

# NOW'S THE TIME FOR A CLEAN OUT

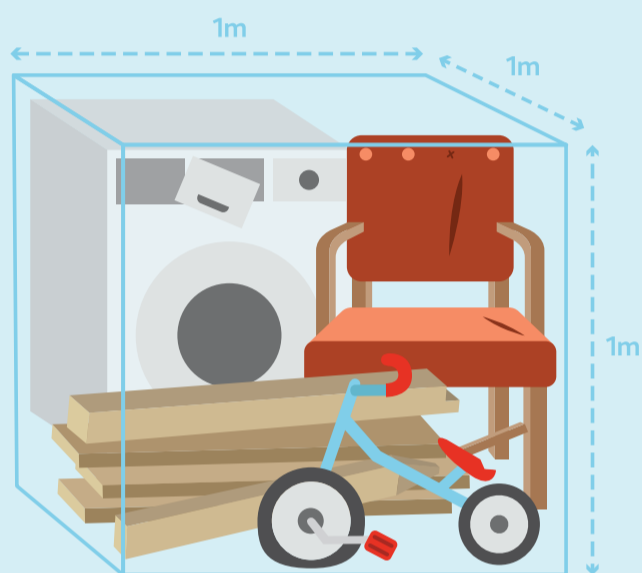

## Auckland Council On-property Inorganic Service for units and apartments

Your Building Manager, Body Corporate Manager or Property Manager has booked an inorganic collection for units / apartments in this multi-unit development.

For your unit or apartment to participate in this, please ensure:

- Items are placed in the collection area between the advised dates as specified below.
- There is no more than one cubic metre of acceptable material per unit or apartment.

**The following image shows an example of one cubic metre:**

Where to place your items for collection (NOTE: This must be **within the property boundary**)

Place your items within the on-property collection area between these dates:

Do not put inorganic items out on the roadside. This is classed as illegal dumping and could attract a \$400 fine.

**If you place more than one cubic metre of items, items that are not accepted or items that are too heavy, they will not be collected. You are responsible for correctly disposing of any items the collectors do not take from your property.**

An inorganic collection happens once a year and is to reduce the amount of material sent to landfill. When we collect your inorganic items, we aim to save as much as possible for reuse or recycling. With your help, we can all participate to make Auckland zero waste to landfill by 2040.

**Together we can protect our land and waste nothing.**
