Date: Tuesday, 9 April 2019

Annual Budget 2019/2020
Ōtara-Papatoetoe Local Board

WRITTEN FEEDBACK Vol. 1
(9 – 3920)
1. Changes to rates and fees

We are proposing a small number of rating and fee changes for 2019/2020.

These charges include:

- a $20.67 increase to the annual waste management charge to cover increased costs
- extending the food scraps targeted rate to 2,000 properties in the former North Shore trial area to whom the service is available
- phasing out the Waitakere rural sewerage service and targeted rate over a two-year period (2019/2020 - 2020/2021)
- adjusting the urban rating boundary to apply urban rates to 400 properties in recently urbanised areas (that receive the same services as their adjacent urban neighbours)
- not charging rates on some parts of the land owned by religious organisations, and
- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:
why can't we extend the food scraps targeted rate to South Auckland???

2. What is important to you?
Do you have any feedback on any other issues?
Yes, We need more quality parks in South Auckland!

3. Local Board information
Which local board(s) do you want to provide feedback to?
Otara-Papatoetoe

Otara-Papatoetoe Local Board feedback
In your opinion, are the priorities right for this local board area in 2019/2020?
Yes
Comments
Our community needs improvement on our Otara Town Centre big time!, M.I.T is phasing out in the next two years and our community wants and needs a proper supermarket but we are hearing things about panuku building residential units etc. We need more investments in local infrastructure, our parks, town centres.

Proposed 10 Year Budget Amendment
Panuku is Auckland Council's urban development agency and currently owns and manages about $790 million of city centre waterfront properties. We are proposing to transfer the legal ownership of those properties to Auckland Council. Panuku would continue to manage the properties. The resulting ownership structure would reduce governance duplication, increase consistency with other development areas and maximise future flexibility. The city centre waterfront properties are strategic assets so we want to know what you think of the proposal.

What is your opinion about this proposal?
Do not support
Panuku is already in the minds of the community and have a good rapport when having to do things. Leave it as it is.
1. Changes to rates and fees

We are proposing a small number of rating and fee changes for 2019/2020.

These charges include:

- a $20.67 increase to the annual waste management charge to cover increased costs
- extending the food scraps targeted rate to 2,000 properties in the former North Shore trial area to whom the service is available
- phasing out the Waitakere rural sewerage service and targeted rate over a two-year period (2019/2020 - 2020/2021)
- adjusting the urban rating boundary to apply urban rates to 400 properties in recently urbanised areas (that receive the same services as their adjacent urban neighbours)
- not charging rates on some parts of the land owned by religious organisations, and
- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:
I do not think it is fair to increase to $20.67 for the annual waste management charge. The standard bin of 120L is quite small and most people do not fill the bins to capacity. Extending the food scraps service is a good move - hope to see it in south auckland soon too. Rates should be charge on all parts of land owned by religious organisations. They get their money from tithes or the governing church, so why should they not pay. Increasing regulatory fees just makes it hard for people to build. I thought Auckland was screaming out for more houses - this will not make it any easier (as it is now).

2. What is important to you?

Do you have any feedback on any other issues?

Our streets in South Auckland look terrible with litter and gutters filled with debris. What has happened to our regular sweeping/vacuum trucks in our areas. Also the berms of Council land in South Auckland are a disgrace - why are they not mowed more regularly?

3. Local Board information

Which local board(s) do you want to provide feedback to?

Otara-Papatoetoe

Proposed 10 Year Budget Amendment

2. What is important to you?

Do you have any feedback on any other issues?

I am born and bred in Auckland I don't think in all my aged years I have ever seen such a leaderless shambles that the city is today. Decisions that appear to be beyond belief regarding issues such as stadiums, traffic, housing and poverty where individuals pursuit of their personal agendas confounds and disappoints. Obviously immigration unbridled and uncontrolled is the core of many issues but does not appear to be addressed.

We need some new changes

Auckland Council
Changes to rates and fees

We are proposing a small number of rating and fee changes for 2019/2020.

These charges include:

- A $20.67 increase to the annual waste management charge to cover increased costs
- Extending the food scraps targeted rate to 2,000 properties in the former North Shore trial area to whom the service is available
- Phasing out the Waitakere rural sewerage service and targeted rate over a two-year period (2019/2020 - 2020/2021)
- Adjusting the urban rating boundary to apply urban rates to 400 properties in recently urbanised areas (that receive the same services as their adjacent urban neighbours)
- Not charging rates on some parts of the land owned by religious organisations, and
- An increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:
I agree with all of these. The Food Scraps initiative I’d like to see extended to areas of greater population density, where lack of space discourages composting.

2. What is important to you?

Do you have any feedback on any other issues?

Transport and the continual state of catch-up we are in (not looking to blame council for this as it is a legacy of previous administrations and short-sighted rate payers). Fly-tipping and the seeming lack of prosecution of offenders. Do we need to encourage a form of Neighbourhood Watch in the worst-affected areas? Lack of management of new plantings in council parks. I see many trees that have simply died through lack of care, and therefore a waste to plant them in the first place.

3. Local Board information

Which local board(s) do you want to provide feedback to?

Otara-Papatoetoe

Otara-Papatoetoe Local Board feedback

In your opinion, are the priorities right for this local board area in 2019/2020?

Yes

Comments

I think the priorities are realistic. Not everything we might want but the pot is only so big.

Proposed 10 Year Budget Amendment

Panuku is Auckland Council’s urban development agency and currently owns and manages about $790 million of city centre waterfront properties. We are proposing to transfer the legal ownership of those properties to Auckland Council. Panuku would continue to manage the properties. Partially

Comments

Your included changes I can't see the benefit in my area

What youth initiatives would you like to see take place in our local board area?

ANYTHING you have NOTHING! I have moved and brought to this area from Central Auckland you have nothing for YOUTH to do, Just look at the following parks we go to and out of way to enjoy our time there, Grey Lynn Park Skate and Bike ramp, upgrade Basketball and Volleyball, Picnic Areas, More rubbish bins and a free paddle pool and more. Victoria Park an upgrade kids playground, way advanced basketball and hoop area also Bike and Skate park Better public toilets, I can name 5 parks in Papatoetoe and Mangere that have NONE of these! they don't even have a public rest room to use? No Dog bin for dog litter, barely any bins so that's why you see rubbish everywhere and the lawns barely mowed the parks are not kept up to standards

What support would you like to see to reduce local waste and increase recycling?

FINES! you need to go through bins and FINE residence you need to educate the difference in Recycle and Rubbish Putting a sticker on the bin is not enough you need to get out there and show people a dirty nappy in a Recycle bin yeah right its about educating people and name and shame send the landlords and tenants fines until they get it right!!!

Otara-Papatoetoe Local Board feedback

In your opinion, are the priorities right for this local board area in 2019/2020?

Partially
**Comments**

Same as what I said about Mangere above, Kohuora Park Papatoetoe is a total dump and waste not looked after and NOTHING to do waste of land space better used for more recreational use, Rubbish and Dumping is a serious issue and the Shop owners need to take responsibility the shops areas outside is littered with rubbish they need to be fine for being lazy

- Not charging rates on some parts of the land owned by religious organisations, and
- An increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:
Yes I agree with an increase to the annual waste management charge and would oppose user charges in this arena.

2. What is important to you?

Do you have any feedback on any other issues?

Agree with Freedom Campers Policy, Agree with Council extending the Contributions Policy, Agree with no sunday trading on Easter, Agree with the facility for Flatbush, agree with Otara Papatoetoe Green ways plan. More emphasis by ATEED to look at Maori Tourism and helping Develop Maori Economic Plan to get more Maori involved in Tourism by supporting Maori Small Businesses. Whaka eke noa should be given more relevance in the issuing of Contracts and a special emphasis should be given to Maori Businesses. Maori Social Procurement should be fully supported by organisations like ATEED, AT, Watercare and Regional Facility Orgainsation. By Supporting Maori Businesses you directly affect Maori negative Statistics. I would like the opportunity to speak to Councillors during this process.

Please tell us what you think about some or all of these changes:
Not keen on more rates increases but accept that costs for services also increase. Keep the overall rate increase to 2.5% and apply targeted rates where extra services are required. Targeted rates seem to be what the 1990's 'user pays' has evolved into.

2. What is important to you?

Do you have any feedback on any other issues?

Getting 'value for money' on rates spend.

3. Local Board information

Which local board(s) do you want to provide feedback to?

Otara-Papatoetoe and Rodney

Feedback

1. Changes to rates and fees

We are proposing a small number of rating and fee changes for 2019/2020.

These changes include:

- a $20.67 increase to the annual waste management charge to cover increased costs
- extending the food scraps targeted rate to 2,000 properties in the former North Shore trial area to whom the service is available
- phasing out the Waitakere rural sewerage service and targeted rate over a two-year period (2019/2020 - 2020/2021)
- adjusting the urban rating boundary to apply urban rates to 400 properties in recently urbanised areas (that receive the same services as their adjacent urban neighbours)
- not charging rates on some parts of the land owned by religious organisations, and
- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:
Assume if I am using a private waste management company (Waste Management) then this charge is NOT levied.

2. What is important to you?

Do you have any feedback on any other issues?

Rates indexed to property values. How does this reconcile with costs to provide services, or the services themselves. When property values decline (e.g. as is occurring in Australia) do rates come down. Suspect we have a one-way rates rort system in play here.

3. Local Board information

Which local board(s) do you want to provide feedback to?

Proposed 10 Year Budget Amendment

Panuku is Auckland Council's urban development agency and currently owns and manages about $790 million of city centre waterfront properties. We are proposing to transfer the legal ownership of those properties to Auckland Council. Panuku would continue to manage the properties. The resulting ownership structure would reduce governance duplication, increase consistency with other development areas and maximise future flexibility. The city centre waterfront properties are strategic assets so we want to know what you think of the proposal.

What is your opinion about this proposal?

Support

I would like to see the debate around Eden Park and a waterfront stadium resolved one way or the other NOW. We have been procrastinating and blowing hot air on this issue for years with no change in status. Includes relocating ports debate etc. Time to put a stake in the ground once and for all. Eden Park is leaking money, in large part due to farcical restrictions on use and onerous consenting process which renders Eden Park unworkable.

Please tell us what you think about some or all of these changes:

Fine

2. What is important to you?

Do you have any feedback on any other issues?

We have one of the best run companies running water for Auckland, compared to other regions, and need to NOT screw it up. Watercare should be praised for putting together the Super City’s water system - bringing the pieces into a whole. Not easy.

3. Local Board information

Which local board(s) do you want to provide feedback to?

Otara-Papatoetoe

Otara-Papatoetoe Local Board feedback

In your opinion, are the priorities right for this local board area in 2019/2020?

Partially

Comments

More education efforts aimed at conservation and pollution

The city centre waterfront properties are strategic assets so we want to know what you think of the proposal.

What is your opinion about this proposal?

Partially support

The entire Ports of Auckland should be moved out to reclaim this beautiful area for people and recreation and tourist activities - like Sydney. Move shipping to Tauranga for goodness sake. And why have big trucks drive through Parnell. Rediculous

Please tell us what you think about some or all of these changes:
I'm NOT in favour of the $20.67 annual waste management. I pay rates and feel that rates are too high, especially in AUCKLAND. Instead of building more homes in Auckland the council needs to stand firm and PRESSURE THE GOVERNMENT to build on the OUTSKIRTS of AK get more businesses, out that way so people don't have to commute back into AK. Pressure Government to build outside Auckland as the population and waste management is critical and no amount of $$$ will make Auckland landscape larger.

2. What is important to you?

Do you have any feedback on any other issues?

What's wrong with North Shore's current rural sewerage. If there's nothing wrong with it don't waste money on it.

What is your opinion about this proposal?

Partially support

If it's saving money for the tax payer in some way then yes. If Panuku urban development agency are not managing this properly then yes, but if all is going well don't! - Auckland council have enough on its plate without having to manage yet another complex project/area. You need to deal with the people sleeping on the street, help businesses but dealing with this issue.

We have no off leash area for dogs here. also many dogs are unregistered, so registered owners are bearing the brunt of costs.

Proposed 10 Year Budget Amendment
Panuku is Auckland Council's urban development agency and currently owns and manages about $790 million of city centre waterfront properties. We are proposing to transfer the legal ownership of those properties to Auckland Council. Panuku would continue to manage the properties. The resulting ownership structure would reduce governance duplication, increase consistency with other development areas and maximise future flexibility. The city centre waterfront properties are strategic assets so we want to know what you think of the proposal.

1. Changes to rates and fees

We are proposing a small number of rating and fee changes for 2019/2020.

These charges include:

- a $20.67 increase to the annual waste management charge to cover increased costs
- extending the food scraps targeted rate to 2,000 properties in the former North Shore trial area to whom the service is available
- phasing out the Waitakere rural sewerage service and targeted rate over a two-year period (2019/2020 - 2020/2021)
- adjusting the urban rating boundary to apply urban rates to 400 properties in recently urbanised areas (that receive the same services as their adjacent urban neighbours)
- not charging rates on some parts of the land owned by religious organisations, and
- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:
Fine with all except the North Shore and Waitakere items should be directed through localised engagement.

2. What is important to you?
Do you have any feedback on any other issues?
The engagement should have been localised to those who directly affected more so than in truly regional annual budget engagement.

3. Local Board information
Which local board(s) do you want to provide feedback to?

In your opinion, are the priorities right for this local board area in 2019/2020?
Yes

Comments
A good focus across the full local board area. Good to see destination playground at Hayman Park and continued LB support to Transform Manukau with a push on community facilities.

What is your opinion about this proposal?
AK HAVE YOUR SAY – Church Rates Issue

Feedback from Wesley Methodist Church, on behalf of

I would like to give feedback in favour of the proposal “to not charge rates on some parts of the land owned by religious organisations”.

Central government, since 1876, has recognised the contribution the Christian Churches have played in providing for the spiritual, social, educational and physical needs of not only their own parishioners, but all members of society willing to receive their assistance, by giving exemption from rates. In the Local Government (Rating) Act 2002 (the Act), central government again included non-rating of religious properties. I strongly believe that the Auckland Council should comply with the Local Government (Rating) Act 2002

I represent the Papatoetoe Wesley Methodist Church in the Auckland Council area. We have a Church and Hall that are used by an English speaking congregation as well as a separate Samoan Congregation. Our facilities are also made available for community use. We have a weekly Soup Kitchen providing meals to those who need it and companionship to those living on their own. Our facilities are used by the community and for the good of the community – e.g. for Girls Brigade, Communicare, Bowls club, Ezi-exercise, Floral Art groups and Probus. This is all part of being the Church in the 21st Century.

For most Churches, no private pecuniary profit is derived from any activities undertaken by the Church. This is certainly the case for Wesley Methodist Church.

Our church has a small office where a part time administrator plays a vital role in enabling the church activities to take place. This area should be non-rated as it serves no commercial purpose. Our church was alarmed that the council made an arbitrary decision, without consultation, to rate us 7% for an office that was only 1% of the area, was only staffed 15 hours a week, and was only there to serve the ongoing ministry of the church. We feel this approach, without proper consultation, was unacceptable. We believe the Council needs to consult with local church’s leadership before determining any charge of partial rates, to ensure that the facts are correct.

I strongly support the council’s plan to exempt religious organisations from rates, but reiterate my belief that religious organisations are already exempt from rates on most of their activities under the Local Government (Rating) Act 2002, and as the government interpreted it for over 100 years prior to that.

Refer: Local Government (Rating) Act 2002

Part I of Schedule I

Categories of non-ratable land. These include

Clause 9: Land used solely or principally –

(a) As a place of religious worship;
(b) For a Sunday or Sabbath school or other form of religious education and not used for private pecuniary profit.

Clause 21: Land used or occupied by or for the purposes of......(providing) free maintenance or relief of persons in need......

7 March 2019

To the Auckland Council,

Re: AK Have Your Say

We would like to comment in favour of the proposal to not charge rates on some parts of the land owned by religious organisations. While we consider that religious organisations already have these exemptions under the Local Government (Rating) Act 2002, nevertheless council officers have determined that their legal advice states otherwise.

We represent the St Pauls Otara Methodist Church in the Auckland Council area. Christian churches in our communities provide for the spiritual, social, educational and physical needs of not only their own parishioners but all members of society willing to receive their assistance. This has been consistently recognised by central government, since 1876, by way of an exemption from rates for properties by churches for the furtherance of their religious worship.

It needs to be stressed that the religious worship of a modern church involves far more than Sunday services and the observance of communion and baptism at ceremonies in the so called “sanctuary”. A modern church is first and foremost founded upon the concept of community, a place where people can gather, to worship, fellowship, learn and support others. A modern church building will reflect these various aspects of modern living, often incorporating spaces for fellowship around a meal. A large community church will naturally require a sizeable auditorium, supported by public meeting spaces, possibly a hall for kids programmes and Sunday school, offices for staff and substantial parking spaces (as required by council). To suggest that these are not all integral to the activities of the church, making some of them rateable, is to lack understanding of how a modern church functions.

Our facilities are also made available for community use, covering a wide range of activities such as Weddings, Funerals, Birthdays, Family gatherings, community fundraisings, car wash and other fundraisings. These uses are often not charged for or if they are they are not charged at commercial rates and provide a valuable community service. The unintended consequence of rating any of these activities will be that either the charges will need to be increased significantly, or churches will need to move out of the central city where they can occupy cheaper land. This will result in a decrease in churches in the very location that council is trying to re-populate.

We strongly support the council’s plan in relation to exemptions from rates for religious organisations.

- An increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.
Please tell us what you think about some or all of these changes:

I would instead decrease the frequency of rubbish collection instead inorder to not increase the cost. maybe collect every 10 days instead of every 7 days. People are already struggling to pay bills.

2. What is important to you?

Do you have any feedback on any other issues?

Foot path repair and pedestrian crossing safety is very poor in my area, there needs to be additional focus on these health and safety issues.

3. Local Board information

Which local board(s) do you want to provide feedback to?

Otara-Papatoetoe

Otara-Papatoetoe Local Board feedback

In your opinion, are the priorities right for this local board area in 2019/2020?

No

Comments

i dont think swimming pools need to be subsidized as it is attracting people from other districts who do not pay for it in their rates.

Proposed 10 Year Budget Amendment
Panuku is Auckland Council's urban development agency and currently owns and manages about $790 million of city centre waterfront properties. We are proposing to transfer the legal ownership of those properties to Auckland Council. Panuku would continue to manage the properties. The resulting ownership structure would reduce governance duplication, increase consistency with other development areas and maximise future flexibility. The city centre waterfront properties are strategic assets so we want to know what you think of the proposal.

What is your opinion about this proposal?

1. Changes to rates and fees

We are proposing a small number of rating and fee changes for 2019/2020.

These changes include:

- a $20.67 increase to the annual waste management charge to cover increased costs
- extending the food scraps targeted rate to 2,000 properties in the former North Shore trial area to whom the service is available
- phasing out the Waitakere rural sewerage service and targeted rate over a two-year period (2019/2020 - 2020/2021)
- adjusting the urban rating boundary to apply urban rates to 400 properties in recently urbanised areas (that receive the same services as their adjacent urban neighbours)
- not charging rates on some parts of the land owned by religious organisations, and
- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:

Support the proposal for church offices, halls, gyms etc to be 'non rateable'. Support for church ministers house to be 'non rateable' regardless of distance from main church and owned by the church. Tread carefully on commercial definition

2. What is important to you?

Do you have any feedback on any other issues?

3. Local Board information

Proposed 10 Year Budget Amendment

Panuku is Auckland Council's urban development agency and currently owns and manages about
$790 million of city centre waterfront properties. We are proposing to transfer the legal ownership of those properties to Auckland Council. Panuku would continue to manage the properties. The resulting ownership structure would reduce governance duplication, increase consistency with other development areas and maximise future flexibility. The city centre waterfront properties are strategic assets so we want to know what you think of the proposal.
