TO Marc Dendale, Acting Manager, Planning Central/South

DATE 31 March 2025

SUBJECT Update requested to the Auckland Unitary Plan (Operative in Part 2016) (AUP)

Reason for update	Designation confirmed
Chapter(s)	Chapter K Designations – Auckland Transport AUPOIP GIS Viewer
Designation only	
Designation # 1851	Great South Road Upgrade (Drury Section) Auckland Transport
Locations:	Great South Road in Drury between Waihoehoe Road and the State Highway 1 Drury Interchange
Lapse Date	In accordance with section 184(1)(c) of the RMA, this designation shall lapse if not given effect to within 10 years from the date on which it is included in the AUP.
Purpose	To construct, operate and maintain upgrades to an arterial transport corridor and associated infrastructure
Changes to text (shown in underline and strikethrough)	New designation text in Auckland Transport South schedule and designation.
	Refer to Attachment B
Changes to diagrams	N/A
Changes to spatial data	Removal of Proposed Modification – Notice of Requirement layer. Replaced with designation boundary and
	notation (same extent as above).
	Refer to Attachment D
Attachments	Attachment A: Auckland Transport Supporting Growth South FTN Decision – this designation relates to South FTN NoR 2
	Attachment B: Updated Auckland Transport South schedule and new designation text 1851 Great South Road Upgrade (Drury Section) (strikethrough and underscore)
	Attachment C: Updated Auckland Transport South schedule and new designation text 1851 Great South Road Updgrade (Drury Section) (clean)

Dear Joy

NOTICE OF DECISION OF AUCKLAND TRANSPORT UNDER SECTION 172 OF THE RESOURCE MANAGEMENT ACT 1991

We refer to the recommendations of the Auckland Council Independent Hearing Commissioners in relation to the four Auckland Transport Notices of Requirement that comprise part of the South Frequent Transit Network Project:

- NoR 1 South Frequent Transit Network Great South Road FTN Upgrade
- NoR 2 South Frequent Transit Network Great South Road Upgrade (Drury Section)
- NoR 3 South Frequent Transit Network Takaanini FTN Weymouth, Alfriston and Great South Road Upgrades
- NoR 4 South Frequent Transit Network Takaanini FTN Porchester and Popes Road Upgrades

The Commissioners' recommendation was that the Notices of Requirement should be **confirmed** subject to conditions.

Pursuant to Section 172 of the Resource Management Act 1991, Auckland Transport accepts in part the Commissioners' recommendations in relation to the Notices of Requirement other than the conditions specifically addressed in the table below. This decision has been made in consultation with relevant experts.

The table sets out:

- The Commissioners' recommended conditions which are rejected or partially accepted, along with the reasons for our decision; and
- Other modifications that Auckland Transport has made to the conditions for consistency, clarity and ease of implementation.

Only those conditions that Auckland Transport has modified in response to the recommendations made by the Commissioners are outlined in the table below. All other conditions are otherwise accepted as recommended by the Commissioners.

Minor formatting and grammatical changes recommended by the Commissioners or Auckland Transport, where they have been adopted, have not been tracked.

A schedule of amendments that have been made to the proposed designation boundaries since the Closing Legal Submissions is attached in **Appendix A**. These include adjustments that were presented to the Commissioners following Closing Legal Submissions.

Complete sets of designation conditions are **attached** to this letter as **Appendices B – E**. Note that the condition numbering in the clean sets has been updated for clarity, but are otherwise consistent with the table below.

Yours sincerely

Jane Small

Group Manager, Property and Planning

Modifications made by Auckland Transport to conditions recommended by the Hearing Commissioners for the South Frequent Transit Network NoRs 1 – 4

Designation	Condition number	Modifications made by Auckland Transport to conditions recommended by the Hearing Commissioners (additions to conditions are in bold and <u>underlined</u> and rejections are in bold and <u>strikethrough</u>)	Reason for modifications
2 and 4	9	Outline Plan (c) Outline Plans shall include any management plan or plans that are relevant to the management of effects of those activities or Stage of Work, which may include: (x) Open Space Management Plan	Reject addition of 9(c)(x) to NoRs 2 and 4 – Auckland Transport considers that there is no effects-based justification for the inclusion of open spaces within NoRs 2 and 4 to Schedule 3 (see below). Accordingly, the Open Space Management Plan should only be included as part of the Outline Plan requirements for NoRs 1 and 3, and not on NoRs 2 and 4.
All	11	Stakeholder Communication and Engagement Management Plan (a) A SCEMP shall be prepared in consultation with relevant Stakeholders prior to the Start of Construction. The objectives of the SCEMP are is to identify how the public and Stakeholders will be engaged with throughout the Construction Works. (i) Ensure proactive communication and engagement with the public and all Stakeholders by identifying how the public and Stakeholders will be engaged with and kept informed about the intended timing and method of construction throughout the Construction Works; and (ii) Ensure that the Project provides the opportunity for all Stakeholders to provide input into detailed design process and responds effectively to feedback and complaints through the management plan process (Condition 10). (b) To achieve the objective, the SCEMP shall include: (iii) a list of Stakeholders; (iv) the contact details for the Project Liaison Person. These details shall be on the project website, or equivalent virtual information source, and prominently displayed at the main entrance(s) to the site(s); (v) methods and timing to engage with owners and occupiers whose access is directly affected; (vi) methods to communicate key project milestones and the proposed hours of construction activities including outside of normal working hours and on weekends and public holidays, to the parties identified in (b)(i) above; and linkages and cross-references to communication and engagement methods set out in other conditions and management plans where relevant. (vii) A record of the engagement with the parties identified in (b)(i) above including summaries of feedback, and the requiring authority's response to feedback; and. (ix) A record of any outcomes and actions undertaken in response to feedback, including changes to the detailed design.	Reject amendment to 11(a) and addition of 11(a)(i) - 11(a)(ii) - The Commissioners recommend changing the objective of the SCEMP to include multiple elements adding a reference to ensuring proactive engagement, ensuring a process for all stakeholders to provide input into detailed design and a response process for complaints received. While Auckland Transport acknowledges the intent of these changes, it rejects this recommendation because: • The SCEMP objective as drafted already requires an engagement framework to be proactively developed in consultation with relevant Stakeholders. This approach allows for an engagement approach to be developed that is appropriate for each specific community in question. • The Urban and Landscape Design Management Plan (ULDMP) already provides for the involvement of relevant stakeholders in the detailed design process. • The existing condition set already includes management plan requirements to ensure stakeholder feedback is incorporated where possible and that complaints are addressed as discussed further below¹. Reject addition of 11(b)(viii)-(ix) - The Commissioners recommend including requirements for Auckland Transport to maintain a record of engagement with parties, and the outcomes of this engagement. Auckland Transport rejects this addition because Condition 10 already requires that a summary of stakeholder feedback is submitted with its relevant management plan, alongside an explanation if feedback has not been implemented. Further, Condition 21 requires a record of complaints received about construction works to be kept, including measures on how complaints were addressed.
All	15	Urban and Landscape Design Management Plan (a) A ULDMP shall be prepared prior to the Start of Construction start of detailed design for a Stage of Work. The objective of the ULDMP(s) is to:	Reject amendment to clause 15(a) – The Commissioners recommend amending the timeframe for preparing the ULDMP to the start of detailed design instead of the Start of Construction. Auckland Transport rejects this amendment because the ULDMP is part of the process of detailed design and is informed by engagement with Manawhenua and relevant stakeholders, which occurs six months prior to the start of that process. ² In any event, the ULDMP must be provided as part of the Outline Plan of Works required to authorise construction as per Condition 8. Therefore, due to the combined condition requirements, the ULDMP is likely to be developed well in advance of start of construction.

Scrafton Primary Evidence at [35.30].
 Scrafton Primary Evidence at [22.6].

Designation	Condition number	Modifications made by Auckland Transport to conditions recommended by the Hearing Commissioners (additions to conditions are in bold and <u>underlined</u> and rejections are in bold and strikethrough)	Reason for modifications
All	15A	(a) To achieve the objective set out in Condition 15, the ULDMP(s) shall provide details of how the project: (i) is designed to integrate with the adjacent urban (or proposed urban) and landscape context, including the surrounding existing or proposed topography, urban environment (e.g. centres and density of built form), community facilities and urban (possible provides appropriate walking and cycling connectivity to, and interfaces with, existing or proposed adjacent land uses and, fincluding public transport infrestructure and walking and cycling facilities) cennections; (iii) promotes Provides for direct, convenient and legible active mode connections and for inclusive access (where appropriate); (iv) promotes a sense of personal safety by aligning with best practice guidelines, such as: A. Crime Prevention Through Environmental Design (CPTED) principles; B. Safety in Design (SID) requirements; and C. Maintenance in Design (MID) requirements and anti-vandalism/anti-graffiti measures. (v) has responded to matters identified through the Land use Integration Process (Condition 3). (b) The ULDMP shall be prepared in general accordance with: (i) Auckland Transport Surban Roads and Streets Design Guide or any subsequent updated version; (iii) New Zealand Transport Agency Landscape Guidelines: Bridging the Gap (2013) or any subsequent updated version; (iv) New Zealand Transport Agency Landscape Guidelines: Bridging the Gap (2013) or any subsequent updated version; and (v) Aucklands Urban Ngahere (Forest) Strategy or any subsequent updated version and including-and-Local-Board adopted-Urban Ngahere Action-Plans; and	Reject amendment to 15(a)(i) – The Commissioners recommend amending 15A(a)(i) to include provision for community facilities and educational facilities, on the basis these are "nodal points" in active mode urban environments. Auckland Transport does not consider that it is necessary to specify community facilities and educational facilities, as they are inherently included as part of the urban environment which the clause already applies to. Reject amendment to 15A(a)(ii) – The Commissioners recommend the deletion of "walking and cycling connections" due to potentially unintentional repetition. Auckland Transport acknowledges the Commissioners' observation that the wording has "a perhaps unintended circularity", but does not agree with its deletion. The intent is that the ULDMP provides details on how walking and cycling connections provided as part of the Project are intended to connect with existing or planned walking and cycling facilities adjacent to/beyond the project extent. Auckland Transport's revised wording addresses this nuance and addresses the circularity of the drafting. Reject amendment to 15A(iii) – The Commissioners recommend an addition to 15A(iii) to ensure direct, inclusive access is provided for. Auckland Transport does not consider that the proposed amendment is needed, because the provision for directness, convenience, and legibility of active mode connections is addressed through the guidelines and standards that the ULDMP is required to be prepared in accordance with listed at (b) ⁴ . Moreover, the clause as originally drafted is intended to promote inclusive access, which is more encompassing than directness, convenience, or legibility ⁵ . Accept amendment to 15A(b)(i) – The Commissioners recommend the inclusion of "or any subsequent version" to ensure consistency with the wording of other guidance documents. Auckland Transport accepts the addition of "or any subsequent updated version" as this is consistent with other ULDMP references to guidance documents to (b)(v) and addition of
All	15B	The ULDMP(s) shall include: (a) A concept plan – which depicts the overall landscape and urban design concept, and explain the rationale for the landscape and urban design proposals; (b) Developed design concepts, including principles for walking and cycling facilities and public transport; (c) Landscape and urban design details – that cover the following: (i) road design – elements such as intersection form, carriageway gradient and associated earthworks contouring including cut and fill batters and the interface with adjacent land uses and existing roads (including slip lanes), benching, spoil disposal sites, median width and treatment, roadside width and treatment;	Reject addition of 15B(c)(ix)(E) – The Commissioners recommend that provision for reinstatement of planting and signage be included for additional clarity. Auckland Transport considers that the addition of signage is not necessary as this is a non-exhaustive list, and on-site signage in many cases would be encompassed by "boundary features". Amendment by Auckland Transport to 15B(d)(i)(D) and (E) – to avoid duplication, Auckland Transport has amended clauses d(i)(D) and (E) as follows:

Designation	Condition number	Modifications made by Auckland Transport to conditions recommended by the Hearing Commissioners	Reason for modifications
		(additions to conditions are in bold and <u>underlined</u> and rejections are in bold and <u>strikethrough</u>)	
			Condition 14A and Schedule 1 to secure this outcome ⁶ . Auckland Transport does not consider that there is sufficient operational or design certainty at this stage of the Project design to specify the requirement for a signalised all-movements intersection in the Southmall access condition. Additional transport modelling undertaken on the signalised intersection form currently indicates significant traffic queues, and/or a need to remove the priority bus lanes to alleviate traffic queues, which would compromise the Project Objectives. Auckland Transport rejects the Commissioners' recommendation and reinstates the previous condition wording which referenced the turning movements that it is confident can be accommodated without significant adverse effects. To address the issues raised by the Commissioners, Auckland Transport has modified the condition to outline a range of considerations to inform the future design process for the intersection including signals, safety, bus lane operation, corridor efficiency, and property access issues on both sides of the road.
All	23	Construction Traffic Management Plan (CTMP) (a) A CTMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the CTMP is to avoid, remedy or mitigate, as far as practicable, adverse construction traffic effects. (b) To achieve this objective, the CTMP shall include: (i) methods to manage the effects of temporary traffic management activities on traffic; (ii) methods to manage the effects of temporary traffic movements, including any specific non-working or non-movement hours to manage vehicular and pedestrian traffic near Educational Facilities or to manage traffic congestion; (iv) site access routes and access points for heavy vehicles, the size and location of parking areas for plant, construction vehicles and the vehicles of workers and visitors; (v) identification of detour routes and other methods to ensure the safe management and maintenance of traffic flows, including public transport, pedestrians and cyclists; (vi) methods to maintain access to and within property and/or private roads where practicable, or to provide alternative arrangements when it will not be, including details of how access is managed for loading and unloading of goods. (vii) the management approach to loads on heavy vehicles, including covering loads of fine material, the use of wheel-wash facilities at site exit points and the timely removal of any material deposited or spilled on public roads; (viii) methods that will be undertaken to communicate traffic management measures to affected road users (e.g. residents/public/Stakeholders/emergency services); (ix) details of minimum network performance parameters during the construction phase, including any measures to monitor compliance with the performance parameters during the construction phase, including any measures to monitor compliance with the performance parameters during the construction phase, including any measures to monitor compliance with the performance parameters during the construction phase, including any measures to moni	Amendment by Auckland Transport to 23(b)(vi) — Auckland Transport noted in its closing legal submissions that submitter concerns regarding lack of consultation on CTMP matters has been resolved by an amendment to the CTMP condition to clarify that intent ⁷ . A subsequent memorandum ⁸ clarified the amendments were intended to apply to both landowners and occupiers. These amendments appear to have been omitted from the Commissioners' recommendation, and Auckland Transport considers it appropriate they be included on each designation, and confirms this was the intention.
All	27	New Zealand Guide to Temporary Traffic Management (April 2013) or any subsequent version. Schedule to a CNVMP	Amendment by Auckland Transport to 27(a) – Auckland Transport amends (a)
		 (a) A Schedule to the CNVMP (Schedule) shall be prepared prior to the Start of the Construction of an activity to which it relates by a Suitably Qualified Person, in consultation with the owners and occupiers of sites subject to the Schedule, when: (i) construction noise is either predicted or measured to exceed the noise standards in Condition 24, except where the exceedance of the LAeq criteria is no greater than 5 decibels and does not exceed: 	to provide additional clarity.

New Zealand Government

Appendix B – Auckland Transport's Modifications to NoR 1 conditions

[#### - Council to allocate] Great South Road FTN Upgrade

Designation Number	[XXXX]
Requiring Authority	Auckland Transport
Location	Great South Road between Manukau and Drury
Lapse Date	In accordance with section 184(1)(c) of the RMA, this designation shall lapse if not given effect to within 15 years from the date on which it is included in the AUP.

Purpose

To construct, operate and maintain upgrades to an arterial transport corridor and associated infrastructure.

Conditions

Abbreviations and definitions

Acronym/Term	Definition	
Activity sensitive to noise	Any dwelling, visitor accommodation, boarding house, marae, papakāinga, integrated residential development, retirement village, supported residential care, care centre, lecture theatre in a tertiary Education Facility, classroom in an Education Facility and healthcare facility with an overnight stay facility.	
AUP	Auckland Unitary Plan	
BPO or Best Practicable Option	Has the same meaning as in section 2 of the RMA 1991.	
CEMP	Construction Environmental Management Plan	
Certification of material changes to management plans	Confirmation from the Manager that a material change to a management plan has been prepared in accordance with the condition to which it relates.	
	A material change to a management plan shall be deemed certified:	
	(a) where the Requiring Authority has received written confirmation from the Manager that the material change to the management plan is certified; or	
	(b) 10 working days from the submission of the material change to the management plan where no written confirmation of certification has been received.	
CMP	Cultural Monitoring Plan	
CNVMP	Construction Noise and Vibration Management Plan	
CNVMP Schedule or Schedule	A schedule to the CNVMP	
Completion of Construction	When construction of the project (or part of the project) is complete and it is available for use.	
Confirmed Lizard Management Plan Areas	Areas recorded in the Identified Native Lizard Habitat Areas Schedule where the ecological values and effects have been confirmed through the lizard survey under Condition 31.	
Construction Works	Activities undertaken to construct the project excluding Enabling Works.	

Council	Auckland Council		
CTMP	Construction Traffic Management Plan		
Developer	Any legal entity that intends to master plan or develop land adjacent to the designation.		
Development Agency	Public entities involved in development projects.		
Educational Facility	Facility used for education to secondary level. Includes: (a) schools and outdoor education facilities; and (b) accommodation, administrative, cultural, religious, health, retail and communal facilities accessory to the above. Excludes: (a) care centres; and (b) tertiary education facilities.		
EIANZ Guidelines	Ecological Impact Assessment: EIANZ guidelines for use in New Zealand: terrestrial and freshwater ecosystems, second edition, dated May 2018.		
Enabling Works	Includes, but is not limited to, the following and similar activities: (a) geotechnical investigations (including trial embankments) (b) archaeological site investigations (c) formation of access for geotechnical investigations (d) establishment of site yards, site entrances and fencing (e) constructing and sealing site access roads (f) demolition or removal of buildings and structures (g) relocation of services; and (h) establishment of mitigation measures (such as erosion and sediment control measures, temporary noise walls, earth bunds and planting).		
HHMP	Historic Heritage Management Plan		
HNZPT	Heritage New Zealand Pouhere Taonga		
HNZPTA	Heritage New Zealand Pouhere Taonga Act 2014		
Identified Native Lizard Habitat Area	Means an area or areas of features of ecological value where the project ecologist has identified that the project will potentially have a moderate or greater level of ecological effect on native lizards, prior to implementation of impact management measures, as determined in accordance with the EIANZ guidelines.		
LMP	Lizard Management Plan		
Manager	The Manager – Resource Consents of the Auckland Council, or authorised delegate.		
Mana Whenua	Mana Whenua as referred to in the conditions are considered to be, but not limited to, the following (in no particular order), who at the time of Notice of Requirement expressed a desire to be involved in the project: (a) Te Ākitai Waiohua; (b) Ngai Tai ki Tāmaki; (c) Ngaati Te Ata Waiohua; (d) Ngaati Whanaunga; (e) Ngāti Tamaoho; (f) Ngāti Paoa Trust Board; (g) Te Ahiwaru Waiohua; (h) Ngāti Tamaterā; and		

	(i) Ngāti Maru.		
	(i) Ngāti Maru. Note: Other iwi not identified above may have an interest in the project and should be consulted		
Network Utility Operator	Has the same meaning as set out in section 166 of the RMA.		
NIMP	Network Integration Management Plan		
NUMP	Network Utilities Management Plan		
NOR	Notice of Requirement		
NZAA	New Zealand Archaeological Association		
OSMP	Open Space Management Plan		
Outline Plan	An outline plan prepared in accordance with section 176A of the RMA.		
Project Liaison Person	The person or persons appointed for the duration of the project's Construction Works to be the main point of contact for persons wanting information about the project or affected by the Construction Works.		
Protected Premises and Facilities (PPF)	Protected Premises and Facilities as defined in New Zealand Standard NZS 6806:2010: Acoustics – Road-traffic noise – New and altered roads.		
Requiring Authority	Has the same meaning as section 166 of the RMA and, for this designation is Auckland Transport.		
RMA	Resource Management Act 1991		
SCEMP	Stakeholder Communication and Engagement Management Plan		
Stakeholder	Stakeholders to be identified in accordance with Condition 5, which may include as appropriate:		
	(a) adjacent owners and occupiers;(b) adjacent business owners and operators;		
	(c) central and local government bodies;		
	(d) community groups;		
	(e) developers;		
	(f) development agencies;		
	(g) educational facilities; and		
	(h) Network Utility Operators.		
Stage of Work	Any physical works that require the development of an Outline Plan.		
Start of Construction	The time when Construction Works (excluding Enabling Works) start.		
Suitably Qualified Person	A person (or persons) who can provide sufficient evidence to demonstrate their suitability, experience and competence in the relevant field of expertise.		
TMP	Tree Management Plan		
ULDMP	Urban and Landscape Design Management Plan		

General conditions

1. Activity in General Accordance with Plans and Information

- (a) Except as provided for in the conditions below, and subject to final design and Outline Plan(s), works within the designation shall be undertaken in general accordance with the following in Schedule 1:
 - (i) the project description; and
 - (ii) concept plans.
- (b) Where there is inconsistency between:
 - (i) the project description and concept plans in Schedule 1 and the requirements of the following conditions, the conditions shall prevail;
 - (ii) the project description and concept plans in Schedule 1, and the management plans under the conditions of the designation, the requirements of the management plans shall prevail.

2. Project Information

- (a) A project website, or equivalent virtual information source, shall be established as soon as reasonably practicable, and within six months of the inclusion of this designation in the AUP.
- (b) All directly affected owners and occupiers shall be notified in writing as soon as reasonably practicable once the website or equivalent information source has been established. The project website or virtual information source shall include these conditions and shall provide information on:
 - (i) the status of the project;
 - (ii) anticipated construction timeframes;
 - (iii) contact details for enquiries;
 - (iv) the implications of the designation for landowners, occupiers and business owners and operators within the designation and where they can receive additional advice;
 - (v) a subscription service to enable receipt of project updates by email; and
 - (vi) when and how to apply for consent for works in the designation under section 176(1)(b) of the RMA.
- (c) At the start of detailed design for a Stage of Work, the project website or virtual information source shall be updated to provide information on the likely date for Start of Construction, and any Staging of Works.

3. Land Use Integration Process

- (a) The Requiring Authority shall set up a Land use Integration Process for the period between confirmation of the designation and the Start of Construction. The purpose of this process is to encourage and facilitate the integration of master planning and land use development activity on land directly affected or adjacent to the designation. To achieve this purpose:
 - (i) the Requiring Authority shall include the contact details of a nominated contact on the project website (or equivalent information source) required to be established by Condition (2)(b)(iii); and
 - (ii) the nominated contact shall be the main point of contact for a Developer or Development Agency wanting to work with the Requiring Authority to integrate their development plans or master planning with the designation.
- (b) At any time prior to the Start of Construction, the nominated contact will be available to engage with a Developer or Development Agency for the purpose of:
 - (i) responding to requests made to the Requiring Authority for information regarding design details that could assist with land use integration; and
 - (ii) receiving information from a Developer or Development Agency regarding master planning or land development details that could assist with land use integration.
- (c) Information requested or provided under Condition 3(b) above may include but not be limited to the following matters:
 - (i) design details including but not limited to:
 - A boundary treatment (e.g. the use of retaining walls or batter slopes);
 - B the horizontal and vertical alignment of the road (levels);
 - C potential locations for mid-block crossings;
 - D integration of stormwater infrastructure;
 - E traffic noise modelling contours; and
 - F outputs from flood modelling.
 - (ii) potential modifications to the extent of the designation in response to the information received through Condition 3(b)(ii);
 - (iii) a process for the Requiring Authority to undertake a technical review of or provide comments on any master planning or development proposal advanced by the Developer or Development Agency as it relates to integration with the project; and
 - (iv) details of how to apply for written consent from the Requiring Authority for any development proposal that relates to land that is within the designation under section 176(1)(b) of the RMA.
- (d) Where information is requested from the Requiring Authority and is available, the nominated contact shall provide the information unless there are reasonable grounds for not providing it.
- (e) The nominated contact shall maintain a record of the engagement between the Requiring Authority and Developers and Development Agencies for the period following the date in which this designation is included in the AUP through to the Start of Construction for a Stage of Work. The record shall include:
 - (i) details of any requests made to the Requiring Authority that could influence detailed design, the results of any engagement and, where such requests that could influence detailed design are declined, the reasons why the Requiring Authority has declined the requests; and
 - (ii) details of any requests to co-ordinate the forward work programme, where appropriate, with Development Agencies and Network Utility Operators.
- (f) The record shall be submitted to Council for information 10 working days prior to the Start of Construction for a Stage of Work

4. Early Childcare Centres

- (a) If the project is identified in a draft Regional Land Transport Plan that is released for public consultation, or funding is otherwise confirmed (whichever occurs first), the Requiring Authority shall begin engagement with the early childcare centres identified in Schedule 2 regarding the implementation of the projects.
- (b) For clarity, if the early childcare centre no longer exists then this condition shall not apply.

5. Stakeholder Communication and Engagement Design

- (a) At least six months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall identify:
 - (i) a list of Stakeholders;
 - (ii) a list of properties within the designation which the Requiring Authority does not own or have occupation rights to; and
 - (iii) methods to engage with Stakeholders and the owners and occupiers of properties identified in (a)(i) (ii) above.
- (b) A record of (a) shall be submitted to the Manager for information with an Outline Plan for the relevant Stage of Work.
- (c) The purpose of this identification and engagement design process is to inform future engagement processes during detailed design and construction phases for a Stage of Work.

6. Designation Review

The Requiring Authority shall within six months of Completion of Construction or as soon as otherwise practicable:

- (a) review the extent of the designation to identify any areas of designated land that it no longer requires for the on-going operation, maintenance or mitigation of effects of the project; and
- (b) give notice to the Manager in accordance with section 182 of the RMA for the removal of those parts of the designation identified above.

7. Lapse

In accordance with section 184(1)(c) of the RMA, this designation shall lapse if not given effect to within 15 years from the date on which it is included in the AUP.

8. Network Utility Operators and Auckland Council (Section 176 Approval)

- (a) Prior to the start of Construction Works, Network Utility Operators with existing infrastructure and Auckland Council in relation to parks located within the designation will not require written consent under section 176 of the RMA for the following activities:
 - (i) operation, maintenance and repair works;
 - (ii) minor renewal works to existing network utilities or parks necessary for the on-going provision or security of supply of network utility operations;
 - (iii) minor works such as new service connections; and
 - (iv) the upgrade and replacement of existing network utilities in the same location with the same or similar effects on the works authorised by the designation as the existing utility.
- (b) To the extent that a record of written approval is required for the activities listed above, this condition shall constitute written approval.

Pre-construction conditions

9. Outline Plan

- (a) An Outline Plan (or Plans) shall be prepared in accordance with section 176A of the RMA.
- (b) Outline Plans (or Plan) may be submitted in parts or in stages to address particular activities (e.g. design or construction aspects), or a Stage of Work of the project.
- (c) Outline Plans shall include any management plan or plans that are relevant to the management of effects of those activities or Stage of Work, which may include:
 - (i) Network Integration Management Plan;
 - (ii) Open Space Management Plan;
 - (iii) Urban and Landscape Design Management Plan;
 - (iv) Construction Environmental Management Plan;
 - (v) Construction Traffic Management Plan;
 - (vi) Construction Noise and Vibration Management Plan;
 - (vii) Historic Heritage Management Plan;
 - (viii) Lizard Management Plan;
 - (ix) Tree Management Plan; and
 - (x) Network Utilities Management Plan.

Flood Hazard

For the purpose of Condition 10:

- (a) AEP means Annual Exceedance Probability;
- (b) Existing Authorised Habitable Floor means the floor level of any room (floor) in a residential building which is authorised and exists at the time the outline plan is submitted, excluding a laundry, bathroom, toilet or any room used solely as an entrance hall, passageway or garage;
- (c) Flood Prone Area means a potential ponding areas that may flood in a 1% AEP event and commonly comprise of topographical depression areas. The areas can occur naturally or as a result of constructed features. Identification of a potential Flood Prone Area would be by an assessment of residual flood risk in a 1% AEP event (e.g. from blockage of the project stormwater network) on land outside and adjacent to the designation following the application of Conditions 10(a)(i)-(iv);
- (d) Maximum Probable Development is the design case for consideration of future flows allowing for development within a catchment that takes into account the maximum impervious surface limits of the current zone or if the land is zoned Future Urban in the AUP, the probable level of development arising from zone changes;
- (e) Pre-Project development means existing site condition prior to the project (including existing buildings and roadways); and
- (f) Post-Project development means site condition after the project has been completed (including existing and new buildings and roadways).

10. Flood Hazard

- (a) The project shall be designed to achieve the following flood risk outcomes beyond the boundary of the designation:
 - (i) no increase in flood levels in a 1% AEP event for Existing Authorised Habitable Floors that are already subject to flooding or have a freeboard less than 500mm:
 - (ii) no increase in flood levels in a 1% AEP for authorised community, commercial, industrial and network utility building floors existing at the time the Outline Plan is submitted that are already subject to flooding or have a freeboard less than 300mm;
 - (iii) maximum of 50mm increase in flood levels in a 1% AEP event outside and adjacent to the designation between the Pre-Project Development and Post-Project Development scenarios;
 - (iv) no increase of Flood Hazard Class for the main access to authorised habitable dwellings existing at time the Outline Plan is submitted. The assessment shall be undertaken for the 1% AEP rainfall event and reference the hazard class in accordance with Schedule 3 to these conditions; and
 - (v) no new flood prone areas.
- (b) Compliance with this condition shall be demonstrated in the Outline Plan, which shall include flood modelling of the Pre-Project Development and Post-Project Development 1% AEP flood levels (for Maximum Probable Development land use and including climate change).
- (c) Where:
 - (i) the flood risk outcomes in (a) can be achieved through alternative measures outside of the designation such as flood stop banks, flood walls, raising Existing Authorised Habitable Floor level and new overland flow paths; or
 - (ii) the outcomes are varied at a specific location(s) through agreement with the relevant landowner.

confirmation shall be provided to the Manager that any necessary landowner and statutory approvals have been obtained for that alternative measure or varied outcome.

11. Existing property access

Prior to submission of the Outline Plan, consultation shall be undertaken with landowners and occupiers whose vehicle access to their property will be altered by the project. The Outline Plan shall demonstrate how safe reconfigured or alternate access will be provided, unless otherwise agreed with the affected landowner. This condition does not apply to business-zoned land.

12. Existing business property access

- (a) Prior to submission of the Outline Plan, consultation shall be undertaken with landowners and occupiers whose vehicle access to their property will be altered by the project.
- (b) Where vehicle access to a property within business-zoned land will be altered by the project, the Outline Plan shall demonstrate how safe access will be provided that:
 - (i) maintains and promotes the safe, effective, and efficient operation of the transport network;
 - (ii) recognises the role and function of all accesses including for loading and unloading of goods to the site; and
 - (iii) subject to achieving (i), also provides effective and efficient access to the site where practicable.
- (c) Where an alternative outcome has been agreed that does not comply with Condition 12(b), the Outline Plan shall provide details of the alternative outcome and how the safe, effective, and efficient operation of the transport network will be maintained.

Advice note: Condition 12 does not affect Auckland Transport's ability to exercise its statutory Road Controlling Authority powers to modify traffic or parking controls.

13. Management Plans

- (a) Any management plan shall:
 - (i) be prepared and implemented in accordance with the relevant management plan condition;
 - (ii) be prepared by a Suitably Qualified Person(s);
 - (iii) include sufficient detail relating to the management of effects associated with the relevant activities and/or Stage of Work to which it relates.
 - (iv) be submitted as part of an Outline Plan pursuant to section 176A of the RMA, with the exception of SCEMPs and CNVMP Schedules; and
 - once finalised, uploaded to the project website or equivalent virtual information source.
- (b) Any management plan developed in accordance with Condition 13 may:
 - (i) be submitted in parts or in stages to address particular activities (e.g. design or construction aspects) a Stage of Work of the project, or to address specific activities authorised by the designation;
 - (ii) except for material changes, be amended to reflect any changes in design, construction methods or management of effects without further process;
- (c) Information shall be submitted with the management plan (or revised plan as referred to in (d) below) which summarises outcomes of consultation and any input received from Mana Whenua and Stakeholders as required by the relevant management plan condition. The summary shall note how this input has been incorporated or reflected in the management plan, or if not, the reasons why;
- (d) If there is a material change required to a management plan which has been submitted with an Outline Plan, the revised part of the plan shall be submitted to the Manager as an update to the Outline Plan or for Certification as soon as practicable following identification of the need for a revision; and
- (e) Any material changes to the SCEMPs are to be submitted to the Manager for information.

14. Stakeholder Communication and Engagement Management Plan (SCEMP)

- (a) A SCEMP shall be prepared in consultation with relevant Stakeholders prior to the Start of Construction. The objective of the SCEMP is to identify how the public and Stakeholders will be engaged with throughout the Construction Works.
- (b) To achieve the objective, the SCEMP shall include:
 - (i) a list of Stakeholders;
 - (ii) the contact details for the Project Liaison Person. These details shall be on the project website, or equivalent virtual information source, and prominently displayed at the main entrance(s) to the site(s);
 - (iii) methods and timing to engage with owners and occupiers whose access is directly affected;
 - (iv) methods to communicate key project milestones and the proposed hours of construction activities including outside of normal working hours and on weekends and public holidays, to the parties identified in (b)(i) above; and
 - (v) linkages and cross-references to communication and engagement methods set out in other conditions and management plans where relevant.
- (c) Any SCEMP prepared for a Stage of Work shall be submitted to the Manager for information a minimum of 10 working days prior to the Start of Construction for a Stage of Work.

15. Cultural Advisory Report

- (a) At least six months prior to the start of detailed design for a Stage of Work, Mana Whenua shall be invited to prepare a Cultural Advisory Report for the project. The objective of the Cultural Advisory Report is to assist in understanding and identifying ngā taonga tuku iho ('treasures handed down by our ancestors') affected by the project, to inform their management and protection.
- (b) To achieve the objective, the Requiring Authority shall invite Mana Whenua to prepare a Cultural Advisory Report that:
 - (i) identifies the cultural sites, landscapes and values that have the potential to be affected by the construction and operation of the project;
 - (ii) sets out the desired outcomes for management of potential effects on cultural sites, landscapes and values;
 - (iii) identifies traditional cultural practices within the area that may be impacted by the project;
 - (iv) identifies opportunities for restoration and enhancement of identified cultural sites, landscapes and values within the project area;
 - (v) taking into account the outcomes of (i) to (iv) above, identify cultural matters and principles that should be considered in the development of the ULDMP referred to in Condition 19, HHMP referred to in Condition 30 and the CMP referred to in Condition 24; and
 - (vi) identifies and (if possible) nominates traditional names along the project alignment. Noting there may be formal statutory processes outside the project required in any decision-making.
- (c) The desired outcomes for management of potential effects on cultural sites, landscapes and values identified in the Cultural Advisory Report shall be discussed with Mana Whenua and those outcomes reflected in the relevant management plans where practicable; and
- (d) Conditions 15(a) and (b) above will cease to apply if:
 - (i) Mana Whenua have been invited to prepare a Cultural Advisory Report by a date at least six months prior to start of Construction Works; and
 - (ii) Mana Whenua have not provided a Cultural Advisory Report within six months prior to start of Construction Works.

16. Network Integration Management Plan (NIMP)

- (a) At least six months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall prepare, in collaboration with other relevant road controlling authorities, a NIMP. The objective of the NIMP is to identify how the project will integrate with the planned transport network in the Takaanini growth area to achieve an effective, efficient and safe land transport system.
- (b) To achieve this objective, the NIMP shall include details of the:
 - (i) project implementation approach and any staging of the project, including both design, management and operational matters; and
 - (ii) sequencing of the project with the planned transport network, including both design, management and operational matters.

17. Mana Whenua Kaitiaki Forum

- (a) At least 12 months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall invite Mana Whenua to establish a Mana Whenua Kaitiaki Forum. The objective of the Mana Whenua Kaitiaki Forum is to provide a forum for Mana Whenua to participate as partners in all phases of the project.
- (b) To achieve the objective, the Mana Whenua Kaitiaki Forum shall address (as a minimum) the following matters:
 - (i) how Mana Whenua will provide input into the design of the project. For example:
 - A how Mana Whenua values and narrative are incorporated through the form of the project and associated structures;
 - B how pou, art, sculptures, mahi toi or any other features located on land within or adjoining the project will be provided in a manner that represents the Māori history of the area and promotes a distinctiveness or sense of place;
 - (ii) how Mana Whenua will be engaged in the preparation of management plans and future consenting processes;
 - (iii) how mātauranga Māori and tikanga Māori will be recognised in all phases of the project;
 - (iv) where opportunities for Mana Whenua to participate in engagement with local communities, business associations, social institutions and community groups will be provided;
 - (v) where opportunities for Mana Whenua to support the physical, mental, social and economic wellbeing for iwi and the local community will be provided through the project. This could include:
 - A planting supplied through Mana Whenua and community based nurseries;
 - B local schools being involved in planting; and
 - C scholarships, cadetships and job creation.
 - (vi) the Requiring Authority shall provide reasonable resourcing, technical and administrative support for Mana Whenua including organising meetings at a local venue and the taking and dissemination of meeting minutes;
 - (vii) the frequency of meetings shall be agreed between the Requiring Authority and Mana Whenua; and
 - (viii) prior to the Start of Construction, the Requiring Authority shall produce a record of the Mana Whenua Kaitiaki Forum. The record of the Mana Whenua Kaitiaki Forum shall be provided to Mana Whenua and shall include (but not be limited to):
 - A details of how Mana Whenua have participated as partners in the project;
 - B details of how the matters set out in (b) will be incorporated into the project;
 - C how the objective of the Mana Whenua Kaitiaki Forum has been and will continue to be met; and
 - D details of how comments from Mana Whenua have been incorporated into the project and where not incorporated, the reasons why.
- (c) Mana Whenua shall be invited to identify and (if possible) nominate traditional names across the project such as for bridge structures. Noting there may be formal statutory processes outside the project required in any decision making.
- (d) The Mana Whenua Kaitiaki Forum shall continue to meet for at least six months following Completion of Construction or as agreed with Mana Whenua.

18. Open Space Management Plan (OSMP) An OSMP shall be prepared prior to the Start of Construction for a Stage of Work for the open spaces listed in Schedule 4. (b) Auckland Council Parks shall be invited to participate in the development of the OSMP at least six months prior to the start of detailed design for a Stage of Work. The objective of the OSMP is to minimise as far as practicable adverse effects of (c) the project on the functions of the open spaces listed in Schedule 4. To achieve the objective, the OSMP shall include details of: (d) how the ongoing operation of and access (including walking and cycling) to (i) those open spaces during construction will be maintained in accordance with the CTMP (Condition 25); opportunities to coordinate the forward work programme for those open (ii) spaces where appropriate with Auckland Council Parks: (iii) measures to reasonably maintain the existing level of service of the affected open space; and how comments from Auckland Council Parks have been incorporated in the (iv) OSMP, and where comments have not been incorporated, the reasons why. **Urban and Landscape Design Management Plan (ULDMP)** 19. (a) A ULDMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the ULDMP(s) is to: enable integration of the project's permanent works into the surrounding (i) landscape and urban context; and ensure that the project manages potential adverse landscape and visual (ii) effects as far as practicable and contributes to a quality urban environment. (b) Mana Whenua shall be invited to participate in the development of the ULDMP(s) to provide input into relevant cultural landscape and design matters including how desired outcomes for management of potential effects on cultural sites, landscapes and values identified and discussed in accordance with the Cultural Advisory Report (Condition 15) and/or through the Mana Whenua Kaitiaki Forum (Condition 17) may be reflected in the ULDMP. Relevant Stakeholders shall be invited to participate in the development of the (c) ULDMP at least six months prior to the start of detailed design for a Stage of Work.

20. (a) To achieve the objective set out in Condition 19, the ULDMP(s) shall provide details of how the project:

- (i) is designed to integrate with the adjacent urban (or proposed urban) and landscape context, including the surrounding existing or proposed topography, urban environment (e.g. centres and density of built form), natural environment, landscape character and open space zones;
- (ii) provides appropriate walking and cycling connectivity to, and interfaces with, existing or proposed adjacent land uses (including public transport and walking and cycling facilities);
- (iii) promotes inclusive access (where appropriate);
- (iv) promotes a sense of personal safety by aligning with best practice guidelines, such as:
 - A Crime Prevention Through Environmental Design (CPTED) principles;
 - B Safety in Design (SID) requirements; and
 - C Maintenance in Design (MID) requirements and anti-vandalism/anti-graffiti measures.
- (v) has responded to matters identified through the Land use Integration Process (Condition 3); and
- (b) The ULDMP shall be prepared in general accordance with:
 - (i) Auckland Transport's Urban Roads and Streets Design Guide or any subsequent updated version;
 - (ii) New Zealand Transport Agency Urban Design Guidelines: Bridging the Gap (2013) or any subsequent updated version;
 - (iii) New Zealand Transport Agency Landscape Guidelines (2013) or any subsequent updated version;
 - (iv) New Zealand Transport Agency P39 Standard Specification for Highway Landscape Treatments (2013) or any subsequent updated version; and
 - (v) Auckland's Urban Ngahere (Forest) Strategy or any subsequent updated version.

21. The ULDMP(s) shall include:

- (a) A concept plan which depicts the overall landscape and urban design concept, and explain the rationale for the landscape and urban design proposals;
- (b) Developed design concepts, including principles for walking and cycling facilities and public transport;
- (c) Landscape and urban design details that cover the following:
 - (i) road design elements such as intersection form, carriageway gradient and associated earthworks contouring including cut and fill batters and the interface with adjacent land uses and existing roads (including slip lanes), benching, spoil disposal sites, median width and treatment, roadside width and treatment;
 - (ii) roadside elements such as lighting, fencing, wayfinding and signage;
 - (iii) architectural and landscape treatment of all major structures, including bridges and retaining walls;
 - (iv) architectural and landscape treatment of noise barriers;
 - (v) landscape treatment and planting of permanent stormwater control wetlands and swales;
 - (vi) integration of passenger transport;
 - (vii) pedestrian and cycle facilities including paths, road crossings and dedicated pedestrian/ cycle bridges or underpasses;
 - (viii) historic heritage places with reference to the HHMP (Condition 30); and
 - (ix) re-instatement of construction and site compound areas; and
 - (x) features disturbed during construction and intended to be reinstated such as:
 - A boundary features;
 - B driveways;
 - C accessways; and
 - D fences.
- (d) The ULDMP shall also include the following planting and maintenance details:
 - (i) planting design details including:
 - A identification of existing trees and vegetation that will be retained with reference to the TMP and LMP. Where practicable, mature trees and native vegetation should be retained:
 - B street trees, shrubs and ground cover suitable for the location;
 - C treatment of fill slopes to integrate with adjacent land use, streams, riparian margins and open space zones;
 - D identification of any planting requirements under the LMP (Condition 32) and TMP (Condition 33);
 - E integration of any planting required by conditions of any resource consents for the project; and
 - F re-instatement planting of construction and site compound areas as appropriate.
 - (ii) a planting programme including the staging of planting in relation to the construction programme which shall, as far as practicable, include provision for planting within each planting season following completion of each Stage of Work; and
 - (iii) detailed specifications relating to the following:
 - A weed control and clearance;

В	pest animal management (to support plant establishment);
С	ground preparation (top soiling and decompaction);
D	mulching; and
E	plant sourcing and planting, including hydroseeding and grassing, and use of eco-sourced species.

Construction conditions

22. Construction Environmental Management Plan (CEMP)

- (a) A CEMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the CEMP is to set out the management procedures and construction methods to be undertaken to, avoid, remedy or mitigate any adverse effects associated with Construction Works as far as practicable.
- (b) To achieve the objective, the CEMP shall include:
 - (i) the roles and responsibilities of staff and contractors;
 - (ii) details of the site or project manager and the Project Liaison Person, including their contact details (phone and email address);
 - (iii) the Construction Works programmes and the staging approach, and the proposed hours of work;
 - (iv) details of the proposed construction yards including temporary screening when adjacent to residential areas;
 - (v) details of the proposed construction lighting;
 - (vi) methods for controlling dust and the removal of debris and demolition of construction materials from public roads or places;
 - (vii) methods for providing for the health and safety of the general public;
 - (viii) measures to mitigate flood hazard effects such as siting stockpiles out of floodplains, minimising obstruction to flood flows, actions to respond to warnings of heavy rain;
 - (ix) procedures for incident management;
 - (x) location and procedures for the refuelling and maintenance of plant and equipment to avoid discharges of fuels or lubricants to watercourses;
 - (xi) measures to address the storage of fuels, lubricants, hazardous and/or dangerous materials, along with contingency procedures to address emergency spill response(s) and clean up;
 - (xii) procedures for responding to complaints about Construction Works; and
 - (xiii) methods for amending and updating the CEMP as required.

23. Complaints Process

- (a) At all times during Construction Works, a record of any complaints received about the Construction Works shall be maintained. The record shall include:
 - (i) the date, time and nature of the complaint;
 - (ii) the name, phone number and address of the complainant (unless the complainant wishes to remain anonymous);
 - (iii) measures taken to respond to the complaint (including a record of the response provided to the complainant) or confirmation of no action if deemed appropriate;
 - (iv) the outcome of the investigation into the complaint; and
 - (v) any other activities in the area, unrelated to the project that may have contributed to the complaint, such as non-project construction, fires, traffic accidents or unusually dusty conditions generally.
- (b) A copy of the complaints record required by this condition shall be made available to the Manager upon request as soon as practicable after the request is made.

24. Cultural Monitoring Plan (CMP)

- (a) Prior to the Start of Construction, a CMP shall be prepared by a Suitably Qualified Person(s) identified in collaboration with Mana Whenua. The objective of the CMP is to identify methods for undertaking cultural monitoring to assist with management of any cultural effects during Construction Works.
- (b) To achieve the objective, the CMP shall include:
 - (i) requirements for formal dedication or cultural interpretation to be undertaken prior to start of Construction Works in areas identified as having significance to Mana Whenua;
 - (ii) requirements and protocols for cultural inductions for contractors and subcontractors;
 - (iii) identification of activities, sites and areas where cultural monitoring is required during particular Construction Works;
 - (iv) identification of personnel to undertake cultural monitoring, including any geographic definition of their responsibilities; and
 - (v) details of personnel to assist with management of any cultural effects identified during cultural monitoring, including implementation of the Accidental Discovery Protocol.
- (c) If Enabling Works involving soil disturbance are undertaken prior to the Start of Construction, an Enabling Works CMP shall be prepared by a Suitably Qualified Person identified in collaboration with Mana Whenua. This plan may be prepared as a standalone Enabling Works CMP or be included in the main Construction Works CMP.

Advice Note: Where appropriate, the CMP shall align with the requirements of other conditions of the designation and resource consents for the project which require monitoring during Construction Works.

25. Construction Traffic Management Plan (CTMP)

- (a) A CTMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the CTMP is to avoid, remedy or mitigate, as far as practicable, adverse construction traffic effects.
- (b) To achieve this objective, the CTMP shall include:
 - (i) methods to manage the effects of temporary traffic management activities on traffic;
 - (ii) measures to ensure the safety of all transport users;
 - (iii) the estimated numbers, frequencies, routes and timing of traffic movements, including any specific non-working or non-movement hours to manage vehicular and pedestrian traffic near Educational Facilities or to manage traffic congestion;
 - (iv) site access routes and access points for heavy vehicles, the size and location of parking areas for plant, construction vehicles and the vehicles of workers and visitors;
 - identification of detour routes and other methods to ensure the safe management and maintenance of traffic flows, including public transport, pedestrians and cyclists;
 - (vi) methods to maintain access to and within property and/or private roads where practicable, or to provide alternative arrangements when it will not be, including details of how access is managed for loading and unloading of goods. Engagement with landowners and occupiers whose access is directly affected shall be undertaken in accordance with Condition 14(b)(iii);
 - (vii) the management approach to loads on heavy vehicles, including covering loads of fine material, the use of wheel-wash facilities at site exit points and the timely removal of any material deposited or spilled on public roads;
 - (viii) methods that will be undertaken to communicate traffic management measures to affected road users (e.g. residents/ public/ Stakeholders/ emergency services);
 - (ix) details of minimum network performance parameters during the construction phase, including any measures to monitor compliance with the performance parameters; and
 - (x) details of any measures proposed to be implemented in the event of thresholds identified in (ix) being exceeded.
- (c) Auditing, monitoring and reporting requirements relating to traffic management activities shall be undertaken in accordance with the New Zealand Guide to Temporary Traffic Management (April 2013) or any subsequent version.

26. Construction Noise Standards

(a) Construction noise shall be measured and assessed in accordance with NZS6803:1999 Acoustics – Construction Noise and shall comply with the noise standards set out in the following table as far as practicable:

Table 26-1 Construction Noise Standards

Day of week	Time period	L _{Aeq(15min)}	L _{AFmax}				
Occupied activity sensitive to noise							
Weekday	0630h - 0730h	55 dB	75 dB				
	0730h - 1800h	70 dB	85 dB				
	1800h - 2000h	65 dB	80 dB				
	2000h - 0630h	45 dB	75 dB				
Saturday	0630h - 0730h	45 dB	75 dB				
	0730h - 1800h	70 dB	85 dB				
	1800h - 2000h	45 dB	75 dB				
	2000h - 0630h	45 dB	75 dB				
Sunday and Public	0630h - 0730h	45 dB	75 dB				
Holidays	0730h - 1800h	55 dB	85 dB				
	1800h - 2000h	45 dB	75 dB				
	2000h - 0630h	45 dB	75 dB				
Other occupied buildings							
All	0730h – 1800h	70 dB					
	1800h – 0730h	75 dB					

⁽b) Where compliance with the noise standards set out in Table 26-1 is not practicable, the methodology in Condition 29 shall apply.

27. Construction Vibration Standards

(a) Construction vibration shall be measured in accordance with ISO 4866:2010 Mechanical vibration and shock – Vibration of fixed structures – Guidelines for the measurement of vibrations and evaluation of their effects on structures and shall comply with the vibration standards set out in the following table as far as practicable.

Table 27-1 Construction Vibration Standards

Receiver	Details	Category A	Category B
Occupied activities sensitive to noise	Night-time 2000h - 0630h	0.3mm/s ppv	2mm/s ppv
	Daytime 0630h - 2000h	2mm/s ppv	5mm/s ppv
Other occupied buildings	Daytime 0630h - 2000h	2mm/s ppv	5mm/s ppv
All other buildings	At all other times	Tables 1 and 3 of DIN4150-3:1999	

(b) Where compliance with the vibration standards set out in Table 27-1 is not practicable, the methodology in Condition 29 shall apply.

28. Construction Noise and Vibration Management Plan (CNVMP)

- (a) A CNVMP shall be prepared by a Suitably Qualified and Experienced Person prior to the Start of Construction for a Stage of Work. A CNVMP shall be implemented during the Stage of Work to which it relates. The objective of the CNVMP is to provide a framework for the development and implementation of the Best Practicable Option for the management of construction noise and vibration effects to achieve the construction noise and vibration standards set out in Conditions 26 and 27 to the extent practicable.
- (b) To achieve the objective, the CNVMP shall be prepared in accordance with Annex E2 of the New Zealand Standard NZS6803:1999 'Acoustics Construction Noise' (NZS6803:1999) and shall as a minimum, address the following:
 - (i) description of the works and anticipated equipment/processes;
 - (ii) hours of operation, including times and days when construction activities would occur:
 - (iii) the construction noise and vibration standards for the project;
 - (iv) identification of receivers where noise and vibration standards apply;
 - (v) a hierarchy of management and mitigation options, including any requirements to limit night works and works during other sensitive times, including Sundays and public holidays as far as practicable;
 - (vi) methods and frequency for monitoring and reporting on construction noise and vibration;
 - (vii) procedures for communication and engagement with nearby residents and Stakeholders, including notification of proposed construction activities, the period of construction activities, and management of noise and vibration complaints;
 - (viii) contact details of the Project Liaison Person;
 - (ix) procedures for the regular training of the operators of construction equipment to minimise noise and vibration as well as expected construction site behaviours for all workers;
 - (x) procedures and requirements for the preparation of a Schedule to the CNVMP (Schedule) for those areas where compliance with the noise Condition 26 and/or vibration standards Condition 27 Category B will not be practicable;
 - (xi) identification of trigger levels for undertaking building condition surveys, which shall be Category B day time levels;
 - (xii) procedures and trigger levels for undertaking building condition surveys before and after works to determine whether any cosmetic or structural damage has occurred as a result of construction vibration:
 - (xiii) methodology and programme of desktop and field audits and inspections to be undertaken to ensure that CNVMP, Schedules and the Best Practicable Option for management of effects are being implemented; and
 - (xiv) requirements for review and update of the CNVMP.

29. Schedule to a CNVMP

- (a) A Schedule to the CNVMP (Schedule) shall be prepared prior to the Start of Construction of an activity to which it relates by a Suitably Qualified Person, in consultation with the owners and occupiers of sites subject to the Schedule, when:
 - (i) construction noise is either predicted or measured to exceed the noise standards in Condition 26 except where the exceedance of the L_{Aeq} criteria is no greater than 5 decibels and does not exceed:
 - A 0630 2000: 2 periods of up to 2 consecutive weeks in any 2 months, or
 - B 2000 0630: 1 period of up to 2 consecutive nights in any 10 days.
 - (ii) construction vibration is either predicted or measured to exceed the Category B standard at the receivers in Condition 27.
- (b) The objective of the Schedule is to set out the Best Practicable Option measures to manage noise and/or vibration effects of the construction activity beyond those measures set out in the CNVMP.
- (c) To achieve the objective, the Schedule shall include details such as:
 - (i) construction activity location, start and finish dates;
 - (ii) the nearest neighbours to the construction activity;
 - (iii) the predicted noise and/or vibration level for all receivers where the levels are predicted or measured to exceed the applicable standards and predicted duration of the exceedance;
 - (iv) for works proposed between 2000h and 0630h, the reasons why the proposed works must be undertaken during these hours and why they cannot be practicably undertaken during the daytime;
 - (v) the proposed mitigation options that have been selected, and the options that have been discounted as being impracticable and the reasons why;
 - (vi) the consultation undertaken with owners and occupiers of sites subject to the Schedule, and how consultation has and has not been taken into account; and
 - (vii) location, times and types of monitoring.
- (d) The Schedule shall be submitted to the Manager for Certification at least five working days (except in unforeseen circumstances) in advance of Construction Works that are covered by the scope of the Schedule and shall form part of the CNVMP.
- (e) The CNVMP Schedule shall be deemed certified five working days from the submission of the CNVMP Schedule where no written confirmation of Certification has been received.
- (f) Where material changes are made to a Schedule required by this condition, the Requiring Authority shall consult the owners and/or occupiers of sites subject to the Schedule prior to submitting the amended Schedule to the Manager for Certification in accordance with (d) above. The amended Schedule shall document the consultation undertaken with those owners and occupiers, and how consultation outcomes have and have not been taken into account.

30. Historic Heritage Management Plan (HHMP)

- (a) A HHMP shall be prepared in consultation with Council, HNZPT and Mana Whenua prior to the Start of Construction for a Stage of Work. The objective of the HHMP is to protect historic heritage and to remedy and mitigate any residual effects as far as practicable.
- (b) To achieve the objective, the HHMP shall identify:
 - (i) any adverse direct and indirect effects on historic heritage sites and measures to appropriately avoid, remedy or mitigate any such effects, including a tabulated summary of these effects and measures;
 - (ii) methods for the identification and assessment of potential historic heritage places within the designation to inform detailed design;
 - (iii) known historic heritage places and potential archaeological sites within the designation, including identifying any archaeological sites for which an Archaeological Authority under the HNZPTA will be sought or has been granted;
 - (iv) any unrecorded archaeological sites or post-1900 heritage sites within the designation, which shall also be documented and recorded;
 - (v) roles, responsibilities and contact details of project personnel, Council and HNZPT representatives, Mana Whenua representatives, and relevant agencies involved with heritage and archaeological matters including surveys, monitoring of Construction Works, compliance with AUP accidental discovery rule, and monitoring of conditions;
 - (vi) specific areas to be investigated, monitored and recorded to the extent these are directly affected by the project;
 - (vii) the proposed methodology for investigating and recording post-1900 historic heritage sites (including buildings) that need to be destroyed, demolished or relocated, including details of their condition, measures to mitigate any adverse effects and timeframe for implementing the proposed methodology, in accordance with the HNZPT Archaeological Guidelines Series No.1: Investigation and Recording of Buildings and Standing Structures (November 2018, or any subsequent version;
 - (viii) methods to acknowledge cultural values identified through the Mana Whenua Kaitiaki Forum (Condition 17) and CAR (Condition 15) where archaeological sites also involve ngā taonga tuku iho (treasures handed down by our ancestors) and where feasible and practicable to do so:
 - (ix) methods for avoiding, remedying or mitigation adverse effects on historic heritage places and sites within the designation during Construction Works as far as practicable. These methods shall include, but are not limited to:
 - A security fencing or hoardings around historic heritage places to protect them from damage during construction or unauthorised access:
 - B measures to mitigate adverse effects on historic heritage sites that achieve positive historic heritage outcomes such as increased public awareness and interpretation signage; and
 - C training requirements and inductions for contractors and subcontractors on historic heritage places within the designation, legal obligations relating to accidental and/or unexpected discoveries, the AUP Accidental Discovery Rule (E11.6.1). The training shall be undertaken prior to the Start of Construction, under the guidance of a Suitably Qualified Person and Mana Whenua representatives (to the extent the training relates to cultural values identified under Condition 15 and Condition 17).

Advice Note:

The requirements for accidental discoveries of heritage items are set out in Rule E11.6.1 of the AUP

31. Pre-Construction Lizard Survey

- (a) At the start of detailed design for a Stage of Work, an updated survey of native lizards and their habitat in the locations shown in Schedule 5 shall be undertaken by a Suitably Qualified Person. The purpose of the survey is to inform lizard management by:
 - (i) confirming whether the native lizards of value within the locations shown in Schedule 5 are still present; and
 - (ii) confirming whether the project will or may have a moderate or greater level of ecological effect on native lizards of value in those locations, prior to implementation of impact management measures, as determined in accordance with the EIANZ guidelines.
- (b) If the survey confirms the presence of native lizards of value in accordance with Condition 31(a)(i) and that effects are likely in accordance with Condition 31(a)(ii) then a Lizard Management Plan (or Plans) shall be prepared in accordance with Condition 32 for these areas (Confirmed Lizard Management Plan Areas).

32. Lizard Management Plan (LMP)

- (a) A LMP shall be prepared for any Confirmed Lizard Management Plan Areas (in accordance with Condition 31) prior to the Start of Construction for a Stage of Work. The objective of the LMP is to minimise effects of the project on native lizards of value in Confirmed Lizard Management Plan Areas as far as practicable.
- (b) To achieve the objective, the LMP shall set out the methods which may include:
 - (i) a description of the methodology and timing for survey, trapping and relocation of native lizards rescued;
 - (ii) a description of the relocation site(s), including:
 - A any measures to ensure the relocation site is suitable protected and remains viable (e.g. covenants, consent notices etc.);
 - B any measures to ensure the relocation site is suitably managed to ensure appropriate habitat for native lizards (e.g. provision of additional refugia, weed and pest management); and
 - (iii) any proposed monitoring of relocation sites if necessary to evaluate translocation success.
- (c) The LMP shall be consistent with any native lizard management measures to be undertaken in compliance with conditions of any regional resource consents granted for the project.

Advice Note:

Depending on the potential effects of the project, the regional consents for the project may include the following monitoring and management plans:

- (i) stream and/or wetland restoration plans:
- (ii) vegetation restoration plans; and
- (iii) fauna management plans (eg avifauna, bats).

33. Tree Management Plan (TMP)

- (a) Prior to the Start of Construction for a Stage of Work, a TMP shall be prepared. The objective of the TMP is to avoid, remedy or mitigate effects of construction activities on trees identified in Schedule 6.
- (b) To achieve the objective, the TMP shall:
 - (i) confirm that the trees listed in Schedule 6 still exist; and
 - (ii) demonstrate how the design and location of project works has avoided, remedied or mitigated any effects on any tree listed in Schedule 6. This may include:
 - A planting to replace trees that require removal (with reference to the ULDMP planting design details in Condition 21);
 - B tree protection zones and tree protection measures such as protective fencing, ground protection and physical protection of roots, trunks and branches: and
 - C methods for work within the rootzone of trees that are to be retained in line with accepted arboricultural standards.

34. Network Utilities Management Plan (NUMP)

- (a) A NUMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the NUMP is to set out a framework for protecting, relocating and working in proximity to existing network utilities.
- (b) To achieve the objective, the NUMP shall include methods to:
 - (i) provide access for maintenance at all reasonable times, or emergency works at all times during construction activities;
 - (ii) protect and where necessary, relocate existing network utilities;
 - (iii) manage the effects of dust and any other material potentially resulting from construction activities and able to cause material damage, beyond normal wear and tear to overhead transmission lines in the project area;
 - (iv) demonstrate compliance with relevant standards and Codes of Practice including, where relevant, the NZECP 34:2001 New Zealand Electrical Code of Practice for Electrical Safe Distances 2001; AS/NZS 4853:2012 Electrical hazards on Metallic Pipelines; and AS/NZS 2885 Pipelines – Gas and Liquid Petroleum.
- (c) The NUMP shall be prepared in consultation with the relevant Network Utility Operators(s) who have assets that are directly affected by the project.
- (d) The development of the NUMP shall consider opportunities to coordinate future work programmes with other Network Utility Operator(s) during detailed design where practicable.
- (e) The NUMP shall describe how any comments from the Network Utility Operator in relation to its assets have been addressed.
- (f) Any comments received from the Network Utility Operator shall be considered when finalising the NUMP.
- (g) Any amendments to the NUMP related to the assets of a Network Utility Operator shall be prepared in consultation with that asset owner.

Operational conditions

35.	Low	Low Noise Road Surface		
			oncrete surfacing (or equivalent low noise road surface) shall be implemented nonths of Completion of Construction of the project.	
36.	Future Resurfacing Work			
	(a) Any future resurfacing works of the project shall be undertaken in accordance with the Auckland Transport Reseal Guidelines, Asset Management and Systems 2 or any updated version and asphaltic concrete surfacing (or equivalent low nois road surface) shall be implemented where:		Auckland Transport Reseal Guidelines, Asset Management and Systems 2013 my updated version and asphaltic concrete surfacing (or equivalent low noise	
		(i)	the volume of traffic exceeds 10,000 vehicles per day; or	
		(ii)	the road is subject to high wear and tear (such as cul de sac heads, roundabouts and main road intersections); or	
		(iii)	it is in an industrial or commercial area where there is a high concentration of truck traffic; or	
		(iv)	it is subject to high usage by pedestrians, such as town centres, hospitals, shopping centres and schools.	
	(b)	advis the r surfa	to commencing any future resurfacing works, the Requiring Authority shall se the Manager if any of the triggers in Condition 36(a)(i) – (iv) are not met by oad or a section of it and therefore where the application of asphaltic concrete acing (or equivalent low noise road surface) is no longer required on the road or ction of it. Such advice shall also indicate when any resealing is to occur.	

Attachments

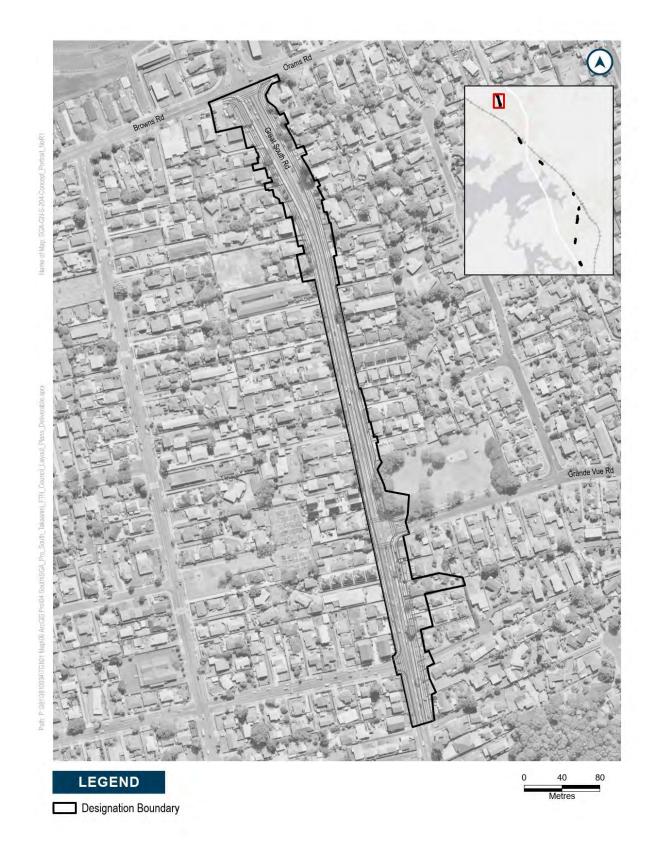

Schedule 1: General accordance plans and information

Project Description

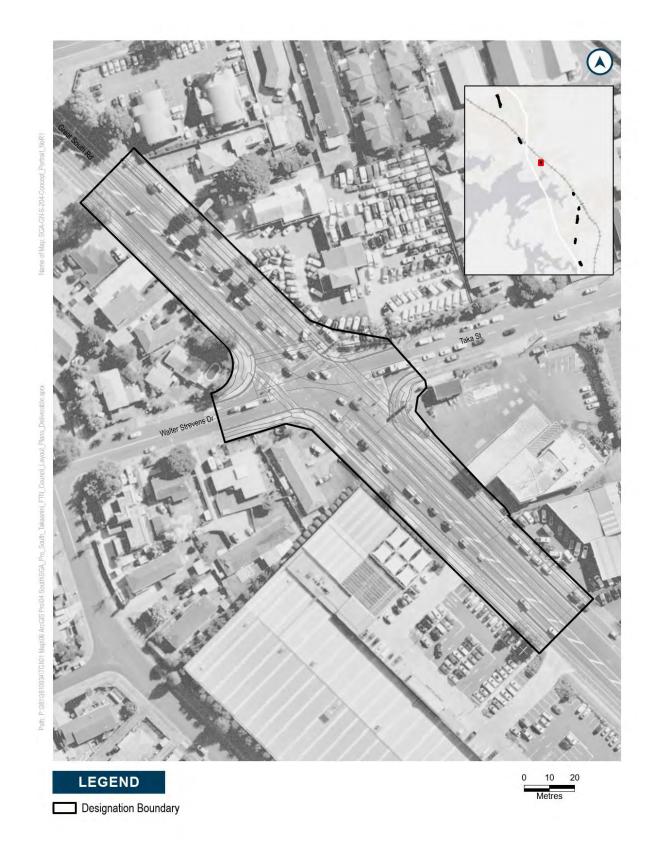

The proposed work is for the construction, operation, maintenance of upgrades to Great South Road between Manukau and Drury. The proposed work is shown in the following Concept Plans and includes:

- a) Upgrades to Great South Road to accommodate bus priority measures, general traffic lanes, and walking and cycling facilities in eight locations;
- b) Associated works including intersections, bridges, embankments, retaining walls, culverts, and stormwater management systems;
- c) Reconfiguration of local roads, where the proposed work intersects with local roads; and
- d) Construction activities including vegetation removal, establishment of construction areas and the regrading of driveways.

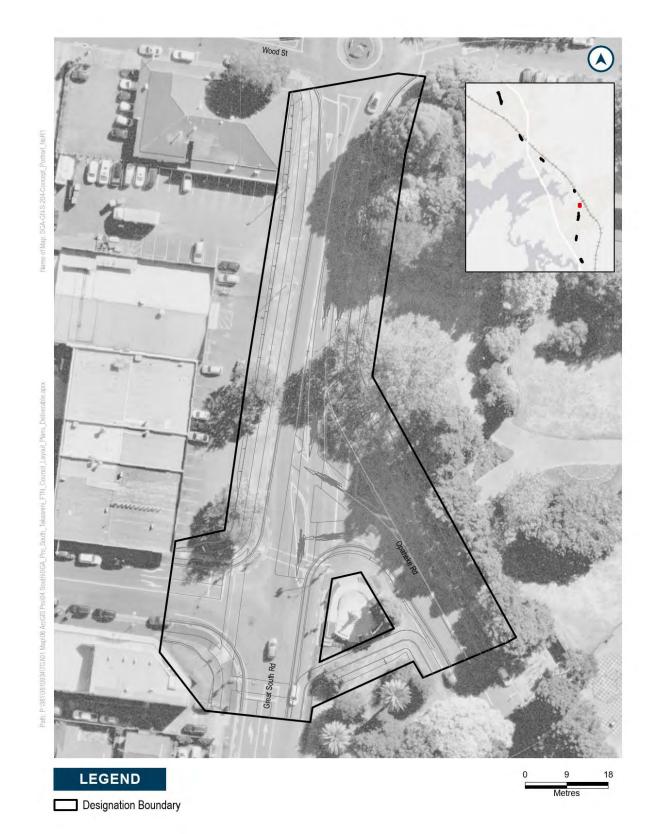

Concept Plans

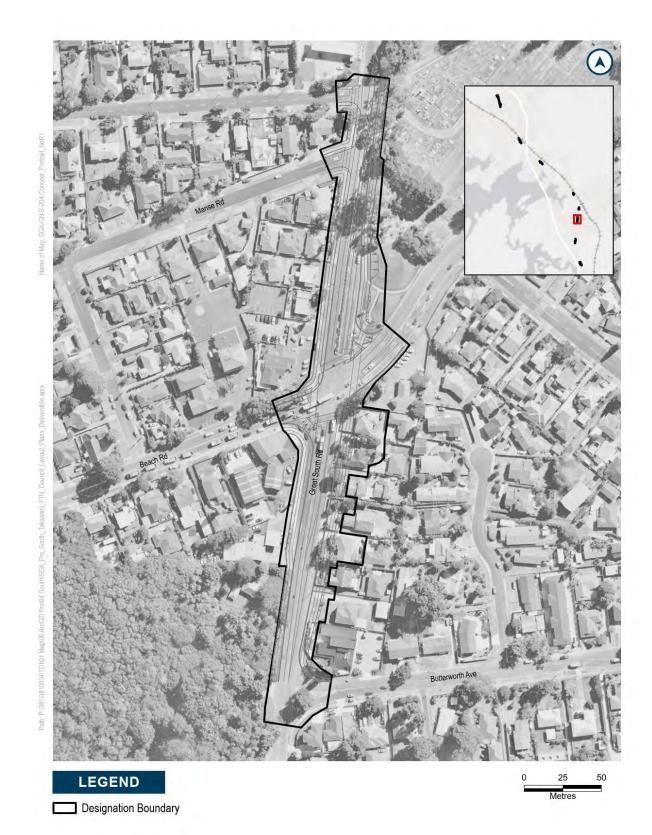

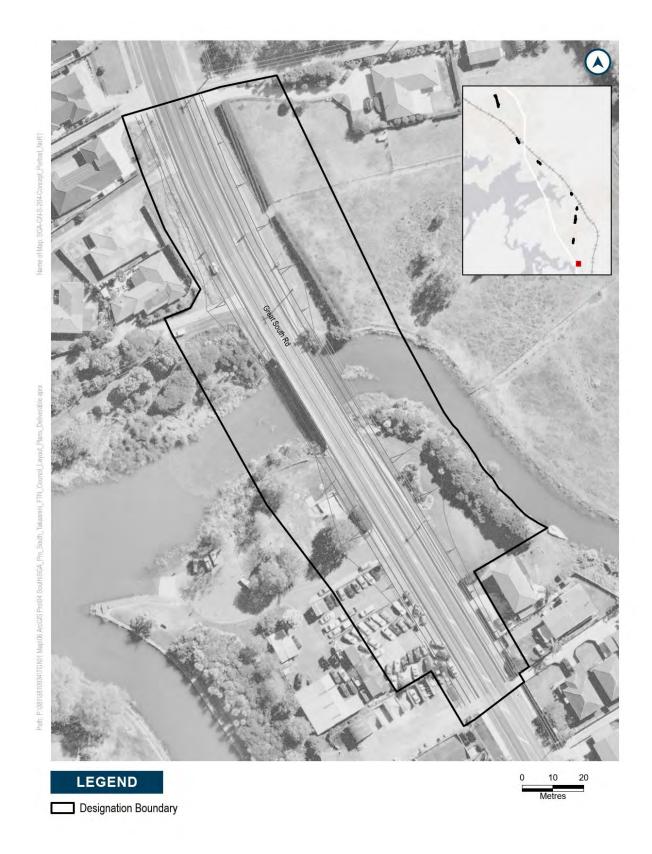

Designation Boundary

0 10 20 Metres

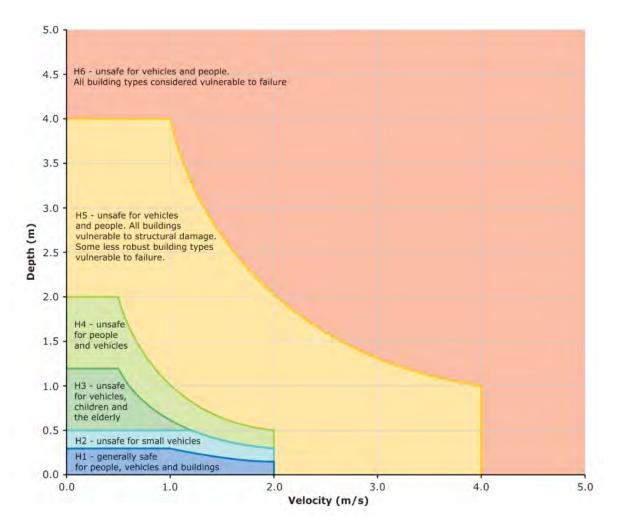

Schedule 2: Early Childcare Centres

Street Address	Legal Description	Operating Name
336 Great South Road	Lot 12 DP 28657	ChoiceKids Childcare Alfriston Road

Schedule 3: Flood Hazard Class

The combined flood hazard curves shown below set hazard thresholds that relate to the vulnerability of the community when interacting with floodwaters. The combined curves are divided into hazard classifications that relate to specific vulnerability thresholds

The vulnerability thresholds identified in the flood hazard curves can be applied to the best description of flood behaviour available for a subject site. In this regard, the hazard curves can be applied equally to flood behaviour estimates from measured data, simpler 1D numerical modelling approaches, through to complex 2D model estimates with the level of accuracy and uncertainty of the flood hazard estimate linked to the method used to derive the flood behaviour estimate.

Open Space Name	Address	Legal description
Anderson Park	58R Great South Road Manurewa Auckland 2102	Lot 8 DP 12984
Central Park Cenotaph	278 Great South Road, Auckland 2110	ALLOT 115 SEC 11 Village PAPAKURA
Chisholm Corner	312 Great South Road, Ōpaheke, Auckland 2113	Lot 3 DP 148082

Schedule 5: Identified Native Lizard Habitat Areas

Pre-construction native lizard survey area

Tree No.	Vegetation Type	Tree Species
107	Group of Trees	Ake Ake, Karo
108	Group of Trees	Putaputāwētā, Karamu, Tī Kōuka, Kahikatea, Kānuka, Mānuka, Karo, Kowhai
113	Group of Trees	Tī Kōuka, Mānuka

Schedule 6: Trees to be included in the Tree Management Plan

Tree No.	Vegetation Type	Protection	Species
1	Single Tree	Road Reserve	Queen Palm
2	Single Tree	Road Reserve	Queen Palm
3	Single Tree	Road Reserve	Totara
4	Single Tree	Road Reserve	Queen Palm
5	Single Tree	Road Reserve	Queen Palm
6	Group of Trees	Open Space	Karaka, Rimu, Pōhutukawa, Tōtara, Monkey apple
7	Single Tree	Road Reserve	Queen Palm
8	Single Tree	Road Reserve	Queen Palm
9	Group of Trees	Road Reserve	Melia, Tarata
10	Single Tree	Road Reserve	Queen Palm
11	Single Tree	Road Reserve	Queen Palm
12	Single Tree	Road Reserve	Queen Palm
13	Single Tree	Road Reserve	Pōhutukawa
14	Single Tree	Road Reserve	Queen Palm
15	Single Tree	Road Reserve	Queen Palm
16	Group of Trees	Road Reserve	Queen Palm
17	Single Tree	Notable Tree	Norfolk Island pine
54	Group of Trees	Road Reserve	Queen Palm
55	Group of Trees	Road Reserve	Italian Alder
56	Single Tree	Road Reserve	Alder
57	Single Tree	Road Reserve	Tulip Tree
58	Single Tree	Open Space	Tulip Tree
59	Group of Trees	Road Reserve	Italian Alder
60	Group of Trees	Road Reserve	Italian Alder
68	Group of Trees	Open Spaces	Tī Kōuka, Blue Arizona Cypress, Rhododendron

69	Group of Trees	Open Spaces	Kauri, Tītoki, Karaka, Kahikatea, Rimu, European Beech, Kapuku, Tōtara
70	Group of Trees	Notable Tree	Tī Kōuka, English Oak
71	Group of Trees	Open Space	Kauri, Tītoki, Rimu, Tōtara
72	Group of Trees	Open Space	Tōtara
73	Single Tree	Open Space	Weeping Elm
74	Group of Trees	Open Space	European Beech, Phoenix Palm
75	Group of Trees	Road Reserve	Tulip Tree
76	Single Tree	Road Reserve	Tulip Tree
77	Single Tree	Road Reserve	European Lime
78	Single Tree	Open Space	Italian Cypress
79	Group of Trees	Open Space and Notable Tree	Red Flowering Gum
80	Group of Trees	Notable Tree	Tōtara
81	Single Tree	Notable Tree	Gum
82	Group of Trees	Open Space	Kauri, Karamu, Tarata, Tōtara, Houpara
83	Single Tree	Notable Tree	Phoenix Palm
85	Group of Trees	Road Reserve	Kauri, Cherry, Pūriri
86	Single Tree	Notable Tree	Miro
87	Single Tree	Notable Tree	Rimu
88	Single Tree	Open Space	Pūriri
89	Single Tree	Open Space	Pōhutukawa
90	Single Tree	Open Space	Pōhutukawa
91	Single Tree	Open Space	Kauri
92	Group of Trees	Open Space	Karaka, Kahikatea, Kohekohe, Pōhutukawa
93	Group of Trees	Open Space	Kauri, Tītoki, Karaka, Kahikatea, Pōhutukawa, Mapou, Tōtara

94	Group of Trees	Open Space	Macadamia, Pōhutukawa, Avocado
95	Group of Trees	Notable Tree	Tōtara
96	Group of Trees	Road Reserve	Tarata, Kōhūhū, Tōtara
97	Group of Trees	Road Reserve	Red Robin, Horoeka, Pūriri
99	Single Tree	Road Reserve	Pōhutukawa
100	Group of Trees	Road Reserve	Wonder Tree
101	Group of Trees	Road Reserve	Tī Kōuka, Kōhūhū, Yucca
102	Single Tree	Road Reserve	Bottlebrush
103	Single Tree	Road Reserve	Rimu
104	Single Tree	Road Reserve	Camphor Laurel
106	Group of Trees	Road Reserve	Copper Sheen
107	Group of Trees	Road Reserve	Ake Ake, Karo
108	Group of Trees	Road Reserve	Putaputāwētā, Karamu, Tī Kōuka, Kahikatea, Kānuka, Mānuka, Karo, Kowhai
109	Single Tree	Road Reserve	American Sweet Gum
110	Single Tree	Road Reserve	American Sweet Gum
111	Single Tree	Road Reserve	American Sweet Gum
112	Group of Trees	Road Reserve	Mānuka, Karo
113	Group of Trees	Road Reserve	Tī Kōuka, Mānuka

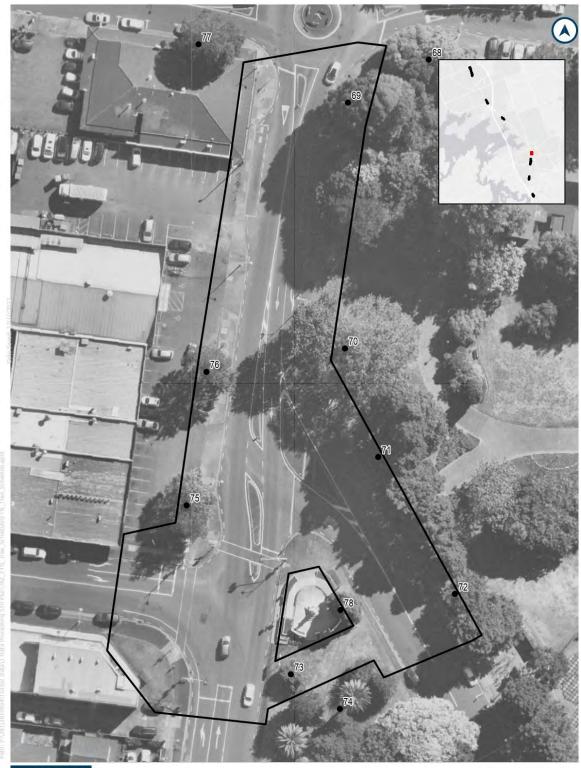

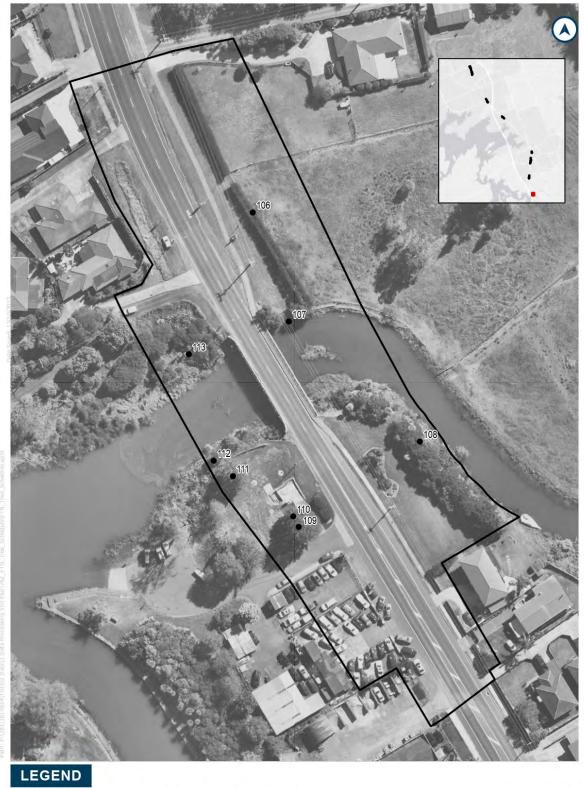

Appendix C – Auckland Transport's Modifications to NoR 2 conditions

[#### - Council to allocate] Great South Road Upgrade (Drury Section)

Designation Number	[XXXX]
Requiring Authority	Auckland Transport
Location	Great South Road in Drury between Waihoehoe Road and the State Highway 1 Drury Interchange
Lapse Date	In accordance with section 184(1)(c) of the RMA, this designation shall lapse if not given effect to within 10 years from the date on which it is included in the AUP.

Purpose

To construct, operate and maintain upgrades to an arterial transport corridor and associated infrastructure

Conditions

Abbreviations and definitions

Acronym/Term	Definition	
Activity sensitive to noise	Any dwelling, visitor accommodation, boarding house, marae, papakāinga, integrated residential development, retirement village, supported residential care, care centre, lecture theatre in a tertiary Education Facility, classroom in an Education Facility and healthcare facility with an overnight stay facility.	
AUP	Auckland Unitary Plan	
BPO or Best Practicable Option	Has the same meaning as in section 2 of the RMA 1991.	
CEMP	Construction Environmental Management Plan	
Certification of material changes to management plans	Confirmation from the Manager that a material change to a management plan has been prepared in accordance with the condition to which it relates.	
	A material change to a management plan shall be deemed certified:	
	(a) where the Requiring Authority has received written confirmation from the Manager that the material change to the management plan is certified; or	
	(b) 10 working days from the submission of the material change to the management plan where no written confirmation of certification has been received.	
CMP	Cultural Monitoring Plan	
CNVMP	Construction Noise and Vibration Management Plan	
CNVMP Schedule or Schedule	A schedule to the CNVMP	
Completion of Construction	When construction of the project (or part of the project) is complete and it is available for use.	
Confirmed Lizard Management Plan Areas	Areas recorded in the Identified Native Lizard Habitat Areas Schedule where the ecological values and effects have been confirmed through the lizard survey under Condition 29.	

Construction Works	Activities undertaken to construct the project excluding Enabling Works.		
Council	Auckland Council		
CTMP	Construction Traffic Management Plan		
Developer	Any legal entity that intends to master plan or develop land adjacent to the designation.		
Development Agency	Public entities involved in development projects.		
Educational Facility	Facility used for education to secondary level. Includes: (a) schools and outdoor education facilities; and (b) accommodation, administrative, cultural, religious, health, retail and communal facilities accessory to the above. Excludes: (a) care centres; and (b) tertiary education facilities.		
EIANZ Guidelines	Ecological Impact Assessment: EIANZ guidelines for use in New Zealand: terrestrial and freshwater ecosystems, second edition, dated May 2018.		
Enabling Works	Includes, but is not limited to, the following and similar activities: (a) geotechnical investigations (including trial embankments) (b) archaeological site investigations (c) formation of access for geotechnical investigations (d) establishment of site yards, site entrances and fencing (e) constructing and sealing site access roads (f) demolition or removal of buildings and structures (g) relocation of services; and (h) establishment of mitigation measures (such as erosion and sediment control measures, temporary noise walls, earth bunds and planting).		
HHMP	Historic Heritage Management Plan		
HNZPT	Heritage New Zealand Pouhere Taonga.		
HNZPTA	Heritage New Zealand Pouhere Taonga Act 2014		
Identified Native Lizard Habitat Area	Means an area or areas of features of ecological value where the project ecologist has identified that the project will potentially have a moderate or greater level of ecological effect on native lizards, prior to implementation of impact management measures, as determined in accordance with the EIANZ guidelines.		
LMP	Lizard Management Plan		
Manager	The Manager – Resource Consents of the Auckland Council, or authorised delegate.		
Mana Whenua	Mana Whenua as referred to in the conditions are considered to be, but not limited to, the following (in no particular order), who at the time of Notice of Requirement expressed a desire to be involved in the project: (a) Te Ākitai Waiohua; (b) Ngai Tai ki Tāmaki; (c) Ngaati Te Ata Waiohua; (d) Ngaati Whanaunga; (e) Ngāti Tamaoho; (f) Ngāti Paoa Trust Board;		

	(g) Te Ahiwaru Waiohua;		
	(h) Ngāti Tamaterā; and		
	(i) Ngāti Maru.		
	Note: Other iwi not identified above may have an interest in the		
	project and should be consulted		
Network Utility Operator	Has the same meaning as set out in section 166 of the RMA.		
NIMP	Network Integration Management Plan		
NUMP	Network Utilities Management Plan		
NOR	Notice of Requirement		
NZAA	New Zealand Archaeological Association		
Outline Plan	An outline plan prepared in accordance with section 176A of the RMA.		
Project Liaison Person	The person or persons appointed for the duration of the project's Construction Works to be the main point of contact for persons wanting information about the project or affected by the Construction Works.		
Protected Premises and Facilities (PPF)	Protected Premises and Facilities as defined in New Zealand Standard NZS 6806:2010: Acoustics – Road-traffic noise – New and altered roads.		
Requiring Authority	Has the same meaning as section 166 of the RMA and, for this designation is Auckland Transport.		
RMA	Resource Management Act 1991		
SCEMP	Stakeholder Communication and Engagement Management Plan		
Stakeholder	Stakeholders to be identified in accordance with Condition 4, which may include as appropriate:		
	(a) adjacent owners and occupiers;		
	(b) adjacent business owners and operators;		
	(c) central and local government bodies;		
	(d) community groups;		
	(e) developers;		
	(f) development agencies;		
	(g) educational facilities; and		
	(h) Network Utility Operators.		
Stage of Work	Any physical works that require the development of an Outline Plan.		
Start of Construction	The time when Construction Works (excluding Enabling Works) start.		
Suitably Qualified Person	A person (or persons) who can provide sufficient evidence to demonstrate their suitability, experience and competence in the relevant field of expertise.		
TMP	Tree Management Plan		
ULDMP	Urban and Landscape Design Management Plan		

General conditions

1. Activity in General Accordance with Plans and Information

- (a) Except as provided for in the conditions below, and subject to final design and Outline Plan(s), works within the designation shall be undertaken in general accordance with the following in Schedule 1:
 - (i) the project description; and
 - (ii) concept plan.
- (b) Where there is inconsistency between:
 - (i) the project description and concept plan in Schedule 1 and the requirements of the following conditions, the conditions shall prevail;
 - (ii) the project description and concept plan in Schedule 1, and the management plans under the conditions of the designation, the requirements of the management plans shall prevail.

2. Project Information

- (a) A project website, or equivalent virtual information source, shall be established as soon as reasonably practicable, and within six months of the inclusion of this designation in the AUP.
- (b) All directly affected owners and occupiers shall be notified in writing as soon as reasonably practicable once the website or equivalent information source has been established. The project website or virtual information source shall include these conditions and shall provide information on:
 - (i) the status of the project;
 - (ii) anticipated construction timeframes;
 - (iii) contact details for enquiries;
 - (iv) the implications of the designation for landowners, occupiers and business owners and operators within the designation and where they can receive additional advice;
 - (v) a subscription service to enable receipt of project updates by email; and
 - (vi) when and how to apply for consent for works in the designation under section 176(1)(b) of the RMA.
- (c) At the start of detailed design for a Stage of Work, the project website or virtual information source shall be updated to provide information on the likely date for Start of Construction, and any Staging of Works.

3. Land Use Integration Process

- (a) The Requiring Authority shall set up a Land use Integration Process for the period between confirmation of the designation and the Start of Construction. The purpose of this process is to encourage and facilitate the integration of master planning and land use development activity on land directly affected or adjacent to the designation. To achieve this purpose:
 - (i) the Requiring Authority shall include the contact details of a nominated contact on the project website (or equivalent information source) required to be established by Condition (2)(b)(iii); and
 - (ii) the nominated contact shall be the main point of contact for a Developer or Development Agency wanting to work with the Requiring Authority to integrate their development plans or master planning with the designation.
- (b) At any time prior to the Start of Construction, the nominated contact will be available to engage with a Developer or Development Agency for the purpose of:
 - (i) responding to requests made to the Requiring Authority for information regarding design details that could assist with land use integration; and
 - (ii) receiving information from a Developer or Development Agency regarding master planning or land development details that could assist with land use integration.
- (c) Information requested or provided under Condition 3(b) above may include but not be limited to the following matters:
 - (i) design details including but not limited to:
 - A boundary treatment (e.g. the use of retaining walls or batter slopes);
 - B the horizontal and vertical alignment of the road (levels);
 - C potential locations for mid-block crossings;
 - D integration of stormwater infrastructure;
 - E traffic noise modelling contours; and
 - F outputs from flood modelling.
 - (ii) potential modifications to the extent of the designation in response to the information received through Condition 3(b)(ii);
 - (iii) a process for the Requiring Authority to undertake a technical review of or provide comments on any master planning or development proposal advanced by the Developer or Development Agency as it relates to integration with the project; and
 - (iv) details of how to apply for written consent from the Requiring Authority for any development proposal that relates to land that is within the designation under section 176(1)(b) of the RMA.
- (d) Where information is requested from the Requiring Authority and is available, the nominated contact shall provide the information unless there are reasonable grounds for not providing it.
- (e) The nominated contact shall maintain a record of the engagement between the Requiring Authority and Developers and Development Agencies for the period following the date in which this designation is included in the AUP through to the Start of Construction for a Stage of Work. The record shall include:
 - (i) details of any requests made to the Requiring Authority that could influence detailed design, the results of any engagement and, where such requests that could influence detailed design are declined, the reasons why the Requiring Authority has declined the requests; and
 - (ii) details of any requests to co-ordinate the forward work programme, where appropriate, with Development Agencies and Network Utility Operators.
- (f) The record shall be submitted to Council for information 10 working days prior to the Start of Construction for a Stage of Work

4. Stakeholder Communication and Engagement Design At least six months prior to the start of detailed design for a Stage of Work, the (a) Requiring Authority shall identify: a list of Stakeholders; a list of properties within the designation which the Requiring Authority (ii) does not own or have occupation rights to; and methods to engage with Stakeholders and the owners and occupiers of properties identified in (a)(i) - (ii) above. (b) A record of (a) shall be submitted to the Manager for information with an Outline Plan for the relevant Stage of Work. The purpose of this identification and engagement design process is to inform (c) future engagement processes during detailed design and construction phases for a Stage of Work. 5. **Designation Review** The Requiring Authority shall within six months of Completion of Construction or as soon as otherwise practicable: review the extent of the designation to identify any areas of designated land (a) that it no longer requires for the on-going operation, maintenance or mitigation of effects of the project; and (b) give notice to the Manager in accordance with section 182 of the RMA for the removal of those parts of the designation identified above. 6. Lapse In accordance with section 184(1)(c) of the RMA, this designation shall lapse if not given effect to within 10 years from the date on which it is included in the AUP. 7. Network Utility Operators and Auckland Council (Section 176 Approval) Prior to the start of Construction Works. Network Utility Operators with existing infrastructure and Auckland Council in relation to parks located within the designation will not require written consent under section 176 of the RMA for the following activities: operation, maintenance and repair works; (i) minor renewal works to existing network utilities or parks necessary for (ii) the on-going provision or security of supply of network utility operations; (iii) minor works such as new service connections; and the upgrade and replacement of existing network utilities in the same (iv) location with the same or similar effects on the works authorised by the

designation as the existing utility.

above, this condition shall constitute written approval.

To the extent that a record of written approval is required for the activities listed

Pre-construction conditions

(b)

8. Outline Plan

- (a) An Outline Plan (or Plans) shall be prepared in accordance with section 176A of the RMA.
- (b) Outline Plans (or Plan) may be submitted in parts or in stages to address particular activities (e.g. design or construction aspects), or a Stage of Work of the project.
- (c) Outline Plans shall include any management plan or plans that are relevant to the management of effects of those activities or Stage of Work, which may include:
 - (i) Network Integration Management Plan;
 - (ii) Urban and Landscape Design Management Plan;
 - (iii) Construction Environmental Management Plan;
 - (iv) Construction Traffic Management Plan;
 - (v) Construction Noise and Vibration Management Plan;
 - (vi) Historic Heritage Management Plan;
 - (vii) Lizard Management Plan;
 - (viii) Tree Management Plan; and
 - (ix) Network Utilities Management Plan.

Flood Hazard

For the purpose of Condition 9:

- (a) AEP means Annual Exceedance Probability;
- (b) Existing Authorised Habitable Floor means the floor level of any room (floor) in a residential building which is authorised and exists at the time the outline plan is submitted, excluding a laundry, bathroom, toilet or any room used solely as an entrance hall, passageway or garage;
- (c) Flood Prone Area means a potential ponding areas that may flood in a 1% AEP event and commonly comprise of topographical depression areas. The areas can occur naturally or as a result of constructed features. Identification of a potential Flood Prone Area would be by an assessment of residual flood risk in a 1% AEP event (e.g. from blockage of the project stormwater network) on land outside and adjacent to the designation following the application of Conditions 9(a)(i)-(iv);
- (d) Maximum Probable Development is the design case for consideration of future flows allowing for development within a catchment that takes into account the maximum impervious surface limits of the current zone or if the land is zoned Future Urban in the AUP, the probable level of development arising from zone changes;
- (e) Pre-Project development means existing site condition prior to the project (including existing buildings and roadways); and
- (f) Post-Project development means site condition after the project has been completed (including existing and new buildings and roadways).

9. Flood Hazard

- (a) The project shall be designed to achieve the following flood risk outcomes beyond the boundary of the designation:
 - (i) no increase in flood levels in a 1% AEP event for Existing Authorised Habitable Floors that are already subject to flooding or have a freeboard less than 500mm:
 - (ii) no increase in flood levels in a 1% AEP for authorised community, commercial, industrial and network utility building floors existing at the time the Outline Plan is submitted that are already subject to flooding or have a freeboard less than 300mm;
 - (iii) maximum of 50mm increase in flood levels in a 1% AEP event outside and adjacent to the designation between the Pre-Project Development and Post-Project Development scenarios;
 - (iv) no increase of Flood Hazard Class for the main access to authorised habitable dwellings existing at time the Outline Plan is submitted. The assessment shall be undertaken for the 1% AEP rainfall event and reference the hazard class in accordance with Schedule 2 to these conditions; and
 - (v) no new flood prone areas.
- (b) Compliance with this condition shall be demonstrated in the Outline Plan, which shall include flood modelling of the Pre-Project Development and Post-Project Development 1% AEP flood levels (for Maximum Probable Development land use and including climate change).
- (c) Where:
 - (i) the flood risk outcomes in (a) can be achieved through alternative measures outside of the designation such as flood stop banks, flood walls, raising Existing Authorised Habitable Floor level and new overland flow paths; or
 - (ii) the outcomes are varied at a specific location(s) through agreement with the relevant landowner,

confirmation shall be provided to the Manager that any necessary landowner and statutory approvals have been obtained for that alternative measure or varied outcome.

10. Existing property access

Prior to submission of the Outline Plan, consultation shall be undertaken with landowners and occupiers whose vehicle access to their property will be altered by the project. The Outline Plan shall demonstrate how safe reconfigured or alternate access will be provided, unless otherwise agreed with the affected landowner. This condition does not apply to business-zoned land.

11. Existing business property access

- (a) Prior to submission of the Outline Plan, consultation shall be undertaken with landowners and occupiers whose vehicle access to their property will be altered by the project.
- (b) Where vehicle access to a property within business-zoned land will be altered by the project, the Outline Plan shall demonstrate how safe access will be provided that:
 - (i) maintains and promotes the safe, effective, and efficient operation of the transport network;
 - (ii) recognises the role and function of all accesses including for loading and unloading of goods to the site; and
 - (iii) subject to achieving (i), also provides effective and efficient access to the site where practicable.
- (c) Where an alternative outcome has been agreed that does not comply with Condition 11(b), the Outline Plan shall provide details of the alternative outcome and how the safe, effective, and efficient operation of the transport network will be maintained.

Advice note: Condition 11 does not affect Auckland Transport's ability to exercise its statutory Road Controlling Authority powers to modify traffic or parking controls.

12. Management Plans

- (a) Any management plan shall:
 - (i) be prepared and implemented in accordance with the relevant management plan condition;
 - (ii) be prepared by a Suitably Qualified Person(s);
 - (iii) include sufficient detail relating to the management of effects associated with the relevant activities and/or Stage of Work to which it relates.
 - (iv) be submitted as part of an Outline Plan pursuant to section 176A of the RMA, with the exception of SCEMPs and CNVMP Schedules; and
 - (v) once finalised, uploaded to the project website or equivalent virtual information source.
- (b) Any management plan developed in accordance with Condition 12 may:
 - (i) be submitted in parts or in stages to address particular activities (e.g. design or construction aspects) a Stage of Work of the project, or to address specific activities authorised by the designation;
 - except for material changes, be amended to reflect any changes in design, construction methods or management of effects without further process;
- (c) Information shall be submitted with the management plan (or revised plan as referred to in (d) below) which summarises outcomes of consultation and any input received from Mana Whenua and Stakeholders as required by the relevant management plan condition. The summary shall note how this input has been incorporated or reflected in the management plan, or if not, the reasons why;
- (d) If there is a material change required to a management plan which has been submitted with an Outline Plan, the revised part of the plan shall be submitted to the Manager as an update to the Outline Plan or for Certification as soon as practicable following identification of the need for a revision; and
- (e) Any material changes to the SCEMPs are to be submitted to the Manager for information.

13. Stakeholder Communication and Engagement Management Plan (SCEMP)

- (a) A SCEMP shall be prepared in consultation with relevant Stakeholders prior to the Start of Construction. The objective of the SCEMP is to identify how the public and Stakeholders will be engaged with throughout the Construction Works.
- (b) To achieve the objective, the SCEMP shall include:
 - (i) a list of Stakeholders;
 - (ii) the contact details for the Project Liaison Person. These details shall be on the project website, or equivalent virtual information source, and prominently displayed at the main entrance(s) to the site(s);
 - (iii) methods and timing to engage with owners and occupiers whose access is directly affected;
 - (iv) methods to communicate key project milestones and the proposed hours of construction activities including outside of normal working hours and on weekends and public holidays, to the parties identified in (b)(i) above; and
 - (v) linkages and cross-references to communication and engagement methods set out in other conditions and management plans where relevant
- (c) Any SCEMP prepared for a Stage of Work shall be submitted to the Manager for information a minimum of 10 working days prior to the Start of Construction for a Stage of Work.

14. Cultural Advisory Report

- (a) At least six months prior to the start of detailed design for a Stage of Work, Mana Whenua shall be invited to prepare a Cultural Advisory Report for the project. The objective of the Cultural Advisory Report is to assist in understanding and identifying ngā taonga tuku iho ('treasures handed down by our ancestors') affected by the project, to inform their management and protection.
- (b) To achieve the objective, the Requiring Authority shall invite Mana Whenua to prepare a Cultural Advisory Report that:
 - (i) identifies the cultural sites, landscapes and values that have the potential to be affected by the construction and operation of the project;
 - (ii) sets out the desired outcomes for management of potential effects on cultural sites, landscapes and values;
 - (iii) identifies traditional cultural practices within the area that may be impacted by the project;
 - (iv) identifies opportunities for restoration and enhancement of identified cultural sites, landscapes and values within the project area;
 - (v) taking into account the outcomes of (i) to (iv) above, identify cultural matters and principles that should be considered in the development of the ULDMP referred to in Condition 17, HHMP referred to in Condition 28 and the CMP referred to in Condition 22; and
 - (vi) identifies and (if possible) nominates traditional names along the project alignment. Noting there may be formal statutory processes outside the project required in any decision-making.
- (c) The desired outcomes for management of potential effects on cultural sites, landscapes and values identified in the Cultural Advisory Report shall be discussed with Mana Whenua and those outcomes reflected in the relevant management plans where practicable; and
- (d) Conditions 14(a) and (b) above will cease to apply if:
 - (i) Mana Whenua have been invited to prepare a Cultural Advisory Report by a date at least six months prior to start of Construction Works; and
 - (ii) Mana Whenua have not provided a Cultural Advisory Report within six months prior to start of Construction Works.

15. Network Integration Management Plan (NIMP)

- (a) At least six months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall prepare, in collaboration with other relevant road controlling authorities, a NIMP. The objective of the NIMP is to identify how the project will integrate with the planned transport network in the Takaanini growth area to achieve an effective, efficient and safe land transport system.
- (b) To achieve this objective, the NIMP shall include details of the:
 - (i) project implementation approach and any staging of the project, including both design, management and operational matters; and
 - (ii) sequencing of the project with the planned transport network, including both design, management and operational matters.

16. Mana Whenua Kaitiaki Forum

- (a) At least 12 months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall invite Mana Whenua to establish a Mana Whenua Kaitiaki Forum. The objective of the Mana Whenua Kaitiaki Forum is to provide a forum for Mana Whenua to participate as partners in all phases of the project.
- (b) To achieve the objective, the Mana Whenua Kaitiaki Forum shall address (as a minimum) the following matters:
 - (i) how Mana Whenua will provide input into the design of the project. For example:
 - A how Mana Whenua values and narrative are incorporated through the form of the project and associated structures;
 - B how pou, art, sculptures, mahi toi or any other features located on land within or adjoining the project will be provided in a manner that represents the Māori history of the area and promotes a distinctiveness or sense of place;
 - (ii) how Mana Whenua will be engaged in the preparation of management plans and future consenting processes;
 - (iii) how mātauranga Māori and tikanga Māori will be recognised in all phases of the project;
 - (iv) where opportunities for Mana Whenua to participate in engagement with local communities, business associations, social institutions and community groups will be provided;
 - (v) where opportunities for Mana Whenua to support the physical, mental, social and economic wellbeing for iwi and the local community will be provided through the project. This could include:
 - A planting supplied through Mana Whenua and community based nurseries;
 - B local schools being involved in planting; and
 - C scholarships, cadetships and job creation.
 - (vi) the Requiring Authority shall provide reasonable resourcing, technical and administrative support for Mana Whenua including organising meetings at a local venue and the taking and dissemination of meeting minutes;
 - (vii) the frequency of meetings shall be agreed between the Requiring Authority and Mana Whenua; and
 - (viii) prior to the Start of Construction, the Requiring Authority shall produce a record of the Mana Whenua Kaitiaki Forum. The record of the Mana Whenua Kaitiaki Forum shall be provided to Mana Whenua and shall include (but not be limited to):
 - A details of how Mana Whenua have participated as partners in the project;
 - B details of how the matters set out in (b) will be incorporated into the project;
 - C how the objective of the Mana Whenua Kaitiaki Forum has been and will continue to be met: and
 - D details of how comments from Mana Whenua have been incorporated into the project and where not incorporated, the reasons why.
- (c) Mana Whenua shall be invited to identify and (if possible) nominate traditional names across the project such as for bridge structures. Noting there may be formal statutory processes outside the project required in any decision making.

	(d)		Mana Whenua Kaitiaki Forum shall continue to meet for at least six months ving Completion of Construction or as agreed with Mana Whenua.
	Urba	an and	Landscape Design Management Plan (ULDMP)
17.	(a) A OLDIVII SIIAII DE PIEPAIEG PITOI		DMP shall be prepared prior to the Start of Construction for a Stage of The objective of the ULDMP(s) is to:
		(i)	enable integration of the project's permanent works into the surrounding landscape and urban context; and
		(ii)	ensure that the project manages potential adverse landscape and visual effects as far as practicable and contributes to a quality urban environment.
	(b)	ULDI inclue sites Cultu	a Whenua shall be invited to participate in the development of the MP(s) to provide input into relevant cultural landscape and design matters ding how desired outcomes for management of potential effects on cultural landscapes and values identified and discussed in accordance with the ral Advisory Report (Condition 14) and/or through the Mana Whenua aki Forum (Condition 16) may be reflected in the ULDMP.
	(c) Relevant Stakeholders shall be invited to participate in the development of ULDMP at least six months prior to the start of detailed design for a Stage of Work.		MP at least six months prior to the start of detailed design for a Stage of
18.	(a)	 To achieve the objective set out in Condition 17, the ULDMP(s) shall predetails of how the project: 	
		(i)	is designed to integrate with the adjacent urban (or proposed urban) and landscape context, including the surrounding existing or proposed topography, urban environment (e.g. centres and density of built form), natural environment, landscape character and open space zones;
		(ii)	provides appropriate walking and cycling connectivity to, and interfaces with, existing or proposed adjacent land uses (including public transport and walking and cycling facilities);
		(iii)	promotes inclusive access (where appropriate);
		(iv)	promotes a sense of personal safety by aligning with best practice guidelines, such as:
			A Crime Prevention Through Environmental Design (CPTED) principles;
			B Safety in Design (SID) requirements; and
			C Maintenance in Design (MID) requirements and antivandalism/anti-graffiti measures.
		(v)	has responded to matters identified through the Land use Integration Process (Condition 3); and
	(b)	The I	JLDMP shall be prepared in general accordance with:
		(i)	Auckland Transport's Urban Roads and Streets Design Guide or any subsequent updated version;
		(ii)	New Zealand Transport Agency Urban Design Guidelines: Bridging the Gap (2013) or any subsequent updated version;
		(iii)	New Zealand Transport Agency Landscape Guidelines (2013) or any subsequent updated version;
		(iv)	New Zealand Transport Agency P39 Standard Specification for Highway Landscape Treatments (2013) or any subsequent updated version; and
		(v)	Auckland's Urban Ngahere (Forest) Strategy or any subsequent updated version.

19. The ULDMP(s) shall include:

- (a) A concept plan which depicts the overall landscape and urban design concept, and explain the rationale for the landscape and urban design proposals;
- (b) Developed design concepts, including principles for walking and cycling facilities and public transport;
- (c) Landscape and urban design details that cover the following:
 - road design elements such as intersection form, carriageway gradient and associated earthworks contouring including cut and fill batters and the interface with adjacent land uses and existing roads (including slip lanes), benching, spoil disposal sites, median width and treatment, roadside width and treatment;
 - (ii) roadside elements such as lighting, fencing, wayfinding and signage;
 - (iii) architectural and landscape treatment of all major structures, including bridges and retaining walls;
 - (iv) architectural and landscape treatment of noise barriers;
 - (v) landscape treatment and planting of permanent stormwater control wetlands and swales;
 - (vi) integration of passenger transport;
 - (vii) pedestrian and cycle facilities including paths, road crossings and dedicated pedestrian/ cycle bridges or underpasses;
 - (viii) historic heritage places with reference to the HHMP (Condition 28); and
 - (ix) re-instatement of construction and site compound areas; and
 - (x) features disturbed during construction and intended to be reinstated such as:
 - A boundary features;
 - B driveways;
 - C accessways; and
 - D fences
- (d) The ULDMP shall also include the following planting and maintenance details:
 - (i) planting design details including:
 - A identification of existing trees and vegetation that will be retained with reference to the TMP and LMP. Where practicable, mature trees and native vegetation should be retained;
 - B street trees, shrubs and ground cover suitable for the location;
 - C treatment of fill slopes to integrate with adjacent land use, streams, riparian margins and open space zones;
 - D identification of any planting requirements under the LMP (Condition 30) and TMP (Condition 31);
 - E integration of any planting required by conditions of any resource consents for the project; and
 - F re-instatement planting of construction and site compound areas as appropriate.
 - (ii) a planting programme including the staging of planting in relation to the construction programme which shall, as far as practicable, include provision for planting within each planting season following completion of each Stage of Work; and
 - (iii) detailed specifications relating to the following:

- A weed control and clearance;
- B pest animal management (to support plant establishment);
- C ground preparation (top soiling and decompaction);
- D mulching; and
- E plant sourcing and planting, including hydroseeding and grassing, and use of eco-sourced species.

Construction conditions

20. Construction Environmental Management Plan (CEMP)

- (a) A CEMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the CEMP is to set out the management procedures and construction methods to be undertaken to, avoid, remedy or mitigate any adverse effects associated with Construction Works as far as practicable.
- (b) To achieve the objective, the CEMP shall include:
 - (i) the roles and responsibilities of staff and contractors;
 - (ii) details of the site or project manager and the Project Liaison Person, including their contact details (phone and email address);
 - (iii) the Construction Works programmes and the staging approach, and the proposed hours of work;
 - (iv) details of the proposed construction yards including temporary screening when adjacent to residential areas;
 - (v) details of the proposed construction lighting;
 - (vi) methods for controlling dust and the removal of debris and demolition of construction materials from public roads or places;
 - (vii) methods for providing for the health and safety of the general public;
 - (viii) measures to mitigate flood hazard effects such as siting stockpiles out of floodplains, minimising obstruction to flood flows, actions to respond to warnings of heavy rain;
 - (ix) procedures for incident management;
 - (x) location and procedures for the refuelling and maintenance of plant and equipment to avoid discharges of fuels or lubricants to watercourses;
 - (xi) measures to address the storage of fuels, lubricants, hazardous and/or dangerous materials, along with contingency procedures to address emergency spill response(s) and clean up;
 - (xii) procedures for responding to complaints about Construction Works; and
 - (xiii) methods for amending and updating the CEMP as required.

21. Complaints Process

- (a) At all times during Construction Works, a record of any complaints received about the Construction Works shall be maintained. The record shall include:
 - (i) the date, time and nature of the complaint;
 - (ii) the name, phone number and address of the complainant (unless the complainant wishes to remain anonymous);
 - (iii) measures taken to respond to the complaint (including a record of the response provided to the complainant) or confirmation of no action if deemed appropriate;
 - (iv) the outcome of the investigation into the complaint; and
 - (v) any other activities in the area, unrelated to the project that may have contributed to the complaint, such as non-project construction, fires, traffic accidents or unusually dusty conditions generally.
- (b) A copy of the complaints record required by this condition shall be made available to the Manager upon request as soon as practicable after the request is made.

22. Cultural Monitoring Plan (CMP)

- (a) Prior to the Start of Construction, a CMP shall be prepared by a Suitably Qualified Person(s) identified in collaboration with Mana Whenua. The objective of the CMP is to identify methods for undertaking cultural monitoring to assist with management of any cultural effects during Construction Works.
- (b) To achieve the objective, the CMP shall include:
 - (i) requirements for formal dedication or cultural interpretation to be undertaken prior to start of Construction Works in areas identified as having significance to Mana Whenua;
 - (ii) requirements and protocols for cultural inductions for contractors and subcontractors;
 - (iii) identification of activities, sites and areas where cultural monitoring is required during particular Construction Works;
 - (iv) identification of personnel to undertake cultural monitoring, including any geographic definition of their responsibilities; and
 - (v) details of personnel to assist with management of any cultural effects identified during cultural monitoring, including implementation of the Accidental Discovery Protocol
- (c) If Enabling Works involving soil disturbance are undertaken prior to the Start of Construction, an Enabling Works CMP shall be prepared by a Suitably Qualified Person identified in collaboration with Mana Whenua. This plan may be prepared as a standalone Enabling Works CMP or be included in the main Construction Works CMP.

Advice Note: Where appropriate, the CMP shall align with the requirements of other conditions of the designation and resource consents for the project which require monitoring during Construction Works.

23. Construction Traffic Management Plan (CTMP)

- (a) A CTMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the CTMP is to avoid, remedy or mitigate, as far as practicable, adverse construction traffic effects.
- (b) To achieve this objective, the CTMP shall include:
 - methods to manage the effects of temporary traffic management activities on traffic;
 - (ii) measures to ensure the safety of all transport users;
 - (iii) the estimated numbers, frequencies, routes and timing of traffic movements, including any specific non-working or non-movement hours to manage vehicular and pedestrian traffic near Educational Facilities or to manage traffic congestion;
 - site access routes and access points for heavy vehicles, the size and location of parking areas for plant, construction vehicles and the vehicles of workers and visitors;
 - (v) identification of detour routes and other methods to ensure the safe management and maintenance of traffic flows, including public transport, pedestrians and cyclists;
 - (vi) methods to maintain access to and within property and/or private roads where practicable, or to provide alternative arrangements when it will not be, including details of how access is managed for loading and unloading of goods. Engagement with landowners an occupiers whose access is directly affected shall be undertaken in accordance with Condition 13(b)(iii);
 - (vii) the management approach to loads on heavy vehicles, including covering loads of fine material, the use of wheel-wash facilities at site exit points and the timely removal of any material deposited or spilled on public roads;
 - (viii) methods that will be undertaken to communicate traffic management measures to affected road users (e.g. residents/ public/ Stakeholders/ emergency services);
 - (ix) details of minimum network performance parameters during the construction phase, including any measures to monitor compliance with the performance parameters; and
 - (x) details of any measures proposed to be implemented in the event of thresholds identified in (ix) being exceeded.
- (c) Auditing, monitoring and reporting requirements relating to traffic management activities shall be undertaken in accordance with the New Zealand Guide to Temporary Traffic Management (April 2013) or any subsequent version.

24. Construction Noise Standards

(a) Construction noise shall be measured and assessed in accordance with NZS6803:1999 Acoustics – Construction Noise and shall comply with the noise standards set out in the following table as far as practicable:

Table 24-1 Construction Noise Standards

Day of week	Time period	L _{Aeq(15min)}	LAFmax
Occupied activity sensitive to noise			
Weekday	0630h - 0730h	55 dB	75 dB
	0730h - 1800h	70 dB	85 dB
	1800h - 2000h	65 dB	80 dB
	2000h - 0630h	45 dB	75 dB
Saturday	0630h - 0730h	45 dB	75 dB
	0730h - 1800h	70 dB	85 dB
	1800h - 2000h	45 dB	75 dB
	2000h - 0630h	45 dB	75 dB
Sunday and Public	0630h - 0730h	45 dB	75 dB
Holidays	0730h - 1800h	55 dB	85 dB
	1800h - 2000h	45 dB	75 dB
	2000h - 0630h	45 dB	75 dB
Other occupied buildings			
All	0730h – 1800h	70 dB	
	1800h – 0730h	75 dB	

(b) Where compliance with the noise standards set out in Table 24-1 is not practicable, the methodology in Condition 27 shall apply.

25. Construction Vibration Standards

(a) Construction vibration shall be measured in accordance with ISO 4866:2010 Mechanical vibration and shock – Vibration of fixed structures – Guidelines for the measurement of vibrations and evaluation of their effects on structures and shall comply with the vibration standards set out in the following table as far as practicable.

Table 25-1 Construction Vibration Standards

Receiver	Details	Category A	Category B
Occupied activities sensitive to noise	Night-time 2000h - 0630h	0.3mm/s ppv	2mm/s ppv
	Daytime 0630h - 2000h	2mm/s ppv	5mm/s ppv
Other occupied buildings	Daytime 0630h - 2000h	2mm/s ppv	5mm/s ppv
All other buildings	At all other times	Tables 1 and 3 of DI	N4150-3:1999

(b) Where compliance with the vibration standards set out in Table 25-1 is not practicable, the methodology in Condition 27 shall apply.

26. Construction Noise and Vibration Management Plan (CNVMP)

- (a) A CNVMP shall be prepared by a Suitably Qualified and Experienced Person prior to the Start of Construction for a Stage of Work. A CNVMP shall be implemented during the Stage of Work to which it relates. The objective of the CNVMP is to provide a framework for the development and implementation of the Best Practicable Option for the management of construction noise and vibration effects to achieve the construction noise and vibration standards set out in Conditions 24 and 25 to the extent practicable.
- (b) To achieve the objective, the CNVMP shall be prepared in accordance with Annex E2 of the New Zealand Standard NZS6803:1999 'Acoustics Construction Noise' (NZS6803:1999) and shall as a minimum, address the following:
 - (i) description of the works and anticipated equipment/processes;
 - (ii) hours of operation, including times and days when construction activities would occur:
 - (iii) the construction noise and vibration standards for the project;
 - (iv) identification of receivers where noise and vibration standards apply;
 - (v) a hierarchy of management and mitigation options, including any requirements to limit night works and works during other sensitive times, including Sundays and public holidays as far as practicable;
 - (vi) methods and frequency for monitoring and reporting on construction noise and vibration;
 - (vii) procedures for communication and engagement with nearby residents and Stakeholders, including notification of proposed construction activities, the period of construction activities, and management of noise and vibration complaints;
 - (viii) contact details of the Project Liaison Person;
 - (ix) procedures for the regular training of the operators of construction equipment to minimise noise and vibration as well as expected construction site behaviours for all workers:
 - (x) procedures and requirements for the preparation of a Schedule to the CNVMP (Schedule) for those areas where compliance with the noise Condition 24 and/or vibration standards Condition 25 Category B will not be practicable;
 - (xi) identification of trigger levels for undertaking building condition surveys, which shall be Category B day time levels;
 - (xii) procedures and trigger levels for undertaking building condition surveys before and after works to determine whether any cosmetic or structural damage has occurred as a result of construction vibration;
 - (xiii) methodology and programme of desktop and field audits and inspections to be undertaken to ensure that CNVMP, Schedules and the Best Practicable Option for management of effects are being implemented; and
 - (xiv) requirements for review and update of the CNVMP.

27. Schedule to a CNVMP

- (a) A Schedule to the CNVMP (Schedule) shall be prepared prior to the Start of Construction of an activity to which it relates by a Suitably Qualified Person, in consultation with the owners and occupiers of sites subject to the Schedule, when:
 - (i) construction noise is either predicted or measured to exceed the noise standards in Condition 24 except where the exceedance of the L_{Aeq} criteria is no greater than 5 decibels and does not exceed:
 - A 0630 2000: 2 periods of up to 2 consecutive weeks in any 2 months, or
 - B 2000 0630: 1 period of up to 2 consecutive nights in any 10 days.
 - (ii) construction vibration is either predicted or measured to exceed the Category B standard at the receivers in Condition 25.
- (b) The objective of the Schedule is to set out the Best Practicable Option measures to manage noise and/or vibration effects of the construction activity beyond those measures set out in the CNVMP.
- (c) To achieve the objective, the Schedule shall include details such as:
 - (i) construction activity location, start and finish dates;
 - (ii) the nearest neighbours to the construction activity;
 - (iii) the predicted noise and/or vibration level for all receivers where the levels are predicted or measured to exceed the applicable standards and predicted duration of the exceedance;
 - (iv) for works proposed between 2000h and 0630h, the reasons why the proposed works must be undertaken during these hours and why they cannot be practicably undertaken during the daytime;
 - (v) the proposed mitigation options that have been selected, and the options that have been discounted as being impracticable and the reasons why;
 - (vi) the consultation undertaken with owners and occupiers of sites subject to the Schedule, and how consultation has and has not been taken into account; and
 - (vii) location, times and types of monitoring.
- (d) The Schedule shall be submitted to the Manager for Certification at least five working days (except in unforeseen circumstances) in advance of Construction Works that are covered by the scope of the Schedule and shall form part of the CNVMP.
- (e) The CNVMP Schedule shall be deemed certified five working days from the submission of the CNVMP Schedule where no written confirmation of Certification has been received.
- (f) Where material changes are made to a Schedule required by this condition, the Requiring Authority shall consult the owners and/or occupiers of sites subject to the Schedule prior to submitting the amended Schedule to the Manager for Certification in accordance with (d) above. The amended Schedule shall document the consultation undertaken with those owners and occupiers, and how consultation outcomes have and have not been taken into account.

28. Historic Heritage Management Plan (HHMP)

- (a) A HHMP shall be prepared in consultation with Council, HNZPT and Mana Whenua prior to the Start of Construction for a Stage of Work. The objective of the HHMP is to protect historic heritage and to remedy and mitigate any residual effects as far as practicable.
- (b) To achieve the objective, the HHMP shall identify:
 - (i) any adverse direct and indirect effects on historic heritage sites and measures to appropriately avoid, remedy or mitigate any such effects, including a tabulated summary of these effects and measures;
 - (ii) methods for the identification and assessment of potential historic heritage places within the designation to inform detailed design;
 - (iii) known historic heritage places and potential archaeological sites within the designation, including identifying any archaeological sites for which an Archaeological Authority under the HNZPTA will be sought or has been granted;
 - (iv) any unrecorded archaeological sites or post-1900 heritage sites within the designation, which shall also be documented and recorded;
 - (v) roles, responsibilities and contact details of project personnel, Council and HNZPT representatives, Mana Whenua representatives, and relevant agencies involved with heritage and archaeological matters including surveys, monitoring of Construction Works, compliance with AUP accidental discovery rule, and monitoring of conditions;
 - (vi) specific areas to be investigated, monitored and recorded to the extent these are directly affected by the project;
 - (vii) the proposed methodology for investigating and recording post-1900 historic heritage sites (including buildings) that need to be destroyed, demolished or relocated, including details of their condition, measures to mitigate any adverse effects and timeframe for implementing the proposed methodology, in accordance with the HNZPT Archaeological Guidelines Series No.1: Investigation and Recording of Buildings and Standing Structures (November 2018, or any subsequent version;
 - (viii) methods to acknowledge cultural values identified through the Mana Whenua Kaitiaki Forum (Condition 16) and CAR (Condition 14) where archaeological sites also involve ngā taonga tuku iho (treasures handed down by our ancestors) and where feasible and practicable to do so;
 - (ix) methods for avoiding, remedying or mitigation adverse effects on historic heritage places and sites within the designation during Construction Works as far as practicable. These methods shall include, but are not limited to:
 - A security fencing or hoardings around historic heritage places to protect them from damage during construction or unauthorised access;
 - B measures to mitigate adverse effects on historic heritage sites that achieve positive historic heritage outcomes such as increased public awareness and interpretation signage; and
 - C training requirements and inductions for contractors and subcontractors on historic heritage places within the designation, legal obligations relating to accidental and/or unexpected discoveries, the AUP Accidental Discovery Rule (E11.6.1). The training shall be undertaken prior to the Start of Construction, under the guidance of a Suitably Qualified Person and Mana Whenua representatives (to the extent the training relates to cultural values identified under Condition 14 and Condition 16.

Accidental Discoveries

Advice Note:

The requirements for accidental discoveries of heritage items are set out in Rule E11.6.1 of the AUP

29. Pre-Construction Lizard Survey

- (a) At the start of detailed design for a Stage of Work, an updated survey of native lizards and their habitat in the locations shown in Schedule 3 shall be undertaken by a Suitably Qualified Person. The purpose of the survey is to inform lizard management by:
 - (i) confirming whether the native lizards of value within the locations shown in Schedule 3 are still present; and
 - (ii) confirming whether the project will or may have a moderate or greater level of ecological effect on native lizards of value in those locations, prior to implementation of impact management measures, as determined in accordance with the EIANZ guidelines.
- (b) If the survey confirms the presence of native lizards of value in accordance with Condition 29(a)(i) and that effects are likely in accordance with Condition 29(a)(ii) then a Lizard Management Plan (or Plans) shall be prepared in accordance with Condition 30 for these areas (Confirmed Lizard Management Plan Areas).

30. Lizard Management Plan (LMP)

- (a) A LMP shall be prepared for any Confirmed Lizard Management Plan Areas (in accordance with Condition 29) prior to the Start of Construction for a Stage of Work. The objective of the LMP is to minimise effects of the project on native lizards of value in Confirmed Lizard Management Plan Areas as far as practicable.
- (b) To achieve the objective, the LMP shall set out the methods which may include:
 - (i) a description of the methodology and timing for survey, trapping and relocation of native lizards rescued;
 - (ii) a description of the relocation site(s), including:
 - A any measures to ensure the relocation site is suitable protected and remains viable (e.g. covenants, consent notices etc.);
 - B any measures to ensure the relocation site is suitably managed to ensure appropriate habitat for native lizards (e.g. provision of additional refugia, weed and pest management); and
 - (iii) any proposed monitoring of relocation sites if necessary to evaluate translocation success.
- (c) The LMP shall be consistent with any native lizard management measures to be undertaken in compliance with conditions of any regional resource consents granted for the project.

Advice Note:

Depending on the potential effects of the project, the regional consents for the project may include the following monitoring and management plans:

- (i) stream and/or wetland restoration plans;
- (ii) vegetation restoration plans; and
- (iii) fauna management plans (eg avifauna, bats).

31. Tree Management Plan (TMP)

- (a) Prior to the Start of Construction for a Stage of Work, a TMP shall be prepared. The objective of the TMP is to avoid, remedy or mitigate effects of construction activities on trees identified in Schedule 4.
- (b) To achieve the objective, the TMP shall:
 - (i) confirm that the trees listed in Schedule 4 still exist; and
 - (ii) demonstrate how the design and location of project works has avoided, remedied or mitigated any effects on any tree listed in Schedule 4. This may include:
 - A planting to replace trees that require removal (with reference to the ULDMP planting design details in Condition 19);
 - B tree protection zones and tree protection measures such as protective fencing, ground protection and physical protection of roots, trunks and branches; and
 - C methods for work within the rootzone of trees that are to be retained in line with accepted arboricultural standards.

32. Network Utilities Management Plan (NUMP)

- (a) A NUMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the NUMP is to set out a framework for protecting, relocating and working in proximity to existing network utilities.
- (b) To achieve the objective, the NUMP shall include methods to:
 - (i) provide access for maintenance at all reasonable times, or emergency works at all times during construction activities;
 - (ii) protect and where necessary, relocate existing network utilities;
 - (iii) manage the effects of dust and any other material potentially resulting from construction activities and able to cause material damage, beyond normal wear and tear to overhead transmission lines in the project area;
 - (iv) demonstrate compliance with relevant standards and Codes of Practice including, where relevant, the NZECP 34:2001 New Zealand Electrical Code of Practice for Electrical Safe Distances 2001; AS/NZS 4853:2012 Electrical hazards on Metallic Pipelines; and AS/NZS 2885 Pipelines – Gas and Liquid Petroleum.
- (c) The NUMP shall be prepared in consultation with the relevant Network Utility Operators(s) who have assets that are directly affected by the project.
- (d) The development of the NUMP shall consider opportunities to coordinate future work programmes with other Network Utility Operator(s) during detailed design where practicable.
- (e) The NUMP shall describe how any comments from the Network Utility Operator in relation to its assets have been addressed.
- (f) Any comments received from the Network Utility Operator shall be considered when finalising the NUMP.
- (g) Any amendments to the NUMP related to the assets of a Network Utility Operator shall be prepared in consultation with that asset owner.

Operational conditions

33. Low Noise Road Surface

Asphaltic concrete surfacing (or equivalent low noise road surface) shall be implemented within 12 months of Completion of Construction of the project.

34. Future Resurfacing Work

- (a) Any future resurfacing works of the project shall be undertaken in accordance with the Auckland Transport Reseal Guidelines, Asset Management and Systems 2013 or any updated version and asphaltic concrete surfacing (or equivalent low noise road surface) shall be implemented where:
 - (i) the volume of traffic exceeds 10,000 vehicles per day; or
 - (ii) the road is subject to high wear and tear (such as cul de sac heads, roundabouts and main road intersections); or
 - (iii) it is in an industrial or commercial area where there is a high concentration of truck traffic; or
 - (iv) it is subject to high usage by pedestrians, such as town centres, hospitals, shopping centres and schools.
- (b) Prior to commencing any future resurfacing works, the Requiring Authority shall advise the Manager if any of the triggers in Condition 34(a)(i) (iv) are not met by the road or a section of it and therefore where the application of asphaltic concrete surfacing (or equivalent low noise road surface) is no longer required on the road or a section of it. Such advice shall also indicate when any resealing is to occur.

Attachments

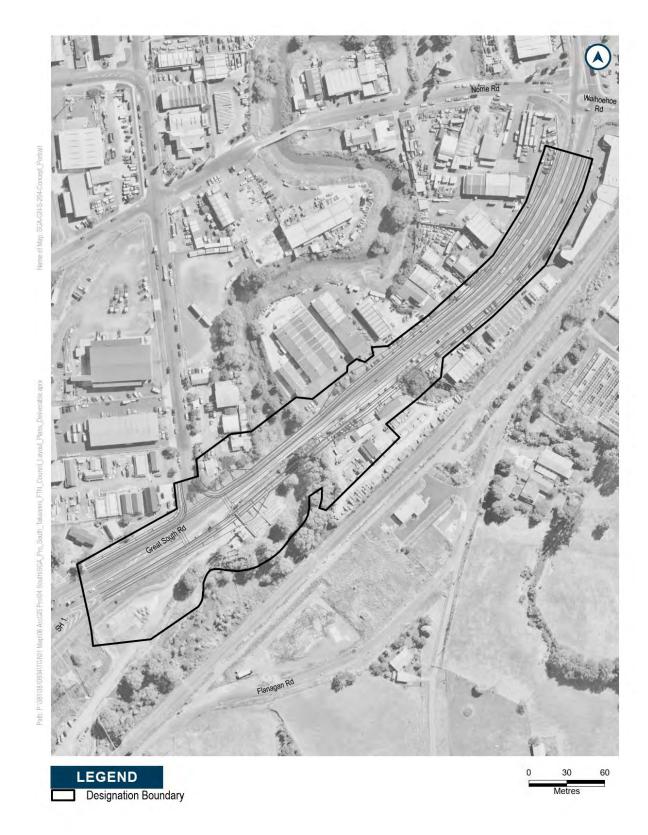

Schedule 1: General accordance plans and information

Project Description

The proposed work is for the construction, operation, and maintenance of upgrades to Great South Road between Waihoehoe Road and the State Highway 1 Drury Interchange. The proposed work is shown in the following Concept Plan and includes:

- a) An upgrade of Great South Road to accommodate general traffic lanes and walking and cycling facilities;
- b) Associated works including intersections, bridges, embankments, retaining walls, culverts, and stormwater management systems;
- c) Reconfiguration of local roads, where the proposed work intersects with local roads; and
- d) Construction activities including vegetation removal, establishment of construction areas and the regrading of driveways.

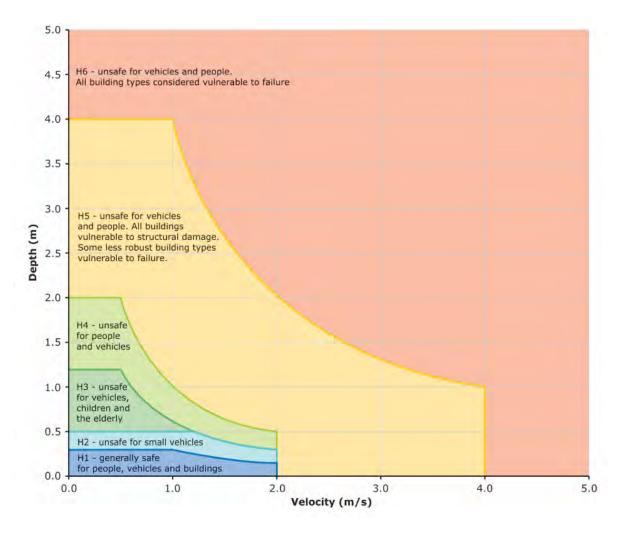

Concept Plan

Schedule 2: Flood Hazard Class

The combined flood hazard curves shown below set hazard thresholds that relate to the vulnerability of the community when interacting with floodwaters. The combined curves are divided into hazard classifications that relate to specific vulnerability thresholds

The vulnerability thresholds identified in the flood hazard curves can be applied to the best description of flood behaviour available for a subject site. In this regard, the hazard curves can be applied equally to flood behaviour estimates from measured data, simpler 1D numerical modelling approaches, through to complex 2D model estimates with the level of accuracy and uncertainty of the flood hazard estimate linked to the method used to derive the flood behaviour estimate.

Appendix D - Auckland Transport's Modifications to NoR 3 conditions

[#### - Council to allocate] Takaanini FTN - Weymouth, Alfriston and Great South Road Upgrades

Designation Number	[XXXX]
Requiring Authority	Auckland Transport
Location	Weymouth Road and Alfriston Road between Selwyn Road and Saralee Drive, and Great South Road between Halver Road and Myers Road.
Lapse Date	In accordance with section 184(1)(c) of the RMA, this designation shall lapse if not given effect to within 15 years from the date on which it is included in the AUP.

Purpose

To construct, operate and maintain upgrades to arterial transport corridors and associated infrastructure.

Conditions

Abbreviations and definitions

Acronym/Term	Definition		
Activity sensitive to noise	Any dwelling, visitor accommodation, boarding house, marae, papakāinga, integrated residential development, retirement village, supported residential care, care centre, lecture theatre in a tertiary Education Facility, classroom in an Education Facility and healthcare facility with an overnight stay facility.		
AUP	Auckland Unitary Plan		
BPO or Best Practicable Option	Has the same meaning as in section 2 of the RMA 1991.		
CEMP	Construction Environmental Management Plan		
Certification of material changes to management plans	Confirmation from the Manager that a material change to a management plan has been prepared in accordance with the condition to which it relates.		
	A material change to a management plan shall be deemed certified:		
	(a) where the Requiring Authority has received written confirmation from the Manager that the material change to the management plan is certified; or		
	(b) 10 working days from the submission of the material change to the management plan where no written confirmation of certification has been received.		
CMP	Cultural Monitoring Plan		
CNVMP	Construction Noise and Vibration Management Plan		
CNVMP Schedule or Schedule	A schedule to the CNVMP		
Completion of Construction	When construction of the project (or part of the project) is complete and it is available for use.		

Confirmed Lizard Management Plan Areas	Areas recorded in the Identified Native Lizard Habitat Areas Schedule where the ecological values and effects have been confirmed through the lizard survey under Condition 32.	
Construction Works	Activities undertaken to construct the project excluding Enabling Works.	
Council	Auckland Council	
CTMP	Construction Traffic Management Plan	
Developer	Any legal entity that intends to master plan or develop land adjacent to the designation.	
Development Agency	Public entities involved in development projects.	
Educational Facility	Facility used for education to secondary level. Includes:	
•	(a) schools and outdoor education facilities; and	
	(b) accommodation, administrative, cultural, religious, health, retail and communal facilities accessory to the above.	
	Excludes:	
	(a) care centres; and	
	(b) tertiary education facilities.	
EIANZ Guidelines	Ecological Impact Assessment: EIANZ guidelines for use in New Zealand: terrestrial and freshwater ecosystems, second edition, dated May 2018.	
Enabling Works	Includes, but is not limited to, the following and similar activities: (a) geotechnical investigations (including trial embankments) (b) archaeological site investigations (c) formation of access for geotechnical investigations (d) establishment of site yards, site entrances and fencing (e) constructing and sealing site access roads (f) demolition or removal of buildings and structures (g) relocation of services; and (h) establishment of mitigation measures (such as erosion and sediment control measures, temporary noise walls, earth bunds and planting).	
HHMP	Historic Heritage Management Plan	
HNZPT	Heritage New Zealand Pouhere Taonga.	
HNZPTA	Heritage New Zealand Pouhere Taonga Act 2014	
Identified Native Lizard Habitat Area	Means an area or areas of features of ecological value where the project ecologist has identified that the project will potentially have a moderate or greater level of ecological effect on native lizards, prior to implementation of impact management measures, as determined in accordance with the EIANZ guidelines.	
LMP	Lizard Management Plan	
Manager	The Manager – Resource Consents of the Auckland Council, or authorised delegate.	
Mana Whenua	Mana Whenua as referred to in the conditions are considered to be, but not limited to, the following (in no particular order), who at the time of Notice of Requirement expressed a desire to be involved in the project: (a) Te Ākitai Waiohua; (b) Ngai Tai ki Tāmaki; (c) Ngaati Te Ata Waiohua;	

	(d) Ngaati Whanaunga;		
	(e) Ngāti Tamaoho;		
	(f) Ngāti Paoa Trust Board;		
	(g) Te Ahiwaru Waiohua;		
	(h) Ngāti Tamaterā; and		
	(i) Ngāti Maru.		
	Note: Other iwi not identified above may have an interest in the project and should be consulted		
Network Utility Operator	Has the same meaning as set out in section 166 of the RMA.		
NIMP	Network Integration Management Plan		
NUMP	Network Utilities Management Plan		
NOR	Notice of Requirement		
NZAA	New Zealand Archaeological Association		
OSMP	Open Space Management Plan		
Outline Plan	An outline plan prepared in accordance with section 176A of the RMA.		
Project Liaison Person	The person or persons appointed for the duration of the project's Construction Works to be the main point of contact for persons wanting information about the project or affected by the Construction Works.		
Protected Premises and Facilities (PPF)	Protected Premises and Facilities as defined in New Zealand Standard NZS 6806:2010: Acoustics – Road-traffic noise – New and altered roads.		
Requiring Authority	Has the same meaning as section 166 of the RMA and, for this designation is Auckland Transport.		
RMA	Resource Management Act 1991		
SCEMP	Stakeholder Communication and Engagement Management Plan		
Stakeholder	Stakeholders to be identified in accordance with Condition 5, which may include as appropriate: (a) adjacent owners and occupiers;		
	(a) adjacent owners and occupiers;(b) adjacent business owners and operators;		
	(c) central and local government bodies;		
	(d) community groups;		
	(e) developers;		
	(f) development agencies;		
	(g) educational facilities; and		
	(h) Network Utility Operators.		
Stage of Work	Any physical works that require the development of an Outline Plan.		
Start of Construction	The time when Construction Works (excluding Enabling Works) start.		
Suitably Qualified Person	A person (or persons) who can provide sufficient evidence to demonstrate their suitability, experience and competence in the relevant field of expertise.		
TMP	Tree Management Plan		
ULDMP	Urban and Landscape Design Management Plan		

General conditions

1. Activity in General Accordance with Plans and Information

- (a) Except as provided for in the conditions below, and subject to final design and Outline Plan(s), works within the designation shall be undertaken in general accordance with the following in Schedule 1:
 - (i) the project description; and
 - (ii) concept plan
- (b) Where there is inconsistency between:
 - (i) the project description and concept plan in Schedule 1 and the requirements of the following conditions, the conditions shall prevail;
 - (ii) the project description and concept plan in Schedule 1, and the management plans under the conditions of the designation, the requirements of the management plans shall prevail.

2. Project Information

- (a) A project website, or equivalent virtual information source, shall be established as soon as reasonably practicable, and within six months of the inclusion of this designation in the AUP.
- (b) All directly affected owners and occupiers shall be notified in writing as soon as reasonably practicable once the website or equivalent information source has been established. The project website or virtual information source shall include these conditions and shall provide information on:
 - (i) the status of the project;
 - (ii) anticipated construction timeframes;
 - (iii) contact details for enquiries;
 - (iv) the implications of the designation for landowners, occupiers and business owners and operators within the designation and where they can receive additional advice;
 - (v) a subscription service to enable receipt of project updates by email; and
 - (vi) when and how to apply for consent for works in the designation under section 176(1)(b) of the RMA.
- (c) At the start of detailed design for a Stage of Work, the project website or virtual information source shall be updated to provide information on the likely date for Start of Construction, and any Staging of Works.

3. Land Use Integration Process

- (a) The Requiring Authority shall set up a Land use Integration Process for the period between confirmation of the designation and the Start of Construction. The purpose of this process is to encourage and facilitate the integration of master planning and land use development activity on land directly affected or adjacent to the designation. To achieve this purpose:
 - (i) the Requiring Authority shall include the contact details of a nominated contact on the project website (or equivalent information source) required to be established by Condition (2)(b)(iii); and
 - (ii) the nominated contact shall be the main point of contact for a Developer or Development Agency wanting to work with the Requiring Authority to integrate their development plans or master planning with the designation.
- (b) At any time prior to the Start of Construction, the nominated contact will be available to engage with a Developer or Development Agency for the purpose of:
 - (i) responding to requests made to the Requiring Authority for information regarding design details that could assist with land use integration; and
 - (ii) receiving information from a Developer or Development Agency regarding master planning or land development details that could assist with land use integration.
- (c) Information requested or provided under Condition 3(b) above may include but not be limited to the following matters:
 - (i) design details including but not limited to:
 - A boundary treatment (e.g. the use of retaining walls or batter slopes);
 - B the horizontal and vertical alignment of the road (levels);
 - C potential locations for mid-block crossings;
 - D integration of stormwater infrastructure;
 - E traffic noise modelling contours; and
 - F outputs from flood modelling.
 - (ii) potential modifications to the extent of the designation in response to the information received through Condition 3(b)(ii);
 - (iii) a process for the Requiring Authority to undertake a technical review of or provide comments on any master planning or development proposal advanced by the Developer or Development Agency as it relates to integration with the project; and
 - (iv) details of how to apply for written consent from the Requiring Authority for any development proposal that relates to land that is within the designation under section 176(1)(b) of the RMA.
- (d) Where information is requested from the Requiring Authority and is available, the nominated contact shall provide the information unless there are reasonable grounds for not providing it.
- (e) The nominated contact shall maintain a record of the engagement between the Requiring Authority and Developers and Development Agencies for the period following the date in which this designation is included in the AUP through to the Start of Construction for a Stage of Work. The record shall include:
 - (i) details of any requests made to the Requiring Authority that could influence detailed design, the results of any engagement and, where such requests that could influence detailed design are declined, the reasons why the Requiring Authority has declined the requests; and
 - (ii) details of any requests to co-ordinate the forward work programme, where appropriate, with Development Agencies and Network Utility Operators.
- (f) The record shall be submitted to Council for information 10 working days prior to the Start of Construction for a Stage of Work

4. Early Childcare Centres

- (a) If the project is identified in a draft Regional Land Transport Plan that is released for public consultation, or funding is otherwise confirmed (whichever occurs first), the Requiring Authority shall begin engagement with the early childcare centres identified in Schedule 2 regarding the implementation of the Projects.
- (b) For clarity, if the early childcare centre no longer exists then this condition shall not apply.

5. Stakeholder Communication and Engagement Design

- (a) At least six months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall identify:
 - (i) a list of Stakeholders;
 - (ii) a list of properties within the designation which the Requiring Authority does not own or have occupation rights to; and
 - (iii) methods to engage with Stakeholders and the owners and occupiers of properties identified in (a)(i) (ii) above.
- (b) A record of (a) shall be submitted to the Manager for information with an Outline Plan for the relevant Stage of Work.
- (c) The purpose of this identification and engagement design process is to inform future engagement processes during detailed design and construction phases for a Stage of Work.

6. Designation Review

The Requiring Authority shall within six months of Completion of Construction or as soon as otherwise practicable:

- (a) review the extent of the designation to identify any areas of designated land that it no longer requires for the on-going operation, maintenance or mitigation of effects of the project; and
- (b) give notice to the Manager in accordance with section 182 of the RMA for the removal of those parts of the designation identified above.

7. Lapse

In accordance with section 184(1)(c) of the RMA, this designation shall lapse if not given effect to within 15 years from the date on which it is included in the AUP.

8. Network Utility Operators and Auckland Council (Section 176 Approval)

- (a) Prior to the start of Construction Works, Network Utility Operators with existing infrastructure and Auckland Council in relation to parks located within the designation will not require written consent under section 176 of the RMA for the following activities:
 - (i) operation, maintenance and repair works;
 - (ii) minor renewal works to existing network utilities or parks necessary for the on-going provision or security of supply of network utility operations:
 - (iii) minor works such as new service connections; and
 - (iv) the upgrade and replacement of existing network utilities in the same location with the same or similar effects on the works authorised by the designation as the existing utility.
- (b) To the extent that a record of written approval is required for the activities listed above, this condition shall constitute written approval.

Pre-construction conditions

9. Outline Plan

- (a) An Outline Plan (or Plans) shall be prepared in accordance with section 176A of the RMA.
- (b) Outline Plans (or Plan) may be submitted in parts or in stages to address particular activities (e.g. design or construction aspects), or a Stage of Work of the project.
- (c) Outline Plans shall include any management plan or plans that are relevant to the management of effects of those activities or Stage of Work, which may include:
 - (i) Network Integration Management Plan;
 - (ii) Open Space Management Plan;
 - (iii) Urban and Landscape Design Management Plan;
 - (iv) Construction Environmental Management Plan;
 - (v) Construction Traffic Management Plan;
 - (vi) Construction Noise and Vibration Management Plan;
 - (vii) Historic Heritage Management Plan;
 - (viii) Lizard Management Plan;
 - (ix) Tree Management Plan; and
 - (x) Network Utilities Management Plan.

Flood Hazard

For the purpose of Condition 10:

- (a) AEP means Annual Exceedance Probability;
- (b) Existing Authorised Habitable Floor means the floor level of any room (floor) in a residential building which is authorised and exists at the time the outline plan is submitted, excluding a laundry, bathroom, toilet or any room used solely as an entrance hall, passageway or garage;
- (c) Flood Prone Area means a potential ponding areas that may flood in a 1% AEP event and commonly comprise of topographical depression areas. The areas can occur naturally or as a result of constructed features. Identification of a potential Flood Prone Area would be by an assessment of residual flood risk in a 1% AEP event (e.g. from blockage of the project stormwater network) on land outside and adjacent to the designation following the application of Conditions 10(a)(i)-(iv).
- (d) Maximum Probable Development is the design case for consideration of future flows allowing for development within a catchment that takes into account the maximum impervious surface limits of the current zone or if the land is zoned Future Urban in the AUP, the probable level of development arising from zone changes;
- (e) Pre-Project development means existing site condition prior to the project (including existing buildings and roadways); and
- (f) Post-Project development means site condition after the project has been completed (including existing and new buildings and roadways).

10. Flood Hazard

- (a) The project shall be designed to achieve the following flood risk outcomes beyond the boundary of the designation:
 - (i) no increase in flood levels in a 1% AEP event for Existing Authorised Habitable Floors that are already subject to flooding or have a freeboard less than 500mm:
 - (ii) no increase in flood levels in a 1% AEP for authorised community, commercial, industrial and network utility building floors existing at the time the Outline Plan is submitted that are already subject to flooding or have a freeboard less than 300mm;
 - (iii) maximum of 50mm increase in flood levels in a 1% AEP event outside and adjacent to the designation between the Pre-Project Development and Post-Project Development scenarios;
 - (iv) no increase of Flood Hazard Class for the main access to authorised habitable dwellings existing at time the Outline Plan is submitted. The assessment shall be undertaken for the 1% AEP rainfall event and reference the hazard class in accordance with Schedule 3 to these conditions; and
 - (v) no new flood prone areas.
- (b) Compliance with this condition shall be demonstrated in the Outline Plan, which shall include flood modelling of the Pre-Project Development and Post-Project Development 1% AEP flood levels (for Maximum Probable Development land use and including climate change).
- (c) Where:
 - (i) the flood risk outcomes in (a) can be achieved through alternative measures outside of the designation such as flood stop banks, flood walls, raising Existing Authorised Habitable Floor level and new overland flow paths; or
 - (ii) the outcomes are varied at a specific location(s) through agreement with the relevant landowner,

confirmation shall be provided to the Manager that any necessary landowner and statutory approvals have been obtained for that alternative measure or varied outcome.

11. Southmall Access

The Outline Plan shall demonstrate how vehicular access will be reinstated from Weymouth Road to the Southmall site at 185 Great South Road, Manurewa. This shall include provision for left-in, left-out, and right-in traffic movements, unless otherwise agreed with the landowner. Consideration of intersection form shall include traffic signals as an option, and shall have regard to safety, bus lane operation, corridor efficiency, and provision of access to land south of Weymouth Road.

12. Existing property access

Prior to submission of the Outline Plan, consultation shall be undertaken with landowners and occupiers whose vehicle access to their property will be altered by the project. The Outline Plan shall demonstrate how safe reconfigured or alternate access will be provided, unless otherwise agreed with the affected landowner. This condition does not apply to business-zoned land.

13. Existing business property access

- (a) Prior to submission of the Outline Plan, consultation shall be undertaken with landowners and occupiers whose vehicle access to their property will be altered by the project.
- (b) Where vehicle access to a property within business-zoned land will be altered by the project, the Outline Plan shall demonstrate how safe access will be provided that:
 - (i) maintains and promotes the safe, effective, and efficient operation of the transport network;
 - (ii) recognises the role and function of all accesses including for loading and unloading of goods to the site; and
 - (iii) subject to achieving (i), also provides effective and efficient access to the site where practicable.
- (c) Where an alternative outcome has been agreed that does not comply with Condition 13(b), the Outline Plan shall provide details of the alternative outcome and how the safe, effective, and efficient operation of the transport network will be maintained.

Advice note: Condition 13 does not affect Auckland Transport's ability to exercise its statutory Road Controlling Authority powers to modify traffic or parking controls.

14. Management Plans

- (a) Any management plan shall:
 - (i) be prepared and implemented in accordance with the relevant management plan condition;
 - (ii) be prepared by a Suitably Qualified Person(s);
 - (iii) include sufficient detail relating to the management of effects associated with the relevant activities and/or Stage of Work to which it relates.
 - (iv) be submitted as part of an Outline Plan pursuant to section 176A of the RMA, with the exception of SCEMPs and CNVMP Schedules; and
 - (v) once finalised, uploaded to the project website or equivalent virtual information source.
- (b) Any management plan developed in accordance with Condition 14 may:
 - (i) be submitted in parts or in stages to address particular activities (e.g. design or construction aspects) a Stage of Work of the project, or to address specific activities authorised by the designation;
 - except for material changes, be amended to reflect any changes in design, construction methods or management of effects without further process;
- (c) Information shall be submitted with the management plan (or revised plan as referred to in (d) below) which summarises outcomes of consultation and any input received from Mana Whenua and Stakeholders as required by the relevant management plan condition. The summary shall note how this input has been incorporated or reflected in the management plan, or if not, the reasons why;
- (d) If there is a material change required to a management plan which has been submitted with an Outline Plan, the revised part of the plan shall be submitted to the Manager as an update to the Outline Plan or for Certification as soon as practicable following identification of the need for a revision; and
- (e) Any material changes to the SCEMPs are to be submitted to the Manager for information.

15. Stakeholder Communication and Engagement Management Plan (SCEMP)

- (a) A SCEMP shall be prepared in consultation with relevant Stakeholders prior to the Start of Construction. The objective of the SCEMP is to identify how the public and Stakeholders will be engaged with throughout the Construction Works.
- (b) To achieve the objective, the SCEMP shall include:
 - (i) a list of Stakeholders;
 - (ii) the contact details for the Project Liaison Person. These details shall be on the project website, or equivalent virtual information source, and prominently displayed at the main entrance(s) to the site(s);
 - (iii) methods and timing to engage with owners and occupiers whose access is directly affected;
 - (iv) methods to communicate key project milestones and the proposed hours of construction activities including outside of normal working hours and on weekends and public holidays, to the parties identified in (b)(i) above; and
 - (v) linkages and cross-references to communication and engagement methods set out in other conditions and management plans where relevant
- (c) Any SCEMP prepared for a Stage of Work shall be submitted to the Manager for information a minimum of 10 working days prior to the Start of Construction for a Stage of Work.

16. Cultural Advisory Report

- (a) At least six months prior to the start of detailed design for a Stage of Work, Mana Whenua shall be invited to prepare a Cultural Advisory Report for the project. The objective of the Cultural Advisory Report is to assist in understanding and identifying ngā taonga tuku iho ('treasures handed down by our ancestors') affected by the project, to inform their management and protection.
- (b) To achieve the objective, the Requiring Authority shall invite Mana Whenua to prepare a Cultural Advisory Report that:
 - (i) identifies the cultural sites, landscapes and values that have the potential to be affected by the construction and operation of the project;
 - (ii) sets out the desired outcomes for management of potential effects on cultural sites, landscapes and values;
 - (iii) identifies traditional cultural practices within the area that may be impacted by the project;
 - (iv) identifies opportunities for restoration and enhancement of identified cultural sites, landscapes and values within the project area;
 - (v) taking into account the outcomes of (i) to (iv) above, identify cultural matters and principles that should be considered in the development of the ULDMP referred to in Condition 20, HHMP referred to in Condition 31 and the CMP referred to in Condition 25; and
 - (vi) identifies and (if possible) nominates traditional names along the project alignment. Noting there may be formal statutory processes outside the project required in any decision-making.
- (c) The desired outcomes for management of potential effects on cultural sites, landscapes and values identified in the Cultural Advisory Report shall be discussed with Mana Whenua and those outcomes reflected in the relevant management plans where practicable; and
- (d) Conditions 16(a) and (b) above will cease to apply if:
 - (i) Mana Whenua have been invited to prepare a Cultural Advisory Report by a date at least six months prior to start of Construction Works; and
 - (ii) Mana Whenua have not provided a Cultural Advisory Report within six months prior to start of Construction Works.

17. Network Integration Management Plan (NIMP)

- (a) At least six months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall prepare, in collaboration with other relevant road controlling authorities, a NIMP. The objective of the NIMP is to identify how the project will integrate with the planned transport network in the Takaanini growth area to achieve an effective, efficient and safe land transport system.
- (b) To achieve this objective, the NIMP shall include details of the:
 - (i) project implementation approach and any staging of the project, including both design, management and operational matters; and
 - (ii) sequencing of the project with the planned transport network, including both design, management and operational matters.

18. Mana Whenua Kaitiaki Forum

- (a) At least 12 months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall invite Mana Whenua to establish a Mana Whenua Kaitiaki Forum. The objective of the Mana Whenua Kaitiaki Forum is to provide a forum for Mana Whenua to participate as partners in all phases of the project.
- (b) To achieve the objective, the Mana Whenua Kaitiaki Forum shall address (as a minimum) the following matters:
 - (i) how Mana Whenua will provide input into the design of the project. For example:
 - A how Mana Whenua values and narrative are incorporated through the form of the project and associated structures;
 - B how pou, art, sculptures, mahi toi or any other features located on land within or adjoining the project will be provided in a manner that represents the Māori history of the area and promotes a distinctiveness or sense of place;
 - (ii) how Mana Whenua will be engaged in the preparation of management plans and future consenting processes;
 - (iii) how mātauranga Māori and tikanga Māori will be recognised in all phases of the project;
 - (iv) where opportunities for Mana Whenua to participate in engagement with local communities, business associations, social institutions and community groups will be provided;
 - (v) where opportunities for Mana Whenua to support the physical, mental, social and economic wellbeing for iwi and the local community will be provided through the project. This could include:
 - A planting supplied through Mana Whenua and community based nurseries;
 - B local schools being involved in planting; and
 - C scholarships, cadetships and job creation.
 - (vi) the Requiring Authority shall provide reasonable resourcing, technical and administrative support for Mana Whenua including organising meetings at a local venue and the taking and dissemination of meeting minutes;
 - (vii) the frequency of meetings shall be agreed between the Requiring Authority and Mana Whenua; and
 - (viii) prior to the Start of Construction, the Requiring Authority shall produce a record of the Mana Whenua Kaitiaki Forum. The record of the Mana Whenua Kaitiaki Forum shall be provided to Mana Whenua and shall include (but not be limited to):
 - A details of how Mana Whenua have participated as partners in the project;
 - B details of how the matters set out in (b) will be incorporated into the project;
 - C how the objective of the Mana Whenua Kaitiaki Forum has been and will continue to be met: and
 - D details of how comments from Mana Whenua have been incorporated into the project and where not incorporated, the reasons why.
- (c) Mana Whenua shall be invited to identify and (if possible) nominate traditional names across the project such as for bridge structures. Noting there may be formal statutory processes outside the project required in any decision making.

	(d)	The Mana Whenua Kaitiaki Forum shall continue to meet for at least six months following Completion of Construction or as agreed with Mana Whenua.		
19.	Open Space Management Plan (OSMP)			
	(a)	(a) An OSMP shall be prepared prior to the Start of Construction for a Stage of Work for the open spaces listed in Schedule 4.		
	(b)	Auckland Council Parks shall be invited to participate in the development of the OSMP at least six months prior to the start of detailed design for a Stage of Work.		
	(c)	The objective of the OSMP is to minimise as far as practicable adverse effects of the project on the functions of the open spaces listed in Schedule 4.		
	(d)	To achieve the objective, the OSMP shall include details of:		
		 how the ongoing operation of and access (including walking and cycling) to those open spaces during construction will be maintained in accordance with the CTMP (Condition 26); 		
		(ii) opportunities to coordinate the forward work programme for those open spaces where appropriate with Auckland Council Parks;		
		(iii) measures to reasonably maintain the existing level of service of the affected open space; and		
		(iv) how comments from Auckland Council Parks have been incorporated in the OSMP, and where comments have not been incorporated, the reasons why.		
	Urba	an and Landscape Design Management Plan (ULDMP)		
20.	(a) A ULDMP shall be prepared prior to the Start of Construction for a Sta Work. The objective of the ULDMP(s) is to:			
		(i) enable integration of the project's permanent works into the surrounding landscape and urban context; and		
		 (ii) ensure that the project manages potential adverse landscape and visual effects as far as practicable and contributes to a quality urban environment. 		
	(b)	Mana Whenua shall be invited to participate in the development of the ULDMP(s) to provide input into relevant cultural landscape and design matters including how desired outcomes for management of potential effects on cultural sites, landscapes and values identified and discussed in accordance with the Cultural Advisory Report (Condition 16) and/or through the Mana Whenua Kaitiaki Forum (Condition 18) may be reflected in the ULDMP.		
	(c)	Relevant Stakeholders shall be invited to participate in the development of the ULDMP at least six months prior to the start of detailed design for a Stage of Work.		

- (a) To achieve the objective set out in Condition 20, the ULDMP(s) shall provide details of how the project:
 - (i) is designed to integrate with the adjacent urban (or proposed urban) and landscape context, including the surrounding existing or proposed topography, urban environment (e.g. centres and density of built form), natural environment, landscape character and open space zones;
 - (ii) provides appropriate walking and cycling connectivity to, and interfaces with, existing or proposed adjacent land uses (including public transport and walking and cycling facilities);
 - (iii) promotes inclusive access (where appropriate);
 - (iv) promotes a sense of personal safety by aligning with best practice guidelines, such as:
 - A Crime Prevention Through Environmental Design (CPTED) principles;
 - B Safety in Design (SID) requirements; and
 - C Maintenance in Design (MID) requirements and antivandalism/anti-graffiti measures.
 - (v) has responded to matters identified through the Land use Integration Process (Condition 3); and
 - (b) The ULDMP shall be prepared in general accordance with:
 - (i) Auckland Transport's Urban Roads and Streets Design Guide or any subsequent updated version;
 - (ii) New Zealand Transport Agency Urban Design Guidelines: Bridging the Gap (2013) or any subsequent updated version;
 - (iii) New Zealand Transport Agency Landscape Guidelines (2013) or any subsequent updated version;
 - (iv) New Zealand Transport Agency P39 Standard Specification for Highway Landscape Treatments (2013) or any subsequent updated version; and
 - (v) Auckland's Urban Ngahere (Forest) Strategy or any subsequent updated version.

22. The ULDMP(s) shall include:

- (a) A concept plan which depicts the overall landscape and urban design concept, and explain the rationale for the landscape and urban design proposals;
- (b) Developed design concepts, including principles for walking and cycling facilities and public transport;
- (c) Landscape and urban design details that cover the following:
 - road design elements such as intersection form, carriageway gradient and associated earthworks contouring including cut and fill batters and the interface with adjacent land uses and existing roads (including slip lanes), benching, spoil disposal sites, median width and treatment, roadside width and treatment;
 - (ii) roadside elements such as lighting, fencing, wayfinding and signage;
 - (iii) architectural and landscape treatment of all major structures, including bridges and retaining walls;
 - (iv) architectural and landscape treatment of noise barriers;
 - (v) landscape treatment and planting of permanent stormwater control wetlands and swales;
 - (vi) integration of passenger transport;
 - (vii) pedestrian and cycle facilities including paths, road crossings and dedicated pedestrian/ cycle bridges or underpasses;
 - (viii) historic heritage places with reference to the HHMP (Condition 31); and
 - (ix) re-instatement of construction and site compound areas; and
 - (x) features disturbed during construction and intended to be reinstated such as:
 - A boundary features;
 - B driveways;
 - C accessways; and
 - D fences
- (d) The ULDMP shall also include the following planting and maintenance details:
 - (i) planting design details including:
 - A identification of existing trees and vegetation that will be retained with reference to the TMP and LMP. Where practicable, mature trees and native vegetation should be retained;
 - B street trees, shrubs and ground cover suitable for the location;
 - C treatment of fill slopes to integrate with adjacent land use, streams, riparian margins and open space zones;
 - D identification of any planting requirements under the LMP (Condition 33) and TMP (Condition 34);
 - E integration of any planting required by conditions of any resource consents for the project; and
 - F re-instatement planting of construction and site compound areas as appropriate.
 - (ii) a planting programme including the staging of planting in relation to the construction programme which shall, as far as practicable, include provision for planting within each planting season following completion of each Stage of Work; and
 - (iii) detailed specifications relating to the following:

- A weed control and clearance;
- B pest animal management (to support plant establishment);
- C ground preparation (top soiling and decompaction);
- D mulching; and
- E plant sourcing and planting, including hydroseeding and grassing, and use of eco-sourced species.

Construction conditions

23. Construction Environmental Management Plan (CEMP)

- (a) A CEMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the CEMP is to set out the management procedures and construction methods to be undertaken to, avoid, remedy or mitigate any adverse effects associated with Construction Works as far as practicable.
- (b) To achieve the objective, the CEMP shall include:
 - (i) the roles and responsibilities of staff and contractors;
 - (ii) details of the site or project manager and the Project Liaison Person, including their contact details (phone and email address);
 - (iii) the Construction Works programmes and the staging approach, and the proposed hours of work;
 - (iv) details of the proposed construction yards including temporary screening when adjacent to residential areas;
 - (v) details of the proposed construction lighting;
 - (vi) methods for controlling dust and the removal of debris and demolition of construction materials from public roads or places;
 - (vii) methods for providing for the health and safety of the general public;
 - (viii) measures to mitigate flood hazard effects such as siting stockpiles out of floodplains, minimising obstruction to flood flows, actions to respond to warnings of heavy rain;
 - (ix) procedures for incident management;
 - (x) location and procedures for the refuelling and maintenance of plant and equipment to avoid discharges of fuels or lubricants to watercourses;
 - (xi) measures to address the storage of fuels, lubricants, hazardous and/or dangerous materials, along with contingency procedures to address emergency spill response(s) and clean up;
 - (xii) procedures for responding to complaints about Construction Works; and
 - (xiii) methods for amending and updating the CEMP as required.

24. Complaints Process

- (a) At all times during Construction Works, a record of any complaints received about the Construction Works shall be maintained. The record shall include:
 - (i) the date, time and nature of the complaint;
 - (ii) the name, phone number and address of the complainant (unless the complainant wishes to remain anonymous):
 - (iii) measures taken to respond to the complaint (including a record of the response provided to the complainant) or confirmation of no action if deemed appropriate;
 - (iv) the outcome of the investigation into the complaint; and
 - (v) any other activities in the area, unrelated to the project that may have contributed to the complaint, such as non-project construction, fires, traffic accidents or unusually dusty conditions generally.
- (b) A copy of the complaints record required by this condition shall be made available to the Manager upon request as soon as practicable after the request is made.

25. Cultural Monitoring Plan (CMP)

- (a) Prior to the Start of Construction, a CMP shall be prepared by a Suitably Qualified Person(s) identified in collaboration with Mana Whenua. The objective of the CMP is to identify methods for undertaking cultural monitoring to assist with management of any cultural effects during Construction Works.
- (b) To achieve the objective, the CMP shall include:
 - (i) requirements for formal dedication or cultural interpretation to be undertaken prior to start of Construction Works in areas identified as having significance to Mana Whenua;
 - (ii) requirements and protocols for cultural inductions for contractors and subcontractors;
 - (iii) identification of activities, sites and areas where cultural monitoring is required during particular Construction Works;
 - (iv) identification of personnel to undertake cultural monitoring, including any geographic definition of their responsibilities; and
 - details of personnel to assist with management of any cultural effects identified during cultural monitoring, including implementation of the Accidental Discovery Protocol
- (c) If Enabling Works involving soil disturbance are undertaken prior to the Start of Construction, an Enabling Works CMP shall be prepared by a Suitably Qualified Person identified in collaboration with Mana Whenua. This plan may be prepared as a standalone Enabling Works CMP or be included in the main Construction Works CMP.

Advice Note: Where appropriate, the CMP shall align with the requirements of other conditions of the designation and resource consents for the project which require monitoring during Construction Works.

26. Construction Traffic Management Plan (CTMP)

- (a) A CTMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the CTMP is to avoid, remedy or mitigate, as far as practicable, adverse construction traffic effects.
- (b) To achieve this objective, the CTMP shall include:
 - (i) methods to manage the effects of temporary traffic management activities on traffic;
 - (ii) measures to ensure the safety of all transport users;
 - (iii) the estimated numbers, frequencies, routes and timing of traffic movements, including any specific non-working or non-movement hours to manage vehicular and pedestrian traffic near Educational Facilities or to manage traffic congestion;
 - site access routes and access points for heavy vehicles, the size and location of parking areas for plant, construction vehicles and the vehicles of workers and visitors;
 - (v) identification of detour routes and other methods to ensure the safe management and maintenance of traffic flows, including public transport, pedestrians and cyclists;
 - (vi) methods to maintain access to and within property and/or private roads where practicable, or to provide alternative arrangements when it will not be, including details of how access is managed for loading and unloading of goods. Engagement with landowners and occupiers whose access is directly affected shall be undertaken in accordance with Condition 15(b)(iii);
 - (vii) the management approach to loads on heavy vehicles, including covering loads of fine material, the use of wheel-wash facilities at site exit points and the timely removal of any material deposited or spilled on public roads;
 - (viii) methods that will be undertaken to communicate traffic management measures to affected road users (e.g. residents/ public/ Stakeholders/ emergency services);
 - (ix) details of minimum network performance parameters during the construction phase, including any measures to monitor compliance with the performance parameters; and
 - (x) details of any measures proposed to be implemented in the event of thresholds identified in (ix) being exceeded.
- (c) Auditing, monitoring and reporting requirements relating to traffic management activities shall be undertaken in accordance with the New Zealand Guide to Temporary Traffic Management (April 2013) or any subsequent version.

27. Construction Noise Standards

(a) Construction noise shall be measured and assessed in accordance with NZS6803:1999 Acoustics – Construction Noise and shall comply with the noise standards set out in the following table as far as practicable:

Table 27-1 Construction Noise Standards

Day of week	Time period	L _{Aeq(15min)}	L _{AFmax}			
Occupied activity so	Occupied activity sensitive to noise					
Weekday	0630h - 0730h	55 dB	75 dB			
	0730h - 1800h	70 dB	85 dB			
	1800h - 2000h	65 dB	80 dB			
	2000h - 0630h	45 dB	75 dB			
Saturday	0630h - 0730h	45 dB	75 dB			
	0730h - 1800h	70 dB	85 dB			
	1800h - 2000h	45 dB	75 dB			
	2000h - 0630h	45 dB	75 dB			
Sunday and Public	0630h - 0730h	45 dB	75 dB			
Holidays	0730h - 1800h	55 dB	85 dB			
	1800h - 2000h	45 dB	75 dB			
	2000h - 0630h	45 dB	75 dB			
Other occupied buildings						
All	0730h – 1800h	70 dB				
	1800h – 0730h	75 dB				

(b) Where compliance with the noise standards set out in Table 27-1 is not practicable, the methodology in Condition 30 shall apply.

28. Construction Vibration Standards

(a) Construction vibration shall be measured in accordance with ISO 4866:2010 Mechanical vibration and shock – Vibration of fixed structures – Guidelines for the measurement of vibrations and evaluation of their effects on structures and shall comply with the vibration standards set out in the following table as far as practicable.

Table 28-1 Construction Vibration Standards

Receiver	Details	Category A	Category B
Occupied activities sensitive to noise	Night-time 2000h - 0630h	0.3mm/s ppv	2mm/s ppv
	Daytime 0630h - 2000h	2mm/s ppv	5mm/s ppv
Other occupied buildings	Daytime 0630h - 2000h	2mm/s ppv	5mm/s ppv
All other buildings	At all other times	Tables 1 and 3 of DI	N4150-3:1999

(b) Where compliance with the vibration standards set out in Table 28-1 is not practicable, the methodology in Condition 30 shall apply.

29. Construction Noise and Vibration Management Plan (CNVMP)

- (a) A CNVMP shall be prepared by a Suitably Qualified and Experienced Person prior to the Start of Construction for a Stage of Work. A CNVMP shall be implemented during the Stage of Work to which it relates. The objective of the CNVMP is to provide a framework for the development and implementation of the Best Practicable Option for the management of construction noise and vibration effects to achieve the construction noise and vibration standards set out in Conditions 27 and 28 to the extent practicable.
- (b) To achieve the objective, the CNVMP shall be prepared in accordance with Annex E2 of the New Zealand Standard NZS6803:1999 'Acoustics Construction Noise' (NZS6803:1999) and shall as a minimum, address the following:
 - (i) description of the works and anticipated equipment/processes;
 - (ii) hours of operation, including times and days when construction activities would occur:
 - (iii) the construction noise and vibration standards for the project;
 - (iv) identification of receivers where noise and vibration standards apply;
 - (v) a hierarchy of management and mitigation options, including any requirements to limit night works and works during other sensitive times, including Sundays and public holidays as far as practicable;
 - (vi) methods and frequency for monitoring and reporting on construction noise and vibration;
 - (vii) procedures for communication and engagement with nearby residents and Stakeholders, including notification of proposed construction activities, the period of construction activities, and management of noise and vibration complaints;
 - (viii) contact details of the Project Liaison Person;
 - (ix) procedures for the regular training of the operators of construction equipment to minimise noise and vibration as well as expected construction site behaviours for all workers:
 - (x) procedures and requirements for the preparation of a Schedule to the CNVMP (Schedule) for those areas where compliance with the noise Condition 27 and/or vibration standards Condition 28 Category B will not be practicable;
 - (xi) identification of trigger levels for undertaking building condition surveys, which shall be Category B day time levels;
 - (xii) procedures and trigger levels for undertaking building condition surveys before and after works to determine whether any cosmetic or structural damage has occurred as a result of construction vibration;
 - (xiii) methodology and programme of desktop and field audits and inspections to be undertaken to ensure that CNVMP, Schedules and the Best Practicable Option for management of effects are being implemented; and
 - (xiv) requirements for review and update of the CNVMP.

30. Schedule to a CNVMP

- (a) A Schedule to the CNVMP (Schedule) shall be prepared prior to the Start of Construction of an activity to which it relates by a Suitably Qualified Person, in consultation with the owners and occupiers of sites subject to the Schedule, when:
 - (i) construction noise is either predicted or measured to exceed the noise standards in Condition 27 except where the exceedance of the L_{Aeq} criteria is no greater than 5 decibels and does not exceed:
 - A 0630 2000: 2 periods of up to 2 consecutive weeks in any 2 months, or
 - B 2000 0630: 1 period of up to 2 consecutive nights in any 10 days.
 - (ii) construction vibration is either predicted or measured to exceed the Category B standard at the receivers in Condition 28.
- (b) The objective of the Schedule is to set out the Best Practicable Option measures to manage noise and/or vibration effects of the construction activity beyond those measures set out in the CNVMP.
- (c) To achieve the objective, the Schedule shall include details such as:
 - (i) construction activity location, start and finish dates;
 - (ii) the nearest neighbours to the construction activity;
 - (iii) the predicted noise and/or vibration level for all receivers where the levels are predicted or measured to exceed the applicable standards and predicted duration of the exceedance;
 - (iv) for works proposed between 2000h and 0630h, the reasons why the proposed works must be undertaken during these hours and why they cannot be practicably undertaken during the daytime;
 - (v) the proposed mitigation options that have been selected, and the options that have been discounted as being impracticable and the reasons why;
 - (vi) the consultation undertaken with owners and occupiers of sites subject to the Schedule, and how consultation has and has not been taken into account; and
 - (vii) location, times and types of monitoring.
- (d) The Schedule shall be submitted to the Manager for Certification at least five working days (except in unforeseen circumstances) in advance of Construction Works that are covered by the scope of the Schedule and shall form part of the CNVMP.
- (e) The CNVMP Schedule shall be deemed certified five working days from the submission of the CNVMP Schedule where no written confirmation of Certification has been received.
- (f) Where material changes are made to a Schedule required by this condition, the Requiring Authority shall consult the owners and/or occupiers of sites subject to the Schedule prior to submitting the amended Schedule to the Manager for Certification in accordance with (d) above. The amended Schedule shall document the consultation undertaken with those owners and occupiers, and how consultation outcomes have and have not been taken into account.

31. Historic Heritage Management Plan (HHMP)

- (a) A HHMP shall be prepared in consultation with Council, HNZPT and Mana Whenua prior to the Start of Construction for a Stage of Work. The objective of the HHMP is to protect historic heritage and to remedy and mitigate any residual effects as far as practicable.
- (b) To achieve the objective, the HHMP shall identify:
 - (i) any adverse direct and indirect effects on historic heritage sites and measures to appropriately avoid, remedy or mitigate any such effects, including a tabulated summary of these effects and measures;
 - (ii) methods for the identification and assessment of potential historic heritage places within the designation to inform detailed design;
 - (iii) known historic heritage places and potential archaeological sites within the designation, including identifying any archaeological sites for which an Archaeological Authority under the HNZPTA will be sought or has been granted;
 - (iv) any unrecorded archaeological sites or post-1900 heritage sites within the designation, which shall also be documented and recorded;
 - (v) roles, responsibilities and contact details of project personnel, Council and HNZPT representatives, Mana Whenua representatives, and relevant agencies involved with heritage and archaeological matters including surveys, monitoring of Construction Works, compliance with AUP accidental discovery rule, and monitoring of conditions;
 - (vi) specific areas to be investigated, monitored and recorded to the extent these are directly affected by the project;
 - (vii) the proposed methodology for investigating and recording post-1900 historic heritage sites (including buildings) that need to be destroyed, demolished or relocated, including details of their condition, measures to mitigate any adverse effects and timeframe for implementing the proposed methodology, in accordance with the HNZPT Archaeological Guidelines Series No.1: Investigation and Recording of Buildings and Standing Structures (November 2018, or any subsequent version;
 - (viii) methods to acknowledge cultural values identified through the Mana Whenua Kaitiaki Forum (Condition 18) and CAR (Condition 16) where archaeological sites also involve ngā taonga tuku iho (treasures handed down by our ancestors) and where feasible and practicable to do so;
 - (ix) methods for avoiding, remedying or mitigation adverse effects on historic heritage places and sites within the designation during Construction Works as far as practicable. These methods shall include, but are not limited to:
 - A security fencing or hoardings around historic heritage places to protect them from damage during construction or unauthorised access;
 - B measures to mitigate adverse effects on historic heritage sites that achieve positive historic heritage outcomes such as increased public awareness and interpretation signage; and
 - C training requirements and inductions for contractors and subcontractors on historic heritage places within the designation, legal obligations relating to accidental and/or unexpected discoveries, the AUP Accidental Discovery Rule (E11.6.1). The training shall be undertaken prior to the Start of Construction, under the guidance of a Suitably Qualified Person and Mana Whenua representatives (to the extent the training relates to cultural values identified under Condition 16 and Condition 18).

Accidental Discoveries

Advice Note:

The requirements for accidental discoveries of heritage items are set out in Rule E11.6.1 of the AUP

32. Pre-Construction Lizard Survey

- (a) At the start of detailed design for a Stage of Work, an updated survey of native lizards and their habitat in the locations shown in Schedule 5 shall be undertaken by a Suitably Qualified Person. The purpose of the survey is to inform lizard management by:
 - (i) confirming whether the native lizards of value within the locations shown in Schedule 5 are still present; and
 - (ii) confirming whether the project will or may have a moderate or greater level of ecological effect on native lizards of value in those locations, prior to implementation of impact management measures, as determined in accordance with the EIANZ guidelines.
- (b) If the survey confirms the presence of native lizards of value in accordance with Condition 32(a)(i) and that effects are likely in accordance with Condition 32(a)(ii) then a Lizard Management Plan (or Plans) shall be prepared in accordance with Condition 33 for these areas (Confirmed Lizard Management Plan Areas).

33. Lizard Management Plan (LMP)

- (a) A LMP shall be prepared for any Confirmed Lizard Management Plan Areas (in accordance with Condition 32) prior to the Start of Construction for a Stage of Work. The objective of the LMP is to minimise effects of the project on native lizards of value in Confirmed Lizard Management Plan Areas as far as practicable.
- (b) To achieve the objective, the LMP shall set out the methods which may include:
 - (i) a description of the methodology and timing for survey, trapping and relocation of native lizards rescued;
 - (ii) a description of the relocation site(s), including:
 - A any measures to ensure the relocation site is suitable protected and remains viable (e.g. covenants, consent notices etc.);
 - B any measures to ensure the relocation site is suitably managed to ensure appropriate habitat for native lizards (e.g. provision of additional refugia, weed and pest management); and
 - (iii) any proposed monitoring of relocation sites if necessary to evaluate translocation success.
- (c) The LMP shall be consistent with any native lizard management measures to be undertaken in compliance with conditions of any regional resource consents granted for the project.

Advice Note:

Depending on the potential effects of the project, the regional consents for the project may include the following monitoring and management plans:

- (i) stream and/or wetland restoration plans;
- (ii) vegetation restoration plans; and
- (iii) fauna management plans (eg avifauna, bats).

34. Tree Management Plan (TMP)

- (a) Prior to the Start of Construction for a Stage of Work, a TMP shall be prepared. The objective of the TMP is to avoid, remedy or mitigate effects of construction activities on trees identified in Schedule 6.
- (b) To achieve the objective, the TMP shall:
 - (i) confirm that the trees listed in Schedule 6 still exist; and
 - (ii) demonstrate how the design and location of project works has avoided, remedied or mitigated any effects on any tree listed in Schedule 6. This may include:
 - A planting to replace trees that require removal (with reference to the ULDMP planting design details in Condition 22);
 - B tree protection zones and tree protection measures such as protective fencing, ground protection and physical protection of roots, trunks and branches; and
 - C methods for work within the rootzone of trees that are to be retained in line with accepted arboricultural standards.

35. Network Utilities Management Plan (NUMP)

- (a) A NUMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the NUMP is to set out a framework for protecting, relocating and working in proximity to existing network utilities.
- (b) To achieve the objective, the NUMP shall include methods to:
 - (i) provide access for maintenance at all reasonable times, or emergency works at all times during construction activities;
 - (ii) protect and where necessary, relocate existing network utilities;
 - (iii) manage the effects of dust and any other material potentially resulting from construction activities and able to cause material damage, beyond normal wear and tear to overhead transmission lines in the project area;
 - (iv) demonstrate compliance with relevant standards and Codes of Practice including, where relevant, the NZECP 34:2001 New Zealand Electrical Code of Practice for Electrical Safe Distances 2001; AS/NZS 4853:2012 Electrical hazards on Metallic Pipelines; and AS/NZS 2885 Pipelines – Gas and Liquid Petroleum.
- (c) The NUMP shall be prepared in consultation with the relevant Network Utility Operators(s) who have assets that are directly affected by the project.
- (d) The development of the NUMP shall consider opportunities to coordinate future work programmes with other Network Utility Operator(s) during detailed design where practicable.
- (e) The NUMP shall describe how any comments from the Network Utility Operator in relation to its assets have been addressed.
- (f) Any comments received from the Network Utility Operator shall be considered when finalising the NUMP.
- (g) Any amendments to the NUMP related to the assets of a Network Utility Operator shall be prepared in consultation with that asset owner.

Operational conditions

36. Low Noise Road Surface

Asphaltic concrete surfacing (or equivalent low noise road surface) shall be implemented within 12 months of Completion of Construction of the project.

37. Future Resurfacing Work

- (a) Any future resurfacing works of the project shall be undertaken in accordance with the Auckland Transport Reseal Guidelines, Asset Management and Systems 2013 or any updated version and asphaltic concrete surfacing (or equivalent low noise road surface) shall be implemented where:
 - (i) the volume of traffic exceeds 10,000 vehicles per day; or
 - (ii) the road is subject to high wear and tear (such as cul de sac heads, roundabouts and main road intersections); or
 - (iii) it is in an industrial or commercial area where there is a high concentration of truck traffic: or
 - (iv) it is subject to high usage by pedestrians, such as town centres, hospitals, shopping centres and schools.
- (b) Prior to commencing any future resurfacing works, the Requiring Authority shall advise the Manager if any of the triggers in Condition 37(a)(i) (iv) are not met by the road or a section of it and therefore where the application of asphaltic concrete surfacing (or equivalent low noise road surface) is no longer required on the road or a section of it. Such advice shall also indicate when any resealing is to occur.

Traffic Noise

For the purposes of Conditions 38 to 49:

- (a) Building-Modification Mitigation has the same meaning as in NZS 6806;
- (b) Design year has the same meaning as in NZS 6806;
- (c) Detailed Mitigation Options means the fully detailed design of the Selected Mitigation Options, with all practical issues addressed;
- (d) Habitable Space has the same meaning as in NZS 6806;
- (e) Identified Noise Criteria Category means the Noise Criteria Category for a PPF identified in Schedule 7: Identified PPFs Noise Criteria Categories;
- (f) Mitigation has the same meaning as in NZS 6806:2010 Acoustics Road-traffic noise New and altered roads;
- (g) Noise Criteria Categories means the groups of preference for sound levels established in accordance with NZS 6806 when determining the Best Practicable Option for noise mitigation (i.e. Categories A, B and C);
- (h) NZS 6806 means New Zealand Standard NZS 6806:2010 Acoustics Road-traffic noise New and altered roads:
- (i) Protected Premises and Facilities (PPFs) means only the premises and facilities identified in Schedule 7: PPFs Noise Criteria Categories;
- (j) Selected Mitigation Options means the preferred mitigation option resulting from a Best Practicable Option assessment undertaken in accordance with NZS 6806 taking into account any low noise road surface to be implemented in accordance with Condition 36; and
- (k) Structural Mitigation has the same meaning as in NZS 6806.

38.	The Noise Criteria Categories identified in Schedule 7: PPFs Noise Criteria Categories at each of the PPFs shall be achieved where practicable and subject to Conditions 38 to 49 (all traffic noise conditions).
	The Noise Criteria Categories do not need to be complied with at a PPF where:
	(a) the PPF no longer exists; or (b) agreement of the landowner has been obtained confirming that the Noise Criteria Category does not need to be met.
	Achievement of the Noise Criteria Categories for PPFs shall be by reference to a traffic forecast for a high growth scenario in a design year at least 10 years after the programmed opening of the project.
39.	As part of the detailed design of the project, a Suitably Qualified Person shall determine the Selected Mitigation Options for the PPFs identified on Schedule 7 PPFs Noise Criteria Categories.
	For the avoidance of doubt, the low noise road surface implemented in accordance with Condition 36 may be (or be part of) the Selected Mitigation Option(s).
40.	Prior to the Start of Construction of the project, a Suitably Qualified Person shall develop the Detailed Mitigation Options for the PPFs identified in Schedule 7 PPFs Noise Criteria Categories, taking into account the Selected Mitigation Options.
41.	If the Detailed Mitigation Options would result in the Identified Noise Criteria Category changing to a less stringent Category, e.g. from Category A to B or Category B to C, at any relevant PPF, a Suitably Qualified Person shall provide confirmation to the Manager that the Detailed Mitigation Option would be consistent with adopting the Best Practicable Option in accordance with NZS 6806 prior to implementation.
42.	The Detailed Mitigation Options shall be implemented prior to Completion of Construction of the project, with the exception of any low-noise road surfaces, which shall be implemented within 12 months of Completion of Construction.
43.	Prior to the Start of Construction, a Suitably Qualified Person shall identify those PPFs which, following implementation of all the Detailed Mitigation Options, will not be Noise Criteria Categories A or B and where Building-Modification Mitigation might be required to achieve 40 dB L _{Aeq(24h)} inside Habitable Spaces ('Category C Buildings').
44.	Prior to the Start of Construction in the vicinity of each Category C Building, the Requiring Authority shall write to the owner of the Category C Building requesting entry to assess the noise reduction performance of the existing building envelope. If the building owner agrees to entry within three months of the date of the Requiring Authority's letter, the Requiring Authority shall instruct a Suitably Qualified Person to visit the building and assess the noise reduction performance of the existing building envelope.

45.		ach Category C Building identified, the Requiring Authority is deemed to have blied with Condition 44 above if:
	(a)	the Requiring Authority's Suitably Qualified Person has visited the building and assessed the noise reduction performance of the building envelope; or
	(b)	the building owner agreed to entry, but the Requiring Authority could not gain entry for some reason (such as entry denied by a tenant); or
	(c)	the building owner did not agree to entry within three months of the date of the Requiring Authority's letter sent in accordance with Condition 44 above (including where the owner did not respond within that period); or
	(d)	the building owner cannot, after reasonable enquiry, be found prior to Completion of Construction of the project.
		of (b) to (d) above apply to a Category C Building, the Requiring Authority is not red to implement Building-Modification Mitigation to that building.
46.	accor	ect to Condition 45 above, within six months of the assessment undertaken in dance with Condition 44, the Requiring Authority shall write to the owner of each gory C Building advising:
	(a)	if Building-Modification Mitigation is required to achieve 40 dB LAeq(24h) inside habitable spaces; and
	(b)	the options available for Building-Modification Mitigation to the building, if required; and
	(c)	that the owner has three months to decide whether to accept Building-Modification Mitigation to the building and to advise which option for Building-Modification Mitigation the owner prefers, if the Requiring Authority has advised that more than one option is available.
47.	Requi imple	an agreement on Building-Modification Mitigation is reached between the iring Authority and the owner of a Category C Building, the mitigation shall be mented, including any third party authorisations required, in a reasonable and ical timeframe agreed between the Requiring Authority and the owner.
48.		ect to Condition 45, where Building-Modification Mitigation is required, the iiring Authority is deemed to have complied with Condition 47 if:
	(a)	the Requiring Authority has completed Building Modification Mitigation to the building; or
	(b)	an alternative agreement for mitigation is reached between the Requiring Authority and the building owner; or
	(c)	the building owner did not accept the Requiring Authority's offer to implement Building-Modification Mitigation within three months of the date of the Requiring Authority's letter sent in accordance with Condition 45 (including where the owner did not respond within that period); or
	(d)	the building owner cannot, after reasonable enquiry, be found prior to Completion of Construction of the project.
49.		Detailed Mitigation Options shall be maintained so they retain their noise ction performance as far as practicable.

Attachments

Schedule 1: General accordance plans and information

Project Description

The proposed work is for the construction, operation, and maintenance of upgrades to Weymouth and Alfriston Roads between Selwyn Road and Saralee Drive; and to Great South Road between Halver Road and Myers Road. The proposed work is shown in the following Concept Plan and includes:

- a) Upgrades to Weymouth Road, Alfriston Road, and Great South Road to accommodate bus priority measures, general traffic lanes and walking and cycling facilities;
- b) Associated works including intersections, bridges, embankments, retaining walls, culverts, and stormwater management systems;
- c) Reconfiguration of local roads, where the proposed work intersects with local roads; and
- d) Construction activities including vegetation removal, establishment of construction areas and the regrading of driveways.

Schedule 2: Early Childcare Centres

Street Address	Legal Description	Operating Name
52 Alfriston Road	Lot 1 DP 197162	All About Children Childcare,
	Lot 2 DP 49826	Opaheke Papakura
120 Alfriston Road	Lot 1 DP 205600	The Rainbow Corner Early Learning Centre

Schedule 3: Flood Hazard Class

The combined flood hazard curves shown below set hazard thresholds that relate to the vulnerability of the community when interacting with floodwaters. The combined curves are divided into hazard classifications that relate to specific vulnerability thresholds

The vulnerability thresholds identified in the flood hazard curves can be applied to the best description of flood behaviour available for a subject site. In this regard, the hazard curves can be applied equally to flood behaviour estimates from measured data, simpler 1D numerical modelling approaches, through to complex 2D model estimates with the level of accuracy and uncertainty of the flood hazard estimate linked to the method used to derive the flood behaviour estimate.

Appendix E - Auckland Transport's Modifications to NoR 4 conditions

[#### – Council to allocate] Takaanini FTN – Porchester Road Upgrade; and Popes Road Upgrade

Designation Number	[XXXX]
Requiring Authority	Auckland Transport
Location	Porchester Road between Alfriston and Walters Road, and Popes Road between Takanini School Road and Porchester Road.
Lapse Date	In accordance with section 184(1)(c) of the RMA, this designation shall lapse if not given effect to within 15 years from the date on which it is included in the AUP.

Purpose

To construct, operate and maintain upgrades to arterial transport corridors and associated infrastructure.

Conditions

Abbreviations and definitions

Acronym/Term	Definition
Activity sensitive to noise	Any dwelling, visitor accommodation, boarding house, marae, papakāinga, integrated residential development, retirement village, supported residential care, care centre, lecture theatre in a tertiary Education Facility, classroom in an Education Facility and healthcare facility with an overnight stay facility.
AUP	Auckland Unitary Plan.
BPO or Best Practicable Option	Has the same meaning as in section 2 of the RMA 1991.
CEMP	Construction Environmental Management Plan
Certification of material changes to management plans	Confirmation from the Manager that a material change to a management plan has been prepared in accordance with the condition to which it relates.
	A material change to a management plan shall be deemed certified: (a) where the Requiring Authority has received written confirmation from the Manager that the material change to the management plan is certified; or
	(b) 10 working days from the submission of the material change to the management plan where no written confirmation of certification has been received.
CMP	Cultural Monitoring Plan
CNVMP	Construction Noise and Vibration Management Plan
CNVMP Schedule or Schedule	A schedule to the CNVMP
Completion of Construction	When construction of the project (or part of the project) is complete and it is available for use.
Construction Works	Activities undertaken to construct the project excluding Enabling Works.
Council	Auckland Council

СТМР	Construction Traffic Management Plan
Developer	Any legal entity that intends to master plan or develop land adjacent to the designation.
Development Agency	Public entities involved in development projects.
Educational Facility	Facility used for education to secondary level. Includes: (a) schools and outdoor education facilities; and (b) accommodation, administrative, cultural, religious, health, retail and communal facilities accessory to the above. Excludes: (a) care centres; and (b) tertiary education facilities.
EIANZ Guidelines	Ecological Impact Assessment: EIANZ guidelines for use in New Zealand: terrestrial and freshwater ecosystems, second edition, dated May 2018.
Enabling Works	Includes, but is not limited to, the following and similar activities: (a) geotechnical investigations (including trial embankments) (b) archaeological site investigations (c) formation of access for geotechnical investigations (d) establishment of site yards, site entrances and fencing (e) constructing and sealing site access roads (f) demolition or removal of buildings and structures (g) relocation of services; and (h) establishment of mitigation measures (such as erosion and sediment control measures, temporary noise walls, earth bunds and planting)
HHMP	Historic Heritage Management Plan
HNZPT	Heritage New Zealand Pouhere Taonga.
HNZPTA	Heritage New Zealand Pouhere Taonga Act 2014
Manager	The Manager – Resource Consents of the Auckland Council, or authorised delegate.
Mana Whenua	Mana Whenua as referred to in the conditions are considered to be, but not limited to, the following (in no particular order), who at the time of Notice of Requirement expressed a desire to be involved in the project: (a) Te Ākitai Waiohua; (b) Ngai Tai ki Tāmaki; (c) Ngaati Te Ata Waiohua; (d) Ngaati Whanaunga; (e) Ngāti Tamaoho; (f) Ngāti Paoa Trust Board; (g) Te Ahiwaru Waiohua; (h) Ngāti Tamaterā; and (i) Ngāti Maru. Note: Other iwi not identified above may have an interest in the project and should be consulted
Network Utility Operator	Has the same meaning as set out in section 166 of the RMA.
NIMP	Network Integration Management Plan
NUMP	Network Utilities Management Plan

NOR	Notice of Requirement
NZAA	New Zealand Archaeological Association
Outline Plan	An outline plan prepared in accordance with section 176A of the RMA.
Project Liaison Person	The person or persons appointed for the duration of the project's Construction Works to be the main point of contact for persons wanting information about the project or affected by the Construction Works.
Protected Premises and Facilities (PPF)	Protected Premises and Facilities as defined in New Zealand Standard NZS 6806:2010: Acoustics – Road-traffic noise – New and altered roads.
Requiring Authority	Has the same meaning as section 166 of the RMA and, for this designation is Auckland Transport.
RMA	Resource Management Act 1991
SCEMP	Stakeholder Communication and Engagement Management Plan
Stakeholder	Stakeholders to be identified in accordance with Condition 4, which may include as appropriate: (a) adjacent owners and occupiers; (b) adjacent business owners and operators; (c) central and local government bodies; (d) community groups; (e) developers; (f) development agencies; (g) educational facilities; and (h) Network Utility Operators.
Stage of Work	Any physical works that require the development of an Outline Plan.
Start of Construction	The time when Construction Works (excluding Enabling Works) start.
Suitably Qualified Person	A person (or persons) who can provide sufficient evidence to demonstrate their suitability, experience and competence in the relevant field of expertise.
TMP	Tree Management Plan
ULDMP	Urban and Landscape Design Management Plan

General conditions

1. Activity in General Accordance with Plans and Information

- (a) Except as provided for in the conditions below, and subject to final design and Outline Plan(s), works within the designation shall be undertaken in general accordance with the following in Schedule 1:
 - (i) the project description; and
 - (ii) concept plans
- (b) Where there is inconsistency between:
 - (i) the project description and concept plans in Schedule 1 and the requirements of the following conditions, the conditions shall prevail;
 - (ii) the project description and concept plans in Schedule 1, and the management plans under the conditions of the designation, the requirements of the management plans shall prevail.

2. Project Information

- (a) A project website, or equivalent virtual information source, shall be established as soon as reasonably practicable, and within six months of the inclusion of this designation in the AUP.
- (b) All directly affected owners and occupiers shall be notified in writing as soon as reasonably practicable once the website or equivalent information source has been established. The project website or virtual information source shall include these conditions and shall provide information on:
 - (i) the status of the project;
 - (ii) anticipated construction timeframes;
 - (iii) contact details for enquiries;
 - (iv) the implications of the designation for landowners, occupiers and business owners and operators within the designation and where they can receive additional advice;
 - (v) a subscription service to enable receipt of project updates by email; and
 - (vi) when and how to apply for consent for works in the designation under section 176(1)(b) of the RMA.
- (c) At the start of detailed design for a Stage of Work, the project website or virtual information source shall be updated to provide information on the likely date for Start of Construction, and any Staging of Works.

3. Land Use Integration Process

- (a) The Requiring Authority shall set up a Land use Integration Process for the period between confirmation of the designation and the Start of Construction. The purpose of this process is to encourage and facilitate the integration of master planning and land use development activity on land directly affected or adjacent to the designation. To achieve this purpose:
 - (i) the Requiring Authority shall include the contact details of a nominated contact on the project website (or equivalent information source) required to be established by Condition (2)(b)(iii); and
 - (ii) the nominated contact shall be the main point of contact for a Developer or Development Agency wanting to work with the Requiring Authority to integrate their development plans or master planning with the designation.
- (b) At any time prior to the Start of Construction, the nominated contact will be available to engage with a Developer or Development Agency for the purpose of:
 - (i) responding to requests made to the Requiring Authority for information regarding design details that could assist with land use integration; and
 - (ii) receiving information from a Developer or Development Agency regarding master planning or land development details that could assist with land use integration.
- (c) Information requested or provided under Condition 3(b) above may include but not be limited to the following matters:
 - (i) design details including but not limited to:
 - A boundary treatment (e.g. the use of retaining walls or batter slopes);
 - B the horizontal and vertical alignment of the road (levels);
 - C potential locations for mid-block crossings;
 - D integration of stormwater infrastructure;
 - E traffic noise modelling contours; and
 - F outputs from flood modelling.
 - (ii) potential modifications to the extent of the designation in response to the information received through Condition 3(b)(ii);
 - (iii) a process for the Requiring Authority to undertake a technical review of or provide comments on any master planning or development proposal advanced by the Developer or Development Agency as it relates to integration with the project; and
 - (iv) details of how to apply for written consent from the Requiring Authority for any development proposal that relates to land that is within the designation under section 176(1)(b) of the RMA.
- (d) Where information is requested from the Requiring Authority and is available, the nominated contact shall provide the information unless there are reasonable grounds for not providing it.
- (e) The nominated contact shall maintain a record of the engagement between the Requiring Authority and Developers and Development Agencies for the period following the date in which this designation is included in the AUP through to the Start of Construction for a Stage of Work. The record shall include:
 - (i) details of any requests made to the Requiring Authority that could influence detailed design, the results of any engagement and, where such requests that could influence detailed design are declined, the reasons why the Requiring Authority has declined the requests; and
 - (ii) details of any requests to co-ordinate the forward work programme, where appropriate, with Development Agencies and Network Utility Operators.
- (f) The record shall be submitted to Council for information 10 working days prior to the Start of Construction for a Stage of Work

4. Stakeholder Communication and Engagement Design At least six months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall identify: a list of Stakeholders; a list of properties within the designation which the Requiring Authority (ii) does not own or have occupation rights to; and methods to engage with Stakeholders and the owners and occupiers of (iii) properties identified in (a)(i) - (ii) above. (b) A record of (a) shall be submitted to the Manager for information with an Outline Plan for the relevant Stage of Work. The purpose of this identification and engagement design process is to inform (c) future engagement processes during detailed design and construction phases for a Stage of Work. 5. **Designation Review** The Requiring Authority shall within six months of Completion of Construction or as soon as otherwise practicable: review the extent of the designation to identify any areas of designated land (a) that it no longer requires for the on-going operation, maintenance or mitigation of effects of the project; and give notice to the Manager in accordance with section 182 of the RMA for the (b) removal of those parts of the designation identified above. 6. In accordance with section 184(1)(c) of the RMA, this designation shall lapse if not given effect to within 15 years from the date on which it is included in the AUP. 7. **Network Utility Operators and Auckland Council (Section 176 Approval)** Prior to the start of Construction Works, Network Utility Operators with existing infrastructure and Auckland Council in relation to parks located within the designation will not require written consent under section 176 of the RMA for the following activities: (i) operation, maintenance and repair works; minor renewal works to existing network utilities or parks necessary for (ii) the on-going provision or security of supply of network utility operations; minor works such as new service connections; and (iii) (iv) the upgrade and replacement of existing network utilities in the same location with the same or similar effects on the works authorised by the designation as the existing utility. To the extent that a record of written approval is required for the activities listed (b)

above, this condition shall constitute written approval.

Pre-construction conditions

8. Outline Plan

- (a) An Outline Plan (or Plans) shall be prepared in accordance with section 176A of the RMA.
- (b) Outline Plans (or Plan) may be submitted in parts or in stages to address particular activities (e.g. design or construction aspects), or a Stage of Work of the project.
- (c) Outline Plans shall include any management plan or plans that are relevant to the management of effects of those activities or Stage of Work, which may include:
 - (i) Network Integration Management Plan;
 - (ii) Urban and Landscape Design Management Plan;
 - (iii) Construction Environmental Management Plan;
 - (iv) Construction Traffic Management Plan;
 - (v) Construction Noise and Vibration Management Plan;
 - (vi) Historic Heritage Management Plan;
 - (vii) Tree Management Plan; and
 - (viii) Network Utilities Management Plan.

Flood Hazard

For the purpose of Condition 9:

- (a) AEP means Annual Exceedance Probability;
- (b) Existing Authorised Habitable Floor means the floor level of any room (floor) in a residential building which is authorised and exists at the time the outline plan is submitted, excluding a laundry, bathroom, toilet or any room used solely as an entrance hall, passageway or garage;
- (c) Flood Prone Area means a potential ponding areas that may flood in a 1% AEP event and commonly comprise of topographical depression areas. The areas can occur naturally or as a result of constructed features. Identification of a potential Flood Prone Area would be by an assessment of residual flood risk in a 1% AEP event (e.g. from blockage of the project stormwater network) on land outside and adjacent to the designation following the application of Conditions 9(a)(i)-(iv).
- (d) Maximum Probable Development is the design case for consideration of future flows allowing for development within a catchment that takes into account the maximum impervious surface limits of the current zone or if the land is zoned Future Urban in the AUP, the probable level of development arising from zone changes;
- (e) Pre-Project development means existing site condition prior to the project (including existing buildings and roadways); and
- (f) Post-Project development means site condition after the project has been completed (including existing and new buildings and roadways).

9. Flood Hazard

- (a) The project shall be designed to achieve the following flood risk outcomes beyond the boundary of the designation:
 - (i) no increase in flood levels in a 1% AEP event for Existing Authorised Habitable Floors that are already subject to flooding or have a freeboard less than 500mm:
 - (ii) no increase in flood levels in a 1% AEP for authorised community, commercial, industrial and network utility building floors existing at the time the Outline Plan is submitted that are already subject to flooding or have a freeboard less than 300mm;
 - (iii) maximum of 50mm increase in flood levels in a 1% AEP event outside and adjacent to the designation between the Pre-Project Development and Post-Project Development scenarios;
 - (iv) no increase of Flood Hazard Class for the main access to authorised habitable dwellings existing at time the Outline Plan is submitted. The assessment shall be undertaken for the 1% AEP rainfall event and reference the hazard class in accordance with Schedule 2 to these conditions; and
 - (v) no new flood prone areas.
- (b) Compliance with this condition shall be demonstrated in the Outline Plan, which shall include flood modelling of the Pre-Project Development and Post-Project Development 1% AEP flood levels (for Maximum Probable Development land use and including climate change).
- (c) Where:
 - (i) the flood risk outcomes in (a) can be achieved through alternative measures outside of the designation such as flood stop banks, flood walls, raising Existing Authorised Habitable Floor level and new overland flow paths; or
 - (ii) the outcomes are varied at a specific location(s) through agreement with the relevant landowner,

confirmation shall be provided to the Manager that any necessary landowner and statutory approvals have been obtained for that alternative measure or varied outcome.

10. Existing property access

Prior to submission of the Outline Plan, consultation shall be undertaken with landowners and occupiers whose vehicle access to their property will be altered by the project. The Outline Plan shall demonstrate how safe reconfigured or alternate access will be provided, unless otherwise agreed with the affected landowner. This condition does not apply to business-zoned land.

11. Existing business property access

- (a) Prior to submission of the Outline Plan, consultation shall be undertaken with landowners and occupiers whose vehicle access to their property will be altered by the project.
- (b) Where vehicle access to a property within business-zoned land will be altered by the project, the Outline Plan shall demonstrate how safe access will be provided that:
 - (i) maintains and promotes the safe, effective, and efficient operation of the transport network;
 - (ii) recognises the role and function of all accesses including for loading and unloading of goods to the site; and
 - (iii) subject to achieving (i), also provides effective and efficient access to the site where practicable.
- (c) Where an alternative outcome has been agreed that does not comply with Condition 11(b), the Outline Plan shall provide details of the alternative outcome and how the safe, effective, and efficient operation of the transport network will be maintained.

Advice note: Condition 11 does not affect Auckland Transport's ability to exercise its statutory Road Controlling Authority powers to modify traffic or parking controls.

12. Management Plans

- (a) Any management plan shall:
 - (i) be prepared and implemented in accordance with the relevant management plan condition;
 - (ii) be prepared by a Suitably Qualified Person(s);
 - (iii) include sufficient detail relating to the management of effects associated with the relevant activities and/or Stage of Work to which it relates.
 - (iv) be submitted as part of an Outline Plan pursuant to section 176A of the RMA, with the exception of SCEMPs and CNVMP Schedules; and
 - (v) once finalised, uploaded to the project website or equivalent virtual information source.
- (b) Any management plan developed in accordance with Condition 12 may:
 - (i) be submitted in parts or in stages to address particular activities (e.g. design or construction aspects) a Stage of Work of the project, or to address specific activities authorised by the designation;
 - except for material changes, be amended to reflect any changes in design, construction methods or management of effects without further process;
- (c) Information shall be submitted with the management plan (or revised plan as referred to in (d) below) which summarises outcomes of consultation and any input received from Mana Whenua and Stakeholders as required by the relevant management plan condition. The summary shall note how this input has been incorporated or reflected in the management plan, or if not, the reasons why;
- (d) If there is a material change required to a management plan which has been submitted with an Outline Plan, the revised part of the plan shall be submitted to the Manager as an update to the Outline Plan or for Certification as soon as practicable following identification of the need for a revision; and
- (e) Any material changes to the SCEMPs are to be submitted to the Manager for information.

13. Stakeholder Communication and Engagement Management Plan (SCEMP)

- (a) A SCEMP shall be prepared in consultation with relevant Stakeholders prior to the Start of Construction. The objective of the SCEMP is to identify how the public and Stakeholders will be engaged with throughout the Construction Works.
- (b) To achieve the objective, the SCEMP shall include:
 - (i) a list of Stakeholders;
 - (ii) the contact details for the Project Liaison Person. These details shall be on the project website, or equivalent virtual information source, and prominently displayed at the main entrance(s) to the site(s);
 - (iii) methods and timing to engage with owners and occupiers whose access is directly affected;
 - (iv) methods to communicate key project milestones and the proposed hours of construction activities including outside of normal working hours and on weekends and public holidays, to the parties identified in (b)(i) above; and
 - (v) linkages and cross-references to communication and engagement methods set out in other conditions and management plans where relevant
- (c) Any SCEMP prepared for a Stage of Work shall be submitted to the Manager for information a minimum of 10 working days prior to the Start of Construction for a Stage of Work.

14. Cultural Advisory Report

- (a) At least six months prior to the start of detailed design for a Stage of Work, Mana Whenua shall be invited to prepare a Cultural Advisory Report for the project. The objective of the Cultural Advisory Report is to assist in understanding and identifying ngā taonga tuku iho ('treasures handed down by our ancestors') affected by the project, to inform their management and protection.
- (b) To achieve the objective, the Requiring Authority shall invite Mana Whenua to prepare a Cultural Advisory Report that:
 - (i) identifies the cultural sites, landscapes and values that have the potential to be affected by the construction and operation of the project;
 - (ii) sets out the desired outcomes for management of potential effects on cultural sites, landscapes and values;
 - (iii) identifies traditional cultural practices within the area that may be impacted by the project;
 - (iv) identifies opportunities for restoration and enhancement of identified cultural sites, landscapes and values within the project area;
 - (v) taking into account the outcomes of (i) to (iv) above, identify cultural matters and principles that should be considered in the development of the ULDMP referred to in Condition 17, HHMP referred to in Condition 28 and the CMP referred to in Condition 22; and
 - (vi) identifies and (if possible) nominates traditional names along the project alignment. Noting there may be formal statutory processes outside the project required in any decision-making.
- (c) The desired outcomes for management of potential effects on cultural sites, landscapes and values identified in the Cultural Advisory Report shall be discussed with Mana Whenua and those outcomes reflected in the relevant management plans where practicable; and
- (d) Conditions 14(a) and (b) above will cease to apply if:
 - (i) Mana Whenua have been invited to prepare a Cultural Advisory Report by a date at least six months prior to start of Construction Works; and
 - (ii) Mana Whenua have not provided a Cultural Advisory Report within six months prior to start of Construction Works.

15. Network Integration Management Plan (NIMP)

- (a) At least six months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall prepare, in collaboration with other relevant road controlling authorities, a NIMP. The objective of the NIMP is to identify how the project will integrate with the planned transport network in the Takaanini growth area to achieve an effective, efficient and safe land transport system.
- (b) To achieve this objective, the NIMP shall include details of the:
 - (i) project implementation approach and any staging of the project, including both design, management and operational matters; and
 - (ii) sequencing of the project with the planned transport network, including both design, management and operational matters.

16. Mana Whenua Kaitiaki Forum

- (a) At least 12 months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall invite Mana Whenua to establish a Mana Whenua Kaitiaki Forum. The objective of the Mana Whenua Kaitiaki Forum is to provide a forum for Mana Whenua to participate as partners in all phases of the project.
- (b) To achieve the objective, the Mana Whenua Kaitiaki Forum shall address (as a minimum) the following matters:
 - (i) how Mana Whenua will provide input into the design of the Project. For example:
 - A how Mana Whenua values and narrative are incorporated through the form of the project and associated structures;
 - B how pou, art, sculptures, mahi toi or any other features located on land within or adjoining the project will be provided in a manner that represents the Māori history of the area and promotes a distinctiveness or sense of place;
 - (ii) how Mana Whenua will be engaged in the preparation of management plans and future consenting processes;
 - (iii) how mātauranga Māori and tikanga Māori will be recognised in all phases of the project;
 - (iv) where opportunities for Mana Whenua to participate in engagement with local communities, business associations, social institutions and community groups will be provided;
 - (v) where opportunities for Mana Whenua to support the physical, mental, social and economic wellbeing for iwi and the local community will be provided through the project. This could include:
 - A planting supplied through Mana Whenua and community based nurseries;
 - B local schools being involved in planting; and
 - C scholarships, cadetships and job creation.
 - (vi) the Requiring Authority shall provide reasonable resourcing, technical and administrative support for Mana Whenua including organising meetings at a local venue and the taking and dissemination of meeting minutes;
 - (vii) the frequency of meetings shall be agreed between the Requiring Authority and Mana Whenua; and
 - (viii) prior to the Start of Construction, the Requiring Authority shall produce a record of the Mana Whenua Kaitiaki Forum. The record of the Mana Whenua Kaitiaki Forum shall be provided to Mana Whenua and shall include (but not be limited to):
 - A details of how Mana Whenua have participated as partners in the project;
 - B details of how the matters set out in (b) will be incorporated into the project;
 - C how the objective of the Mana Whenua Kaitiaki Forum has been and will continue to be met: and
 - D details of how comments from Mana Whenua have been incorporated into the project and where not incorporated, the reasons why.
- (c) Mana Whenua shall be invited to identify and (if possible) nominate traditional names across the project such as for bridge structures. Noting there may be formal statutory processes outside the project required in any decision making.

(d) The Mana Whenua Kaitiaki Forum shall continue to meet for at least six months following Completion of Construction or as agreed with Mana Whenua.

	Urba	n and Landscape Design Management Plan (ULDMP)
17.	(a)	A ULDMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the ULDMP(s) is to:
		(i) enable integration of the project's permanent works into the surrounding landscape and urban context; and
		(ii) ensure that the project manages potential adverse landscape and visual effects as far as practicable and contributes to a quality urban environment.
	(b)	Mana Whenua shall be invited to participate in the development of the ULDMP(s) to provide input into relevant cultural landscape and design matters including how desired outcomes for management of potential effects on cultural sites, landscapes and values identified and discussed in accordance with the Cultural Advisory Report (Condition 14) and/or through the Mana Whenua Kaitiaki Forum (Condition 16) may be reflected in the ULDMP.
	(c)	Relevant Stakeholders shall be invited to participate in the development of the ULDMP at least six months prior to the start of detailed design for a Stage of Work.
18.	(a)	To achieve the objective set out in Condition 17, the ULDMP(s) shall provide details of how the project:
		 is designed to integrate with the adjacent urban (or proposed urban) and landscape context, including the surrounding existing or proposed topography, urban environment (e.g. centres and density of built form), natural environment, landscape character and open space zones;
		 (ii) provides appropriate walking and cycling connectivity to, and interfaces with, existing or proposed adjacent land uses (including public transport and walking and cycling facilities);
		(iii) promotes inclusive access (where appropriate);
		(iv) promotes a sense of personal safety by aligning with best practice guidelines, such as:
		A Crime Prevention Through Environmental Design (CPTED) principles;
		B Safety in Design (SID) requirements; and
		C Maintenance in Design (MID) requirements and anti- vandalism/anti-graffiti measures.
		 (v) has responded to matters identified through the Land use Integration Process (Condition 3); and
	(b)	The ULDMP shall be prepared in general accordance with:
		 (i) Auckland Transport's Urban Roads and Streets Design Guide or any subsequent updated version;
		(ii) New Zealand Transport Agency Urban Design Guidelines: Bridging the Gap (2013) or any subsequent updated version;
		(iii) New Zealand Transport Agency Landscape Guidelines (2013) or any subsequent updated version;
		(iv) New Zealand Transport Agency P39 Standard Specification for Highway Landscape Treatments (2013) or any subsequent updated version; and
		(v) Auckland's Urban Ngahere (Forest) Strategy or any subsequent updated version.

19. The ULDMP(s) shall include:

- (a) A concept plan which depicts the overall landscape and urban design concept, and explain the rationale for the landscape and urban design proposals;
- (b) Developed design concepts, including principles for walking and cycling facilities and public transport;
- (c) Landscape and urban design details that cover the following:
 - road design elements such as intersection form, carriageway gradient and associated earthworks contouring including cut and fill batters and the interface with adjacent land uses and existing roads (including slip lanes), benching, spoil disposal sites, median width and treatment, roadside width and treatment;
 - (ii) roadside elements such as lighting, fencing, wayfinding and signage;
 - (iii) architectural and landscape treatment of all major structures, including bridges and retaining walls;
 - (iv) architectural and landscape treatment of noise barriers;
 - (v) landscape treatment and planting of permanent stormwater control wetlands and swales;
 - (vi) integration of passenger transport;
 - (vii) pedestrian and cycle facilities including paths, road crossings and dedicated pedestrian/ cycle bridges or underpasses;
 - (viii) historic heritage places with reference to the HHMP (Condition 28); and
 - (ix) re-instatement of construction and site compound areas; and
 - (x) features disturbed during construction and intended to be reinstated such as:
 - A boundary features;
 - B driveways;
 - C accessways; and
 - D fences
- (d) The ULDMP shall also include the following planting and maintenance details:
 - (i) planting design details including:
 - A identification of existing trees and vegetation that will be retained with reference to the TMP and LMP. Where practicable, mature trees and native vegetation should be retained;
 - B street trees, shrubs and ground cover suitable for the location;
 - C treatment of fill slopes to integrate with adjacent land use, streams, riparian margins and open space zones;
 - D identification of any planting requirements under the LMP (Condition 29) and TMP (Condition 29);
 - E integration of any planting required by conditions of any resource consents for the project; and
 - F re-instatement planting of construction and site compound areas as appropriate.
 - (ii) a planting programme including the staging of planting in relation to the construction programme which shall, as far as practicable, include provision for planting within each planting season following completion of each Stage of Work; and
 - (iii) detailed specifications relating to the following:

А	weed control and clearance;
В	pest animal management (to support plant establishment);
С	ground preparation (top soiling and decompaction);
D	mulching; and
E	plant sourcing and planting, including hydroseeding and grassing, and use of eco-sourced species.

Construction conditions

20. Construction Environmental Management Plan (CEMP)

- (a) A CEMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the CEMP is to set out the management procedures and construction methods to be undertaken to, avoid, remedy or mitigate any adverse effects associated with Construction Works as far as practicable.
- (b) To achieve the objective, the CEMP shall include:
 - (i) the roles and responsibilities of staff and contractors;
 - (ii) details of the site or project manager and the Project Liaison Person, including their contact details (phone and email address);
 - (iii) the Construction Works programmes and the staging approach, and the proposed hours of work;
 - (iv) details of the proposed construction yards including temporary screening when adjacent to residential areas;
 - (v) details of the proposed construction lighting;
 - (vi) methods for controlling dust and the removal of debris and demolition of construction materials from public roads or places;
 - (vii) methods for providing for the health and safety of the general public;
 - (viii) measures to mitigate flood hazard effects such as siting stockpiles out of floodplains, minimising obstruction to flood flows, actions to respond to warnings of heavy rain;
 - (ix) procedures for incident management;
 - (x) location and procedures for the refuelling and maintenance of plant and equipment to avoid discharges of fuels or lubricants to watercourses;
 - (xi) measures to address the storage of fuels, lubricants, hazardous and/or dangerous materials, along with contingency procedures to address emergency spill response(s) and clean up;
 - (xii) procedures for responding to complaints about Construction Works; and
 - (xiii) methods for amending and updating the CEMP as required.

21. Complaints Process

- (a) At all times during Construction Works, a record of any complaints received about the Construction Works shall be maintained. The record shall include:
 - (i) the date, time and nature of the complaint;
 - (ii) the name, phone number and address of the complainant (unless the complainant wishes to remain anonymous):
 - (iii) measures taken to respond to the complaint (including a record of the response provided to the complainant) or confirmation of no action if deemed appropriate:
 - (iv) the outcome of the investigation into the complaint; and
 - (v) any other activities in the area, unrelated to the project that may have contributed to the complaint, such as non-project construction, fires, traffic accidents or unusually dusty conditions generally.
- (b) A copy of the complaints record required by this condition shall be made available to the Manager upon request as soon as practicable after the request is made.

22. Cultural Monitoring Plan (CMP)

- (a) Prior to the Start of Construction, a CMP shall be prepared by a Suitably Qualified Person(s) identified in collaboration with Mana Whenua. The objective of the CMP is to identify methods for undertaking cultural monitoring to assist with management of any cultural effects during Construction Works.
- (b) To achieve the objective, the CMP shall include:
 - (i) requirements for formal dedication or cultural interpretation to be undertaken prior to start of Construction Works in areas identified as having significance to Mana Whenua;
 - (ii) requirements and protocols for cultural inductions for contractors and subcontractors;
 - (iii) identification of activities, sites and areas where cultural monitoring is required during particular Construction Works;
 - (iv) identification of personnel to undertake cultural monitoring, including any geographic definition of their responsibilities; and
 - details of personnel to assist with management of any cultural effects identified during cultural monitoring, including implementation of the Accidental Discovery Protocol
- (c) If Enabling Works involving soil disturbance are undertaken prior to the Start of Construction, an Enabling Works CMP shall be prepared by a Suitably Qualified Person identified in collaboration with Mana Whenua. This plan may be prepared as a standalone Enabling Works CMP or be included in the main Construction Works CMP.

Advice Note: Where appropriate, the CMP shall align with the requirements of other conditions of the designation and resource consents for the project which require monitoring during Construction Works.

23. Construction Traffic Management Plan (CTMP)

- (a) A CTMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the CTMP is to avoid, remedy or mitigate, as far as practicable, adverse construction traffic effects.
- (b) To achieve this objective, the CTMP shall include:
 - methods to manage the effects of temporary traffic management activities on traffic;
 - (ii) measures to ensure the safety of all transport users;
 - (iii) the estimated numbers, frequencies, routes and timing of traffic movements, including any specific non-working or non-movement hours to manage vehicular and pedestrian traffic near Educational Facilities or to manage traffic congestion;
 - site access routes and access points for heavy vehicles, the size and location of parking areas for plant, construction vehicles and the vehicles of workers and visitors;
 - (v) identification of detour routes and other methods to ensure the safe management and maintenance of traffic flows, including public transport, pedestrians and cyclists;
 - (vi) methods to maintain access to and within property and/or private roads where practicable, or to provide alternative arrangements when it will not be, including details of how access is managed for loading and unloading of goods. Engagement with landowners and occupiers whose access is directly affected shall be undertaken in accordance with Condition 13(b)(iii);
 - (vii) the management approach to loads on heavy vehicles, including covering loads of fine material, the use of wheel-wash facilities at site exit points and the timely removal of any material deposited or spilled on public roads;
 - (viii) methods that will be undertaken to communicate traffic management measures to affected road users (e.g. residents/ public/ Stakeholders/ emergency services);
 - (ix) details of minimum network performance parameters during the construction phase, including any measures to monitor compliance with the performance parameters; and
 - (x) details of any measures proposed to be implemented in the event of thresholds identified in (ix) being exceeded.
- (c) Auditing, monitoring and reporting requirements relating to traffic management activities shall be undertaken in accordance with the New Zealand Guide to Temporary Traffic Management (April 2013) or any subsequent version.

24. Construction Noise Standards

(a) Construction noise shall be measured and assessed in accordance with NZS6803:1999 Acoustics – Construction Noise and shall comply with the noise standards set out in the following table as far as practicable:

Table 24-1 Construction Noise Standards

Day of week	Time period	L _{Aeq(15min)}	LAFmax			
Occupied activity sensitive to noise						
Weekday	0630h - 0730h	55 dB	75 dB			
	0730h - 1800h	70 dB	85 dB			
	1800h - 2000h	65 dB	80 dB			
	2000h - 0630h	45 dB	75 dB			
Saturday	0630h - 0730h	45 dB	75 dB			
	0730h - 1800h	70 dB	85 dB			
	1800h - 2000h	45 dB	75 dB			
	2000h - 0630h	45 dB	75 dB			
Sunday and Public	0630h - 0730h	45 dB	75 dB			
Holidays	0730h - 1800h	55 dB	85 dB			
	1800h - 2000h	45 dB	75 dB			
	2000h - 0630h	45 dB	75 dB			
Other occupied buildings						
All	0730h – 1800h	70 dB				
	1800h – 0730h	75 dB				

(b) Where compliance with the noise standards set out in Table 24-1 is not practicable, the methodology in Condition 27 shall apply.

25. Construction Vibration Standards

(a) Construction vibration shall be measured in accordance with ISO 4866:2010 Mechanical vibration and shock – Vibration of fixed structures – Guidelines for the measurement of vibrations and evaluation of their effects on structures and shall comply with the vibration standards set out in the following table as far as practicable.

Table 25-1 Construction Vibration Standards

Receiver	Details	Category A	Category B
Occupied activities sensitive to noise	Night-time 2000h - 0630h	0.3mm/s ppv	2mm/s ppv
	Daytime 0630h - 2000h	2mm/s ppv	5mm/s ppv
Other occupied buildings	Daytime 0630h - 2000h	2mm/s ppv	5mm/s ppv
All other buildings	At all other times	Tables 1 and 3 of DIN4150-3:1999	

(b) Where compliance with the vibration standards set out in Table 25-1 is not practicable, the methodology in Condition 27 shall apply.

26. Construction Noise and Vibration Management Plan (CNVMP)

- (a) A CNVMP shall be prepared by a Suitably Qualified and Experienced Person prior to the Start of Construction for a Stage of Work. A CNVMP shall be implemented during the Stage of Work to which it relates. The objective of the CNVMP is to provide a framework for the development and implementation of the Best Practicable Option for the management of construction noise and vibration effects to achieve the construction noise and vibration standards set out in Conditions 24 and 25 to the extent practicable.
- (b) To achieve the objective, the CNVMP shall be prepared in accordance with Annex E2 of the New Zealand Standard NZS6803:1999 'Acoustics Construction Noise' (NZS6803:1999) and shall as a minimum, address the following:
 - (i) description of the works and anticipated equipment/processes;
 - (ii) hours of operation, including times and days when construction activities would occur:
 - (iii) the construction noise and vibration standards for the project;
 - (iv) identification of receivers where noise and vibration standards apply;
 - (v) a hierarchy of management and mitigation options, including any requirements to limit night works and works during other sensitive times, including Sundays and public holidays as far as practicable;
 - (vi) methods and frequency for monitoring and reporting on construction noise and vibration;
 - (vii) procedures for communication and engagement with nearby residents and Stakeholders, including notification of proposed construction activities, the period of construction activities, and management of noise and vibration complaints;
 - (viii) contact details of the Project Liaison Person;
 - (ix) procedures for the regular training of the operators of construction equipment to minimise noise and vibration as well as expected construction site behaviours for all workers:
 - (x) procedures and requirements for the preparation of a Schedule to the CNVMP (Schedule) for those areas where compliance with the noise Condition 24 and/or vibration standards Condition 25 Category B will not be practicable;
 - (xi) identification of trigger levels for undertaking building condition surveys, which shall be Category B day time levels;
 - (xii) procedures and trigger levels for undertaking building condition surveys before and after works to determine whether any cosmetic or structural damage has occurred as a result of construction vibration;
 - (xiii) methodology and programme of desktop and field audits and inspections to be undertaken to ensure that CNVMP, Schedules and the Best Practicable Option for management of effects are being implemented; and
 - (xiv) requirements for review and update of the CNVMP.

27. Schedule to a CNVMP

- (a) A Schedule to the CNVMP (Schedule) shall be prepared prior to the Start of Construction of an activity to which it relates by a Suitably Qualified Person, in consultation with the owners and occupiers of sites subject to the Schedule, when:
 - (i) construction noise is either predicted or measured to exceed the noise standards in Condition 24 except where the exceedance of the L_{Aeq} criteria is no greater than 5 decibels and does not exceed:
 - A 0630 2000: 2 periods of up to 2 consecutive weeks in any 2 months, or
 - B 2000 0630: 1 period of up to 2 consecutive nights in any 10 days.
 - (ii) construction vibration is either predicted or measured to exceed the Category B standard at the receivers in Condition 25.
- (b) The objective of the Schedule is to set out the Best Practicable Option measures to manage noise and/or vibration effects of the construction activity beyond those measures set out in the CNVMP.
- (c) To achieve the objective, the Schedule shall include details such as:
 - (i) construction activity location, start and finish dates;
 - (ii) the nearest neighbours to the construction activity;
 - (iii) the predicted noise and/or vibration level for all receivers where the levels are predicted or measured to exceed the applicable standards and predicted duration of the exceedance;
 - (iv) for works proposed between 2000h and 0630h, the reasons why the proposed works must be undertaken during these hours and why they cannot be practicably undertaken during the daytime;
 - (v) the proposed mitigation options that have been selected, and the options that have been discounted as being impracticable and the reasons why;
 - (vi) the consultation undertaken with owners and occupiers of sites subject to the Schedule, and how consultation has and has not been taken into account; and
 - (vii) location, times and types of monitoring.
- (d) The Schedule shall be submitted to the Manager for Certification at least five working days (except in unforeseen circumstances) in advance of Construction Works that are covered by the scope of the Schedule and shall form part of the CNVMP.
- (e) The CNVMP Schedule shall be deemed certified five working days from the submission of the CNVMP Schedule where no written confirmation of Certification has been received.
- (f) Where material changes are made to a Schedule required by this condition, the Requiring Authority shall consult the owners and/or occupiers of sites subject to the Schedule prior to submitting the amended Schedule to the Manager for Certification in accordance with (d) above. The amended Schedule shall document the consultation undertaken with those owners and occupiers, and how consultation outcomes have and have not been taken into account.

28. Historic Heritage Management Plan (HHMP)

- (a) A HHMP shall be prepared in consultation with Council, HNZPT and Mana Whenua prior to the Start of Construction for a Stage of Work. The objective of the HHMP is to protect historic heritage and to remedy and mitigate any residual effects as far as practicable.
- (b) To achieve the objective, the HHMP shall identify:
 - (i) any adverse direct and indirect effects on historic heritage sites and measures to appropriately avoid, remedy or mitigate any such effects, including a tabulated summary of these effects and measures;
 - (ii) methods for the identification and assessment of potential historic heritage places within the designation to inform detailed design;
 - (iii) known historic heritage places and potential archaeological sites within the designation, including identifying any archaeological sites for which an Archaeological Authority under the HNZPTA will be sought or has been granted;
 - (iv) any unrecorded archaeological sites or post-1900 heritage sites within the designation, which shall also be documented and recorded;
 - (v) roles, responsibilities and contact details of project personnel, Council and HNZPT representatives, Mana Whenua representatives, and relevant agencies involved with heritage and archaeological matters including surveys, monitoring of Construction Works, compliance with AUP accidental discovery rule, and monitoring of conditions;
 - (vi) specific areas to be investigated, monitored and recorded to the extent these are directly affected by the project;
 - (vii) the proposed methodology for investigating and recording post-1900 historic heritage sites (including buildings) that need to be destroyed, demolished or relocated, including details of their condition, measures to mitigate any adverse effects and timeframe for implementing the proposed methodology, in accordance with the HNZPT Archaeological Guidelines Series No.1: Investigation and Recording of Buildings and Standing Structures (November 2018, or any subsequent version;
 - (viii) methods to acknowledge cultural values identified through the Mana Whenua Kaitiaki Forum (Condition 16) and CAR (Condition 14) where archaeological sites also involve ngā taonga tuku iho (treasures handed down by our ancestors) and where feasible and practicable to do so:
 - (ix) methods for avoiding, remedying or mitigation adverse effects on historic heritage places and sites within the designation during Construction Works as far as practicable. These methods shall include, but are not limited to:
 - A security fencing or hoardings around historic heritage places to protect them from damage during construction or unauthorised access;
 - B measures to mitigate adverse effects on historic heritage sites that achieve positive historic heritage outcomes such as increased public awareness and interpretation signage; and
 - C training requirements and inductions for contractors and subcontractors on historic heritage places within the designation, legal obligations relating to accidental and/or unexpected discoveries, the AUP Accidental Discovery Rule (E11.6.1). The training shall be undertaken prior to the Start of Construction, under the guidance of a Suitably Qualified Person and Mana Whenua representatives (to the extent the training relates to cultural values identified under Condition 14 and Condition 16).

Accidental Discoveries

Advice Note:

The requirements for accidental discoveries of heritage items are set out in Rule E11.6.1 of the AUP

Ecology

Advice Note:

Depending on the potential effects of the project, the regional consents for the project may include the following monitoring and management plans:

- (i) Stream and/or wetland restoration plans;
- (ii) Vegetation restoration plans; and
- (iii) Fauna management plans (e.g., avifauna, bats).

29. Tree Management Plan (TMP)

- (a) Prior to the Start of Construction for a Stage of Work, a TMP shall be prepared. The objective of the TMP is to avoid, remedy or mitigate effects of construction activities on trees identified in Schedule 3.
- (b) To achieve the objective, the TMP shall:
 - (i) confirm that the trees listed in Schedule 3 still exist; and
 - (ii) demonstrate how the design and location of project works has avoided, remedied or mitigated any effects on any tree listed in Schedule 3. This may include:
 - A planting to replace trees that require removal (with reference to the ULDMP planting design details in Condition 19);
 - B tree protection zones and tree protection measures such as protective fencing, ground protection and physical protection of roots, trunks and branches; and
 - C methods for work within the rootzone of trees that are to be retained in line with accepted arboricultural standards.

30. Network Utilities Management Plan (NUMP)

- (a) A NUMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the NUMP is to set out a framework for protecting, relocating and working in proximity to existing network utilities.
- (b) To achieve the objective, the NUMP shall include methods to:
 - (i) provide access for maintenance at all reasonable times, or emergency works at all times during construction activities;
 - (ii) protect and where necessary, relocate existing network utilities;
 - (iii) manage the effects of dust and any other material potentially resulting from construction activities and able to cause material damage, beyond normal wear and tear to overhead transmission lines in the project area;
 - (iv) demonstrate compliance with relevant standards and Codes of Practice including, where relevant, the NZECP 34:2001 New Zealand Electrical Code of Practice for Electrical Safe Distances 2001; AS/NZS 4853:2012 Electrical hazards on Metallic Pipelines; and AS/NZS 2885 Pipelines – Gas and Liquid Petroleum.
- (c) The NUMP shall be prepared in consultation with the relevant Network Utility Operators(s) who have assets that are directly affected by the project.
- (d) The development of the NUMP shall consider opportunities to coordinate future work programmes with other Network Utility Operator(s) during detailed design where practicable.
- (e) The NUMP shall describe how any comments from the Network Utility Operator in relation to its assets have been addressed.
- (f) Any comments received from the Network Utility Operator shall be considered when finalising the NUMP.
- (g) Any amendments to the NUMP related to the assets of a Network Utility Operator shall be prepared in consultation with that asset owner.

Operational conditions

31. Low Noise Road Surface

Asphaltic concrete surfacing (or equivalent low noise road surface) shall be implemented within 12 months of Completion of Construction of the project.

32. Future Resurfacing Work

- (a) Any future resurfacing works of the project shall be undertaken in accordance with the Auckland Transport Reseal Guidelines, Asset Management and Systems 2013 or any updated version and asphaltic concrete surfacing (or equivalent low noise road surface) shall be implemented where:
 - (i) the volume of traffic exceeds 10,000 vehicles per day; or
 - (ii) the road is subject to high wear and tear (such as cul de sac heads, roundabouts and main road intersections); or
 - (iii) it is in an industrial or commercial area where there is a high concentration of truck traffic; or
 - (iv) it is subject to high usage by pedestrians, such as town centres, hospitals, shopping centres and schools.
- (b) Prior to commencing any future resurfacing works, the Requiring Authority shall advise the Manager if any of the triggers in Condition 32(a)(i) – (iv) are not met by the road or a section of it and therefore where the application of asphaltic concrete surfacing (or equivalent low noise road surface) is no longer required on the road or a section of it. Such advice shall also indicate when any resealing is to occur.

Traffic Noise

For the purposes of Conditions 33 to 44:

- (a) Building-Modification Mitigation has the same meaning as in NZS 6806;
- (b) Design year has the same meaning as in NZS 6806;
- (c) Detailed Mitigation Options means the fully detailed design of the Selected Mitigation Options, with all practical issues addressed;
- (d) Habitable Space has the same meaning as in NZS 6806;
- (e) Identified Noise Criteria Category means the Noise Criteria Category for a PPF identified in Schedule 4: Identified PPFs Noise Criteria Categories;
- (f) Mitigation has the same meaning as in NZS 6806:2010 Acoustics Roadtraffic noise – New and altered roads:
- (g) Noise Criteria Categories means the groups of preference for sound levels established in accordance with NZS 6806 when determining the Best Practicable Option for noise mitigation (i.e. Categories A, B and C);
- (h) NZS 6806 means New Zealand Standard NZS 6806:2010 Acoustics Road-traffic noise New and altered roads;
- (i) Protected Premises and Facilities (PPFs) means only the premises and facilities identified in Schedule 4: PPFs Noise Criteria Categories;
- (j) Selected Mitigation Options means the preferred mitigation option resulting from a Best Practicable Option assessment undertaken in accordance with NZS 6806 taking into account any low noise road surface to be implemented in accordance with Condition 31; and
- (k) Structural Mitigation has the same meaning as in NZS 6806.

33.	The Noise Criteria Categories identified in Schedule 4: PPFs Noise Criteria Categories at each of the PPFs shall be achieved where practicable and subject to Conditions 33 to 44 (all traffic noise conditions).
	The Noise Criteria Categories do not need to be complied with at a PPF where:
	(a) the PPF no longer exists; or
	(b) agreement of the landowner has been obtained confirming that the Noise Criteria Category does not need to be met.
	Achievement of the Noise Criteria Categories for PPFs shall be by reference to a traffic forecast for a high growth scenario in a design year at least 10 years after the programmed opening of the project.
34.	As part of the detailed design of the project, a Suitably Qualified Person shall determine the Selected Mitigation Options for the PPFs identified on Schedule 4 PPFs Noise Criteria Categories.
	For the avoidance of doubt, the low noise road surface implemented in accordance with Condition 31 may be (or be part of) the Selected Mitigation Option(s).
35.	Prior to the Start of Construction of the project, a Suitably Qualified Person shall develop the Detailed Mitigation Options for the PPFs identified in Schedule 4 PPFs Noise Criteria Categories, taking into account the Selected Mitigation Options.
36.	If the Detailed Mitigation Options would result in the Identified Noise Criteria Category changing to a less stringent Category, e.g. from Category A to B or Category B to C, at any relevant PPF, a Suitably Qualified Person shall provide confirmation to the Manager that the Detailed Mitigation Option would be consistent with adopting the Best Practicable Option in accordance with NZS 6806 prior to implementation.
37.	The Detailed Mitigation Options shall be implemented prior to Completion of Construction of the project, with the exception of any low-noise road surfaces, which shall be implemented within 12 months of Completion of Construction.
38.	Prior to the Start of Construction, a Suitably Qualified Person shall identify those PPFs which, following implementation of all the Detailed Mitigation Options, will not be Noise Criteria Categories A or B and where Building-Modification Mitigation might be required to achieve 40 dB L _{Aeq(24h)} inside Habitable Spaces ('Category C Buildings').
39.	Prior to the Start of Construction in the vicinity of each Category C Building, the Requiring Authority shall write to the owner of the Category C Building requesting entry to assess the noise reduction performance of the existing building envelope. If the building owner agrees to entry within three months of the date of the Requiring Authority's letter, the Requiring Authority shall instruct a Suitably Qualified Person to visit the building and assess the noise reduction performance of the existing building envelope.

40.		ach Category C Building identified, the Requiring Authority is deemed to have blied with Condition 39 above if:
	(a)	the Requiring Authority's Suitably Qualified Person has visited the building and assessed the noise reduction performance of the building envelope; or
	(b)	the building owner agreed to entry, but the Requiring Authority could not gain entry for some reason (such as entry denied by a tenant); or
	(c)	the building owner did not agree to entry within three months of the date of the Requiring Authority's letter sent in accordance with Condition 39 above (including where the owner did not respond within that period); or
	(d)	the building owner cannot, after reasonable enquiry, be found prior to Completion of Construction of the project.
		of (b) to (d) above apply to a Category C Building, the Requiring Authority is not red to implement Building-Modification Mitigation to that building.
41.	acco	ect to Condition 40 above, within six months of the assessment undertaken in dance with Condition 39, the Requiring Authority shall write to the owner of each gory C Building advising:
	(a)	if Building-Modification Mitigation is required to achieve 40 dB LAeq(24h) inside habitable spaces; and
	(b)	the options available for Building-Modification Mitigation to the building, if required; and
	(c)	that the owner has three months to decide whether to accept Building-Modification Mitigation to the building and to advise which option for Building-Modification Mitigation the owner prefers, if the Requiring Authority has advised that more than one option is available.
42.	Requi	an agreement on Building-Modification Mitigation is reached between the iring Authority and the owner of a Category C Building, the mitigation shall be mented, including any third party authorisations required, in a reasonable and ical timeframe agreed between the Requiring Authority and the owner.
43.		ect to Condition 40, where Building-Modification Mitigation is required, the iiring Authority is deemed to have complied with Condition 42 if:
	(a)	the Requiring Authority has completed Building Modification Mitigation to the building; or
	(b)	an alternative agreement for mitigation is reached between the Requiring Authority and the building owner; or
	(c)	the building owner did not accept the Requiring Authority's offer to implement Building-Modification Mitigation within three months of the date of the Requiring Authority's letter sent in accordance with Condition 40 (including where the owner did not respond within that period); or
	(d)	the building owner cannot, after reasonable enquiry, be found prior to Completion of Construction of the project.
44.		Detailed Mitigation Options shall be maintained so they retain their noise ction performance as far as practicable.

Schedule 1: General accordance plans and information

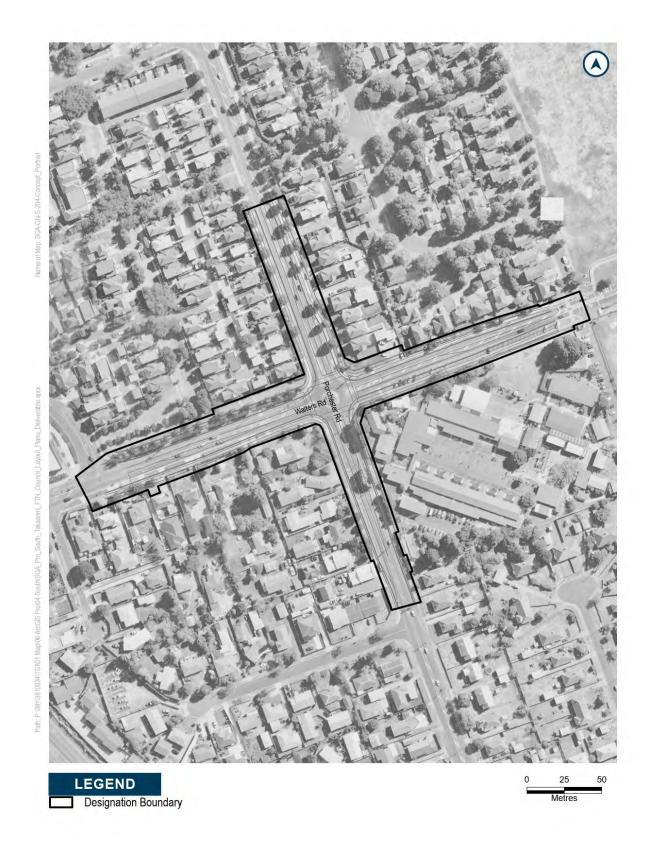

Project Description

The proposed work is for the construction, operation, and maintenance of upgrades to Porchester Road between Alfriston Road and Walters Road; and to Popes Road between Takanini School Road and east of Porchester Road. The proposed work is shown in the following Concept Plans and includes:

- a) Upgrades of Porchester Road and Popes Road to accommodate general traffic lanes and walking and cycling facilities;
- b) Associated works including intersections, bridges, embankments, retaining walls, culverts, and stormwater management systems;
- c) Reconfiguration of local roads, where the proposed work intersects with local roads; and
- d) Construction activities including vegetation removal, establishment of construction areas and the regrading of driveways.

Concept Plans

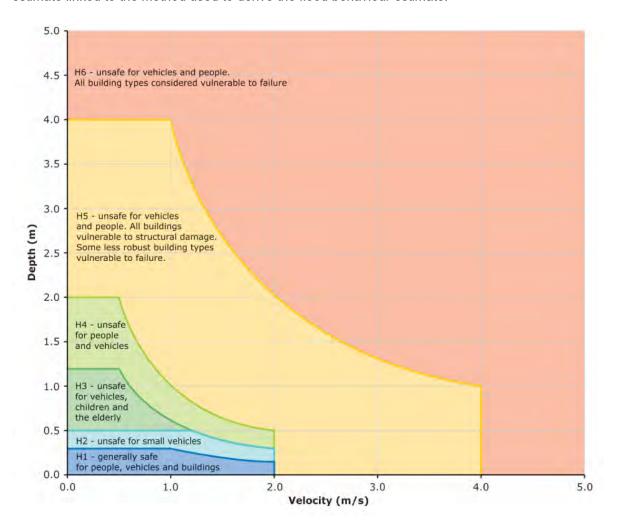

Schedule 2: Flood Hazard Class

The combined flood hazard curves shown below set hazard thresholds that relate to the vulnerability of the community when interacting with floodwaters. The combined curves are divided into hazard classifications that relate to specific vulnerability thresholds

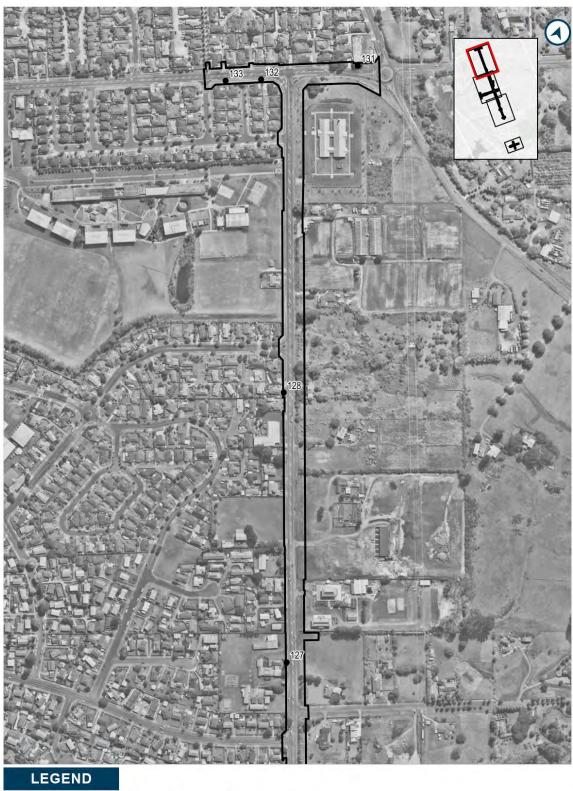

The vulnerability thresholds identified in the flood hazard curves can be applied to the best description of flood behaviour available for a subject site. In this regard, the hazard curves can be applied equally to flood behaviour estimates from measured data, simpler 1D numerical modelling approaches, through to complex 2D model estimates with the level of accuracy and uncertainty of the flood hazard estimate linked to the method used to derive the flood behaviour estimate.

1836	The purpose of the designation is to enable the Requiring Authority to widen and upgrade the Redoubt Road-Mill Road Corridor. The public works are required in order to provide future corridor capacity to support growth identified within the Takanini and wider southern area and provide an alternate north/south corridor to State Highway 1.	Parts of Redoubt Road, Mill Road and Murphy's Road	
1837	Construction, operation and maintenance of an arterial transport corridor	Ponga Road and Ōpāheke Road from Jack Paterson Road intersection to Settlement Road intersection	
1838	Construction, operation and maintenance of an arterial transport corridor.	Waihoehoe Road east of Fitzgerald Road to Drury Hills Road	
1839	Construction, operation and maintenance of an arterial transport corridor.	Land between Hunua Road and Waihoehoe Road	
1840	Construction, operation and maintenance of an arterial transport corridor	Land between Jesmond Road and Waihoehoe Road West	
1841	Construction, operation, and maintenance of the Eastern Busway Stage 2.	EB2 is located at Pakuranga Town Centre and encompasses works on Ti Rakau Drive, Pakuranga Road, Reeves Road, Cortina Place and the South-Eastern Highway (SEART).	

1842	Construction, operation and maintenance of an upgrade to Puhinui Road between Plunket Avenue and the SH20/20B Interchange for a BRT corridor, walking and cycling facilities and associated infrastructure.	Puhinui Station (in the vicinity of Plunket Avenue) to SH20/20B Interchange
1843	Construction, operation and maintenance of an extension to Puhinui Road between the SH20/20B Interchange and Orrs Road for a BRT corridor, walking and cycling facilities and associated infrastructure.	SH20/20B Interchange to Orrs Road
1844	The construction, operation, and maintenance of a transport corridor.	From the intersection of State Highway 22 and Jesmond Road to the edge of the Future Urban Zone near Runciman Road, Drury.
1845	The construction, operation, and maintenance of transport corridors.	Between the two extents of Sim Road, Paerata across the North Island Main Trunk Rail Line and between Paerata Rail Station and Sim Road, Paerata.
1846	The construction, operation, and maintenance of a new transport corridor.	Between State Highway 22 and Pukekohe East Road.
1847	The construction, operation, and maintenance of an existing transport corridor.	Between Helvetia Road and Svendsen Road.
1848	The construction, operation, and maintenance of a new transport corridor.	Between Helvetia Road and State Highway 22.
1849	Construction, operation and maintenance of the Eastern Busway Stage 3 Commercial (EB3C).	B3C is located in Pakūranga, Burswood and East Tāmaki, from Riverhills Park, through Burswood Drive (west) to Burswood Drive (east), Burswood Esplanade Reserve to Ti Rakau Drive, East Tāmaki.
1850	Construction, operation and maintenance of the Eastern Busway Stage 4 Link (EB4L).	EB4L is located in East Tāmaki from Ti Rakau Drive, from Guys Reserve and Whaka Maumahara to Te Irirangi Drive, Botany.
1851	To construct, operate and maintain upgrades to an arterial transport corridor and associated infrastructure	Great South Road in Drury between Waihoehoe Road and the State Highway 1 Drury Interchange

1851 Great South Road Upgrade (Drury Section)

Designation Number	<u>1851</u>
Requiring Authority	Auckland Transport
Location	Great South Road in Drury between Waihoehoe Road and the State Highway 1 Drury Interchange
<u>Lapse Date</u>	In accordance with section 184(1)(c) of the RMA, this designation shall lapse if not given effect to within 10 years from the date on which it is included in the AUP.

Purpose

<u>To construct, operate and maintain upgrades to an arterial transport corridor and associated infrastructure</u>

Conditions

Abbreviations and definitions

Acronym/Term	<u>Definition</u>	
Activity sensitive to noise	Any dwelling, visitor accommodation, boarding house, marae, papakāinga, integrated residential development, retirement village, supported residential care, care centre, lecture theatre in a tertiary Education Facility, classroom in an Education Facility and healthcare facility with an overnight stay facility.	
AUP	Auckland Unitary Plan	
BPO or Best Practicable Option	Has the same meaning as in section 2 of the RMA 1991.	
<u>CEMP</u>	Construction Environmental Management Plan	
Certification of material changes to management plans	Confirmation from the Manager that a material change to a management plan has been prepared in accordance with the condition to which it relates. A material change to a management plan shall be deemed certified: (a) where the Requiring Authority has received written confirmation from the Manager that the material change to the management plan is certified; or (b) 10 working days from the submission of the material change to the management plan where no written confirmation of certification has been received.	
<u>CMP</u>	Cultural Monitoring Plan	
CNVMP	Construction Noise and Vibration Management Plan	
CNVMP Schedule or Schedule	A schedule to the CNVMP	
Completion of Construction	When construction of the project (or part of the project) is complete and it is available for use.	
Confirmed Lizard Management Plan Areas	Areas recorded in the Identified Native Lizard Habitat Areas Schedule where the ecological values and effects have been confirmed through the lizard survey under Condition 29.	
Construction Works	Activities undertaken to construct the project excluding Enabling Works.	

Council	Auckland Council		
CTMP			
	Construction Traffic Management Plan		
<u>Developer</u>	Any legal entity that intends to master plan or develop land adjacent to the designation.		
Development Agency	Public entities involved in development projects.		
Educational Facility	Facility used for education to secondary level. Includes:		
	(a) schools and outdoor education facilities; and		
	(b) <u>accommodation, administrative, cultural, religious, health, retail</u> <u>and communal facilities accessory to the above.</u>		
	Excludes:		
	(a) <u>care centres; and</u>		
	(b) tertiary education facilities.		
EIANZ Guidelines	Ecological Impact Assessment: EIANZ guidelines for use in New Zealand: terrestrial and freshwater ecosystems, second edition, dated May 2018.		
Enabling Works	Includes, but is not limited to, the following and similar activities:		
	(a) geotechnical investigations (including trial embankments)		
	(b) <u>archaeological site investigations</u>		
	(c) <u>formation of access for geotechnical investigations</u>		
	(d) establishment of site yards, site entrances and fencing		
	(e) <u>constructing and sealing site access roads</u>		
	(f) <u>demolition or removal of buildings and structures</u>		
	(g) <u>relocation of services; and</u>		
	(h) establishment of mitigation measures (such as erosion and sediment control measures, temporary noise walls, earth bunds and planting).		
ННМР	Historic Heritage Management Plan		
HNZPT	Heritage New Zealand Pouhere Taonga.		
HNZPTA	Heritage New Zealand Pouhere Taonga Act 2014		
Identified Native Lizard Habitat Area	Means an area or areas of features of ecological value where the project ecologist has identified that the project will potentially have a moderate or greater level of ecological effect on native lizards, prior to implementation of impact management measures, as determined in accordance with the EIANZ guidelines.		
<u>LMP</u>	<u>Lizard Management Plan</u>		
Manager	The Manager – Resource Consents of the Auckland Council, or authorised delegate.		
Mana Whenua	Mana Whenua as referred to in the conditions are considered to be, but not limited to, the following (in no particular order), who at the time of Notice of Requirement expressed a desire to be involved in the project: (a) Te Ākitai Waiohua; (b) Ngai Tai ki Tāmaki; (c) Ngaati Te Ata Waiohua; (d) Ngaati Whanaunga; (e) Ngāti Tamaoho; (f) Ngāti Paoa Trust Board; (g) Te Ahiwaru Waiohua; (h) Ngāti Tamaterā; and		

	(i) <u>Ngāti Maru.</u> Note: Other iwi not identified above may have an interest in the		
	project and should be consulted		
Network Utility Operator	Has the same meaning as set out in section 166 of the RMA.		
NIMP	Network Integration Management Plan		
NUMP	Network Utilities Management Plan		
<u>NOR</u>	Notice of Requirement		
<u>NZAA</u>	New Zealand Archaeological Association		
Outline Plan	An outline plan prepared in accordance with section 176A of the RMA.		
<u>Project Liaison Person</u>	The person or persons appointed for the duration of the project's Construction Works to be the main point of contact for persons wanting information about the project or affected by the Construction Works.		
Protected Premises and Facilities (PPF)	Protected Premises and Facilities as defined in New Zealand Standard NZS 6806:2010: Acoustics – Road-traffic noise – New and altered roads.		
Requiring Authority	Has the same meaning as section 166 of the RMA and, for this designation is Auckland Transport.		
<u>RMA</u>	Resource Management Act 1991		
SCEMP	Stakeholder Communication and Engagement Management Plan		
Stakeholder	Stakeholders to be identified in accordance with Condition 4, which may include as appropriate: (a) adjacent owners and occupiers; (b) adjacent business owners and operators; (c) central and local government bodies; (d) community groups; (e) developers; (f) development agencies;		
	(g) <u>educational facilities; and</u> (h) <u>Network Utility Operators.</u>		
Stage of Work	(g) educational facilities; and (h) Network Utility Operators. Any physical works that require the development of an Outline Plan.		
Start of Construction	(g) educational facilities; and (h) Network Utility Operators. Any physical works that require the development of an Outline Plan. The time when Construction Works (excluding Enabling Works) start.		
	(g) educational facilities; and (h) Network Utility Operators. Any physical works that require the development of an Outline Plan.		
Start of Construction	(g) educational facilities; and (h) Network Utility Operators. Any physical works that require the development of an Outline Plan. The time when Construction Works (excluding Enabling Works) start. A person (or persons) who can provide sufficient evidence to demonstrate their suitability, experience and competence in the		

General conditions

1. Activity in General Accordance with Plans and Information

- (a) Except as provided for in the conditions below, and subject to final design and Outline Plan(s), works within the designation shall be undertaken in general accordance with the following in Schedule 1:
 - (i) the project description; and
 - (ii) concept plan.
- (b) Where there is inconsistency between:
 - (i) <u>the project description and concept plan in Schedule 1 and the</u> requirements of the following conditions, the conditions shall prevail;
 - (ii) the project description and concept plan in Schedule 1, and the management plans under the conditions of the designation, the requirements of the management plans shall prevail.

2. **Project Information**

- (a) A project website, or equivalent virtual information source, shall be established as soon as reasonably practicable, and within six months of the inclusion of this designation in the AUP.
- (b) All directly affected owners and occupiers shall be notified in writing as soon as reasonably practicable once the website or equivalent information source has been established. The project website or virtual information source shall include these conditions and shall provide information on:
 - (i) the status of the project;
 - (ii) anticipated construction timeframes;
 - (iii) contact details for enquiries;
 - (iv) the implications of the designation for landowners, occupiers and business owners and operators within the designation and where they can receive additional advice;
 - (v) <u>a subscription service to enable receipt of project updates by email; and</u>
 - (vi) when and how to apply for consent for works in the designation under section 176(1)(b) of the RMA.
- (c) At the start of detailed design for a Stage of Work, the project website or virtual information source shall be updated to provide information on the likely date for Start of Construction, and any Staging of Works.

3. Land Use Integration Process

- (a) The Requiring Authority shall set up a Land use Integration Process for the period between confirmation of the designation and the Start of Construction.

 The purpose of this process is to encourage and facilitate the integration of master planning and land use development activity on land directly affected or adjacent to the designation. To achieve this purpose:
 - (i) the Requiring Authority shall include the contact details of a nominated contact on the project website (or equivalent information source) required to be established by Condition (2)(b)(iii); and
 - (ii) the nominated contact shall be the main point of contact for a Developer or Development Agency wanting to work with the Requiring Authority to integrate their development plans or master planning with the designation.
- (b) At any time prior to the Start of Construction, the nominated contact will be available to engage with a Developer or Development Agency for the purpose of:
 - (i) responding to requests made to the Requiring Authority for information regarding design details that could assist with land use integration; and
 - (ii) receiving information from a Developer or Development Agency regarding master planning or land development details that could assist with land use integration.
- (c) <u>Information requested or provided under Condition 3(b) above may include but</u> not be limited to the following matters:
 - (i) <u>design details including but not limited to:</u>
 - A <u>boundary treatment (e.g. the use of retaining walls or batter slopes);</u>
 - B the horizontal and vertical alignment of the road (levels);
 - C potential locations for mid-block crossings;
 - D integration of stormwater infrastructure;
 - E <u>traffic noise modelling contours; and</u>
 - F outputs from flood modelling.
 - (ii) <u>potential modifications to the extent of the designation in response to the information received through Condition 3(b)(ii);</u>
 - (iii) a process for the Requiring Authority to undertake a technical review of or provide comments on any master planning or development proposal advanced by the Developer or Development Agency as it relates to integration with the project; and
 - (iv) details of how to apply for written consent from the Requiring Authority for any development proposal that relates to land that is within the designation under section 176(1)(b) of the RMA.
- (d) Where information is requested from the Requiring Authority and is available, the nominated contact shall provide the information unless there are reasonable grounds for not providing it.
- (e) The nominated contact shall maintain a record of the engagement between the Requiring Authority and Developers and Development Agencies for the period following the date in which this designation is included in the AUP through to the Start of Construction for a Stage of Work. The record shall include:
 - (i) details of any requests made to the Requiring Authority that could influence detailed design, the results of any engagement and, where such requests that could influence detailed design are declined, the reasons why the Requiring Authority has declined the requests; and
 - (ii) <u>details of any requests to co-ordinate the forward work programme, where appropriate, with Development Agencies and Network Utility</u> Operators.
- (f) The record shall be submitted to Council for information 10 working days prior to the Start of Construction for a Stage of Work

4. Stakeholder Communication and Engagement Design

- (a) At least six months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall identify:
 - (i) a list of Stakeholders;
 - (ii) <u>a list of properties within the designation which the Requiring Authority</u> does not own or have occupation rights to; and
 - (iii) methods to engage with Stakeholders and the owners and occupiers of properties identified in (a)(i) (ii) above.
- (b) A record of (a) shall be submitted to the Manager for information with an Outline Plan for the relevant Stage of Work.
- (c) The purpose of this identification and engagement design process is to inform future engagement processes during detailed design and construction phases for a Stage of Work.

5. <u>Designation Review</u>

The Requiring Authority shall within six months of Completion of Construction or as soon as otherwise practicable:

- (a) review the extent of the designation to identify any areas of designated land that it no longer requires for the on-going operation, maintenance or mitigation of effects of the project; and
- (b) give notice to the Manager in accordance with section 182 of the RMA for the removal of those parts of the designation identified above.

6. Lapse

In accordance with section 184(1)(c) of the RMA, this designation shall lapse if not given effect to within 10 years from the date on which it is included in the AUP.

7. Network Utility Operators and Auckland Council (Section 176 Approval)

- (a) Prior to the start of Construction Works, Network Utility Operators with existing infrastructure and Auckland Council in relation to parks located within the designation will not require written consent under section 176 of the RMA for the following activities:
 - (i) operation, maintenance and repair works;
 - (ii) minor renewal works to existing network utilities or parks necessary for the on-going provision or security of supply of network utility operations;
 - (iii) minor works such as new service connections; and
 - (iv) the upgrade and replacement of existing network utilities in the same location with the same or similar effects on the works authorised by the designation as the existing utility.
- (b) To the extent that a record of written approval is required for the activities listed above, this condition shall constitute written approval.

Pre-construction conditions

8. Outline Plan

- (a) An Outline Plan (or Plans) shall be prepared in accordance with section 176A of the RMA.
- (b) Outline Plans (or Plan) may be submitted in parts or in stages to address particular activities (e.g. design or construction aspects), or a Stage of Work of the project.
- (c) Outline Plans shall include any management plan or plans that are relevant to the management of effects of those activities or Stage of Work, which may include:
 - (i) Network Integration Management Plan;
 - (ii) <u>Urban and Landscape Design Management Plan;</u>
 - (iii) Construction Environmental Management Plan;
 - (iv) Construction Traffic Management Plan;
 - (v) Construction Noise and Vibration Management Plan;
 - (vi) Historic Heritage Management Plan;
 - (vii) Lizard Management Plan;
 - (viii) Tree Management Plan; and
 - (ix) Network Utilities Management Plan.

Flood Hazard

For the purpose of Condition 9:

- (a) AEP means Annual Exceedance Probability;
- (b) Existing Authorised Habitable Floor means the floor level of any room (floor) in a residential building which is authorised and exists at the time the outline plan is submitted, excluding a laundry, bathroom, toilet or any room used solely as an entrance hall, passageway or garage;
- (c) Flood Prone Area means a potential ponding areas that may flood in a 1% AEP event and commonly comprise of topographical depression areas. The areas can occur naturally or as a result of constructed features. Identification of a potential Flood Prone Area would be by an assessment of residual flood risk in a 1% AEP event (e.g. from blockage of the project stormwater network) on land outside and adjacent to the designation following the application of Conditions 9(a)(i)-(iv):
- (d) Maximum Probable Development is the design case for consideration of future flows allowing for development within a catchment that takes into account the maximum impervious surface limits of the current zone or if the land is zoned Future Urban in the AUP, the probable level of development arising from zone changes;
- (e) <u>Pre-Project development means existing site condition prior to the project (including existing buildings and roadways); and</u>
- (f) <u>Post-Project development means site condition after the project has been completed (including existing and new buildings and roadways).</u>

9. Flood Hazard

- (a) The project shall be designed to achieve the following flood risk outcomes beyond the boundary of the designation:
 - (i) no increase in flood levels in a 1% AEP event for Existing Authorised
 Habitable Floors that are already subject to flooding or have a freeboard
 less than 500mm;
 - (ii) no increase in flood levels in a 1% AEP for authorised community, commercial, industrial and network utility building floors existing at the time the Outline Plan is submitted that are already subject to flooding or have a freeboard less than 300mm;
 - (iii) maximum of 50mm increase in flood levels in a 1% AEP event outside and adjacent to the designation between the Pre-Project Development and Post-Project Development scenarios;
 - (iv) no increase of Flood Hazard Class for the main access to authorised habitable dwellings existing at time the Outline Plan is submitted. The assessment shall be undertaken for the 1% AEP rainfall event and reference the hazard class in accordance with Schedule 2 to these conditions; and
 - (v) no new flood prone areas.
- (b) Compliance with this condition shall be demonstrated in the Outline Plan, which shall include flood modelling of the Pre-Project Development and Post-Project Development 1% AEP flood levels (for Maximum Probable Development land use and including climate change).
- (c) Where:
 - (i) the flood risk outcomes in (a) can be achieved through alternative measures outside of the designation such as flood stop banks, flood walls, raising Existing Authorised Habitable Floor level and new overland flow paths; or
 - (ii) the outcomes are varied at a specific location(s) through agreement with the relevant landowner,

confirmation shall be provided to the Manager that any necessary landowner and statutory approvals have been obtained for that alternative measure or varied outcome.

10. Existing property access

Prior to submission of the Outline Plan, consultation shall be undertaken with landowners and occupiers whose vehicle access to their property will be altered by the project. The Outline Plan shall demonstrate how safe reconfigured or alternate access will be provided, unless otherwise agreed with the affected landowner. This condition does not apply to business-zoned land.

11. Existing business property access

- (a) Prior to submission of the Outline Plan, consultation shall be undertaken with landowners and occupiers whose vehicle access to their property will be altered by the project.
- (b) Where vehicle access to a property within business-zoned land will be altered by the project, the Outline Plan shall demonstrate how safe access will be provided that:
 - (i) <u>maintains and promotes the safe, effective, and efficient operation of the transport network;</u>
 - (ii) recognises the role and function of all accesses including for loading and unloading of goods to the site; and
 - (iii) <u>subject to achieving (i), also provides effective and efficient access to the site where practicable.</u>
- (c) Where an alternative outcome has been agreed that does not comply with Condition 11(b), the Outline Plan shall provide details of the alternative outcome and how the safe, effective, and efficient operation of the transport network will be maintained.

Advice note: Condition 11 does not affect Auckland Transport's ability to exercise its statutory Road Controlling Authority powers to modify traffic or parking controls.

12. Management Plans

- (a) Any management plan shall:
 - (i) <u>be prepared and implemented in accordance with the relevant</u> management plan condition;
 - (ii) <u>be prepared by a Suitably Qualified Person(s);</u>
 - (iii) <u>include sufficient detail relating to the management of effects associated</u> with the relevant activities and/or Stage of Work to which it relates.
 - (iv) be submitted as part of an Outline Plan pursuant to section 176A of the RMA, with the exception of SCEMPs and CNVMP Schedules; and
 - (v) <u>once finalised, uploaded to the project website or equivalent virtual</u> information source.
- (b) Any management plan developed in accordance with Condition 12 may:
 - (i) be submitted in parts or in stages to address particular activities (e.g. design or construction aspects) a Stage of Work of the project, or to address specific activities authorised by the designation;
 - (ii) <u>except for material changes, be amended to reflect any changes in</u> <u>design, construction methods or management of effects without further</u> process;
- (c) Information shall be submitted with the management plan (or revised plan as referred to in (d) below) which summarises outcomes of consultation and any input received from Mana Whenua and Stakeholders as required by the relevant management plan condition. The summary shall note how this input has been incorporated or reflected in the management plan, or if not, the reasons why;
- (d) If there is a material change required to a management plan which has been submitted with an Outline Plan, the revised part of the plan shall be submitted to the Manager as an update to the Outline Plan or for Certification as soon as practicable following identification of the need for a revision; and
- (e) Any material changes to the SCEMPs are to be submitted to the Manager for information.

13. Stakeholder Communication and Engagement Management Plan (SCEMP)

- (a) A SCEMP shall be prepared in consultation with relevant Stakeholders prior to the Start of Construction. The objective of the SCEMP is to identify how the public and Stakeholders will be engaged with throughout the Construction Works.
- (b) To achieve the objective, the SCEMP shall include:
 - (i) a list of Stakeholders;
 - (ii) the contact details for the Project Liaison Person. These details shall be on the project website, or equivalent virtual information source, and prominently displayed at the main entrance(s) to the site(s);
 - (iii) methods and timing to engage with owners and occupiers whose access is directly affected;
 - (iv) methods to communicate key project milestones and the proposed hours of construction activities including outside of normal working hours and on weekends and public holidays, to the parties identified in (b)(i) above; and
 - (v) <u>linkages and cross-references to communication and engagement methods set out in other conditions and management plans where relevant.</u>
- (c) Any SCEMP prepared for a Stage of Work shall be submitted to the Manager for information a minimum of 10 working days prior to the Start of Construction for a Stage of Work.

14. Cultural Advisory Report

- (a) At least six months prior to the start of detailed design for a Stage of Work,

 Mana Whenua shall be invited to prepare a Cultural Advisory Report for the
 project. The objective of the Cultural Advisory Report is to assist in
 understanding and identifying ngā taonga tuku iho ('treasures handed down by
 our ancestors') affected by the project, to inform their management and
 protection.
- (b) To achieve the objective, the Requiring Authority shall invite Mana Whenua to prepare a Cultural Advisory Report that:
 - (i) <u>identifies the cultural sites, landscapes and values that have the potential</u> to be affected by the construction and operation of the project;
 - (ii) <u>sets out the desired outcomes for management of potential effects on cultural sites, landscapes and values;</u>
 - (iii) <u>identifies traditional cultural practices within the area that may be impacted by the project;</u>
 - (iv) <u>identifies opportunities for restoration and enhancement of identified</u> <u>cultural sites, landscapes and values within the project area;</u>
 - (v) taking into account the outcomes of (i) to (iv) above, identify cultural matters and principles that should be considered in the development of the ULDMP referred to in Condition 17, HHMP referred to in Condition 28 and the CMP referred to in Condition 22; and
 - (vi) <u>identifies and (if possible) nominates traditional names along the project alignment. Noting there may be formal statutory processes outside the project required in any decision-making.</u>
- (c) The desired outcomes for management of potential effects on cultural sites, landscapes and values identified in the Cultural Advisory Report shall be discussed with Mana Whenua and those outcomes reflected in the relevant management plans where practicable; and
- (d) Conditions 14(a) and (b) above will cease to apply if:
 - (i) Mana Whenua have been invited to prepare a Cultural Advisory Report by a date at least six months prior to start of Construction Works; and
 - (ii) Mana Whenua have not provided a Cultural Advisory Report within six months prior to start of Construction Works.

15. Network Integration Management Plan (NIMP)

- (a) At least six months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall prepare, in collaboration with other relevant road controlling authorities, a NIMP. The objective of the NIMP is to identify how the project will integrate with the planned transport network in the Takaanini growth area to achieve an effective, efficient and safe land transport system.
- (b) To achieve this objective, the NIMP shall include details of the:
 - (i) <u>project implementation approach and any staging of the project, including</u> both design, management and operational matters; and
 - (ii) sequencing of the project with the planned transport network, including both design, management and operational matters.

16. Mana Whenua Kaitiaki Forum

- (a) At least 12 months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall invite Mana Whenua to establish a Mana Whenua Kaitiaki Forum. The objective of the Mana Whenua Kaitiaki Forum is to provide a forum for Mana Whenua to participate as partners in all phases of the project.
- (b) To achieve the objective, the Mana Whenua Kaitiaki Forum shall address (as a minimum) the following matters:
 - (i) <u>how Mana Whenua will provide input into the design of the project. For example:</u>
 - A <u>how Mana Whenua values and narrative are incorporated through</u> the form of the project and associated structures;
 - B <u>how pou, art, sculptures, mahi toi or any other features located on land within or adjoining the project will be provided in a manner that represents the Māori history of the area and promotes a distinctiveness or sense of place;</u>
 - (ii) how Mana Whenua will be engaged in the preparation of management plans and future consenting processes;
 - (iii) <u>how mātauranga Māori and tikanga Māori will be recognised in all phases of the project;</u>
 - (iv) where opportunities for Mana Whenua to participate in engagement with local communities, business associations, social institutions and community groups will be provided;
 - (v) where opportunities for Mana Whenua to support the physical, mental, social and economic wellbeing for iwi and the local community will be provided through the project. This could include:
 - A <u>planting supplied through Mana Whenua and community based nurseries;</u>
 - B <u>local schools being involved in planting; and</u>
 - C <u>scholarships, cadetships and job creation.</u>
 - (vi) the Requiring Authority shall provide reasonable resourcing, technical and administrative support for Mana Whenua including organising meetings at a local venue and the taking and dissemination of meeting minutes;
 - (vii) the frequency of meetings shall be agreed between the Requiring Authority and Mana Whenua; and
 - (viii) prior to the Start of Construction, the Requiring Authority shall produce a record of the Mana Whenua Kaitiaki Forum. The record of the Mana Whenua Kaitiaki Forum shall be provided to Mana Whenua and shall include (but not be limited to):
 - A <u>details of how Mana Whenua have participated as partners in the project;</u>
 - B <u>details of how the matters set out in (b) will be incorporated into</u> the project;
 - C <u>how the objective of the Mana Whenua Kaitiaki Forum has been</u> and will continue to be met; and
 - D <u>details of how comments from Mana Whenua have been</u> incorporated into the project and where not incorporated, the reasons why.
- (c) Mana Whenua shall be invited to identify and (if possible) nominate traditional names across the project such as for bridge structures. Noting there may be formal statutory processes outside the project required in any decision making.

	(d)	d) The Mana Whenua Kaitiaki Forum shall continue to meet for at least six months following Completion of Construction or as agreed with Mana Whenua.			
	Urban and Landscape Design Management Plan (ULDMP)				
17.	(a)	A ULDMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the ULDMP(s) is to:			
		(i)	enable integration of the project's permanent works into the surrounding landscape and urban context; and		
		(ii)	ensure that the project manages potential adverse landscape and visual effects as far as practicable and contributes to a quality urban environment.		
	(b)	Mana Whenua shall be invited to participate in the development of the ULDMP(s) to provide input into relevant cultural landscape and design matter including how desired outcomes for management of potential effects on cultu sites, landscapes and values identified and discussed in accordance with the Cultural Advisory Report (Condition 14) and/or through the Mana Whenua Kaitiaki Forum (Condition 16) may be reflected in the ULDMP.			
	(c)	Relevant Stakeholders shall be invited to participate in the development of the ULDMP at least six months prior to the start of detailed design for a Stage of Work.			
18.	(a)	To achieve the objective set out in Condition 17, the ULDMP(s) shall provide details of how the project:			
		(i)	is designed to integrate with the adjacent urban (or proposed urban) and landscape context, including the surrounding existing or proposed topography, urban environment (e.g. centres and density of built form), natural environment, landscape character and open space zones;		
		(ii) provides appropriate walking and cycling connectivity to, and interwith, existing or proposed adjacent land uses (including public trainand walking and cycling facilities);			
		(iii)	promotes inclusive access (where appropriate);		
		(iv)	promotes a sense of personal safety by aligning with best practice guidelines, such as:		
			A <u>Crime Prevention Through Environmental Design (CPTED)</u> principles;		
			B <u>Safety in Design (SID) requirements; and</u>		
			C <u>Maintenance in Design (MID) requirements and antivandalism/anti-graffiti measures.</u>		
(v) <u>has responded to matters identified the Process (Condition 3); and</u>		(v)	has responded to matters identified through the Land use Integration Process (Condition 3); and		
	(b)	The U	LDMP shall be prepared in general accordance with:		
		 (i) Auckland Transport's Urban Roads and Streets Design Guide of subsequent updated version; (ii) New Zealand Transport Agency Urban Design Guidelines: Bridg Gap (2013) or any subsequent updated version; 			
		(iii)	New Zealand Transport Agency Landscape Guidelines (2013) or any subsequent updated version;		
		(iv)	New Zealand Transport Agency P39 Standard Specification for Highway Landscape Treatments (2013) or any subsequent updated version; and		
		(v) <u>Auckland's Urban Ngahere (Forest) Strategy or any subsequent update version.</u>			

19. The ULDMP(s) shall include:

- (a) A concept plan which depicts the overall landscape and urban design concept, and explain the rationale for the landscape and urban design proposals;
- (b) <u>Developed design concepts, including principles for walking and cycling</u> facilities and public transport;
- (c) <u>Landscape and urban design details that cover the following:</u>
 - (i) road design elements such as intersection form, carriageway gradient and associated earthworks contouring including cut and fill batters and the interface with adjacent land uses and existing roads (including slip lanes), benching, spoil disposal sites, median width and treatment, roadside width and treatment;
 - (ii) <u>roadside elements such as lighting, fencing, wayfinding and signage;</u>
 - (iii) <u>architectural and landscape treatment of all major structures, including bridges and retaining walls;</u>
 - (iv) architectural and landscape treatment of noise barriers;
 - (v) <u>landscape treatment and planting of permanent stormwater control</u> <u>wetlands and swales;</u>
 - (vi) <u>integration of passenger transport;</u>
 - (vii) <u>pedestrian and cycle facilities including paths, road crossings and dedicated pedestrian/ cycle bridges or underpasses;</u>
 - (viii) historic heritage places with reference to the HHMP (Condition 28); and
 - (ix) re-instatement of construction and site compound areas; and
 - (x) <u>features disturbed during construction and intended to be reinstated such as:</u>
 - A boundary features;
 - B driveways;
 - C accessways; and
 - D fences
- (d) The ULDMP shall also include the following planting and maintenance details:
 - (i) planting design details including:
 - A <u>identification of existing trees and vegetation that will be retained</u> <u>with reference to the TMP and LMP. Where practicable, mature</u> trees and native vegetation should be retained;
 - B <u>street trees, shrubs and ground cover suitable for the location;</u>
 - C <u>treatment of fill slopes to integrate with adjacent land use, streams, riparian margins and open space zones;</u>
 - D <u>identification of any planting requirements under the LMP</u> (Condition 30) and TMP (Condition 31);
 - E <u>integration of any planting required by conditions of any resource consents for the project; and</u>
 - F <u>re-instatement planting of construction and site compound areas</u> as appropriate.
 - (ii) a planting programme including the staging of planting in relation to the construction programme which shall, as far as practicable, include provision for planting within each planting season following completion of each Stage of Work; and
 - (iii) detailed specifications relating to the following:

- A weed control and clearance;
- B pest animal management (to support plant establishment);
- C ground preparation (top soiling and decompaction);
- D mulching; and
- E plant sourcing and planting, including hydroseeding and grassing, and use of eco-sourced species.

Construction conditions

20. Construction Environmental Management Plan (CEMP)

- (a) A CEMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the CEMP is to set out the management procedures and construction methods to be undertaken to, avoid, remedy or mitigate any adverse effects associated with Construction Works as far as practicable.
- (b) To achieve the objective, the CEMP shall include:
 - (i) the roles and responsibilities of staff and contractors;
 - (ii) <u>details of the site or project manager and the Project Liaison Person,</u> including their contact details (phone and email address);
 - (iii) the Construction Works programmes and the staging approach, and the proposed hours of work;
 - (iv) <u>details of the proposed construction yards including temporary screening</u> when adjacent to residential areas;
 - (v) details of the proposed construction lighting;
 - (vi) methods for controlling dust and the removal of debris and demolition of construction materials from public roads or places;
 - (vii) methods for providing for the health and safety of the general public;
 - (viii) measures to mitigate flood hazard effects such as siting stockpiles out of floodplains, minimising obstruction to flood flows, actions to respond to warnings of heavy rain;
 - (ix) procedures for incident management;
 - (x) <u>location and procedures for the refuelling and maintenance of plant and</u> equipment to avoid discharges of fuels or lubricants to watercourses;
 - (xi) measures to address the storage of fuels, lubricants, hazardous and/or dangerous materials, along with contingency procedures to address emergency spill response(s) and clean up;
 - (xii) procedures for responding to complaints about Construction Works; and
 - (xiii) methods for amending and updating the CEMP as required.

21. Complaints Process

- (a) At all times during Construction Works, a record of any complaints received about the Construction Works shall be maintained. The record shall include:
 - (i) the date, time and nature of the complaint;
 - (ii) the name, phone number and address of the complainant (unless the complainant wishes to remain anonymous);
 - (iii) measures taken to respond to the complaint (including a record of the response provided to the complainant) or confirmation of no action if deemed appropriate;
 - (iv) the outcome of the investigation into the complaint; and
 - (v) any other activities in the area, unrelated to the project that may have contributed to the complaint, such as non-project construction, fires, traffic accidents or unusually dusty conditions generally.
- (b) A copy of the complaints record required by this condition shall be made available to the Manager upon request as soon as practicable after the request is made.

22. Cultural Monitoring Plan (CMP)

- (a) Prior to the Start of Construction, a CMP shall be prepared by a Suitably

 Qualified Person(s) identified in collaboration with Mana Whenua. The objective
 of the CMP is to identify methods for undertaking cultural monitoring to assist
 with management of any cultural effects during Construction Works.
- (b) To achieve the objective, the CMP shall include:
 - (i) requirements for formal dedication or cultural interpretation to be undertaken prior to start of Construction Works in areas identified as having significance to Mana Whenua;
 - (ii) <u>requirements and protocols for cultural inductions for contractors and</u> subcontractors;
 - (iii) <u>identification of activities, sites and areas where cultural monitoring is</u> required during particular Construction Works;
 - (iv) <u>identification of personnel to undertake cultural monitoring, including any</u> <u>geographic definition of their responsibilities; and</u>
 - (v) <u>details of personnel to assist with management of any cultural effects</u> <u>identified during cultural monitoring, including implementation of the</u> Accidental Discovery Protocol
- (c) If Enabling Works involving soil disturbance are undertaken prior to the Start of Construction, an Enabling Works CMP shall be prepared by a Suitably Qualified Person identified in collaboration with Mana Whenua. This plan may be prepared as a standalone Enabling Works CMP or be included in the main Construction Works CMP.

Advice Note: Where appropriate, the CMP shall align with the requirements of other conditions of the designation and resource consents for the project which require monitoring during Construction Works.

23. Construction Traffic Management Plan (CTMP)

- (a) A CTMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the CTMP is to avoid, remedy or mitigate, as far as practicable, adverse construction traffic effects.
- (b) To achieve this objective, the CTMP shall include:
 - methods to manage the effects of temporary traffic management activities on traffic;
 - (ii) measures to ensure the safety of all transport users;
 - (iii) the estimated numbers, frequencies, routes and timing of traffic movements, including any specific non-working or non-movement hours to manage vehicular and pedestrian traffic near Educational Facilities or to manage traffic congestion;
 - (iv) site access routes and access points for heavy vehicles, the size and location of parking areas for plant, construction vehicles and the vehicles of workers and visitors;
 - (v) <u>identification of detour routes and other methods to ensure the safe</u> <u>management and maintenance of traffic flows, including public transport,</u> <u>pedestrians and cyclists;</u>
 - (vi) methods to maintain access to and within property and/or private roads where practicable, or to provide alternative arrangements when it will not be, including details of how access is managed for loading and unloading of goods. Engagement with landowners an occupiers whose access is directly affected shall be undertaken in accordance with Condition 13(b)(iii);
 - (vii) the management approach to loads on heavy vehicles, including covering loads of fine material, the use of wheel-wash facilities at site exit points and the timely removal of any material deposited or spilled on public roads;
 - (viii) methods that will be undertaken to communicate traffic management measures to affected road users (e.g. residents/ public/ Stakeholders/ emergency services);
 - (ix) details of minimum network performance parameters during the construction phase, including any measures to monitor compliance with the performance parameters; and
 - (x) <u>details of any measures proposed to be implemented in the event of</u> thresholds identified in (ix) being exceeded.
- (c) Auditing, monitoring and reporting requirements relating to traffic management activities shall be undertaken in accordance with the New Zealand Guide to Temporary Traffic Management (April 2013) or any subsequent version.

24. Construction Noise Standards

(a) Construction noise shall be measured and assessed in accordance with NZS6803:1999 Acoustics – Construction Noise and shall comply with the noise standards set out in the following table as far as practicable:

Table 24-1 Construction Noise Standards

Day of week	Time period	LAeq(15min)	<u>L</u> AFmax			
Occupied activity se	Occupied activity sensitive to noise					
<u>Weekday</u>	<u>0630h - 0730h</u>	<u>55 dB</u>	<u>75 dB</u>			
	<u>0730h - 1800h</u>	<u>70 dB</u>	<u>85 dB</u>			
	1800h - 2000h	<u>65 dB</u>	<u>80 dB</u>			
	<u>2000h - 0630h</u>	<u>45 dB</u>	<u>75 dB</u>			
Saturday	<u>0630h - 0730h</u>	45 dB	<u>75 dB</u>			
	<u>0730h - 1800h</u>	<u>70 dB</u>	<u>85 dB</u>			
	1800h - 2000h	<u>45 dB</u>	<u>75 dB</u>			
	<u>2000h - 0630h</u>	<u>45 dB</u>	<u>75 dB</u>			
Sunday and Public	<u>0630h - 0730h</u>	<u>45 dB</u>	<u>75 dB</u>			
<u>Holidays</u>	<u>0730h - 1800h</u>	<u>55 dB</u>	<u>85 dB</u>			
	1800h - 2000h	<u>45 dB</u>	<u>75 dB</u>			
	2000h - 0630h	<u>45 dB</u>	<u>75 dB</u>			
Other occupied buildings						
All	<u>0730h – 1800h</u>	<u>70 dB</u>				
	<u>1800h – 0730h</u>	<u>75 dB</u>				

⁽b) Where compliance with the noise standards set out in Table 24-1 is not practicable, the methodology in Condition 27 shall apply.

25. <u>Construction Vibration Standards</u>

(a) Construction vibration shall be measured in accordance with ISO 4866:2010

Mechanical vibration and shock – Vibration of fixed structures – Guidelines for the measurement of vibrations and evaluation of their effects on structures and shall comply with the vibration standards set out in the following table as far as practicable.

Table 25-1 Construction Vibration Standards

Receiver	<u>Details</u>	Category A	Category B
Occupied activities sensitive to noise	Night-time 2000h - 0630h	0.3mm/s ppv	2mm/s ppv
	<u>Daytime 0630h -</u> <u>2000h</u>	2mm/s ppv	5mm/s ppv
Other occupied buildings	<u>Daytime 0630h -</u> <u>2000h</u>	2mm/s ppv	5mm/s ppv
All other buildings	At all other times	Tables 1 and 3 of DII	N4150-3:1999

(b) Where compliance with the vibration standards set out in Table 25-1 is not practicable, the methodology in Condition 27 shall apply.

26. Construction Noise and Vibration Management Plan (CNVMP)

- (a) A CNVMP shall be prepared by a Suitably Qualified and Experienced Person prior to the Start of Construction for a Stage of Work. A CNVMP shall be implemented during the Stage of Work to which it relates. The objective of the CNVMP is to provide a framework for the development and implementation of the Best Practicable Option for the management of construction noise and vibration effects to achieve the construction noise and vibration standards set out in Conditions 24 and 25 to the extent practicable.
- (b) To achieve the objective, the CNVMP shall be prepared in accordance with Annex E2 of the New Zealand Standard NZS6803:1999 'Acoustics Construction Noise' (NZS6803:1999) and shall as a minimum, address the following:
 - (i) description of the works and anticipated equipment/processes;
 - (ii) hours of operation, including times and days when construction activities would occur;
 - (iii) the construction noise and vibration standards for the project;
 - (iv) identification of receivers where noise and vibration standards apply;
 - (v) <u>a hierarchy of management and mitigation options, including any</u> requirements to limit night works and works during other sensitive times, including Sundays and public holidays as far as practicable;
 - (vi) methods and frequency for monitoring and reporting on construction noise and vibration;
 - (vii) procedures for communication and engagement with nearby residents and Stakeholders, including notification of proposed construction activities, the period of construction activities, and management of noise and vibration complaints;
 - (viii) contact details of the Project Liaison Person;
 - (ix) procedures for the regular training of the operators of construction equipment to minimise noise and vibration as well as expected construction site behaviours for all workers;
 - (x) procedures and requirements for the preparation of a Schedule to the CNVMP (Schedule) for those areas where compliance with the noise Condition 24 and/or vibration standards Condition 25 Category B will not be practicable;
 - (xi) <u>identification of trigger levels for undertaking building condition surveys</u>, which shall be Category B day time levels;
 - (xii) procedures and trigger levels for undertaking building condition surveys before and after works to determine whether any cosmetic or structural damage has occurred as a result of construction vibration;
 - (xiii) methodology and programme of desktop and field audits and inspections to be undertaken to ensure that CNVMP, Schedules and the Best Practicable Option for management of effects are being implemented; and
 - (xiv) requirements for review and update of the CNVMP.

27. Schedule to a CNVMP

- (a) A Schedule to the CNVMP (Schedule) shall be prepared prior to the Start of Construction of an activity to which it relates by a Suitably Qualified Person, in consultation with the owners and occupiers of sites subject to the Schedule, when:
 - (i) construction noise is either predicted or measured to exceed the noise standards in Condition 24 except where the exceedance of the L_{Aeq} criteria is no greater than 5 decibels and does not exceed:
 - A 0630 2000: 2 periods of up to 2 consecutive weeks in any 2 months, or
 - B 2000 0630: 1 period of up to 2 consecutive nights in any 10 days.
 - (ii) construction vibration is either predicted or measured to exceed the Category B standard at the receivers in Condition 25.
- (b) The objective of the Schedule is to set out the Best Practicable Option measures to manage noise and/or vibration effects of the construction activity beyond those measures set out in the CNVMP.
- (c) To achieve the objective, the Schedule shall include details such as:
 - (i) construction activity location, start and finish dates;
 - (ii) the nearest neighbours to the construction activity;
 - (iii) the predicted noise and/or vibration level for all receivers where the levels are predicted or measured to exceed the applicable standards and predicted duration of the exceedance;
 - (iv) for works proposed between 2000h and 0630h, the reasons why the proposed works must be undertaken during these hours and why they cannot be practicably undertaken during the daytime;
 - (v) the proposed mitigation options that have been selected, and the options that have been discounted as being impracticable and the reasons why;
 - (vi) the consultation undertaken with owners and occupiers of sites subject to the Schedule, and how consultation has and has not been taken into account; and
 - (vii) location, times and types of monitoring.
- (d) The Schedule shall be submitted to the Manager for Certification at least five working days (except in unforeseen circumstances) in advance of Construction Works that are covered by the scope of the Schedule and shall form part of the CNVMP.
- (e) The CNVMP Schedule shall be deemed certified five working days from the submission of the CNVMP Schedule where no written confirmation of Certification has been received.
- (f) Where material changes are made to a Schedule required by this condition, the Requiring Authority shall consult the owners and/or occupiers of sites subject to the Schedule prior to submitting the amended Schedule to the Manager for Certification in accordance with (d) above. The amended Schedule shall document the consultation undertaken with those owners and occupiers, and how consultation outcomes have and have not been taken into account.

28. Historic Heritage Management Plan (HHMP)

- (a) A HHMP shall be prepared in consultation with Council, HNZPT and Mana Whenua prior to the Start of Construction for a Stage of Work. The objective of the HHMP is to protect historic heritage and to remedy and mitigate any residual effects as far as practicable.
- (b) To achieve the objective, the HHMP shall identify:
 - (i) <u>any adverse direct and indirect effects on historic heritage sites and measures to appropriately avoid, remedy or mitigate any such effects, including a tabulated summary of these effects and measures;</u>
 - (ii) methods for the identification and assessment of potential historic heritage places within the designation to inform detailed design;
 - (iii) known historic heritage places and potential archaeological sites within the designation, including identifying any archaeological sites for which an Archaeological Authority under the HNZPTA will be sought or has been granted;
 - (iv) <u>any unrecorded archaeological sites or post-1900 heritage sites within</u> the designation, which shall also be documented and recorded;
 - (v) roles, responsibilities and contact details of project personnel, Council and HNZPT representatives, Mana Whenua representatives, and relevant agencies involved with heritage and archaeological matters including surveys, monitoring of Construction Works, compliance with AUP accidental discovery rule, and monitoring of conditions;
 - (vi) specific areas to be investigated, monitored and recorded to the extent these are directly affected by the project;
 - (vii) the proposed methodology for investigating and recording post-1900 historic heritage sites (including buildings) that need to be destroyed, demolished or relocated, including details of their condition, measures to mitigate any adverse effects and timeframe for implementing the proposed methodology, in accordance with the HNZPT Archaeological Guidelines Series No.1: Investigation and Recording of Buildings and Standing Structures (November 2018, or any subsequent version;
 - (viii) methods to acknowledge cultural values identified through the Mana Whenua Kaitiaki Forum (Condition 16) and CAR (Condition 14) where archaeological sites also involve ngā taonga tuku iho (treasures handed down by our ancestors) and where feasible and practicable to do so;
 - (ix) methods for avoiding, remedying or mitigation adverse effects on historic heritage places and sites within the designation during Construction

 Works as far as practicable. These methods shall include, but are not limited to:
 - A security fencing or hoardings around historic heritage places to protect them from damage during construction or unauthorised access:
 - B measures to mitigate adverse effects on historic heritage sites that achieve positive historic heritage outcomes such as increased public awareness and interpretation signage; and
 - C training requirements and inductions for contractors and subcontractors on historic heritage places within the designation, legal obligations relating to accidental and/or unexpected discoveries, the AUP Accidental Discovery Rule (E11.6.1). The training shall be undertaken prior to the Start of Construction, under the guidance of a Suitably Qualified Person and Mana Whenua representatives (to the extent the training relates to cultural values identified under Condition 14 and Condition 16.

Accidental Discoveries

Advice Note:

The requirements for accidental discoveries of heritage items are set out in Rule E11.6.1 of the AUP

29. Pre-Construction Lizard Survey

- (a) At the start of detailed design for a Stage of Work, an updated survey of native lizards and their habitat in the locations shown in Schedule 3 shall be undertaken by a Suitably Qualified Person. The purpose of the survey is to inform lizard management by:
 - (i) confirming whether the native lizards of value within the locations shown in Schedule 3 are still present; and
 - (ii) confirming whether the project will or may have a moderate or greater level of ecological effect on native lizards of value in those locations, prior to implementation of impact management measures, as determined in accordance with the EIANZ guidelines.
- (b) If the survey confirms the presence of native lizards of value in accordance with Condition 29(a)(i) and that effects are likely in accordance with Condition 29(a)(ii) then a Lizard Management Plan (or Plans) shall be prepared in accordance with Condition 30 for these areas (Confirmed Lizard Management Plan Areas).

30. Lizard Management Plan (LMP)

- (a) A LMP shall be prepared for any Confirmed Lizard Management Plan Areas (in accordance with Condition 29) prior to the Start of Construction for a Stage of Work. The objective of the LMP is to minimise effects of the project on native lizards of value in Confirmed Lizard Management Plan Areas as far as practicable.
- (b) To achieve the objective, the LMP shall set out the methods which may include:
 - (i) <u>a description of the methodology and timing for survey, trapping and</u> relocation of native lizards rescued;
 - (ii) a description of the relocation site(s), including:
 - A <u>any measures to ensure the relocation site is suitable protected</u> and remains viable (e.g. covenants, consent notices etc.);
 - B <u>any measures to ensure the relocation site is suitably managed to ensure appropriate habitat for native lizards (e.g. provision of additional refugia, weed and pest management); and</u>
 - (iii) <u>any proposed monitoring of relocation sites if necessary to evaluate</u> translocation success.
- (c) The LMP shall be consistent with any native lizard management measures to be undertaken in compliance with conditions of any regional resource consents granted for the project.

Advice Note:

<u>Depending on the potential effects of the project, the regional consents for the project</u> may include the following monitoring and management plans:

- (i) stream and/or wetland restoration plans;
- (ii) vegetation restoration plans; and
- (iii) fauna management plans (eg avifauna, bats).

31. Tree Management Plan (TMP)

- (a) Prior to the Start of Construction for a Stage of Work, a TMP shall be prepared.
 The objective of the TMP is to avoid, remedy or mitigate effects of construction activities on trees identified in Schedule 4.
- (b) To achieve the objective, the TMP shall:
 - (i) confirm that the trees listed in Schedule 4 still exist; and
 - (ii) <u>demonstrate how the design and location of project works has avoided, remedied or mitigated any effects on any tree listed in Schedule 4. This may include:</u>
 - A planting to replace trees that require removal (with reference to the ULDMP planting design details in Condition 19);
 - B <u>tree protection zones and tree protection measures such as protective fencing, ground protection and physical protection of roots, trunks and branches; and</u>
 - C methods for work within the rootzone of trees that are to be retained in line with accepted arboricultural standards.

32. Network Utilities Management Plan (NUMP)

- (a) A NUMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the NUMP is to set out a framework for protecting, relocating and working in proximity to existing network utilities.
- (b) To achieve the objective, the NUMP shall include methods to:
 - (i) <u>provide access for maintenance at all reasonable times, or emergency</u> works at all times during construction activities;
 - (ii) protect and where necessary, relocate existing network utilities;
 - (iii) manage the effects of dust and any other material potentially resulting from construction activities and able to cause material damage, beyond normal wear and tear to overhead transmission lines in the project area;
 - (iv) demonstrate compliance with relevant standards and Codes of Practice including, where relevant, the NZECP 34:2001 New Zealand Electrical Code of Practice for Electrical Safe Distances 2001; AS/NZS 4853:2012 Electrical hazards on Metallic Pipelines; and AS/NZS 2885 Pipelines Gas and Liquid Petroleum.
- (c) The NUMP shall be prepared in consultation with the relevant Network Utility Operators(s) who have assets that are directly affected by the project.
- (d) The development of the NUMP shall consider opportunities to coordinate future work programmes with other Network Utility Operator(s) during detailed design where practicable.
- (e) The NUMP shall describe how any comments from the Network Utility Operator in relation to its assets have been addressed.
- (f) Any comments received from the Network Utility Operator shall be considered when finalising the NUMP.
- (g) Any amendments to the NUMP related to the assets of a Network Utility Operator shall be prepared in consultation with that asset owner.

Operational conditions

33. Low Noise Road Surface

Asphaltic concrete surfacing (or equivalent low noise road surface) shall be implemented within 12 months of Completion of Construction of the project.

34. Future Resurfacing Work

- (a) Any future resurfacing works of the project shall be undertaken in accordance with the Auckland Transport Reseal Guidelines, Asset Management and Systems 2013 or any updated version and asphaltic concrete surfacing (or equivalent low noise road surface) shall be implemented where:
 - (i) the volume of traffic exceeds 10,000 vehicles per day; or
 - (ii) the road is subject to high wear and tear (such as cul de sac heads, roundabouts and main road intersections); or
 - (iii) <u>it is in an industrial or commercial area where there is a high</u> <u>concentration of truck traffic; or</u>
 - (iv) <u>it is subject to high usage by pedestrians, such as town centres, hospitals, shopping centres and schools.</u>
- (b) Prior to commencing any future resurfacing works, the Requiring Authority shall advise the Manager if any of the triggers in Condition 34(a)(i) (iv) are not met by the road or a section of it and therefore where the application of asphaltic concrete surfacing (or equivalent low noise road surface) is no longer required on the road or a section of it. Such advice shall also indicate when any resealing is to occur.

Attachments

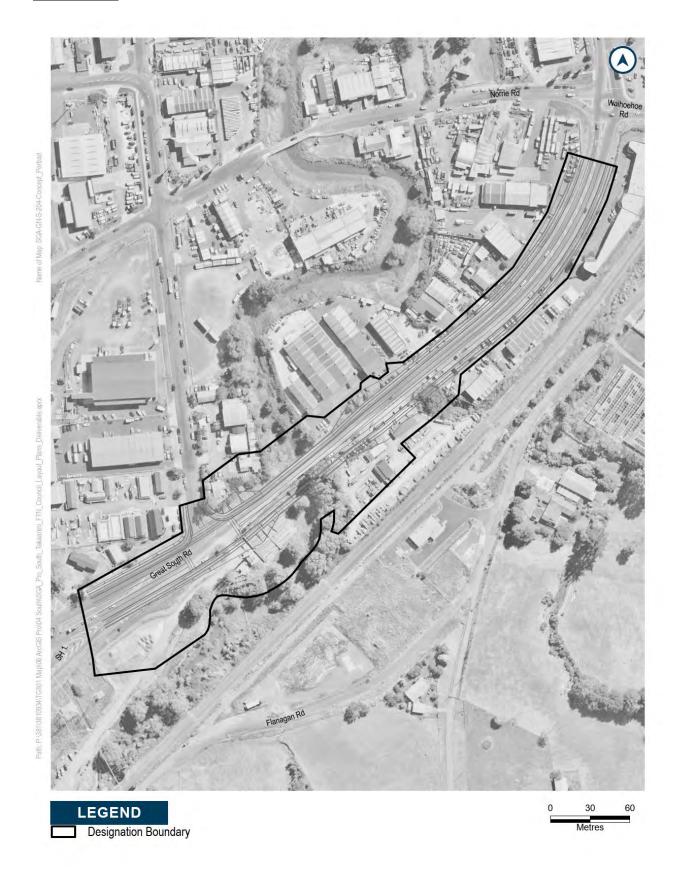

Schedule 1: General accordance plans and information

Project Description

The proposed work is for the construction, operation, and maintenance of upgrades to Great South Road between Waihoehoe Road and the State Highway 1 Drury Interchange. The proposed work is shown in the following Concept Plan and includes:

- a) An upgrade of Great South Road to accommodate general traffic lanes and walking and cycling facilities;
- b) Associated works including intersections, bridges, embankments, retaining walls, culverts, and stormwater management systems;
- c) Reconfiguration of local roads, where the proposed work intersects with local roads; and
- d) Construction activities including vegetation removal, establishment of construction areas and the regrading of driveways.

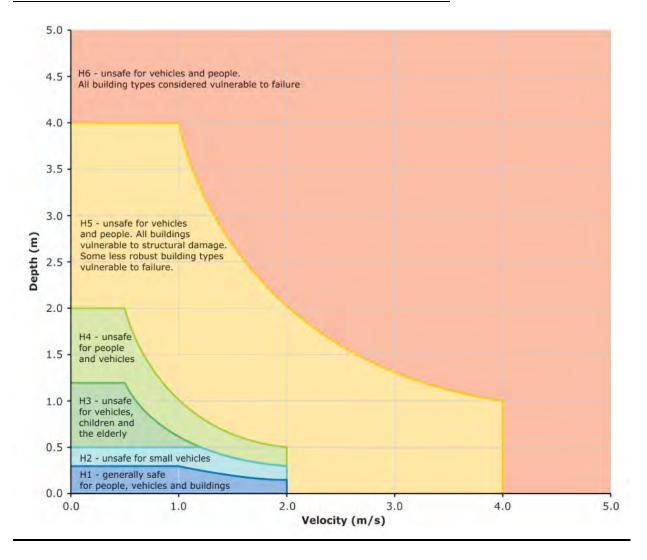

Concept Plan

Schedule 2: Flood Hazard Class

The combined flood hazard curves shown below set hazard thresholds that relate to the vulnerability of the community when interacting with floodwaters. The combined curves are divided into hazard classifications that relate to specific vulnerability thresholds

The vulnerability thresholds identified in the flood hazard curves can be applied to the best description of flood behaviour available for a subject site. In this regard, the hazard curves can be applied equally to flood behaviour estimates from measured data, simpler 1D numerical modelling approaches, through to complex 2D model estimates with the level of accuracy and uncertainty of the flood hazard estimate linked to the method used to derive the flood behaviour estimate.

Auckland Transport South Schedule and designation conditions 1851 Great South Road Upgrade (Drury Section)
(Clean)

Designation Schedule - Auckland Transport (3/3)

South

Number	Description	Location	
1800	Lapsed		
1801	Lapsed		
1802	Road widening	128 Ormiston Road, Flat Bush	
1804	Public off-street parking	143 Pakuranga Road, Pakuranga	
1805	Car park and service lane	20 and 24 Uxbridge Road, Howick	
1806	Road widening	109 and 129 Beachlands Road, 373, 460, 465, 469, 482, 492, 509, 529, 533, 600, 601-605, 639, 645-651, 650, 691, 702, 712, 722, 732, 746, 751, 758, 770, 781, 824, 830, 855, 865-867 and 897 Whitford-Maraetai Road and 49 and 110A Jack Lachlan Drive, Whitford (Stages 5, 6 and 7)	
1807	New road (Whitford Bypass)	40, 51, 54, 58, 83, 133, 172, 173, 201, 227, 231, 230, 232, 238, 250, 257, 284, 330, 371, 374, 376 and 385 Whitford Park Road, 2, 21, 35, 91, 97, 101 and 401 Trig Road, 18, 24 and 30 Saleyard Road, 500 Brookby Road, 53 Polo Lane, 1 and 2 Turanga Road, 49 Clifton Road and 46, 53R, 104R, 109, 130, 150, 186, 299, 373 and 404 Whitford-Maraeitai Road (Stages 1, 2, 3 and 4)	
1808	Road widening	Ormiston Road and Chapel Road, Flat Bush	
1809	Road widening	2, 5, 17, 22-38, 47-59, 56-60 and 67 Allens Road, 3-9 Smales Road, 1 and 2 Harris Road, 2 Ross Reid Place and 61 Sir William Avenue, East Tamaki	
1810	Car parking asset	24 Hall St, Pukekohe	
1811	Public off-street parking	27 Moore Street, Howick	
1812	Public off-street parking	4 Tobin Street, Pukekohe	
1813	Public off-street parking	21 Wallace Road, Papatoetoe	
1814	Withdrawn		
1815	Withdrawn		
1816	Public off-street parking	27 Charles Street, Paptoetoe	
1817	Public off-street parking	2 Davies Avenue, Manukau	
1818	Withdrawn		
1819	Public off-street parking	41 Moore Street (Fencible Drive), Howick	
1820	Public off-street parking	1-13 Maich Road, Papkura	
1821	Public off-street parking	26-32 O'Shannessy Street, Papakura	
1822	Public off-street parking	8 Davies Avenue, Manukau	
1823	Public off-street parking	37 Coles Crescent, Papakura	
1824	Public off-street parking	15 Eric Baker Place, Paptoetoe	
1825	Withdrawn		

1826 1827 1828 1829	Public off-street parking Public off-street parking Public off-street parking	1R Newbury Street, Otara 21 Shirley Road, Papatoetoe
1828		21 Shirley Road, Papatoetoe
	Public off-street parking	
1829	. •	9 Wellington Street (Picton Street), Howick
1020	Public off-street parking	7 Massey Avenue, Pukekohe
1830	Public off-street parking	4 Wellington Street, Howick
1831	Public off-street parking	1-49 Waddon Place and 121 Bader Drive, Mangere
1832	Public off-street parking	Constable Road (corner King Street), Waiuku
1833	Road widening	Flat Bush School Road and Murphys Road, Flat Bush
1834	Road widening	21 and 39 Flat Bush School Road and 66 Thomas Road, Flat Bush
1835	Upgrade intersection at East Tamaki, Ormiston and Preston Roads in Otara	267Z, 279, 279A, 279B, 279C, 279D, 279E, 279F, 279G, 279H, 279I, 283, 285 and 287 East Tamaki Road, 2, 4, 6, 1/6, 2/6, 3/6, 4/6, 5/6, 6/6, 7/6, 8/6 and 8 Ormiston Road and 208, 208A and 243 Preston Road
1836	The purpose of the designation is to enable the Requiring Authority to widen and upgrade the Redoubt Road-Mill Road Corridor. The public works are required in order to provide future corridor capacity to support growth identified within the Takanini and wider southern area and provide an alternate north/south corridor to State Highway 1.	Parts of Redoubt Road, Mill Road and Murphy's Road
1837	Construction, operation and maintenance of an arterial transport corridor	Ponga Road and Ōpāheke Road from Jack Paterson Road intersection to Settlement Road intersection
1838	Construction, operation and maintenance of an arterial transport corridor.	Waihoehoe Road east of Fitzgerald Road to Drury Hills Road
1839	Construction, operation and maintenance of an arterial transport corridor.	Land between Hunua Road and Waihoehoe Road
1840	Construction, operation and maintenance of an arterial transport corridor	Land between Jesmond Road and Waihoehoe Road West
1841	Construction, operation, and maintenance of the Eastern Busway Stage 2.	EB2 is located at Pakuranga Town Centre and encompasses works on Ti Rakau Drive, Pakuranga Road, Reeves Road, Cortina Place and the South-Eastern Highway (SEART).

1842	Construction, operation and maintenance of an upgrade to Puhinui Road between Plunket Avenue and the SH20/20B Interchange for a BRT corridor, walking and cycling facilities and associated infrastructure.	Puhinui Station (in the vicinity of Plunket Avenue) to SH20/20B Interchange
1843	Construction, operation and maintenance of an extension to Puhinui Road between the SH20/20B Interchange and Orrs Road for a BRT corridor, walking and cycling facilities and associated infrastructure.	SH20/20B Interchange to Orrs Road
1844	The construction, operation, and maintenance of a transport corridor.	From the intersection of State Highway 22 and Jesmond Road to the edge of the Future Urban Zone near Runciman Road, Drury.
1845	The construction, operation, and maintenance of transport corridors.	Between the two extents of Sim Road, Paerata across the North Island Main Trunk Rail Line and between Paerata Rail Station and Sim Road, Paerata.
1846	The construction, operation, and maintenance of a new transport corridor.	Between State Highway 22 and Pukekohe East Road.
1847	The construction, operation, and maintenance of an existing transport corridor.	Between Helvetia Road and Svendsen Road.
1848	The construction, operation, and maintenance of a new transport corridor.	Between Helvetia Road and State Highway 22.
1849	Construction, operation and maintenance of the Eastern Busway Stage 3 Commercial (EB3C).	B3C is located in Pakūranga, Burswood and East Tāmaki, from Riverhills Park, through Burswood Drive (west) to Burswood Drive (east), Burswood Esplanade Reserve to Ti Rakau Drive, East Tāmaki.
1850	Construction, operation and maintenance of the Eastern Busway Stage 4 Link (EB4L).	EB4L is located in East Tāmaki from Ti Rakau Drive, from Guys Reserve and Whaka Maumahara to Te Irirangi Drive, Botany.
1851	To construct, operate and maintain upgrades to an arterial transport corridor and associated infrastructure	Great South Road in Drury between Waihoehoe Road and the State Highway 1 Drury Interchange

1851 Great South Road Upgrade (Drury Section)

Designation Number	1851
Requiring Authority	Auckland Transport
Location	Great South Road in Drury between Waihoehoe Road and the State Highway 1 Drury Interchange
Lapse Date	In accordance with section 184(1)(c) of the RMA, this designation shall lapse if not given effect to within 10 years from the date on which it is included in the AUP.

Purpose

To construct, operate and maintain upgrades to an arterial transport corridor and associated infrastructure

Conditions

Abbreviations and definitions

Acronym/Term	Definition
Activity sensitive to noise	Any dwelling, visitor accommodation, boarding house, marae, papakāinga, integrated residential development, retirement village, supported residential care, care centre, lecture theatre in a tertiary Education Facility, classroom in an Education Facility and healthcare facility with an overnight stay facility.
AUP	Auckland Unitary Plan
BPO or Best Practicable Option	Has the same meaning as in section 2 of the RMA 1991.
CEMP	Construction Environmental Management Plan
Certification of material changes to management plans	Confirmation from the Manager that a material change to a management plan has been prepared in accordance with the condition to which it relates.
	A material change to a management plan shall be deemed certified:
	(a) where the Requiring Authority has received written confirmation from the Manager that the material change to the management plan is certified; or
	(b) 10 working days from the submission of the material change to the management plan where no written confirmation of certification has been received.
CMP	Cultural Monitoring Plan
CNVMP	Construction Noise and Vibration Management Plan
CNVMP Schedule or Schedule	A schedule to the CNVMP
Completion of Construction	When construction of the project (or part of the project) is complete and it is available for use.
Confirmed Lizard Management Plan Areas	Areas recorded in the Identified Native Lizard Habitat Areas Schedule where the ecological values and effects have been confirmed through the lizard survey under Condition 29.
Construction Works	Activities undertaken to construct the project excluding Enabling Works.

Council	Auckland Council		
CTMP	Construction Traffic Management Plan		
Developer	Any legal entity that intends to master plan or develop land adjacent to the designation.		
Development Agency	Public entities involved in development projects.		
Educational Facility	Facility used for education to secondary level. Includes: (a) schools and outdoor education facilities; and (b) accommodation, administrative, cultural, religious, health, retail and communal facilities accessory to the above. Excludes: (a) care centres; and (b) tertiary education facilities.		
EIANZ Guidelines	Ecological Impact Assessment: EIANZ guidelines for use in New Zealand: terrestrial and freshwater ecosystems, second edition, dated May 2018.		
Enabling Works	Includes, but is not limited to, the following and similar activities: (a) geotechnical investigations (including trial embankments) (b) archaeological site investigations (c) formation of access for geotechnical investigations (d) establishment of site yards, site entrances and fencing (e) constructing and sealing site access roads (f) demolition or removal of buildings and structures (g) relocation of services; and (h) establishment of mitigation measures (such as erosion and sediment control measures, temporary noise walls, earth bunds and planting).		
HHMP	Historic Heritage Management Plan		
HNZPT	Heritage New Zealand Pouhere Taonga.		
HNZPTA	Heritage New Zealand Pouhere Taonga Act 2014		
Identified Native Lizard Habitat Area	Means an area or areas of features of ecological value where the project ecologist has identified that the project will potentially have a moderate or greater level of ecological effect on native lizards, prior to implementation of impact management measures, as determined in accordance with the EIANZ guidelines.		
LMP	Lizard Management Plan		
Manager	The Manager – Resource Consents of the Auckland Council, or authorised delegate.		
Mana Whenua	Mana Whenua as referred to in the conditions are considered to be, but not limited to, the following (in no particular order), who at the time of Notice of Requirement expressed a desire to be involved in the project: (a) Te Ākitai Waiohua; (b) Ngai Tai ki Tāmaki; (c) Ngaati Te Ata Waiohua; (d) Ngaati Whanaunga; (e) Ngāti Tamaoho; (f) Ngāti Paoa Trust Board; (g) Te Ahiwaru Waiohua; (h) Ngāti Tamaterā; and		

	(i) Ngāti Maru. Note: Other iwi not identified above may have an interest in the project and should be consulted		
Network Utility Operator	Has the same meaning as set out in section 166 of the RMA.		
NIMP			
NUMP	Network Integration Management Plan		
NOR	Network Utilities Management Plan		
	Notice of Requirement		
NZAA	New Zealand Archaeological Association		
Outline Plan	An outline plan prepared in accordance with section 176A of the RMA.		
Project Liaison Person	The person or persons appointed for the duration of the project's Construction Works to be the main point of contact for persons wanting information about the project or affected by the Construction Works.		
Protected Premises and Facilities (PPF)	Protected Premises and Facilities as defined in New Zealand Standard NZS 6806:2010: Acoustics – Road-traffic noise – New and altered roads.		
Requiring Authority	Has the same meaning as section 166 of the RMA and, for this designation is Auckland Transport.		
RMA	Resource Management Act 1991		
SCEMP	Stakeholder Communication and Engagement Management Plan		
Stakeholder	Stakeholders to be identified in accordance with Condition 4, which may include as appropriate: (a) adjacent owners and occupiers; (b) adjacent business owners and operators; (c) central and local government bodies; (d) community groups; (e) developers; (f) development agencies; (g) educational facilities; and (h) Network Utility Operators.		
Stage of Work	Any physical works that require the development of an Outline Plan.		
Start of Construction	The time when Construction Works (excluding Enabling Works) start.		
Suitably Qualified Person	A person (or persons) who can provide sufficient evidence to demonstrate their suitability, experience and competence in the relevant field of expertise.		
TMP	Tree Management Plan		
ULDMP	Urban and Landscape Design Management Plan		

General conditions

1. Activity in General Accordance with Plans and Information

- (a) Except as provided for in the conditions below, and subject to final design and Outline Plan(s), works within the designation shall be undertaken in general accordance with the following in Schedule 1:
 - (i) the project description; and
 - (ii) concept plan.
- (b) Where there is inconsistency between:
 - (i) the project description and concept plan in Schedule 1 and the requirements of the following conditions, the conditions shall prevail;
 - (ii) the project description and concept plan in Schedule 1, and the management plans under the conditions of the designation, the requirements of the management plans shall prevail.

2. Project Information

- (a) A project website, or equivalent virtual information source, shall be established as soon as reasonably practicable, and within six months of the inclusion of this designation in the AUP.
- (b) All directly affected owners and occupiers shall be notified in writing as soon as reasonably practicable once the website or equivalent information source has been established. The project website or virtual information source shall include these conditions and shall provide information on:
 - (i) the status of the project;
 - (ii) anticipated construction timeframes;
 - (iii) contact details for enquiries;
 - (iv) the implications of the designation for landowners, occupiers and business owners and operators within the designation and where they can receive additional advice;
 - (v) a subscription service to enable receipt of project updates by email; and
 - (vi) when and how to apply for consent for works in the designation under section 176(1)(b) of the RMA.
- (c) At the start of detailed design for a Stage of Work, the project website or virtual information source shall be updated to provide information on the likely date for Start of Construction, and any Staging of Works.

3. Land Use Integration Process

- (a) The Requiring Authority shall set up a Land use Integration Process for the period between confirmation of the designation and the Start of Construction. The purpose of this process is to encourage and facilitate the integration of master planning and land use development activity on land directly affected or adjacent to the designation. To achieve this purpose:
 - (i) the Requiring Authority shall include the contact details of a nominated contact on the project website (or equivalent information source) required to be established by Condition (2)(b)(iii); and
 - (ii) the nominated contact shall be the main point of contact for a Developer or Development Agency wanting to work with the Requiring Authority to integrate their development plans or master planning with the designation.
- (b) At any time prior to the Start of Construction, the nominated contact will be available to engage with a Developer or Development Agency for the purpose of:
 - (i) responding to requests made to the Requiring Authority for information regarding design details that could assist with land use integration; and
 - (ii) receiving information from a Developer or Development Agency regarding master planning or land development details that could assist with land use integration.
- (c) Information requested or provided under Condition 3(b) above may include but not be limited to the following matters:
 - (i) design details including but not limited to:
 - A boundary treatment (e.g. the use of retaining walls or batter slopes);
 - B the horizontal and vertical alignment of the road (levels);
 - C potential locations for mid-block crossings;
 - D integration of stormwater infrastructure;
 - E traffic noise modelling contours; and
 - F outputs from flood modelling.
 - (ii) potential modifications to the extent of the designation in response to the information received through Condition 3(b)(ii);
 - (iii) a process for the Requiring Authority to undertake a technical review of or provide comments on any master planning or development proposal advanced by the Developer or Development Agency as it relates to integration with the project; and
 - (iv) details of how to apply for written consent from the Requiring Authority for any development proposal that relates to land that is within the designation under section 176(1)(b) of the RMA.
- (d) Where information is requested from the Requiring Authority and is available, the nominated contact shall provide the information unless there are reasonable grounds for not providing it.
- (e) The nominated contact shall maintain a record of the engagement between the Requiring Authority and Developers and Development Agencies for the period following the date in which this designation is included in the AUP through to the Start of Construction for a Stage of Work. The record shall include:
 - details of any requests made to the Requiring Authority that could influence detailed design, the results of any engagement and, where such requests that could influence detailed design are declined, the reasons why the Requiring Authority has declined the requests; and
 - (ii) details of any requests to co-ordinate the forward work programme, where appropriate, with Development Agencies and Network Utility Operators.
- (f) The record shall be submitted to Council for information 10 working days prior to the Start of Construction for a Stage of Work

4. Stakeholder Communication and Engagement Design

- (a) At least six months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall identify:
 - (i) a list of Stakeholders;
 - (ii) a list of properties within the designation which the Requiring Authority does not own or have occupation rights to; and
 - (iii) methods to engage with Stakeholders and the owners and occupiers of properties identified in (a)(i) (ii) above.
- (b) A record of (a) shall be submitted to the Manager for information with an Outline Plan for the relevant Stage of Work.
- (c) The purpose of this identification and engagement design process is to inform future engagement processes during detailed design and construction phases for a Stage of Work.

5. Designation Review

The Requiring Authority shall within six months of Completion of Construction or as soon as otherwise practicable:

- (a) review the extent of the designation to identify any areas of designated land that it no longer requires for the on-going operation, maintenance or mitigation of effects of the project; and
- (b) give notice to the Manager in accordance with section 182 of the RMA for the removal of those parts of the designation identified above.

6. Lapse

In accordance with section 184(1)(c) of the RMA, this designation shall lapse if not given effect to within 10 years from the date on which it is included in the AUP.

7. Network Utility Operators and Auckland Council (Section 176 Approval)

- (a) Prior to the start of Construction Works, Network Utility Operators with existing infrastructure and Auckland Council in relation to parks located within the designation will not require written consent under section 176 of the RMA for the following activities:
 - (i) operation, maintenance and repair works;
 - (ii) minor renewal works to existing network utilities or parks necessary for the on-going provision or security of supply of network utility operations;
 - (iii) minor works such as new service connections; and
 - (iv) the upgrade and replacement of existing network utilities in the same location with the same or similar effects on the works authorised by the designation as the existing utility.
- (b) To the extent that a record of written approval is required for the activities listed above, this condition shall constitute written approval.

Pre-construction conditions

8. Outline Plan

- (a) An Outline Plan (or Plans) shall be prepared in accordance with section 176A of the RMA.
- (b) Outline Plans (or Plan) may be submitted in parts or in stages to address particular activities (e.g. design or construction aspects), or a Stage of Work of the project.
- (c) Outline Plans shall include any management plan or plans that are relevant to the management of effects of those activities or Stage of Work, which may include:
 - (i) Network Integration Management Plan;
 - (ii) Urban and Landscape Design Management Plan;
 - (iii) Construction Environmental Management Plan;
 - (iv) Construction Traffic Management Plan;
 - (v) Construction Noise and Vibration Management Plan;
 - (vi) Historic Heritage Management Plan;
 - (vii) Lizard Management Plan;
 - (viii) Tree Management Plan; and
 - (ix) Network Utilities Management Plan.

Flood Hazard

For the purpose of Condition 9:

- (a) AEP means Annual Exceedance Probability;
- (b) Existing Authorised Habitable Floor means the floor level of any room (floor) in a residential building which is authorised and exists at the time the outline plan is submitted, excluding a laundry, bathroom, toilet or any room used solely as an entrance hall, passageway or garage;
- (c) Flood Prone Area means a potential ponding areas that may flood in a 1% AEP event and commonly comprise of topographical depression areas. The areas can occur naturally or as a result of constructed features. Identification of a potential Flood Prone Area would be by an assessment of residual flood risk in a 1% AEP event (e.g. from blockage of the project stormwater network) on land outside and adjacent to the designation following the application of Conditions 9(a)(i)-(iv);
- (d) Maximum Probable Development is the design case for consideration of future flows allowing for development within a catchment that takes into account the maximum impervious surface limits of the current zone or if the land is zoned Future Urban in the AUP, the probable level of development arising from zone changes;
- (e) Pre-Project development means existing site condition prior to the project (including existing buildings and roadways); and
- (f) Post-Project development means site condition after the project has been completed (including existing and new buildings and roadways).

9. Flood Hazard

- (a) The project shall be designed to achieve the following flood risk outcomes beyond the boundary of the designation:
 - (i) no increase in flood levels in a 1% AEP event for Existing Authorised Habitable Floors that are already subject to flooding or have a freeboard less than 500mm:
 - (ii) no increase in flood levels in a 1% AEP for authorised community, commercial, industrial and network utility building floors existing at the time the Outline Plan is submitted that are already subject to flooding or have a freeboard less than 300mm;
 - (iii) maximum of 50mm increase in flood levels in a 1% AEP event outside and adjacent to the designation between the Pre-Project Development and Post-Project Development scenarios;
 - (iv) no increase of Flood Hazard Class for the main access to authorised habitable dwellings existing at time the Outline Plan is submitted. The assessment shall be undertaken for the 1% AEP rainfall event and reference the hazard class in accordance with Schedule 2 to these conditions; and
 - (v) no new flood prone areas.
- (b) Compliance with this condition shall be demonstrated in the Outline Plan, which shall include flood modelling of the Pre-Project Development and Post-Project Development 1% AEP flood levels (for Maximum Probable Development land use and including climate change).
- (c) Where:
 - (i) the flood risk outcomes in (a) can be achieved through alternative measures outside of the designation such as flood stop banks, flood walls, raising Existing Authorised Habitable Floor level and new overland flow paths; or
 - (ii) the outcomes are varied at a specific location(s) through agreement with the relevant landowner,

confirmation shall be provided to the Manager that any necessary landowner and statutory approvals have been obtained for that alternative measure or varied outcome.

10. Existing property access

Prior to submission of the Outline Plan, consultation shall be undertaken with landowners and occupiers whose vehicle access to their property will be altered by the project. The Outline Plan shall demonstrate how safe reconfigured or alternate access will be provided, unless otherwise agreed with the affected landowner. This condition does not apply to business-zoned land.

11. Existing business property access

- (a) Prior to submission of the Outline Plan, consultation shall be undertaken with landowners and occupiers whose vehicle access to their property will be altered by the project.
- (b) Where vehicle access to a property within business-zoned land will be altered by the project, the Outline Plan shall demonstrate how safe access will be provided that:
 - (i) maintains and promotes the safe, effective, and efficient operation of the transport network;
 - (ii) recognises the role and function of all accesses including for loading and unloading of goods to the site; and
 - (iii) subject to achieving (i), also provides effective and efficient access to the site where practicable.
- (c) Where an alternative outcome has been agreed that does not comply with Condition 11(b), the Outline Plan shall provide details of the alternative outcome and how the safe, effective, and efficient operation of the transport network will be maintained.

Advice note: Condition 11 does not affect Auckland Transport's ability to exercise its statutory Road Controlling Authority powers to modify traffic or parking controls.

12. Management Plans

- (a) Any management plan shall:
 - (i) be prepared and implemented in accordance with the relevant management plan condition;
 - (ii) be prepared by a Suitably Qualified Person(s);
 - (iii) include sufficient detail relating to the management of effects associated with the relevant activities and/or Stage of Work to which it relates.
 - (iv) be submitted as part of an Outline Plan pursuant to section 176A of the RMA, with the exception of SCEMPs and CNVMP Schedules; and
 - (v) once finalised, uploaded to the project website or equivalent virtual information source.
- (b) Any management plan developed in accordance with Condition 12 may:
 - (i) be submitted in parts or in stages to address particular activities (e.g. design or construction aspects) a Stage of Work of the project, or to address specific activities authorised by the designation;
 - except for material changes, be amended to reflect any changes in design, construction methods or management of effects without further process;
- (c) Information shall be submitted with the management plan (or revised plan as referred to in (d) below) which summarises outcomes of consultation and any input received from Mana Whenua and Stakeholders as required by the relevant management plan condition. The summary shall note how this input has been incorporated or reflected in the management plan, or if not, the reasons why:
- (d) If there is a material change required to a management plan which has been submitted with an Outline Plan, the revised part of the plan shall be submitted to the Manager as an update to the Outline Plan or for Certification as soon as practicable following identification of the need for a revision; and
- (e) Any material changes to the SCEMPs are to be submitted to the Manager for information.

13. Stakeholder Communication and Engagement Management Plan (SCEMP)

- (a) A SCEMP shall be prepared in consultation with relevant Stakeholders prior to the Start of Construction. The objective of the SCEMP is to identify how the public and Stakeholders will be engaged with throughout the Construction Works.
- (b) To achieve the objective, the SCEMP shall include:
 - (i) a list of Stakeholders;
 - (ii) the contact details for the Project Liaison Person. These details shall be on the project website, or equivalent virtual information source, and prominently displayed at the main entrance(s) to the site(s);
 - (iii) methods and timing to engage with owners and occupiers whose access is directly affected;
 - (iv) methods to communicate key project milestones and the proposed hours of construction activities including outside of normal working hours and on weekends and public holidays, to the parties identified in (b)(i) above; and
 - (v) linkages and cross-references to communication and engagement methods set out in other conditions and management plans where relevant.
- (c) Any SCEMP prepared for a Stage of Work shall be submitted to the Manager for information a minimum of 10 working days prior to the Start of Construction for a Stage of Work.

14. Cultural Advisory Report

- (a) At least six months prior to the start of detailed design for a Stage of Work, Mana Whenua shall be invited to prepare a Cultural Advisory Report for the project. The objective of the Cultural Advisory Report is to assist in understanding and identifying ngā taonga tuku iho ('treasures handed down by our ancestors') affected by the project, to inform their management and protection.
- (b) To achieve the objective, the Requiring Authority shall invite Mana Whenua to prepare a Cultural Advisory Report that:
 - (i) identifies the cultural sites, landscapes and values that have the potential to be affected by the construction and operation of the project;
 - (ii) sets out the desired outcomes for management of potential effects on cultural sites, landscapes and values;
 - (iii) identifies traditional cultural practices within the area that may be impacted by the project;
 - (iv) identifies opportunities for restoration and enhancement of identified cultural sites, landscapes and values within the project area;
 - (v) taking into account the outcomes of (i) to (iv) above, identify cultural matters and principles that should be considered in the development of the ULDMP referred to in Condition 17, HHMP referred to in Condition 28 and the CMP referred to in Condition 22; and
 - (vi) identifies and (if possible) nominates traditional names along the project alignment. Noting there may be formal statutory processes outside the project required in any decision-making.
- (c) The desired outcomes for management of potential effects on cultural sites, landscapes and values identified in the Cultural Advisory Report shall be discussed with Mana Whenua and those outcomes reflected in the relevant management plans where practicable; and
- (d) Conditions 14(a) and (b) above will cease to apply if:
 - (i) Mana Whenua have been invited to prepare a Cultural Advisory Report by a date at least six months prior to start of Construction Works; and
 - (ii) Mana Whenua have not provided a Cultural Advisory Report within six months prior to start of Construction Works.

15. Network Integration Management Plan (NIMP)

- (a) At least six months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall prepare, in collaboration with other relevant road controlling authorities, a NIMP. The objective of the NIMP is to identify how the project will integrate with the planned transport network in the Takaanini growth area to achieve an effective, efficient and safe land transport system.
- (b) To achieve this objective, the NIMP shall include details of the:
 - (i) project implementation approach and any staging of the project, including both design, management and operational matters; and
 - (ii) sequencing of the project with the planned transport network, including both design, management and operational matters.

16. Mana Whenua Kaitiaki Forum

- (a) At least 12 months prior to the start of detailed design for a Stage of Work, the Requiring Authority shall invite Mana Whenua to establish a Mana Whenua Kaitiaki Forum. The objective of the Mana Whenua Kaitiaki Forum is to provide a forum for Mana Whenua to participate as partners in all phases of the project.
- (b) To achieve the objective, the Mana Whenua Kaitiaki Forum shall address (as a minimum) the following matters:
 - (i) how Mana Whenua will provide input into the design of the project. For example:
 - A how Mana Whenua values and narrative are incorporated through the form of the project and associated structures;
 - B how pou, art, sculptures, mahi toi or any other features located on land within or adjoining the project will be provided in a manner that represents the Māori history of the area and promotes a distinctiveness or sense of place;
 - (ii) how Mana Whenua will be engaged in the preparation of management plans and future consenting processes;
 - (iii) how mātauranga Māori and tikanga Māori will be recognised in all phases of the project;
 - (iv) where opportunities for Mana Whenua to participate in engagement with local communities, business associations, social institutions and community groups will be provided;
 - (v) where opportunities for Mana Whenua to support the physical, mental, social and economic wellbeing for iwi and the local community will be provided through the project. This could include:
 - A planting supplied through Mana Whenua and community based nurseries;
 - B local schools being involved in planting; and
 - C scholarships, cadetships and job creation.
 - (vi) the Requiring Authority shall provide reasonable resourcing, technical and administrative support for Mana Whenua including organising meetings at a local venue and the taking and dissemination of meeting minutes;
 - (vii) the frequency of meetings shall be agreed between the Requiring Authority and Mana Whenua; and
 - (viii) prior to the Start of Construction, the Requiring Authority shall produce a record of the Mana Whenua Kaitiaki Forum. The record of the Mana Whenua Kaitiaki Forum shall be provided to Mana Whenua and shall include (but not be limited to):
 - A details of how Mana Whenua have participated as partners in the project;
 - B details of how the matters set out in (b) will be incorporated into the project;
 - C how the objective of the Mana Whenua Kaitiaki Forum has been and will continue to be met: and
 - D details of how comments from Mana Whenua have been incorporated into the project and where not incorporated, the reasons why.
- (c) Mana Whenua shall be invited to identify and (if possible) nominate traditional names across the project such as for bridge structures. Noting there may be formal statutory processes outside the project required in any decision making.

	(d) The Mana Whenua Kaitiaki Forum shall continue to meet for at least six months following Completion of Construction or as agreed with Mana Whenua.				
	Urba	an and	Landscape Design Management Plan (ULDMP)		
17.	(a)	 A ULDMP shall be prepared prior to the Start of Construction for a Stag Work. The objective of the ULDMP(s) is to: 			
		(i)	enable integration of the project's permanent works into the surrounding landscape and urban context; and		
		(ii)	ensure that the project manages potential adverse landscape and visual effects as far as practicable and contributes to a quality urban environment.		
	(b)	(b) Mana Whenua shall be invited to participate in the development of the ULDMP(s) to provide input into relevant cultural landscape and design mat including how desired outcomes for management of potential effects on cu sites, landscapes and values identified and discussed in accordance with t Cultural Advisory Report (Condition 14) and/or through the Mana Whenua Kaitiaki Forum (Condition 16) may be reflected in the ULDMP.			
	(c)		want Stakeholders shall be invited to participate in the development of the MP at least six months prior to the start of detailed design for a Stage of		
18.	(a)	To achieve the objective set out in Condition 17, the ULDMP(s) shall provide details of how the project:			
		(i)	is designed to integrate with the adjacent urban (or proposed urban) and landscape context, including the surrounding existing or proposed topography, urban environment (e.g. centres and density of built form), natural environment, landscape character and open space zones;		
		(ii)	provides appropriate walking and cycling connectivity to, and interfaces with, existing or proposed adjacent land uses (including public transport and walking and cycling facilities);		
		(iii) promotes inclusive access (where appropriate);			
		(iv)	promotes a sense of personal safety by aligning with best practice guidelines, such as:		
			A Crime Prevention Through Environmental Design (CPTED) principles;		
			B Safety in Design (SID) requirements; and		
			C Maintenance in Design (MID) requirements and antivandalism/anti-graffiti measures.		
		(v)	has responded to matters identified through the Land use Integration Process (Condition 3); and		
	(b)	The l	JLDMP shall be prepared in general accordance with:		
		(i)	Auckland Transport's Urban Roads and Streets Design Guide or any subsequent updated version;		
	(ii) New Zealand Transport Agency Urban Design Guidelines: Brid Gap (2013) or any subsequent updated version;		New Zealand Transport Agency Urban Design Guidelines: Bridging the Gap (2013) or any subsequent updated version;		
		(iii)	New Zealand Transport Agency Landscape Guidelines (2013) or any subsequent updated version;		
		(iv)	New Zealand Transport Agency P39 Standard Specification for Highway Landscape Treatments (2013) or any subsequent updated version; and		
		(v)	Auckland's Urban Ngahere (Forest) Strategy or any subsequent updated version.		

19. The ULDMP(s) shall include:

- (a) A concept plan which depicts the overall landscape and urban design concept, and explain the rationale for the landscape and urban design proposals;
- (b) Developed design concepts, including principles for walking and cycling facilities and public transport;
- (c) Landscape and urban design details that cover the following:
 - road design elements such as intersection form, carriageway gradient and associated earthworks contouring including cut and fill batters and the interface with adjacent land uses and existing roads (including slip lanes), benching, spoil disposal sites, median width and treatment, roadside width and treatment;
 - (ii) roadside elements such as lighting, fencing, wayfinding and signage;
 - (iii) architectural and landscape treatment of all major structures, including bridges and retaining walls;
 - (iv) architectural and landscape treatment of noise barriers;
 - (v) landscape treatment and planting of permanent stormwater control wetlands and swales;
 - (vi) integration of passenger transport;
 - (vii) pedestrian and cycle facilities including paths, road crossings and dedicated pedestrian/ cycle bridges or underpasses;
 - (viii) historic heritage places with reference to the HHMP (Condition 28); and
 - (ix) re-instatement of construction and site compound areas; and
 - (x) features disturbed during construction and intended to be reinstated such as:
 - A boundary features;
 - B driveways;
 - C accessways; and
 - D fences
- (d) The ULDMP shall also include the following planting and maintenance details:
 - (i) planting design details including:
 - A identification of existing trees and vegetation that will be retained with reference to the TMP and LMP. Where practicable, mature trees and native vegetation should be retained;
 - B street trees, shrubs and ground cover suitable for the location;
 - C treatment of fill slopes to integrate with adjacent land use, streams, riparian margins and open space zones;
 - D identification of any planting requirements under the LMP (Condition 30) and TMP (Condition 31);
 - E integration of any planting required by conditions of any resource consents for the project; and
 - F re-instatement planting of construction and site compound areas as appropriate.
 - (ii) a planting programme including the staging of planting in relation to the construction programme which shall, as far as practicable, include provision for planting within each planting season following completion of each Stage of Work; and
 - (iii) detailed specifications relating to the following:

- A weed control and clearance;
- B pest animal management (to support plant establishment);
- C ground preparation (top soiling and decompaction);
- D mulching; and
- E plant sourcing and planting, including hydroseeding and grassing, and use of eco-sourced species.

Construction conditions

20. Construction Environmental Management Plan (CEMP)

- (a) A CEMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the CEMP is to set out the management procedures and construction methods to be undertaken to, avoid, remedy or mitigate any adverse effects associated with Construction Works as far as practicable.
- (b) To achieve the objective, the CEMP shall include:
 - (i) the roles and responsibilities of staff and contractors;
 - (ii) details of the site or project manager and the Project Liaison Person, including their contact details (phone and email address);
 - (iii) the Construction Works programmes and the staging approach, and the proposed hours of work;
 - (iv) details of the proposed construction yards including temporary screening when adjacent to residential areas;
 - (v) details of the proposed construction lighting;
 - (vi) methods for controlling dust and the removal of debris and demolition of construction materials from public roads or places;
 - (vii) methods for providing for the health and safety of the general public;
 - (viii) measures to mitigate flood hazard effects such as siting stockpiles out of floodplains, minimising obstruction to flood flows, actions to respond to warnings of heavy rain;
 - (ix) procedures for incident management;
 - (x) location and procedures for the refuelling and maintenance of plant and equipment to avoid discharges of fuels or lubricants to watercourses;
 - (xi) measures to address the storage of fuels, lubricants, hazardous and/or dangerous materials, along with contingency procedures to address emergency spill response(s) and clean up;
 - (xii) procedures for responding to complaints about Construction Works; and
 - (xiii) methods for amending and updating the CEMP as required.

21. Complaints Process

- (a) At all times during Construction Works, a record of any complaints received about the Construction Works shall be maintained. The record shall include:
 - (i) the date, time and nature of the complaint;
 - (ii) the name, phone number and address of the complainant (unless the complainant wishes to remain anonymous);
 - (iii) measures taken to respond to the complaint (including a record of the response provided to the complainant) or confirmation of no action if deemed appropriate;
 - (iv) the outcome of the investigation into the complaint; and
 - (v) any other activities in the area, unrelated to the project that may have contributed to the complaint, such as non-project construction, fires, traffic accidents or unusually dusty conditions generally.
- (b) A copy of the complaints record required by this condition shall be made available to the Manager upon request as soon as practicable after the request is made.

22. Cultural Monitoring Plan (CMP)

- (a) Prior to the Start of Construction, a CMP shall be prepared by a Suitably Qualified Person(s) identified in collaboration with Mana Whenua. The objective of the CMP is to identify methods for undertaking cultural monitoring to assist with management of any cultural effects during Construction Works.
- (b) To achieve the objective, the CMP shall include:
 - (i) requirements for formal dedication or cultural interpretation to be undertaken prior to start of Construction Works in areas identified as having significance to Mana Whenua;
 - (ii) requirements and protocols for cultural inductions for contractors and subcontractors;
 - (iii) identification of activities, sites and areas where cultural monitoring is required during particular Construction Works;
 - (iv) identification of personnel to undertake cultural monitoring, including any geographic definition of their responsibilities; and
 - details of personnel to assist with management of any cultural effects identified during cultural monitoring, including implementation of the Accidental Discovery Protocol
- (c) If Enabling Works involving soil disturbance are undertaken prior to the Start of Construction, an Enabling Works CMP shall be prepared by a Suitably Qualified Person identified in collaboration with Mana Whenua. This plan may be prepared as a standalone Enabling Works CMP or be included in the main Construction Works CMP.

Advice Note: Where appropriate, the CMP shall align with the requirements of other conditions of the designation and resource consents for the project which require monitoring during Construction Works.

23. Construction Traffic Management Plan (CTMP)

- (a) A CTMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the CTMP is to avoid, remedy or mitigate, as far as practicable, adverse construction traffic effects.
- (b) To achieve this objective, the CTMP shall include:
 - methods to manage the effects of temporary traffic management activities on traffic;
 - (ii) measures to ensure the safety of all transport users;
 - (iii) the estimated numbers, frequencies, routes and timing of traffic movements, including any specific non-working or non-movement hours to manage vehicular and pedestrian traffic near Educational Facilities or to manage traffic congestion;
 - site access routes and access points for heavy vehicles, the size and location of parking areas for plant, construction vehicles and the vehicles of workers and visitors;
 - (v) identification of detour routes and other methods to ensure the safe management and maintenance of traffic flows, including public transport, pedestrians and cyclists;
 - (vi) methods to maintain access to and within property and/or private roads where practicable, or to provide alternative arrangements when it will not be, including details of how access is managed for loading and unloading of goods. Engagement with landowners an occupiers whose access is directly affected shall be undertaken in accordance with Condition 13(b)(iii);
 - (vii) the management approach to loads on heavy vehicles, including covering loads of fine material, the use of wheel-wash facilities at site exit points and the timely removal of any material deposited or spilled on public roads;
 - (viii) methods that will be undertaken to communicate traffic management measures to affected road users (e.g. residents/ public/ Stakeholders/ emergency services);
 - (ix) details of minimum network performance parameters during the construction phase, including any measures to monitor compliance with the performance parameters; and
 - (x) details of any measures proposed to be implemented in the event of thresholds identified in (ix) being exceeded.
- (c) Auditing, monitoring and reporting requirements relating to traffic management activities shall be undertaken in accordance with the New Zealand Guide to Temporary Traffic Management (April 2013) or any subsequent version.

24. Construction Noise Standards

(a) Construction noise shall be measured and assessed in accordance with NZS6803:1999 Acoustics – Construction Noise and shall comply with the noise standards set out in the following table as far as practicable:

Table 24-1 Construction Noise Standards

Day of week	Time period	L _{Aeq(15min)}	L _{AFmax}		
Occupied activity sensitive to noise					
Weekday	0630h - 0730h	55 dB	75 dB		
	0730h - 1800h	70 dB	85 dB		
	1800h - 2000h	65 dB	80 dB		
	2000h - 0630h	45 dB	75 dB		
Saturday	0630h - 0730h	45 dB	75 dB		
	0730h - 1800h	70 dB	85 dB		
	1800h - 2000h	45 dB	75 dB		
	2000h - 0630h	45 dB	75 dB		
Sunday and Public	0630h - 0730h	45 dB	75 dB		
Holidays	0730h - 1800h	55 dB	85 dB		
	1800h - 2000h	45 dB	75 dB		
	2000h - 0630h	45 dB	75 dB		
Other occupied buildings					
All	0730h – 1800h	70 dB			
	1800h – 0730h	75 dB			

⁽b) Where compliance with the noise standards set out in Table 24-1 is not practicable, the methodology in Condition 27 shall apply.

25. Construction Vibration Standards

(a) Construction vibration shall be measured in accordance with ISO 4866:2010 Mechanical vibration and shock – Vibration of fixed structures – Guidelines for the measurement of vibrations and evaluation of their effects on structures and shall comply with the vibration standards set out in the following table as far as practicable.

Table 25-1 Construction Vibration Standards

Receiver	Details	Category A	Category B
Occupied activities sensitive to noise	Night-time 2000h - 0630h	0.3mm/s ppv	2mm/s ppv
	Daytime 0630h - 2000h	2mm/s ppv	5mm/s ppv
Other occupied buildings	Daytime 0630h - 2000h	2mm/s ppv	5mm/s ppv
All other buildings	At all other times	Tables 1 and 3 of DIN4150-3:1999	

(b) Where compliance with the vibration standards set out in Table 25-1 is not practicable, the methodology in Condition 27 shall apply.

26. Construction Noise and Vibration Management Plan (CNVMP)

- (a) A CNVMP shall be prepared by a Suitably Qualified and Experienced Person prior to the Start of Construction for a Stage of Work. A CNVMP shall be implemented during the Stage of Work to which it relates. The objective of the CNVMP is to provide a framework for the development and implementation of the Best Practicable Option for the management of construction noise and vibration effects to achieve the construction noise and vibration standards set out in Conditions 24 and 25 to the extent practicable.
- (b) To achieve the objective, the CNVMP shall be prepared in accordance with Annex E2 of the New Zealand Standard NZS6803:1999 'Acoustics – Construction Noise' (NZS6803:1999) and shall as a minimum, address the following:
 - (i) description of the works and anticipated equipment/processes;
 - (ii) hours of operation, including times and days when construction activities would occur:
 - (iii) the construction noise and vibration standards for the project;
 - (iv) identification of receivers where noise and vibration standards apply;
 - (v) a hierarchy of management and mitigation options, including any requirements to limit night works and works during other sensitive times, including Sundays and public holidays as far as practicable;
 - (vi) methods and frequency for monitoring and reporting on construction noise and vibration;
 - (vii) procedures for communication and engagement with nearby residents and Stakeholders, including notification of proposed construction activities, the period of construction activities, and management of noise and vibration complaints;
 - (viii) contact details of the Project Liaison Person;
 - (ix) procedures for the regular training of the operators of construction equipment to minimise noise and vibration as well as expected construction site behaviours for all workers:
 - (x) procedures and requirements for the preparation of a Schedule to the CNVMP (Schedule) for those areas where compliance with the noise Condition 24 and/or vibration standards Condition 25 Category B will not be practicable;
 - (xi) identification of trigger levels for undertaking building condition surveys, which shall be Category B day time levels;
 - (xii) procedures and trigger levels for undertaking building condition surveys before and after works to determine whether any cosmetic or structural damage has occurred as a result of construction vibration;
 - (xiii) methodology and programme of desktop and field audits and inspections to be undertaken to ensure that CNVMP, Schedules and the Best Practicable Option for management of effects are being implemented; and
 - (xiv) requirements for review and update of the CNVMP.

27. Schedule to a CNVMP

- (a) A Schedule to the CNVMP (Schedule) shall be prepared prior to the Start of Construction of an activity to which it relates by a Suitably Qualified Person, in consultation with the owners and occupiers of sites subject to the Schedule, when:
 - (i) construction noise is either predicted or measured to exceed the noise standards in Condition 24 except where the exceedance of the L_{Aeq} criteria is no greater than 5 decibels and does not exceed:
 - A 0630 2000: 2 periods of up to 2 consecutive weeks in any 2 months, or
 - B 2000 0630: 1 period of up to 2 consecutive nights in any 10 days.
 - (ii) construction vibration is either predicted or measured to exceed the Category B standard at the receivers in Condition 25.
- (b) The objective of the Schedule is to set out the Best Practicable Option measures to manage noise and/or vibration effects of the construction activity beyond those measures set out in the CNVMP.
- (c) To achieve the objective, the Schedule shall include details such as:
 - (i) construction activity location, start and finish dates;
 - (ii) the nearest neighbours to the construction activity;
 - (iii) the predicted noise and/or vibration level for all receivers where the levels are predicted or measured to exceed the applicable standards and predicted duration of the exceedance;
 - (iv) for works proposed between 2000h and 0630h, the reasons why the proposed works must be undertaken during these hours and why they cannot be practicably undertaken during the daytime;
 - (v) the proposed mitigation options that have been selected, and the options that have been discounted as being impracticable and the reasons why;
 - (vi) the consultation undertaken with owners and occupiers of sites subject to the Schedule, and how consultation has and has not been taken into account; and
 - (vii) location, times and types of monitoring.
- (d) The Schedule shall be submitted to the Manager for Certification at least five working days (except in unforeseen circumstances) in advance of Construction Works that are covered by the scope of the Schedule and shall form part of the CNVMP.
- (e) The CNVMP Schedule shall be deemed certified five working days from the submission of the CNVMP Schedule where no written confirmation of Certification has been received.
- (f) Where material changes are made to a Schedule required by this condition, the Requiring Authority shall consult the owners and/or occupiers of sites subject to the Schedule prior to submitting the amended Schedule to the Manager for Certification in accordance with (d) above. The amended Schedule shall document the consultation undertaken with those owners and occupiers, and how consultation outcomes have and have not been taken into account.

28. Historic Heritage Management Plan (HHMP)

- (a) A HHMP shall be prepared in consultation with Council, HNZPT and Mana Whenua prior to the Start of Construction for a Stage of Work. The objective of the HHMP is to protect historic heritage and to remedy and mitigate any residual effects as far as practicable.
- (b) To achieve the objective, the HHMP shall identify:
 - (i) any adverse direct and indirect effects on historic heritage sites and measures to appropriately avoid, remedy or mitigate any such effects, including a tabulated summary of these effects and measures;
 - (ii) methods for the identification and assessment of potential historic heritage places within the designation to inform detailed design;
 - (iii) known historic heritage places and potential archaeological sites within the designation, including identifying any archaeological sites for which an Archaeological Authority under the HNZPTA will be sought or has been granted;
 - (iv) any unrecorded archaeological sites or post-1900 heritage sites within the designation, which shall also be documented and recorded;
 - (v) roles, responsibilities and contact details of project personnel, Council and HNZPT representatives, Mana Whenua representatives, and relevant agencies involved with heritage and archaeological matters including surveys, monitoring of Construction Works, compliance with AUP accidental discovery rule, and monitoring of conditions;
 - (vi) specific areas to be investigated, monitored and recorded to the extent these are directly affected by the project;
 - (vii) the proposed methodology for investigating and recording post-1900 historic heritage sites (including buildings) that need to be destroyed, demolished or relocated, including details of their condition, measures to mitigate any adverse effects and timeframe for implementing the proposed methodology, in accordance with the HNZPT Archaeological Guidelines Series No.1: Investigation and Recording of Buildings and Standing Structures (November 2018, or any subsequent version;
 - (viii) methods to acknowledge cultural values identified through the Mana Whenua Kaitiaki Forum (Condition 16) and CAR (Condition 14) where archaeological sites also involve ngā taonga tuku iho (treasures handed down by our ancestors) and where feasible and practicable to do so;
 - (ix) methods for avoiding, remedying or mitigation adverse effects on historic heritage places and sites within the designation during Construction Works as far as practicable. These methods shall include, but are not limited to:
 - A security fencing or hoardings around historic heritage places to protect them from damage during construction or unauthorised access;
 - B measures to mitigate adverse effects on historic heritage sites that achieve positive historic heritage outcomes such as increased public awareness and interpretation signage; and
 - training requirements and inductions for contractors and subcontractors on historic heritage places within the designation, legal obligations relating to accidental and/or unexpected discoveries, the AUP Accidental Discovery Rule (E11.6.1). The training shall be undertaken prior to the Start of Construction, under the guidance of a Suitably Qualified Person and Mana Whenua representatives (to the extent the training relates to cultural values identified under Condition 14 and Condition 16.

Accidental Discoveries

Advice Note:

The requirements for accidental discoveries of heritage items are set out in Rule E11.6.1 of the AUP

29. Pre-Construction Lizard Survey

- (a) At the start of detailed design for a Stage of Work, an updated survey of native lizards and their habitat in the locations shown in Schedule 3 shall be undertaken by a Suitably Qualified Person. The purpose of the survey is to inform lizard management by:
 - (i) confirming whether the native lizards of value within the locations shown in Schedule 3 are still present; and
 - (ii) confirming whether the project will or may have a moderate or greater level of ecological effect on native lizards of value in those locations, prior to implementation of impact management measures, as determined in accordance with the EIANZ guidelines.
- (b) If the survey confirms the presence of native lizards of value in accordance with Condition 29(a)(i) and that effects are likely in accordance with Condition 29(a)(ii) then a Lizard Management Plan (or Plans) shall be prepared in accordance with Condition 30 for these areas (Confirmed Lizard Management Plan Areas).

30. Lizard Management Plan (LMP)

- (a) A LMP shall be prepared for any Confirmed Lizard Management Plan Areas (in accordance with Condition 29) prior to the Start of Construction for a Stage of Work. The objective of the LMP is to minimise effects of the project on native lizards of value in Confirmed Lizard Management Plan Areas as far as practicable.
- (b) To achieve the objective, the LMP shall set out the methods which may include:
 - (i) a description of the methodology and timing for survey, trapping and relocation of native lizards rescued;
 - (ii) a description of the relocation site(s), including:
 - A any measures to ensure the relocation site is suitable protected and remains viable (e.g. covenants, consent notices etc.);
 - B any measures to ensure the relocation site is suitably managed to ensure appropriate habitat for native lizards (e.g. provision of additional refugia, weed and pest management); and
 - (iii) any proposed monitoring of relocation sites if necessary to evaluate translocation success.
- (c) The LMP shall be consistent with any native lizard management measures to be undertaken in compliance with conditions of any regional resource consents granted for the project.

Advice Note:

Depending on the potential effects of the project, the regional consents for the project may include the following monitoring and management plans:

- (i) stream and/or wetland restoration plans;
- (ii) vegetation restoration plans; and
- (iii) fauna management plans (eg avifauna, bats).

31. Tree Management Plan (TMP)

- (a) Prior to the Start of Construction for a Stage of Work, a TMP shall be prepared. The objective of the TMP is to avoid, remedy or mitigate effects of construction activities on trees identified in Schedule 4.
- (b) To achieve the objective, the TMP shall:
 - (i) confirm that the trees listed in Schedule 4 still exist; and
 - (ii) demonstrate how the design and location of project works has avoided, remedied or mitigated any effects on any tree listed in Schedule 4. This may include:
 - A planting to replace trees that require removal (with reference to the ULDMP planting design details in Condition 19);
 - B tree protection zones and tree protection measures such as protective fencing, ground protection and physical protection of roots, trunks and branches; and
 - C methods for work within the rootzone of trees that are to be retained in line with accepted arboricultural standards.

32. Network Utilities Management Plan (NUMP)

- (a) A NUMP shall be prepared prior to the Start of Construction for a Stage of Work. The objective of the NUMP is to set out a framework for protecting, relocating and working in proximity to existing network utilities.
- (b) To achieve the objective, the NUMP shall include methods to:
 - (i) provide access for maintenance at all reasonable times, or emergency works at all times during construction activities;
 - (ii) protect and where necessary, relocate existing network utilities;
 - (iii) manage the effects of dust and any other material potentially resulting from construction activities and able to cause material damage, beyond normal wear and tear to overhead transmission lines in the project area;
 - (iv) demonstrate compliance with relevant standards and Codes of Practice including, where relevant, the NZECP 34:2001 New Zealand Electrical Code of Practice for Electrical Safe Distances 2001; AS/NZS 4853:2012 Electrical hazards on Metallic Pipelines; and AS/NZS 2885 Pipelines – Gas and Liquid Petroleum.
- (c) The NUMP shall be prepared in consultation with the relevant Network Utility Operators(s) who have assets that are directly affected by the project.
- (d) The development of the NUMP shall consider opportunities to coordinate future work programmes with other Network Utility Operator(s) during detailed design where practicable.
- (e) The NUMP shall describe how any comments from the Network Utility Operator in relation to its assets have been addressed.
- (f) Any comments received from the Network Utility Operator shall be considered when finalising the NUMP.
- (g) Any amendments to the NUMP related to the assets of a Network Utility Operator shall be prepared in consultation with that asset owner.

Operational conditions

33. Low Noise Road Surface

Asphaltic concrete surfacing (or equivalent low noise road surface) shall be implemented within 12 months of Completion of Construction of the project.

34. Future Resurfacing Work

- (a) Any future resurfacing works of the project shall be undertaken in accordance with the Auckland Transport Reseal Guidelines, Asset Management and Systems 2013 or any updated version and asphaltic concrete surfacing (or equivalent low noise road surface) shall be implemented where:
 - (i) the volume of traffic exceeds 10,000 vehicles per day; or
 - (ii) the road is subject to high wear and tear (such as cul de sac heads, roundabouts and main road intersections); or
 - (iii) it is in an industrial or commercial area where there is a high concentration of truck traffic; or
 - (iv) it is subject to high usage by pedestrians, such as town centres, hospitals, shopping centres and schools.
- (b) Prior to commencing any future resurfacing works, the Requiring Authority shall advise the Manager if any of the triggers in Condition 34(a)(i) (iv) are not met by the road or a section of it and therefore where the application of asphaltic concrete surfacing (or equivalent low noise road surface) is no longer required on the road or a section of it. Such advice shall also indicate when any resealing is to occur.

Schedule 1: General accordance plans and information

Project Description

The proposed work is for the construction, operation, and maintenance of upgrades to Great South Road between Waihoehoe Road and the State Highway 1 Drury Interchange. The proposed work is shown in the following Concept Plan and includes:

- a) An upgrade of Great South Road to accommodate general traffic lanes and walking and cycling facilities;
- b) Associated works including intersections, bridges, embankments, retaining walls, culverts, and stormwater management systems;
- c) Reconfiguration of local roads, where the proposed work intersects with local roads; and
- d) Construction activities including vegetation removal, establishment of construction areas and the regrading of driveways.

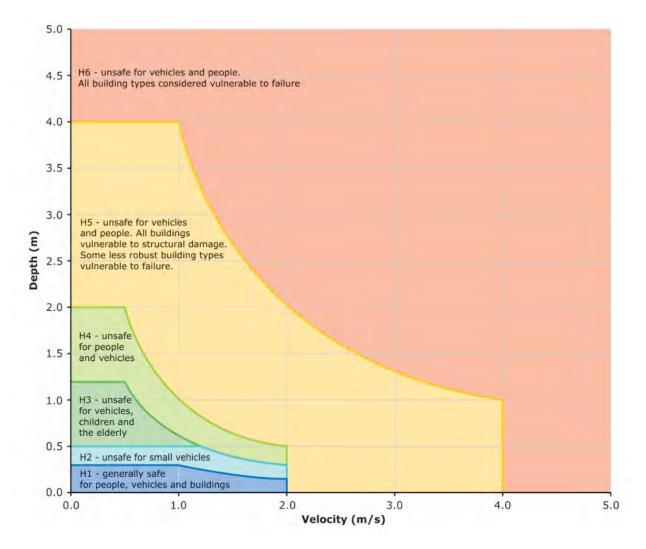

Concept Plan

Schedule 2: Flood Hazard Class

The combined flood hazard curves shown below set hazard thresholds that relate to the vulnerability of the community when interacting with floodwaters. The combined curves are divided into hazard classifications that relate to specific vulnerability thresholds

The vulnerability thresholds identified in the flood hazard curves can be applied to the best description of flood behaviour available for a subject site. In this regard, the hazard curves can be applied equally to flood behaviour estimates from measured data, simpler 1D numerical modelling approaches, through to complex 2D model estimates with the level of accuracy and uncertainty of the flood hazard estimate linked to the method used to derive the flood behaviour estimate.
