Comment	Topic
BRING BACK THE OLD INORGANIC RUBBISH COLLECTION	Q1 Annual waste management changes
BRING IN PAY TO USE RUBBISH SACKS IN SHOPS FOR EXTRA RUBBISH PEOPLE CANT GET INTO THE USLESS RED BINS. THE HAVE THEM IN CLARKS BEACH... (part of the supercity)	Q1 Annual waste management changes
SCRAP THE ARTS BUDGET & PUT RUBBISH REFUGE CENTRES IN HANDY LOCATIONS ACROSS AUCKLAND	Q1 Annual waste management changes
GIVE ALL RATE PAYERS A TIP PASS	Q1 Annual waste management changes
stop spending our money on free entertainment. Scrap movies and music in parks is a good start. Council is there to use OUR money provide essential services to the city. Want to put on events, make sure they turn a profit.	Regional arts, culture & events
Absolutely not!!!! I have attended so many of the free events in the city - Diwali, Day of the dead Carnival, Christmas at Skycity, many of the movies at the silo park, and I loved them all!! They are one of my favourite things about living in this city - it really makes me feel like I'm part of a community, not just living in some soulless concrete jungle!!!	Regional arts, culture & events
No to 91 million for a cricket arena.. no to Eden park 120 million debt bailout no to stadium on Port of Auckland. Address needs first	Regional parks, sport & recreation
The petrol tax in AKL. That's what we have paid more for. What is the SLA to get this infrastructure completed. Takanini is a disaster. I dont use this every day but I know so many commuters do. Especially when AKL workers are travelling from South to AKL. When we personally go away south during holiday periods its not that good. I'm sure a lot of commuters just going too and from work in AKL every day feel the same.	Public transport - other
No to a super expensive rapidly deteriorating plastic tunnel under the harbour bridge, just build the bike lane (wider to avoid collisions) without the crappy plastic tube like other normal countries do and have done since forever. Less plastic is better too. Changing out an aged ugly plastic tube will again cost a fortune in 5 or 10 years time, bad economics building plastic stuff with the NZ UV levels. No to even more funds for Eden Park and Rugby which is a game without much of a future, more people play badminton and ACC don't get laden with life altering accidents from Badminton. Rugby is a full grown business and can pay their own stadium IMO.	Public transport infrastructure - new
Stop spending our money on useless projects! Billions to get a train up Queen St, New Zealanders walked it for a century? The green and red buses do a very good job? Could have paid half of the cost to get train to the Shore and save millions on congestion?	Public transport infrastructure - new
The proposed train line goes much further than just up and down Queen Street	Roads and footpaths - new
please bring back annual tip passes for ratepayers.	Q1 Annual waste management changes
More Fenced-in dog exercise areas please.	Bylaws
Invest in our public parks and help families keep active without breaking the bank and spend quality time with family	Regional parks, sport & recreation
I would like to make a suggestion on our Water Discussion Submissions. Currently you cant save your submission and return later - this would be very helpful to Aucklanders trying to have their say as the submission takes through and acreful consideration - which takes time - and currently havent to do it all in one go is quite an ask.	Governance and support
stop spending our money on free entertainment. Scrap movies and music in parks is a good start. Council is there to use OUR money provide essential services to the city. Want to put on events, make sure they turn a profit.	Focus on core services
No to even more funds for Eden Park and Rugby which is a game without much of a future, more people play badminton and ACC don't get laden with life altering accidents from Badminton. Rugby is a full grown business and can pay their own stadium IMO.	Regional parks, sport & recreation
#akhaveyoursay - Off Leah dog parks and beaches. Dogs are a big part of family's in NZ and we want to keep them safe as well as the community. These designated areas could also be great places for education for dog owners to help people make good choices for the future of there fur baby. Papakura we really need some dog parks!!!! Let's be the first area to be dog friendly in Auckland!!!!	Regional parks, sport & recreation
How do I make a submission against the plan to encroach on the harbour for the Americas Cup? I can't find it within the Have Your Say page. And if submissions finish tonight, then please take this as a submission AGAINST any further encroachments into the habour. For the future's sake.	Waterfront development
#aklbudget #akhaveyoursay #akhaveyoursay I would like Council to reconsider the On-Line Accomodation Provider Targetted Rate (APTR) Bands in the Annual Budget 2019/2020 such that the lower Banding is brought into line with the Inland Revenue Departments value of 100 booking nights being considered the threshold for Business / Commercial rating.	Other rating and funding comments
