
I hereby give notice that a hearing under the Reserves Act 1977 and under the Local Government Act 2002 (for a Special Consultative Procedure) will be held on:

Date: Monday, 9 May (commencing with Local Board feedback followed by submitters), Monday 16, Tuesday 17 and Friday 20 May 2022
Time: 9.30am each day
Meeting Room: Reception Lounge (or via MSTeams if required)
Venue: Level 2, Auckland Town Hall
301 Queen Street, Auckland Central

SUBMISSIONS – VOLUME EIGHT

DRAFT REGIONAL PARKS MANAGEMENT PLAN

PANEL MEMBERS

Chairperson
Members

Cr Linda Cooper, JP
Cr Christine Fletcher, QSO
IMSB Member Glenn Wilcox
Independent Commissioner David Hill
Independent Commissioner James Whetu

Nick Somerville
Kaitohutohu Whakawātanga
Hearings Advisor

Telephone: 09 890 2082 or 027 303 6197
Email: nick.somerville@aucklandcouncil.govt.nz
Website: www.aucklandcouncil.govt.nz

Note: The reports contained within this document are for consideration and should not be construed as a decision of Council. Should panel members require further information relating to any reports, please contact the hearings advisor.

WHAT HAPPENS AT A HEARING

Te Reo Māori and Sign Language Interpretation

Any party intending to give evidence in Māori or NZ sign language should advise the hearings advisor at least ten working days before the hearing so a qualified interpreter can be arranged.

Hearing Schedule

If you would like to appear at the hearing please return the appearance form to the hearings advisor by the date requested. A schedule will be prepared approximately one week before the hearing with speaking slots for those who have returned the appearance form. If changes need to be made to the schedule the hearings advisor will advise you of the changes.

Please note: during the course of the hearing changing circumstances may mean the proposed schedule may run ahead or behind time.

Cross Examination

No cross examination is allowed at the hearing. Only the hearing commissioners are able to ask questions. Attendees may suggest questions to the commissioners and they will decide whether or not to ask them.

The Hearing Procedure

The usual hearing procedure is:

- **the chairperson** will introduce the commissioners and will briefly outline the hearing procedure. The Chairperson may then call upon the parties present to introduce themselves. The Chairperson is addressed as Madam Chair or Mr Chairman.
- The **council staff** will be called upon to provide a brief overview of the proposal. The hearing panel may ask questions of the staff.
- The **local board's** have the opportunity to provide comments on Monday, 9 May 2022. These comments do not constitute a submission however the Local Government Act allows the local board to make the interests and preferences of the people in its area known to the hearing panel.
- **Submitters** (for and against the proposal) are then called upon to speak. Submitters speaking time may be restricted, please refer to your hearing notification letter. Submitters' active participation in the hearing process is completed after the presentation of their evidence so ensure you tell the hearing panel everything you want them to know during your presentation time. Submitters may be represented by legal counsel or consultants and may call witnesses on their behalf. The hearing panel may then question each speaker.
 - Late submissions: The council officer's report will identify submissions received outside of the submission period. At the hearing, late submitters may be asked to address the panel on why their submission should be accepted. Late submitters can speak only if the hearing panel accepts the late submission.
 - Should you wish to present written evidence in support of your submission please ensure you provide the number of copies indicated in the notification letter.
- **Council Officers** will then have the opportunity to clarify their position and provide any comments based on what they have heard at the hearing.
- **The chairperson** will outline the next steps in the process and adjourn or close the hearing.
- If adjourned the hearing panel will decide when they have enough information to make a recommendation and close the hearing. The hearings advisor will contact you once the hearing is closed.
- The hearing panel will now deliberate on what they have heard and read and will make a recommendation to the Parks, Art, Community and Events Committee.

Please note

- the hearing will be audio recorded and this will be publicly available after the hearing
- catering is not provided at the hearing.

Subject: Submission on the Draft Regional Parks Management Plan
Date: Monday, 28 February 2022 11:04:04 am

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Kind regards,
Robert Calvert

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

You only have to look at Waikaremoana to fore see the shambles ahead with co governing, look at Raglan Golf Course and around marae`s, tells the story ahead, hard but reality. Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Regards,
Graham Clark

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

To add too this standard text, I would like to add the following, the council and it's officers are appointed and paid by ratepayers to run and care for the assets of the authority. They are not there to be sold, neither are they to be given away or their management passed to an unaccountable chosen body.

Please carry out the duties you are appointed to on behalf of the people who pay you.
Thank you.

Regards,
Patrick Vallely

Auckland City Council has a public duty to manage ratepayer funded assets through elected officials who represent all the people of the Auckland region.

There should be no consideration given to gender, religion, sexuality or ethnicity. The only criteria should be their ability to fulfil the role on behalf of all ratepayers.

Regards,
Bruce Morpeth

To whom it may concern,

It is my considered view and observation that a totalitarian and veto available management leads to serious negative consequences. One only needs to visit NZ history of the recent years, and consider the current global decline and manipulation. It will be the end of consensus policy and rail road individual positions upon the regions and nations.

Subject: Submission on the Draft Regional Parks Management Plan
Date: Monday, 28 February 2022 12:12:33 pm

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. This is part of the current Government's underhand He Puapua strategy which seeks to completely undermine and replace Parliamentary Democracy in our country. They have no mandate for "co-governance", the people have never voted on it, and it is being replaced by a Tribal system where you do what the Boss decides and dissent is not an option. (The resulting chaos is being played out on the steps of Parliament at the moment.)

The only time it would be acceptable for someone to be TEMPORARILY appointed to any public management body, would be when the appointee had special skills that were needed to solve a problem.

Appointment on ANY other grounds (least of all, ethnicity) is completely unacceptable. It smacks of nepotism, political expedience, and "jobs for the Boys".

Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Consequently, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Regards,
Peter Dashwood

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Ownership of public property must be in the best interests of all and any management structure must be proportionally represented by demographic process. I believe Auckland Council were up in arms over the current proposed asset grab by the Labour Government of the water utilities to form Three Water. They are local assets paid for by locals and managed by elected individuals, likewise currently the regional parks and the Hauraki Gulf. Why would anyone want to give our rights away to an chosen few who likely will not best represent all interests - madness!

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Regards,
Justin Wilson

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland so that they can be managed in the best possible way for our enjoyment and to keep some lovely, green areas for walking, relaxing and enjoying nature in our city.

As housing intensifies it is even more vital that the regional parks are properly maintained. The regional parks are important for fitness, relaxation, recreation and mental health reasons.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Trying to remove democracy from parks that are used and paid for by the people of Auckland and putting the power into the hands of a small non elected elite group is totally fascist, shame on those who are proposing this covert take over bid. They are not fit to hold office let alone represent the general public who pay large amounts of money towards parks in their rates.

Like many New Zealanders, I am sick and tired of the race-based, separatist policies that city councils and the government are inculcating.

The word partnership is not in the 1840 Treaty of Waitangi - nor is there any synonym of this word!

And article 3 makes it perfectly clear that we are all to have equal rights under the law!

If Maori want to be involved then they can and should seek to be elected like anyone else!

So stop your evil racism !!!

To whom it may concern,

I am totally against any national park control or governance based on race and/or birth. This is plain racism and is very divisive along with being against any semblance of sensibility and decency. The Hauraki Gulf belongs to the people of New Zealand and should be governed by all people, not have a privileged few, who happen to be a certain race, have extra power over them.

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

The very sad but unavoidable fact is that co-governance does not work for anyone who is not part-Maori. I reject entirely the oft-repeated mantra that only part- Maori are suitable or capable to protect the natural environment.

Any power dynamic in any co-governance arrangement should be divided pro-rata as per the population percentage. That would reflect the multicultural country most New Zealanders would support.

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I make this submission as a fifth generation New Zealander resolutely opposed to the separatist agenda currently being pushed by a small minority group vested in the destruction of our democratic system of government. The proposals for co-governance and co-management of Auckland's unique regional park assets are part of that agenda.

In my view Aucklanders, including my sons and grandchildren all of whom have been taught from an early age to take pride in their mother's maori heritage, have nothing to gain by adopting race based control over these precious assets.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

In my own personal experience, the handling of property by the likes of the TMA has been nothing short of a shambles, with them looking to close local sports clubs that provide important community engagements and fitness for children and adults alike, as well as closing sections of my local maunga to improve pathways only to have them sit unfinished and a rather large eyesore for months and months. I have no confidence that a plan like this will have any long term benefits for the parks involved.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

To whom it may concern,

It greatly concerns me that Auckland Council would even consider reducing its stewardship of Auckland's Regional Parks in any way, shape or governance. The Council's Park system has worked well in the past and is continuing to encourage people to enjoy fresh air, trees and exercise.

As I am a motorhome owner who has enjoyed staying in many of these parks I am appalled that such draconian sweeping changes can even be considered. It ain't broke and doesn't need fixing or interference by incompetent unskilled workers because an unspecified group of people want different controls.

Just look at the disaster that was a wonderful Great Walk around Lake Waikaremoana. We don't want similar ruination in the lungs of our biggest city.

Please process my email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

My question would be if DOC are already looking after our parks, why would we need co-governance? DOC is meant to have all represented in it and does a good job.

Regards,
Russel Helena J

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

I was born into New Zealand the same way as every other person and therefore we should all have the same rights and obligations as each other. We are being branded as stupid and inconsiderate of our environment by a council that is supposed to represent and enact the wishes of the voters. It is not acceptable in our society for one group to have statutory rights over another group, especially by race, when we are all only custodians of this little gem. Stop playing politics and show service to your voters

To whom it may concern,

It's a very worrying trend in New Zealand now, that more and more legislation is being implemented which will only drive division and not unity in our country.

The true original translation of the Treaty of Waitangi did not include any reference to 'partnership'; only to ceding of sovereignty by Maori to the Crown, so that unity could be achieved in the future.

We are all the same race (even modern science has caught up with this fact) and so should all have the same rules and laws under the same democracy. Assigning equal say to minority pressure groups is only causing unrest and division.

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland. All governance of said parks must be subject to democratic vote and change by the people for the people for all time.

Things like this should not take place just because it is politically convenient at this time. In this case it will hide serious budget shortfalls and mismanagement. We have already seen in different regions of New Zealand where Iwi have been given co-control the degradation and refusal of entry to all New Zealanders for spurious reasons.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

To whom it may concern,

I am in total agreement with the submission below. Although I live in the Wellington district, I am concerned that what is proposed in Auckland will set a precedent and the concept of co-governance will become the norm. We are a democracy and should remain so and our parks and reserves should only be managed by local authorities or Government agencies so that control is through elected bodies that means the electorate retain overall control. On no account should Governance be passed to radially exclusive agencies.

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Regards,
Jim Dearsly

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland. There can be no justification for this Ethno-State policy in a free and democratic society. One person, one vote. There is no "partnership" with Maori and the Crown. Never was and never will be.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Regards,
Peter Allard

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance for any assets paid for by the rate payers. The notion that we need to adopt co-governance is a euphemism for an undemocratic selection management structure where appointment is based upon racial preference. Worse the ability to control 50% of the asset confers an ownership status which is effectively theft by stealth.

When seeking the best management structure why wouldn't we seek to employ the most competent managers? Why would we want to appoint people based solely upon their racial background.

Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland. Perhaps an analogy can be drawn with the Russian invasion of Ukraine where we have a group of people choosing to impose their will on another group. It is a similar undemocratic invasion that this "co-governance" impact would have upon the ownership of the parks of Auckland.

For the sake of democracy and the fair and equitable processes that are part of the democratic system I call upon Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management. Co-governance is an anathema to efficiency, the democratic process, and the rights of the rate-paying citizens.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park. This is simply another ruse to gain acceptance of a structure that is riven with racial overtones and encumbered with undemocratic processes.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Regards,
greg.hedges

Dear Fellow Citizen,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of ALL the people of Auckland.

The provision of special privileges to any racial group is an insult to all citizens of this country, and the nonsensical notion of 'co-governance' whereby the democratic process is subverted to give the 'privileged' racial group a disproportionate influence on decision-making and management has no place in our society.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

I am making this submission because I am totally against what this untrustworthy government is doing to New Zealand and to ordinary Kiwis. Causing division, hurt, anger and absolute disbelief with what any PM or political party can now get away with, with no thought to the harm they are causing. Ardern's absolute belief that she and only she is right and able to carry out any rules, powers and mandates she likes beggars belief.

Leave the parks alone.

Regards,
Jacqueline Shakesby

Subject: Draft Regional Parks Management Plan Submission
Date: Tuesday, 1 March 2022 11:18:27 am

To whom it may concern,

The Auckland Parks are a taonga for all Aucklanders, New Zealanders and all visitors to Aotearoa. As 'treasure for all' they need to be preserved and managed by all citizens with equal rights - one person, one vote, and according to the democratic principals.

Therefore, I completely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by a 100% democratically elected body which is accountable to all Aucklanders and elected as such by the same, such that it represents the citizens, is placed there at the convenience of the citizens and serves the same.

Non-Elected representatives must be excluded from governance and until such a better democratically-elected board is available, Auckland Council must be this body, on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park. Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

To whom it may concern,

Whilst it will be seen I am not a ratepayer in the Auckland Region I wish it to be known that I am adamantly opposed to the co-governance model of control as proposed for the Auckland Regional Parks, as I am opposed to the model wherever else it is being proposed and implemented. The governance of such entities needs to be in the hands of one unified and elected body fully accountable to the relevant electorate. Any model based on racial division has absolutely no place in our democracy.

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

I grew up having the Waitakeri Ranges as my playground From Titirangi to Whatipu and Piha we hiked through the bush at every opportunity. Made a few dollars from possum pelts, fished eels in the dams, harbour and coast, it was the 60's.

Now there are tracks everywhere so all can enjoy the bush experience. So, why now does government need to change the management structure ? The "ownership", where has the current system failed ? It hasn't . This co-governance is solely based on the perception that 15% of the population were once mistreated, by the governments of the day. Those days are gone.

We should all be seen and treated as equals in NZ.

Management of anything requires competent qualified people to analyse information and act with the best intent. Not make decisions based on emotive, unqualified or for that matter racial reasons.

Co- governance will cost Aucklanders , business and visitors untold millions [billions] and achieve what ? same, better, worse, results.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Dear Sirs & Madams,

I give below my response to the Draft Regional Parks Management Plan - particularly to any proposal of 'co-governance' based on race.

I wish to protest against any proposal for any Maori co-governance model. Power and responsibility should not be determined by race. Race based appointments sidestep the democratic process. Race based cultural concepts effectively sidestep NZ's entire legal system.

Too, race based appointments are patronising. Maori children are harmed when New Zealand says Maori children cannot engage with society unless special provision is made for them - special provision means they are not good enough, can't manage, haven't got the ability to be treated the same way as all the other people of New Zealand. It is heart-breaking to send this message to some of the children of our country.

Please can Auckland City remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park and therefore also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Thank you for the opportunity to submit on this issue.

Regards,
Rachel Quartermain

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I have been a regular user of the Parks and Islands of Auckland and the Hauraki Gulf for over 60 years. They are an immense asset for all the people of Auckland and indeed all of New Zealand. The growth of the parks network and the management of the network has been generally positive and effective with benefits for all. Therefore I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland. The system we now have is successful and effective. Changing to a race based minority management system is a recipe for disaster. Examples already exist of failure of this approach elsewhere in New Zealand, Waikaremoana and Urewera being two.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

To whom it may concern,

Whilst I don't disagree with the basic messages in this prepared draft, it misses the most important point: that the "co-" governance phrase so freely bandied-about is a nonsense, a deception, and it betrays the fundamental dishonesty and deceitfulness of the whole campaign. The only TRUE "Co-governance" is governance by a public, publicly-elected, authority: that of central or local government. WE ALREADY HAVE THAT!

The proposed replacement of that authority by another, unelected group of whatever constitution in this situation can only be driven by nefarious intent and can offer no material benefit to anyone except the small group that would in some way profit from it, to the detriment of the public at large. It is for this reason that I reject this and all other such moves with the utmost vehemence. "Nothing to fear"?? (Yeah, right!).

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Regards,
Jim Antill

To whom it may concern,

In 1840, Maori chiefs throughout New Zealand signed the Treaty of Waitangi so that they and all members of their tribes became British subjects under Queen Victoria. The Treaty of Waitangi did not then, and does not now, prescribe a co-governance system for New Zealand. There is no basis in our law for any kind of co-governance model at any level of government in New Zealand.

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

To whom it may concern,

This email is a response to the Draft Regional Parks Management Plan and relates to the governance and management of Auckland's 28 Regional Parks.

This is no justification or mandate for co-governance of any operations currently being undertaken by Government or Councils anywhere in New Zealand. That the Labour Government is attempting to do this is not a justification. They are pursuing an overtly racist agenda. There is no reason for Auckland City to follow such a divisive plan.

Co-governance has been attempted in the Urewera National Park. Even the mainstream media is reporting that this has turned out very badly with the Waikaremoana Great Walk not accessible.

Therefore I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park. This is not co-governance it is another example of joint sovereignty. It is continuing in every area of Government Departments. For each one Maori want their own. The latest of course is Health. Based on an incorrect pronouncement of Politicians that the treaty is a partnership. In law it is not. But that does not deter virtue seeking Politicians. I have dealt with the sovereignty through the courts. Their leader said the eventual aim for them was to have a separate Government Departments. That is happening. The latest of course is Health. I asked him who is going to pay for all this. He said if they we are partners we get 50% of the tax take. They are well on the way to achieving this. That means 15% of the population get 50% of the finances.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Evening – my questions as below. Use them how you wish, with privacy purposes and within good reason.

Thank you for send me the submission below my questions. Good words.

Sincerely

Jennifer Armstrong

We as taxpayers and rate payers should be given the right to submit our own rejection of the proposed merger of Marine reserve areas and parks, and co-governance of these. There is no democratic process that I am aware of where the Auckland council, mayor or Councilors will be holding meetings to listen to and determine the viewpoints of the very people who voted the Councilor's and mayor into office, to serve the interests of the people.

1. The very nature of what is intended has been shown by the lack of interest in maintaining or upkeeping the very good conditions of the parks in the the submission's examples. If there has been the work has been very slow, and far from the normal upkeep of said parks.
2. How, in the future if co-governance does go ahead without consent of the people, is the Auckland Council going to fund the upkeep, especially if the co-governors ramp up the charges/costs of the small upkeep that may take place – as in Waikaremoana for example.
3. Will there be into the future the same level of freedom of access to all the public? If not, would the rates charged for upkeep of said parks and marine reserves be reduced? After all, access is the issue here, as well as upkeep of the existing conditions of all the parks.

Thank you for reading these questions and trust you keep them in mind.

Subject: Submission against the Draft Regional Parks Management Plan - regarding co-governance
Date: Monday, 28 February 2022 9:38:20 pm

To all it may concern,

Please process this email as a response against the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of all the people of Auckland, regardless of race and ancestry.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management. I also believe a statement that rejects any future inclusion of such measures would be beneficial.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

I consider any form of co-governance model to be anti-democratic at its core and based on racial principles which defy the original intentions of the Treaty and what it means to be a New Zealander.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Regards,
Henry Hawkins

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.....this is what is a FAIR model - not giving it to a subsection of society that is decided by decent - Race based policy should be removed from ALL council (and government) documents- we all need to be treated equally - I am very concerned at entitlements for people based on decent - that's not what a fair society stands for.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks for the simple reason, Maori's ancestors in 1840 agreed to become British Subjects with the same rights as the people of England when they signed the Treaty of Waitangi. (Article 3)

Have you ever asked this question?

“How did New Zealand (Yes New Zealand) separate from New South Wales jurisdiction and become a British Colony on 3 May 1841 with a Governor and Constitution that set up New Zealand’s political, legal and justice systems under one flag and one law, irrespective of race, colour or creed?”

It’s beyond belief that most of the people of New Zealand have never asked themselves this question because it was definitely not the Treaty of Waitangi!

Surely, you must all have realised, Queen Victoria could not and would not have given a primitive race of cannibals at the bottom of the world a “Partnership and Co-Governance with the Crown”.

What she did offer the 512 tangata Maori chiefs on behalf of their people in the Treaty of Waitangi and they all accepted, “Was to become British Subjects with the same rights as the people of England”. A British Subject cannot be, “In Partnership or Co-governance with the Crown! FACT!

If you bothered to research our true history held in New Zealand, Australian and American Archives, plus the British Parliamentary Papers you would find the Treaty of Waitangi only asked the tangata Maori to give up their kawanatanga/governments to the Queen and in return they would become British Subjects with the same rights as the people of England. Queen Victoria could not and would not have given this primitive race of people a “Partnership with the Crown” or “Co-governance”.

The Treaty of Waitangi was superseded on 3 May 1841 by Royal Charter/Letters Patent dated the 16 November 1840 issued by “Victoria by the Grace of God” under, “The Great Seal of the United Kingdom of Great Britain and Ireland”. Not a document drafted by a couple of people from instructions written by the Under-Secretary for Colonies, then translated into a primitive language that changes every time it is translated!

There is absolutely no denying Queen Victoria’s Royal Charter/Letters Patent is our true Founding Document and first Constitution for the simple reason, it separated New Zealand, yes New Zealand from New South Wales jurisdiction and made New Zealand into a British Colony with a Governor and Constitution that set up New Zealand’s political, legal and justice systems under one flag and one law, irrespective of race, colour or creed. This document referred to all the people of New Zealand, not just the tangata

Maori as the Treaty of Waitangi.

Therefore, is New Zealand 's true Founding Document and first Constitution!

The Royal Charter referred to all the people of New Zealand including the tangata Maori who had agreed by the Treaty of Waitangi, "To become British Subjects with the same rights as the people of England"

There is no other document in New Zealand's history that comes anywhere near to a Founding Document, than Queen Victoria's 1840 Royal Charter/Letters Patent dated 16 November 1840!

While the Treaty of Waitangi should be celebrated by Maori on 6 February as the day they became British Subjects, "With the same rights as the people of England", all the people of New Zealand should be celebrating 3 May as the day New Zealand became a British Colony under one flag and one law, irrespective of race, colour or creed.

Our journalists have become "puppets on a string" to Jacinda Ardern's corrupt Government and her handful of part-Maori comrades. Our journalist and media are no longer interested in telling the truth, they are more interested in lying to the public for an extra dollar or two. Shame on you all for deceiving the people of New Zealand and your chosen profession!

Subject: Submission on the Draft Regional Parks Management Plan
Date: Monday, 28 February 2022 5:42:31 pm

To whom it may concern,

1. Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

2. As recently as a week ago I was assured by an email from the Mayor's office that:

‘ the suggestion that Auckland's regional parks could move outside the ownership and management of Auckland Council is not correct.

On February 11 2022, Council stated categorically in OurAuckland that Auckland's regional parks will continue to be owned and managed by Auckland Council on behalf of all of the people of Auckland and there are no plans to change this.

The draft Regional Parks Management Plan is currently out for public consultation and I would encourage you to read and submit on it’.

I submit that the assurances given by the Mayor's office were wrong . Aucklanders do indeed, stand in dire risk of losing ownership of and free access to our Regional Parks. And Aucklanders' quality of life in our city is therefore likely to deteriorate.

3. Because Auckland is such a big city, the only city of its size in New Zealand, the preservation of open space is essential to its citizens' wellbeing, now and in the future.

With increasing intensification families are living in developments and apartment complexes without an inch of open space around them. Local parks and playgrounds are therefore of immediate local concern.

The Regional Parks are even more important to Auckland's future. Accumulated since 1940 a network of expansive open space around the city has provided generations with space to walk, breathe fresh air, protect habitats for birds, insects and native fish, hear birdsong, and camp out at modest cost. Large family picnics at the Regional Parks are a joy.

These parks have been paid for by past Councils and Regional Councils. Some have been given to the people of Auckland by generous donors.

The Parks are all maintained and enhanced by ratepayers. Proper care of the network is not cheap. But it has always been acknowledged as a duty to the present and future by governing Councils. When this duty is neglected, the citizens have a triennial opportunity to make their representatives aware of their feelings.

4. The proposal for 'co-governance' sounds benign. (p.41) Yards of verbiage are poured out to that effect.

But while it sounds excellent in words, it has proved malign in practice. We already have experience of co-governance: by the Maunga Authority. In practice, Citizens are divided, by race, into two groups. Pakeha, the majority, comprising all ethnic groups, largely pay for the management of the Maunga, through their rates, while Maori, a minority, led by a chairman from outside Auckland, decide who can use the mountains and how and when. Pleasant trees are removed before their time because they are not 'natives'; pathways are overgrown; the whole ambience is unwelcoming and dangerous. Far fewer Aucklanders enjoy their maunga than did so in the recent past.

'Co-governance' of the kind shown by the Maunga Authority would be disastrous for Auckland's Regional Parks.

Governance by the Council, elected by all the adult citizens is what we have now and we should retain it.

5. A similar proposal is found on p.59 of the Plan. It proposes, benignly, to consider transferring Regional Parks 'that contribute to the coastal area of the Gulf' to the proposed Gulf Forum, which is currently subject to restructuring along the lines described in point 2 above. Almost all the Regional Parks are threatened by this proposal because most have at least one beach. The beaches are a major reason for their value to citizens' recreational needs.

Again, the reasons for the proposal are couched in benign language. Such a transfer to the Forum would improve the level of marine protection. Who opposes marine protection? We all wish the Forum would do a lot more of it. Handing over the Parks would not help.

But handing over the parks would certainly dilute Aucklanders' ability to enjoy and monitor the care of them. Democracy is important. Elected councils are accessible. Elected decision-makers are the CORE of our democracy. Remote, appointed 'Authorities' are not.

Regards,
Judith Bassett

Subject: Submission on the Draft Regional Parks Management Plan
Date: Monday, 28 February 2022 5:42:31 pm

Dear Sirs,

I am writing in response to the Draft Regional Parks Management Plan, relating to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council (elected by the people of Auckland on a one man one vote principal) on behalf of the people of Auckland.

It is vital that park lands remain managed by the people, for the people. I ask the Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park while the Park is subject to proposals for cogovernance. While I am strongly in favour, in principal, of the parks becoming part of the National Park, the very name 'Naitonla Park' implies that is is managed for the nation by the nation, and not subject to arbitrary decisionmaking and veto by one ethnic group, particularly a minority group, having representaiton beyond its proportion of the entire population.

Parks belong to, and should be managed by, all of us, irrespective of race. There is no place in recreation or conservation for racially-based management. Therefore, until the apartheid-based co-governance proposals are firmly rejected for the management of the National Park, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Yours sincerely,

Dr Brendan Whyte, FRGS

To whom it may concern,

Currently there is a submission to the Supreme Court challenging Nanaia Mahuta's interpretation of the term co-governance.

I strongly urge the council to wait for the outcome of the legal challenge to co-governance.

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Regards,
Christine Barnes

To whom it may concern,
Kia Ora Tena Koutou Katoa.

I ask that you process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

POINT ONE:

COUNCIL FIEFDOM POSSIBILITY

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks are not drawbridges in the council's own personal fiefdom. It is an act of utter contempt to hire shills, spin doctors-or other Marxist, Fifth Column Town Criers only to 'communicate' with the 'Serfs' so I thank you for asking for submissions.

The Regional area must continue to be owned and managed by Auckland Council on behalf of the people of Auckland as there is enough resentment over the loss of all democratic processes regarding Central Government mandates and other undemocratic, decisions .

POINT TWO. MESCEGENATION

There is another reason why Auckland Council must remove from any Management Plan all aspects of co-governance and co-management proposals for regional park management.

That other important aspect-not referred to, is the level of mescegenation in this country because it is unparalleled when compared to other nations. A member of my immediate family, a sister, has already been told to leave a

public, council playground with her children because 'it's on Maori land and you're Pakeha.' This inability to distinguish can cause conflict because she told them that her children were 'more Maori than they were' to which the group replied: "No they're not-we can't see it.' Back home--her part-Maori-part-European-Part-Asian husband was concerned at that attitude. He has always had a lot to do with his Mother's East Cape Iwi and the children are familiar with their Whakapapa and take an interest in Te Reo. Those are his Tamariki-come Hell or high water.

Will these confused children--some blonde, some green-eyed with red hair, some black-haired with milk chocolate eyes, be considered by Council as a possible, future 'other' co-governing 'Party,' who may then become Privileged Ones, Supreme Ones who then become a new class of Chosen One? Or do the 'Ones' come, exclusively? From a specific Hapu or Iwi? Or will it depend on someone 'identifying' as Maori and how will that category be decided upon? DNA? A blood type? A ruler measurement of the cranium? Eye or hair colour? Skin tone or hue? Under the latter distinction, would it mean that 'Asians,' Middle Easterners, Southern Greeks and Spanish automatically become 'Chosen Ones-by default?'

POINT THREE : MARINE PARK -IWI ELITE EXCLUSIVITY

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Will "Do not proceed' border warning shots get fired over certain boat occupants if they do not look like one of THE ONES? Who would be the 'border' controllers.

I request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

POINT FOUR:

SEEDS OF PERSECUTION GERMINATE

I may have attempted to be flippant here--but I can tell you that some of my 'Whakapapa' were very much One of the PERSECUTED ONES-and when you push for any kind of an Apartheid system-you WILL, in time, end up with it forming: corruption, injustice, persecution, detention/work camps, Gulags, and a kind of Warsaw Ghetto or Soweto Township with forced expulsion--becoming beyond the Pale.

Hyperbolic? Maybe? But it can move into sinister, future reality--if enough propaganda is swirled around for long enough!

Please don't birth such a beast!

Regards,

Audrey Rotheray

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks.

Maori do not have a good history of land or ecology management. It has always been fought over, but not managed in today's terms. It all reeks of asset grabbing and control by a few and not for the good of all the people of Auckland.

Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland where the will of the majority has some control.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

It is unreasonable, impractical, racist, archaic, closed minded, based off old religious beliefs of tribes, control and warring and not a modern and forward way of thinking and not that of ethnicity to have introduction of co-governance and co-management arrangements for Auckland's parks. Scottish, Irish, English, Indian, Asian, Pacific Island, Maori no longer need to be controlled by tribes, kings, queens and emperors, we are free, strong, kind and smart and we don't need you. NZ is already co-governed in which each NZer decides who they want to run the country and it definitely is not you racist half-cast white Maoris. It is pointless as we are now a multicultural society and you can't get around that. Keep your greed, old obsessive needs for control and religious beliefs to yourself and let the rest of us develop our own unified cultures in which we respect each other, live in pride for how far we have come as it has been finally arrived to with combined families, and self-developed new cultures and upbringing. We don't need iwi and we don't need you to love each other, our natural, combined, modern cultures and our country. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

“Co-governance” is a euphemism for government controlled apartheid. Democracy has always called for one vote for one person. If people are in these positions absolutely MUST be elected - as to do anything otherwise is corruption by government and clearly that is not acceptable.

All New Zealanders are created equal, and there is absolutely NO justification for any form of affirmative action. We are ALL recent immigrants and no party has any more rights to the land, sea or air than any other party.

It is worse than that even, in that no responsible government would even CONSIDER introducing government endorsed segregation/apartheid.

This attempt at coercion and deception is an absolute disgrace - and you should all be ashamed of yourselves for even considering this outrageous proposal.

Council assets that Rate Payers have paid for, and are currently paying for, means that the ratepayers effectively own these assets. Council manages these assets on Rate Payers behalf but that in no way means Council has the rights to give away any part of that control or management to others. Something as major as that would need to be voted on as a referendum by all Rate Payers, i.e. the "owners".

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

The regional parks belong to all Aucklanders no matter their background. The Auckland City manage those parks for the good of all without fear or favour. To suggest that the regional parks be controlled by an unelected group other than that appointed by residents and ratepayers is unconscionable.

This proposal opens the door to a shift in accepted democratic process that could easily move the amenities away from the general populace to a selected group represented by the iwi component and other sympathetic members of the management group. To then say that consultation was carried out at some later date would be shameful.

This proposal opens the door to a transfer of the regional parks to another group by stealth and should be struck off immediately

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park for similar reasons.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

NZ is an egalitarian democracy, these current plans for co-governance are in opposition to these ideals. Using ethnicity a basis for ownership and control of public assets is not only racist but also contrary to our very idea of "nationhood". It is a return to tribal control and a seed for a discontent amongst those who will be excluded from any input into the running of our environment, all New Zealanders, of all ethnicities deserve equal representation not just tribal elites.

To whom it may concern,

KEEP it as a democratic process. No co-governance.

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Regards,
Joel Eddington

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

Why co-governance. It should be by people best qualified to produce the best outcome for the Park, or indeed, the Gulf. We only have to look at the Lake Waikarimoana debacle and the closing of the tracks around the lake to see just how good the Maori were at taking circa #35,000,000 over 10 years and not doing any maintenance over those 10 years... including vandalizing the interior of the huts.... and the Council wants them involved in running the Parks and the Gulf. Wake up!

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park. Running a National Park takes skills to deal with issues very different to those involved in running the gulf.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

There is no need whatsoever to include any one or more of New Zealand's ethnic groups over and above the others in regard to the management of public parks, recreation grounds, gulf islands, areas of ocean etc. To do so would be entirely undemocratic, and amount to racial discrimination towards all ethnicities not offered such special favours.

These policies and proposed changes are just another step in the direction of taking away NZ from everyday NZers and inhibiting our access and governance to our own land. It does not uphold our best interests or ensure our enduring right to collectively oversee our reserves and parks through democratically elected representatives in the Auckland council held accountable by the NZ public via voting systems, which we are currently satisfied with and hold to be of democratic nature.

The only way that these precious areas can be guaranteed to be kept available for ALL to enjoy in perpetuity is for them to remain under the total auspices of the Auckland Council. This is also the ONLY democratic way forward. The proposals for co-governance will NOT achieve this - the local population will be betrayed by the new model unless guarantees are legally put in place.

Please do not fob me off with some generic reply. The implications of what it proposed are serious and damaging to our rights.

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Accordingly, I request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

My reasons are as follows:

1. The transfer of these assets into a new entity opens up the probability of further erosion of ownership. For a start this co-ownership model no-doubt has the old Veto chestnut attached to it. So at any time in the future that Veto doctors the dice and enables these “progressive” aspirants to continue to nibble away at ownership, management and everything else for that matter. This is most certainly not in the best interests of the Ratepayers of Auckland. It is a very short-sighted and poorly conceived model destined for heart-ache.
2. These assets are owned by the Ratepayers of Auckland. Many assets were bequeathed to Auckland by various early settler families, whether of European, Chinese, Indian, Polynesian or Maori decent. They gifted those treasures in the belief that they were to be held on behalf of ALL the Ratepayers of Auckland. If they had known how the current local Auckland governance were to literally discard them in such a cavalier, contemptuous and un-democratic manner, I would venture to say that they would be turning in their graves and would not have handed them over to Auckland City in the first place.
3. The glossy Public Relations premise that this co-governance model will magically enhance the assets, the facilities at each and the management of them is simply farcical. How is such a proposal going to do that? And if indeed it's possible, why doesn't the current governance wave a similar magic wand and achieve these mystical improvements?
4. In all likelihood this is going to turn into an unmanageable fiasco such as Waikaremoana in Te Urewera ranges. This national treasure was handed to the local Tuhoe. It was promptly closed down this summer due to vandalism and intimidation of the public. The local Iwi then claimed the annual \$2Million plus that DOC paid them for maintenance was not enough and indeed was “Stingy”. I note Tuhoe kept the money however and DOC has since gone in quietly and cleaned all the facilities up. The harassment of the public, theft from cars and camps is of course another story!

5. How can this ridiculous co-governance model enhance conservation and restoration of native birds, trees and vegetation? If anything it is going to put all the hard work of recent decades at risk.

6. Auckland City Council is here to represent the Ratepayers of Auckland. By allowing this separatist, racist policy to proceed, you are failing your own Ratepayers miserably. In the event that you do not understand your fundamental duties, you thereby need to initiate an independent Referendum. Ratepayers will then give you a clear and unequivocal direction on this matter. Indeed, any Councillor with half a conscience would know what that outcome would be. In fact, had Councillors stood on this matter alone and declared that they supported this tyrannical, separatist agenda none of them would have made it into Council in the first place. Obviously for this it proceed to this point, many of you had such sympathies. So why didn't you have the intestinal fortitude to make those sympathies public knowledge so that the voting public was fully informed of what you stood for and who you actually were?

7. This significant piece of chess-play is not about providing better resources, or better management of those resources; it is simply about the misappropriation of key assets over an extended period of time. The idea of this game is to steal as many assets with stealth and cunning over an undefined time span. This co-governance is but one move in a very, very long game. Unfortunately, it appears the average person and the average Councillor hasn't even woken up to the fact that they are unsuspecting two-bit players in this game, let alone how to play it with skill and aplomb. And the shrewdest move is simply not to engage at any level and at any time. Auckland City owns these assets now, so why are they participating in this charade and jeopardising our assets?

John May

Apartheid in all its forms is abhorrent. The co-governance as proposed to date for a variety of asset management is simply yet another manifestation of the apartheid agenda of the present government. Government has to get over its obsession with "white guilt / maori perfection". We do have other races in New Zealand: they are all New Zealanders and they all deserve consideration. We need a unified New Zealand and an end to racial favouritism and separate development. We need to govern New Zealand for the benefit of all New Zealanders.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

REASONING: Modern society is based on professionally qualified democratically elected individuals. Unless ALL Maori iwis can create their own internal standards across ALL tribes, and 3rd party verifiable election processes, the entire system will suffer from degradation, inefficiency and growing costs as unqualified / unelected and unaccountable people take part.

Further, to implement such a change in society without debate and public choice goes against all principles of our nationhoods democracy and freedoms.

To promote equality, fairness and efficiency of process and cost, we need ONE system that anyone can work under. Focus in that as opposed to a divisive, irresponsible and inefficient proposal that appears geared towards appeasement rather than real involvement.

Co-governance of any type with unelected people is bad. I do not want it.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Regards,
Kevin Haskell

To whom it may concern,

we must protect and parks and public lands, as assets for all to enjoy .To allow any special interest groups more say is completely unacceptable . Especially based on RACE , totally unacceptable . We should try and attract qualified and capable people , to help protect these assets/ treasures for all .

Un qualified , selfish people , taking fees , and then trying to steal our treasures is completely unacceptable. People really need to fight , to protect these assets for all to enjoy , now and in the future.

HANDS OFF OUR REGIONAL PARKS.

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks. Auckland's regional parks must continue to remain in current ownership and managed by Auckland Council on behalf of the people of Auckland. The gifted lands where provided by people who expected this to happen in perpetuity and not muddled around with. Council purchased lands are council / ratepayers property. They should not be trifled with to meet some political agenda.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management. They need to be efficiently managed for all Aucklanders and New Zealanders ongoing use. Co-management doesnot assist in any way to maintain the parks for future use under democratic control.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park.

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.

Mayor Goff

Recently I submitted on the racist proposal for the Hauraki Gulf. You responded with what was clearly a form letter because when I replied you didn't.

In that, you assured me there were no proposals to hand over control to a race based board, for regional parks.

Clearly that was an incorrect statement and bordering on a lie. The proposal must have been in production, which you would have known.

I thank you for standing down as mayor because you cannot be trusted. I hope the next mayor regards all New Zealanders as equal.

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

baSubmission on the Draft Regional Parks Management ...
Date: Monday, 28 February 2022 11:32:23 am

To whom it may concern,
During lockdown and after lockdown Pakiri beach was blocked from all visitors the iWork have ownership of all access ways . This is there right. My question is with co governance how long before some issue comes up which Maori deem necessary to do the same thing. I believe this could become a area of bitter dispute in the near future causing even more diversion of all New Zealanders
This is not inclusion it reeks of exclusion.

To whom it may concern,

Please process this email as a response to the Draft Regional Parks Management Plan. This submission relates to the governance and management of Auckland's 28 Regional Parks.

I absolutely reject the introduction of co-governance and co-management arrangements for Auckland's parks, as this does not reflect the democratic principles of New Zealand, Auckland OR the Constitutional law already in place. This includes The Constitution Act 1986 and reliant legislation.

I refer to the Sovereign head of state commentary from the Governor Generals own public dialogue:

"The underlying principle: Democracy
The Queen reigns . . .
. . . but the government rules . . .
. . . so long as it has the support of the House of Representatives"

Auckland's regional parks must continue to be owned and managed by Auckland Council on behalf of the people of Auckland.

Therefore, I call on Auckland Council to remove from the Regional Parks Management Plan all co-governance and co-management proposals for all aspects of park management.

I also oppose the inclusion of Auckland's regional parks into the Hauraki Gulf Marine Park, where this results in undemocratic outcomes .

Therefore, I also request that any reference to transferring regional parks to the Hauraki Gulf Marine Park be deleted from the management plan.
