Section One: Local board overview

1.1 Local board overview

Introduction

Auckland Council has a unique model of local government in New Zealand, comprising the Governing Body (made up of the mayor and 20 ward councillors) and 21 local boards. The Governing Body focuses on Auckland-wide issues while local boards are responsible for decision making on local issues, activities and services and providing input into regional strategies, policies and plans. Together, this is a shared governance model where decisions can be made both regionally and locally.

Local board decision-making comes from three sources:

1. **Legislation** – local boards are responsible for activities such as community engagement, preparing local board plans, agreeing and monitoring local board agreements and communicating local views to the Governing Body on regional strategies, policies, plans and bylaws.
2. **Allocation of decision-making for non-regulatory activities** – the Governing Body has allocated decision-making responsibility for certain non-regulatory activities to local boards. Local boards make decisions on, and have oversight of, a broad range of local activities such as local parks, libraries, events, recreational facilities and community activities. Please see Volume 2, Section 3.5 for the allocation of decision-making responsibilities for non-regulatory activities.
3. **Delegation of decision-making responsibilities** – the Governing Body may delegate responsibility for some regulatory activities to local boards and Auckland Transport may delegate some decision-making responsibilities to local boards. Please see Volume 2, Section 3.5 for the list of delegated responsibilities to local boards.

1.2 Developing local priorities

Local board plans are strategic documents that set the direction for local boards and also inform the 10-year budget (long-term plan). Reflecting community priorities and preferences, the plans are developed every three years to guide local board activity, funding and investment decisions. They also influence local board input into regional strategies and plans and provide a basis for developing local board agreements.

Every year, a local board agreement is developed between the Governing Body and each local board. It agrees the delivery and funding of local activities and intended levels of service for that area, for the year. The agreement takes into account local board plan priorities but must also reflect Governing Body decisions such as Auckland-wide priorities, budget constraints and trade-offs across all council activities.

Each local board also agrees annual work programmes in line with their local board agreement. These are operational and capital work programmes for activities in which they have decision-making responsibilities. They contain specific initiatives and projects in greater detail than appears in a local board agreement. Local board work programmes play a critical role in delivering on the needs of communities and are informed by local board plans.

Local board agreements for 2021/2022 have been agreed between each local board and the Governing Body and are set out in Section 2.

Diagram 1: The relationship between Auckland Council plans and agreements.

Local activities

Local boards have decision making responsibility for a range of activities, as set out in the following list.

- Local Community Services
- Local Planning and Development
- Local Environmental Management
- Local Governance.

Local board agreements outline for each activity area the key initiatives and funding for the 2021/2022 financial year.

1.3 Funding

Auckland Council has a shared governance model for making decisions on local activities. Under the Local Board Funding Policy, funding is allocated to local boards to deliver local services, through the following methods:

1. **Asset based services** – the Governing Body allocates funds to deliver local activities based on decisions about region-wide service levels. This includes allocation of funds for local asset based services, such as building a new swimming pool or library.
2. **Locally driven initiatives** – an allocation is based on a formula applied to each local board, with the exception of Aotea / Great Barrier and Waiheke Local Boards who agree funding requirements with the Governing Body on an annual basis.
3. **Governance services** – an allocation is based on the number of elected members and associated administrative costs for each local board.

The total planned expenditure for local activities across all 21 local boards over the 2021-2031 financial years are shown in following table below. The budgets for each local board are listed within the individual local board agreements in this volume.

Message from the Chairperson

I am grateful for the many people who shared their views during the consultation period on our Local Board Agreement. When we reviewed all your submissions, my fellow local board members and I were faced with a hard balancing act. While most of our community disliked the idea of paying more rates, there was an equally strong desire to see investment in our local area.

We heard how much the congestion around Glenvar Road impacts on the daily lives of those travelling through that area. We heard about the desire to protect our forests and swim at cleaner beaches. We also heard the calls to be prudent with ratepayer's money. Therefore, reluctantly, the local board supported a five per cent increase of average general rates, but for one year only, reverting to three and a half per cent in the following years. Without this increase in rates, key projects such as the Ōrewa Beach Esplanade Enhancement Project, in our local area will not proceed.

As a lifelong resident of Ōrewa, I am proud that we will see the Ōrewa Beach walkway and beach enhanced and protected. At the southern end of this beach, designs will be started to renew our fabulous reserve, with its play areas and picnic spots.

In Browns Bay, we are giving our popular library the biggest makeover in its 30-year lifespan so far, to make it ready for the way you want to use it.

However, this is still a Recovery Budget, and we on the local board are still mindful to ensure that money is spent wisely, fairly and for best return to our community.

Working with Māori

Delivering on Auckland Council's commitment to Māori at a local level is a priority for local boards. The council is committed to meeting its responsibilities under Te Tiriti o Waitangi / the Treaty of Waitangi and its broader statutory obligations to Māori.

To meet this commitment, the Hibiscus and Bays Local Board Plan provides the framework for our commitment to Māori. While we recognise that there is still a long journey ahead of us, we have developed initiatives that respond to Māori aspirations. Examples of this include:

- strengthening relationships with local iwi to create improved local decision making from the local board
- taking opportunities to create a Māori identity in our parks and facilities through actions such as naming or renaming and sharing stories about the area's heritage through interpretative signage
- partnering with Māori to understand areas of environmental significance and create opportunities for collaboration between iwi and local environmental groups on projects of mutual interest.

Local Planning and Development

This group of activities covers improvements to town centres, the local street environment as well as local environment and heritage protection. These activities also include working with business and community associations to improve local economic development and employment initiatives.

Our annual operating budget to deliver these activities is \$517,000.

The key initiatives we have planned for 2021/2022 include:

- Pest Plans on Private Land – Ōkura. This will enable the funding of a coordinator position to help private landowners bordering the Ōkura Bush, shoreline and surroundings to restore the biodiversity of the area by destroying pest animals and plants
- Silverdale Business - assisting this business association to establish a new Business Improvement District.

The local planning and development activity, including the key initiatives outlined above contribute towards achieving the following outcomes in the Hibiscus and Bays Local Board Plan:

- Outcome 2: A strong local economy
- Outcome 3: A protected and enhanced environment.

Local Governance

Activities in this group support our 21 local boards to engage with and represent their communities and make decisions on local activities. This support includes providing strategic advice, leadership of the preparation of local board plans, support in developing local board agreements, community engagement including relationships with mana whenua and Māori communities, and democracy and administrative support.
