plenty of shops and eateries close by. This would make a far better venue than Mt Eden. Ditch Mt Eden. Invest in North Harbour.

**#2719**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

We need to make sure we replace what assets we sell off for short term gain. Or we risk future budget restraint that will cause higher rates. Or failure to meet the needs of the city

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#2719

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	I don't know
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	I don't know
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	Do not support

#2719

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

Where is the local infrastructure? Schools are maxed out. Roads are getting more choked. Rodney is growing fast. Green belts are gone. It would make sense to invest in a Rodney hospital that can meet the growth in 50yrs.

Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

my road has been potholes and an absolute mess for years, downer come I am sure they look at the weather report, load it with gravel, roughly grade it then it rains it washes out and then fills the drains, in which we getting flood in our property. I park at a park and ride to take a bus and right there is a train track makes absolute no sense to me and have to take 2 buses just to get to work and because of the time frame it is a 14 hour day just to get to and from work

**#2827**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Stop doing cycle ways and pretty parks that get vandalised or not used by people people like me but can't even drive on my road properly

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Because to get to work I have to park at a park and ride which is right next to a train track and there is even a station, I have to take 2 x buses and literally have to leave home at 5.00 am to get the bus as the times are all wrong, also on the way home there is a bus at 3.30 which is not in normal business working hours, and the next one is 4.30 which again isn't really in business hours, and I get home around 6.00 pm making it a long day, may as well clog the motorways and get home earlier, makes no sense at all

**2a. Is there anything you would spend more on?**

My road and transport

**2b. Is there anything you would spend less on?**

yeah re doing roads in my neighbourhood that don't need re tarsealing again, just to spend the budget, If I had a councillor or a manager living on my road from Auckland Council or Downers yeah well I am sure it would be done. Also the dust that the cars create, goes on to my roof and into my water tanks so I can't even drink the water and the health hazard.

Don't raise rates for newly built areas. Our infrastructure is good and we are paying body corp fees that are part of our property covenants.. Let users who purchase cheaper properties in less developed areas pay for improvements to their infrastructure.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

With the Parks and Community, I've ticked the as proposed box, but I would like to see more money to the Local Boards and less money on the Arts.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2841**

Not force those of us to go onto Rubbish Collection costs in our Rates. Like many others, I have very little rubbish. I have a small wheelie bin and it usually only goes out about every few weeks. Going onto the rates means my rubbish collection per annum will be tons more than now, and as a superannuant on a very limited income, that is a lot to try to pay for on top of all the other essential expenses that are increasing.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

The Metro Bus in our area is not user-friendly re time, unless you are a worker going to work in the morning. I would use it more often if the stops were a little more frequent. I use the Matakana/Omaha/Pt Wells bus.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Since the management style currently used came into being, the Stadium has gone backward. The management needs to be people who are passionate about it and it's success. It is the only Stadium north of the Harbour Bridge. Those of us up north NEED this. Run properly it would be great for concerts, etc. and wouldn't clog the inner city streets (which are horrible to try and navigate) with traffic.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

It makes sense to provide for a rainy day, rather than hold our breath and keeping fingers' crossed.

With the Wastewater charge, I would like to see a REDUCTION of charges for those of us on tank water, because we are already generally frugal water users, which means that our wastewater is a very small amount. It is not fair that we should have to pay MORE than those on town water supply. My home is a single person home. I pay MORE than many families pay for water AND wastewater combined.

Please lower your administration costs every year by 5 % and stop wasting money on translations to foreign languages like Hindi or Chinese (as it is done in this example with this survey), of course I'm happy to support Te Reo Māori and New Zealand Sign Language video, but it just doesn't compute that we need to finance two different types of Chinese language. They migrate to NZ because it's a nicer place then where they are coming from and therefore it shouldn't be an issue to them to use Google translate or other similar services if they haven't learn the lingo yet.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Because history tells me that it's done in an inefficient way.

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

Yeap, please don't introduce capped weekly public transport passes but make the public transport be paid by the users only.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

This seems the best option to me.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#2857**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Because then we would have to pay twice for admin/CEOs/IT costs etc. etc.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I think this would be the most efficient way.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

As I stated above: The proposed Auckland Future Fund would just be a second monster and with the expected miss management (within 10 years there will be at least one big mistake by the managers which will cost the rate payers again to bail "things" out).

**4d. Do you have any feedback on any other part of the proposal?**

Please try to cut costs in your salaries, your IT, your over the top political correctness (e. g. Chinese languages).

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.

reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Public transport is a good focus. Bike lanes need no further development.

**2a. Is there anything you would spend more on?**

Anything to encourage more bus use

**2b. Is there anything you would spend less on?**

Bike lanes and raised pedestrian crossings

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

Its a great asset in a growing community

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

This is a great move to grow a capital base

**4b. Which option do you prefer for the future of Port of Auckland?**

**#2868**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

It seems to be an Achilles heel and not a great investment

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

The Auckland Future Fund interest returns could assist council services

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

No

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

A passenger ship terminal similar to the airport with income generating services would be great to see.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More on roads but not building more raised speed bumps - they slow down traffic drastically, increase pollution, and damage vehicles.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less community projects.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Stopping building raised pedestrian crossings is excellent - now the old ones need to be removed

**2a. Is there anything you would spend more on?**

Removing the raised pedestrian crossings

**2b. Is there anything you would spend less on?**

Public transport

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Selling off the stadium precinct in order to fund the stadium redevelopment is a great idea which will not involve more taxpayer dollars being spent.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**#2877**

Selling the shares in Auckland Airport in order raise funds is essential in order to balance the books without needing more taxpayer dollars.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

We have had eye-watering rates increases for the last few years and they are still continuing. If expenditures are extraordinarily high, then the council should sell its assets to fund these expenditures.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Investing partly in the Auckland Future Fund, and partly towards making up the budget shortfall currently driving the next few rates increases.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

#2877

RE Point Wells Recreation Reserve maintenance. I have noticed in recent times that the frequency of Reserve mowing has been reduced to the point that the Reserve grassed areas resembled a cow paddock prior to the last mow. More frequent mows are required to ensure this otherwise beautiful asset can be used by local kids and visitors alike. A Reserve that is not properly maintained is in my opinion an invitation for antisocial behavior by some vistors to this beautiful Village. Note that when the grass is mown, local kids and patents regularly enjoy the extensive flat grassed

surface (football, rugby, kite flying etc). Ball games are not possible if mowing is not undertaken on a reasonably frequent basis.

Thank you.

## Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The further from Manukau the less services we get but the higher rates we pay

This has occurred ever since the supercity was formed

The old Rodney Council area is the only area paying TOLLS for infrastructure

**#2933**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Waste money more competitive tendering for contracts

Penalise contractors who run over set budgets and time frames

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

We will be loaded with more extras to pay in Rodney while the rest of Auckland get a free ride

**2a. Is there anything you would spend more on?**

The basic repairs and maintenance that has been neglected for a very LONG time

**2b. Is there anything you would spend less on?**

Councillors expenditures and Senior managers salaries.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

This stadium used to make money and had real events

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#2933**

**Tell us why:**

Stop selling off the assets Ratepayers invested in. Selling the assets will soon lead to nothing left in the pot.

The rail tunnel and other mayoral phallic symbols of the past have drained us

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Look after your assets and they will look after you

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

#2933

Auckland needs to be come more up market and use its wharves as a public and tourist area

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

## Henderson-Massey Local Board Priorities

**7b. What do you think of our proposed priorities for Henderson-Massey in 2024/2025?**

#2933

More specifically, what do you think of each priority we've listed above?

Our People – create opportunities that support connectedness, diversity and inclusion in our community.	
Our Environment – focus on initiatives that increase tree canopy cover, improve water health and provide for resilient and low carbon communities across Henderson-Massey.	
Our Community – ensure the maintenance and development of 'fit for purpose' local services and spaces meet the needs of our diverse communities.	
Our Places – support initiatives that improve walking and cycling opportunities.	
Our Economy – continue to support the Western Initiative to deliver the Youth Connections programme.

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

Not Important

More specifically, what do you think of each priority we've listed above?

#2933

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	Fairly Important
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	Not Important
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	Very Important
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	Fairly Important
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.	In the last 10 years Council haven't looked after what we have so I don't hold out much hope for the future. The Council has become remote and hard to deal with.  Quite a few office staff I have dealt with seem indifferent or lacking in knowledge of the Co

**8. Do you have any other comments?**

I have seen many councils come and go. The old local councils seemed to work quite well with the public. My perception of the supercity is it only seems interested in the Manukau area. In a past survey by council the perception by these staff was there was a rail link from the Northshore to the city. When asked what transport they used to get to the meeting they said by council cars. Why not Public transport they were asked. Because it would take to long to get here was the reply. Yet council continues to tell everybody to use Public Transport.

We could not run our businesses like this, I do not support the increases and believe there needs to be a trimming of expenses. I understand some of the building work goes to big companies that charge out at \$200 plus/hr when there are smaller companies just as capable and half that price. I think an independent audit should be done and the council be more accountable. If the country cannot afford it, dont do it.

**#2943**

Utilize smaller more economical companies. Whilst the economy is tanking, inflation etc high , council has the audacity to raise charges. You cannot force increases on straining households. Stop spending, Thats what happens at home when there is no money left in the wallet. Manage, trim costs, staff and your wages.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

While I understand the importance of investing in critical areas such as public transport and climate resilience, I would appreciate a more detailed breakdown of the proposed expenditures. If there are specific projects or initiatives that demonstrate a clear and immediate benefit to the community, I would be more inclined to support additional funding. Transparency in how the increased funds will be allocated and ensuring that

**#2993**

they directly contribute to the well-being and progress of Auckland would be crucial in gaining my support for paying more.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

I would appreciate a thorough review of the current expenditures to identify potential areas where efficiency can be improved or unnecessary costs reduced. It would be helpful to have a clearer understanding of the specific services or projects that might be subject to cuts or slowdowns if rates were to be reduced. If there are areas where the Council can streamline operations without compromising essential services, I would be more open to supporting a reduction in rates. Additionally, exploring partnerships, collaborations, or innovative solutions to achieve cost savings while maintaining service quality could be considered as alternatives to simply doing less.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Emphasis on Cost Savings:

In light of the cancellation of the Regional Fuel Tax (RFT) and the resulting impact on the budget, I urge the Council to prioritize cost-saving measures within the existing framework. It is essential to explore opportunities for greater efficiency and optimal resource utilization before considering additional financial commitments.

Clarity on Cost-Cutting Initiatives:

To better understand the potential for cost savings, could you provide a comprehensive overview of the specific initiatives or measures aimed at reducing operational expenses? Gaining insight into these areas would be crucial for supporting a more fiscally responsible approach.

Reluctance to Fund New Proposals:

Given the economic climate and the financial challenges faced by residents, I am hesitant to support new proposals that entail increased financial obligations. I would appreciate a clear understanding of how the proposed budget of \$13.4 billion for Auckland Transport over the next decade aligns with a commitment to cost-effectiveness and prudent financial management.

**#2993**

#### Reconsideration of New Initiatives:

With a focus on cost-saving, I encourage a reconsideration of new initiatives that may contribute to additional financial burdens. Exploring alternative approaches or delaying non-essential projects could be more aligned with the current economic circumstances.

#### Public Involvement in Cost-Cutting Decisions:

It is vital for the community to be actively involved in decisions related to cost-cutting measures. I advocate for greater transparency in the decision-making process, ensuring that residents' perspectives are considered when identifying areas for savings.

I believe that a careful examination of cost-saving opportunities will not only address the current fiscal challenges but also demonstrate a commitment to responsible financial stewardship. I appreciate your attention to these concerns and look forward to a more detailed understanding of the cost-saving initiatives embedded in the proposed transport plan.

#### **2a. Is there anything you would spend more on?**

no

#### **2b. Is there anything you would spend less on?**

**Administrative Efficiency:** Evaluate administrative processes to identify opportunities for streamlining and reducing bureaucracy. This could involve implementing more efficient systems to cut down on administrative costs.

**Non-Essential Programs:** Assess the impact and relevance of various programs and services. Consider scaling back or eliminating those that are non-essential or have a lower impact on the community.

**Operational Optimization:** Look for ways to optimize operational processes to enhance efficiency. This may involve reviewing workflows, adopting technology solutions, or implementing best practices to achieve cost savings.

**Technology Usage:** Assess the usage and costs of technology within your operations. Identify areas where technology can be optimized or replaced with more cost-effective solutions.

**#2993**

**Energy Conservation:** Explore energy-efficient practices and technologies to reduce utility costs for public facilities. This not only contributes to cost savings but also aligns with environmental sustainability goals.

**Collaboration and Shared Services:** Investigate opportunities for collaboration with neighboring municipalities or shared services. This can lead to cost-sharing and more efficient resource utilization.

**Public Input and Prioritization:** Engage with the community to understand their priorities. Use this input to prioritize spending on essential services and programs that have a meaningful impact on residents.

### **3. Which options do you support for the North Harbour Stadium?**

Other

#### **Tell us why:**

If you're looking to suggest an option that does not involve additional costs, you might consider the following approach:

Subject: Cost-Neutral Proposal for North Harbour Stadium Precinct

Dear [Recipient/Stadium Management],

I appreciate the efforts being made to address the future investment needs of North Harbour Stadium. In considering the proposed options for the stadium precinct, I would like to suggest an alternative approach that focuses on achieving improvements without incurring additional costs.

**Operational Efficiency Enhancement:**

Explore opportunities to enhance the operational efficiency of North Harbour Stadium without incurring substantial new expenses. This could involve a thorough review of current operations, identifying cost-saving measures, and implementing more efficient processes.

**Community Engagement Programs:**

Emphasize community engagement initiatives that encourage greater utilization of the stadium by the local community. Implementing programs, events, and partnerships that boost community involvement can enhance the stadium's value without significant financial outlays.

**#2993**

#### Volunteer and Sponsorship Programs:

Consider establishing volunteer programs and seeking community sponsorships to support the stadium's needs. Engaging with local businesses and volunteers can contribute resources without necessitating additional financial commitments.

#### Public-Private Partnerships (PPPs):

Explore the possibility of forming public-private partnerships (PPPs) to fund necessary improvements or redevelopment. This collaborative approach could leverage external investments, minimizing the financial burden on the local community.

#### Grant Applications and Fundraising:

Investigate opportunities for securing grants and fundraising efforts. Pursuing external funding sources, such as grants from sports organizations or philanthropic foundations, could provide financial support without relying solely on local budgets.

#### Asset Monetization without Sale:

Consider exploring options for asset monetization that do not involve the sale of stadium precinct land. Leasing or renting certain areas for events, markets, or other community activities might generate revenue without compromising long-term ownership.

#### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

#### **Tell us why:**

##### Asset Optimization and Revenue Generation:

Explore opportunities for optimizing existing assets and generating revenue without necessitating the sale of strategic holdings. This could involve innovative approaches, such as leasing underutilized properties or exploring partnerships that bring economic benefits to the community.

##### Public-Private Partnerships (PPPs):

Consider forming strategic public-private partnerships (PPPs) to address the objectives of risk diversification and enhanced cash returns. Collaborating with private

**#2993**

entities for mutually beneficial projects may provide financial benefits without direct costs to ratepayers.

**Efficiency Measures in Council Operations:**

Evaluate internal operations and identify potential cost-saving measures within the council's existing structure. Redirecting internal resources or optimizing processes may contribute to enhanced financial sustainability.

**Community Engagement for Asset Management:**

Implement a robust community engagement process to gather insights on strategic asset management. Involving the community in decision-making can foster a sense of ownership and may reveal creative solutions for achieving the outlined objectives.

**Transparent Governance Structures:**

Establish transparent governance structures for the proposed fund or any alternative initiative. Clearly defined rules and restrictions should be in place, ensuring accountability and the community's confidence in how the funds are managed.

**Strategic Asset Portfolio Review:**

Undertake a comprehensive review of the council's asset portfolio to identify potential divestments or reallocations that align with the proposed objectives. This could involve reassessing priorities and focusing on core assets that contribute most significantly to the community's well-being.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

**#2993**

In considering the council group's continued operation of the Port of Auckland, I believe that the profits and dividends generated should be strategically allocated to benefit the community and enhance the overall well-being of Auckland. My preferred allocation priorities include:

**Investment in Critical Infrastructure:**

Allocate a portion of profits towards the development and maintenance of critical infrastructure projects that contribute to the city's growth, connectivity, and overall resilience.

**Environmental Sustainability Initiatives:**

Dedicate funds to support environmental sustainability initiatives, focusing on projects that mitigate the impact of climate change, enhance green spaces, and promote eco-friendly practices.

**Community Development and Social Programs:**

Direct a portion of dividends to community development and social programs that address pressing needs, support vulnerable populations, and foster a sense of inclusivity within the Auckland community.

**Education and Skill Development:**

Invest in educational programs and skill development initiatives that empower the local workforce, ensuring that residents have access to opportunities that contribute to personal and professional growth.

**Affordable Housing Initiatives:**

Allocate funds to initiatives aimed at addressing the challenges of affordable housing, supporting projects that enhance housing accessibility and affordability for residents.

**Public Space Enhancement:**

Contribute to the improvement and expansion of public spaces, including parks, recreational areas, and cultural amenities, fostering a vibrant and attractive urban environment for residents.

**Emergency Preparedness and Resilience:**

Establish a fund to enhance the city's emergency preparedness and resilience, ensuring that Auckland is well-equipped to handle unforeseen challenges and disasters.

**Transparency and Accountability Measures:**

#2993

Implement robust transparency and accountability measures in the allocation process, ensuring that the community is well-informed about how profits and dividends are utilized for the greater benefit.

**4d. Do you have any feedback on any other part of the proposal?**

**Balancing Work Commitments and Community Involvement:**

As a ratepayer, my primary focus is on providing for my family and meeting the financial responsibilities that come with increased tax burdens. The demands of a busy work schedule often leave limited time for active community involvement, despite the best intentions.

**Challenges Amidst Tax Increases:**

While understanding the necessity of tax increases for community development, it's important to acknowledge the challenges faced by ratepayers in managing escalating financial obligations. The strain on personal finances can impact the ability to fully engage in community programs.

**Proposal for a Balanced Approach:**

I propose a balanced approach that considers the diverse circumstances of ratepayers. While community incentives are valuable, it's essential to ensure that the financial contributions from ratepayers are met with initiatives that cater to a broad range of lifestyles, including those with demanding work commitments.

**Focus on Essential Services:**

As a ratepayer, my priority lies in receiving value from essential services that directly impact daily life. A balanced distribution of resources ensures that community incentives complement rather than burden individuals already navigating the challenges of work and tax increases.

**Suggestion for Flexible Participation:**

Introducing flexibility in community programs can accommodate the schedules of busy ratepayers. Consideration for evening or weekend activities, remote participation

**#2993**

options, and recognizing diverse forms of community engagement would be greatly appreciated.

I believe that a thoughtful and balanced approach will foster stronger community connections and ensure that all ratepayers, regardless of their work commitments, can feel a meaningful connection to the initiatives supported by the council.

Thank you for considering my perspective on this matter.

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Silverdale (Rodney End)

**8. Do you have any other comments?**

I implore you to reconsider any decision to raise rates for hardworking citizens. Many families are already grappling with the financial aftermath of challenging times, and an additional burden in the form of increased rates could exacerbate their struggles. Raising rates places undue pressure on individuals trying to make ends meet, hindering their ability to provide for their families, invest in education, and plan for the future. Small businesses, the backbone of our economy, face heightened challenges, and additional financial strain could lead to closures and job losses. A pause on rate increases would not only provide much-needed relief to taxpayers but also demonstrate a compassionate understanding of the current economic climate. Let us prioritize the well-being of our communities, fostering an environment that encourages prosperity and resilience without overburdening those who contribute to the nation's growth. Your thoughtful consideration of this plea is crucial for the collective welfare of our citizens.

## Rodney Local Board Priorities

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Not Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Not Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Fairly Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important

No, get out of the habit of mindless spending. Prioritise what ck  
Hildenborough need to break our cycle of poverty.

**2b. Is there anything you would spend less on?**

Everything apart from maintenance the achlllies heal of NZ.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

Again consultants and trough feeders all want spending. Ratepayers want government and councils to do the maintenance and live within their means. NO MORE BORROWING!!! What government has done with the money printing debasement of peoples money is criminal.

Get rid.ofnthe reserve Bank and end fractional lending by the banks. Preferably end the bank.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Your question already predicts that I am ready to pay more under any circumstances. Your choices all start from a premise of increased rates that are way above even the high rates of inflation now being experienced. None of your proposals are affordable by rate payers. SO STOP Now and rethink. Stop all the nonsense with costly expensive public transport that does not meet people's needs. STOP being stupid and

**#3036**

issuing consents for building in areas of flood plains. Look at projects that support business and employment OUT of central Auckland to the expanding distant suburbs - the only way to reduce congestion is to create employment OUTSIDE of the Auckland suburbs. For example, there are now sleeper suburbs that are so far out of Auckland that they are in Waikato - for example Pokeno and Orewa/Warkworth in the North - provide business incentives to set up in these outer suburbs, so people don't clog the highways getting into and out of Auckland based employment.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Stop ridiculous cycle ways except in those areas where there are schools. No idiotic plan for cycle-ways over the harbour bridge.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Sorry, but public transport does not work. People can't go and do a grocery shop with heavy products by unreliable and awkward schedules. THINK - get innovative - stop just looking at the "this is how we have always done things" type of solutions. For example, look at applications and locations for car-pooling, look at supporting and expanding applications and locations for car-sharing (such as CityHop)

**2a. Is there anything you would spend more on?**

Maintaining rural roads, more parking areas, small town libraries, and financial and infrastructure investment incentives to small businesses to set up OUT of Auckland to perimeter townships and rural areas

**2b. Is there anything you would spend less on?**

Cycleways, inner city public transport .

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

Don't know enough to make an informed comment.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

I am ok with a Future Investment Fund, as long as the most professionally experienced fund managers are appointed so that the funds are not lost on high risk investment strategies, but are successfully managed to achieve sound performance gains.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Not sure how this proposal will be affected by the central government desire to improve the port facilities at Whangarei. Also I do not see the connection between requiring any profits from a lease deal being paid to the Future Fund - proceeds should be paid to holding down rate increases.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

REDUCE RATE PAYER RATES!!!!!! This is a blinding flash of the obvious.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

None of these are really priorities - get stuck into issues that are important: for example, rural road maintenance. The NZ Transport Agency is only concerned with State Highways. Getting better cell phone coverage into rural areas; supporting small businesses in rural areas to generate employment to keep people gainfully employed and able to support their families. Look at helping markets to get local produce to families to reduce the travel required; look at supporting medical GP surgeries to reduce the travel time for families to get basic medical treatment.

I would like to see the full results of this "public consultation", as I have never seen any evidence that anything that people comment on is subsequently influential in changing the direction that the Council has already prematurely decided upon. These exercises are window-dressing on a democratic process. The simple fact is that NO-ONE

wants or can afford anything like the Rates rises that have already been ordained by this Plan. It has not been constructed from the view point of the Rate-Payer.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	
<p>Re-introduce <b>recycling charges for schools.</b></p>	
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#3049

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

**#3059**

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

Stop wasting money

Example the roads leading off roads that are being replaced.

Classic example the eastern busway is great but putting up 30km/hr signs at the entrance to Tiraumea Drive and painting the road is a total waste it will be blocked off in a couple of years. I see one of the contractors trucks has already taken one out in Aurea Ave.

### 2a. Is there anything you would spend more on?

### 2b. Is there anything you would spend less on?

Stupid speed limit signs and raised pedestrian crossings. What's the point of a speed limit that's not enforced?

What's the point of putting them up and painting the road when it's a cul de sac and you can drive any faster because of parked cars?

## 3. Which options do you support for the North Harbour Stadium?

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

You waste money, do less

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Rates charges,

**#3181**

## 2. What do you think of the transport proposal?

Don't support any of the proposal

### Tell us why:

The council is ineffective and inefficient. It wastes money on cycle ways no one uses. Waste money on public transport.

Stop asking rate payers to fund public transport, the users should pay for these services.

Also bad planning no off street parking makes congestion worse in areas.

Congestion tax is a cash grab in bad faith due to bad planning and mismanagement by council in the first place

### 2a. Is there anything you would spend more on?

### 2b. Is there anything you would spend less on?

Council office staff.

Nothing like a few heads to roll or people being made redundant to improve the rest of the staff's productivity

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

It's never used

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

**#3181**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Why give investors an opportunity to buy key Nz assets like this

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Your on a cash grab to waste it in other areas, why increase funds on people who have bad spending habits

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Helensville

**8. Do you have any other comments?**

Rate increases of 7.5, 3.5, and 8 then 3.5 per year is madness. It translates to about 500 in additional rate paid per year over a 3yr period and 1500+/- over 10.

The 10 year period turns an additional rates paid of circa 8500-9k for the average home over the 10years

This is based on a current rates of 2800+/- that would turn to 4300+/- in 10 years.

You already aren't producing results and more moneys isn't going to help bad management.

A congestion tax will also hurt families and people trying to get on with it. People have had to move further out due to again the councils poor planing and now way to charge and penalise the people for their own bad decisions along with increasing rates and fuel taxes etc. this is ridiculous

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Sealed roads and swimming pool for warkworth

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Cut back on unnecessary and ineffective traffic management..it is complete joke

**#3271**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

However every year you say exactly the same without any result....but there is no accountability with thd traffic control...such a waste of resources when guys are sitting in their van doing nothing

**2a. Is there anything you would spend more on?**

Harbour Bridge gondola crossing

**2b. Is there anything you would spend less on?**

Traffic management and cones anx sleeping policemen

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Modern thinking...make it work

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Use it to make auckland a better place.. it has no business owning shares

**#3271**

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

It has no business being contained port....make a stadium there

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

No ...the question is slanted..already answered above

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Make it public land and of s stadium 🏟️

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Look just get on and do it

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Do not support most of the proposal

**Tell us why:**

Transport is a joke in west auckland. No one can move on State Highway 16 from the roundabout at the end of the motorway until you get past Kumeu. This has been getting worse the more houses are built and the roads havent been able to cope for at least 10 years.

I think the so called long term plan is actually only a medium term plan. We should be looking forward to the next 30-50 years, thats long term. As an example, road works such as improving N.West motorway, were a long time in the planning, a long time

**#3300**

completing and about 12 months after completion, we were back to congestion. Why wasn't a bus lane incorporated when the works were being done, short sightedness

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Not Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Not Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Very Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Fairly Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important

**8. Do you have any other comments?**

Please don't raise our rates by such a large amount. Or atleast switch it around so we start with smaller rise first and gradually get bigger. Some people are barely struggling to pay their mortgage right now and this will be a tipping point

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The increase in medical testing equipment requires an urgent need to increase the number of professional doctors to reduce the waiting time for seeing a doctor

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#3361**

Unnecessary road repairs and inefficient construction process

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

The proposal fee is too high. We need to increase the competition mechanism to allow low-cost construction units to carry out the construction.

### **2a. Is there anything you would spend more on?**

Increase medical expenses for cancer patients, increase parkrides to increase the use of public transportation resources, and increase the frequency of public transportation.

### **2b. Is there anything you would spend less on?**

Reduce unnecessary road repairs

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

### **Tell us why:**

Effective use of funds is urgent

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

### **Tell us why:**

It is a wise choice to raise money through capital operation model

**#3361**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Agree

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Future fund management is most important

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Effective use of existing resources is worth discussing

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Co-ordinate arrangements

**5b. What option do you prefer for Bledisloe Terminal?**

#3361

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

A good solution to the funding problem

**6a. What do you think of these proposals?**

Maintaining roads is crucial, however no one seems to monitor the standard of road repairs. In the last 6 months Old north road by Kumeu has been repaired 4 times, each time the repairs last a matter of days before potholes return. Seems to us that the contractor doing the repair isn't doing a good job, but keeps being called back to keep doing it, a waste of money and time. Just do it right the first time.

Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No - Just do the basics. .

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#3377**

Yes - Reduce the costs and regulations of building a house.. i just paid council almost \$13K for a minor dwelling that is to going roading when not one extra person will be living on the property... just a redistribution of those that are there now!

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

With the shape of Auckland (isthmus) and the number of people in Auckland public transport will never do what it does in city that is large and round like London. I live in the North of Auckland and to get done what I need to do when I come into the main bulk of Auckland I have worked out it would take me two days on public transport verses three hours in a car. Somehow you all think we go to the city centre and follow the railway lines... seriously?

### 2a. Is there anything you would spend more on?

No

### 2b. Is there anything you would spend less on?

Traffic management and cones... unbelievable waste. Dread driving the city or country roads. To pick up rubbish on the country roads take 3 cars and one person doing the actual work - really? What a waste if money!

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

Needs wider use

Consider how you could make it financially viable.

**Tell us here:**

Leave the running to a business that is not ruled by mostly non business people.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I am tired of the ratepayers being the funders! We get nothing back... just bigger rate bills - especially rural Auckland. We use little of what the city dwellers use...

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#3377

**Tell us why:**

Because it will just cost the rate payers more and make new 'white elephants' that are rarely used.

**5b. What option do you prefer for Bledisloe Terminal?**

### **Tell us why:**

Council planning on Auckland must be up there in the world for the worst, no long term planning. The government probably has a better idea of what to do. We build all these houses but no roads, we build houses but no public transport, you can no longer be trusted to be honest. All you do is complain you need more money but just waste it away, just for the next council to complain for more money ... To waste it away ... No one wants to break the cycle.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

no

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

no

**#3386**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

I live in Rodney and most of what you propose will not have any effect on what I will be paying in my rates bill. I want to minimise what my rate increas will be.

**2a. Is there anything you would spend more on?**

no

**2b. Is there anything you would spend less on?**

yes

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

I have never nor will ever have any use of the North Shore Stadium

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Use your shareholding to develop the Auckland Future Fund instead of asking the Rate Payers to pay for it.

**#3386**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

as stated in previous comments

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

lessen the rates

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

no

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

whatever the best use of this land is to keep our rates low.

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

#3386

**Tell us why:**

as stated above

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Do not support</p>

Entertainment, statues and art installations, public events,

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

Rail to the north has been canned, dynamic lanes on Whnagaparaoa road seem to be repaired more than they are running. raised ped. crossing cause more road damage, - what's wrong with plan zebra crossings with a central barrier?

### 2a. Is there anything you would spend more on?

Getting rid or raised crossings that are not around schools, install footpaths - Whangaparaoa road for example - my children cannot ride or walk to school safely putting one more car on the road

### 2b. Is there anything you would spend less on?

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

### Tell us why:

Keep the land, it is a valuable asset for parking and outside fixtures. Allow more to happen, concerts, shows, etc.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

**Tell us why:**

The task is huge. The overall package will make some worthwhile progress.

**2a. Is there anything you would spend more on?**

Developing equitable congestion charging.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

We need sources of capital to deliver on climate change response and initiatives.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**#3474**

I appreciate the need to release capital for other initiatives but the port creates massive congestion through freight traffic in central Auckland and leasing the port out won't encourage the successful company to reduce port activity. Take concrete steps to move the port to Northland and upgrade the rail link for freight to a distribution hub on the outskirts of Auckland. Re-purpose the port land for mixed residential and/or business developments.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Prefer a mix of future fund and council operational spending at your discretion.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Provides an opportunity to improve the downtown area for the public. I would be weary of this land being transferred to private residential or commercial development that excludes the public by nature even if access is implied by public ownership.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

As above.

**#3474**

Warkworth show a blatant disregard for the importance of maintaining soil structure in regards to stormwater management and ground water resources and their quality. Business as usual starts with the wholesale destruction of existing soils followed by the replacement with clay that is compacted and then paved over resulting in massively increased storm water flows fired straight into the nearest natural flow path/waterway that was never exposed to those flows before. Result is erosion and flooding. Development must be sympathetic to the environment it is foisted on not just sweep it aside. We know what that causes so stop doing it and expecting a different result.

**8. Do you have any other comments?**

I could not find references to the Hauraki Gulf Marine Park. This water body is the foundation of Auckland's environment. It's the reason Auckland is so special and it's the canary in the coal mine showing us how well we are doing. It is in a perilous state and if you don't know that you are looking in the wrong places. What does Auckland Council suggest the rate payers invest in to improve the health of the Hauraki Gulf?

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#3494**

Have warranties on any work done by contractors 2-10 years depending on what the job is

So there is less spend on rework and fixing sub standard quality work.

## **2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

### **2a. Is there anything you would spend more on?**

More connectivity Buses, trains

### **2b. Is there anything you would spend less on?**

Reworks - keep a check on contracted work to avoid sub quality work

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

There is no other stadium in North Auckland. So it needs to be saved to serve the community and used in better ways to generate any revenue if possible.

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**#3494**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**6a. What do you think of these proposals?**

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Get rid of half the staff. Start at the top with the Mayor. Complete idiot. That would save plenty of money to go into out areas.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#3501**

Stop having concerts in the park that ratepayers have to pay for. Like the Pacifica. Let them pay there own money to make it happen. If you want to go you pay for it. User pays suits me. If i go i pay if not i dont pay

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

The idiots at the council have no idea how to fix there problems. All they think is lets get more money off the ratepayer. Ratepayers are struggling just keeping food on table, paying to get to work etc and these muppets in council have no idea. How about getting rid of half the staff at council to fund these projects.

**2a. Is there anything you would spend more on?**

Make it easy to buy your tickets. In our area Helensville there are no places to buy the cards and top up. Not all people are on Internet.

**2b. Is there anything you would spend less on?**

Raised speed bumps. What a joke

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Anything to save the ratepayers money. Get the right people to do this work and make sure the money is not wasted.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Spend rates in the areas from which those rates are collected. Charge rates applicable for areas that are getting the most benefits. Charging rural Auckland (Rodney) higher rates for services delivered in areas of the city that residents seldom to never visit, so therefore will receive no benefit from, is criminal. Raising our rates for services that are not even made available to us is fraudulent. Enough is enough.

**#3544**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Charge rates based on demographic investment and benefit received from services etc.

Of course doing that now means, should council decide to invest in Rodney, not only have our rates subsidised the rest of Auckland the past 10+ years, we would also have to cop the lot for investment in our area, which has been woeful since being abducted into the Super city.

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

Same reason as before. Our roads are \*\*\*\*\* and sometimes down right dangerous. Nothing is ever done. But we pay extra taxes in our fuel to make roads all over the rest of Auckland better because we've been unwillingly tied to Auckland.

**2a. Is there anything you would spend more on?**

Roads, infrastructure.

**2b. Is there anything you would spend less on?**

Just stop wasting our money.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

Because it makes sense financially.

**#3544**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**Tell us why:**

The airport is in our city and the gateway to the country. Aucklanders should have some say in it.

**4b. Which option do you prefer for the future of Port of Auckland?**

Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

better roads from Orewa into the city, there is a stupid amount of housing development around Milldale etc and the roads cannot cope . Why arent the developers held to account and improve the roads first rather than making millions out of housing and the person selling.. A two lane motorway is so 3rd world... we cannot keep paying for higher rates, our wages dont go up 7%....

Warkworth needs a public pool.

This summer we have had the verge of the road trimmed only once. It has been a hazard given the traffic to the Mahurangi west regional park.

Extend the western and make 4 lanes in and out of Kumeu

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#3773**

Get rid of the bike ways, open Queen st back up again, get rid of t3 lanes that are wrecking Onewa and contsellation rds as examples, invest in rail between city and Albany, city and Kumeu, city and airport

## **2. What do you think of the transport proposal?**

Support all of the proposal

### **Tell us why:**

Auckland needs proper infrastructure. We are stuck in the 1980s. Look at all the major city's in the world (in fact travel to them) to see why Auckland is a village, with no proper rail and public transport, poor motorways and highways...

### **2a. Is there anything you would spend more on?**

Per above

### **2b. Is there anything you would spend less on?**

Consulting pencil necks and blowing millions of dollars. The council should already have these people on their internal payrolls. Get the Italians in.....or even the Chinese. If they can build hospitals in 30days, why can't we??

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

no

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#3776**

do less funding of theatres, festivals etc. They are nice to have and may even help some businesses but we can't afford it. Focus on getting the infrastructure right and the operations of council right.

## **2. What do you think of the transport proposal?**

Don't support any of the proposal

### **Tell us why:**

Transport projects have been beleaguered with ridiculous ideology and traffic management. Traffic management is an industry in itself that didn't exist 10 years ago. we need safety measures but really, 1000 cones fore miles, just to mow a grass verge, I don't think so. Also lets just up the education re pedestrian crossings etc. they don't have to eb raised to be effective.

### **2a. Is there anything you would spend more on?**

no

### **2b. Is there anything you would spend less on?**

no

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

### **Tell us why:**

Don't spend any money on stadiums. Fixed roads and water and public transport, stadiums are a luxury we can't afford. If operational changes can be made in a cost effective manner by all means get better use.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#3776**

Proceed with the proposal

**Tell us why:**

it makes sense!!!

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Councils shouldn't run Ports. I expect a commercial organisation can do this better

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

why do we want to add expense to Council now by having Wharves to maintain. Nice as it would be to have now isn't the time to increase operational expenditure

#3776

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

you don't even know what you want it for. Leave it alone, don't cripple the port because of lack of space.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. spend some of the rates money in he Rodney District. I don't mind paying rates if we get services, but I live rurally and pay rates but get nos rubbish, wastewater or sptic services. And the road I live on is washed into our paddock blocking our drains on a frequent basis.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

If the stadium is lost to the North Shore community, there is no other venue available North of the Bridge until Whangerei.

It would be preferable to open it up to a variety of uses so it is utilised more - if needed build the other half of the seating and then use it as a concert venue, outdoor events etc. It is relatively easy to access and so underutilised.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Yes. Make developers leave room for cycle and bus lanes. In Kumeu and Red Hills thousands of homes have gone in without any infrastructure. No room now for cycle and bus lanes so more cars on the road. The old rural roads are falling apart because they were never designed for the current volumes. The congestion levels are the worst I have seen across Auckland. Even in Westgate we have bus's that stop in the middle

**#3800**

of the road as no provisions were made for bus stops in the area. There was an opportunity to purchase land between the two shopping areas for a park and ride, but now Wilson car park owns it and it sits empty. The whole area is dysfunctional. We pay the same rates as everyone else and yet 0 investment has been made out west. In Taupaki we pay for our own water and sewerage system as we are on tank and pay for our rubbish. We get nothing for the money we pay in rates. All the money collected from the thousands of houses built out here seems to have gone to pay for investment in other areas of Auckland. We have no parks, playgrounds, pools, or community centers. It can't get any worse so why would we want to pay more because we can't get any less than our current situation.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

All we get in the Taupakai area is recycling collected so not sure the council could do any less for us. Even the roundabout is full of weeds and not maintained.

Environmental protection, particularly the Hauraki Gulf and Kaipara harbours

Rural road sealing

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Don't think a congestion charge is fair as many areas do not have sufficient feasible public transport for people to have a choice not to use their cars

**2a. Is there anything you would spend more on?**

Busways, alternatives such as light rail (not old plan) or cable cars

**2b. Is there anything you would spend less on?**

No

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

A good way of obtaining funds for investment without losing asset ownership, and should improve port performance

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

More balance for public use of the waterfront

**5b. What option do you prefer for Bledisloe Terminal?**

#3806

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

NZ heavily reliant on ports for trade and most goods come and go from Auckland so should keep Bledisloe open as a port for now - but does not mean can't look at creating a new one near Auckland if feasible

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

**#3806**

Reasonable - unsealed road maintenance and lack of decent sealing programme are major issue for us. Also has been difficult to get good council communication and support over organisations building and operating without consents or misusing those consents in our area - eg re Auckand Shooting Club - noise complaints not logged as "too many" and compliance officers including building inspectors not going to said properties due to threatening behaviour - seems that if you behave in this manner you can do what you want and the council won't interfere. Also council ignorance of the cultural importance to Maori of this land in the original consenting process - they were not asked

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

I truck to pick up 3 weekly collections, instead of 3 trucks.

**#3834**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Footpaths at Duke St riverhead

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

Good to have a sports stadium, but not all ratepayers go there or use it - just drive past it.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

good for shreholding.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Eases costs to ratepayers

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Money used inside Auckland metropolitan.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

## Rodney Local Board Priorities

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Very Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Very Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important

#3864

Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Fairly Important
Develop pathway connections in Green Road Park.	Not Important

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Actually spend it properly on services through contractors that aren’t taking the \*\*\*\*\* financially. I’d happily pay more if the councillors aren’t taking ridiculously high salaries that are unjustified. Cut the unnecessary spending and use it better so we actually see a difference in our community. Instead of spending \$600,000+ on a single raised crossing. What an absolute pisstake!

**#3877**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

As above.

Because it can't be worse than it already is.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

We pay Auckland rates and don't even use the \*\*\*\*\* stadium, we don't even live nearby. Sports don't interest us. Give Warkworth a public pool instead.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

I don't know enough about shares to really comment.

**#3877**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Where’s anything for Warkworth? We desperately need a public pool up here!!!! (not another overpriced private Northern Arena). Our children need to learn to swim especially in an area with so many beaches/water. Where’s the plans to increase anything worthwhile for people in Warkworth. We have one crappy outdoor playground that’s appropriately fenced and a tiny library. There’s nothing to do here.

The inner city railway loop is a money drainer. Any person establishing a business/project and realising it was not financially viable, in fact realised it was going to be running at a huge loss, would walk away and cut their losses. And not continue to waste money on a project that will benefit few and cost many.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

Funding public transport/making it more affordable is fine if public transport was available to most Aucklanders - this is most definitely not the case. It is not right that a large number of rate payers are funding transport for other people when it is not available to them.

And stop wasting huge amounts of our money on raised pedestrian crossing!!

### **2a. Is there anything you would spend more on?**

Fixing our many roads covered with endless potholes.

### **2b. Is there anything you would spend less on?**

Raised pedestrian crossing.

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	As proposed
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would like to see the council stick to providing the basic services until they are working correctly and to be more open ad transparent

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#3993**

Less nice to have services as marked above

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Stick with the basics drainage and road surfaces , speed bumps and add other safety initiatives cab start after we have safe well maintained road surfaces

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

Yes the inherent bureaucracy and apathy prevalent in the board meetings and approach to social structures

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Lets not loose it but rather seek better ways of using it

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**#3993**

Sell them!

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Its our assets however its not a core service for Auckland rate payers such as water, roads and drainage

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Points one and two above jointly

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#3993

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>

Again, taking away from the Port just to use for Public space makes no sense. We have plenty of public spaces available. Why not use the area as it is currently being used for and make money for the council and Aucklanders. Taking it away means taking away the revenue it is making. We are a coastal town, we have plenty of places to sit near water, we don't need another.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

I feel continually selling off business currently owned by Auckland/NZ'ers is the wrong way to go. Invest back into these companies to grow them to become stronger. The cost of living is so high and threatening to increase rates if we keep the Port is blackmail. Of course people are going to look after their own pockets, and rightly so. However using this tactic is wrong. The writing is already on the wall, why let people think they can make a difference with their opinions.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#4025**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Fuel tax should fund improvements of the rail network to integrate rural communities.

**2a. Is there anything you would spend more on?**

Long distance rails.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

Don't sell public infrastructure. Selling public infrastructure worsen maintenance and makes it more expensive to the community in the long run.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Don't sell public infrastructure. That enables controllers to make maintenance and investment decisions to optimise for their profits, in expense of the quality of the service, or the fees for the users. There's an agency conflict there, and it's not the best decision for the Aucklanders.

**#4025**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Don't delegate operation of public infrastructure. That enables controllers to make maintenance and investment decisions to optimise for their profits, in expense of the quality of the service, or the fees for the users. There's an agency conflict there, and it's not the best decision for the Aucklanders.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Why should this be tied to specific usage? It should be used as a generic revenue source, not tied to any specific project. Nothing should.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Oh, please. Residential developments where only residents can access, or commercial developments that are too expensive for most people? Leave it as it is.

#4025

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Oh, please. Residential developments where only residents can access, or commercial developments that are too expensive for most people? Leave it as it is.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support

Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

Support most of the proposal

**Tell us why:**

Raised pedestrian crossings should be stopped - there are better ways to make crossings safe.

reducing speed limits should be stopped, and instead, address the real causes of traffic accidents

**2a. Is there anything you would spend more on?**

fixing potholes and poor roads

maintaining road shoulders better by sweeping gravel off the shoulders past the white line so the shoulders are a realistic cycle option

**2b. Is there anything you would spend less on?**

raised ped crossings as noted above

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

stadiums are unprofitable, so its an exercise in minimising loss by the re-developmernt and ops changes outlined

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Agree with self insurance

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Public amenities could be a better use, with main port functions moved away from trade and towards tourism (cruise lines etc)

#4072

Tauranga should be the main trade port

Council needs to urgently review property valuation methodology, as the Council could be missing out of millions of rates \$\$.

For example:

my CV is currently \$5,300,000

Previously it was \$6,850,000

(the land value was halved and the value of Imps increased 44%)

When I queried the ACC valuer his response beggared belief..

I checked with both my neighbours and they experienced a similar drop in value

**4b. Which option do you prefer for the future of Port of Auckland?**

**#4114**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Other</p>

### Local board priorities

7a. Which local board area does your feedback relate to?

Rodney

### Rodney Local Board Priorities

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Not Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response	Fairly Important

#4114

Assessment study being undertaken in 2023/2024.	
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Not Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Not Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	I don't know
Develop pathway connections in Green Road Park.	I don't know

**Tell us why**

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

I think we need to look at alternative traffic options as well as clearing waterways so places like Kumeu do not continuously flood.

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

There needs to be more spent on preventing flooding, stormwater drainage and preventing buildings build on flood plains. Also more in fixing roads, potholes and poor bitumen on roads. If possible road connections such as the Puhoi-Wellsford highway.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#4146**

Less should be spent on events, these should be paid by people attending and groups that organise them. Still the same on essentials such as libraries, disability services and arts but not on concerts etc. let them pay for themselves

## **2. What do you think of the transport proposal?**

Support all of the proposal

### **Tell us why:**

We need better transport and less congestion in Auckland especially northshore. While cycling does mean less cars I don't believe so much should be spent on cycle lanes everywhere when the majority of people don't cycle.

### **2a. Is there anything you would spend more on?**

### **2b. Is there anything you would spend less on?**

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

### **Tell us why:**

I don't know enough about this but there should be a limit to spending on this and the north shore community involved in management and decisions

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

### **Tell us why:**

**#4146**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

It would cost even more money to redevelop them into something else. There is already enough down near viaduct for public use

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce the amount of staff.

**#4151**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Because we need to spend less. The rate payers have less money some have not enough for food.

**2a. Is there anything you would spend more on?**

Stop temporarily repairing roads, find a more permanent fix, it will take longer but serve our children and their children better.

Auckland public transport is abysmal. We are far from getting Value for our money and the system has become a money waste pit with busses driving around Auckland empty apart from peak hours. You can't even run to time tables and you are not

**#4166**

dependable..why don't you run 12 seaters??? they would be empty most the time, a money waster but at least a little more greener!

I do not have an ever increasing bottom line to my income to keep having to pay more for way less.. ACC is making fat cat contractors Rich beyond the contractors wildest dreams..... your fix....rate hikes up rate hikes, lets give the the contractors more

You are completely Out of touch.

Further, Im guessing this comment will go no further. Nor be read and answered too. If you have the guts call me \*\*\*\*\*. It is also pointless in calling me if your not a voted part of the council.. Im in Rodney..Call me \*\*\*\*\*!

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

**#4185**

Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.

We therefore request that Auckland Council allocates \$8.02 million in funding within the Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf lifesaving club facilities, as per SLSNR's Surf 10:20 Capital Development proposal.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

**#4185**

With regard to Question 1C, Council has a central proposal that recommends spending more where it is needed most. Surf Life Saving facilities are a critical component of our community. They have served as temporary welfare and community centres, as well as civil defence centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle.

Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is essential to ensure the continued operation of our clubs and the safety of beachgoers. The amount requested is minimal when compared to the benefit it will have for the region.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

**#4198**

Do not support most of the proposal

**Tell us why:**

Big, decisive work should be done in transportation, not small fixes. Major transportation projects can promote regional development, provide productivity and work efficiency, and also improve the quality of life. Although the Government has done a lot of work, they are all small projects, which cannot solve the current fundamental problems, but will result in a lot of ineffective investment.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

Through investigation and statistics, we should understand whether the current stadium can meet the needs of the current urban sports development, and then make a decision. I personally believe that because of the tiled living area of Auckland residents, there should be more sports implementation in the outer suburbs, for example, building a swimming pool in the Kumeu area, rather than improving the North Shore stadium. The government should investigate the proposal.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**#4198**

After the pandemic ends and the economy takes a big hit, will people be able to keep paying the ever-increasing local taxes? Personally, I feel the burden of local taxes is very heavy, so I agree to sell the airport shares.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would love the council to create a decent size parking zone at Greens Road Farm so horse riders can use the asset their rates are paying for safely.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#4317**

Really look at the core activities a council should be engaged in and don't get distracted by every festival in the city. We can't afford it.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

The constant belief that everyone is able to access public transport is misguided in my view. Those that live near a bus stop fine but those who live in countryside living and rural zones - will always need to use their cars. I do not endorse foot paths being used for anything other than pedestrians and wheel chairs. Scooters has created a major hazard on foot paths.

### **2a. Is there anything you would spend more on?**

High rise parking at bus stations, which is free/low cost. That will encourage more bus use.

### **2b. Is there anything you would spend less on?**

Cycleways and raised pedestrian crossings. The numbers are ridiculous.

## **3. Which options do you support for the North Harbour Stadium?**

Change the operational management

### **Tell us why:**

At the moment it is an expensive white elephant but if operated with more of a community focus it could become the events centre of the North Auckland area.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Focus on your knitting and core business.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Again, focus on your core business, retain ownership of the land and invest the money gained by leasing.

As a person who lives on a lifestyle block - we manage our own sewerage, collect our own water, have no street lights, no footpaths and live on a dirt road which is poorly maintained. I feel the council needs to take these things into consideration when fixing a rate for those in areas like this - not just a blanket rule.

## Tell us why

### 7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?

I feel we need to really make sure that there are no other alternatives before spending money on anything. Everybody's needs are urgent and important and everyone has an agenda. But our local board needs to be assessing needs against wants. Sometime a coat of paint is enough to refresh a toilet block. Young children don't need a new playground to amuse them - they can have fun with a cardboard box. Any sports/resources for our teens I highly endorse - they are out future.

I would like to take this opportunity to compliment Louise Johnston on our local board. She is an absolutely star example of what people need from their local board. She is approachable and has credibility gained through being visible on facebook and actually listening to her local people.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More funds towards rural fire brigades, AT need to stop using outdated repair methods to repair road in rural areas. Reduce the cost in traffic control, so roading contractors have more funds to repair roads properly. Traffic control contractors are abusing and using the unnecessary red tape and safety regulation to line their own pockets.

**#4333**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less central planning, ARC should be re-broken up into district councils again eg; kaipara, rodney etc.

Regulate traffic control contractors, they are too expensive! in most cases not required for the sizes of jobs! and are taking advantage of the ridiculous levels of red tape for GET contractors.

Raise speed zones, it is costing kiwis too much time and money. It causes congestion, increases fuel consumption, increases carbon emissions, increases time to freight and logistics. IT EFFECTS EVERYTHING! EVERYTHING AND EVERYONE BECOMES IN-EFFICIENT.

**2. What do you think of the transport proposal?**

Support all of the proposal

**2a. Is there anything you would spend more on?**

MAIN STATE HIGHWAYS.

**2b. Is there anything you would spend less on?**

Cultural and social development, Auckland needs to stop wasting money on making motorways and infrastructure looking nice and culturally accepting of maori. ( MOTORWAY BARRIERS DO NOT NEED A FERNS OR TANIWHA ON THEM STOP WATSING MONEY BECAUSE OF MAORI INTIMDATION ) nz heritage needs to be regulated, maori are making claim for anything that may marginally be of some cultural significance and the local iwi are taking the \*\*\*\*\* and lining their back pockets while their own people receive none of the proceeds.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Other

**#4333**

**Tell us why:**

Make it a world class stadium so that, we can generate more revenue through large international games. Sell the the stadium to a private sector so ARC can get out of debt!!!. Private sectors get \*\*\*\*\* done, ARC procrastinate and waste money consulting all the time and never really achieve and benefit for the wider public community.

### 7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I do not support most priorities

#### More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Not Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Very Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Not Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Not Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Not Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Not Important
Develop pathway connections in Green Road Park.	Not Important

Pathetic.

Kaukapakapa

### **8. Do you have any other comments?**

The country and regions are in massive debts, stop wasting money on new amenities. fix what we already own and have. reduce council staff, impose KPI's on council, council need to be held accountable by rate payers because it is rate payers money they are gambling with.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

everything except the bare necessities

**#4336**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

The council could find ways to to as planned. But do it cheaper

**2a. Is there anything you would spend more on?**

no

**2b. Is there anything you would spend less on?**

yes. All the empty buses driving around Kumeu

**3. Which options do you support for the North Harbour Stadium?**

I don't know

I don't care as long as the council spends less money

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The future fund is a good idea. But selling performing asset to make another fund is simply swapping one asset for another. and will not add to the wealth of the councils

We need better public transportation. Period. Public transportation would have to improve to be bad. The bus lane on the North Shore is the only thing that isn't bad. Trains are routinely cancelled. ## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Immediately start maintaining roads better and sealing all gravel roads in the wider Auckland area.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Mobility for pedestrians and cyclist is very limited (and dangerous) in Auckland. This must be improved and expanded urgently.

### 2a. Is there anything you would spend more on?

More and better public transport connections to reach CBD and the Airport from the rural surroundings of Auckland.

### 2b. Is there anything you would spend less on?

Image projects, that don't come with any benefit to Auckland citizens.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

Get rid of everything that is not of essence for the Stadium, optimise costs and help getting profitable events into the Stadium.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

### Tell us why:

**#4355**

The Airport is such an integral part of the Auckland industry (and in fact for the North Island and entire NZ, when it comes to international travel), that it will not need the support of the Auckland Council to further flourish.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Compost bins, no one asked for this and we have to pay for it whether we like it or not. We also had to get/pay for our own bins on the Hibiscus coast (unlike the North Shore that had bins) as you removed the bags. Just remove our rubbish, check our water and keep our roads/parks in good condition- stop all the additional stuff, people are struggling and do not have the additional funds for events & the development- basic needs need to be met.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

If you'd stop building 6 houses on one lot it would reduce congestion in the areas. People \*families can't rely or use public transport as need to be able to collect kids from school if sick etc- 99% of families I know do not use it during the week, just recreationally over weekends as they need to have access to their car- you're only catering to students and young adults- who do not pay rates and taxes- thus redundant

### **2a. Is there anything you would spend more on?**

increase speed limit in right lane on highways

### **2b. Is there anything you would spend less on?**

## **3. Which options do you support for the North Harbour Stadium?**

Change the operational management

### **Tell us why:**

there is no other option available on the shore- get new management to offer more options and get the community involved

**#4466**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Vague- not telling us who will be managing this or the investment- not transparent enough

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Do not increase rates- as mentioned before, supply the people with the basic needs. We're not wanting/asking for anything new. Get better budget management

Other

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

#4466

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

All other options of moving will cost money- currently and probably for the next 5 years the people will struggle financially and to recover. For now we need not to spend money on changing or adding or moving, wait for the economy to settle before wanting to implement any new proposals- spend the money wisely for now- not for the "future fund" 5-35years- who knows what the world & technology etc would be like.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

focus money into infrastructure. Focus the money into getting things fixed - not need to 'pay more' see below

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less big entertainment events until infrastructure is sorted

## 2. What do you think of the transport proposal?

I don't know

### Tell us why:

Rodney rate payers keep paying into the council's funds and not seeing much in return. There needs to be a fairer system where we get a fair proportion of our rates spent in our area not in central or south auckland where we see no real benefit for our money.

### 2a. Is there anything you would spend more on?

Rodney rural roads, we pay so much for our rates and yet so little is done on our roads. We can barely get to any of the amenities that we are constantly paying for.

### 2b. Is there anything you would spend less on?

Entertainment events, wasteful bureaucracy, logos and brand campaigns and advertising, consultants, inspectors who are poor at their jobs.

## 3. Which options do you support for the North Harbour Stadium?

Other

### Tell us why:

Is it necessary? Why does council have to own it? Do the public need to pay for large sports arenas like this? Can it not be privately owned or part ownership with private entity? We struggle to drive on our roads in Rodney to even get to such an arena. Fix the infrastructure before worrying about large sporting complexes.

Eliminate AT's EXCESSIVE GROSS waste! Examples are the dangerous in-road bus stops on CRH that have been ripped out after 2 years and being replaced with inset safer stops. Cost excluding traffic disruption must be in excess of \$1M! Also sick of

**#4476**

seeing empty buses running to Riverhead on CRH; wastage + pollution (1 bus = how many cars for pollution?) AND I'd like to see AT de-funded for suspension busters for EVs (they call them speed humps) that are also a major problem for ambulances and fire trucks (typical single-focus thinking without considering consequences).

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

We need more user pays, so don't agree with capped weekly public transport passes.

Would like to see ALL previously-planned initiatives, relating to raised pedestrian crossings and cycleways stopped!

### 2a. Is there anything you would spend more on?

Te Tāruke-ā-Tāwhiri sets the pathway for the Auckland region to a 50 per cent reduction in GHG emissions by 2030 compared to those in 2016 (referred to as baseline), achieving net-zero emissions by 2050 and adapting to the impacts of climate change.

This is impractical and should be abandoned. It's not a core Council responsibility.

The UK Govt has recognised the impracticality of it.

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

### Tell us why:

The NH Stadium was a great asset for the Nth Shore until Tātaki Auckland Unlimited (TAU) took over management.

The Nth Shore pays for a lot of City-side and south assets, most notably the CRL.

**#4476**

The Nth Shore deserves its Stadium, that was thriving before TAU took over.

It must be retained and returned to local management.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

**Tell us why:**

Sell the AIAL shares and reduce debt. Some call AIAL shares an intergenerational asset. I disagree, and say intergenerational debts are much worse than having an asset.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Te Reo Māori: Delivering bi-lingual signage at key council and Council-controlled organisations sites, within parks and on other council assets, through announcements in Te Reo on public transport, in council venues and on media platforms.

Council Property acts in a very arrogant and dictatorial way. It is absolutely outrageous that, at P101 it's proposed to increase deposit levels for a number of consenting fees. There should be an independent authority where you can appeal against the arrogance of Council officers AND be awarded damages!

At P110, local board funding equity should have more weighting on land area AND the rates paid in the local board's area.

Riverhead

**8. Do you have any other comments?**

I am astounded that the CRL running costs will be \$220Mpa net of fares charged. I don't think this situation should be accepted beyond the short term. It's particularly onerous for Nth Shore residents who get no benefit from the project.

**#4476**

I think Council should reverse this decision, that is demonstrably an overstatement, to the extent it impacts on rate charges:

"In June 2019, the council responded to the call for climate action by declaring a climate emergency, acknowledging the scientific evidence and advice that there is a small window for action to avoid the most damaging effects of climate change".

Also, in a cost of living crisis, why do we have this at P51?:

"increase Māori outcome funding by \$3 million per annum from year four of the LTP to a total of \$171 million over 10 years, accompanied by a review of our partnerships with mana whenua iwi and Māori communities"

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop the ridiculous speed humps at pedestrian crossings

## 2. What do you think of the transport proposal?

Support all of the proposal

**Tell us why:**

### 2a. Is there anything you would spend more on?

### 2b. Is there anything you would spend less on?

Stop the ridiculous speed humps at pedestrian crossings

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

**Tell us why:**

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

**Tell us why:**

### 4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>

#4483

<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Do not support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>
<p>Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>Support</p>
<p>Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of</p>	<p>Support</p>
