## 1. Introduction

The purpose of this report is to provide an assessment and recommendation in relation to modifications to and submissions on designations classified by the Independent Hearings Panel as minor matters and errors. This classification applies where there is a:

- i. modification to a designation and no submissions;
- ii. rollover of a designation with no modification and submissions lodged by the requiring authority or others (submissions to correct errors or address minor matters);
- iii. modification to a designation and submissions lodged by the requiring authority or others (modifications address minor matters and submissions to correct errors or address minor matters);
- iv. where the modification involves changes to the boundary to incorporate additional land, the requiring authority has an interest in the land sufficient for undertaking the proposed work.

## 2. Assessment

Errors do not require an assessment. The assessment applies the following criteria.

Does the modification/submission:

- i. involve no more than a minor change to the effects on the environment associated with the use or proposed use of land or any water concerned? or
- ii. involve only minor changes or adjustments to the boundaries of the designation?

See section 5 of this report for the application of these criteria to the individual designations.

On the basis of the assessment, this report concludes that the modifications and designations in section 5 meet the above criteria.

## 3. Recommendation to Panel

That the Panel recommends to Auckland Council the modifications/designation be confirmed as set out in section 6.

Description of the modification in the rollover	The requiring authority seeks to include an as-built map with Designation 3302.
Assessment of rollover modifications and reasons	The proposed mapping change simply reflects the structures currently within the designation and therefore enhances the clarity of the Proposed Auckland Unitary Plan.
Submitters and summary of relief sought in submissions	<p>Auckland Council submission 5716-2693, volume 13 seeks a correction to map as shown on attachment 1499. This is to extend Designation 3300 over Designation 8301 (Television New Zealand microwave corridor) as they are joint designations.</p> <p>Auckland Council submission in Submission Point Pathway Report 5716-2694 is incorrectly recorded as applying to 3302. The submission refers to Designation 3910 which is the Wiri prison. Accordingly there are no submissions on Designation 3302.</p>
Assessment of submissions and reasons	The proposed mapping change makes a minor correction to an existing map and therefore enhances the clarity of the Proposed Auckland Unitary Plan.
Recommendation to Panel	That the Panel confirms the changes sought through the modifications and associated submissions.
Response from requiring authority	<p>The above recommendations to the Panel accepted the modifications made in the rollover of this designation and the changes sought by submissions from the requiring authority and the Council.
