## 1. Introduction

The purpose of this report is to provide an assessment and recommendation in relation to modifications to existing designations being rolled over by the requiring authority, and classified by the Independent Hearings Panel as moderately complex. This classification will generally apply where there is a:

- i. rollover of a designation with no modifications and a submission lodged by third party;
- ii. modification to a designation that will result in more than minor effects and with or without submissions;
- iii. notice of requirement for a new designation for existing works with or without submissions.

## 2. Assessment

The assessment will address:

- i. effects on the environment of allowing the modifications;
- ii. mitigation measures proposed by requiring authority including any proposed conditions;
- iii. other section 171 matters where relevant;
- iv. whether land is owned by the requiring authority.

See section 9 of this report for the assessment of each modification and requirement.

On the basis of the assessment, the report concludes that the following modifications should be confirmed.

## 3. Expert input

Not applicable.

## 4. Mediation required

Based on the responses of the requiring authority as detailed in section 9, the following matters have been identified that would benefit from mediation:

submissions from the New Zealand Historic Places Trust (now Heritage New Zealand) referenced as 371-214, 371-215, 371-216 and 371-217, and the Character Coalition submission 6370-15, have not been resolved. The requiring authority does not agree to the Type 2 condition sought by the submitters on any of its designations. The requiring authority is also seeking the deletion of operative plan designation conditions in respect of the heritage and archaeology.

It is estimated that one day of mediation will be required.

## 5. Hearing required

Based on the responses of the requiring authority as detailed in section 9, the following matters have been identified to progress to a hearing:

submissions received from the Character Coalition (6370-15) and Heritage New Zealand (371-214, 215, 216, 217), and the related designation conditions in respect of heritage and archaeology from the operative district plan.

It is estimated that one day of hearing will be required (if not resolved prior through mediation).

## 6. Recommendation to Panel

That the Panel:

- i. modify the designation as set out in section 9;
- ii. agree to schedule mediation between the submitters and the requiring authority to address the matters identified in section 4 above; and (if required)
- iii. agree to hear matters identified in section 5 above.

<b>Author</b>	Murray Kivell
<b>Author's Signature</b>	
<b>Date</b>	27 August 2015 and updated 7 October 2015 with changes, and updated 16 December 2015 with changes

## 7. Panel recommendations to Auckland Council

The Auckland Unitary Plan Independent Hearings Panel recommends that Auckland Council recommends to the requiring authority that it confirms the notice of requirement for the modifications to designation 4307 included in the Proposed Auckland Unitary Plan subject to the further modifications shown in Attachment 1 and Attachment 2.

## 8. Panel reasons

The reasons for the Panel's recommendation are set out in section 9 below.

<b>Panel Chair</b>	David Kirkpatrick
<b>Chair's Signature</b>	
<b>Date</b>	18 May 2016

## 9. Assessment of modifications and submissions

Requiring authority	Minister of Defence
Designation number	4307
Designation purpose	Defence purposes (as defined by section 5 of the Defence Act 1990) – naval base
Location	King Edward Parade, Devonport.
Designation given effect to	Yes
Lapse date in operative plan	NA
Rollover designation with no modifications	No, involves modifications.
Description of the rollover modifications and reasons	<p>The modifications sought in the rollover seek the following changes:</p> <ul style="list-style-type: none"> <li>i. amended wording which elaborates the purpose of the designation;</li> <li>ii. amend designation schedule and maps to correctly reflect that the designation does not extend beyond mean high water springs;</li> <li>iii. amend operative plan designation conditions with the conditions outlined in the roll-over notice. The modifications relate to noise, parking and transportation, yard setbacks, landscaping, heritage, stormwater management, and archaeological sites;</li> <li>iv. the addition of two conditions that improve the workability of the designation by clarifying that an outline plan is not required for maintenance works or for activities that are provided for as permitted activities.</li> </ul>
Notice of requirement	NA
Land owned by the requiring authority	All land subject to designation is owned by the Crown.
Submitter	<p>838-38 – New Zealand Defence Force  838-34 – New Zealand Defence Force  8990-1 – William and Cathy Ormerod  6370-15 – The Character Coalition  371-214 – Heritage New Zealand</p>
Matters addressed in submission	<p>838-38 – New Zealand Defence Force requesting term ‘purpose’ be used rather than ‘description’ within designation schedule.</p> <p>838-34 – New Zealand Defence Force requesting that the ‘exceptions and notes for conditions 1-4’ be amended to ‘exceptions and notes for condition 1’.</p> <p>8990-1 – William and Cathy Ormerod requesting that the designation not apply to their property.</p> <p>6370-15 – The Character Coalition requesting greater protection historic heritage.</p> <p>371-214 – Heritage New Zealand requesting greater protection of historic</p>

	heritage.
Engagement by requiring authority with submitters	<p>New Zealand Defence Force fully agrees with William and Cathy Ormerod submission, as it corrects a mapping error.</p> <p>No agreement reached on heritage matters. Submitters are seeking an additional condition regarding heritage protection, and Requiring authority opposes this outcome. The requiring authority also seeks the deletion of the operative plan designation conditions regarding heritage and the accidental discovery of archaeological sites.</p>
Assessment and reasons	<p><b>Basis of Assessment</b> The designation has been given effect to, and the modifications proposed are to clarify the purpose statement, to correct mapping errors, and modifications to designation conditions are on the basis that the existing conditions are overly prescriptive and not practical, will frustrate the function of a designation as set out by the Resource Management Act 1991, and are not necessary to control effects.</p> <p><b>Effects of modifications to description/activity</b> The clarified 'purpose' statement of (additional text underlined) 'Defence purposes <u>(as defined by s5 of the Defence Act 1990) – naval base</u>' is an enhancement with no adverse effects on the environment.</p> <p><b>Effects of modifications to designation extent</b> Correction of errors. The operative plan designation currently incorrectly extends beyond mean high water springs which has been corrected in the Proposed Auckland Unitary Plan maps in the form supplied by the requiring authority on rollover. Designations can only relate to 'land' and cannot extend beyond mean high water springs.</p> <p>However, the Proposed Auckland Unitary Plan maps incorrectly map the designation as extending into Ormerod property. This needs to be corrected.</p> <p><b>Effects of modification of conditions</b> The modifications relate to noise, parking and transportation, yard setbacks, landscaping, heritage, stormwater management, and archaeological sites. The former industrial site now houses a military museum. The operative plan designation conditions applied a common set of conditions to all of the requiring authority's Devonport designations, despite the different characteristics of this designation. It is agreed that the conditions contained within the Minister's rollover notice will be effective in managing any environmental effects, and the effects are considered to be not more than minor.</p> <p><b>Effects on submitters</b></p> <ol style="list-style-type: none"> <li>i. Both of the New Zealand Defence Force submissions should be accepted with the term 'purpose' applied consistently in the designation schedule, and the exception statement amended as sought. Both changes are listed on the List of Minor Amendments.</li> <li>ii. The Ormerod submission should be accepted to correct the mapping error and requiring authority supports also.</li> </ol>

	<p>iii. The Character Coalition and Heritage New Zealand submissions have sought a Type 2 condition be imposed on the designation. The requiring authority does not agree and is seeking deletion of operative plan conditions regarding heritage and archaeological sites. Should proceed to mediation.</p> <p><b>Effects on adjacent properties and on wider environment</b> I do not consider that there are any adverse effects on adjacent properties and on the wider environment that are more than minor. The designation conditions will be effective in managing any adverse effects.</p>
Recommendation to Panel	That the Panel recommends to Council that the designation is confirmed with all modifications requested, including by New Zealand Defence Force's own submission and the submission by William and Cathy Ormerod, but with the exception of heritage matters and the removal of the existing archaeological and heritage conditions, as no agreement reached between the parties. The parties to advise.
Response from requiring authority	The requiring authority requested mediation on the following matter:  the inclusion of an additional condition described as a 'type 2 condition' concerning heritage requested by Heritage New Zealand (371-214).
Report writer's response	The report writer participated in mediation with the two parties on Tuesday 6 October. A signed Mediation Outcomes Statement confirms that there is no agreement on the matter and that the matter will proceed to a hearing.
Report writer's final comments	<p>Further discussion between the parties has resulted in an agreement to the wording of a condition to manage and protect scheduled historic heritage places on selected Defence Force sites. This wording is recorded in statements of planning evidence by Ms Kate Searle for the New Zealand Defence Force (23 October 2015) and Duncan McKenzie for Heritage New Zealand (5 November 2015) and is also recorded in the updated position statement of Heritage New Zealand dated 1 December 2015.</p> <p>The agreed standard condition to apply to selected Defence Force sites including this facility is:</p> <p>Where any construction works for a project involve the total or substantial demolition of, or modifications to, a scheduled historic heritage place, any outline plan that is required shall, pursuant to s176A(3)(f), include:</p> <ul style="list-style-type: none"> <li>a) An assessment of the effects on the historic heritage values of the place;</li> <li>b) A consideration of alternative methods and/or appropriate mitigation to prevent or damage, loss or destruction of the values of the scheduled historic heritage place.</li> </ul> <p>This condition shall not apply in respect of repair or maintenance of the scheduled historic heritage place.</p> <p>This condition shall not apply where there is a conservation plan or similar plan (such as a New Zealand Defence Force Heritage Management Plan) for the management of the scheduled historic heritage place and the proposed construction works are in</p>

	accordance with this plan.  This condition is supported as it provides for the consideration of historic heritage when associated with the management of scheduled historic heritage places and will appropriately inform the Council on this matter.
Recommendation from Panel	The Panel agrees with the report writer's recommendations set out in the 'Recommendation to Panel' row above and as modified in 'Report writer's final comments' row above.
Reasons	The Panel agrees with the report writer's reasons.

## 10. Attachment 1 changes to text of the Proposed Auckland Unitary Plan

### Amend the description as follows:

#### Purpose ~~Description~~

Defence purposes (as defined by section 5 of the Defence Act 1990) - naval base.

### Amend the heading for exceptions to condition 1 as follows:

Exceptions and notes for conditions 1-4:

### Add agreed heritage condition as follows:

8. Where any construction works for a project involve the total or substantial demolition of, or modifications to, a scheduled historic heritage place, any outline plan that is required shall, pursuant to s176A(3)(f), include:
- a. an assessment of the effects on the historic heritage values of the place;
  - b. a consideration of alternative methods and/or appropriate mitigation to prevent or damage, loss or destruction of the values of the scheduled historic heritage place.

This condition shall not apply in respect of repair or maintenance of the scheduled historic heritage place.

This condition shall not apply where there is a conservation plan or similar plan (such as a NZDF Heritage Management Plan) for the management of the scheduled historic heritage place and the proposed construction works are in accordance with this plan.

## 11. Attachment 2 changes to maps in Proposed Auckland Unitary Plan

Amend the boundary of the designation to appear as set out below:
