

How to use the GIS Viewer?

Operative Plan Change 60 -
Open Space (2020) and Other
Rezoning Matters

Operative Plan Change 60 – Open Space (2020) and Other Rezoning Matters in the Auckland Unitary Plan (Operative)

[View legend](#)

A legend displays the meaning of the symbols used to represent features on the map. Legends consist of examples of the symbols on the map with labels containing explanatory text. Legends have patches that show examples of the map symbols. Often, legend patches are points, straight lines, or rectangles that match the map symbols. The layer author may have customized the legend patches; for example, some areas are represented with patches of another shape, or rivers are drawn with a sinuous rather than a straight line.

The legend opens in the side pane and displays information about each layer that is visible at the current map scale or time range. Not all layers contain legend information.

Address Finder

To help find if there is a zone change on the property please type in your address into the “Find Address” box and wait until it appears. Then click on the address. Enter keywords into the [search](#) box at the top of Map Viewer to find locations on the map, such as addresses, places, and points of interest.

	<p>To zoom, use the Zoom in button  or the Zoom out button , the mouse and scroll wheel, or the arrow keys on the keyboard. To zoom in, you can also press the Shift key while dragging a box on the map.</p>
	<p>To zoom the map to its initial extent, click the Default extent button . You can also browse the map to a predefined extent through a bookmark.</p>
	<p>To find your current location, click the Find my location button . You may need to authorize the site to access your location information. Your results may vary based on your connection type, Internet service provider, physical location, network, and browser.</p>
	<p>The Query widget allows you to retrieve information from source data by executing a predefined query. In this case, we can retrieve data from the Decision open space layer and can manually search for the feature you are looking for.</p>

By clicking on the logo you will be directed to the council website.

To zoom, use the zoom in button or zoom out button

To zoom the map to its initial extent, click the Default extent button.

To find your current location, click the Find my location button.

To help find the new operative zone plan change you are after use the query tool and look for the property of interest

To help find if there is a zoning change on the property please type in your address into the "Find Address"

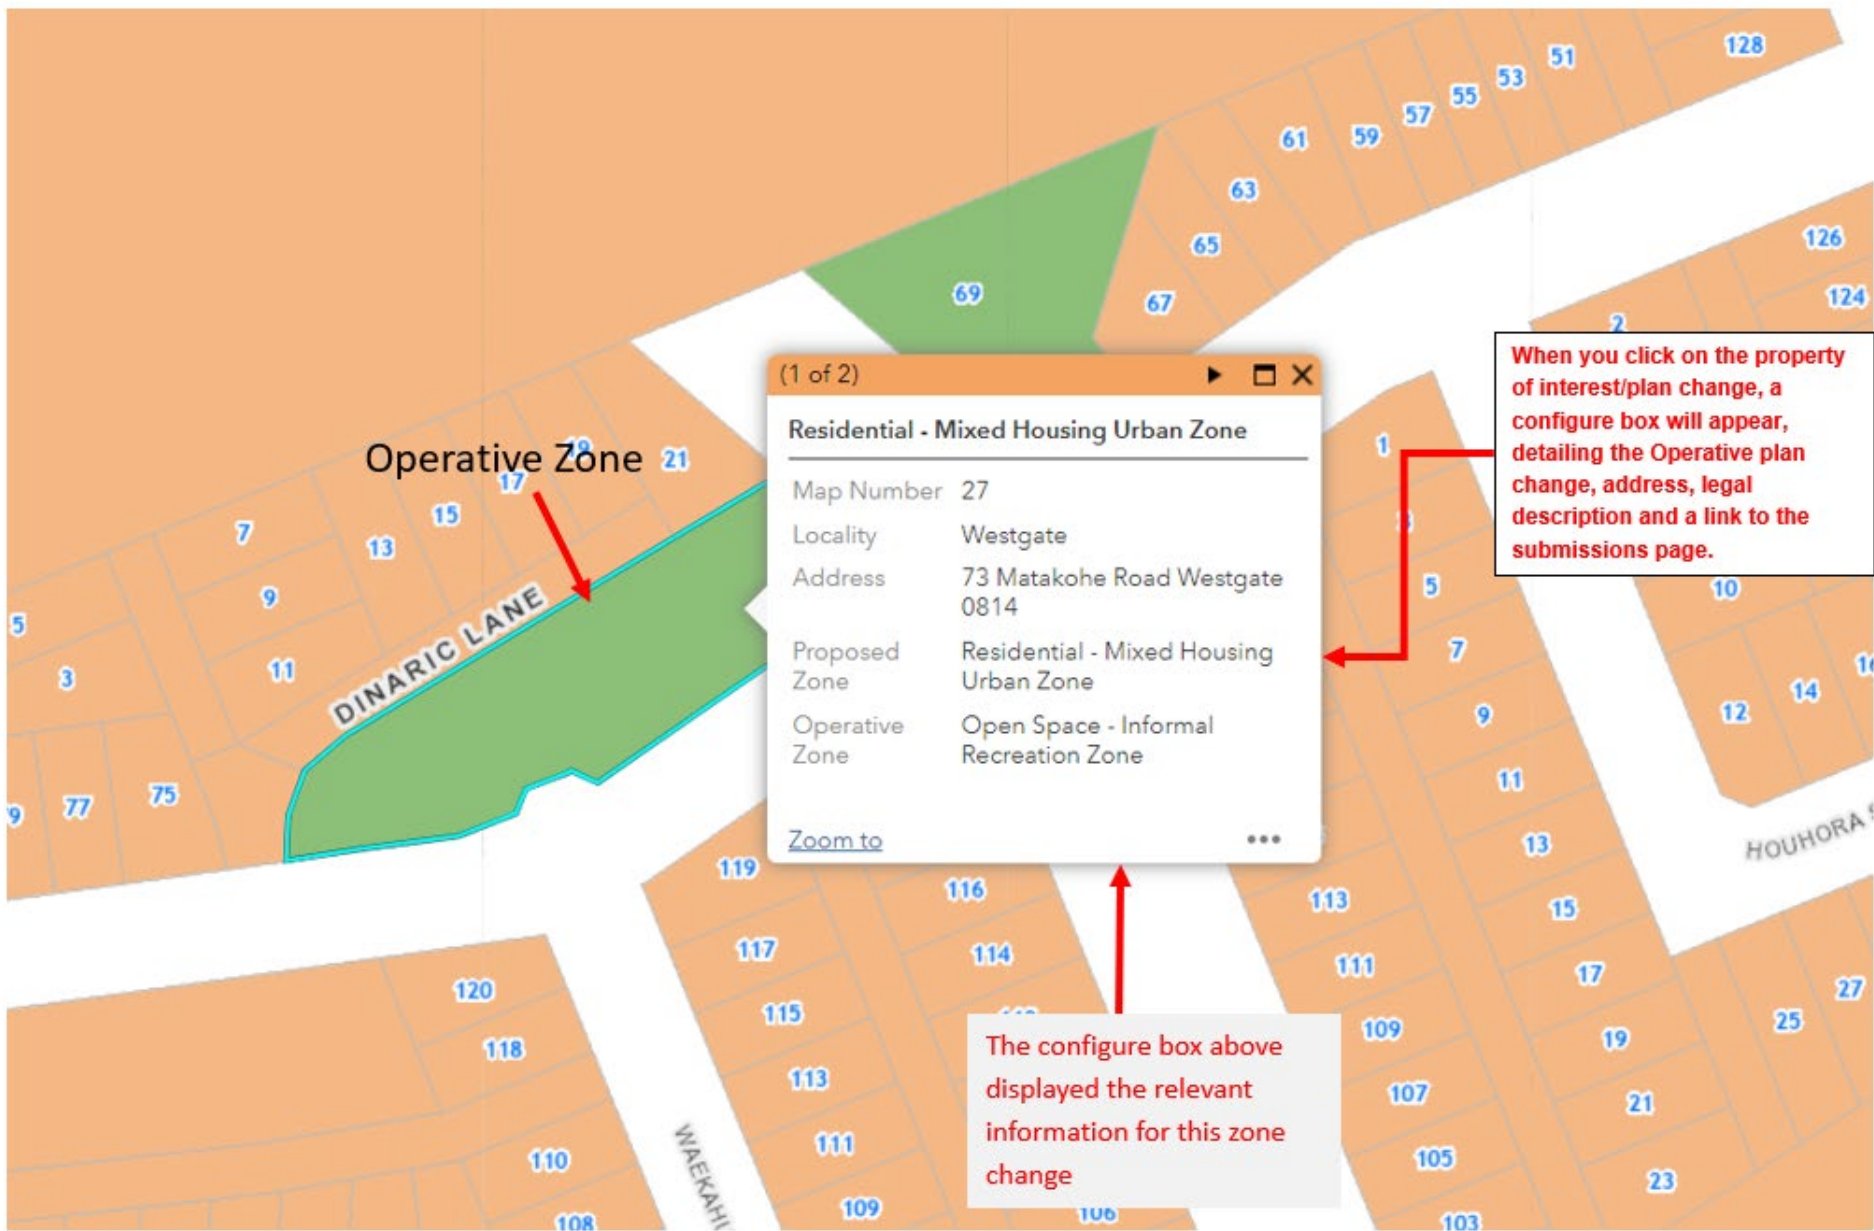

The screenshot shows a web-based map interface. At the top, there is a header bar with the text "Fully Operative Version - Plan Change No. 60 Open Space (2020) and Other Rezoning Matters" and a link for "Plan Change Documentation". The map itself displays various colored zones: a large green area, a yellow area, and a light blue area. Several zone numbers are visible, including 56, 1/56, 58, 58A, 19, 1/56A, 2/56A, and 15A. On the left side, there is a vertical toolbar with icons for zooming in (+), zooming out (-), home, and default extent. A search bar with the placeholder text "Find address or place" is located at the top left. A scale bar at the bottom left indicates 10 meters and shows coordinates: 1,771,707.360 5,896,820.859 Meters. A white callout box on the right side of the map contains the text: "By clicking on the logo you will be directed to the plan change page." Red arrows point from the instructional text on the left to the corresponding UI elements on the map.

Plan Change Documentation

By clicking on the logo you will be directed to the plan change page.
