Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Reducing red tapes in planning area - i.e. resource/building consent

Widening focused development around transport hub

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Until we get better public transportable that "everyone" can use in all weather, defer lower priority previous planed such as cycle way

### 2a. Is there anything you would spend more on?

### 2b. Is there anything you would spend less on?

On Auckland Transport human resource.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management, Other

### Tell us why:

Not widely used and not strategic asset.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

### Tell us why:

A smart move that can increase both liquidity and resiliency.

## 4b. Which option do you prefer for the future of Port of Auckland?

Other

**Tell us here:**

Low return from PoA. Should consider moving the port eventually.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

This should be used to lower current debt

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Keen to see what self-insurance entails as the devil is in the details.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

As there is no clear benefits highlighted or actionable plan identified in this questionnaire.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

AK council should first identify what public benefit can be provided.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. **7a. Which local board area does your feedback relate to?**

Waitākere Ranges

## Waitākere Ranges Local Board Priorities

**7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?**

The board needs to focus on what's important to ordinary local resident - basic stuffs related to cost of living, flood avoidance, safety.

**More specifically, what do you think of each priority we've listed above?**

Initiatives to support community resilience and safety.	I do not support most priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Very Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	Fairly Important

Transport	Do more

Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No you are charging us to much for what we get now. Roads are the only thing we need more of, for cars not buses or cyclists!

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#11**

Stick to your core responsibilities. Reduce council staff and expenditure on glass tower offices before coming to us for more money. You have shown to date a total disregard for us and our hard earned money wasting it on things we do not want or need. I live in the suburbs and never go into the city especially now that it is impossible to find a car park. I do not use public transport and never will or the stupid cycle ways. Stop pandering to a minority. Stop the speed bumps and raised pedestrian crossings. If you introduce congestion charges because you have approved subdivisions at the end of the motorways without investment in widening the motorways to cope with the increase in volume of cars then I would say you are useless at your job and deserve to be voted out or overthrown due to lack of confidence.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

The majority of us are not interested in public transport and never will be. The sooner you get this into your thick heads the better!

**2a. Is there anything you would spend more on?**

Increasing roads to cope with the volume of vehicles.

**2b. Is there anything you would spend less on?**

Public transport

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

If you are into sport then you should pay for it.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

**Tell us why:**

It is not paying its way and anything to reduce our rates or put the money back in the ratepayers pocket is better than the council having it.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Sell it and give the money back to the rate payers.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

To be paid back to the rate payers who own it.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Nothing here gives many any faith in the council at all. I thought the new mayor was going to make a difference. What a joke that was. I have zero faith in you and think we need to find a better way rather than a supercity council.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Other

**Tell us why:**

Sell the lot and refund the money to the rate payer.

**5b. What option do you prefer for Bledisloe Terminal?**

Other

**Tell us why:**

Neither you could not manage a \*\*\*\*\* up in a brewery. Sell it all and refund the money to the rate payer.

Waitakere Rural Sewerage Targeted Rate.

Do not support an increase in this rate.

Rather support total abolishment of this rate entirely for following reasons:

1. Bring Waitakere Ranges in line with the rest of Auckland with regards to Septic Tank Pump-Outs (i.e. individual responsibility). There should be one policy for all Auckland.
2. At present 39.6% of the Targeted Rate goes to Council costs. Only 60.4% is for the actual contractor costs (for a single pump-out every three years). The council costs imposed on each property will now be \$400 over three years. At each pump-out the individual property is also required to liaise and schedule with the contractor, thereby questions arise as to why the Council costs are so high per property simply to receive a notification letter every 3 years.

3. All Auckland properties (including Waitakere Ranges) with septic systems are already separately responsible for required maintenance on septic tanks/systems, and the required inspections and maintenance would be much improved and easier if property owners could combine this with self-arranged pump-outs.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

<b>Transport</b>	As proposed
<b>Water</b>	Do more
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increased landscape scale predator control...repeated 1080 drops on Hunuas and introduce same to Waitakeres.

Support to fast track pest free Waiheke and Aotea.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Paying over the top salaries and allowing unnecessary high profits of organisations under council control.

Introducing so-called traffic calming measures and various income generating camera/fine systems which seem to achieve little more than raising money. Traffic congestion is appalling...so need some new approaches, therefore do less of same old same old!

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

See previous comments.

While I wholeheartedly support improved public transport, it won't help a sig proportion of commuters so new and ambitious ideas to avoid traffic congestion are needed.

It should be compulsory for kids to walk/cycle or bus to school over certain age and require a dispensation to drive.

**2a. Is there anything you would spend more on?**

School transport solutions.

More, smaller more frequent buses...they're mostly empty!

Testing/implementing contra flow systems...eg New Lynn to Western Springs.

Road re-surfacing.

**2b. Is there anything you would spend less on?**

Awfully executed speed humps.

Traffic lights.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

The city can't cope with more traffic, especially freight traffic. Make the port prettier instead of moving it.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	

Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	
Develop pathway connections in Green Road Park.

## Upper Harbour Local Board Priorities

**7b. What do you think of our proposed priorities for Upper Harbour in 2024/2025?**

I do not support any priorities

**More specifically, what do you think of each priority we've listed above?**

Progress with the detailed business case for a new multi-purpose library facility in Albany.	
Continue to deliver stage 1b of Te Kori Scott Point which includes physical works for 3 sports fields and sport field lighting as well as a second baseball diamond.	
Implement actions from the Upper Harbour Ethnic Peoples Plan.	
Continue to invest in projects that improve the environment and address climate change including planting trees as outlined in the Upper Harbour Urban Ngahere	

Strategy and continuing to support and fund volunteer environmental work.	
Implement actions from the Upper Harbour Engagement Strategy.	
Implement actions from the Upper Harbour Greenways Plan.	
Implement actions from the Upper Harbour Wheeled Recreation Service Assessment.	

**Tell us why**

**7c. What do you think of the Upper Harbour proposed priorities for the 10-year budget 2024-2034?**

**7d. We will prioritise investment in a Detailed Business Case for a new multi-purpose library facility in Albany, however given the financial constraints faced by Auckland Council we would like to explore alternate options to fund any budget shortfalls.**

**We want to hear your views regarding the local board investigating options to sell land or exploring the introduction of a targeted rate to enable investment in building a new multi-purpose library facility in Albany (noting that there will be a robust public consultation process on any sale of land or the introduction of a targeted rate following investigation of viable options).**

**Which of the following options do you support?**

**Do you have any other thoughts or ideas on potential options to fund budget shortfalls associated with building a new multi-purpose library facility in Albany?**

## **Waitākere Ranges Local Board Priorities**

**7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Initiatives to support community resilience and safety.	I do not support any priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	
Operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru.	
Continue to activate library spaces with programmes, services and events.	
Operating grants to support Glen Eden and Titirangi Community Houses.	
Invest in our relationship with mana whenua, Te Kawerau ā Maki.	
Initiatives to support youth/rangatahi.	
Progress an application for Waitakere Ranges Heritage Area to become a dark sky place.

Septic tanks do not need to be pumped out every 3 years. For we lived on two farms with septic tanks, one for ten years and the other for twenty years, and never had to have either of them pumped out.

Inspection of the dispersal field should be included in the pump out charge.

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.

We therefore request that Auckland Council allocates \$8.02 million in funding within the Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf lifesaving club facilities, as per SLSNR's Surf 10:20 Capital Development proposal.

With regard to Question 1C, Council has a central proposal that recommends spending more where it is needed most. Surf Life Saving facilities are a critical component of our community. They have served as temporary welfare and community centres, as well as civil defence centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle.

Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is essential to ensure the continued operation of our clubs and the safety of beachgoers. The amount requested is minimal when compared to the benefit it will have for the region.

City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We have to get the basics right. Roothing, infrastructure, transport

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Spending ridiculous amounts on public transport, and supporting facilities in areas that don't require the service. Full size buses every 30 minutes in Waitakere township is a prime example. Those buses are empty, or with a single person on them 99% of the time, and are doing damage to the roads. A smaller, cheaper bus, run hourly would be more than sufficient.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	Do less
Environment and regulation	
Parks and Community	
Economic and cultural development	Do less
Council support	

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Roading, footpaths, and reliable public transport

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**2. What do you think of the transport proposal?**

Support most of the proposal

Waitakere Rural Sewerage Targeted Rate. The average cost of a private contractor to pump out a septic tank is between \$300 and \$600 per service. The proposal at \$336.80 per year with a three-yearly pump-out equals \$1010.40 per pump-out. This price is unjustified for the service provided. Council should look for a more competitively priced contractor or allow residents to employ their own contractor to pump-out their own septic tank.

As President of Bethells Beach Surf Life Saving Patrol and having provided hundreds of volunteer hours over the last 12 years to keep the rate-paying public safe at Bethells Beach, I am at a loss to understand how Auckland Council has not ring-fenced funding for clubhouse rebuilds in the 2024-2034 Long Term Plan. Previous Councils have acknowledged the irreplaceable public service our lifesaving clubs provide by

**#397**

allocating funding to rebuild lifesaving clubhouses that had come to their useful end-of-life. At Bethells Beach, our situation is becoming more desperate by the day with half of our clubhouse being destroyed by Cyclone Gabrielle and the remainder at real risk of being washed away in the next extreme weather events. Without a functioning clubhouse, we cannot provide the quality of lifesaving service that remote beaches like Bethells Beach needs as we provide everything from preventing drownings and undertaking rescues right through to assistance in emergencies (like Cyclone Gabrielle where our lifeguards rescued people from their homes) and lifesaving first-aid. Without a clubhouse, we also lose our club culture and our volunteers so there will be no lifesaving service at Bethells Beach. Respectfully, I ask the Council to allocate \$8.02million in funding that is required for the rebuilds and maintenance of our surf lifesaving facilities in the Auckland region, as per SLSNR's Surf 10:20 Capital Development proposal.

In Question 1C, Council has a central proposal indicating spending more in areas of most need. Surf Life Saving facilities are a fundamental need to help keep our communities safe. A surf clubhouse is so much more than just a clubhouse - we have used our Bethells Beach as an emergency hub when needed, the community used it for events (prior to destruction of half of the clubhouse) and our facility is the heart-beat of our vital surf lifesaving operations. To not fund something as critical as our facilities spells the demise of the thousands of lifeguard volunteer hours we provide every season and we will see a correlated increase in drownings and serious life-threatening injuries that aren't attended to by our lifeguards.

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.

We therefore request that Auckland Council allocates \$8.02 million in funding within the Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf lifesaving club facilities, as per SLSNR's Surf 10:20 Capital Development proposal.

With regard to Question 1C, Council has a central proposal that recommends spending more where it is needed most. Surf Life Saving facilities are a critical component of our community. They have served as temporary welfare and community centres, as well as civil defence centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle.

Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is essential to ensure the continued operation of our clubs and the safety of beachgoers. The amount requested is minimal when compared to the benefit it will have for the region.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

We need to be spending a lot more on reducing the need for Aucklanders to travel. With local employment, local services, local shopping, and more work from home we can reduce the need for roads, travel and transportation.

### 2a. Is there anything you would spend more on?

Given the problem is people travelling, we should Spend more on removing the need for this travel (i.e. work to eliminate the problem)

### 2b. Is there anything you would spend less on?

Spend less on accommodating the problem, .We shouldn't be spending any more on travel infrastructure that should be fundamentally unnecessary.

## 3. Which options do you support for the North Harbour Stadium?

Other

### Tell us why:

Is this stadium actually necessary? It's irrelevant to me (and most other Auckland residents!)

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

There is no guarantee that the proceeds of selling the AIAL shareholding will end up being used for the good of the city's residents.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Extend Library facilities

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No expenditure on roading except basic maintenance of existing. Stop building raised pedestrian crossings. The traffic should be stopped at pedestrian crossings anyway, and the speed bumps just make the roads more impassible.

## 2. What do you think of the transport proposal?

Don't support any of the proposal

### Tell us why:

These proposals will not solve any of the problems. The solution is to make public transport reliable and on time so that more people will use it.

### 2a. Is there anything you would spend more on?

No

### 2b. Is there anything you would spend less on?

Raised pedestrian crossings.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

North Harbour stadium only benefits a limited number of people. Those people should be paying for it.

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

Do not support most of the proposal

**Tell us why:**

I support stopping some raised pedestrian crossings and cycleways. As a 79 year old I need my car.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

As money is tight to cut down on spending and change the operation management is a better option.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Using this land for other purposes would incur more expense.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Its the cheaper option

Of concern is what seems to be a blinkered, silo or compartmentalised council structure that lacks inter-departmental co-ordination and a concerted effort to minimise spending. The expenditure on consultancy with no infrastructure of services improvement is of huge concern to me as a ratepayer. Successive mayors and councils have let ideology dictate policy and project implementations. My personal view is that even these ratepayer feedback consultations are of no consequence as decisions have already been made and council will go ahead using ratepayers as a piggy bank. This needs to stop and any rates rise beyond 3% year must be fiercely resisted.

The amalgamation of councils, in my opinion was a travesty as all of the motivators for this amalgamation have proved incorrect and pointless. Reduction in rates was the promise. What has resulted is anti-competitive behaviour with poor /non existent fiscal and governance responsibility. Any council imposing rates of above 3% should be barred from running or standing for office.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

My reticence in fully accepting Auckland Council's transport proposal for a city of 5.5 million is due to ongoing misuse of ratepayer/government funds and unchecked migration without consideration for essential infrastructure as a matter of fiscal responsibility and holistic urban planning. My reasons for partial rejection of this proposal:

**Misallocation of Funds:** Continuously raising ratepayer funds to support vanity council ideology rather than essential services like transportation infrastructure indicates a misalignment of priorities. Taxpayers entrust their funds to local authorities with the expectation that they will be used effectively for the betterment of the community. However, when funds are diverted to support projects driven by personal or political agendas rather than genuine needs, it undermines public trust and compromises the city's overall development.

**Unsustainable Growth:** Unchecked migration without adequate consideration for essential infrastructure such as schools, healthcare facilities, and roads has led to overburdened public services and diminished quality of life for residents. A city of 5.5 million must plan for sustainable growth, ensuring that infrastructure keeps pace with population increases to maintain a high standard of living for all residents.

**#669**

Impact of Medium and High-Density Housing: Auckland's experience with medium and high-density housing provides a cautionary tale about the consequences of rapid urbanization without sufficient infrastructure planning. While densification can help accommodate a growing population, it also exacerbates congestion and strains public services. The resulting stress and mental health issues stemming from traffic congestion, overcrowded living conditions, and inadequate access to amenities can significantly impact residents' well-being and productivity. Uncontrolled year on year migration has turned the Super City into a Slum city, not a great place to work, play and live. Just this morning I drove past a new high density urban development being built on a busy circle, homes to the left of the building now shadowed from the sun with all privacy invaded by row upon row of flats. Congestion, already a huge problem in this area will simply become gridlocked. As a ratepayer my conclusion can only be that maximising of ratepayer contribution to the detriment of quality of urban life of its residents is the only consideration for the overused term "growth" .

Transportation Challenges: The failure to prioritize transportation infrastructure exacerbates congestion, making it harder for residents to move around the city efficiently. Inadequate public transportation options and poorly planned road networks not only contribute to traffic congestion but also increase commuting times and pollution levels. This can have serious implications for both physical and mental health, as prolonged exposure to traffic-related stressors is linked to a range of adverse health outcomes. AS someone living in the West no development beyond Great North road is of any use or consequence. Lived in the area for just on 30 years and the state of footpaths, parks and roads are a poor reflection on Auckland council's infatuation with city centre projects to the detriment of the regions.

In conclusion, rejecting a transport proposal that perpetuates the misuse of ratepayer funds and fails to address the challenges of unchecked migration and inadequate infrastructure is essential for the long-term sustainability and well-being of the city and its residents. I consider and will only support prioritizing evidence-based decision-making and holistic urban planning as being crucial to ensuring that future development efforts align with the needs and priorities of the community whilst keeping rates burden to 3% and below.

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

Consideration to reducing costs across all projects as in present economic and cost of living crises a "business as usual" attitude cannot be sustained.

### **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

#### **Tell us why:**

Simple. Its unaffordable and year on year operational cost above and beyond the value it brings to Aucklanders. I have lived in Auckland for 30 years and neither myself, my family and I would say 90% of colleagues and friends have ever made use of this facility.

Question needs to be asked. Is there actually a need for this facility?

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

#### **Tell us why:**

Its a fiscally responsible use of ratepayer assets. Any sale or repurposing of shareholdings and facilities that reduce debt/maximise profit and reduce unacceptable rates rises must and need to be supported.

### **4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

#### **Tell us here:**

As above. Think this is fiscally prudent and responsible governance on the part of the mayor and councillors not influenced by political ideology.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Could accept both options of Continue of Invest. Any approach to reduce council debt and minimise ratepayer burden is the only approach that should be tolerated by ratepayers.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Queen street and Aotearoa square/inner city/Albert Park / Tunnels, and its rich history s, etc. provide huge opportunity for inner city buzz. Lack of innovation, pet mayor projects over year of mismanagement and constant " redevelopment" have frankly left

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Commercial scale and a reduction of transport intensification for want of a better word. Any reduction on infrastructure and roading stress need to be supported. Shipping needs to take precedence over truck or rail.

**7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?**

Unfortunately see Waitakere Regional council and councillors as career rather than community leaders. I would like to see election representation limited to no more than two terms. The focus is on ideological/ cultural imperatives of no intrinsic, tangib

**More specifically, what do you think of each priority we've listed above?**

Initiatives to support community resilience and safety.	I do not support most priorities

**7c. What do you think of the Waitākere Ranges proposed priorities for the 10-year budget 2024-2034?**

Agree with most of the 2024-34 plan but what is of concern is the total lack of awareness of the huge impact urban intensification is having on our area. The plan includes community, cultural and ecological initiatives with a total disregard of growing our region as a business and life-style orientated region and community. Crime is rife and basic services such as banking and post offices non existent.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More work to OPEN access to reserves which have been closed off due to flooding and due to Kauri Dieback

Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

In the section on roads - do more of increasing public transport, do less of safety measures. STOP adding pedestrian crossings and raised speed tables entirely - total waste of money.

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

This aligns with my priorities. Make public transport more efficient and more people will use it. Try to improve traffic management to make traffic flow as optimal as possible.

### 2a. Is there anything you would spend more on?

Adding small buses/ vans to link people in the more remote suburbs to the nearest bus hubs e.g. out west linking Laingholm, French Bay, Wood Bay, South Titirangi, Waiatarua, Huia to Titirangi village with a more regular service. Maybe making some safe protected cycle ways that aren't on roads. Speeding up the improvements of the rail service to get that back to full operation asap (and also Mt Eden station).

### 2b. Is there anything you would spend less on?

NO MORE SPENDING AT ALL on extra pedestrian crossings (except in new development areas maybe) or raised speed tables.

## 3. Which options do you support for the North Harbour Stadium?

I don't know

### Tell us why:

I've never been there and probably never will so I don't have an opinion.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

A private company will probably run the port better than Auckland council does.

Continue to use it to fund council services

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

I'm not sure. In general I would be happy to see some of Auckland's port operations moved to Whangarei, if the rail system went from there to Auckland reliably and the road over the Brynderwyns is improved.

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Actual results. Happy to pay more if we see a result rather projects that take 5 years and are out of date before they start.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Support business's, landlords and the rich. People are hurting and struggling, not them.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

getting Auckland moving easier & more efficiently is important. Removing access & development of cycle & pedestrian infrastructure is silly though. Every person walking or cycling is 1 less car and, therefore, less congestion.

### 2a. Is there anything you would spend more on?

Public transport network

### 2b. Is there anything you would spend less on?

## 3. Which options do you support for the North Harbour Stadium?

Change the operational management

### Tell us why:

If it's not being used, throwing money at it won't magically fix everything. Change in management in strategic direction to actually have it used.

## Waitākere Ranges Local Board Priorities

**7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Initiatives to support community resilience and safety.	I do not support most priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Fairly Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	Not Important

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	Do more
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Strong focus on restoring natural environmental resilience such as wetlands to capture and mitigate flooding, water quality and waste management. Environmental strategies must take the highest priority in this climate crisis and this ties into our responsibilities under te tiriti.

**#1032**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Pandering to rich investors at the expense of race relations and environmental stewardship.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Raised cycle ways and pedestrian crossings are a better option than flexible lanes.

**2a. Is there anything you would spend more on?**

Reinstate light rail.

**2b. Is there anything you would spend less on?**

Flexible lanes.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

We need to focus financial priorities on environmental protection.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**#1032**

I don't really understand the big picture of effects caused by this share sale

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Ensure property developers responsibility as part of the build consent(as opposed to the entertainment/hospitality venue)is to provide suitable sound insulation on new buildings and renovations to ensure music/art can be sustainable in mixed residential business areas, similar to that of London, UK. This ensures Auckland continues and

**#1230**

deserves to be a Unesco City of Music whose impact is US\$370Million as national GDP. Reduce the cost of applying for resource consent for music,

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less roads, but better engineering of them (ie free turn lefts), and consequentially better public transport. The one-more-lane theory doesn't work.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

We do not support the reduction of cycleways and pedestrian crossings. ONLY increased public transport, free and usable safe cycling/walking areas will reduce congestion.

**2a. Is there anything you would spend more on?**

Safer cycle and pedestrian areas for school kids. Bus or pedestrian only areas outside schools instead of car parking guaranteed by the use of concrete barriers. Reliable train network.

**2b. Is there anything you would spend less on?**

Concreting roundabouts (plant ground cover, problem solved).

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

The land is an important asset that can be utilized better over time should the need arise.

**#1230**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Auckland airport will continue to grow as a major transport route and in return the dividend it brings to the ratepayer. Onus should be on developers to provide greater role in providing infrastructure cost prior to development in lieu of airport sales.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#1230

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Creates an income stream to support services with minimal impact to the ratepayer.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	I don't know
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	Support

#1230

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

you guys are still wasting money on a biblical scale. just stop wasting money, look at the small details, make every penny a prisoner and the dollars will look after themselves. JUST STOP THE WASTE!

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1246

STOP WASTING OUR MONEY. it feels like we have a group of complete morons running our city. a new sports centre on the water front? who are you kidding! and a gazzillion dollar inner city rail link? when we don't have a water system that works.. what are you thinking! its not brain surgery, DTOP WASTING MONEY!

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

a fecking inner city rail link? who's going to use it? rich suburbanites on shopping spres around posonby and new market? fix our water system first. Cycle lanes? who for, the six people that bike to work every day? AGAIN STOP WASTING MONEY!

### 2a. Is there anything you would spend more on?

our water infrastructure? HELLO a city in a country that prides its self on being clean and green that has to shut its beaches everytime it rains because you water system is designed to piur raw sewage in to the sea? you should be ashamed of yourselves..you couldn't run a race let alone a city!

### 2b. Is there anything you would spend less on?

inner city rail links? cycle lanes? fancy artworks under bridges so the homeless can feel more love?

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

because you have more important things to spend our money on, like landslides in titirangi, like a water system that dosnt shut beaches every time it rains, like pot holes in roads, jesus, look ariund you...go out in your car and just look at how shitty our city

**#1246**

has become, stop putting out opinion surveys that will never be listened to and actually go out and see just how bad this place IS!

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

selling assetts is a short term gain that offers long term pain, your selling your winter clothes in summer, but come winter, your gonna get cold..uise you brains

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

There has been no mention of slips repair? these are a clear and present danger in our community that need addressing NOW! woodbay road and otitory bay road are two that need some serious action ASAP!

More specifically, what do you think of each priority we've listed above?

Initiatives to support community resilience and safety.	I support all priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Very Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	Very Important
Operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru.	Fairly Important

**8. Do you have any other comments?**

stop wasting money, Wayne Brown campaigned on money wasting being a priority and all i can see is more and more money being waisted. look at the small things you waist money on..a nearly one million dollar toilet here, a stature clean that costs \$160,000, a ten million dollar cycle track that 13 people are going to use. stop it!

City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More bike lanes and pedestrian friendly infrastructure.

Proceed with mayor transport initiatives like a airport connection and light rail.

North Western connection (light rail) or similar to ease congestion.

Increase funding for Community Initiatives.

**#1250**

Increase funding for the re-opening of tracks in the Waitakere Ranges ASAP.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Regulation

Stop subsidising niche sporting events like the America's Cup with ratepayer money.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I do not support the reduction of cycleways. This is short sighted. We need cyclists in the city to help reduce congestion and our carbon footprint.

**2a. Is there anything you would spend more on?**

Public transport initiatives.

**2b. Is there anything you would spend less on?**

Building new motorways.

And what does this even mean? 'ensure our parks and assets are well-looked after'

**#1250**

**8. Do you have any other comments?**

Local Boards in lower socio economic areas should get a much larger share of the funding pool. Well developed areas do not need to be receiving more funding! The ghetto-ising of some areas in the Auckland region is abhorrent. Look at the parks in East Auckland compared to what we get in West or South Auckland. Shameful.

**2b. Is there anything you would spend less on?**

Less speed bumps/tables on key arterial routes

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#1320**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

This needs to consider the costs imposed on the Auckland economy; Leasing the port is a terrible idea for a quick sugar rush of capital.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Dont change our shareholding and ownership arrangements

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

If the benefits were clearer, and not just a windfall for developers, I might be able to support the proposal. As this stands today I'm not sure what the actual benefits of redevelopment are likely to be, but I do know that the port is unlikely to be able

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#1320

Tell us why:

The port is unlikely to be able to ever reclaim more land to operate on in the future when growth demands it.

Less motorway building

**#1352**

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Better cohesion in public transport is a must. But cycleways are also very important and have already improved Auckland a lot. More is needed. With housing intensification roads act as rivers and are hard for pedestrians to cross. This is a health hazard in some areas. But the existing planning seems to overcommit to pedestrians in one strip of road and completely ignore their needs for miles on others. Taking money out of public transport, including ferries, is a disaster.

### 2a. Is there anything you would spend more on?

Public transport

### 2b. Is there anything you would spend less on?

More roads

## 3. Which options do you support for the North Harbour Stadium?

**Tell us here:**

Climate and cultural resilience

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

This is not a fire sale. Cutting existing taxes such as the fuel tax shows that money is not the issue. This plan is driven by a right wing privatisation agenda that is disastrous for Aucklanders, especially as the city has grown so rapidly recently. The Mayor should be spending his time lobbying Wellington for more government money, and considering how renters can contribute to rates income.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#1352

**Tell us why:**

Public ammenities in downtown Auckland are at a premium - for public use, not commercial or housing.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Major transport into Auckland is already compromised by the sale of railways, and poor infrastructure. Limiting shipping while no major infrastructure is in place to replace it is shortsighted, bad for emissions, and will add to congestion.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I personally feel I pay too much as it is, and have selected "do more" in areas I don't see any work happening in my area. I feel all my rates go towards other areas of Auckland, as my community is not maintained (roads full of potholes, slips still not fixed from Cyclone Gabriel which hit over a year ago, we don't have a local pool to be maintained, my local library is 15 minutes drive away with no traffic (rare), there are no

rubbish bins at our local parks so nothing to maintain there, our local train station was closed down years ago) etc. I would like to see my money go towards improving the area I live in. I do not agree with the increase of rates when I do not see or feel I get my money's worth as it is.

**Tell us why:**

Everyone knows public transport in Auckland is beyond a joke. Anything to improve this would be helpful and an improvement.

**2a. Is there anything you would spend more on?**

If the Waitākere train station was re-opened and a train station was added around the Kūmeu, Huapai and Waimauku areas then yes, I would spend more on that.

**2b. Is there anything you would spend less on?**

Everything that is not happening in my area. Why should my rates go towards funding the upkeep of other suburbs and projects I can't even see or use?

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Does the stadium actually get used that much? Why not try something new with it.

**Tell us here:**

Stop increasing rates of people living in rural areas (I live in Waitākere township) if you are not going to use our money in our area. Our local parks don't even have council bins and are not maintained. It also does NOT cost approx \$1010 to get a septic tank emptied (\$336.8 X 3). Our local waterways are not maintained, bush walks are not maintained, roads are a mess. The list goes on. I have owned my home for only 1 year and my rates have already increased once in this time. Why are my rates increasing again when I have not seen my money being spent to fix things in my neighbourhood?!

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce the number of middle management.

**#1460**

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

If you are going to improve public transport then the user of that transport has to pay for it.

**2a. Is there anything you would spend more on?**

Road repairs

**2b. Is there anything you would spend less on?**

Speed humps , cycle ways and public transport.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

It's been a waste of money from day one. It doesn't fit the needs of Aucklanders in that location.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The airport is a cash cow keep it.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1. Prioritise public transport and active transport (cycleways, walking) over roads.
2. Making space for waterways (as opposed to reliance on stormwater drains).
3. Urban tree planting and protection and creation of green corridors.

**#1462**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Major roading development.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

It is terribly disappointing to see public transport options axed once again in favour of more roading development (as per new coalition government plan), and the loss of the RFT to help fund long overdue public transport infrastructure initiatives.

**2a. Is there anything you would spend more on?**

Public transport, cycleways and walkways

**2b. Is there anything you would spend less on?**

New ROADS!!!

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

The cost of maintaining the status quo is too high.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Public has limited access to Auckland waterfront. Also, ferry services could be increased to reduce emissions and ease congestion on the roading network. This would require more space at the city end.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Diversification and limits the risk that a sell down of the shares will be misused in the future. I balanced this against the fact that I think the council is a naturally aligned owner of the AIA shares and Ports of Auckland.

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

**#1510**

Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.

We therefore request that Auckland Council allocates \$8.02 million in funding within the Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf lifesaving club facilities, as per SLSNR's Surf 10:20 Capital Development proposal.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

#1510

With regard to Question 1C, Council has a central proposal that recommends spending more where it is needed most. Surf Life Saving facilities are a critical component of our community. They have served as temporary welfare and community centres, as well as civil defence centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle.

Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is essential to ensure the continued operation of our clubs and the safety of beachgoers. The amount requested is minimal when compared to the benefit it will have for the region.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	Do less
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would like Council to concentrate on doing the basics well.

See below ...

**#1517**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Transport:

We DO NOT need more speed bumps & raised intersections & we definitely don't need them painted - creating visual pollution.

We do not need more cycle lanes that are used by such a small portion of the community -especially not at the expense of traffic flow & parking.

The small difference electric buses would make can be put off - lets look at the big polluters in the country/ world.

Water:

We DO need the Council to step up and ensure they have a robust stormwater system, including scheduled maintenance - like we used to have decades ago.

We Do need Council & Watercare to include maintenance in their programme. Stop waiting for things to fail before you fix them as this just causes increased damage & costs. (It's like not putting oil in your car, for goodness sake.

City & Local Development:

Most of Auckland don't care about Auckland CBD & very rarely go there.

Haven't seen any good 'regeneration of West Auckland towns for a long time - try less signs & cones.

Let Tourism NZ promote us like the rest of NZ.

Forget about the CBD waterfront & Port redevelopment at the moment.

Environment & Regulation:

Get rid of the weeds & pests in the Waitakere Ranges! Oh, you would actually have to let people in there to do that!

Kauri Dieback is a crock, as shown in Australia. It is naturally occurring & isn't even present in many sites where Kauri have died. Try looking at the information (finally) taken & admit that you made a mistake.

There is also no point in paying to have weeds killed in Waitakere Ranges when Watercare land is infested & seeds spread back.

Park & Communities:

**#1517**

We do NOT need free music, movies & get togethers paid for by rates. This is a luxury we can't afford! Central government are responsible for providing social services not local government.

And why is West Auckland always the 'poor cousin' - receiving very little?

Economic & Cultural Development:

Look at how much we are spending on consultation with Maori! Paying \$250 an hour to have a Maori open a building with a mihi is \*\*\*\*\* ridiculous. No, I'm not racist, just a pragmatist. Most of NZ, & Maori, don't follow the 'religious type' of prayer anyway. Love the incorporation of Maori information pou & art but we need to look at getting the costs of all this under control.

Stop funding events - we can't afford them at the moment.

NZ Tourism can promote Auckland without us paying someone to move to England & receive a \$250,000 salary to do it - What the \*\*\*\*\* were you thinking!

Council Support:

Streamline, streamline & ... streamline.

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

Get the traffic moving by removing speed bumps & raised intersections. Standardise any kept - to NOT be huge bumps.

Forget electric buses for now - does nothing in the big scheme of world climate change.

Forget cycleways everywhere - Auckland is not flat like Amsterdam - the amount who use road cycle lanes is minimal compared to the cost & inconvenience to traffic flow.

Look at Health & Safety practises & why roads/ lanes need to be blocked off when a tree is being pruned, or for workers to park their cars. What the \*\*\*\*\* is happening in Aklid CBD? I was actually scared driving in there the other day with all the ridiculous traffic cones & lanes that turn into bus lanes.

**#1517**

## **2a. Is there anything you would spend more on?**

Reopening the Waitakere Ranges - for locals, NZers & tourists.

BUT Stop upgrading every track to boardwalk standard - some people like to walk in the 'wilderness' & a track or gravel path is fine.

Get rid of the weeds & pests in the Waitakere Ranges before all the millions of dollars we have spent over the decades is wasted.

## **2b. Is there anything you would spend less on?**

See above about 'board-walking' forest tracks, judder bars, intersection painting & electric buses.

We also don't need arrow signs on every corner on Scenic Drive & Piha Road. If you can't see the corner you shouldn't be driving, or should be driving slower. There will always be dickheads driving too fast, or tourists who simply can't drive - we don't need to pollute our beautiful out of the way places with these ugly fluorescent signs.

We don't need free local events, music & movies. These are not Council core business & we can't afford them - waste of money.

Streamline & cut the amount spent on Maori consultation - we need value for money, not prayers (mihi) & rahui & endless meetings with unelected people.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

### **Tell us why:**

Was a bad idea in the first place as no public transport & way out of the way.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#1517**

**Tell us why:**

DO NOT sell our shares in AIAL!!! Prior to Covid we were getting \$50m a year from our shares.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

This is essential to Auckland. DO not sell.

If the private sector can make a profit from it so can we.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Maybe a mix of both, but that will depend on what savings we can make in operating the Council.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#1517

**Tell us why:**

Who cares! Leave it as it is - we have bigger problems at the moment.

**5b. What option do you prefer for Bledisloe Terminal?**

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

**#1533**

Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.

We therefore request that Auckland Council allocates \$8.02 million in funding within the Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf lifesaving club facilities, as per SLSNR's Surf 10:20 Capital Development proposal.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

With regard to Question 1C, Council has a central proposal that recommends spending more where it is needed most. Surf Life Saving facilities are a critical component of our community. They have served as temporary welfare and community centres, as well as civil defence centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle.

Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is essential to ensure the continued operation of our clubs and the safety of beachgoers. The amount requested is minimal when compared to the benefit it will have for the region.

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Auckland should control this important transport hub. If sold to outsiders, there is less the public can say about what they do.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#1542**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Another important transport hub we should control.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I am not confident about any Future Fund.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

There is plenty of other water spaces the council could use for their plans.

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Enforce speed limits ie 51 km in a 50km zone could get a fine. That way, without needing to change road signs at a cost, the speed limit comes down,

Limit parking on roads everywhere and even more where intensification takes place. Developers and buyers are counting on free on-road parking. This makes cycling, crossing the road and pulling out of driveways unsafe. It also would cause a lot of objection when in the future a cycleway needs to be retrofitted. By taking away road

**#1588**

parking the roads are safer for active travel modes. And makes it future proof when needing to add cycle/busways in the future.

We need more cycleways, the cost of living crisis being the perfect moment in time to start this. E-bike loan schemes

If the following from the LTP "reduce the asset portfolio so that funding can be directed to more effective and efficient service delivery" means that assets, ie Parks/reserves can be sold off than I do not agree. Especially with intensification council will need to hang on to all their assets.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

WE need MORE cycleways along with E-bike loan schemes. Stop allowing the road to be used for private parking.

re Park and Ride; why not adopt a payment plan where carpoolers get cheaper public transport tickets than individual drivers. The more people sharing a car the less they pay on PT. This is being done in Bordeaux, France.

Priority always to ferries and not cruise ships.

Fix the dangerous railroad crossing situation in Glen Eden.

**2a. Is there anything you would spend more on?**

Cycleways that are not on back roads, safe pedestrian crossings.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

**#1588**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

**Tell us why:**

Yes to Auckland Future Fund

No to selling off Airport shares. I think the future dividend will be a more sustainable way of retaining financial security. The modelled projected profits, in favour of reinvesting the Airport shares, is only "valid" if Auckland doesn't need to dip in the fund in case of an emergency? I would prefer AKL council concentrates on working on our infrastructure and environment to avoid floods and other emergencies.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Terrible safety history at POAL. Leave operating the Port to professionals in that field.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

#1588

**Tell us here:**

Invest in improving infrastructure and environment to make Auckland more resilient in the face of climate change.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

These wharves are essential for good logistics.

Don't want council to spend 110 Mil and we don't even know what is going to happen at these wharves.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Auckland is a growing city. It does not make sense to reduce the size of our port. Especially if that adds carbon from overland transport from other ports. And delays.

**6a. What do you think of these proposals?**

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Do not agree with changing PAYT to Rates Funded Refuse Collection. With food scraps being collected there is no need anymore to put bins out every week, unless full. It may seem a good idea to include waste in the rates if you look at it in isolation. But from point of view of improving active travel this is a poor decision. If people pay for rubbish tags they may only put the bin out once a fortnight, or as our families case, once a month. This means that our bin blocks the footpath only once every 4 weeks. There is 75% less chance of the wind blowing it over in the street and the Refuse trucks can do their jobs faster which is a lesser cost to the ratepayers

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### **Tell us why:**

Better on the long term to keep ownership of the shares and invest the dividends into this new fund

**#1592**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I do not believe leasing out the port will bring much benefit to the region

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No, we are not a cash cow, and yes do more to make Government provide better/more funding to close the budget gap THEY have created for Auckland Council. 50% of the people living in Auckland are suffering from poverty. Go to the rich.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#1596**

Less budget for Arts and other fluffiness. Only budget for the core business. Reduce the councillors and local board members pay by 15%, set an example!

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

To achieve better PT you need to create DEDICATED bus lanes and get rid of on street parking on all arterial roads into the city. You seem to do half work because of a few people/businesses moaning and objecting due to losing a few on street parking places.

### **2a. Is there anything you would spend more on?**

No.

### **2b. Is there anything you would spend less on?**

Elevated pedestrian crossings, speed bumps, cycle ways, traffic management contractors. Any elevated road object causes a 25% increase in CO2! and cancer increasing particles from diesel vehicles!

## **3. Which options do you support for the North Harbour Stadium?**

Other

### **Tell us why:**

Sell it all off for a combination of residential (BTR) and commercial buildings. Absolute waste of money to keep it in council's ownership.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Private companies tend to be more savvy and able to better operate ports. The lease may generate a consistent income for council.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Protection against crimes

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Free cultural events, it must be funded by tickets, food, etc.

**#1664**

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

The last initiatives (i.e. raised pedestrian crossings) made driving in Auckland nearly impossible! Also, despite of high volume of road works, it's quality is horrible and requires further fixes in very short time. Please review road work quality and procedure, your yellow cones staying on the roads with no any activity over weeks make drivers crazy!

### 2a. Is there anything you would spend more on?

More pedestrian crossings where needed only (i.e., no any crossing nearby).

Express bus routes between distant areas, i.e. West and East, which are not covered by trains.

More for education of road workers and engineers.

### 2b. Is there anything you would spend less on?

Less (REMOVE!) raised pedestrian crossings and excessive ones (i.e., which are next to intersections).

Less bus routes in the evening time and weekend (where there's no passengers).

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

### Tell us why:

Stadium can be a commercial project and self-funded with correct policy. Make it more attractive for community.

**#1664**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Many projects done by Auckland Council and AT are managed absolutely not effectively and looks like money laundering! The bad quality of AC/AT staff is well-known and it's upsetting. You could manage AC properties and projects more effectively and save money if you find managers with a commercial acumen, not just willing to express their kindness.

Overall, taxpayers must be in priority as they fund all government projects. Social projects are also very important but let's limit our efforts to help, not solving all their problems by ourselves! There are so many people sitting on benefits when companies are struggling to find the staff.

## Waitākere Ranges Local Board Priorities

### 7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?

I see only the projects with benefits for Maori/Pacific. Are they the most important? There are already a plenty of projects supporting their culture (and I do respect it), but what about other people? I believe common facilities, such as parks and bike t

#### More specifically, what do you think of each priority we've listed above?

Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Very Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	I don't know

Progress an application for Waitakere Ranges Heritage Area to become a dark sky place.	Not Important

#### Tell us why

Fairly Important

**#1664**

**7c. What do you think of the Waitākere Ranges proposed priorities for the 10-year budget 2024-2034?**

The same as the short-term plan.

**8. Do you have any other comments?**

In the current situation, I can see all Aucklanders are suffering from two main issues - crime and transport. All you cultural projects are useless if people feel unsafely and cannot protect themselves.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

**#1682**

Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.

We therefore request that Auckland Council allocates \$8.02 million in funding within the Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf lifesaving club facilities, as per SLSNR's Surf 10:20 Capital Development proposal.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less community events, they are a 'nice to have' and not necessary.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Better public transport is urgently needed in Auckland to encourage people to get out of their cars and free up the city. I would be more likely to catch the train if I knew it was reliable and was quicker. at the moment it is unreliable and slow.

**2a. Is there anything you would spend more on?**

Proper uninterrupted Bus lanes on the North Western.

**2b. Is there anything you would spend less on?**

I don't know enough about it whether it is needed or is a waste of money.

The pay as you throw dramatically reduces the amount of rubbish our household puts into landfill (we put out our bin approximately 4-5 times per year). Should it become a general cost I will stop recycling soft plastics and be much more likely to put the bin out much more regularly and put a lot more to landfill. Across many households this will likely just make the longer term landfill management a much larger cost to Council.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

With regard to Question 1C, Council has a central proposal that recommends spending more where it is needed most. Surf Life Saving facilities are a critical component of our community. They have served as temporary welfare and community centres, as well as civil defence centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle.

Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is essential to ensure the continued operation of our clubs and the safety of beachgoers. The amount requested is minimal when compared to the benefit it will have for the region.

Dont waste money on replacing existing signage just to make them bi-lingual.

Dont give money to the queer community, they've shown their true colours now.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Rubbish must stay as pay as you go. Its the only way to reduce rubbish.

The only way to promote water conservation is have everyone without exemption pay a potable water charge for use. Housing Corp tenants can pay a nominal fee after their free level. It will stop useless people washing their driveways with a hose, filling up 1000 litre pools and general wastage that currently occurs at Hosing Corp residences.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Environment and regulation	As proposed

Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Have efficient staff from the top down work more efficiently. eg be skilled in the area they are representing without having to have so many layers of people below them doing the running around ground work.

**#1883**

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

The revenue collected so far has not reached fixing the urban street roads. The buses are too big on many of the day and night routes. I get sick of seeing an empty bus or with 1 or 2 passengers on board. The humps who are they for? Is the council getting a cut from the garages from fixing the cars. If it's not a hump it's huge potholes along with buses stopping in the middle of the road as there is not pulling into the kerb bay for them or ORANGE cones that is stopping a good traffic flow. It takes me 15 minutes to drive to work, if I take the bus it takes 1hour 10 minutes. So why would I take a bus.

### 2a. Is there anything you would spend more on?

Smaller mini buses, on more not covered routes.

### 2b. Is there anything you would spend less on?

BIG buses, ORANGE cones.

## 3. Which options do you support for the North Harbour Stadium?

Change the operational management

### Tell us why:

Holding concerts there. No residential residents to moan about the noise.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#1883**

**Tell us why:**

I have paid my share of rates for the past 46 years and any other service used eg tip. If I had run my own business like the council runs OUR Ratepayers business I would have been bankrupted many many years ago. It's about time someone with REAL investing, revenue gathering is put in charge.

Rate payers do not have endless growing capital to keep bailing council out of their bad investments.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Lease is a better option. That way council is not responsible for any up keep. The \$\$ can well and truly be used now. Let the ports be run by people who know what they are doing. Council could tap into some of the Ports future financial gains as a growth fund.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Don't forget about the hard-earned dollars from the rate payers today. Sure, we must save for a rainy day but also, we must see value for OUR dollars now.

#1883

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More rubbish bins (or as many as there were before the council removed them all)

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2002**

Less cultural and art activities... For now. These things are essential, but the infrastructure needs to be fixed.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

We need a much better dedicated cycle network. No more speed bumps. Going at the speed limit still causes my suzuki swift to scratch the speedbump, and even at the proposed speed it feels horrible going over them. They're poorly built.

**2a. Is there anything you would spend more on?**

Cycle ways, public transport

**2b. Is there anything you would spend less on?**

Roads if possible, stop speed bumps entirely.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

"Another option is to change the operational management of the stadium to ensure greater use by the community." sounds great.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

I didn't read this one properly

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

The port likely needs a restructure, but we should focus on keeping it

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Our infrastructure is falling apart, we need to fix it before we focus on anything else.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

I'm a home owner, I'm happy with rates going up a lot. The alternative of rotting infrastructure seems significantly worse, and delaying it will probably result in a higher cost anyway down the line.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

#2002

National is trying to reduce rail funding. There is a very real chance that this would result in a disruptive amount of trucks flowing through Auckland. It would also be highly inefficient and much more expensive overall.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

We need the income and the ability to influence the operations of the port.

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	I don't know
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	Do not support

#2002

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1) Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

**#2018**

2) Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.

3) We therefore request that Auckland Council allocates \$8.02 million in funding within the Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf lifesaving club facilities, as per SLSNR's Surf 10:20 Capital Development proposal.

1) With regard to Question 1C, Council has a central proposal that recommends spending more where it is needed most. Surf Life Saving facilities are a critical component of our community. They have served as temporary welfare and community centres, as well as civil defense centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle.

2) Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is essential to ensure the continued operation of our clubs and the safety of beachgoers. The amount requested is minimal when compared to the benefit it will have for the region.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Remove the local boards

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

I prefer the do more transport proposal. The extra cost on rates spread across all properties in Auckland is marginal. Aucklanders will not regret investing more in transport

### 2a. Is there anything you would spend more on?

Removing train level crossings on the western line so that there are separated crossings instead. Creating a fully separated northwestern busway

### 2b. Is there anything you would spend less on?

No

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

The precinct is under-utilised

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

### Tell us why:

**#2021**

We need alternative mechanisms for long term funding and this is a smart way to do it. Preserves investment while allowing diversification

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I prefer option 3 in the consultation document. The new management of the port is much improved than previous management and has improved the performance of poal. Council should let this play out. Leasing can be considered at a later stage if poal performance does not sufficiently improve.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Compromise position that mitigates further rates increases

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

I support the creation of a new cco for the future fund as this will ensure proper governance etc. I prefer council to maintain poal ownership and not cancel poal shares.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#2021

**Tell us why:**

We already have significant parts of the waterfront available for public use. There isn't significant demand for more public land on the waterfront. Giving up this land will adversely impact port operations and income from any port lease.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

As above for 5a

**6a. What do you think of these proposals?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

A CCO will not give Aucklanders transparency over investment decisions and will not necessarily take the same strategic infrastructure or social and environment benefit regard that Council can take - and can be required by voters to take.

**#2040**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Its more efficient to operate a local monopoly directly by council and that allows for social and environmental benefits to be more actively pursued than a lease holder would

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Public benefit - but if housing must only be social housing with lots of public access not private

**5b. What option do you prefer for Bledisloe Terminal?**

Amidst soaring living costs, reducing expense is the greatest blessing for my life.

More specifically, what do you think of each priority we've listed above?

Initiatives to support community resilience and safety.	I do not support any priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	
Operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru.	
Continue to activate library spaces with programmes, services and events.	
Operating grants to support Glen Eden and Titirangi Community Houses.	
Invest in our relationship with mana whenua, Te Kawerau ā Maki.	
Initiatives to support youth/rangatahi.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	Do more
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better maintenance of our roads

Combine cycleways with walkways

**#2059**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less raised crossings at pedestrian crossings.

Better coordination of street repairs and road dig ups

Footpaths/cycleways only on one side of the road. We don't footpaths on both sides of the road. Makes roads wider with cars parking on both sides of the road

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Raised pedestrian crossings are a waste of money and can't be proved to save lives. They will only be working if pedestrians are crossing the crossing. At all other times of day and night they are superfluous.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

Less on raised pedestrian crossings

**3. Which options do you support for the North Harbour Stadium?**

**#2059**

**Tell us why:**

More diversified assets rather than just in one or two companies.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

This would assume the Port remains in its present location for the next 35 years

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Split between operational and some to the Auckland Future Fund, which may vary each year depending on dividend payment.

**4d. Do you have any feedback on any other part of the proposal?**

The extra 110 million costs to impliment resource consents is not what the Council needs at this time. Extra costs are not needed at present.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

If leasing we need as much return as possible

Support all of the proposal

**Tell us why:**

Also, Auckland needs central government to step up with \$\$ for improving public transport. AK is an isthmus; more roads won't solve the problem. It \*is\* a national issue when 37% or more of GDP is being hampered by logistics

Waitākere Ranges

## Waitākere Ranges Local Board Priorities

7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Initiatives to support community resilience and safety.	I support most priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Very Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	Fairly Important
Operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru.	Not Important
Continue to activate library spaces with programmes, services and events.	Not Important
Operating grants to support Glen Eden and Titirangi Community Houses.	Not Important
Invest in our relationship with mana whenua, Te Kawerau ā Maki.	Not Important
Initiatives to support youth/rangatahi.	Fairly Important

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public Security

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

North Shore Stadium

**#2108**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

The capped weekly ticket is great. It was offered by the North Shore Bus Company before and people liked it very much.

**2a. Is there anything you would spend more on?**

Upgrade public transportation in the west and build more bus lines. Shorten the time to the city center during peak hours.

**2b. Is there anything you would spend less on?**

Bicycle lanes are not necessary. It is impossible to ride all the way to the city center.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Not something particularly necessary

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#2108**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Replacing the dock can move it to a less populated area, which can also drive the construction and development of that area.

#2108

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Highway guardrails were built on the main roads in the city, and the maximum allowed speed was restored to 60 kilometers per hour to speed up circulation.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2120**

Property taxes should be linked to average income and inflation rate.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

More development should be done in the surrounding areas, and not all money should be put into the city center. There is no need to build a railway or light rail in the city center. There should be a clear difference between the cost of public transportation services and the cost of private transportation. There should be actual preferential conditions to encourage people to use public transportation.

### **2a. Is there anything you would spend more on?**

Subsidies should be provided to low-income people who really need them. The amount of housing each household can purchase should be restricted. We should learn from countries like Singapore and South Korea, where at least each person is only allowed to own one property.

### **2b. Is there anything you would spend less on?**

1. Repeated highway reconstruction projects and constructions that have no value, such as installing an isolation pile today and removing it two days later...wasting taxpayers' money.

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

### **Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#2154**

Support most of the proposal

**Tell us why:**

I agree with making public transport easier, quicker, more reliable.

Otherwise I see the need for better roading while maintaining pedestrian access. I don't value raised pedestrian crossings, and I don't understand what dynamic lanes means.

**2a. Is there anything you would spend more on?**

Maintaining and improving public transport, increasing roading (more lanes on suburban access roads).

**2b. Is there anything you would spend less on?**

I disagree with reducing lanes on roads to "push" people onto public transport. Public transport needs to a reliable, attractive option.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

Most of the city won't benefit from spending on upgrades at this Stadium.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The airport is an important asset for the city and the city needs to keep its shares in it.

**#2154**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Ports of Auckland are a life line to the city, for the city. The council can run it better, and cheaper, with better outcomes than private management ever would. Keep the ports for the city, run by the city. It's our asset.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I value ongoing council services.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would be prepared to pay more in year 1 and 2 for a complete overhaul and simplification of Auckland council processes, top heavy management and wasteful CCOs. AT need to be reviewed to actually deliver Transport solutions for Auckland.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2264**

The sheer amount on wasteful process and Public Relations spending, the total lack of control of CCO spending even now needs to be reduced. Auckland council is self-serving and inefficient.

## **2. What do you think of the transport proposal?**

Don't support any of the proposal

### **Tell us why:**

AT have been proven to be incapable of delivering benefit for Auckland travellers apart from raising cycling from 1% to 2% of commuters. Disband or overhaul AT immediately if you want support for the transport plan

### **2a. Is there anything you would spend more on?**

Remove 90% of traffic calming measures, speed bumps and raised pedestrian crossings. these increase pollution and CO2 emissions and could be replaced with simple paint on existing roads. Better rail and bus services with more frequency and longer hours of service.

### **2b. Is there anything you would spend less on?**

No more speed bumps and raised pedestrian crossings, painting intersections and reducing traffic flow. these increase pollution and CO2 emissions and could be replaced with simple paint on existing roads.

Increasing rates at the time when the OCR is so high creates an extra financial pressure for home owners, who are already hardly managing the costs. Not all home owners are rich people, who rent out their properties. Some are working 2 jobs to manage loan repayments to the banks and rising costs for everything. It's just not the best time for increases

Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Sorry but if the rates that are going to increase as proposed, I would look at moving to other towns/city. The other alternative is to move to Australia.

Auckland Council and NZ Government both use the tax payer and rate payer for solutions.

**#2413**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

The only thing I have seen so far is lets get Auckland Rate payers to pay for everything. Why does not the council have constructive investments where they have enough funds to do what they would like to.

Auckland Council and NZ Government both use the tax payer and rate payer for solutions.

**2b. Is there anything you would spend less on?**

Nothing for a start and rethink what is wrong with this system

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

The Stadium has sponsors and also when events are held, you do get some revenue from it. What happens to that and why the revenue is not used to cater for the needed expenses,

**#2413**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Do not see any need to do that. Leave it as it is.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#2432**

Support all of the proposal

**Tell us why:**

Raised crossings and more cycle ways are not required as a priority

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

Putting in road humps on roads where intersections are already controlled by traffic lights (eg Glen Eden) as these simply impede traffic flow in busy periods

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

These options seem to be most effective way forward.

I think our nurses need to be paid better. We are losing a lot of medical staff to Australia. Even in other working sectors, people are leaving to go to Australia, because the cost of living is better and the salaries are better. If NZ Is not careful, there will be not enough skills left in New Zealand.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do less
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Give a number of free visits to refuse stations (say 6 per year) which will reduce fly tipping/ illegal dumping and will support a reduction in weekly curb collections.

Charge significantly higher infringements.

**#2580**

Increase public rubbish bins - we have so few, it's embarrassing. .

Increase parking fees.

Charge visitor tax - incoming passengers to Auckland should pay a flat fee of \$5 per person via transport tickets.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Defund city events. We don't need lantern / dewalii and Pacifica events - let interested members organise, fundraise and run them privately

Cut jobs considerably.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Focus on the basics - be brilliant on roads and foot paths, then focus on fringe things like cycleways.

Be bold and innovative with solutions - look to China and Middle East for unconventional solutions!

**2a. Is there anything you would spend more on?**

Please do better with city rubbish, graffiti and presnetioan standards.

**2b. Is there anything you would spend less on?**

Events. We don't need to market Auckland domestically ... everyone know about Auckland.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**#2580**

**Tell us why:**

Create a model that is self funding - like a carparking and retail.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

You're so shortsighted. Do not sell the golden goose.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

You have no business operating a port - you're a council. Leave the ops to the specialists.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Needs will continue to grow and council needs a fund to deliver.

**4d. Do you have any feedback on any other part of the proposal?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

## Albert-Eden Local Board Priorities

### 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

#### More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

## Henderson-Massey Local Board Priorities

7b. What do you think of our proposed priorities for Henderson-Massey in 2024/2025?

Fairly Important

More specifically, what do you think of each priority we've listed above?

Our People – create opportunities that support connectedness, diversity and inclusion in our community.	Fairly Important
Our Environment – focus on initiatives that increase tree canopy cover, improve water health and provide for resilient and low carbon communities across Henderson-Massey.	Not Important
Our Community – ensure the maintenance and development of 'fit for purpose' local services and spaces meet the needs of our diverse communities.	Not Important

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Less urban sprawl. I don't know how, but if we could build up our central suburbs instead of building up new ones on the outer edges of Auckland, that would help with the transport problem. I really dislike how people are sitting on old leaky homes in central suburbs instead of increasing density in these areas.

**#2644**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Big fan of making public transport better, that benefits everyone including drivers. I'm not sure about the initiatives that we're stopping, but I guess the money and resources have to come from somewhere.

**2a. Is there anything you would spend more on?**

Public transport.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

I used to live in Albany for 8 years and I think I went to about 1 event at this stadium. Shocking! I think operational management is to blame for this so I'm for a change in that. Because it's hardly been used, I have no strong ties to it so redeveloping it sounds good. As long as we can keep some of the publicly accessible services around it like the turfs.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**#2644**

**Tell us why:**

I'm not smart enough for this (or at least don't have the energy to learn, sorry)

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I feel like selling assets is a short term win and long term loss. \$2.1 billion actually doesn't sound like much at all considering how much we plan to invest in things like public transport. What will that buy, a couple hundred meters of track?

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

I still don't really know what the auckland future fund is for, sorry.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

#2644

I feel like the location of this port as a whole is really inefficient. So anything to repurpose the space sounds like a good idea.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Same as above.

Pay less salary to Wayne Brown

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2671**

Pay less salary to your high end staffs. Reduce your waste full spending. Eg road humps, traffic management company spendings, patching of poth holes. Just them once and for all and get done with it.

## **2. What do you think of the transport proposal?**

Don't support any of the proposal

### **Tell us why:**

Your proposals are not going work as you have a lot of wasteful spending in your internal offices. Wayne brown does not deserve such a high salary and do other high level staffs. They are not ones that go out and carry about day to day operations.

### **2a. Is there anything you would spend more on?**

No

### **2b. Is there anything you would spend less on?**

You have not yet finished already large projects such as light rail, and you want to sell yours assets to start another big project. Why is guarantee that this project will start and finish on time with no extra funding required. First clean up your one mess before making another.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

We don't know whom you going give it for lease and where and how the fund will be used. If all the fund finishes before the 35 year lease then we will be left crying waiting until the lease ends before any new projects can be done.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Your current spendings are very wasteful. If you see money then you will spend it blindly and there will be nothing left for the future generations.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

No

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#2671

**Tell us why:**

Auckland council is very bad at handling any assets. It's better to leave the operations as is.

Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Fairly Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	Fairly Important
Operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru.	Fairly Important

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

**Tell us why:**

Dynamic lanes are stupid and do not work. The money should be spent on making widening roads that require it.

**2a. Is there anything you would spend more on?**

Additional bus lanes that do not take over car lanes, this will assist in easing congestion on major arterial routes. If that isn't feasible, making bus stops where the bus can pull in rather than block a lane of traffic.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

**Tell us why:**

Proceed with the fund, but retain the AIAL shares to assist with influence over future development in the airport to the benefit of auckland rather than central and national interest

**4b. Which option do you prefer for the future of Port of Auckland?**

**#2996**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Private enterprise will be able to make more efficient use of the port than any local or central government department. This will benefit all of new zealand likely with increased efficiency in export and import.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Investigate splitting the profits and dividends to cover what is essential for operations, investing the rest to the auckland future fund. Consider it auckland's kiwisaver.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Retain ownership of port land. Realestate always increases in value.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#2996

**Tell us why:**

Why bring yet more trucks in to auckland? Unless there is significant change to rail to marsden point, this seems pointless with little benefit to auckland or it's council

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	Do more
<b>Council support</b>	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport that is separated from traffic (like busways and trains) with free parking at terminals. Fixing pot holes and busy intersections in new growth areas. Retreat from areas where houses are vulnerable to extreme weather problems.

**#3102**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Don't build sea walls to protect millionaire mansions in coastal areas. It is a losing battle that will cost a lot.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

We should not stop cycleways or making pedestrian crossings safer in areas where it makes sense.

**2a. Is there anything you would spend more on?**

Linking different modes of transport. Cycle lanes and bus ways and trains and ferries and cars and park & rides. Make an interconnected system. Getting freight off our roads. Should be on trains and ships.

**2b. Is there anything you would spend less on?**

New lanes for private cars.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

I'm not into sports and don't really know the big picture around this.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#3102**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The airport is a public asset of national significance. I believe it should actually be 100% owned by the government. I would support transferring ownership to them.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

The main port should be downsized and all large freight entering the country sent elsewhere. It should retain a small port for goods coming into and out of Auckland specifically. The waterfront should become public space.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

We need to invest in our future. Think ahead!

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**5b. What option do you prefer for Bledisloe Terminal?**

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

It seems strange to me that Economic development is put together with Maori events. We are multi-cultural society and while I recognize that Maori are the first people, we need to be careful that support for Maori events do not become unaudited hand-outs.

**#3206**

Economic development is paramount, as we have to earn what we need to live and develop and constantly grow.

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

Auckland Transport is in a sad state. We need to recapture the level of support for train journeys, fix the roads, develop roads where needed and above all introduce efficiencies. Avoid delays in projects which cost money, stick to plans as conceived, be aware of expensive consultants but use engineers in house. There is no economic growth and development with out efficient transport. Only parts of Auckland are suitable for bicycles. Do not be woke to appear "green", do not give into minority interest groups. Spend our money where it is needed most.

### 2a. Is there anything you would spend more on?

We need to spend more money on the rail network, as it appears to me, to make it more resilient, increase use of technology for greater efficiencies. Urban railways do not need to be run by staff, a train driver is all that is needed.

### 2b. Is there anything you would spend less on?

## 3. Which options do you support for the North Harbour Stadium?

Other

### Tell us why:

Sell the stadium and let private enterprise develop and look after it as a business

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

**#3206**

Proceed with the proposal

**Tell us why:**

Well professionally managed investment funds could be very beneficial to Auckland. Sell Auckland Harbour and Airport shares to start the fund and make contributions to the fund from income at a small percentage. I see it a kind of "wealth fund" and investment for the future. Instead of paying a lot interest on debt and borrowing more to pay for it, realize some assets and start the fund which can be used in future to smooth increases of expenditure instead of large rate increases. It has be forgotten what the benefits are of saving money investing and compounded it. Instead we keep on increasing our debt to pay for debt in an ever greater downward spiral

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

I fully agree with this proposal. see my comments above

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#3206

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

This is difficult. If these wharves are no really needed for efficient port operation then I would agree with your proposal.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Lease Bledisloe to Auckland Port as part of the plan under 4 with the view to provide time for alternative to be arranged for Bledisloe and then taking back to Council for other purpose. Instead of a lease of 35 year may be 7 to 10 years

**7c. What do you think of the Waitākere Ranges proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

Whatever Council decides to do in the end, please be careful with money hard earned by the city's people. Any grants or handouts to community groups or ethnic groups or Maori should be for specific purposes with full audits. Projects of development should be well managed with strict financial controls and audits.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#3222**

Please, please reduce reuseless works. Then balance the costs so as a taxpayer no more waste our money. For example, reduce costs on fixing some not that bad street/road/path. Reduce build bike path or walking path only for fitness. I can't see efficiency.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Traffic, eg. train and high way. grass by the road.

**2b. Is there anything you would spend less on?**

walking path

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The funds should be share by all of cities. Because it is an internation airport, not just Auckland people use it.

**#3222**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

If council keep increasing rates, then they should do something for property owners. I can't see any benefit as a property owner. Even off street lawn we need to do ourselves. From my perspective, council rate is increasing and council work reduced.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Projects related to traffic and public safety will be completed in order of severity. I do not want to increase property taxes significantly to complete them. Projects can be completed slowly and step by step according to the city council's economic capabilities.

**#3293**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

The allocation for election expenses should be reduced, and the number of city government staff should be streamlined to reduce government spending. Some work can be assigned to volunteers. For example, some retirees have talents but nowhere to use their spare time after retirement, and the government can use them to reduce the workload, achieve the goal of streamlining city government staff, and ultimately achieve the goal of reducing government spending.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Convenient and developed transportation makes life more convenient for citizens and promotes economic development. This should be an important consideration in the city government's plan. However, it is not recommended that the city government rely on a substantial increase in land taxes to improve it. The city government should achieve it step by step based on the city government's revenue and economic situation.

**2a. Is there anything you would spend more on?**

If the project/plan has to be completed by significantly increasing property taxes, I don't want to increase spending. The government needs to complete projects or plans, and should control the progress of projects or plans based on the current annual fiscal revenue, rather than putting the burden on citizens as soon as something happens. Increasing property taxes to improve projects is unfair to citizens and is also a disguised way of forcing Auckland's high-end talents to go to Australia. As an immigrant country, New Zealand needs population inflows and needs to find ways to retain talent. The prosperity of a country depends largely on high-end talents to promote and achieve.

**2b. Is there anything you would spend less on?**

The cost of electing mayors and prime ministers should be greatly reduced, and the salaries of government employees should also be reduced. The city logo should not be

**#3293**

changed if it is not necessary, as it is a huge expense, and unnecessary buildings should not be built.

### 3. Which options do you support for the North Harbour Stadium?

Other

#### Tell us why:

Partially renting out the stadium to increase revenue for maintaining the stadium will reduce reliance on grants from the city government and leave the task of maintaining the stadium to the stadium itself. The person in charge of the stadium will naturally find ways to generate income from the stadium.

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

#### Tell us why:

If the shares are transferred, the state will lose control of Auckland Airport. If the receiver of the shares significantly increases the airport's charges, it will be an economic disaster for Auckland citizens. Due to the transfer of shares, Auckland will not be able to interfere with any changes to the airport. In terms of Auckland's future fund income, the government should find a way to get Auckland's wealthy to participate in donation activities, at least once a year, so that the wealthy can contribute to Auckland's fund income.

Find a way to make the Port of Oakland profitable, either by reinvesting existing funds or renting out a small portion of the port. Think more about how to maximize the benefits of the port.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

The Auckland Future Fund allows Auckland to provide assistance for urgent projects in the city.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

The land ownership and equity of the Port of Oakland must not be lost. Just like the railway in Oakland, it is not easy to buy it back even though it has been bought back. The Port of Oakland cannot follow the same path as the railway. That is a lesson from history.

The most fundamental thing is to find a way to maximize the benefits of the Port of Oakland, give full play to the advantages of the port, and achieve the highest return on investment.

Projects that threaten the safety of citizens and improve public transportation are recommended, but it is not recommended to significantly increase residential property taxes to complete the projects. The government has property tax revenue every year, and the property tax is increased every year. The municipal government can allocate funds from existing funds to improve it. Whether the municipal government's annual fiscal revenue is reasonably allocated, whether there is a surplus every year, whether the surplus is wasted, and whether the surplus can be reinvested are among the issues that the municipal government should pay most attention to. Regarding the government's planned projects, in addition to using the existing property tax revenue, the municipal government can also consider supplementing it from other fiscal revenues.

**7c. What do you think of the Waitākere Ranges proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

Got bored throughout the survey too wordy and poorly laid out. I also then remembered that the council sends these out as a matter of obligation then does the complete opposite to public opinion/feedback they receive.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Re introduce community rubbish bins at bus stops and install dog poo bins at parks

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

A lot less speed bumps and raised pedestrian crossing throughout the region.

## 2. What do you think of the transport proposal?

Support all of the proposal

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

The community has grown over 10 years and needs are higher. The development should be an exciting space including delightful greenspace.

Changes in operational management seem necessary as there aren't any changes occurring. Need forward action planners with creative problem solving obvious.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No. I believe the council is already a highly ineffective and inefficient organisation that is not spending existing money wisely. What is required is better leadership and capability.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#3405**

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

About half of the proposed activity will not enhance the quality of lives proportional to the spend. Focus of core services and invest in capability and effective leadership that ensures that existing money can be spent sensibly. There are several private organizations that operate in this manner. I think reaching out to seek feedback is great, so listen to what people have to say and spend money wisely. In the last 5-8 years I have seen more traffic lights, more raised speed bumps AT TRAFFIC LIGHTS and constant non-value add roadworks which have not made traffic flow better, they have made it worse.

### 2a. Is there anything you would spend more on?

New housing development planning. Right now we have lots of new builds in higher density but there is no consistency to design, and living, parking and vehicle movement criteria is poorly thought of. It's inevitable that we will end up with higher density, but look at other large urban cities like Singapore, Kuala Lumpur, various in China and you will see state of the art apartment and urban design which is high density but not pokey-tiny slums like what we appear to be allowing and planning in Auckland.

### 2b. Is there anything you would spend less on?

Traffic lights and speed breakers

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

We need good urban planning and design and it's a large space, well located that supports it.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Due to transport issues and the distance to the CBD it seems to not be well utilised

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The airport shares only have value to an investor if they think that they will increase over time. With this in mind either the shares will not be worth a lot as no investor will want them or if there is value in the shares then Auckland should keep them

**#3439**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

### Waitākere Ranges Local Board Priorities

7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Initiatives to support community resilience and safety.	I support most priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Not Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	I don't know

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

Support all of the proposal

**Tell us why:**

All of the proposal makes good sense

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

A redeveloped stadium precinct would attract more people/activities and be more self-funding.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

It would make the council financially more liquid

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**#3452**

**Tell us here:**

It would make the council financially more liquid

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Most likely greater return on investment

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Optimistic that some time in the future this will make Auckland a more attractive destination for tourists, etc

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

It may be that another port (say Whangarei) would have more efficient operations than the current Port of Auckland and so downsizing Port of Auckland would make sense.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We already pay a fair price for all the services that we receive and we see huge amount of population sitting at home on benefit which are paid from the taxes we pay. Technically out of large amount of tax we are paying we only get services for a fraction of it. All other are spent on those people who are sitting at home, perfectly capable of working.

**#3630**

No more payment. Work on betterment of all or any services.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Spend less on public transport when its not working. Building city link will not work unless we have other connecting services to reach there.

Each year we hear that we will have one or two year sharp rate rise but then it will go back to normal, but it never does. Council continues to spend more than it earns. Individuals and families cannot do this so why should the council do it and then constantly come with their hand out to the citizens. We have many people hurting in our city unable to even keep food on the table. We can't keep causing them to pay for poorly managed city finances. They may or may not be home owners but when rates go up so do rents.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More for walking, cycling and public transport and less on roads for private commuters

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#3677**

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

I don't support anything that our new "petrol-head" Minister of Transport aspires to .. I would like to resist and mark time until common sense prevails.

### 2a. Is there anything you would spend more on?

### 2b. Is there anything you would spend less on?

Road and motorway expansion

## 3. Which options do you support for the North Harbour Stadium?

Change the operational management

### Tell us why:

I like the concept of it being used more

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

It sounds like a "savings/ investment account": I don't like the concept of putting any of our rates into "investments"

## 4b. Which option do you prefer for the future of Port of Auckland?

**#3677**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Selling an asset (to invest in a "fund"), does not make sense to me.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

.. or help to hold rates but definitely no "future fund"

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

.. don't know what the "something else" might be.. quite like the idea of transferring port operations to Marsden Point and making better use of our North Auckland rail

**5b. What option do you prefer for Bledisloe Terminal?**

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Within the LTP document there are the listed rate percentages which likely aren't accurate based on the current rates year - average of 7% was noted but ours was 13.5% with no land/building value change so I'm dubious about the numbers. Also for Aucklanders there's water rate increases on top which are signalled to be significant.

**#3764**

I'm not disputing the region has been left to diminish through successive councils over many years and that we need to fix infrastructure to improve the basics for all but the overall financial picture for individual houses needs to be thought about.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Nice to have until the basics are fixed - basics being transportation for all modes, excellent water, green spaces (parks, play areas) especially in areas where developments without any form of outside area have been built.

Thinking of legacy projects and new stadiums at the Waterfront. These will be a financial burden to ratepayers much like the CRL annual maintenance costs v income.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

A public transport system that works well for the city is a basic need and many other cities in the world manage this. It needs to work alongside good road and parking options. Many people can't use public transport for everything and this should be remembered.

Public transport mitigations. Until the Western line train is reliable and I know I can get to and from work when needed it's not a viable option. In the last month trains have been delayed/cancelled for 'tracks are too hot' on days not that hot, trespasser on the track, network issues. Buses take too long even the rail replacement buses. The lines need to be independent of each other so if something breaks somewhere the whole network doesn't stop.

**2a. Is there anything you would spend more on?**

Trimming or removing plants on traffic roundabouts - in many areas it means a driver cannot see clearly - Avondale has one as a good example where 5 roads merge to a central one. Ensure road signs are clear of overgrown trees and the like - this would help with road safety.

Education programmes for things like - don't wear headphones when walking, look right, left right before crossing, don't step out without looking, lift your eyes from your phone/device would be more useful and I think a better use of funds.

**#3764**

Returning bins to community locations so the rubbish and poo doesn't build up.

**2b. Is there anything you would spend less on?**

Less of "more investment in residential speed management". We have plenty of AT's ridiculous speed management platforms that discourage going to shopping areas such as Glen Eden. They are so poorly designed that even at 5km they impact your vehicle on the up and down.

Lincoln Road has been being upgraded over the past few months so the devil of this document is in the finer detail.

**3. Which options do you support for the North Harbour Stadium?**

Other

**Tell us why:**

To do anything other than keep as is will cost a significant amount on top of the \$3.3M pa to maintain. Where is the budget for that?

Is not one of the issues for this stadium the challenge of getting to it? Major events such as RWC, international football tournament pre covid had free transportation arranged to/from city such as is done for events at Eden Park but they were major. If the getting to/from the stadium was made easier would this make the stadium more desirable for promoters/event runners?

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#3764**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Currently the city needs all the funds it can get to maintain/improve services. Another option could be to continue using the funds for services for say 5 years and then invest in the AFF.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

We don't need another entity adding more staff and the cost to build on the wharves won't be realistic.

The cost of having freight offloaded in Northland and Tauranga will add costs through to the purchaser, roading network with more 50T trucks moving across the regional and national infrastructure.

The ongoing obsession with building something on the wharves that will cost significant sums in design, consultation, consenting, environmental and constructions costs needs to be put to one side until Auckland is a functioning, thriving region where all who live here have positive interactions daily with the facilities all pay for whether through rates directly or rent.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#3764

Tell us why:

The city does not have the funds for this. \$110M won't be enough when the time comes.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

The land for public benefit needs to be weighed up against the impact of freight being shipped across the region whether by road or rail

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

I believe the general rubbish removal from kerbside should remain as a user pays service. Recycling could be made a user pays also. User pays encourages people to be recycle properly and to use other community options such as e-waste, soft plastics. User pays also works for the large number of smaller households or those who recycle, compost and use community options.

I also think that as signage needs replacing it should be in english and te reo as the cost would be minimal but a project to replace all signage where it's in good condition is a nice to have. There are companies that could add te reo to existing signs that would look good and be cost effective until such time as a physical sign needed replacing.

7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Initiatives to support community resilience and safety.	I support most priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	
Operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru.	
Continue to activate library spaces with programmes, services and events.	
Operating grants to support Glen Eden and Titirangi Community Houses.	
Invest in our relationship with mana whenua, Te Kawerau ā Maki.	
Initiatives to support youth/rangatahi.

Waitakere Rural Sewerage Targeted Rates. The cost to council could be reduced by ensuring that the contractors work efficiently and don't overcharge for the service. Previously it took one operator to empty our septic tank but last time there were six people on site to do the same job. This was totally unnecessary and would have a huge cost implication.

Do not support most of the proposal

**Tell us why:**

I live in Coastal West Akl & am 22km from my nearest bus or train. Public transport is something I CAN'T use so DON'T want to pay for. User pays is fine.

**2a. Is there anything you would spend more on?**

Enforcement of driver licencing by police.

**2b. Is there anything you would spend less on?**

Take away the stupid speed bumps designed to annoy drivers & damage cars. The promised rollback of stupidly lowered speed limits is urgently needed.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

**#3949**

Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.

We therefore request that Auckland Council allocates \$8.02 million in funding within the Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf lifesaving club facilities, as per SLSNR's Surf 10:20 Capital Development proposal.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Ridiculously small compost bins

**2. What do you think of the transport proposal?**

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Safe cycleways, don't mind if they're cheap and cheerful with concrete dividers. Bus lanes so buses are faster. Congestion / Time of Use charging infrastructure.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#4060**

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

I don't support stopping previously planned initiatives. We had a good plan and everyone deserves to get where they are going safely, including people on foot and on bikes. Why are we playing chicken with people's safety just because Simeon Brown wants cars to go faster? It's pathetic. We shouldn't be told what to do by central government on this - safety is crucial.

### **2a. Is there anything you would spend more on?**

safe cycleways.

### **2b. Is there anything you would spend less on?**

New big roads. it just encourages traffic. we need to make it harder for people to drive so they consider alternatives.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

### **Tell us why:**

Noone wants to go to Nth Harbour stadium. Those on the shore who want to keep it are living in a pre-amalgamation past life - people in Sydney have to go across the bridge to see sport, why should it be any different here? it is a failed stadium and would be so much better redeveloped as a community use facility for people on the Shore to actually participate in sport rather than watch it maybe a few times a year. white elephant - get rid of it, despite whatever the Shore and its ridiculous councillors say (Watson, Walker - holding Auckland back since 2010)

**#4060**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

I strongly support this proposal. Having two assets that are at risk from climate or geopolitical events - like covid or the 2023 storms - means we have a very risky portfolio. It would be much better to have a diversified portfolio of assets that can earn a more guaranteed rate of return - right now. The airport may well earn money in years to come, but for the next 10 probably not, while it does big investments. Council needs an income now from these assets, so why not put them into a fund with professional managers and get some dosh coming in.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Getting an upfront payment of 35 years and then being able to

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

because then we can use THAT money to generate an income

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

#4060

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

There's no enough information on this proposal really - like what would council do with it? if we just sell it off to another private interest and the land gets locked away for apartments or something (like parts of viaduct) then maybe it is better to st

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

i support this, IF council can be more specific about what it will actually do with the land.

## Local board priorities

### 7a. Which local board area does your feedback relate to?

Waitākere Ranges

### 8. Do you have any other comments?

Council needs to sort out the weird funding arrangements of our cultural institutions - Auckland Museum is out of control, MOTAT needs to join council to get itself sorted, and the organisations under ARAFA should be given different arrangements.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The council has been spending a lot of money on planning, but the development progress has not been satisfactory. I believe that the unbudgeted costs are the reason for the projects going over budget. To address these issues, the council needs to improve its governance and effectiveness.

**#4062**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

To alleviate the burden on taxpayers, it is crucial to engage private partners to sponsor events. Why should the council be interested in sponsoring large-scale events? The answer is simple - when profits exceed 50%, the council can sponsor such events. By partnering with private companies, we can ensure that the community benefits from events without having to bear the financial brunt.

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

The transportation system should be more reliable and convenient. Solving one problem created another, and now taxes are being raised to solve it. It is unacceptable to ask for more money to fix the problem.

**2a. Is there anything you would spend more on?**

Engineers to build a robust network!

**2b. Is there anything you would spend less on?**

Stop City Rail! City Rail has destroyed the beautiful city.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#4062**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

After redevelopment, if the capacity and transit time remain the same, then it is not worth going ahead with the development. We need a bright mind to lead the development project.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The council needs to work with intelligent people.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

For improvements.

**4d. Do you have any feedback on any other part of the proposal?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More cycle lanes along major arterial roads

Light pollution regulation - protection of our dark night skies, to save energy and for the benefit of humans and animals alike.

**#4224**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less cultural activities, less festivals etc. Instead focus on our infrastructure and our physical urban and natural environment.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I would like to see more cycleways and education or campaigns for cycling as a way of commuting. This would also help relieve congestion and have health benefits for the population.

**2a. Is there anything you would spend more on?**

Cycleways

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**#4224**

Yes please! The council should not own assets in competition with private entities.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Why does the Waitakere Rural Sewerage Targeted Rate need to be so high? At \$336.80 per year this equates to \$1010.40 per three yearly pump out. It sounds horribly inefficient. If we arranged own pump-out once every three years it would cost a lot less, so where does the extra money go?

Regarding 'pay as you throw' (PAYT) bin tags: We are very happy with our current service in Waitakere given that we don't produce much rubbish in our household. We don't understand the motivation by council to introduce another general targeted rate - this will just encourage users to produce more waste as there is no longer any incentive to minimise collections!

Regarding the council's preferred proposal for rates increases, is the sentence 'and no more than 3.5 per cent for the years after that.' to be understood as a legally binding promise? If we accept the proposal, are we then guaranteed that rates will never increase by more than 3.5 percent again, after year three?

#4224

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Waitākere Ranges

## Waitākere Ranges Local Board Priorities

7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Initiatives to support community resilience and safety.	I support all priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Very Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	Fairly Important
Operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru.	Fairly Important
Continue to activate library spaces with programmes, services and events.	Fairly Important
Operating grants to support Glen Eden and Titirangi Community Houses.	Fairly Important
Invest in our relationship with mana whenua, Te Kawerau ā Maki.	Fairly Important

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dense building in outlying suburbs is causing major congestion on roads and motorways. Inner city suburbs such as grey Lynn, mt Albert, roskill, Eden could all be far more densely populated instead of these draughty old single storey villas occupying the most convenient land in the city

**#4328**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

I'm unsure how money is spent in council, but as a builder caught in a renting trap with 3 kids I feel incredibly let down that citizens in New Zealand have not been empowered to own their own homes and instead property investment is nurtured and encouraged. It is causing massive social issues

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Auckland public transport and cycling need more support. The amount of people sitting in single occupied cars from the suburbs to get into the city and back every day is ludicrous. Another option could be to increase the number of houses in central suburbs so that fewer people need to travel in to the city instead of cramming thousands of houses at riverhead or Huapai which only have one road in and out. No public transport can serve these people, it is simply too far to travel

**2a. Is there anything you would spend more on?**

Incentives to free up land in central suburbs. Encouraging private home ownership in suburbs, apartment living in city

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

People's interests are changing over time. Considering the sports young people are playing, is the stadium suited to facilitate these activities?

**#4328**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Owning assets will save more money in the long term than selling them and leasing them back

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

If the groups utilising the port were able to have more say in its operation we may allow for greater ease of use for the period of 35 years, freeing up council resources

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Look after your citizens. We are being sold out to foreign and domestic property investors, our futures unsure without any ability to purchase housing, but being fully capable of paying \$40,000 pa in rent

#4328

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Resources could be better used elsewhere

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Focus on roading and housing. Only people in the central city gain enjoyment from these wharves as they're too hard to access

**6a. What do you think of these proposals?**

### 7c. What do you think of the Waitākere Ranges proposed priorities for the 10-year budget 2024-2034?

**#4328**

**8. Do you have any other comments?**

Housing. Why do we have these 3 storey \*\*\*\*\* boxes going up everywhere instead of building proper apartments in the central suburbs? The schools, roads and general infrastructure is heaving under the weight of the influx of immigrants moving to the suburbs, why not reinvigorate the city (overrun by homeless people) instead of stressing all the suburban roads and motorways

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	Do more
Economic and cultural development	
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Surf lifesaving clubs play a significant role in keeping our beaches safe for Aucklanders. Many of the club facilities are run down and past their use by date or have been damaged by the cyclone. Without funding these clubs will not be able to raise the funds necessary to rebuild. This could result in loss of members who are all volunteers and we could see more drownings on our beaches. We request the Council

**#4474**

allocates \$8.02m in funding for the LTP specifically earmarked for rebuild of these facilities as we've had previously for the 10:20 project.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

stop planting flowers in roundabouts and city centres. We can have natives, they are self-sustaining, cheap once established. Flowers are wasteful.

No more speed bumps

**2. What do you think of the transport proposal?**

**Tell us why:**

**2a. Is there anything you would spend more on?**

Public buses to Piha and other parts of the Waitkere ranges - at least on the weekends so people who don't have cars can get to Piha and our young people can move around

**2b. Is there anything you would spend less on?**

Speed bumps. They just grind the city to a standstill, are annoying and wasteful spending. Never seen any other city with these and can't see what they achieve except enrage people

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

If it is under-utilised the land can be used for other purposes. We have a lot of stadiums in Auckland that already sit empty a lot of the time

**#4474**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The shares are likely to increase in value after all the redevelopment. Short sighted to sell shares

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Council will loose control if leased out

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#4474

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

The land is so valuable. Perhaps the council should look at alternative site for a wharf for cargo in Auckland

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

The proposed stadium or a beautiful city garden like Sydney has with the botanical gardens right in the heart of the city

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. **6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Surf lifesaving clubs are critical to our communities. Many of the facilities are run down and need replacing. They serve their communities and the wider auckland public. They are also critical to communities in emergencies like we saw in cyclone gabrielle

7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Initiatives to support community resilience and safety.	I support most priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Fairly Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	Fairly Important
Operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru.	Fairly Important
Continue to activate library spaces with programmes, services and events.	Fairly Important
Operating grants to support Glen Eden and Titirangi Community Houses.	Fairly Important
Invest in our relationship with mana whenua, Te Kawerau ā Maki.	Fairly Important
Initiatives to support youth/rangatahi.	Fairly Important
Progress an application for Waitakere Ranges Heritage Area to become a dark sky place.	Very Important

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	As proposed
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport currently is not adequate. The train line needs to be extended to Kumeu from Swanson. The cost of public transport should be addressed, as currently it doesn't cost any less than taking a car, yet it takes twice as long.

Environment and community - conservation of the natural environment needs to be a priority focus, particularly in light of the pressures brought on by climate change.

**#4482**

Communities need green spaces to escape to and interact with. Support for communities to be involved in restoration work is very beneficial from a mental and physical point of view, but also in achieving gains for our fragile ecosystems.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

There needs to be more investment in active transport, such as cycleways and walking. The benefits include healthier communities as they become more physical active, but also due to reductions in carbon emissions as part of climate action.

**2a. Is there anything you would spend more on?**

Subsidised transport costs and a move to electric vehicles.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

I don't mind a fee increase. However this service to the best of my knowledge has not been delivered in Karekare for some years. This may have been affected in the last year by road damage from Cyclone Gabrielle.

I have already requested when the last pump out of my property was done, and received no reply.

I am currently paying for a service that I believe I am not getting.

I have already requested information on when my last primary onsite pump out of my septic tank occurred without a reply.

This service is now being increased in cost.

I believe I am paying for a service that myself and others in Karekare aren't getting in the three year cycle of this job.

Cyclone Gabrielle affected roads in Karekare here, but there continues to be no information supplied with this issue.

**7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?**

I think protecting the natural environment of Waitakere is so important, as one of the largest continuous forests in the Auckland Region it has massive ecological and social value.

**More specifically, what do you think of each priority we've listed above?**

Initiatives to support community resilience and safety.	I support most priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Very Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	Very Important

#4508

Operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru.	Very Important
Continue to activate library spaces with programmes, services and events.	Fairly Important

Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Yes it would be great if these ridiculous surveys allowed us to give proper feedback on what we think. How about a box under each question to give our feedback?? I live in an area with no footpaths, no public transport, I pay for my own water a.d wastewater, we have no compost bins and yet our rates have doubled since we moved our home

**#4520**

here. Stop paying ridiculous amounts of money for absolute \*\*\*\*\* and actually achieve something with rates we pay

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less beauracatic \*\*\*\*\*, less council staff, less terrible decisions, the ratepayers are sick to death of wasting our money. And stop wordng these \*\*\*\*\* surveys like we are actually going to get less of something we do t get in the first place

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

We don't even have public transport it is impossible.for us to even get to gleneden without paying for taxis or users, you took away our public buses and left us with nothing. Our children now need to get HOP cards meaning those with low incomes miss out on cheaper rates as they can't afford to top up cards. Let us pay as we go, let our children get on buses without the need for expensive cards with minimum top ups

Dear Auckland City Council,

I am writing to you on behalf of Auckland Rugby League to express our strong support for the proposed increase in funding through the Sport and Recreation facilities Investment Fund (SRFIF) as outlined in Auckland Council's Long-term Plan 2024-2034. As a Regional Sport Organisation deeply invested in the growth and development of Rugby League in Auckland, we believe that the Long-term Plan (LTP) presents a crucial opportunity to shape the future of our sport and our communities.

As a key pillar in our strategy to 2030, Auckland Rugby League has been steadfast in our commitment to growing participation at all levels of the game. One of our proudest achievements has been the phenomenal growth we have witnessed in the girls and women's spaces within our sport. The number of female participants has surged, reflecting a growing demand for opportunities for girls and women to engage in Rugby League at both grassroots and elite levels.

However, as participation numbers continue to rise, so too does the need for fit-for-purpose facilities to accommodate this growth. This entails community Clubrooms, female changing rooms, sand carpeted fields, floodlit lighting. Adequate and accessible facilities are essential in providing safe and enjoyable playing experiences for our participants. Without suitable facilities, we risk hindering the development of Rugby League in Auckland and depriving our communities of the benefits that sport brings.

The proposed increase in capital funding for sport and recreation through the Sport and Recreation Facilities Investment Fund (SRFIF), is a welcome step towards addressing the infrastructure deficit that our sport faces. By investing in facilities that

**#4524**

meet the needs of our growing participant base, we can ensure that rugby league remains a vibrant and inclusive sport for all Aucklanders.

As we look towards the future, Auckland Rugby League is committed to working collaboratively with Auckland Council to identify and prioritize the needs of our sport and our communities. We believe that by investing in fit-for-purpose facilities and supporting initiatives that promote participation, we can create a healthier, more active, and more connected Auckland.

In closing, I would like to extend our gratitude to Auckland Council for its ongoing support of rugby league in Auckland. Together, we can continue to make a positive impact on the lives of our participants and contribute to the thriving sporting landscape of our city.

Thank you for your attention to this matter, and we look forward to the opportunity to further discuss how we can work together to achieve our shared goals.

Sincerely,

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Auckland Council really need to cut their costs in terms of overheads. Their is lot more Auckland Council can do increase productivity of their staff and reduce the staff numbers.

**#4898**

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

I don't have trust in Auckland Council as

**2a. Is there anything you would spend more on?**

You really need to gain public confidence. Your service has completely lost the confidence. No one trust AT. At the moment you guys are forcing Aucklanders to use public transport by block traffic (with unnecessary bus lanes), removing parking, unnecessary issuing tickets etc. People wants to use public transport, however they don't have the trusted system.

**2b. Is there anything you would spend less on?**

Bus lanes, Bus lane cameras.

**3. Which options do you support for the North Harbour Stadium?**

Other

**Tell us why:**

Not worth spending money and this will not be beneficial for the general Auckland public.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#4898**

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

No - get back to core services.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#4929**

Stop the 'over the top' spending. Cut jobs - those who are on \$100k plus. Look into your Contractors and their over-inflated charges. Stop paying for 9 people to watch 1 person plant flowers in 1 round-about. Stop these ridiculous cycleways - no contractor can ride with a scaffold and a drop saw on their backs - use some common sense

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

The Auckland RFT was spent where? It didn't make a blind bit of difference at being targeted to transport. Absolute farce!

Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I am not prepared to pay more as the council is wasteful, and will just \*\*\*\*\* it against a wall. If I trusted the money will be well spent I'd happily pay more - but I have zero confidence that would ever happen.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Focus on core services, less fluff.

**2. What do you think of the transport proposal?**

Rodney, Waitākere Ranges

## Rodney Local Board Priorities

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Fairly Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Fairly Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Fairly Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important

#4995

Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	I don't know
Develop pathway connections in Green Road Park.	I don't know

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

not even a little bit. inflation is insane, mortgage rates are up and now you're asking if we want our rates increased? Feels very tone deaf to be honest.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#5004**

if I could solve that for you I assume I'd make a killing as a consultant,

## 2. What do you think of the transport proposal?

I don't know

### Tell us why:

I'm not knowledgeable enough to be that specific, but I do believe that infrastructure is important.

### 2a. Is there anything you would spend more on?

same as above... terrible timing on this guys. We've been hit by years of increases and so this just feels mean.

### 2b. Is there anything you would spend less on?

hard to say what since I'm not educated enough on it, but I think there's plenty I'd pull back on.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

### Tell us why:

changing the operational management should be considered if it brings in additional revenue. As for redevelopment, I think pieces should be sold off so that it might be redeveloped, in part, privately. council should invest only in the park and community needs. Keep rates low please... it's enough already.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

**Tell us why:**

I'm not clear on this fund, but the airport project has been going on for a long time and I'm not sure we're that much better off. Time to bring money in and not spend as much.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

bring in the revenue and stop making the taxpayer pay for everything.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

same as above... stop increasing rates and bring in revenue to pay for things that are needed.'

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#5004

**Tell us why:**

I think the port is the worst part of downtown in probably one of the most ideal locations. this could be a huge benefit, but let the land be leased out and use private funds to develop,

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

same as above. lease it out and use private funds to develop.

AT has become an ideological organisation (see detailed feedback below) and should have its funding cut substantially.

All economic development spending should be cut. Industries such as tourism and events should fund their own promotional activities.

Those of us who already compost at home should be able to opt out of the food scraps bin targeted rate.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

AT has become an ideological organisation. Rather than delivering services, there appears to be a focus on political interventions such as bilingual bus announcements, speed limit reductions that go far beyond what is necessary for safety, extremely expensive pedestrian crossings and so on. The organisation should be re-focused on service delivery alone, and until that has happened there should be no funding allocated to AT beyond minimal opex.

### **2a. Is there anything you would spend more on?**

Repairing potholes (provided excessive spend on traffic management is curtailed).

### **2b. Is there anything you would spend less on?**

Speed limit reductions, pedestrian crossings, speed bumps.

Initiatives to support community resilience and safety.	I support all priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Fairly Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	Fairly Important
Operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru.	Very Important

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#5116**

Do not support most of the proposal

**Tell us why:**

Auckland is too widespread for efficient public transport. Reducing unnecessary spending on raised crossings, excessive cycle lanes and 30km signs is a good idea. Fixing roads and potholes is a good idea.

**2a. Is there anything you would spend more on?**

Repairing potholes!

**2b. Is there anything you would spend less on?**

Cycleways, speed humps at traffic lights, painted roads like Glen Eden and Henderson disasters.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Stadiums sitting empty are a waste of space and money. Communities are always looking for spaces for activities, just don't make the hire age costs too expensive otherwise community won't be able to afford them anyway.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Fix the rail line so that there is a connection from Swanson to Waitakere Township and then further up to Kumeu etc. You wasted thousand upon thousands of dollars on the train station car park at Waitakere, only to cancel the service shortly after. There are MANY MANY ways to get a train service through tunnel hill and if you did that and had

**#5123**

a reliable service, people would use it. You use the excuse people don't use it - but that's because the train service is incredibly unreliable.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Stop wasting a ridiculous amount of money on roading changes, putting in raised speed humps etc - if you do this you will be able to allocate the funds to actually fix the road.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

The public transport system is honestly a joke and embarrassing to overseas visitors. Most of Auckland can't rely upon it or get to a destination with a ridiculous amount of fuss and time delays. That means we have to drive and the roading projects you are spending money on are incredibly badly prioritised and wasteful. The roads are full of pot holes and hazards, and you just keep spending money on raised crossings.

**2a. Is there anything you would spend more on?**

Fix the pot holes.

**2b. Is there anything you would spend less on?**

RAISED SPEED HUMPS & PEDESTRIAN CROSSINGS!

**Tell us why:**

I don't want to have the airport shares sold.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Retaining land ownership will always be far more profitable in the long run.

I am VERY MUCH against increasing the Waitakere Rural Sewage Costs - this increase means that you are charging \$1010.40 for a service that actually costs \$747.50. If the council require \$262.90 (or roughly 30%) subsidy, or in comparative terms need to pay someone for 8 hours to do something that takes me 5 minutes to organise - then there is something VERY wrong with how you are running the system. Not to mention you should be getting a better rate than I can get, so you are actually in all likelihood MAKING a lot more than 30%. I am happy to have this amount taken off my rates and I will organise having the tank emptied myself, as I am sure are a lot of others in the area.

keep western spring speedway where it is as this is part of Aucklands history.  
Especially when so much of our historical places/buildings etc have been taken away.

## WESTERN SPRING SPEEDWAY – MORE THAN JUST RACING

There is so much more to Western Springs speedway than the racing, there is a huge sense of community and belonging. The feeling or vibe that is around the stadium, the feeling of a community, safety for children and families, excitement of been there with the cars, fumes, dirt and the whole atmosphere. Take away the facts of the locals, cricket, noise, etc. it's about people living in a community and how this will be lost to us if Western Springs speedway were to close. This continues throughout the off season with drivers and car owners stripping down cars, rebuilding cars, engines etc. And the promoters preparing for the season ahead. All talking about the season that was and looking forward to what next season brings.

My parents took me to my very first meeting at 2 months old in 1963 along with my older brother. We went to every meeting and speedway became a huge part of our lives, as a young girl I have so many vivid memories, the lights hanging over the track, sitting behind the start finish line and when the meeting finished been able to walk across the track to the pits. Sitting with friends and having to pick your favorite driver to win at the start of every race, hot chips and an ice cream were a Saturday night treat to name just a few.

Growing up with stories from my father, who went to the very first meeting in 1929 as a young boy, riding from Blockhouse Bay with his brothers on their pushbikes and witnessing "something so amazing" dad always told me he was spellbound by the blazing lights, the heady scent of petrol fumes and the fearless men straddling rumbling motorbikes. Whilst my dad never raced he became an ultimate racing fanatic, along with my mother, they were both instrumental in setting up the Speedway supporters club which held monthly meetings with drivers attending and it was a highlight to have the overseas drivers there. Dad became the Patron of the supporters club. My brother took up sprint car racing and with most young speedway girls I met my husband through racing we in turn took our children there and would love it to be there for our grandchildren.

55 years on and looking at this side of speedway it is so very important in our lives and so many others, whether it spectators, drivers, crew, car owners, safety crew, the promoters, we are all part of something special. Getting to know the people that you sit next to and seeing them throughout the seasons, always saying goodbye after the last meeting and saying "seeing you next year". Seeing generations change, grandparents, and grandchildren, mums dads, hearing about births and deaths throughout the off season, seeing babies come and grow up through the speedway seasons and seeing some of these babies grow up to become our future generation of drivers at Western Springs. These people are all part of our speedway lives and home, looking forward to sitting on the stands and catching up with these people.

My children collecting the clay that flew up onto the terraces, making small race tracks and playing with their toy cars, as so many generations before them and children still do to this day. The highlight of going to the pits, been able to sit in your favorite driver's car and getting your t-shirt signed or autograph book signed and in today's society have a photo taken with your favorite driver. What other sporting place allows young children to experience this with to their idols.

So Western Spring speedway as I started with is so much more than just the cars, it's also about the people, there is a great history behind Western Spring Speedway, generations of families coming through and a lot of them are spectators coming to see a fantastic show. Our future generations deserve to experience what Western Springs community have given to me, so many before me and whoever may follow, a total sense of belonging and been part of such a spectacular sport.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Local Government property rates automatically increasees PAYE,GST,Rates Penalties,Property Insurance and Morgage Loan Risks etc...

All of these increases are not published as a warning in local government land/property council rates increases yearly.

**#5129**

This is becoming a road to financial destruction forcing home owners to downsize and sell their properties often moving offshore.

Many workers in Local Government/NZ Government are renters only who gladly vote for excessive yearly property rate increases.

They vote and support too many overloaded new and old services.

Auckland Council needs to sell and off load all recreational parks except coastal and Regional Range Reserves..

Sell off all Museums, Art Galleries, Golf Courses, Swimming Pools, Libraries, Halls, Stadiums, Flower Gardens and all the other bagged liabilities.

No free ride for anybody!

All land properties to be valued and rated accordingly.

Only a few buildings to be non ratable.

Land Properties must be ratable or taxable and or combined in commercial private/commercial charity situations.

GST on properties to be lowered and returned to local councils for future growth in town planning/building.

There is only one option to choose the highest council rating increase to promote the self destruction of Auckland Council.

Answers:

The NZ Government has schools that provide library services, swimming pools, halls, fields, stadiums and much more.

The private sector funds art galleries, golf courses, museums, stadiums etc.

DOC needs to do much more in the local council parks domain.

Plenty of NZ Government Departments sitting on their hands doing very little to off load Local Government contracts and responsibilities.

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Solving road congestion is Auckland's top priority.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#5163**

We cannot do less of the services that most people use or benefit from. Everything should be measured by the total number of people benefiting.

## **2. What do you think of the transport proposal?**

I don't know

### **Tell us why:**

There are many projects that are not so urgent, but they consume resources, money and time. For example, raising crosswalks, etc.

### **2a. Is there anything you would spend more on?**

### **2b. Is there anything you would spend less on?**

Road maintenance should be more efficient, open to bidding, and less lazy.

## **3. Which options do you support for the North Harbour Stadium?**

I don't know

### **Tell us why:**

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

### **Tell us why:**

This depends on how the fund is operated and managed. Once it is mismanaged, the consequences will be disastrous.

**#5163**

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Funds are established to make money, not to absorb more money

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Auckland has many problems that need continuous funding to support and change. If the airport and port can consider injecting funds, why not issue a gambling license to the foundation to attract investment and build another casino and related facilities. This will not affect the job opportunities of Skycity employees, but can put an end to Skycity's monopoly on Auckland's gambling industry. The fund can also use the stable and large amount of funds earned by the new casino for Auckland's municipal government. This gambling bonus should not be enjoyed exclusively by Skycity, but should benefit all of Auckland.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support

<p>Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>	Support

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Make sure that we keep outdoor education, rangers and enviro people. Stop just about everything else

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#5442**

Get. Rid of those stupid mini food scrap bins. Get rid of half the people in Auckland Transport. They keep doing dumb stuff no matter how much people complain. I am sick of road works, road cones and doing up perfectly good footpaths and not doing up terrible ones.

## **2. What do you think of the transport proposal?**

Don't support any of the proposal

### **Tell us why:**

Auckland Transport are not the right people to do this work. We need to stop putting in those pedestrian crossings and shutting down access to businesses by turning some streets into pedestrian only

### **2a. Is there anything you would spend more on?**

### **2b. Is there anything you would spend less on?**

Pedestrian crossings, road cones

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

### **Tell us why:**

It cost alot to build it and once its gone its gone. We need to market its capabilities better

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Stop selling the silver ware. We can only sell assets once.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Auckland needs a port. We are surrounded by water and air freight is becoming super expensive

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

#5442

Keep Bledisloe Terminal as a Port of Auckland operational area

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Protecting our environment.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Too many safety calming measures in traffic, it's gone too far the other way.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

AT wastes money and people's time.

**2a. Is there anything you would spend more on?**

Not in transport.

**2b. Is there anything you would spend less on?**

Pedestrian crossings, too many of them.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

No one uses it it's embarrassing.

Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less staff time and resources on consultations, particularly by AT.

**#5466**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

General support for improved public transport. Still need the raised tables and other safety interventions.

**2a. Is there anything you would spend more on?**

Safety

**2b. Is there anything you would spend less on?**

Dynamic lanes

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Spread the risk and take a long term strategy for the investment rather than Councillors making political choices.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#5466**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

higher return on investment.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

reduce the rates burrden.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Long term plan to remove the port is fundamentally flawed. It should stay where it is an provide an income to the council (either as a dividend or via the lease option).

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

No need for any reduction in port operations - we need them to be profitable for the sake of the council's balance sheet. We don't need another vacant wharf

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#5466

**Tell us why:**

as above, if its transfered to the council it'll be a waste of space just like Queens Wharf and will reduce the port's profitability (and hence our income)

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	I don't know
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

With such high interest rates and such traffic jams, it is better to rent a house. Selling a house will lose money. People have no money left to be exploited.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Approve fewer high-density residential buildings. New Zealand is no longer the New Zealand it once was. It is getting worse every year.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Building bus lanes again will not alleviate congestion in the main lanes.

**2a. Is there anything you would spend more on?**

Reduce the number of traffic lights near highway entrances and exits.

**2b. Is there anything you would spend less on?**

Trains, light rail, and other projects that take up time and affect traffic

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

less cultural activities...we should not be supporting activities that are for some of the community. I am not anti gay but the ratepayers should not be expected to pay for parades etc which do not involve us all. The same for cultural activities. Also an in

depth review is need for the amount of subsidy paid for transport paid to the bus companies. I believe there is overspending here when not needed...a lot of wastage...large buses running empty (why not use mini buses at these times?) and many more issues

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

I am very much in favour of stopping most of the speed bumps that not only have an exorbitant cost but create many problems as well. Problems for emergency vehicles, slow down traffic too much causing traffic congestion and not good for our vehicles etc

### **2a. Is there anything you would spend more on?**

I think the council should be spending less on everything and sticking to the essential necessities that affect the ratepayer

### **2b. Is there anything you would spend less on?**

speed bumps, a lot of money is wasted when it comes to repairing our roads with cones everywhere for example. I beleive the council needs a good clean out of inactive staff and major cuts with staff. I have known council to pay staff redundancy and then re-employ the same people. I have known council to give people nearing retirement jobs which are really not necessary.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

### **Tell us why:**

We have many stadiums throughout Auckland City and most of them are underused. Something needs to be done to save costs to the ratepayer on these white elephants

**#5509**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

This will turn into another expense on the ratepayer and a cash cow for members of the council running these investments

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I have never believed in selling the silver for a short term fix. Assets generally improve over time and the option of selling any or part of them will in the longer term cost the ratepayer. Look at the saga of selling NZ rail. You have only to look overseas to see the reasons for not selling assets. Watch this space - the water control will be sold off and that will be a very sorry day

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

These funds belong to the poor long suffering ratepayer and should be used to help us rather than prop up another ridiculous scheme

**4d. Do you have any feedback on any other part of the proposal?**

#5509

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Auckland Council is already taking on more issues and creating more debt to the ratepayer.....I see the same happening with any further purchases

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Same reason as above....I think the council should stick to the main issues involving ratepayers - we are already overloaded with paying for the city. Things like transport, libraries (although these could be cut back as we do have a lot and with public transport these are available to most of the public) parks, water and sanitation, rubbish collection things like this should be councils main concern.

Rubbish collection - pay as you go users are also paying a fee in their rates which has gone up considerably over the years.

I also think that it is time churches and charities should be paying rates as most of these are run as profit making businesses (The operations have changed over time). Also maori land should be paying rates - I know of people that don't have to pay rates because it is maori land - but they get the same services as non maori land owners. This does not seem fair and not a part of the treaty

## **Local board priorities**

**7a. Which local board area does your feedback relate to?**

**8. Do you have any other comments?**

Why do we have so many local boards. Surely we do not need this many local boards. How many members on a local board? This is an overuse of ratepayers money. If the council was operating efficiently local boards would be unnecessary. At least the numbers of boards and members could be cut back

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#5780**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I support improving public transport, but also want safe passage for pedestrians and cyclists.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

This is an under utilised asset. Lets make it better

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

**Tell us why:**

Climate change is going to impact on air travel. I am comfortable with the sale of some airport shares. But leave the ports alone.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#5780**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

The ports and profits should remain in council hands.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Profits and dividends could be used in sporting current services, and a future investment fund. It doesnt have to be either/or

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

#5780

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Do not support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

#5780

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No we need to trim costs. I live semi rural West Auckland and I see very little changes/modifications in our area so why should I pay more rates.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#5844**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

All these raised pedestrian crossing are an absolute pain on roads.

Public transport I do not catch, we have the train nearby and I have caught it twice over 12 months

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

Public transport majority use their own cars

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

What is the point of an upgrade there are very few events there. Limited public transport and parking when there is an event

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**#5844**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Makes sense to do this

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

No we are all in a cost of living crisis keep increases and costs down

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

I support moving the Ports of Auckland operations to a different location. I am opposed to a 35 year lease - the current ports location is not sustainable and shouldn't be ignored for another generation. We need to be actively working NOW to turn the wharf areas into the pleasant, usable public space that Auckland deserves.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#6024**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

The port needs to remain in the control of the city. There needs to be regular reporting to council and also council needs to be represented on the port board.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

We are not in favour of cashing in investments that we will lose control of

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

move the imported cars

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More cycling infrastructure, it's a wonder anyone cycles at all with no proper network. 300km or so of cycle stuff and only 100km of it is safe, meanwhile you have 7000km of local roads plus state highway. Sped far more on cycling please. PT could use some love too, convert more road lines into special vehicle lanes

#6039

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less new roads, we already have 7000km of them. Also they don't need to be maintained to a pristine standard, do side roads really need 24/7 two-way access? We could save a lot of opex repairing them constantly by converting them to one way.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

What has rapid transit got to do with capped fares? These are entirely different things. Who wrote this form? I support investment in rapid transit and I support capped fares.

Network optimisation seems okay, but what's the issue with traffic management? It's all in most people's heads. Also using dynamic lanes for things like transit or bus lanes seems like waste, your turning on the only time the extra lane would actually be needed, and off when its no longer needed, making it a complete waste of money. Only do dynamic lanes if it is a peak direction general lane swap like Whangaparoa and Rebout, other uses are generally wastefull and the experts should be telling you that but for some reason they are not.

Do not stop initiatives like raised crossings or cycleways. Increase them. These modes of transport get such little investment and we wonder why so little people use them. Make it make sense, do the investment, then get the result, don't expect it to happen the other way around, its illogical. If you swapped roading for the cycle network right now, nobody would drive, they'd all be on their bike as it's the only way to safely get where they are going.

**2a. Is there anything you would spend more on?**

Walking, Cycling, Public transport. West Auckland could also use some more love, it seems there is far more investment through the rest of Auckland. My suburb's streetscape hasn't changed since 2008 looking at Streetview.

**2b. Is there anything you would spend less on?**

**#6039**

Less new roading, less road maintenance, assess roads if they need to be as wide as they are, also assess if they need to be two-way, reduce on-street parking as well, these are all wastes of opex money maintaining completely needless surfacing.

Stop sealing more roads as well, most gravel roads see very little traffic, the investment to seal them and keep them in order is absurd. Just keep the gravel maintenance up and spray them to reduce dust.

Also stop wasting so much on community consultation, our road controlling authorities know what they are doing, they are the experts, just let them get on with it, change things later if they have unforeseen issues, it's probably cheaper than trying to listen to every rando with a braindead hot take on everything.

Also stop trying to value-engineer everything, saving money is fine and prudent but only where it doesn't negatively impact the outcome.

### **3. Which options do you support for the North Harbour Stadium?**

I don't know

#### **Tell us why:**

Don't know, never been to said stadium, we have a few of them, do we really need it? The kingsland one makes the most sense for big events, invest in a rail spur and station under it so that event trains can be ran better.

Council support	

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Hiring a consultant to work out how to reduce your staff numbers.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6191**

Stop wasting money on idealistic projects that return zero value to ratepayers. Wasting money on surveillance, raised intersections and speed bumps that hamper emergency vehicles and cause increase in pollution by causing vehicles to stop and start more often.

## **2. What do you think of the transport proposal?**

Don't support any of the proposal

### **Tell us why:**

Your aim for the last few years has been to create congestion, which well done, you have succeeded in causing artificial blockages on roads with queues for empty pedestrian crossings thanks to the speedbumps. Speedbumps before intersections have reduced safety forcing vehicles to remain within the intersection for longer once the lights have changed red because they are going so slow. Emergency vehicles struggle to get places on time. My fuel consumption has increased with the traffic measures, so youre creating pollution. I am already making plans to leave Auckland as it has gone from a once beautiful city to a mess of traffic jams everywhere, but not because of the cars, because of you wasting tax payer money. I do not support more public transport, because it is simply a means between 2 points and that is not how most of life works. This idealism that has infiltrated the council is resulting in huge overspending and simply pushing the burden of your incompetence onto the rate payers.

### **2a. Is there anything you would spend more on?**

NOTHING. SPEND LESS MONEY AND MAKE 0% rate increases.

### **2b. Is there anything you would spend less on?**

Surveillance. Artificially manufacturing congestion. Replacing pavements that have no issues. Your salaries. Staff numbers should reduce.

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**#6191**

**Tell us why:**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Nothing you do is profitable. The less council involvement the better. Leave what works as is.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Stop spending money you do not have. Make no changes until the budget is in surplus.

**5b. What option do you prefer for Bledisloe Terminal?**

Auckland has grown dramatically over the years but youve taken zero advantage of the additional income, by mismanaging funds and pursuing idealistic goals. The once beautiful city of Sails has become the ugly city of Speedbumps. You've wasted our money on what the people do not want. You've used the climate as an excuse for an uncontrolled spending spree, making the buses electric but destroying the free flow of traffic and untimately increasing pollution dramatically. I look forward to moving to another city where idealism is not the main goal. You should be ashamed of your overspending and wasteful nature.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Paying a lot for something not being used often

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Short term gains that cost us in the long term. We should keep the shares and look into other assets that can be sold - particularly golf courses which could be sold to land developers, also increasing housing supply

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport (trains/buses/cycling routes), climate resilience, core services (libraries, rubbish collection, litter control)

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6327**

Road building, we cannot road-build our way to a more robust, climate-resilient city. Huge expensive roads only lead to induced demand and more lanes, more construction needed to keep traffic flowing.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Focus on mass transit/mode shift is good but as highlighted there are many barriers that remain unaddressed in the central scenario (major level crossing issues for rail, lack of cycleway development beyond the bare minimum when it is the most cost-effective way to promote mode shift - council won't need to buy the buses/trains, people buy their own bikes for example).

### **2a. Is there anything you would spend more on?**

Cycleways and solving the level crossing issue.

### **2b. Is there anything you would spend less on?**

Expensive roads that fill up within a year and give transit time improvements in the order of single minutes.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

### **Tell us why:**

The precinct would still need access to its green spaces but the need for a fully-equipped stadium is harder to justify.

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#6327**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Not clear what rules are set for this proposed fund manager, it could go the way of Infratil where it becomes an industry standard for investment in key infrastructure with a sterling reputation for making good decisions and returns or it could be a ploy to sell Auckland's assets outside the control of elected officials. As it stands, I oppose this proposal.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

The focus on spending the cash today at the expense of future cash flows just looks like short-termism at its worst. We do not want to be the next Chicago Parking Meter story to be used in business schools all over the planet.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Services first, fancy bits and bobs later. Unclear the ground-rules for the Future Fund as it stands.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

#6327

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Other

**Tell us why:**

Am rather ambivalent about the development of further "waterfront" space when the current areas (see the Cloud, Silo Park and the Viaduct area) don't appear to be at full capacity at the moment. There is a wider question to answer about whether we need to

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Given the track record of the government of the day and the rate of development of various cargo modes, it would be a safe bet that any cargo volumes displaced by this development would almost definitely be carried by trucks instead of rail, leading to further congestion on our already clogged roads.

**6a. What do you think of these proposals?**

Don't lose existing facilities. In an increasingly dense city these shared spaces are important.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The airport shares are valuable - don't sell assets that are making good return for some dodgy short term plan.

**#6331**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

As above don't sell off control and fix leases that we will have to live with.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

If the neighbouring wharves are transferred then we get the public benefit.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Tax people with more income a higher percent than those who earn a lower income

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6385**

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Reducing pedestrian ways to get around won't help reduce traffic, and the weekly public passes won't help the fact that buses aren't reliable

### 2a. Is there anything you would spend more on?

More regular buses and a wider variety of where they go (some directly going to large locations instead of everywhere in a particular path)

### 2b. Is there anything you would spend less on?

## 3. Which options do you support for the North Harbour Stadium?

I don't know

### Tell us why:

It is not explained where the reallocation of funds would be going towards

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

### Tell us why:

Shares in airlines don't help keep essential services running

## 4b. Which option do you prefer for the future of Port of Auckland?

**#6385**

I don't know

**Tell us here:**

Not much information is given about who it would be leased to and how that would help long term plans for Auckland

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

In reference to rates rising which I support in central why not average out the three year rate rises rather than 7.5% 3.5% and 8% and make it easier 6% increase for next 3 years??? Going high, then low, then high isn't easy to balance personal finances year on year.

**#6435**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

No

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Public transport is a priority and needs to be subsidised. When a reliable service is in place a small toll if entering the city seems just. Increasing parking fees to encourage the use of the public system. This can only occur once the buses and trains are reliable

More cycle ways supports this.

Saying less road comes is ridiculous. They are there to keep staff safe. They cannot be brought in and put out repeatedly as the cost would be passed onto Auckland transport. Road works are frustrating but safety is paramount Zero accidents must be upheld.

**2a. Is there anything you would spend more on?**

Buses on far more routes. Land for park and ride

**2b. Is there anything you would spend less on?**

Raised pedestrian crossings

**3. Which options do you support for the North Harbour Stadium?**

**Tell us why:**

The stadium could be used by the whole of Auckland for events not just the North Shore residents. Small concerts, Wine festival, Home Show etc Make it pay for itself.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

Don't support any of the proposal

**Tell us why:**

our public transport is rubbish, it goes when it wants and to area's it wants to go to.  
Not use friendly, wrong times and directions and cost is not fair.

**2a. Is there anything you would spend more on?**

Better roads, less bike / walk lanes and wider motorways for the volume of traffic now on our roads. Both urban, suburban too.

**2b. Is there anything you would spend less on?**

Yeah, \*\*\*\*\* walkways, cycleways, and speed humps to reduce nothing but add more wear and tear on vehicles. Get a proper planner in to redesign our roading and get rid of the middle management, project teams and spend more on the contractors doing the work

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

We have too much money spent in middle management roles, when we can possible work in collaboration with others to save on some of the overheads.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**#6459**

We need to have clear governance over what and how we spend money, and should be a voting system with the majority wins.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

We can gain short term funding, without the loss of the asset. We can then put this into a bid basket, which then gives the council power in deciding the best proposal wins the contract.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

This is in the premise of funding upgrades to roading, and reducing rates for all Aucklanders.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

#6459

We should be able to gain some more revenue off of those in-lets, allowing us to generate more funds for council services. We need to improve our services lines into and out of the ports, for easement of products been moved to their final destination.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Again, this is prime real estate that could fetch some desperate funding needed. At the moment it is under utilised and not earing us any funds.

## Henderson-Massey Local Board Priorities

7b. What do you think of our proposed priorities for Henderson-Massey in 2024/2025?

#6459

Very Important

More specifically, what do you think of each priority we've listed above?

Our People – create opportunities that support connectedness, diversity and inclusion in our community.	Fairly Important
Our Environment – focus on initiatives that increase tree canopy cover, improve water health and provide for resilient and low carbon communities across Henderson-Massey.	Very Important
Our Community – ensure the maintenance and development of 'fit for purpose' local services and spaces meet the needs of our diverse communities.	Very Important
Our Places – support initiatives that improve walking and cycling opportunities.	Very Important
Our Economy – continue to support the Western Initiative to deliver the Youth Connections programme.	If we educate our community, this will overlap into our environmental awareness.

**Tell us why**

Better roading, less overspend on useless hit like our one way roads in Henderson. Which has now been removed, and more consultation with the community to ensure we do what is best for our community without the major overheads.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No

**#6467**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

No

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

It would be a good idea to have these shares in under the control of a professional fund manager to hold or sell as the market dictates.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

To generate funds for current needs. Any lease agreement can be revisited at a later date, when perhaps Auckland has fewer pressing needs.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Ratepayers shouldn't be asked for more for anything. The rates should be set plus a small percentage for inflation. Capital projects should be funded differently through investments not put back to the ratepayer.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop wasting money on projects we realistically can't afford eg second harbour bridge and city Light Rail

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

The Council should budget for rate setting at the current rate plus inflation so i suspect that unless additional funding is secured then not all the proposal can be supported

### 2a. Is there anything you would spend more on?

A rail link between the city and the airport. Look at Nottingham UK if you want to see a city centre tram project work superbly. It has 50% dedicated rail and 50% shared with roadways (perfect for Dominion Road).

Pedestrianize/bike lanes for the city centre.

### 2b. Is there anything you would spend less on?

The Light Rail for the city white elephant project

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

We can't afford to proceed with developments for a minority project

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

**Tell us why:**

This is a great idea providing it shelters ratepayer contributions

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The Council should not be concerned with operating ports!

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

We need a fund for capital investment projects

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Fairly Important

**7c. What do you think of the Waitākere Ranges proposed priorities for the 10-year budget 2024-2034?**

I have indicated a score out of 10 for each initiative where 1=Discontinue 10=Essential

- ensure our parks and assets are well-looked after (9)
- refurbish Titirangi War Memorial Hall (exterior) (6)
- neighbourhood park development in Glen Eden (8)

**#6483**

- continue to support a network of community places (8)
- support actions from Local Area Plans (too unspecific -5)
- progress a Deed of Acknowledgement with Te Kawerau ā Maki and Ngāti Whātua for the Waitākere Ranges Heritage Area (not sure what this is 6)
- progressively develop Waitipu as a park. (Did you mean Whatipu? - 7)
- develop a civic space and laneway in Glen Eden town centre (9)

The following priorities sit outside local board and require advocacy to the Governing Body or

another entity:

- funding for community recovery and resilience in response to last year's storms (10)
- the Natural Environment Targeted Rate continues at its previous level (2022-2023) (9)
- a service level be established for the Waitākere Ranges Heritage Area (8)
- for Marae investment to support Te Kawerau ā Maki to develop a Marae and Papakainga in Te Henga (6)
- streetscape and lighting upgrades in Glen Eden town centre (9)
- to develop a solution to the conflict between traffic and trains at the level rail crossing in Glen Eden (7)
- to trial a bus service to outer coastal areas. (4)
- to fund a shared path from Glen Eden to Sunnyvale. (5)
- to increase road and drain maintenance, along with climate change adaptation (8)

**#6483**

- to partner to improve community safety and reduce harm (10)

#### **8. Do you have any other comments?**

Our rates are high enough - we should manage within the set levels plus an allowance for inflation. The Long Term funding seems a good idea.

Change the **Rodney Drainage Districts Targeted Rate** to reflect public feedback and updated analysis of the benefits to properties and boundaries.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Initiatives to support community resilience and safety.	I support most priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Very Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	Fairly Important

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increase costs for corporate/business customers, not residents. Reduce funding for international events and touring, such as sports, concerts etc.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6536**

Decrease or stop funding support for one-off events, such as concerts, tours, sporting event. If an event cannot proceed by being subsidised, then it should not exist. Calendar events, such as Pasifika should continue, whilst a proposed concert or sporting event should not receive any ratepayer funding. If it cannot pay it's on way, then it should not exist.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

Proposal is still biased to road transport solutions supporting private/business owned vehicles (excluding buses). Focus should be on ensuring mass-transit options are not defunded or delayed, e.g. trains, buses.

### **2a. Is there anything you would spend more on?**

Continue to grow options that increase participation in mass-transit, walking and cycling. Investigate how to move commercial vehicle traffic to off-peak use, such as mandating heavy truck delivery between 10pm and 4am

### **2b. Is there anything you would spend less on?**

Anything the promotes or advances private vehicle use

## **3. Which options do you support for the North Harbour Stadium?**

Change the operational management

### **Tell us why:**

If the community are unable to take control, then it should be removed from the council books via sale.

**#6536**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The share sales did not in any way seem to protect the council from the current economic woes. If the shares had been retained a valuable asset would be available for future use. Selling the shares was an incredible short sighted idea.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Council bungled the airport shares sale, this is a similar short term goal. Better to be prepared to manage the Ports more actively

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

#6536

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Working wharves should remain in control of a working port. Transfer of ownership also means transfer of operating costs... this is not a good idea.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**Tell us why:**

I support the land being used largely for residential purposes (mixed with commercial). We need housing intensification especially in and around the CBD

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

I don't see the benefit of drastically reducing port operations (when I would assume shipments would only increase) and hoping that our rail network or increased trucks can cover the extra work. And what about the emissions difference?

Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Get non-discretionary spending on asset management under control. The balance between asset management and new capital needs to be adjusted in favour of maintenance and renewals. Asset deterioration does not adjust it's behaviour in line with management expectations.

**#6641**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

New capital brings more demand on maintenance and renewals. Some new capital for capacity is not really needed. People will adjust their expectations to what is available.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Remove the expensive traffic calming, cycling and safety programmes which are not supported by facts.

**2a. Is there anything you would spend more on?**

Maintenance and renewals

**2b. Is there anything you would spend less on?**

Traffic calming and cycling initiatives. No need for expensive raised tables when the same effect can be had by buying off-the-shelf, smaller elements as other councils do.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

The North Shore isn't that invested in that stadium. Get rid of it.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Council is not good at operating assets.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Council is not good at operating assets.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Council is not good at operating assets.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Council's primary responsibility is to be an asset manager on behalf of the people of Auckland. It has been caught up in the shiny baubles of new capital for too long and needs to refocus. Asset management needs to be a T2 responsibility reporting directly to the Mayor. This also applies to the CCOs.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#6641

**Tell us why:**

Auckland Council does not have the capacity or the vision to manage those assets at present.

**5b. What option do you prefer for Bledisloe Terminal?**

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

**#6729**

Support most of the proposal

**Tell us why:**

Concern about reduction in public transport services or delays to network upgrades.

**2a. Is there anything you would spend more on?**

Removal of rail crossings and track maintenance.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Poor utilisation

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Believe that maintaining a generating asset is the right decision of looking to divest the AIAL shares and agree it reduces risk.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

More certainty on services being provided.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I wouldn't want to see a reduction in services

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Downtown port area could add to an amazing public space and become a future tourist draw as well as enhancing downtown for Aucklanders

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Prefer the benefit to the future fund.

**#6796**

Support most of the proposal

**Tell us why:**

Focus should be on public transport and active transport. Cars have had it too good for too long. With the CRL now only years away, everything should be done to ensure that it works optimally with other parts of the public transport system working together with it.

Safe cycleways are essential. PEOPLE NEED TO GET OUT OF CARS! The only way that will happen is if there is safe, regular alternatives.

Safety measures need to be considered. Perhaps more cameras and larger fines to stop people being idiots?

**2a. Is there anything you would spend more on?**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

the ports need to be competitive for it to be viable. Removing key space will limit that.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Fix our footpaths and roads in west Auckland damaged by the floods. Put in stormwater infrastructure to minimise impacts of flooding events.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6940**

Replacing footpaths/roads that do not need to be replaced. Maintenance funding needs to be re-prioritised to take into account rebuilding roads and footpaths damaged by the floods.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

I think cycleways should still form part of the funding as they take people out of their cars reducing congestion and improving health outcomes.

### **2a. Is there anything you would spend more on?**

Better footpaths in west Auckland so kids can safely walk to school. Better lighting in areas for CPTED.

### **2b. Is there anything you would spend less on?**

Overspending on the CBD - e.g. charging points for devices (luxury we can't afford when there is so much to do in west Auckland re flood repairs)

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

### **Tell us why:**

Council needs to re-prioritize funding to address lack of progress in flood repair areas throughout Auckland where many roads are still one lane and the footpaths have been badly damaged.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#6940**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Council should retain ownership as a key stakeholder need to be involved in the future development of the airport.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Council should retain ownership, but it makes sense to use a lease system to generate a return on the investment.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

There is a huge need to fund Auckland's aging infrastructure water/wastewater, stormwater and transport network. The sink holes that are becoming more frequent show that the network isn't being maintained adequately. This put our environment at huge risk and also impacts on our recreation and local economy (fisheries/tourism). Auckland Council needs to focus on what really matters which is our environment and our footprint on the environment.

**4d. Do you have any feedback on any other part of the proposal?**

## Waitākere Ranges Local Board Priorities

### 7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?

Key priorities should include prioritising funding for flood repair work. Many roads are still one lane and footpaths are in a poor state of disrepair.

**#6940**

**7c. What do you think of the Waitākere Ranges proposed priorities for the 10-year budget 2024-2034?**

Should include focus to repair flood damage (see comment above).

**8. Do you have any other comments?**

Local board needs to be more active working across agencies to ensure flood repairs are done when other infrastructure projects are being undertaken. Watercare replaced the Huia pipeline on roads damaged by floods and closed roads for construction. Watercare could have worked with Auckland Transport to create some efficiencies (e.g. shared traffic management, road closures, resealing) to undertake flood repairs while the road was closed for the pipeline to be replaced. There needs to be a database for each local board area so there is some oversight of infrastructure projects.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Clearing plants and plant debris from drains in West Auckland. There is no street clearing and there are pest plant species, such as wild ginger, growing in the drains and this is causing very slow drainage. Even a normal amount of rain causes large

**#7004**

puddles on roadsides - if we learned anything from last year, preventative measures are absolutely essential to prevent catastrophic damage and loss.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Road improvements in West Auckland - this is not a priority when we have bigger problems such as flood damage and risk. Not only are we drowning in water but in orange cones too!

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Improving public transport is imperative to reaching climate initiatives and increasing quality of life for citizens. Building more lanes and less cycleways is not how we achieve this.

**2a. Is there anything you would spend more on?**

The light rail!!

**2b. Is there anything you would spend less on?**

Additional lanes for car use.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

If it's under-utilised by the community, then it should be changed to be more productive for all.

**#7004**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

I'm worried about the lack of control Auckland would have and the ability to buy it back later.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

As long as all issues regarding privatisation are addressed specifically and adequately then I can see how this would benefit the city.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

Support most of the proposal

**Tell us why:**

Stopping work on cycleways is short sighted- making it safer for people to use alternative means of transport to cars to get around the city would benefit the environment and reduce traffic.

**2a. Is there anything you would spend more on?**

At least a trial of making one lane of the harbour bridge a walk/cycle way.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

I don't live on the North Shore and don't use the stadium, so I don't think it would be fair to comment on this.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Selling the council's shares in the airport is incredibly short sighted.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#7136**

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

**#7214**

- Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.
- We therefore request that Auckland Council allocates \$8.02 million in funding within the Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf lifesaving club facilities, as per Surf Lifesaving Northern Region's Surf 10:20 Capital Development proposal.
- Mairangi Bay Surf Lifesaving Club has existed in its current location for 70 years. The current membership comprises ~150 active lifeguards, over 500 Junior Surf children aged 6-14yrs and a further ~600 associate members. The building is well past its useful life and can no longer adequately cater for its membership and activities. A new building is therefore imperative to continue being able to serve the membership and community.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. **6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

- With regard to Question 1c, Auckland Council has a central proposal that recommends spending more where it is needed most. Surf Life Saving facilities are a critical component of our community. They have served as temporary welfare and community centres, as well as civil defence centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle. Mairangi Bay Surf Lifesaving Club volunteers rescued over 70 people in the Auckland Anniversary floods and did so operating out of storage shipping containers.
- Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is essential to ensure the continued operation of our clubs and the safety of beachgoers. The amount requested is minimal when compared to the benefit it will have for the region.

I use the train to go to and from work would like more covered platforms and seating at stations. No toilets at all stations. But the ones there are and usually reasonably clean.

Those awful raised crossings they are painful to drive over as I have chronic arthritis in my back. Ambulance journey is much slower too.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

I have never been to the stadium and know very little about it and it's facilities. Locals may prefer to keep some form of it such as sports areas.

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Not sure this is a great option. Selling airport shares means loss of potential income. Not sure how the lease of the Port would work and if the council will still earn much from the lease option. Not interested in stadium being built on wharf land waste of money.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

The NETR is probably one of the most successful programmes of work council is undertaking, in the most important area of protecting and enhancing the natural environment and taking positive climate action. It should be retained at the very least, if not enhanced, in recognition of the importance of our natural environment

Rates funded refuse collection penalises smaller households and those already minimising their waste to landfill to subsidise larger households and those not actively minimising waste.

It is likely to lead to perverse outcomes where MORE waste may end up in kerbside collections as people feel disincentivised

Pay as you throw is the fairest system

Raising the Waitakere Rural Sewage targeted rate is a blatant moneymaking scheme as the charges to pump out septic tanks are known to be less than the current rate as it is, let alone after the proposed increase - despite assuming council should be able to secure a very competitive rate. Households should be able to arrange their own tank pump outs (and save considerable money)- as they do elsewhere in Auckland. Non-compliance could be easily monitored by requesting households to provide proof of a pump out and/or access to contractor's records.

Fund Community organisations to support local programmes and initiatives

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less nonsensical expenditure (such as the plinth under Henry Atkinson’s state!)

**#7336**

But I have expectation that anyone at Council has any interest in listening to (or taking any notice of) the views of Auckland residents.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

I doubt that proper planning will be undertaken to actually need the needs of current and potential users.

### **2a. Is there anything you would spend more on?**

Small buses in local streets to connect to feeder routes to larger hubs. Small buses could be electric (less pollution), lighter (less wear/damage to roads) and much easier to navigate narrow streets.

### **2b. Is there anything you would spend less on?**

Raised pedestrian crossings (except those adjacent to schools) and especially those combined with traffic lights controlling the crossing (I.e. not at an intersection).  
Definitely that's daft!

## **3. Which options do you support for the North Harbour Stadium?**

Change the operational management

### **Tell us why:**

The community reports suggest that underutilisation is a result of poor management (pricing users out the option of using it)

**Tell us why:**

The airport shares are an asset for Auckland - don't sell them.

Explore other options to develop a future fund - there appears to be an one track mind intent on selling the airport shares!

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The Council doesn't appear to be operating the port as efficiently as it might be done (not surprising really given how inefficient many of our local council operations are run!)

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Makes more sense (any fund developed has to be managed well though - professionally)

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#7336

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Cannot change the wharf area until there are viable options in place to deal with shipping.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Cannot change the wharf area until there are viable options in place to deal with shipping.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

I do NOT support rates funded refuse collection for North Shore, Waitakere etc. Find a more efficient way for the user pays system to work (rather than the bin tags) but don't disincentivize waste reduction by hiding the cost of household rubbish collection in rates (rather than up front charges). User pays is much better for those who generate low refuse amounts.

Waitākere Ranges

## Waitākere Ranges Local Board Priorities

7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?

We have a unique area which needs both protection and careful planning of development.

More specifically, what do you think of each priority we've listed above?

Initiatives to support community resilience and safety.	I support all priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Very Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	Very Important
Operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru.	Fairly Important
Continue to activate library spaces with programmes, services and events.	Fairly Important
Operating grants to support Glen Eden and Titirangi Community Houses.	Fairly Important
Invest in our relationship with mana whenua, Te Kawerau ā Maki.	Very Important
Initiatives to support youth/rangatahi.	Fairly Important
Progress an application for Waitakere Ranges Heritage Area to become a dark sky place.	Very Important

Fairly Important

### 7c. What do you think of the Waitākere Ranges proposed priorities for the 10-year budget 2024-2034?

Ensuring our parks and assets are well looked after would be a good idea! In particular, sports fields are not uniformly cared for - resulting in some that are definitely 'poor cousins' in the care they are receiving (or NOT receiving,) compared to other local facilities.

The road intersection/rail crossing area in Glen Eden is extremely dangerous - that needs urgent attention!

### 8. Do you have any other comments?

I the WRLB try to do great work however they are hamstrung at times by Council staff that do not;

pass on relevant information

implement decisions made effectively

involve the Board in areas where their input would be helpful

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The council should do less, they are inefficient and the worst organisation to do more. Just look at the CRL disaster, you built a tunnel when the city was planned for trams, how insane is that.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7339**

The council needs to focus on its core purpose all the the woke and trendy items should be cut.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Again fix the roads and infrastructure

**2a. Is there anything you would spend more on?**

Road maintenance, clearing drains and fixing the water pipes.

**2b. Is there anything you would spend less on?**

Anything non-core related and stop spending any more on the CRL.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

you don't have any money for anything else.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Again you don't have any money.

**#7339**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Private funds would be more efficient. Limit the lease to 25 years with a ROR for 10 more years.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Because it's a better idea

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

The proposal is completely insane, you can't have "half a port".

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

I support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Fairly Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Very Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Very Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
