5280-1	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	General	Chapter G General provisions	G2.4 Notification	Amend activity statuses to acknowledge that as the city intensifies a rules based system should give way to a more discretionary system. This should be implemented (i) by requiring a resource consent for more development proposals with a discretionary design review to be the norm for a greater proportion of developments; and (ii) by making more applications non-notified under the RMA and introducing a simpler, cheaper and less confrontational means of community consultation process outside the RMA framework.
5280-2	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	RPS	Urban growth	B2.2 A quality built environment	Retain Regional Policy statement, in particular section 2.2 A quality built environment.
5280-3	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	RPS	Urban growth	B2.2 A quality built environment	Retain Objective 1 and references to quality built environments.
5280-4	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	RPS	Urban growth	B2.2 A quality built environment	Retain Policy 1 and references to quality built environments
5280-5	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	RPS	Urban growth	B2.2 A quality built environment	Retain Policy 2 and references to quality built environments.
5280-6	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	RPS	Urban growth	B2.2 A quality built environment	Retain the continued use of the Auckland Urban Design Panels and recognise their role in discouraging poor quality development.
5280-7	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	RPS	Urban growth	B2.2 A quality built environment	Develop a 'lite' version of the Urban Design Panels (maybe two members meeting for one hour) to assess numerous small applications, supplemented by council inhouse staff as application numbers increase.
5280-8	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	General	Miscellaneous	Operational/ Projects/Acquisition	Add a funded plan to increase public transport patronage.
5280-9	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Infrastructure	C1.1 Infrastructure background, objectives and policies		Remove the constraints placed on the PAUP by lack of infrastructure. An example of the limitations on development through flood plain overlays is given.
5280-10	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	General	Chapter G General provisions	G2.7.1 General information requirements & G2.7.2 Design statements	Reduce the extent of requirements to submit technical reports to demonstrate compliance with the District Plan. Recognise that the use of a 'suitably qualified and experienced person' in the PAUP may have problematic to implement
5280-11	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	RPS	Urban growth	B2.1 Providing for growth in a quality compact urban form	Acknowledge that the PAUP has had significant residential intensification removed from it when compared with the draft Plan. There is a need to relook at all the methods providing for and restricting residential intensification including the spatial location of residential and business zoning, overlays including the volcanic view shaft, height sensitive areas and heritage and character areas if the aspirations of the Unitary Plan are to be achieved [refer to page 9-10/39]. Review and amend the application of different zones based on the examples provided in the submission [refer to pages 1-104/104] and to address concerns raised in the submission.
5280-12	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	Development Controls: General	Amend the residential rules as shown in the submission [refer to pages 20 - 28/41] to enable development outcomes such as those seen at Hobsonville. The propose rules are considered to be too restrictive and will prevent the sought of development that is regarded as desirable in Hobsonville Point.
5280-13	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	RPS	Economic / Business / Infrastructure / Energy / Transport	B3.1 Commercial and industrial growth	Retain policies 1 - 4 but amend policies 5 - 8 as they will undermine and are contradictory to policies 1 - 4.
5280-14	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	RPS	Economic / Business / Infrastructure / Energy / Transport	B3.1 Commercial and industrial growth	Remove all references to the General Business Zone Park Zone and Identified Growth Corridors and replace these with Light Industry, Mixed Use or Centre Zones with precinct planning.
5280-15	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Business (excluding City Centre)	Business	D3 Business Zones / D3.1 General objectives and policies	Add a new policy which reads: "Ensure there is no threat to centres continuing to offer a full range of good and services, particularly food and grocery needs, so as to protect their intended role as the focus of efficient sustainable residential development."
5280-16	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	RPS	Economic / Business / Infrastructure / Energy / Transport	B3.3 Transport	Amend provisions so that transport modes are listed according to the priority that puts walkability and the quality of the environment first, followed by efficiency.
5280-17	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	D1.1 General objectives and policies	Retain, in the introduction, the following sentence: "as the density of development increases, the greater the requirement for good design".
5280-18	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	D1.1 General objectives and policies	Amend objective 2 to read: A diverse range of housing incorporates good design at all scales, providing choice for households and communities to meet their varied needs and lifestyles
5280-19	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Business (excluding City Centre)	Business	D3 Business Zones / D3.1 General objectives and policies	Add a new objective to read: Development makes a positive contribution to the quality of public space and, by incorporating good design principles at all levels, strengthens local identity and sense of community.
5280-20	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Business (excluding City Centre)	Business	D3 Business Zones / D3.1 General objectives and policies	Amend Objective 1 to read: Development strengthens Auckland's network of centres as thriving environments where high concentrations of people can shop, work, live and play in attractive walkable neighbourhoods that meet their everyday needs and offer access to excellent public transport. 5280-50	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	Development Controls: General	Delete universal access provisions. These should be addressed in the Building Act, not the PAUP
5280-51	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	General	Cross plan matters		Review the use of thresholds to apply additional requirements as the size of a development increases as this may deter developments of a size above the threshold. Examples include 4 or more dwellings trigger resource consent in the Mixed housing zones, 5 or more dwellings trigger Homestar rating requirements, 10 or more dwellings trigger Universal Access requirements, 16 or more trigger Affordable Housing provisions. The affordable housing provisions will form a formidable barrier to developments above 15 units.
5280-52	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	Development Controls: General	Amend development controls to allow greater intensity on corner sites as described in the submission [Refer to pages 20-21/41 of the submission].
5280-53	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	Activity Table	Amend rule 1 [Activity table] to make 3 or more dwellings a restricted discretionary activity in the Mixed Housing Urban zone (as opposed to 4 or more dwellings) provided it is accompanied by a simplified non notification process to avoid further discouraging development applications.

5280-55	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	Land use controls	Amend rule 3.1 [Maximum Density] by adding a package of new controls that will enable terrace housing and clarify requirements in the Mixed Housing Suburban and Mixed Housing Urban zone. This should include the minimum site frontage of 7.5m; a minimum front setback of 2.5m to 5m (not 4-5 m which is too restrictive); the 'alternative height in relation to boundary control' (rule 7.4 and 8.4) which applies for a length of 12m along side boundaries; and the ability to build up to the side boundary for that length [as the alternative height in relation to boundary makes no sense with the 1m side yard control [in rules 7.5 and 8.6]. 5280-56	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	Development Controls: Mixed Housing Suburban zone and Mixed Housing Urban zone	Amend rules 4.1 in the Mixed Housing Suburban zone and rule 4.1 in the Mixed Housing Urban zone to clarify and ensure that the alternative height in relation boundary control can apply to sites bigger than 300m2 and 250m2 respectively; and to allow the alternative height in relation to boundary control to be available to all sites for the first 17m of the side boundary
5280-57	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	Development Controls: Mixed Housing Suburban zone and Mixed Housing Urban zone	Amend rules 7.4.1 and 8.4.1 (Alternative Height in relation to boundary) in the Mixed Housing Suburban and Mixed Housing Urban zones to allow the alternative height in relation to boundary control to be available to all sites for the first 17m of the side boundary from the frontage; and to make infringements to this control a restricted discretionary activity, assessed on the applicant providing an analysis of shading and overlooking of neighbouring properties. 5280-60	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	Land use controls	Retain rule 3.3. but make it clear that subdivision is not possible, and both dwellings should be retained in single ownership in order to manage the lower amenity of the second dwelling (eg lack of private open space, accoustic privacy and non onsite parking).

5280-62	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	Development Controls: General	Add to rules 7.1, 8.1 and 9.1 [Development control infringements] a threshold alongside each activity about what dimension or percentage infringement will trigger it becoming a discretionary activity.
5280-63	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	Development Controls: Mixed Housing Suburban zone and Mixed Housing Urban zone	Amend rule 7.2 Building Height in the Mixed Housing Suburban zone to include the flexibility in rule 8.2 of the Mixed Housing Urban zone which allows a sloping roof to project through the maximum height.
5280-64	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	Development Controls: Mixed Housing Suburban zone and Mixed Housing Urban zone	Replace 7.3(4) and 8.3(4) [which provides exceptions for gable ends and dormas] with the following: A roof extremity may project no more than 1.0m beyond the recession plan up to an area of 1.5m <sup>2</sup> measured on the roof plan, with an extent of no more than 2.5m measured along the roof edge. No more than one such projection is allowed for every 6m length of the site boundary. Possibly amend rule 7.1 and 8.1 to incorporate this change in the Development Control Infringements.
5280-65	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	Development Controls: Mixed Housing Suburban zone and Mixed Housing Urban zone	Amend rule 7.5 [Yards] in Mixed Housing Suburban zone to reduce the front yard setback from 4m to 2.5m.

5280-67	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	Development Controls: General	Replace rules 7.10, 8.10 and 9.10 [Outlook space controls] and rules 7.11, 8.11 and 9.11 [Separation between buildings within a site controls] in the Mixed Housing Suburban, Mixed Housing Urban and Terrace Housing and Apartment Buildings zones with one comprehensive set of controls covering both Outlook space and Separation of buildings within a site, to avoid poor design outcomes which would occur from compliance with the proposed wording. The recommended new wording is described in the submission and accompanying diagrams [refer to pages 22-24/41 and Diagram 3 and 4 pages 38-39/41] and would require a longer outlook space relative to the importance of the room which the window serves and the height of the wall at the other end of the outlook space increases.
5280-68	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	Development Controls: General	Replace the purpose statements in rules 7.10, 8.10 and 9.10 [Outlook space controls] and rules 7.11, 8.11 and 9.11 [Separation between buildings within a site controls] in the Mixed Housing Suburban, Mixed Housing Urban and Terrace Housing and Apartment Buildings zones with a single purpose statement that reads: "Require reasonable space outside the windows of a dwelling to provide access to daylight, opportunities for ventilation, privacy, and to manage the effects of dominance of the dwelling by nearby buildings."
5280-69	The New Zealand Institute of Architects	Graeme.Scott@ascarchitects.co.nz	Residential zones	Residential	Development Controls: General	Add a solar orientation rule as described in the submission [refer to page 23/39] which states that the orientation of the length dimension of the outlook area related to the principle living room of any dwelling shall not be between 135 and 225 degrees to true north except for a percentage of the total dwellings as set in a table included in the submission
