WMIF2002-139	Medsalv Limited	Validation equipment for pneumatic tourniquet reprocessing for Auckland hospitals	To create a process to collect, clean, disinfect, validate, then redistribute pneumatic tourniquets from hospitals in Auckland for surgeries. The project plan includes purchasing plant equipment, trials in hospitals, then roll outs.	\$12,802.00	as a contribution towards cost of leak testing equipment, validation and first year operations as outlined in the application	All
WMIF2002-117	Forward Marketing	RefillNZ making it easier to refill with free wai	To increase the number of RefillNZ sites at cafes, bars, etc. in Auckland for people to refill their water bottles, reducing plastic waste and encouraging behaviour change.	\$14,250.00	as a contribution towards project costs such as marketing, consultation, social media and co-ordination as outlined in the application	All excluding Great Barrier Island
WMIF2002-132	Naylor Love Auckland Limited	Timber pack tarps	To remove plastic wraps from construction goods (e.g. tools, timber) delivered to sites by using timber pack tarps that can be reused for transport of timber, as well as storage on sites to protect from weather damage, etc that can make it unusable.	\$3,745.00	as a contribution towards the purchase of tarps and signage as outlined in the application	All excluding Great Barrier, Hibiscus and Bays, Kaipātiki, Waitākere Ranges, Whau, Rodney and Franklin
WMIF2002-004	Edendale School	Edendale Compost Collective	To install a fast composting system (CarbonCycle composting 3 box system) to make compost for the school, reduce the community's fruit and vegetable waste and extend learning from school to home.	\$2,400.00	a contribution towards cost of one set of composting bin as outlined in the application	Albert-Eden
WMIF2002-031	Grow Space Trust	Composting Together - A Business and Local Community Collaboration	To develop a connected neighbourhood compost hub, located at Eden Park focused on shared learning and education with local business, schools and residents.	\$32,895.00	as a contribution towards project costs such as compost hub coordinator, data collection and analysis, workshops and composters outlined in the application	Albert-Eden
WMIF2002-100	Everybody Eats Charitable Trust	Everybody eats second permanent Auckland restaurant & food rescue	To launch Everybody Eats' second permanent restaurant and food rescue program in Auckland. The purpose of the project is to find a suitable location and establish a large commercial	\$50,000.00	as a contribution towards project costs as outlined in the application	Albert-Eden, Maungakiekie-Tāmaki, Ōrākei,
WMIF2002-045	Hauraki School	Vegetable garden at Hauraki School	To establish a school vegetable garden whereby students can develop an understanding of compost systems and also learn ways of preserving and fermenting to minimise food waste.	\$1,159.00	as a contribution towards the cost of hungry worm bins as outlined in the application	Devonport-Takapuna
WMIF2002-090	Belmont Primary School	Garden to table compost and worm farm project	To enable organic waste diversion and behaviour change to complement Garden to Table project. Year 4 students and volunteers currently harvest and cook vegetables, this will teach the community to reuse organic waste and reduce waste from landfill.	\$616.09	as a contribution towards the cost of compost tumbler and worm farm as outlined in the application	Devonport-Takapuna
WMIF2002-105	Kiwico Educare Limited	Sustainable practice in early childhood education	To purchase a Hungry Bin to start a worm farm at the ECE in Waiuku (Creative Garden) to divert organic waste from food to use in gardens and champion waste-related behaviour change.	\$654.00	as a contribution towards the cost of hungry bins and worm as outlined in the application	Franklin
WMIF2002-046	Tamaoho School	Building sustainable futures at Tamaoho School	To establish the collection of office and e-waste, paper recycling, worm farming, composting and a bokashi system at Tamaoho School.	\$2,173.91	as a contribution towards the cost of collection bins, bokashi bin and commercial hungry bin as outlined in the application	Franklin
WMIF2002-122	Envirokiwi Community Enterprise Limited	Soft plastics recycling for Aotea	To set up kerbside collection, sorting, baling and delivery of soft plastic from households and commercial sites on Aotea Great Barrier to be recycled at Future Post.	\$5,000.00	as a contribution towards the purchase of storage container and freight as outlined in the application	Great Barrier

Waste Minimisation and Innovation Fund: September 2020 Funding Round Successful Applications

Application ID	Organisation name	Project title	Project summary	Funding amount	Funding for:	Project local board
WMIF2002-085	Manutewhau Community Hub under the umbrella organization of Massey Matters Incorporated	Zero waste hub	To run a program to raise community awareness of Zero Waste principles and practices, followed by regular workshops to aid with education and sustainability practices for residents and visitors to the hub and the wider community.	\$2,869.56	as a contribution towards the cost of workshops and administration as outlined in the application	Henderson-Massey
WMIF2002-102	Massey High School	Composting station at school with a launch event	To introduce composting collection points and centralised station at Massey High School to be championed by the school environmental group, Kaitiaki Taiao. Compost will be used throughout the school gardens.	\$500.00	as a contribution towards the cost of compost bins as outlined in the application	Henderson-Massey
WMIF2002-151	Te Ukaipo Mercy Initiatives for Rangatahi Limited	Miro ngatahi	To empower communities of all ages and reduce textile waste to landfill with inclusive and accessible free sewing workshops. Partnering with two clothing wholesalers to provide off cut fabrics, as well as homeless shelters, food banks, and marae to supply finished goods, particularly masks, to vulnerable communities.	\$4,500.00	as a contribution towards the cost of resources and sewing tutor as outlined in the application	Henderson-Massey
WMIF2002-060	Giacon Terrazzo Limited	Recycling of marble and granite waste	To recycle and reuse the scrap marbles generated at marble and granite fabricators by crushing the material and turning it into terrazzo products.	\$13,695.00	as a contribution towards skip purchase as outlined in the application	Henderson-Massey
WMIF2002-012	Silverdale Kindergarten	Reducing organic waste from landfill	To continue to reduce organic waste from entering landfill and educating tamariki and whanau about organic waste, composting and zero waste lunch boxes.	\$679.30	as a contribution towards the cost of hungry worm bin, bokashi bin and compost tumbler as outlined in the application	Hibiscus and Bays
WMIF2002-002	Kaipātiki Project Incorporated	Para Kore / Zero Waste Northcote food waste reduction project – Phase One	To complement the existing Northcote Zero Waste Community Activation programme to lead community engagement, education and empowerment, and support community-led behaviour change to create closed loop/ circular systems to reduce waste going to landfill.	\$20,000.00	as a contribution towards the project delivery costs as outlined in the application	Kaipātiki
WMIF2002-110	Kauri Park School	School composting systems	To purchase and maintain three compost boxes at Kauri Park School to divert organic waste to landfill, provide compost to the school vegetable gardens.	\$4,455.01	as a contribution towards the cost of carboncycle compost system as outlined in the application	Kaipātiki
WMIF2002-141	Ara Education Charitable Trust	Ara Education Charitable Trust Housing Restoration Initiative	The purpose of this project to train students from five low decile, South Auckland schools at a deconstruction hub to renovate state houses that can be then re-sold to communities experiencing housing shortage instead of being demolished and sent to landfill.	\$33,484.63	as a contribution towards project costs such as site set up and tools as outlined in the application	Māngere-Ōtāhuhu and Manurewa
WMIF2002-035	Little Moas Early Learning Centre	Project Zero Waste at Little Moas	To buy cloth nappies to help towards goal of implementing waste minimisation strategies with the view to creating a model, making sustainable choices easy for other childcare centres, schools and families in our community to follow.	\$2,711.26	as a contribution towards the cost of cloth nappies as outlined in the application	Maungakiekie-Tāmaki
WMIF2002-126	CNSST Foundation	Compost and fertilize	To empower community networks and businesses to compost in CNSST community gardens through workshops.	\$5,000.00	as a contribution towards the cost of engagement and workshops with businesses in Panmure business area as outlined in the application	Maungakiekie-Tāmaki
WMIF2002-038	Ngati Whatua Orakei Whai Maia	Ngati Whatua Orakei - integrated waste minimisation plan and pilot	To purchase a composter to activate the kaupapa in the development of an integrated waste minimisation plan underpinned by Ngati Whatua Orakei cultural values, which includes education, community outreach and other equipment to support the project.	\$25,000.00	as a contribution towards the cost of labour, equipment, marketing and community education programme development as outlined in the application	Ōrākei
WMIF2002-137	The Food Hub Collective Limited	Whenua to Whenua	The purpose of the project is to establish a replicable model of local food resilience by reducing food waste and providing alternative options for the community to access good and affordable food. It aims to rescue food from supermarkets and establish a community composting hub that will offer a foodscraps collection service targeting commercial sectors in Papatoetoe. The compost from the hub will be used to maintain an edible garden which will then provide locally grown food back to the Food hub, creating a closed loop food system.	\$42,999.13	as a contribution towards project costs such as freezer, feasibility study and community engagement as outlined in the application	Ōtara-Papatoetoe
WMIF2002-138	The Bruce Pulman Park Trust	Waste minimisation/ park sustainability project	To install a commercial worm farm at the Bruce Pulman Park to educate and provide compost to the local schools and community and reduce waste to landfill.	\$1,964.00	as a contribution towards the cost of commercial worm farm as outlined in the application	Papakura
WMIF2002-018	Waikowhai Community Trust	Composters at Molly Green food forest	To implement a food forest at Molly Green reserve by composting and using the compost in the community garden for the use of local community.	\$1,040.00	as a contribution towards the cost of rotating compost tumblers as outlined in the application	Puketāpapa
WMIF2002-056	Critical Pixels Design Limited	Zero waste for corporate plastics - all plastic types	To take transform single-use plastics into durable multiple use products. The applicant needs the fund to introduce new technology to expand their production capability at 85 -120 tonnes per year.	\$45,000.00	as a contribution towards project costs such as press, oven, mould and installation as outlined in the application	Puketāpapa
WMIF2002-009	Te Hana Community Development	Para Kore Te Hana Marae and Community Initiative	Implementation of Para Kore principles and action into the everyday activities at Te Hana Te Ao Marama Marae. The goal is to elevate the relationship of waste, how it is created and disposed and the effect that these actions (positive or negative) can have on the natural environment in particular the Kaipara Harbour.	\$9,490.00	as a contribution towards project costs as outlined in the application	Rodney
WMIF2002-071	Wainui School	Breaker space	To establish e- waste programme to teach students about what e-Waste is, where e-Waste goes after its use, and the hazards e-Waste poses to humans.	\$1,706.28	as a contribution towards the cost of circuit education equipment, tools and safety equipment as outlined in the application	Rodney
WMIF2002-073	Mahurangi Wastebusters Trust	Community composting	To extend the composting trial from Matakana market to households and more business services by implementing a commercial composting service.	\$30,900.00	as a contribution towards project costs such as truck and compost boxes as outlined in the application	Rodney
WMIF2002-080	Hibiscus Coast Zero Waste	Marketing a commercial organics collection	To carry out a multi-prong marketing campaign through an approach that combines raising awareness of the rising Waste Levy, the Zero Carbon Zero Waste Program in Schools and promoting participating businesses for Doing the Right Thing.	\$25,000.00	a contribution towards the project costs such as marketing, labour, project management and research as outlined in the application	Rodney and Hibiscus and Bays
WMIF2002-029	Inspired Families Foundational Trust	Waste re-utilization parent-child activities	To reduce household waste by teaching children upcycling skills which will not only achieve waste reuse education but also be an outlet for enhancing parent-child relationships.	\$315.00	as a contribution towards the cost of tools and materials as outlined in the application	Upper Harbour
WMIF2002-094	Waiheke Island Toy Library Incorporated	Community waste minimisation - kids parties/events	To launch a range of party goods for hire at the Waiheke Toy Library, reducing waste from landfill and championing behaviour change.	\$5,000.00	as a contribution towards the cost of inventory for a waste minimising kids party pack as outlined in the application	Waiheke

Waste Minimisation and Innovation Fund: September 2020 Funding Round Successful Applications

Application ID	Organisation name	Project title	Project summary	Funding amount	Funding for:	Project local board
WMIF2002-158	Piritahi Marae Trust	Piritahi Māra Wairākau	To implement a project which delivers education and capability building for Piritahi Marae whanau to implement para kore by composting foodscraps onsite to produce compost for use in the Piritahi Māra Kai.	\$23,871.00	as a contribution towards project costs such as infrastructure, set up, wages and equipment excluding gardening components and compost collective workshops as outlined in the application	Waiheke
WMIF2002-104	Country Kids	Country Kids kaitiaki whenua whare project 2020-2025	To purchase and maintain a commercial worm farm for the ECE (Country Kids) and cafe (Pukeko Cafe).	\$1,500.00	as a contribution towards the cost of commercial worm farm as outlined in the application	Waitākere Ranges
WMIF2002-049	Rudolf Steiner School Titirangi Trust	Composting hub for regenerative localized development	To upgrade the existing systems to a carbon cycle system and will enable larger capacity by increasing the rate of the effective composting process to turn organic material into living soil to help regenerate and support the health and wellbeing of the local ecology.	\$5,000.00	as a contribution towards the purchase of box configuration compost system as outlined in the application	Waitākere Ranges
WMIF2002-022	Central Vineyard Church Charitable Trust	Towards a community hall with Zero Waste	To reduce all unnecessary waste and generate individual and community behaviour change through re-use of kitchenware (instead of single-use items) and composting of food waste.	\$1,995.00	as a contribution towards the cost of commercial dishwasher as outlined in the application	Waitematā
WMIF2002-092	Kelmarna Community Garden Trust	Soil Factory community composting - doubling our infrastructure capacity	The Soil Factory is expanding the community composting for the Grey Lynn/ Ponsonby residents at Kelmarna Gardens due to increase in demand. Expansion project requires purchase of an e-bike with trailer for local collections and three box composters to further reduce food waste to landfill and champion local behaviour change.	\$7,347.56	as a contribution towards the purchase of an e-bike and two compost boxes as outlined in the application	Waitematā
WMIF2002-145	For the Love of Bees Charitable Trust	Inner City Carbon Hub	To collect and process carbon rich organic waste materials from an inner-city precinct to divert from landfill and support existing and flourishing urban composting initiatives. Engagement with businesses and residents local to the Viaduct area regarding the potential regenerative applications of materials otherwise thought of as waste.	\$21,000.00	as a contribution towards the cost of shredder and retail container as outlined in the application	Waitematā
WMIF2002-150	AUT University	Organic waste collection across AUT's city campus	To reduce AUT's total waste to landfill by 50% by 2025 by collecting organic waste at 17 campuses.	\$4,000.00	as a contribution towards the cost of organic method bins as outlined in the application	Waitematā
WMIF2002-107	Green Bay High School	Waste Minimisation Project	To set up bay unit bins with sorted streams (rubbish, recycling, organic) to enable better waste diversion and composting opportunity. The school has existing vegetable gardens, chickens, etc. are already onsite which can complement food waste diversion.	\$4,500.00	as a contribution towards the cost of three bay recycling system units and installation as outlined in the application	Whau
