Dear Todd

Re: NORTH WEST LOCAL ARTERIALS NOTICES OF REQUIREMENT

This letter is to advise that Auckland Transport gives notice of requirement for six new designations and two alterations to existing Designation 1437 and Designation 1433 together as part of the North West Local Arterials Project.

The lodgment documents have been prepared together as one package and are in four volumes as follows:

- Volume 1: Form 18 for each of the eight notices
- Volume 2: Assessment of Effects on the Environment
- Volume 3: General Arrangement Layout Plans
- Volume 4: Supporting Technical Assessments

These have been emailed to you via file transfer links and a USB drive will be delivered to the Auckland Council reception at 135 Albert Street.

Please contact me in the first instance if there are any queries.

Yours sincerely,

John Daly
North West – AEE Lead
