1. Introduction

The purpose of this report is to provide an assessment and recommendation in relation to designations, modifications and new designations classified by the Independent Hearings Panel as moderately complex. This classification will generally apply where there is a:

- i. rollover of a designation with no modifications and a submission lodged by third party;
- ii. modification to a designation that will result in more than minor effects and with or without submissions;
- iii. notice of requirement for a new designation for existing works with or without submissions.

2. Assessment

The assessment will address:

- i. effects on the environment of allowing the modification or requirement;
- ii. mitigation measures proposed by requiring authority including any proposed conditions;
- iii. other section 171 matters or section 168A(3) (if the requiring authority is Auckland Council) matters where relevant;
- iv. whether land is owned by the requiring authority.

See section 9 of this report for the assessment of each modification and requirement.

On the basis of the assessment, the report concludes that the following designations should be confirmed as recommended in section 9.

3. Expert input

Not applicable.

4. Mediation required

Based on the responses of the requiring authority and Auckland Council as detailed in section 9, the matters would not benefit from mediation.

5. Hearing required

Based on the responses of the requiring authority as detailed in section 9, the matters are unlikely to progress to a hearing.

6. Recommendation to Panel

That the Panel recommends that the designations be confirmed.

Date	18 August 2015 and updated 9 October 2015 with no change, and updated 18 December 2015 with changes.

7. Panel recommendations to Auckland Council

The Auckland Unitary Plan Independent Hearings Panel recommends that Auckland Council recommends to the requiring authority that it confirms the notices of requirement for designations 6741, 6756, 6757, 6758, 6761 and 6764 without any further modifications as sought by Auckland Council, except for the modifications recommended in the Panel report IHP Report to AC_074 NZTA AC submissions.

This recommendation applies to the designations listed in section 9 below.

8. Panel reasons

The reasons for the Panel's recommendation are set out in section 9 below.
