Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Complete proposed and started projects..needs overall audits , less committee setup

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13220

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Only way to advance the city

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Public requirement changes

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Once gone will not be able to reinvest

4b. Which option do you prefer for the future of Port of Auckland?

#13220

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Will depend on conditions of lease re M and R

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

AFF can have changes at each term.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Would need more details

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

To taper to public changes

5b. What option do you prefer for Bledisloe Terminal?

I don't know

#13220

Tell us why:

Proposed public benefit ?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	I don't know
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools .	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support

#13220

Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Waiheke

Waiheke Local Board Priorities

7b. What do you think of our proposed priorities for Waiheke in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Delivering core council operational services, such as mowing, track and facility maintenance, and the library.	Very Important
--	----------------

#13220

Programmes which protect, restore, and enhance the island's natural environment, and initiatives that provide opportunities for community connectedness, capability and resilience.	Very Important
Working with our community and businesses to progress actions within the Waiheke Island Climate Action Plan.	Very Important
Progressing recommended actions within the Waiheke Local Parks Management Plan and the Rangihoua Reserve and Onetangi Sports Park Reserve Management Plan.	Very Important
Working with mana whenua and mataawaka to identify and respond to their needs and aspirations.	Fairly Important
Capital projects including the Tawaipareira Reserve playground.	Fairly Important

Tell us why

Waiheke is part of but is not Auckland water,waste,fuel etc is different and reflects life on Island

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

Will change

8. Do you have any other comments?

Cutting funding will stagnate the Island and maintenance will suffer and long term will cost more

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Fund cultural and community organisations more.

Waiheke Community Art Gallery receives the lowest level of funding for any arts organisation in Auckland despite having 60,000 visitors a year and huge community value.

#13224

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Cultural amenities and events

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Capital projects including the Tawaipareira Reserve playground.	Fairly Important

Tell us why

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

Generally good however more investment is needed in cultural and community assets.

8. Do you have any other comments?

Don't support proposed cuts to Waiheke Local Board funding. Waiheke's funding is already disproportionately low. The demands on the island from 1 million annual visitors is not recognised or remunerated.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Support local communities and Iwi to trial managed retreat strategies for our greater society to learn from in order to adapt to climate change in a timely fashion.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13295

Traffic and parking fines, especially when new changes have not been well communicated, or where the changes are not visible enough for visitors to notice they are breaking an arbitrary rule.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Investment in public transport is a necessity, however it also needs to be complemented with investment in walking and cycling infrastructure to reduce reliance on cars.

2a. Is there anything you would spend more on?

Separate cycle-ways that are independent of (not taking up space from) existing roading infrastructure.

2b. Is there anything you would spend less on?

Dynamic lanes should only be used when absolutely necessary to (and can demonstrably) reduce congestion.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Rather than tinkering around and thinking of 'improvements' that (no matter how conservatively planned) could lead to budget blowouts, how about refocusing on ensuring the facility is used more often, whether for the public good (free community events) or for revenue generation (paying concerts) to maximise the return on current investment.

#13295

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Council should retain some control/ownership over this critical infrastructure. It is a lifeline for the people of Auckland and New Zealand.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The quick money option sounds like robbing Mary to pay Paul while the public loses control over a critical piece of strategic infrastructure which is also a lifeline for the community.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

This would reduce pressure on raising rates.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

I disagree with the premise for the Auckland Future Fund. Sale of strategic infrastructure has proven costly to future generations, as can be seen in the current

#13295

state of Kiwi Rail. This idea to raise quick money through divestment will further impoverish future generations.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

There are many improvements that need to be made for improving maritime connectivity between mainland Auckland and its islands, and improving the flow as well as public amenity of this strategic location.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

It seems under-utilized as a car importation terminal.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

Progressing recommended actions within the Waiheke Local Parks Management Plan and the Rangihoua Reserve and Onetangi Sports Park Reserve Management Plan.	Fairly Important
Working with mana whenua and mataawaka to identify and respond to their needs and aspirations.	Not Important
Capital projects including the Tawaipareira Reserve playground.	Not Important

Tell us why

If funds have been diverted away from Waiheke some of the projects and consultations will have to wait.

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

Difficult to say as the budget has been slashed so can't really prioritise anything.

8. Do you have any other comments?

I do not support the proposed cut to Waiheke funding. We have a diverse population. Revenue gathered from the Island should be proportional to the spend.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

more involvement by iwi in Resource management

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

less bureaucracy, less red tape, I

#13372

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Fullers tourist buses on Waiheke are taking potential fare payers away from our ATrate payer bus service so that most AT buses are running without enough passengers

Senior gold card free fares to be kept all day.

2a. Is there anything you would spend more on?

Arts - these generate income and are the glue of community life and give people a sense of value.

2b. Is there anything you would spend less on?

local body salaries including the Mayor's

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#13372

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Move the container terminals to Whangarei and Tauranga and develop the wharves into an arts and cultural centre worthy of a world-class city, not a grubby little downtown as we have at present. See Sydney, London Venice,

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#13372

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support

#13372

Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Waiheke

Waiheke Local Board Priorities

7b. What do you think of our proposed priorities for Waiheke in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Delivering core council operational services, such as mowing, track and facility maintenance, and the library.	
--	--

#13372

Programmes which protect, restore, and enhance the island's natural environment, and initiatives that provide opportunities for community connectedness, capability and resilience.	Very Important
Working with our community and businesses to progress actions within the Waiheke Island Climate Action Plan.	Very Important
Progressing recommended actions within the Waiheke Local Parks Management Plan and the Rangihoua Reserve and Onetangi Sports Park Reserve Management Plan.	Very Important
Working with mana whenua and mataawaka to identify and respond to their needs and aspirations.	Very Important
Capital projects including the Tawaipareira Reserve playground.	Very Important

Tell us why

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Waiheke

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Streamline Ventia so that they do fewer jobs and do them properly

#13467

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Would like to see alternative transport developed rather than more roads, eg aerial gondola, privately funded, to ease road congestion. Less cycleways which remove car lanes and no one uses and only increase traffic congestion.

2a. Is there anything you would spend more on?

Aerial transport solutions such as PRT.

2b. Is there anything you would spend less on?

Less road works with road cones impeding traffic. Less cycleways.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Once airport shares are sold, they are lost, and Council will lose their future increase in value. Future fund good idea, maybe sell some of the shares, but not all.

#13467

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Raise funds through the lease

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

#13467

SUBMISSION TO AUCKLAND'S LONG-TERM PLAN 2024-2034

By [REDACTED] on behalf of Waiheke Climate Alliance – and 2,001 Waiheke petitioners

Email: wca@iconz.co.nz

Local Board: Waiheke Local Board

This submission is from the Waiheke Climate Alliance, and two thousand and one (2,001) Waiheke Island petitioners and addresses Climate Change and the Transport Plan section of the LTP.

I am appending the petition and a community report *The Climate Emergency and Transport on Waiheke Island* detailing our unique situation, and community solutions for the Waiheke Island transport network.

Given the climate emergency and the stark budgetary choices now facing us, this response to the LTP details fiscally neutral local solutions requiring neither cuts to services nor extra funding.

Most importantly, these community solutions will also deliver positive and ongoing decreases in greenhouse gas emissions, thus contributing significantly to Auckland City's vital climate change carbon targets.

Waiheke Climate Alliance Focus - doing things differently

Introduction:

It is of concern that the vast majority of the Transport proposals in this LTP either have no benefits for Waiheke or have a detrimental impact on islanders. The LTP proposals and the trade-offs centre on the 'mainland' such as electric trains, busways, dynamic lanes and rapid transit network projects.

Even the central transport proposals (pp33) only contain a couple of investment possibilities that would apply to Waiheke.

- a. completing existing projects and delivering lower cost cycleways
- b. fully fund the unsealed roads improvement programme

But the sticks and threats are numerous. Cuts, reduced services and higher costs - like the most expensive ferry service in the country - all of which impact more heavily on the islanders.

But what Waiheke does have is a deep and ongoing commitment and passion for sustainability and climate change solutions. The most critical solution/action for us – indeed, for the whole city, is:

Implementing Auckland's Transport Emissions Reduction Plan (TERP)

This is the most fundamental and vital piece of climate change planning that has been produced (probably anywhere in the country). Therefore, it is incredibly disappointing that the TERP is not front and centre in this LTP. With 64% of Auckland's total emission reductions having to come from transport this should have been **the** priority.

Whilst this LTP proposes some big strategic changes it also notes that ALL Aucklanders have a part in Te Taruke-a-Tawhiri, Auckland's Climate Plan ... *"and council plays an important role in facilitating the required action to achieve its objectives.* It goes on to say that they recognize they need to make fundamental changes to the organisation, *"the way we work and how we interact with our communities."*

The mayor backs this up in his LTP message, saying that he is “*asking the council group to focus on doing more with what we already have*” and in particular to “*look to do things differently, rather than assume things need to cost so much, and remove barriers to pragmatic solutions.*”

This is exactly what the Waiheke Climate Alliance, and indeed, the whole community is doing, and has been doing, on Waiheke Island – trying to remove barriers to pragmatic solutions. We may only be a small island, but we have a wealth of passion, expertise and commitment in the community. We need to be listened to and our local, and unique solutions taken seriously.

Waiheke solutions for Waiheke

In April 2022 the WCA published a community report – *The Climate Emergency and Transport on Waiheke Island*. It details immediate actions that can be taken to enable hundreds of islanders to play their part in reducing transport emissions.

The most important of these actions is the shift from cars to active modes and public transport. The community report details the expansion and restoration of bus routes and services cut in 2019, together with simple improvements to scheduling, timetables and operations that reduce road congestion and make car alternatives like biking and walking safer, attractive and viable.

This public transport mode-shift solution for Waiheke is all the more compelling because it deprives no-one else on the island of their service, requires neither cuts to services nor extra buses or drivers, and can be implemented immediately. **But the most significant detail is that these solutions do not need extra funding to implement or operate.** So, the question we ask, is what is preventing these fiscally neutral solutions from being implemented?

Listen to the community

As recognised in this LTP, there needs to be fundamental changes to the way council, in partnership with Auckland Transport, works and interacts with the community.

You ask us to have our say. When we do, you need to listen to us. And then you need to engage with us is implementing our solutions for our unique situation.

Our Climate Report, which we have appended to this submission, was in response to Auckland’s declared climate emergency and its critical commitment to reduce emissions across the city. The actions detailed then are no different now. Simple solutions can be implemented on Waiheke Island, NOW, to enable hundreds of residents to play their part in reducing transport emissions - by getting out of their cars and onto buses, bikes or their own two feet.

Not only has this Climate Report been disregarded, but for over four years, literally, **thousands** of island petitioners and their pleas to restore bus routes and services cut on the island as part of its 2019 New Network Plan have been ignored.

We are submitting both *The Climate Emergency and Transport on Waiheke Island* Report and the petition from two thousand (2,001) Waiheke Island petitioners to this LTP 2024-34. We ask that these petitioners are finally heard and counted.

For the Waiheke Climate Alliance
March 2024.

Appended

1. link to Petition

Petition to Auckland Transport concerning proposed changes to bus services on Waiheke Island.

We, the undersigned, object to the planned withdrawal of bus services from the Wharf Road/Ostend Road route on Waiheke Island. At a time when the traffic congestion and limited parking space in Oneroa and at Matiatia is encouraging more residents to consider using public transport, it is disappointing that a decision has been made to reduce the services in this area.

The proposed change would create considerable inconvenience for commuters, shoppers, older residents with limited mobility and parents with pushchairs – some of whom would have to walk a lot further than at present to the nearest bus stop in Belgium Street or on the Causeway.

We urge you to reconsider this decision and reinstate the Ostend Road route in your regular bus routes.

Organisation (if applicable):

Local Board: Waiheke

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better ie more frequent and reliable public transport at affordable prices

Safe cycle ways and pedestrian access

#13568

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Spending money on reports and consultations, wages to staff over \$120 k

Checking funding for things like all those ridiculous zebra crossing

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

We need more options than cars and reading so good public transport system trains, buses, gondolas etc ate vital for now and the future

2a. Is there anything you would spend more on?

Trains, more comfortable buses, gondola feasibility etc

2b. Is there anything you would spend less on?

Don't sell airport shares or lease port

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

It's a white elephant and costly

Keep it as green as possible and keep community involved

Provide well designed and cheap housing for people

Plant trees and gardens

#13568

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Money will get lost and absorbed

These are assets that belong to the people and not for a mayor wanting to leave a legacy of cheaper rates or looking good

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Don't want to be tied in to a long term lease as not in our best interests to lock it up for 35yrs. Also creates transport, reading congestion etc

As someone said renters don't do a lot to improve the property they rent

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

#13568

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Best option

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Need better ferry services wharfs infrastructure

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to	Support

#13568

reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

The proposed drastic cut to the WLB's funding is not realistic given the visitor numbers to the island and assets. The tracks alone are a hugely important asset for residents and visitors.. Local businesses are profiting from visitors, but council is picking up the infrastructure bill. There are very few facilities for youths on the island, they need to be prioritised.

Climate resilience, biodiversity, environmental protection, achieving a thriving Hauraki Gulf ecosystem and ensuring Auckland is a city that strives for equitable outcomes for all of its citizens.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13613

Stop wasting money.

The real problem with Auckland Council (AC) budget options is AC's operational spending, its poor procurement record and spending on external accounting, legal and consulting firms. Auckland is simply not paying its way. It has been growing without investing in the services required for growth. Selling assets only delays the day of reckoning when the city has to face the fact that its citizens are not paying enough to maintain the services they consume.

Auckland ratepayers have traditionally paid a lower percentage of rates than all other cities in NZ. Why is this issue not discussed?

The problem is systemic. Citizens were told by the Royal Commission that the merging of the four cities into the Super City would improve efficiency "in the indicative range of 2.5% to 3.5%".

But was this achieved? In 2008, the collective annual budgets of the various Auckland councils was just over \$3.2 billion. So, taking into account inflation, the 2023/24 budget should be \$4.26 billion. But it isn't, it is \$6.38 billion, a whopping increase of 50% with no improvements in services.

Too much emphasis has been placed on centralising power and setting up contracts for large multinational corporations, and far too little on the local economy and using the knowledge within communities.

A 25 per cent reduction in consultant spending would result in a saving of \$500 million per year way in excess of returns from the proposed AK Future Fund and many of the proposed service and capital expenditure cuts.

We don't need more Long-term Plans from a dysfunctional AC to "fix" the Super City, we need to replace it. The Super City experiment has been an abject failure and power must be taken from the CCOs and devolved to local boards which can provide services more cheaply locally, using local contractors with better outcomes for the community.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

#13613

Overall the proposals are reasonable but they fail to address the fact that transport creates the majority of Auckland's greenhouse gas emissions - over 50 per cent.

This is the time to prioritize transport options that will address the climate crisis not just delay the necessary actions.

Therefore, public and active transport options must be prioritised over car and road transport.

Auckland could be a leader in electrifying its transport options. Buses and ferries must be electrified now. Continued support needs to be given to supporting electric cars, trucks, bikes and scooters.

2a. Is there anything you would spend more on?

Public and active transport options.

2b. Is there anything you would spend less on?

Roads - new and maintenance. A reduction in the amount of heavy vehicle use will reduce maintenance costs.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

This is an issue for North Shore citizens.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#13613

The Auckland Future Fund concept sounds great with the Mayor and Auckland Council (AC) presenting the idea as a silver bullet that will overcome the serious gaps between income and expenses and the need to determine spending priorities. But in reality it is a concept that can and will not achieve the desired outcomes as it is fundamentally flawed. It must be abandoned now before it commits ratepayers and citizens to another folly.

The idea of such a fund has been suggested by the Mayor Wayne Brown as a smart way of doing things and getting more out of what the city already has.

In an article in Our Auckland published 29 Nov 2023 titled Mayor proposes Auckland Future Fund for financial and physical resilience the Mayor Wayne Brown claimed that a new regional wealth fund - with an initial capitalization of \$3 to 4 billion from the sale of the Auckland International Airport (AIA) shares and the proceeds of leasing the Ports of Auckland (POA) - would provide:

- A better return on investment
- Increased non-rates revenue
- Reduced risk by diversifying markets and geographic locations
- Provision for self-insurance against climate change risks
- Protection of intergenerational assets and their value.

Scrutiny of the proposal demonstrates that in reality the scheme as structured cannot deliver on its goals and is missed name and should be named the Auckland Diminishing Asset Fund.

Let's consider each of the Mayor's arguments.

1. A better Return on Investment.

Brown's rates of return on investment for both POA and AIA are 2% per annum. This is based on an investor having to buy the shares on the current open market price. This statement is deliberately misleading.

The shareholding in both entities was never paid for by the Auckland Super city. The airport shares were gifted to the Auckland Council in 2010 by the legacy Manukau and Auckland Councils prior to the establishment of the Super city.

Therefore, any dividend that Auckland Council receives is 100 per cent profit generated in New Zealand and contributing to the Auckland economy.

Currently, dividends from the Airport shareholding is \$40 million and from POA \$52 million per year giving a combined total of \$92 million.

#13613

If we use a realistic AK Future Fund capital base of \$2 billion not the overstated \$3 to 4 billion suggested by the Mayor (see below) and the fund achieves a net 5% return then this will result in a return of \$100 million similar to the existing investments. However, these returns will not predominately come from New Zealand owned and operated companies.

Even if the Fund did earn \$180 million per year this would contribute only 4.5 per cent of the annual CAPEX budget and less than 1.6 per cent of the combined CAPEX and OPEX budgets.

What will \$100 million per year actually buy? Treasury states motorways cost between \$30 to \$46 million per kilometer so approximately 3 kms could be funded per year or 45 kms of water pipes (Water NZ).

2. Increased non-rates revenue

This statement is incorrect (see above) and in addition there will be no capital gain from the AK Future Fund as it is a non-contributory fund and intends to spend its returns each year rather than use the power of compound interest. Therefore, its capital base will not increase.

In practice it will be a depreciating asset as overtime its purchasing power will depreciate.

Retaining the shares in AIA and POA in comparison would result in having appreciating assets. This is demonstrated by how much AIA shares increased in value from when the Super City was formed in 2010 until the shares were sold in 2023. The combined value of Manukau and Auckland's shares had tripled during this period representing a capital gain of \$1.2 billion.

Such increases in the share value of AK Airport are non-taxed capital gains on a locally owned New Zealand (Auckland) asset. The same is true for AC ownership of the POA.

AC's current share owning in AIA and POA are sound inter-generational investment having both commercial value and strategic importance with long-term dividends that supplement income from rates. The proposed Auckland Future Fund will not provide increased non-rate income.

3. Reduced risk by diversifying markets and geographic locations

To achieve an average net rate of return on funds of 5 per cent per annum the accounting firm PwC states it will require the funds to be invested in high growth investments which are volatile and will mostly be overseas investments.

Issues of currency fluctuations will also apply to the annual returns.

#13613

It is ironic that most of the funds in the proposed managed funds will be in long-term infrastructure such as ports and airports which Auckland will just have sold!!

4. Provision for self-insurance against climate change risks

This can happen under either scenario and is an operational policy decision not a capital issue.

5. Protection of intergenerational assets and their value.

The Mayor has stated the Auckland Futures Fund would have a value of between \$3 to 4 billion from sale of airport shares and the lease of POA. This figure is grossly overstated and is a misrepresentation..

Simon Wilson, NZ Herald notes that the remaining AC parcel of AK airport shares are worth between \$1.2 - \$1.4 billion and the POA lease about \$1 billion. To achieve the latter AC will have to meet the cost of upgrading the POA prior to any lease being signed. This cost will fall on ratepayers. Why is this cost not mentioned?

The recent record of Auckland Council selling Auckland airport shares shows that the suggested process is a failure. The assets were sold for \$33 million less than their true value due to how the selling process was handled. The income received was not used to pay off debt and the debt to income ratios of AC have remained largely the same as before the sale. The proceeds were simply absorbed in the Council's running costs.

The proposed Auckland Future Fund provides no guarantee that the funds will be invested in Auckland's infrastructure or even in New Zealand.

The dividends and the capital gain will simply go elsewhere and most likely overseas. This does not provide protection for future generations,

As the fund is non-contributory, does not have a separate income stream and does not intend to retain its dividends and interest it will remain largely at its initial capital value.

In such a scenario the amount of support it can provide AC's ratepayers will remain at about \$100 million per year. The real value of this will quickly diminish in-line with inflation and the population growth of Auckland.

In addition, if the capital of the Fund is used then the life of the fund will be only a few years, probably no more than 10 years.

For any Council intergenerational Infrastructure assets (transport modes, fresh and waste water, airports, ports, communication networks etc.) are a crucial task for local government. Airports, ports and network utilities are essential services not "assets" in the traditional sense but critical infrastructure for any city.

#13613

In New Zealand, both central and local government, have a poor track record in investing on a regular basis in infrastructure and to maintain the assets. Take for example, the current water and sewerage issues in Wellington and Auckland. The cost of this failure is borne by future generations of rate and taxpayers.

Selling infrastructure assets does not result in them being run more efficiently instead the new owners simply raise the cost to users.

There is also little, if any, evidence that privately run infrastructure is better managed than publicly owned infrastructure. Take NZ's experiment with line companies, electricity generators, prisons, education and health providers.

Given that the return on investment argument is a 'red-herring' then questions need to be asked what is the motivation of the Mayor and Auckland Council to suggest the sale of shares in Auckland Airport and the leasing of the Ports of Auckland?

It needs to be stressed that the leasing of POA is equivalent to a sale as once the lease is signed then the renewal or extension of the lease will be at the convenience of the leasee not the lessor.

It is clear from public statements and this Long-term Plan that the Mayor and Council are determined to sell the Auckland Airport shares (see pages 9 and 59) where it is stated that "It is almost certain that most, if not all of the AIAL shares, would be sold overtime. " Why?

It appears that the only true motivation is the continued process of privatisation of state and Council owned assets so that the private sector makes money and obtain control of crucial local assets which enables it to determine the future direction of the city so that it benefits rather than the citizens.

NZ and overseas history shows that this is a failed policy. Selling off the silver does not make the country, the city or the individual richer.

The Mayor is a 'raider' of publicly owned assets For example, the recent sale (at a fire price) of the Downtown Car Park building. AC is also selling off historic buildings, small parks and other assets thereby privatising public assets.

The result is that AC and its citizens are less well off, less resilient and subject to the whims and wishes of overseas companies and/or governments.

The Auckland Futures Fund is not a path to property but instead to poverty.

Aucklanders MUST OWN their key infrastructure. Surely, it is the role of Councillors and local officials to work for the citizens not for fund managers or private investors.

#13613

In conclusion, the Auckland Future Fund is a smokescreen for the biggest privatisation of council assets in NZ local government history. We, the public are presented with a PR exercise that attempts to suggest there are ways to safeguarding the funds from future councils raiding the fund.

The idea that the fund will be protected by being a designated strategic asset under Auckland Council's Significance and Engagement Policy is mythical given past history.

In 2028, the Council's Diversified Asset Fund (\$400 million worth of international stocks, bonds and cash) inherited from the Auckland Regional Council was spent down within months.

Finally, it is unbelievable and totally irresponsible of AC to float the idea of an AK Future Fund that is so integral to the options outlined in Auckland Council's Long-term Plan 2024 -2034 options for public consultation without the idea being reviewed by external experts. If such a review has been done then it should have been made available prior to public consultations. Fail to do so undermines the Council's credibility.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

As outlined above the lease option of POA does not produce sufficient funds both in the short and long term to warrant its privatisation.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The Auckland Future Fund options basically achieves nothing. Therefore, it is best to use profit and dividends to provide funds for both CAPEX and OPEX spending.

#13613

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

The self-insurance option is reasonable for protecting certain assets and if the predicted savings can be achieved it should become Council policy. It does not need the proposed Auckland Future Fund to achieve this savings just good procurement practices.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

This decision should be made based on the merits of the business case for these two wharves. Moving the berths for cruise ships would enable ferries to have uninterrupted access thereby increasing their efficiency (less delays/cancellations) and encourage

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

The key statement here is that if Bledisloe Terminal was shifted then :....this would significantly reduce the scale of port operations in Auckland with more shipments needing to be transported into Auckland by truck or rail"

As Auckland and the world are in the midst of a climate crisis it makes sense to minimize the use of road transport which is largely fossil fuel based.

6a. What do you think of these proposals?

#13613

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

This Plan is touted as Auckland Council's Long-term Plan 2024 to 2034 (ACLTP) however, there is no mention of two other Auckland Council active reports titled The 10 Year Budget 2018 - 2028 Plan and The 10 year Budget 2021 – 2031 (Our Recovery Budget) which should have been considered.

This Plan should have outlined the successes, failures and lessons learnt from these two other reports/plans.

Also, the ACLTP fails to align with the goals of numerous Auckland Council plans including the Auckland Climate Plan 2020 and the Draft Auckland Waste Management and Minimization Plan 2024 .

Revenue and Financing Policy should be based on best practice experience built up overtime. Consideration of past plans would provide context.

The authors of the current Plan fail to acknowledge that this Plan, like any other Plan, is temporary and could be changed at any time by a new council or a major disaster. Therefore, it is crucial that this Plan and others are based on the Principle of Minimum Regrets. The options in this Plan fail to meet this test on which sustainability and resilience must rest.

From a general policy perspective we are astounded by the cynical nature of the proposed rate increases in all scenarios with the rate of increase being less in the second year which just happens to be the Council's election year. This can only be considered to be a type of bribe to the voters..

#13613

Local board priorities

7a. Which local board area does your feedback relate to?

Waiheke

Waiheke Local Board Priorities

7b. What do you think of our proposed priorities for Waiheke in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Delivering core council operational services, such as mowing, track and facility maintenance, and the library.	Very Important
Programmes which protect, restore, and enhance the island's natural environment, and initiatives that provide opportunities for community connectedness, capability and resilience.	Very Important
Working with our community and businesses to progress actions within the Waiheke Island Climate Action Plan.	Very Important
Progressing recommended actions within the Waiheke Local Parks Management Plan and the Rangihoua Reserve and Onetangi Sports Park Reserve Management Plan.	Very Important
Working with mana whenua and mataawaka to identify and respond to their needs and aspirations.	Fairly Important
Capital projects including the Tawaipareira Reserve playground.	Very Important

#13613

Tell us why

Waiheke is a strong community which is striving to become more self-sufficient and resilient whilst protecting and restoring the natural environment - both land and sea.

The priorities above help to facilitate a movement in that direction. .

The list sh

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

It is extremely hard to agree with the proposed priorities for the 10 year budget given that Waiheke faces the largest budget cut (69 per cent) from \$2.89 million to \$894,687 than any other board.

It is noted that many boards in high income areas are facing small, none or even increases in their budgets. Why is Waiheke being singled out?

Waiheke's annual rate take is \$31 million consisting of local businesses rates \$3 million (274 units), residential rates \$26 million (6,408 units), 161 multiuse units plus a waste levy \$2 million.

Auckland Council spending allocation for Waiheke includes AC services \$2.74 million, capital expenditure \$885,000, road maintenance \$6.375 million and unknown an amount for street lighting, storm-water maintenance and emergency services say \$2 million leaving a surplus or subsidy to the city of \$19 million per year. Is this fair and equitable?

It is no wonder that Waiheke attempted to leave the Super City when it is treated so poorly.

8. Do you have any other comments?

The submission process is undemocratic with predetermined questions and options which prevent an open and frank discussion of options.

Such an approach suggests there is only a certain of number of options and that it is not possible to mix and match different priorities and actions. . This stifles creativity and innovation. A mix and match approach would be better.

It is noted that the Mayor and the Council do not intend to receive verbal presentations from the general public. Such a consultation process is clearly a violation of citizen's rights.

#13613

Sadly, such a step reinforces the publics perception of politicians and councils not putting their duty to serve the public at the heart of all engagement.

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#13656

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Improve ferry commuter services, speed up reduction in carbon emissions of ferries and reduce fares on the Waiheke ferries for commuters.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Don't feel have enough information within the proposal to comment on this, especially around changes to the operation of the Ports of Auckland and the governance of the fund and future access to the fund.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#13656

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Continue to generate more port area close to the downtown for public use and adding vibrancy to the city and enhancing the connection of the city to the sea.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

More consideration is needed to determine the use of the Bledisloe Terminal and potential use of these areas of the port for cruise ships or public use. The time would allow for more consideration of options.

#13656

**6a. What do you think of these proposals?**

Tell us why

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

Support the key priorities proposed, including the priorities outside the of local board decisions

8. Do you have any other comments?

The Waiheke Local Board is due to have a 70% budget cut for capital spending which is excessive especially compared to other local boards. This substantial reduction in capital investment will have a significant impact on the maintenance of Waiheke infrastructure, such as the tracks and facilities, which are an important asset to local residents as well as the thousands of domestic and international visitors who travel to and enjoy the island amenities. The key public assets under the control of the Local Board will deteriorate resulting in their closure and greater remedial costs in the future. The Fairer Funding model proposed for Local Boards would address funding inequities that currently affect the Waiheke Local Board budget allocations.

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The above

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13686

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Assuming Pay More, Get more includes points covered in the Central Proposal, it's not clear that it does, as investment in infrastructure can't be delayed.

Auckland is growing and the transport infrastructure needs to be aligned with it to get and keep Auckland moving.

2a. Is there anything you would spend more on?

The above

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Why is the stadium underutilized? What is it not delivering to the local and growing and changing northern communities, is that a management, business model, marketing failure or other?

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#13686

Don't sell off remaining assets. leverage

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

It's a world class waterfrontage (apart from the awful ingress into the harbour by the massive Port cranes further down the harbour, however too late to change that unfortunately) So don't waste the opportunity to optimize what is left of a continuous wat

5b. What option do you prefer for Bledisloe Terminal?

#13686

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

as above

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	I don't know
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	Other
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in	I don't know

#13686

2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Tell us why

Waiheke is a unique locale with a wide range of specific issues. The proposed budget cuts to the Local Board and the Community of Waiheke is way out of kilter with other Local Boards per head of ratepayers and adversely affect the ongoing work required to

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

Agree

#13686

8. Do you have any other comments?

A 70% cut to the Waiheke Local Board's budget for capital spend from 1 July this year for three years. Capital is the money invested in long-term permanent assets like tracks, facilities, playgrounds and support to important community led projects.

The board's capital budget fixed in the last long-term plan was to be \$8.42 million for the next three years.

The proposed cut to \$2.5 million in total for the next three years (a 70% cut) is untenable and false economy.

Waiheke has the biggest % cut of all 21 local boards. Some have no cuts next year.

Spending at this low level will mean assets deteriorating. Waiheke assets ie: world renown walking tracks will be seriously impacted. Costs to remediate them will have gone up enormously. That is just one example.

Ratepayers of the Waiheke Local Board area paid approx. \$27 million (excl. GST) this financial year. One year.

Long-term Plan 2024-2034

Organisation (if applicable): PROTECT OUR GULF

Local Board: Waiheke

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Community development, especially housing for homeless and especially within that housing for young people and greater support.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13778

Big international events should be better supported by BIDS and businesses, for example Americas Cup, FIFA events. or by central government.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Not sure that electric ferries are a priority. What is a priority is addressing resilience and fair fares across Auckland and including Waiheke. At least having affordable fares for community services and under 24.

2a. Is there anything you would spend more on?

The above. Accessible fares, public transport, cost and coverage. Ideally working towards everyone having a bus stop within 500 metres of where they live rather than 1.3 Kms which is quite a way to walk.

2b. Is there anything you would spend less on?

Reversing all the work done on reducing speeds. Unfair that we were consulted on this, said what we needed, agreed we wanted slower speeds, paid for it all, and now the government is reversing it. Inappropriate and not evidence based.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

At some point someone did a feasibility study. If the stadium is not being used, then first change the operational management and see if the use can be increased - it seems that it is expensive for people to hire. Once this has been exhausted other options can be looked at. In the meantime it is structurally sound, and spending money that we're told the city doesn't have to redevelop it is not appropriate. This can wait and be left to a future mayor. We do not support extensive spending on this facility at this time - either its use will increase over time, through greater numbers of residents, or

#13778

the change in operational management. If it doesn't, then things can be looked at into the future.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

This proposal serves to alienate Councillors from an important funding stream. We also feel council should retain businesses and assets which can be used over the long term to provide a return which can be used to keep rates down and fund council services. The proposal is short sighted, the councillors can make the decisions proposed for climate change more easily now than if they were in a fund. The fund also reduces the visibility and accountability of the fund and it is completely unclear how this will be managed. We are opposed to any further sale of airport shares. The council should be increasing debt to spread the load over future users rather than expecting these issues to be resolved this term.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

In our view is a stealth proposal to undermine the ports and make them unviable so they can be sold more easily. This is shortsighted because there is no approved location for another port, the port infrastructure is costly and substantial investment has been made at this location, the environmental damage at this location has already occurred so relocating it would cause further damage, leasing the port creates the conditions for poorer safety and environmental management and less oversight by Council, leasing the port carries the risk that the operator stripmines the assets and fails to maintain the infrastructure appropriately so that it is left to POAL to pick up the pieces. It is a short sighted and self-serving view. Wynyard Quarter has been

#13778

developed for its amenity value. This area needs to function as a port or be used for other functional purposes like transport.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The Auckland Future Fund has not been socialised at all and has no clarity of process around it. There is no accountability and Councillors are elected to make decisions for the benefit of community. Giving the fund to an unelected body to manage and disburse is not appropriate. Councillors can make decisions to use funds for future use.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

NO.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

We do not support a reduction in the Port footprint. This works against future proofing the port and represents death by a thousand cuts to the point the port will be made unviable.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#13778

Tell us why:

The proposal is absurd. Where will cruise ships dock if Ports of Auckland don't have a viable dock any more?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Other

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

The question on differential rates above is horribly written. We support greater equity in funding for different areas based on deprivation.

Local board priorities

7a. Which local board area does your feedback relate to?

Waiheke

Waiheke Local Board Priorities

7b. What do you think of our proposed priorities for Waiheke in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Delivering core council operational services, such as mowing, track and facility maintenance, and the library.	Very Important
--	----------------

#13778

Programmes which protect, restore, and enhance the island's natural environment, and initiatives that provide opportunities for community connectedness, capability and resilience.	Fairly Important
Working with our community and businesses to progress actions within the Waiheke Island Climate Action Plan.	Fairly Important
Progressing recommended actions within the Waiheke Local Parks Management Plan and the Rangihoua Reserve and Onetangi Sports Park Reserve Management Plan.	Not Important
Working with mana whenua and mataawaka to identify and respond to their needs and aspirations.	Fairly Important
Capital projects including the Tawaipareira Reserve playground.	Very Important

Tell us why

We need to support youth better and have address housing issues. An audit needs to be done of environmental funding to make sure it is contributing to increased biodiversity. Not keen on more rat pilots in urban areas when there are areas of high biodiv

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

Generally fine, would like to see more active support for the Hakiamango Matiatia Marine reserve, support for advancing housing initiatives, more support for youth outcomes - particularly reducing the cost of transport and creating accessible work and recreational opportunities.

#13778

8. Do you have any other comments?

Really disappointed that there is no discussion of increasing debt to get us through these unusual times. We'd like to see rates means tested. Also, do not remember if there was a question on rates, we support the proposal for a 7.5% increase in rates, and would support a higher level of rates provided there was a mechanism for those who cannot afford to pay to not have a rates burden as there are vital infrastructure issues that need to be addressed.

Long-term Plan 2024-2034

Local Board: Waiheke

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Roadside vegetation without toxic sprays. Support boards by giving more funding+ autonomy particularly H.G. island communities

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13831

Fewer signs. AT to have it's signs budget reduced and be more accountable. Fewer road cones + traffic control

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Where it focuses on public transport + walking less on private motor vehicles

2a. Is there anything you would spend more on?

Safer + more footpaths and cycleways

2b. Is there anything you would spend less on?

Road signs + cones

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Income generating activities like airports and ports should remain in council control- Do not sell or lease either

#13831

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Keeping control of the port is essential to keep option open in future- do not sell or lease at this time

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Insufficient data about future fund. Cannot see why we should sell or lease when we can get good returns + control in council hands

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Until specific plans are approved for the wharfs keep them as port land

5b. What option do you prefer for Bledisloe Terminal?

#13831

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

As above

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Fairer funding is required for local boards

Local board priorities

7a. Which local board area does your feedback relate to?

Waiheke

Waiheke Local Board Priorities

7b. What do you think of our proposed priorities for Waiheke in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

#13831

Delivering core council operational services, such as mowing, track and facility maintenance, and the library.	
Programmes which protect, restore, and enhance the island's natural environment, and initiatives that provide opportunities for community connectedness, capability and resilience.	
Working with our community and businesses to progress actions within the Waiheke Island Climate Action Plan.	
Progressing recommended actions within the Waiheke Local Parks Management Plan and the Rangihoua Reserve and Onetangi Sports Park Reserve Management Plan.	
Working with mana whenua and mataawaka to identify and respond to their needs and aspirations.	
Capital projects including the Tawaipareira Reserve playground.	

Tell us why

Fairer funding is required for local boards Greater devloution of power + funds to local boards (H.G. Islands in particular)

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Waiheke LB is being cut unfairly. Our assets will deteriorate. Return spend to WLB to that of previous years not shrink it.

Long-term Plan 2024-2034

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#13836

I don't know

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

#13836

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.

#13836

Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Leave community board funding as is or increase

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13847

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Leave cost effective transport alone and gold card uses

2a. Is there anything you would spend more on?

Waiheke ferry services

2b. Is there anything you would spend less on?

Your wages

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Was built for a reason so use it!

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Don't sell our public assets. You didn't pay for them

#13847

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Charge a higher rent to the port authority to gain more revenue

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Reinvest in public projects that benefit all Aucklanders

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Hit commercial entities with the bills not tax payers

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Just charge ports of Auckland more for it's use or fullers etc.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#13847

Tell us why:

And charge them more rent not ratepayers

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Yes as above decrease major events funding if its objective is economic development

#13852

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Do not reduce subsidy for AT Hold Allow free travel 3:30-6:30pm

2a. Is there anything you would spend more on?

Public transport

2b. Is there anything you would spend less on?

Signage

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Not for banks not people

4b. Which option do you prefer for the future of Port of Auckland?

#13852

Other

Tell us here:

Remove ports to whangarei

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

The business model is wrong. Council books do not have to be balanced but reasonable under current conditions

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

#13852

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#13858

I don't know

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

No trust in councils management

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

#13858

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

keep cargo wharf

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount	Support

#13858

for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools .	I don't know
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More environmental protection. More protection tauraki golf. More budget to fight weeds

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13861

Less construction around streams . Pay less ferry transport

2. What do you think of the transport proposal?

Tell us why:

Need more cycleways at Waiheke. Ferry with fullers is unfair. Transport needs to be improved

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Less Ferry cost!!

3. Which options do you support for the North Harbour Stadium?

I don't know

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Provide Waiheke community board with more funds.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#13879

Support most of the proposal

Tell us why:

Get AT accountable for most of it's spending- signs + fewer road cones

2a. Is there anything you would spend more on?

Safer footpaths + public transport infrastructure

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

To improve utilisation of this asset

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Income generating assets should remain in the council control & for the community -
No lease either

4b. Which option do you prefer for the future of Port of Auckland?

#13879

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Keeping control is essential

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

The future fund does not seem like a safe, dependable idea. Too easy for funds to be used for nebulous purposes

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

This is not the time or financial environment to make any change. Keep control

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#13879

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Actually turn up after a complaint is made to sort the mothweed + other plants 6 months after being advised I had a noxious weed on my property a smartly dressed man with an expensive car spent an hour looking on my small property

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13884

The council couldn't do less! We still have barking dogs. One tried to attack my granddaughter and elderly neighbour

2. What do you think of the transport proposal?

I don't know

Tell us why:

We need better transportation in Auckland

2a. Is there anything you would spend more on?

Conservation

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

Surely that is why you pay consultants. It could be better used

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Don't enter into a lease agreement where we lose control. Look at the aluminum disaster at the wai port foreign ownership don't care about us!

#13884

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

We need to maintain control of our ports and hold POL accountable

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Why lose an asset to lose funds to suit the mayors ego \$\$\$ can rapidly disappear. with assets we have tangible

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

This is far to complicated for a ratepayer to understand the long term permutations
K.I.S.S

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

Maybe proceed with proposal

5b. What option do you prefer for Bledisloe Terminal?

#13884

I don't know

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

#13901

Tell us why:

Need better maintenance of existing roads and rails

2a. Is there anything you would spend more on?

Public transport to get cars off the road where possible

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Dont sell off our family silver now.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

#13901

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Don't cut good services to save money now. It will cost more to start all over again.in future

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Waiheke

Waiheke Local Board Priorities

7b. What do you think of our proposed priorities for Waiheke in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Delivering core council operational services, such as mowing, track and facility maintenance, and the library.	
Programmes which protect, restore, and enhance the island's natural environment, and initiatives that provide opportunities for community connectedness, capability and resilience.	
Working with our community and businesses to progress actions within the Waiheke Island Climate Action Plan.	
Progressing recommended actions within the Waiheke Local Parks Management Plan and the Rangihoua Reserve and Onetangi Sports Park Reserve Management Plan.	

#13910

Working with mana whenua and mataawaka to identify and respond to their needs and aspirations.	
Capital projects including the Tawaipareira Reserve playground.	

Tell us why

The local board is in a position to know what is essential for Waiheke Island residents and the best rather than central council

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

The council plan to cut the board by 70% is unrealistic. We are an island of approx 8000 residents. No reticulated water or sewage very poor roading expensive ferry services 95 octane \$4.00/litre and thousands of visitors annually

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Waiheke

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More for public transport. More for pedestrians. Walking is good for health physical mental and social. I would like Auckland council to continue the gold card on ferries between Waiheke and Auckland all day from 9am onwards all day (not for pensioners who live on the island who have to pay between 3-7 pm

#13919

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less on roads charge electric scooter hires more and ban them from footpaths

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Less on roads I can't understand some of the high costs of the roading programme

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

I disagree with selling the councils share in the airport. This fund is set up to mask that it is being done. The council needs to keep receiving revenue from these investments

#13919

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

I disagree with the Auckland Future Fund. I disagree with leasing the port for such a long period. Council will lose all control of it.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

I disagree with Auckland Future fund

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Organisation (if applicable):

Local Board: Waiheke

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#13936

Support most of the proposal

Tell us why:

I support the central proposal as long as gold AT card continues to provide free transport for gold card users

2a. Is there anything you would spend more on?

Free transport is of great benefit to waiheke island residents with medical appointments in Auckland and their friends and whanau

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

Option 2 seems reasonable in view of under use

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

I support the proposal so long as funds are fairly between all local boards A 70% cut in funds. A 70% cut in funds to Waiheke local board is the hardest cut of all. Note Waiheke ratepayers consultation

4b. Which option do you prefer for the future of Port of Auckland?

#13936

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Generation of funds and issuing of rates increase in year 2 of the proposal (illegible) central proposal. Funds to be distributed (illegible) central proposal with funds distributed to local boards

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

6a. What do you think of these proposals?

#13936

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support

#13940

Increase the **Waitākeke Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Waiheke

Waiheke Local Board Priorities

7b. What do you think of our proposed priorities for Waiheke in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Delivering core council operational services, such as mowing, track and facility maintenance, and the library.

Programmes which protect, restore, and enhance the island's natural environment, and initiatives that provide opportunities for community connectedness, capability and resilience.

Working with our community and businesses to progress actions within the Waiheke Island Climate Action Plan.

#13940

Progressing recommended actions within the Waiheke Local Parks Management Plan and the Rangihoua Reserve and Onetangi Sports Park Reserve Management Plan.	
Working with mana whenua and mataawaka to identify and respond to their needs and aspirations.	
Capital projects including the Tawaipareira Reserve playground.	

Tell us why

Significant budget cuts more than other local boards despite contributing the same in rates as rest of Auckland

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

#14086

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Airport shares are a good investment generating an amount of revenue that council could utilize.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Revenue from the lease could be used by council to offset rate less.

#14086

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Support

#14086

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of	I don't know

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Why are we not included in AT of pay more in fares than anyone else.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#14092

Do not support most of the proposal

Tell us why:

Cycle lanes are essential. Being a Waiheke resident have never seen any progress oncoming under AT Fares never come down - no park and ride.

2a. Is there anything you would spend more on?

Less vehicles and more public transports

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Increase its usage - promote it more.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Why sell off more assets. We hardly own anything anymore. Everything owned by overseas investors.

4b. Which option do you prefer for the future of Port of Auckland?

Other

#14092

Tell us here:

Retain ownership

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

As long as it benefits the public not private investment or more.

5b. What option do you prefer for Bledisloe Terminal?

Other

Tell us why:

Remove as a cruise ship arrival/ do port area. Hinders public transport to Waiheke cancellations etc. Our only means of transport ferry.

6a. What do you think of these proposals?

#14092

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less private consultants

Less inefficiency in council

Less waste of public money

#14127

Less bureaucracy & red tape

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Free transport for all

2b. Is there anything you would spend less on?

Road building

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

Our young people need encouragement and facilities to promote health, connection and community.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

This facility has been funded by the people of Auckland over decades - selling off is not an option - Efficient management is key.

#14127

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Look at other countries & how they manage ports effectively.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

[selected no change and other]

Move the port out of Auckland & return to public space.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

#14127

Manage ports & wharves more efficiently with people of Auckland as a priority ie no cruise ship disruptions to water born services.

6a. What do you think of these proposals?

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The three options (central, more, & less) proposed in the consultation are not the only options, the same goes for the corresponding rates rises. For example, we could get much-needed investment in transport services and climate resilience, as stated under the 'pay more get more' option, with a rate rise of less than 14% in year one. There are

#15824

other areas where savings could be made which are not interdependent. The 'overall direction' oversimplifies very complex decisions.

In my view the priority should be fresh air, clean drinking water, hazard resilient landscapes and basic needs, like accessible transport and a sustainable waste network.

Where I'd like Auckland Council to do/spend more

- Public Transport - Ensure public transport is affordable, accessible, and reliable, prioritising investment in public transport infrastructure over road spending.
- Active Transport - Urgently transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.
- Water Quality - Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.
- Environment and Regulation - Ensure appropriate funding is allocated to increase monitoring activity of current/active and future resource consents to enable better environmental outcomes.

As well as the options provided in the structured consultation, I would also like the Council to do more of the following:

- Protecting and working with communities by continuing to prioritise the funding and delivery of Making Space for Water in partnership with Central Government.
- Ensuring adequate support for community and social services, including contestable grants (such as the Climate Action Grant), the Live Lightly programme, the Communities in Need programme, and supporting work on Council land and marae. This can be achieved by re-establishing pre-2023/2024 budget funding for these areas.
- Supporting frontline, volunteer powered communities by ensuring local boards are adequately funded and grants are available. Grants and investment into community-led services provide great value to Aucklanders. For every dollar that Council invests we get back many more volunteer hours.
- Supporting moves to a circular economy and zero waste, ensuring waste materials are seen as resources to be reused, repaired, repurposed and recycled, and are diverted from landfill.

#15824

- Lowering emissions by becoming a leader in localised renewable energy generation by enabling local integrated energy solutions to support community owned energy groups.

I don't know where it belongs in my response, but I want to see timely and sufficient funding for the control of Culperu. If that is not done we will have very long time negative impacts on our gulf.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Auckland Council's Transport Emissions Reduction Pathway sets out actions required to reduce the region's transport emissions by 64% by the year 2030. Transport is the biggest emitter contributing to over 40% of the region's total emissions. Within the transport emissions, 86% come from road transport. This sets a clear directive. We need to get people out of private cars, into buses, trains and ferries and onto cycleways. Failing to understand and action this will result in a continuation of over investment in roading projects and underinvestment in the public and active transport networks. The evidence is there and the evidence is clear.

Regarding the Mayoral proposal, I am encouraged to see initiatives to make public transport more accessible, such as the \$50 weekly cap and introduction of diverse payment options. Another positive is the work programmes which look to improve public transport services, such as network optimisation, expansion of the electric train fleet and completion of the City Rail Link. Unfortunately, alongside these positives, there are some concerns. A couple of examples are; the removal of 'low performing' bus services, and the several references to roading focused projects.

As well as continuing to invest and improve our public transport network, it is essential that the Council urgently supports the transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.

I support cutting low value initiatives, including raised pedestrian crossings.

#15824

I do not support reducing cycleways, though I believe they can be built more economically if there is a more pragmatic mindset with genuine safety concern vs extreme safety concerns.

I would like Auckland Council to more actively lobby central government to include the Waiheke Ferry in the PTOM.

I do not support any reduction of the hours that the gold card is available for use. I think if the hours of use were reduced it would have a very high negative impact on gold card users for things like hospital appointments and social engagement.

2a. Is there anything you would spend more on?

I want Auckland Council to spend more on safe, accessible, and attractive active transport infrastructure such as cycleways.

I want Auckland Council to spend more on ensuring public transport is affordable, accessible, and reliable.

I want Auckland Council to enforce more pragmatism at Auckland Transport in the way things like pedestrian crossings are built and not spend irresponsibly.

2b. Is there anything you would spend less on?

I want Auckland Council to spend less on new roading projects that prioritise private vehicles as the primary transport mode.

3. Which options do you support for the North Harbour Stadium?

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Tell us why:

#15824

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that	Other

#15824

we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Other
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

#15824

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Natural Environment Targeted Rate (NETR)

Support

Re-establish the full funding of the Natural Environment Targeted Rate (NETR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.

Revenue gained from NETR affects the delivery of essential projects to protect our biodiversity and taonga species. For example, the rate funds kauri dieback track upgrades, treatment support for landowners with kauri dieback, monitoring of the health of our forests and education for visitors to prevent further spread of the disease and predator control on our islands and the mainland. This work supports the health of our environment, which we need to be healthy to keep humans healthy, by filtering our water, catching and intercepting rainfall, holding our soils and slopes together and cleaning our air. Having spent years with large parts of the track network closed to protect kauri it is important to ensure this work continues as planned to enable safe access to our wild places, which are so important for our mental and physical health, and the health of our forests.

Water Quality Targeted Rate (WQTR)

Other

Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.

Continue rollout of rates funded refuse collection

I think Auckland should try and model the current practices being done on Waiheke to decrease over time the cost of refuse collection.

Local board priorities

7a. Which local board area does your feedback relate to?

Waiheke

Waiheke Local Board Priorities

7b. What do you think of our proposed priorities for Waiheke in 2024/2025?

#15824

Other

More specifically, what do you think of each priority we've listed above?

Delivering core council operational services, such as mowing, track and facility maintenance, and the library.	
Programmes which protect, restore, and enhance the island's natural environment, and initiatives that provide opportunities for community connectedness, capability and resilience.	
Working with our community and businesses to progress actions within the Waiheke Island Climate Action Plan.	
Progressing recommended actions within the Waiheke Local Parks Management Plan and the Rangihoua Reserve and Onetangi Sports Park Reserve Management Plan.	
Working with mana whenua and mataawaka to identify and respond to their needs and aspirations.	
Capital projects including the Tawaipareira Reserve playground.	

Tell us why

I do not support the proposed funding cut to the Waiheke Island local board. This is an extreme cut well out of proportion with other local boards and results in a very small percentage of the rates collected from this board area. This will lead to long t

Local Board: Waiheke

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The three options (central, more, & less) proposed in the consultation are not the only options, the same goes for the corresponding rates rises. For example, we could get much-needed investment in transport services and climate resilience, as stated under the 'pay more get more' option, with a rate rise of less than 14% in year one. There are

#15834

other areas where savings could be made which are not interdependent. The 'overall direction' oversimplifies very complex decisions.

In my view the priority should be fresh air, clean drinking water, hazard resilient landscapes and basic needs, like accessible transport and a sustainable waste network.

Where I'd like Auckland Council to do/spend more

- Public Transport - Ensure public transport is affordable, accessible, and reliable, prioritising investment in public transport infrastructure over road spending.
- Active Transport - Urgently transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.
- Water Quality - Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.
- Environment and Regulation - Ensure appropriate funding is allocated to increase monitoring activity of current/active and future resource consents to enable better environmental outcomes.

As well as the options provided in the structured consultation, I would also like the Council to do more of the following:

- Protecting and working with communities by continuing to prioritise the funding and delivery of Making Space for Water in partnership with Central Government.
- Ensuring adequate support for community and social services, including contestable grants (such as the Climate Action Grant), the Live Lightly programme, the Communities in Need programme, and supporting work on Council land and marae. This can be achieved by re-establishing pre-2023/2024 budget funding for these areas.
- Supporting frontline, volunteer powered communities by ensuring local boards are adequately funded and grants are available. Grants and investment into community-led services provide great value to Aucklanders. For every dollar that Council invests we get back many more volunteer hours.
- Supporting moves to a circular economy and zero waste, ensuring waste materials are seen as resources to be reused, repaired, repurposed and recycled, and are diverted from landfill.

#15834

- Lowering emissions by becoming a leader in localised renewable energy generation by enabling local integrated energy solutions to support community owned energy groups.

I don't know where it belongs in my response, but I want to see timely and sufficient funding for the control of Culper. If that is not done we will have very long time negative impacts on our gulf.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Auckland Council's Transport Emissions Reduction Pathway sets out actions required to reduce the region's transport emissions by 64% by the year 2030. Transport is the biggest emitter contributing to over 40% of the region's total emissions. Within the transport emissions, 86% come from road transport. This sets a clear directive. We need to get people out of private cars, into buses, trains and ferries and onto cycleways. Failing to understand and action this will result in a continuation of over investment in roading projects and underinvestment in the public and active transport networks. The evidence is there and the evidence is clear.

Regarding the Mayoral proposal, I am encouraged to see initiatives to make public transport more accessible, such as the \$50 weekly cap and introduction of diverse payment options. Another positive is the work programmes which look to improve public transport services, such as network optimisation, expansion of the electric train fleet and completion of the City Rail Link. Unfortunately, alongside these positives, there are some concerns. A couple of examples are; the removal of 'low performing' bus services, and the several references to roading focused projects.

As well as continuing to invest and improve our public transport network, it is essential that the Council urgently supports the transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure

.

I support cutting low value initiatives, including raised pedestrian crossings.

#15834

I do not support reducing cycleways, though I believe they can be built more economically if there is a more pragmatic mindset with genuine safety concern vs extreme safety concerns.

I would like Auckland Council to more actively lobby central government to include the Waiheke Ferry in the PTOM.

I do not support any reduction of the hours that the gold card is available for use. I think if the hours of use were reduced it would have a very high negative impact on gold card users for things like hospital appointments and social engagement.

2a. Is there anything you would spend more on?

I want Auckland Council to spend more on safe, accessible, and attractive active transport infrastructure such as cycleways.

I want Auckland Council to spend more on ensuring public transport is affordable, accessible, and reliable.

I want Auckland Council to enforce more pragmatism at Auckland Transport in the way things like pedestrian crossings are built and not spend irresponsibly.

2b. Is there anything you would spend less on?

I want Auckland Council to spend less on new roading projects that prioritise private vehicles as the primary transport mode.

Submitter details:

Organisation (if applicable):

Local Board: Waiheke

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Support local community events like waiheke what to what - onetangi beach races (both permanently stopped by changes by AT) The council should be supporting and helping with these and other much loved local events! Clear views in front of beaches everywhere.

#16080

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less restrictions on what is deemed acceptable rubbish in our bins - take it all - let us decide when we don't want and take it away

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Repairing roads

2b. Is there anything you would spend less on?

Cycle lanes - allow bicycles on pavements (insist that they have to use bells) (priority to pedestrians)

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#16080

Don't sell the family silver. Don't lease the port of Auckland off on a long term basis - Partner up with private enterprise to develop Auckland's waterfront into a major attraction (tourism)

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Keep control of the port so that any future development like a theater or stadium and public areas can happen. Keep control - a 35 year lease mean we loose control.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

We need future tourism - hotels and apartments could be part of any future development

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

#16080

Increase public areas to everyone to use - A stadium theater, hotels, apartments, public walking areas etc.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

increase public use areas which would increase tourism and enjoyment of these highly desirable sites.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	I don't know
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. Delivering core council operational services, such as mowing, track and facility maintenance, and the library.	
Programmes which protect, restore, and enhance the island's natural environment, and initiatives that provide opportunities for community connectedness, capability and resilience.	

#16092

Working with our community and businesses to progress actions within the Waiheke Island Climate Action Plan.	
Progressing recommended actions within the Waiheke Local Parks Management Plan and the Rangihoua Reserve and Onetangi Sports Park Reserve Management Plan.	
Working with mana whenua and mataawaka to identify and respond to their needs and aspirations.	
Capital projects including the Tawaipareira Reserve playground.	

Tell us why

I think more should be allocated to local board. The islands are unique, support a lot of visitors (\$\$) large proportion resources are used by non-ratepayers, need more facilities for our youth.

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Waiheke

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Gold card should not be cut as fuller ferries to Waiheke Island are expensive. We get little benefit from our rates on Waiheke compare to Auckland central

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#16103

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Waiheke roads are generally in poor condition

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Short-term solution

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#16103

Tell us here:

Short-term vision. Draft of vessels is increasing port of Auckland should move China
Lise Port of Darwin (Australia)

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Port of Auckland should start planning to relocate to firth of Thames + Northport

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Heavy vehicles port traffic through Central Auckland is not a good long-term position

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Sea channel will need constant dredging to allow larger cargo vessels

#16103

**6a. What do you think of these proposals?**

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	

#16103

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

What's the Waiheke is on tank water and septic. We are then charge for periodic inspections. No money value for this and our rates.

Local board priorities

7a. Which local board area does your feedback relate to?

Waiheke

Waiheke Local Board Priorities

7b. What do you think of our proposed priorities for Waiheke in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Delivering core council operational services, such as mowing, track and facility maintenance, and the library.	
Programmes which protect, restore, and enhance the island's natural environment,	

#16103

and initiatives that provide opportunities for community connectedness, capability and resilience.	
Working with our community and businesses to progress actions within the Waiheke Island Climate Action Plan.	
Progressing recommended actions within the Waiheke Local Parks Management Plan and the Rangihoua Reserve and Onetangi Sports Park Reserve Management Plan.	
Working with mana whenua and mataawaka to identify and respond to their needs and aspirations.	
Capital projects including the Tawaipareira Reserve playground.	

Tell us why

Waiheke has many walking tracks compared to normal suburbs. These need money to maintain

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1. Cleaning up the hauraku gulf, our beaches and water quality and establish large marine reserve
2. More pest and weed eradication, especially on council owned property
3. Safe seperate cycleways on waiheke island

#16214

4.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Put infrastructure in place with power supply companies so that only cruise ships which can "plug in" are allowed in our harbor. This would reduce the down town pollution enormously.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Fullers ferry to be integrated in Auckland transport, Like was done with the Devonport ferry.

2a. Is there anything you would spend more on?

Electrification of ferries

safe and seperate cycle paths on waiheke

2b. Is there anything you would spend less on?

Less new roading

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#16214

I don't know

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Put POA Back on the sharemarket and keep 51% of the shares. This will generate cash for the future fund and will likely results in a better functioning port

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Public spaces and utilizes for Auckland

5b. What option do you prefer for Bledisloe Terminal?

#16214

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

If the port stays in Auckland, They will need the bledisole terminal

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Strengthen support local community levels - specifically via local boards and local hubs andn groups on waiheke (WRT, Library, resident groups cinema etc)connected communities are resilient communities

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#16219

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Bring waiheke ferry under AT

2a. Is there anything you would spend more on?

- Electrification of ferries/buses
- cycleways

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The airport is key auckland infrastructure asset - keep it
investment fund as described exposes to variety of market funds - not necessary
available when needed

#16219

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

In principle port needs to be managed well to generate income, don't exclude leasing, but not as port of future fund.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

#16219

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

#22201

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and

the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in

Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council

managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland

Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland

Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so

that rates and debt are kept down.

#22201

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council,

I am writing to provide feedback on
the Mayor's proposed Long-Term
Plan (10-Year Budget).

I reject all three options for rate hikes
– the most expensive of which would
see a 38% increase over three years.
Rates should be limited to inflation
and the Council should cut its cloth
to reflect the current economic
circumstances facing Auckland
ratepayers.

Of the three options presented, my

#22241

preferred option is lowest option –
which is still much higher than
inflation despite it being deceptively
labelled the “pay less, get less”
option.

I strongly urge Councillors to explore
ways of preventing rates increases
over and above inflation by cutting
back office and wasteful spending,
reining in Council-Controlled
Organisations, and reprioritising
money spent on operations and
staffing to capital and infrastructure
investment.

This should include:

- A hiring freeze on all non-essential
roles until an independent review has
been taken to address concerns of
overstaffing and the salaries of
council managers increasing much

#22241

higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in

#22241

infrastructure so that rates and debt
are kept down.

I endorse the submission of the
Auckland Ratepayers' Alliance and
back their vision of 'Reasonable
Rates, Sensible Spending in our
Super City!'

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

#22284

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and

the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in

Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council

managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland

Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland

Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so

that rates and debt are kept down.

#22284

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

#22284

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	

#22284

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

#22480

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of ‘Reasonable Rates, Sensible Spending in our Super City!’

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

#22480

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of

This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	

#22517

Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

#22617

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and

the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in

Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council

managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland

Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland

Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so

that rates and debt are kept down.

#22617

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by	

#22803

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

#22887

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and

the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in

Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council

managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland

Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland

Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so

that rates and debt are kept down.

#22887

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	

#23114

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the

Mayor's proposed Long-Term Plan (10-Year

#23119

Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the

#23119

salaries of council managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of ‘Reasonable Rates, Sensible Spending in our Super City!’

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.

#23322

Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

#23733

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and

the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in

Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council

managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland

Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland

Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so

that rates and debt are kept down.

#23733

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	

#24546

Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

#24611

I think it is outrageous that you are cutting Waiheke's annual budget from \$2.3m down to \$600k - a 70% reduction. Does this mean our rates will be cut

by 70% as well? We pay more than our fair share and deserve a cut of the capital we put in. It is my understading that Waihekeans contribute \$27m in

rates annually - so we'd get 3% of what we put in - that is absolute robbery.

We pay very high rates in Waiheke for little return. We also have the least roading and othe infrastructure (halls, pools etc) of any town. There are

already many things on the island that need investment to bring them up to standard so hearing this proposal is very concerning and doesnt seem

right.

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation

and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the

“pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining

in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council

managers increasing much higher than those the private sector.

#24611

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland

Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease

Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in

infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of ‘Reasonable Rates, Sensible Spending in our Super City!’

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and

the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in

Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council

managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland

#24881

Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland

Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so

that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

**6a. What do you think of these proposals?**

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	

#24881

Change the **Rodney Drainage Districts Targeted Rate** to reflect public feedback and updated analysis of the benefits to properties and boundaries.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed
Long-Term Plan (10-Year Budget).

#24917

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.

#24917

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council,

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

I completely object to a reduction in free Gold Card travel- the majority of travel by pensioners is in some form or another part of the unpaid and I acknowledged voluntary service or visits to

#24988

hospital at an already stressful time. Many pensioners freely support organisations, nonprofits, families with children etc, free travel makes this possible- in fact I don't understand why we have to be restricted to 'after 9am' just because our work is not visible.

Further I completely object to the proposed cuts to the community board and its funding from projected 8m to \$2.3m. When rates on the island have doubled in the last 3 years and total revenue from Waiheke rates is 27m it is completely unjustified to reduce the amount of money returning directly to the island to 10%. We already all sort our own water and sewerage! We have a right to determine how some our money gets spent here. The reduction of funds will simply deliver a lack of maintenance to many community resources tracks, community initiatives, regeneration projects, roads etc the cost of repair after neglect will be much higher- where is the foresight to deliver adequate resources so such stupidity can be avoided.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#24988

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an

#24988

independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of ‘Reasonable Rates, Sensible Spending in our Super City!’

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value

#24988

residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the

Mayor's proposed Long-Term Plan (10-Year

#26122

Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the

#26122

salaries of council managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of ‘Reasonable Rates, Sensible Spending in our Super City!’

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

#26122

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of	

#26122

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.
