Hi Sonja

I can confirm that EBA Team and Healthy Waters have been in regular discussion through the design phase for the stormwater requirements to support EB2 and EB3 stages. Healthy Waters are generally in agreement on the design principle and are hopeful that any minor difference on the finer details of the new assets including water quality devices can be resolved through the Stormwater Management Plan process.

Ngā mihi

Subject: EBA EB2 & EB3R In Principal Approval
Importance: High

Kia ora Lakshmi,

We are seeking to lodge EB2 and EB3R applications shortly with Council and if possible, it would be helpful to obtain an email confirmation that EBA and AC Healthy Waters have been in regular discussions regarding the stormwater treatment and design for EB2 and EB3R and that subject to reviewing the completed applications for water quality and establishment of a stormwater management plan, that Healthy Waters in principle approves/agrees with the stormwater approach being undertaken?

Would this please be possible to confirm or advise?

Thank you

Ngā mihi nui and best wishes,

Sonja Lister
