

Have your say on the proposed Beachwood Drive Playspace Development

The project is to develop a play space in the new sub-division behind Hatfields Beach, fulfilling a long running commitment. Takaro, council's draft play investment framework suggests that each community has safe walking/biking access to a play space.

Specifically:

- To create a play space within safe and easy walking/bike/scooter distance for the children of the neighbourhood
- To create a community focus/gathering space where children, parents and grandparents can get to know each other
- To get more people active more often.

The local community has been consulted on the idea of a play space in this park and some of the local children have participated in an on-site design session. This concept plan is the result of that work.

We are asking for feedback on the over-all layout of the play space and the individual items of play equipment.

Before providing your feedback, we recommend you read the supporting material available:
