Reason:

Request 1 is Granted submission point 1429.1 is additionally allocated to Topic 015D Residential - Mixed Housing Urban zone as it is 'on' the topic.

The submission point seeks to retain standard H5.6.7 Height in Relation to boundary adjoining lower intensity Zones, proposed to be deleted from the Mixed Housing Urban (MHU) zone. While the requester was already heard under Topic 002 MDRS Response, the submission point is still relevant to the extent that there may be other, outstanding substantive matters i.e. relating to specific resource management effects, including interaction with the proposed Low Density Residential Zone and Special Character. Topic 015D will address the matter of MHU zone provisions and potential considerations around the appropriateness of the deletion of standard H5.6.7.
