12 Ngā Papa Rēhia Tū Takitahi

Individual Parks

This section covers the 285 parks in Hibiscus and Bays which are presented in individual sheets in alphabetical order. Please note these need to be read in conjunction with the park management principles and policies in Volume I of this plan.

12.1 Me pēhea te pānui i ngā whārangi papa rēhia takitahi

How to read the individual park sheets

The following template explains how the content of the individual park sheets have been populated, including reference documents.

Amorino Reserve

Local parks that are adjacent, or in close proximity to a park will often be visible on the map.

In this example Orewa Reserve and Western Reserve sit on the north side of the estuary from Amorino Reserve.

The hatching shows management focus areas for land classified as recreation reserve or land held under the Local Government Act. In this example the recreation reserve has a Coastal management focus.

32A Amorino Drive Red Beach

No	appellation	ReserveClass
1	Lot 160 DP 57962	Local Purpose (Esplanade) Reserve
2	Lot 109 DP 70174	Recreation Reserve
3	Allot 630 PSH OF Waiwera	Local Purpose (Esplanade) Reserve
4	Lot 160 DP 56638	Recreation Reserve

ADDRESS

- Physical street address derived from Auckland Council rate database.
- Some parks don't have a street number.

LAND STATUS

- The table shows the land status for each land parcel that makes up the park.
- Numbers on the map correspond to numbers in column 1 of the table.
- The land status includes the lot number (Appellation) and Reserves Act classification or identifies that the parcel is held under the Local Government Act 2002.
- Section 9 of this plan contains a description of each Reserves Act classification.
- The classification of a reserve can be changed as per section 24 of the Reserves Act

PARK AREA (m² or ha)

- This is the total area of all land parcels that make up the park. The area is in square metres (m²) if the park is under one ha in size.

The scale of the maps varies depending on the size and configuration of the park.

LEASES & LICENCES

Example: Current or contemplated leases and licences within existing footprints for:

Organised sport and facilities including lawn bowls and petanque (recreation reserve)

- This section identifies the types of leases and licence activities that are contemplated within existing lease area footprints. It will generally reflect the current lease/licence activities on the park and identify the land classification where these types of lease or licence activities can occur i.e., recreation reserve or local purpose (community use) reserve.
- Note: if new future leases types/activities are known/anticipated these will be identified/contemplated in the management intention section.

VALUES

KNOWN CULTURAL VALUES

- This section identifies areas of cultural significance to mana whenua. The examples below show the different levels of information how it will be displayed. All examples emphasise the need to discuss potential impacts on cultural values with mana whenua.
- **Example 1:** Area of cultural significance– refer to mana whenua.

KEY RECREATIONAL VALUES

- This section outlines a list of key recreational activities currently associated with the park. The impact on these need to be considered alongside other park values when approving/determining what activities can take place on parks. Refer to the table in Appendix I later in Part D for descriptions of these values.
- This is not an exhaustive list or the only recreational values for a park but is intended to be a start point that indicates known prominent values associated with that park.

This indicates areas that are likely to have significance for mana whenua. For example, many coastal or estuarine areas in Hibiscus and Bays may have been traditional food gathering or fishing areas, transportation routes or part of a wider cultural landscapes. This information is often not recorded or available to the public.

- **Example 2:** Recorded archeological site(s) of Māori origin – refer to mana whenua. This indicates a recorded Cultural Heritage Inventory (CHI) site of Māori origin. For example, common CHI sites in Hibiscus and Bays are middens, pits and terraces.
- **Example 3** - Ringditch Pa site (CHI No. 11637) close to the Hillcrest Road boundary extending over lots 11 to 15 - refer to mana whenua.

This indicates in more detail a significant or unique recorded CHI site. This level of detail is only provided for larger or more prominent recorded sites.

- **Example 4** - Refer to mana whenua. ‘Refer to mana whenua’ will be displayed when an area or specific site has not been identified. Mana whenua may not always want to indicate or publicise areas or sites of cultural significance. Therefore, it is important to refer to mana whenua to ensure activities on parks can avoid impact on cultural values where no specific information is given in this section.
- **Example:** Beach access / Connection / Play space

SIGNIFICANT NATURAL VALUES

- **Example 1:** WF11 Kauri podocarp broadleaved forest.
- **Example 2:** High quality native vegetation including Kauri forest remnant at the east end, which includes mature Kauri – oldest estimated at 300 years.
- This section is predominantly populated from data contained in the *Indigenous terrestrial*

and wetland ecosystems of Auckland 2017.

The document describes 36 terrestrial and wetland ecosystems in the Auckland region and is based on the national ecosystem classification system. The description in example 1 above *WF11 Kauri podocarp broadleaved forest* relates to the relevant section in the document which provides details on ICUN threat status (e.g., least concern, vulnerable, endangered, critically endangered, collapse), as well as distribution, characteristics, threats etc.

- Some parks may have additional information as described in example 2 where additional information on specific or unique known natural values may be useful.
- **Note:** Most parks by virtue have a variety of natural values the intention of this section is to identify known significant or unique values that may not be covered by the Auckland Unitary Plan Significant Ecological Area overlays.

HERITAGE VALUES

- **Example:** Historic Structure – Military gun emplacement (CHI No. 3234)
- This section identifies recorded Cultural Heritage Inventory sites other than sites listed in the Known Cultural Values Section above. Examples include military structures, monuments, historic trees and places.

OTHER INFORMATION

- This section covers miscellaneous information specific to the park that may impact use or development.

Example: Contaminated Land – Closed Landfill

- Environmental monitoring and asset management, monitoring and inspections to ensure safe use by public.
- Potential constraints on ground intrusive projects and activities and notification of potential hazards.

KEY MANAGEMENT ISSUES

- Example: Stream bank erosion within the park is increasing as intensification of the surrounding residential area grows and more stormwater is discharged into the catchment.
- This section outlines management issues specific to the particular park.
- **Note:** this is not intended to be an exhaustive list of general park issues. Not all parks have a specific management issues, often issues are common to parks in general or to parks with the same management focus. These issues are generally covered in Part C under the management focus overview in Section 10 or in general policies in Section 11.

MANAGEMENT FOCUS

Examples:

- Informal recreation, see 10.2
- Organised sport and recreation, see 10.5
Note: The management focus areas only apply to the land classified recreation reserve under the Reserves Act 1977 and the land subject to the Local Government Act 2002.
- Refer to Section 10 for a comprehensive explanation of how management focus areas apply to parks.
- **Example 1:** Maintain the informal recreation and coastal open space character of the park by balancing demands for increasing use of the park, particularly the beach frontage north of Laurence Street, for formal recreational activities and events (including those organised by lessees located on the park).
- **Example 2:** Consider implementing event free rest periods for parts of the park, or the whole park, to enable parkland to recover and protect causal use of the park during peak summer periods.

MANAGEMENT PRINCIPLES

Refer to **Section 8**

GENERAL POLICIES

Refer to Section 11

MANAGEMENT INTENTION

- Management intentions describe the management approach and/or desired outcomes for specific activities, experiences or issues on individual parks.
- This section may also provide direction on how specific activities should be provided for (i.e., maintaining public access to the beach) or what park unique features are intended to be retained, maintained altered or protected. It also may signal development opportunities (if known) that may be considered in the future.

2	Part Lot 3II DP 3442	Recreation Reserve
3	Lot 4 DP 365659	Local Purpose (Esplanade) Reserve
4	Part Lot 28 DP 47622	Recreation Reserve
5	Lot 27 DP 47622	Recreation Reserve

- MFA
-  Coastal
 -  Informal recreation

Aicken Reserve

LEASES & LICENCES

Current and contemplated leases and licences within existing footprints for:

- Organised marine recreation and education activities, meetings, training sessions and community activities including for sailing club, Scouts and Waterwise (Lot 27 DP 47622).

VALUES

KNOWN CULTURAL VALUES

- Area of cultural significance - refer to mana whenua.

KEY RECREATIONAL VALUES

- Community events
- Connection
- Organised sport
- Play space
- Water based activities

OTHER INFORMATION

- May be subject to coastal inundation during storm events.
- Deep Creek flows along the length of the northern boundary of the park.

- The wave like shaped area adjacent to the Torbay Sailing Club building is reclaimed stream bed that forms part of the park extent.
- The walkway through the reserve connects Deep Creek Road and Beach Road.
- Nearby parks include Waiake Beach Reserve and Waiake Esplanade Reserve

KEY MANAGEMENT ISSUES

1. Demand for space and competing use between organised water-based activities and casual users of the park.
2. Car parking within the park and along Beach Road is limited. This contributes to vehicle congestion and access issues particularly during sailing club regattas and over the summer months when Waiake Beach Front Reserve is heavily visited.
3. Stream bank erosion is increasing as intensification of the surrounding residential area grows and more stormwater is discharged into the Deep Creek catchment.
4. At times during periods of heavy rain, stormwater runoff overflows directly into the stream.
5. The lack of lighting through the park.

6. Poor drainage due to the parks low- lying location.

MANAGEMENT FOCUS (refer to map)

- Coastal, see 10.1
- Informal recreation, see 10.2
 Note: The management focus areas only apply to the land classified recreation reserve under the Reserves Act 1977.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTION

1. Consider opportunities for individual, family and group fitness suitable for a wide range of users.
2. Consider opportunities to improve the parks interface with Deep Creek including the connection to and along the stream for recreation and riparian restoration and enhancement.
3. Lighting the connection between Deep Creek Road and Beach Road maybe considered.

No	appellation	ReserveClass
1	Section 2 SO 474183	Recreation Reserve

MFA

 Organised sport and recreation

Ashley Reserve

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Informal recreation - general
- Organised sport

OTHER INFORMATION

- Caldera Reserve and Coventry Reserve are within walking distance of the park. Long Bay Regional Park is also close by.

KEY MANAGEMENT ISSUES

- Heavy demand for use of the park, due to artificial turf and floodlighting, puts pressure on car parking within the park.
- Future residential growth in the surrounding area is expected to increase the intensity of use for organised sport and increasing demand to use the park for casual recreation.

MANAGEMENT FOCUS

- Organised sport and recreation, see 10.5

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

Awaruku Reserve

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Connection
- Informal recreation - general
- Nature based activities
- Walking trails

SIGNIFICANT NATURAL VALUES

- VS3 Manuka kanuka scrub.
- WF8 Kahikatea pukatea forest.

- Kauri.

OTHER INFORMATION

- Access through the park links Awaruku Road, Moorgreen Heights and Relko Crescent.
- Glenvar Glade Reserve and Coventry Reserve are nearby.

KEY MANAGEMENT ISSUE

1. Increased risk of pathogen incursion, such as kauri dieback, infecting kauri and other native vegetation due to the extensive track network through the park and the location of paths next to young kauri.

MANAGEMENT FOCUS

- Recreation and ecological linkage, see 10.4

Note: The management focus only applies to the land subject to the Local Government Act 2002.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTIONS

1. Actively protect and enhance natural values within the park particularly native vegetation, wildlife and associated ecosystems.
2. Support opportunities to protect the park from pathogen incursion, such as kauri dieback, including opportunities to improve, realign or relocate paths through the park particularly those near kauri.
3. Protect the natural values and character of the park and improve park users' experience and ability to connect with nature.
4. Consider opportunities to improve connections through the park between Moorgreen Heights, Relko Crescent and Awaruku Road and deliver on the Hibiscus and Bays Greenways / Local Paths Plan 2016.

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUE

- Connection

OTHER INFORMATION

- The park is adjacent to Long Bay Regional Park. Swell Park, Ridgeline Park, Caldera Reserve and Coventry Reserve are also within walking distance.

- Adjoining lots, being Lot 302 DP 457552 (vested as a drainage reserve) and Lot 10 DP 36264 (unformed road reserve) provide pedestrian access to the park from Te Oneroa Way and Glenvar Road respectively.
- Auckland Transport is responsible for managing the unformed road reserve and Council’s stormwater management team is responsible for managing the primary stormwater function of Lot 302 DP 457552.
- Both parcels of land are out of scope of this plan. The general policies and provisions of

this plan, particularly those relating to Awaruku Wetland, will guide the local board's position and any future input into management or development of this area where it is sought.

MANAGEMENT FOCUS

- Recreation and ecological linkage, see 10.4
Note: The management focus only applies to the land classified recreation reserve under the Reserves Act 1977.

Browns Bay Beach Reserve

LEASES & LICENCES

Existing lease for:

- Marine related recreation, education and safety activities including the Browns Bay Marine Centre Trust (on parts of Lots 10 and 11 DP 10786).

VALUES

KNOWN CULTURAL VALUES

- Area of cultural significance - refer to mana whenua.

KEY RECREATIONAL VALUES

- Beach access
- Boat launching
- Fitness and exercise activities
- Informal recreation - general
- Play space
- Skate park
- Water based activities

SIGNIFICANT NATURAL VALUES

- WF4 Pohutukawa puriri broadleaved forest.
- Taiaotea Creek adjoins two of the parks separated land parcels and flows out to the sea at the southern end of the park.

HERITAGE VALUES

- Historic Structure - Military Searchlight emplacement (CHI No.13666).
- Historic Structure - Military Pillbox (CHI No.13665).

OTHER INFORMATION

- May be subject to coastal inundation during storm events.
- Te Araroa (New Zealand's Trail) route passes through the park.
- Browns Bay Creek, Browns Bay Village Green, Clifftop Walkway - Masterton to Beechwood and Rothesay Bay Beach Reserve are within walking distance of the park.
- Three areas of unformed road reserve are utilised as parkland, being land on the

seaward side of Manly Esplanade and the ends of Anzac Road and Browns Bay Road.

- While Auckland Council maintains this land, it is under the jurisdiction of Auckland Transport. The general policies and provisions of this plan will guide the local board's position and any future input into management or development of this area where it is sought.
- Three of the park's land parcels at the southern end of the park are separated from the main area of the park by Taiaotea Stream (also known as Browns Bay Creek).

KEY MANAGEMENT ISSUES

1. Busy multi-use park with high demand for access to the beach and space for various casual recreation activities.
2. Limited play offering for older children and teens at times causes conflict between families with young children and teens sharing the existing play space.
3. Narrow dune system along the beach frontage is susceptible erosion during storm events.
4. Lack of trailer parking and rigging area for boat ramp users adds to congestion and limits the use of the ramp.

MANAGEMENT FOCUS

- Coastal, see 10.1
Note: The management focus only applies to the land classified recreation reserve under the Reserves Act 1977.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTIONS

1. Retain open areas to enable boat and watersport equipment rigging and consider improvements to the layout of beach access and paths that encourage safe separation between walkers, beach and park users and the boat rigging/maneuvering area.

2. Consider opportunities to provide all- abilities access and connection to the beach.
3. Consider opportunities to upgrade the skatepark and improve play opportunities for older children and teens.
4. Consider opportunities enhance park users' experience through interpretation of areas unique heritage and biodiversity.
5. To work with Auckland Transport over the management of unformed legal road that is currently utilised as parkland.

Browns Bay Creek

MFA

 Recreation and ecological linkage

Browns Bay Creek Reserve

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Connection
- Informal recreation - general

SIGNIFICANT NATURAL VALUES

- WF4 - Coastal broadleaved forest consisting of remnant indigenous canopy trees; mainly pohutukawa and kanuka but a single totara tree is also present.

OTHER INFORMATION

- May be subject to coastal inundation during storm events. Subject to coastal hazards.
- Taiāotea Stream runs along the park's northern boundary.
- Browns Bay Beach Reserve, Browns Bay Village Green and Clifftop Walkway - Masterton to Beechwood are within walking distance of the park.
- Part of Clyde Road sits within Part Lot 31 Block X DP 10801, at the eastern end of the park.
- The walkway through the reserve connects Clyde Road and Browns Bay Road.

KEY MANAGEMENT ISSUES

1. Pest plants threatening the ecological integrity of the streamside planting and coastal forest area by smothering trees and shrubs and forming a dense ground cover stopping the regeneration of native plants.
2. Litter and rubbish accumulating in the coastal forest understory adjacent to the park's walkway.

MANAGEMENT FOCUS

- Informal recreation, see 10.2

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTIONS

1. Consider opportunities to implement proposals outlined in the Taiaotea Stream and Coastal Forest Community Restoration Plan. These may include the restoration of the riparian and coastal forest and development of recreational facilities.
2. To regularise the formed road passing through Part Lot 31 Block X DP 10801.

Browns Bay Village Green

Browns Bay Village Green

LEASES & LICENSES

Current and contemplated leases and licences within existing footprints for:

- Provision of community activities and services (Lots 10, 11, 14 and 15 Blk II DP 10801).
- Early childhood education and support services for the development, health and wellbeing of children including Plunket (Lot 9 and 10 Blk II DP 10801) and creche (Lot 14 and 15 Blk II DP 10801).

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Community events

- Community leisure and recreation
- Informal recreation – general

HERITAGE VALUES

- Historic Site – Military - Browns Bay temporary military camp (CHI No. 20195).

OTHER INFORMATION

- Hibiscus and Bays Local Board office, Bays Community Centre, East Coast Bays Leisure Centre and East Coast Bays Library are located at the park, as are a community creche and senior citizens club.
- Browns Bay Creek, Browns Bay Beach Reserve and Freyberg Park are within walking distance of the reserve.
- The reserve connects Inverness Road, Glen Road and Bute Road.

KEY MANAGEMENT ISSUES

1. Multiple buildings located on the park limit outdoor open space available for events and casual public use.
2. Poor drainage limits ability for events to be held through the winter months.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTIONS

1. Retain as much usable open space as possible and limit the size of buildings within leased areas to their current footprint.

2. Consider a potential expansion of the footprint for early childhood education activities, namely creche, to provide for additional outdoor play and shade only; ensuring consideration is given to the potential impacts on and the ongoing maintenance and management requirements for any trees to be included within an expanded footprint.
3. Consider opportunities that enable better utilisation of open outdoor areas for events and casual public use.
4. Encourage community events that increase use of the park and add to the vibrancy of the park and Browns Bay town centre.

Campbells Bay (Huntly Road) Reserve

VALUES

KNOWN CULTURAL VALUES

- Area of cultural significance - refer to mana whenua.

KEY RECREATIONAL VALUES

- Beach access
- Informal recreation - general
- Play space

- Water based activities

SIGNIFICANT NATURAL VALUES

- Campbells Bay Stream, bird and fish habitat and native planting riparian zone.

OTHER INFORMATION

- Campbells Bay Stream adjoins the northern and western boundary of the main part of the park.

- Volunteers help to maintain riparian areas in the park.
- Campbells Bay Esplanade Reserves, Centennial Park and Possum Ladder are nearby.
- The legal status of the grassed area adjoining Lot 2 DP 21506 that accommodates the toilets is unformed road and is out of scope of this plan.
- While Auckland Council maintains this land, it is under the jurisdiction of Auckland Transport. The general policies and provisions of this plan will guide the local board's position and any future input into management or development of this area where it is sought.
- Land described as part of the old creek bed adjoins the esplanade reserve. Coastal

hazards have eroded most of these land parcels so much of the former land in these parcels may now be located in the Common Marine and Coastal Area (CMCA).

MANAGEMENT FOCUS

- Coastal, see 10.1
Note: The management focus only applies to the land classified recreation reserve under the Reserves Act 1977.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTION

1. Ensure the need to retain open space is recognised when considering expanding play opportunities.

Campbells Bay Esplanade Reserve

13	Part Lot 14 DP 9328	Local Purpose (Esplanade) Reserve
14	Lot 4 DP 56336	Local Purpose (Esplanade) Reserve

Campbells Bay Esplanade Reserves

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

SIGNIFICANT NATURAL VALUES

- WF4 Pohutukawa puriri broadleaved forest.

OTHER INFORMATION

- May be subject to coastal inundation during storm events.
- The park includes multiple disconnected coastal land parcels.
- Campbells Bay (Huntly Road) Reserve, Centennial Park and Possum Ladder are nearby.

- Coastal processes have eroded a significant portion of the three northern most land parcels Lot 1 DP 63207, Lot 2 DP 95959 and Lot 3 DP 37593. As a result, most of this former land may now be located in the common marine and coastal area (CMCA).

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

Centennial Park

Centennial Park

LEASES & LICENCES

Current and contemplated leases and licences within existing footprints for:

- Organised sport and facilities including golf and tennis (Lot 1 DP 194867)
- Early childhood education services (Lot 1 DP 194865).

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Connection
- Cycling
- Education
- Informal recreation - general

- Nature based activities
- Organised sport
- Shared paths
- Walking trails

SIGNIFICANT NATURAL VALUES

- VS3 Manuka kanuka scrub
- VS5 Broadleaved scrub forest
- WF13 Tawa kohekohe rewarewa hinau podocarp forest
- Campbells Bay Stream

HERITAGE VALUES

- Historic Site – Gumdiggers Five (CHI No.9545).
- Historic Structure –Military Pillbox (CHI No.14391).
- Historic Structure – Military Pillbox (CHI No.13651).
- Historic Tree - Avenue of Remembrance – Pohutukawa (CHI No.17625).

OTHER INFORMATION

- Centennial Park was named for the New Zealand Centennial celebrations in 1940.
- Morton Way, which runs through the park, is named after Professor John Morton, who made significant contributions to native bush regeneration around Auckland.
- The history of restoration and management of the park’s regenerating native bush dates back to the early 1900’s.
- For the parks historical background and a comprehensive species list of native and exotic plants, and birds (introduced, endemic and native) refer to the previous Centennial Park Reserve Management Plan 2010.
- The restoration of the park’s stream network – a habitat for native fish, eels and insects is being undertaken by volunteers with council support.
- Council owned Lot 17 DP 156171, which adjoins the park’s eastern boundary, is a stormwater detention area. It’s stormwater management function is the responsibility of council’s

stormwater management team and the parcel is out of scope of this plan.

- The steep nature of the park means there are a combination of permanent streams and seasonal overland flow paths running through the park.
- The Centennial Park Bush Society undertake voluntary work including pest management, restoration programmes, track development and maintenance in this park.
- The extensive track network through bush areas developed predominantly by volunteers includes a nature trail highlighting approximately 50 plants or plant groupings. The walkways connect to Beach Road, East Coast Road, Rae Road, Park Rise, Centennial Place, Ashbury Crescent and Sandford Street.
- The Hibiscus and Bays Greenways Local Paths Plan 2016 has identified a number of potential greenway routes and connections through and around the park. The Centennial Greenway Path is one of seven high priority greenway connections for Hibiscus and Bays.
- Campbells Bay (Huntly Road) Reserve and Campbells Bay Esplanade Reserves are nearby.

KEY MANAGEMENT ISSUES

1. The narrowness of the internal park road combined with vegetation along the road edge limits visibility and makes it difficult for vehicles to pass. It also presents a potential safety issue for pedestrians and other vehicles using the road.
2. There are differing community opinions regarding vegetation management throughout the park. Some are seeking to restore the indigenous values of the bush areas while others appreciate the height, screening and amenity the existing exotic trees provide. The golf club lease area includes large areas of bush and a track developed and maintained by volunteers.
3. Stormwater from the road and golf course causes erosion issues within the steep bush

areas. This has been exacerbated by development pressure around the park.

4. The potential impact on stream life from chemical use for maintenance activities on the golf course.

MANAGEMENT FOCUS (refer to map)

- Organised sport and recreation, see 10.5
- Protection of the natural environment, see 10.3

Note: The management focus areas only apply to the land classified recreation reserve under the Reserves Act 1977.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTIONS

General – applies to all areas

1. Consider opportunities to improve connections through the park and deliver on the Hibiscus and Bays Greenways / Local Paths Plan 2016.
2. Actively protect and enhance natural values within the park particularly native vegetation, wildlife and associated ecosystems.
3. Support opportunities to protect the park from pathogen incursion, such as kauri dieback, including opportunities to improve, realign or relocate paths through the park particularly those near kauri.
4. Consider ways to manage vehicle traffic between Beach Road and Rae Road to ensure

safe access for park users, pedestrians and cyclists and prevent damage to park assets.

5. Consider opportunities that improve park access and security including initiatives to reduce antisocial behaviour and improve security of facilities in the park.
6. Future restoration of the Arboretum will consider the viability of opportunities to incorporate low-impact pedestrian, wheelchair, buggy and cycleway access.

Management Focus Area: Protection of the natural environment

1. Retain the open space character of existing grassed areas for informal recreation.
2. Support ongoing removal of pine trees in this focus area and where safe and practical to do so consider leaving standing trunks to degrade naturally to provide ecological habitat.
3. Consider opportunities to improve park users experience and ability to connect with nature including interpretation of the natural values and history of the park's ecological restoration.

Management Focus Area: Organised sport and recreation

1. Consider in any future grants of a new lease to the golf club whether their leased area should exclude large bush blocks not required for golfing purposes.
2. Support the protection and enhancement of the bush blocks sitting within the golf course.

Churchill Reserve

R 101A Churchill Road Murrays Bay

Churchill Reserve

VALUES

KNOWN CULTURAL VALUES

- Area of cultural significance – refer to mana whenua.

KEY RECREATIONAL VALUES

- Connection
- Informal recreation – general

SIGNIFICANT NATURAL VALUES

- WF4 Pohutukawa puriri broadleaved forest.

OTHER INFORMATION

- May be subject to coastal inundation during storm events.
- The Hibiscus and Bays Greenways / Local Paths Plan 2016 has identified a potential greenway connection through the park from Murrays Bay to Churchill Road. The Murrays to Churchill Path is one of seven high priority greenway connections for Hibiscus and Bays.
- Churchill Reserve is part of a 23-km long urban section of Te Araroa (New Zealand’s Trail) that extends from Long Bay in the north to Devonport in the south.

- The park adjoins Churchill to Rothesay Esplanade Reserve to the north and the Clifftop Walkway - Murrays to Churchill to the south.

KEY MANAGEMENT ISSUES

1. Exposed coastal cliffs are a feature of the clifftop reserves and are prone to instability and slips. Although the formed walkway is generally set back against the park's landward boundary, slips and erosion in narrow areas may threaten the ability to retain practical public access in the future.

MANAGEMENT FOCUS

- Recreation and ecological linkage, see 10.
Note: The management focus only applies to the land classified recreation reserve under the Reserves Act 1977.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTION

1. Consider opportunities to improve connections through the park and deliver on the Hibiscus and Bays Greenways / Local Paths Plan 2016.

- Boat launching
- Connection
- Informal recreation - general

SIGNIFICANT NATURAL VALUES

- SA1 Mangrove forest scrub.
- WF4 Coastal broadleaved forest.

OTHER INFORMATION

- May be subject to coastal inundation during storm events.

- Walkways in the reserve connect Deborah Place and Valerie Crescent to the end of Okura River Road.
- Okura Esplanade Reserve is directly adjacent to the east. Okura Reserve is also nearby.
- The end of Okura River Road leading to the boat ramp is maintained as part of the park but is legal road.
- While Auckland Council maintains this land, it is under the jurisdiction of Auckland Transport. The general policies and provisions of this plan will guide the local board's position and any future input into management or development of this area where it is sought.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTION

1. Actively protect and enhance natural values within the park particularly native vegetation including Mangrove forest scrub and Coastal broadleaved forest, wildlife and associated ecosystems.

Deep Creek Reserve

32 Deep Creek Road Waiake

No	appellation	ReserveClass
1	Lot 9 DP 31672	Recreation Reserve
2	Part Allot 189 DP 1383	Recreation Reserve
3	Lot 2 DP 82389	Recreation Reserve

- Informal recreation
- Organised sport and recreation

Deep Creek Reserve

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Connection
- Cycling
- Informal recreation - general
- Organised sport

SIGNIFICANT NATURAL VALUES

- Native vegetation.

OTHER INFORMATION

- Part of the land was gazetted as East Coast Bays Domain in the 1960s and renamed Deep Creek Reserve in 1982 by the Minister of Lands.
- Contaminated land – Closed Landfill. Regular inspections undertaken on a 3-yearly basis to ensure safe use by public and notification of

potential hazards. Potential constraints on ground intrusive projects and activities.

- Campbell Glade Reserve, Cranston Street Reserve, Gerontius Reserve and Hebron Reserve are all nearby.
- A walkway through the park connects Deep Creek Road and Mawson Avenue.

KEY MANAGEMENT ISSUES

1. The Mawson Street entrance to the park is poorly laid out making public access to the park unclear and giving the impression of private property.
2. Poor drainage and a lack of formed access through the middle of the park limits use as a connection between Mawson Street and Deep Creek Road particularly over the winter

months and during extended periods of wet weather.

MANAGEMENT FOCUS

- Informal recreation, see 10.2
- Organised sport and recreation, see 10.5

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTIONS

1. Consider improving the entry layout and public awareness of access to the park from Mawson Street.
2. Actively protect and enhance natural values within the park particularly native vegetation, wildlife and associated ecosystems.

Emlyn Place Reserve

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Informal recreation - general
- Walking trails

SIGNIFICANT NATURAL VALUES

- Medium to large kauri (eastern bush area).

OTHER INFORMATION

- Fitzwilliam Drive Reserve, Glenvar Close Reserve, Stredwick Reserve and Torbay Heights are nearby.

KEY MANAGEMENT ISSUE

1. Risk of pathogen incursion, such as kauri dieback, infecting kauri and other native vegetation due to the walking tracks through the park's bush areas. In particular the proximity of the loop track in the eastern bush area next to a number of medium to large kauri.

Fitzwilliam Drive Reserve

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUE

- Connection

SIGNIFICANT NATURAL VALUES

- VS2 Kanuka scrub forest.
- Kauri.

OTHER INFORMATION

- Access through the park links Fitzwilliam Drive, Dee Place, Glenvar Road and Emlyn Place.
- Emlyn Place Reserve, Glenvar Close Reserve, Kate Sheppard Reserve, Okura River Road Reserve, Stredwick Reserve and Torbay Heights are nearby.

MANAGEMENT FOCUS

- Protection of the natural environment, see 10.3

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTION

1. Actively protect and enhance natural values within the park particularly native vegetation including kanuka scrub forest, wildlife and associated ecosystems.
2. Support opportunities to protect the park from pathogen incursion, such as kauri dieback, including opportunities to improve, realign or relocate paths through the park particularly those near kauri.
3. Protect the natural character of the park and improve park users' experience and ability to connect with nature.

Freyberg Park

LEASES & LICENCES

Current and contemplated leases and licences within existing footprints for:

- Organised sport and facilities including for rugby league, lawn bowls, tennis and squash (Lot 15 DP 40933, Pt Lot 1 DP 48478, Pt Lot 4 DP 39141 and Pt Lots 19 and 25 Blk V DP 10801).
- Early childhood education services (Pt Lots 2 and 3 DP 39141 local purpose (community buildings) reserve).
- Provision of community activities and services including the NZ Red Cross (Lot 3 DP 39141, Pt Lot 4 DP 39141, Pt Lot 7 DP 39141 and Pt Lot 8 DP 39141).

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Community leisure and recreation
- Connection
- Informal recreation - general
- Organised sport
- Play space

SIGNIFICANT NATURAL VALUES

- Taiaotea Stream runs through the park.

HERITAGE VALUES

- For a chronological account of the park history refer to the previous Freyberg Park and Sherwood Reserve Management Plan 1994.

OTHER INFORMATION

- The park has a significant stormwater management role in the Taiaotea stormwater catchment area which is the responsibility of council's stormwater management team. A three- meter flood detention bund located between the playing fields provides flood protection to the Browns Bay commercial area.

- Council owns Part Lot 4 DP 40933, adjoining the park's southern boundary. This has a stormwater management function (public dam) and is out of scope of this plan.
- Freyberg Park adjoins Sherwood Reserve on its western boundary.
- Browns Bay Creek, Browns Bay Village Green and Taiaotea and Bayside Drive Reserves are nearby.
- The Browns Bay Bowling Club's greens are located on land owned by the club adjoining the park.
- Glencoe Road dissects the south eastern portion of the park.
- The St. Anne's Hall is located on the park.
- The Hibiscus and Bays Greenways / Local Paths Plan 2016 has identified a potential greenway connection through the park from Sherwood Reserve to Anzac Road. The Taiaotea Creek Path is one of seven high priority greenway connections for Hibiscus and Bays.
- Walkways through the reserve connect Beach Road, Woodlands Crescent, Glencoe Road.

KEY MANAGEMENT ISSUES

1. The low-lying location of the park and its stormwater control function make the park susceptible to flooding and contribute to poor drainage.
2. Stream bank erosion particularly between Glencoe Road and Wilk Lane during concurrent high tide and large rain events.

MANAGEMENT FOCUS

- Organised sport and recreation, see 10.5
- Informal recreation, see 10.2
Note: The management focus areas only apply to the land classified recreation reserve under the Reserves Act 1977.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTIONS

1. Provide for the East Coast Bays Rugby League Club to re-establish a facility on the park based on a needs and site assessment. This will consider opportunities to co-locate with existing facilities on the park. Additional car parking at the park should be considered where there is a proven demand and particularly if existing parking is lost to future facility development.
2. Actively protect and enhance natural values within the park particularly along the riparian edge of Taiaotea Stream to improve instream ecological health and enhance visual amenity.
3. The flood control function of the park is recognised and managed in a way that limits, as best as possible, the down time of the sports fields.
4. Consider opportunities to improve connections through the park and deliver on the Hibiscus and Bays Greenways / Local Paths Plan 2016.
5. Consider alternative recreation, exercise and fitness training opportunities for sports teams and the public.
6. Approval of any new building on the park is to be consistent with:
 - a. the findings of a needs assessment for the building and / or associated activity and;
 - b. policies 11.1.2 (Buildings) and 11.1.7 (Park Development).

-  Subject to Local Government Act
- MFA
-  Community use
-  Informal recreation

Oaktree Palliser Corner Reserve

LEASES & LICENSES

Current and contemplated lease or licence within the existing footprint for:

- Early childhood education services (Lot 162 and 163 DP 83808).

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Connection
- Informal recreation – general

OTHER INFORMATION

- Longmead Reserve, Malters/Helvetia Road Reserve, Oaktree Reserve and Squirrel Lane Reserve are nearby.

KEY MANAGEMENT ISSUES

1. Lack of road frontage and the vegetation along Oak Tree Avenue limits visibility and passive surveillance of Lot 161 DP 83812 the open non-leased area of the park.

MANAGEMENT FOCUS (refer to map)

- Informal recreation, see 10.2 (recreation reserve)

- Community use see 10.6 (land subject to the LGA).

Note: The management focus areas only apply to the land classified recreation reserve under the Reserves Act 1977 and the land subject to the Local Government Act 2002.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTION

1. Consider play opportunities, including a formal path network between streets surrounding the park, that help expand the limited neighborhood play offer in the Browns Bay area.
2. Manage vegetation (without affecting the health of the trees) in a way that maintains park visibility from Oak Tree Avenue throughout the year.
3. Consider proposals to develop a community orchard / garden in the park.

Okura Esplanade Reserve

VALUES

KNOWN CULTURAL VALUES

- Recorded archaeological sites of Māori origin - refer to mana whenua.

SIGNIFICANT NATURAL VALUES

- SA1 Mangrove forest scrub.
- VS2 Kanuka scrub forest.
- WF4 Coastal broadleaved forest.

OTHER INFORMATION

- May be subject to coastal inundation during storm events. These are two disconnected esplanade reserves.
- To the east of Lot 3 DP 198628 is a Crown owned marginal strip.

- Awano Reserve Redvale, Deborah Reserve and Okura River Esplanade are nearby.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTION

- Where opportunities arise, work with the Department of Conservation (who are responsible for management of the adjoining Crown owned marginal strip) to protect the parks natural values and enhance mutual ecological benefits for example from activities such as weed and animal pest control and riparian planting

- Jutland Street Reserve and Mairangi Bay Park are nearby.

MANAGEMENT FOCUS

- Recreation and ecological linkage, see 10.4

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTIONS

- Actively protect and enhance natural values within the park particularly native vegetation, wildlife and associated ecosystems.
- Support opportunities to protect the park from pathogen incursion, such as kauri dieback, including opportunities to improve, realign or relocate paths through the park particularly those near kauri.
- Consider developing a neighbourhood scale play space within the park to help address the gap in neighbourhood play provision in the surrounding area.

4. Consider opportunities to improve connections through the park and deliver on the Hibiscus and Bays Greenways / Local Paths Plan 2016.

3	Lot 22 DP 27883	Recreation Reserve

- Other parks
- MFA
- Coastal

Rothesay Bay Beach Reserve

VALUES

KNOWN CULTURAL VALUES

- Area of cultural significance - refer to mana whenua.

KEY RECREATIONAL VALUES

- Beach access
- Connection
- Informal recreation - general
- Play space
- Water based activities

SIGNIFICANT NATURAL VALUES

- Rothesay Bay Stream riparian areas are within the reserve (recorded Inanga spawning zone)

OTHER INFORMATION

- Coastal hazards have eroded the large parts of the park located on the eastern side of Rothesay Road. As a result, the majority of Lot 1 DP 16848 and a significant portion of Lot 2 DP 16848 may now be located in the common marine and coastal area (CMCA).
- The park adjoins unformed legal road at the end of Rothesay Bay Road. While Auckland Council maintains this land, it is under the jurisdiction of Auckland Transport. The

general policies and provisions of this plan will guide the local board's position and any future input into management or development of this area where it is sought.

- Access through the reserve links Masterton Road and Rothesay Bay Road.
- Nearby parks include Browns Bay Beach Reserve, Browns Bay Creek, Churchill Reserve, Churchill to Rothesay Bay Esplanade Reserve and Clifftop W/Way - Masterton To Beechwood.

KEY MANAGEMENT ISSUES

1. Deteriorating aging foreshore structures and assets designed to protect park from coastal hazards require increased maintenance to function effectively.
2. Stream bank erosion is increasing as intensification of the surrounding residential

area grows and more stormwater is discharged into the catchment.

3. The public toilet's wastewater system suffers from salt water and sand infiltration damage due its low- lying coastal location. The facility is also prone to vandalism due to limited passive surveillance.

MANAGEMENT FOCUS

- Coastal, see 10.1
Note: The management focus only applies to the land classified recreation reserve under the Reserves Act 1977.

MANAGEMENT PRINCIPLES

- Refer to Section 8

SIGNIFICANT NATURAL VALUES

- Taiaotea Stream runs through the park.

OTHER INFORMATION

- The Hibiscus and Bays Greenways / Local Paths Plan 2016 has identified a potential greenway connection through the park linking Mistletoe Place, Glencoe Road and Freyberg Park. The Taiaotea Creek Path is one of seven high priority greenway 2 connections for Hibiscus and Bays.
- The park has wetland and stormwater ponds that play a significant role in stormwater management for the Taiaotea catchment area and are the responsibility of council's stormwater management team

- The park is made of three disconnected areas separated by Glencoe Road and Walnut Lane.
- Pedestrian connections through the park link the adjoining Freyberg Park, Glencoe Road, Walnut Lane and Oaktree Avenue.
- Nearby parks include Oaktree Reserve, Squirrel Lane Reserve, Taiāotea and Bayside Drive Reserves and Woodridge Reserve.

MANAGEMENT FOCUS

- Informal recreation, see 10.2
Note: The management focus only applies to the land classified recreation reserve under the Reserves Act 1977.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTION

1. Consider opportunities to improve connections through the park and deliver on the Hibiscus and Bays Greenways / Local Paths Plan 2016.
2. Support opportunities to improve the Taiāotea Stream.

15	Lot 3 DP 190368	Local Purpose (Esplanade) Reserve

Waiake Beach Reserve

VALUES

KNOWN CULTURAL VALUES

- Area of cultural significance including recorded archaeological sites of Māori origin - refer to mana whenua.

KEY RECREATIONAL VALUES

- Beach access
- Boat launching
- Community events
- Informal recreation - general
- Organised sport
- Play space

- Water based activities

SIGNIFICANT NATURAL VALUES

- WF4 Pohutukawa puriri broadleaved forest.
- Deep Creek runs along northern boundary.

OTHER INFORMATION

- Waiake Beach Reserve is made up of a number of disconnected esplanade reserves along Torbay including Tor Island at the northern end of the bay.
- Aicken Reserve sits to the west of the park across Beach Road.

- Other nearby parks are Browns Bay Beach Reserve, Campbell Glade Reserve, Sealy Reserve and Winstones Cove.
- Coastal hazards have eroded portions of these parcels. As a result, all of what was Lot 4 DP 24818 may now be located in the common marine and coastal area (CMCA).
- Te Araroa (New Zealand’s Trail) route passes through the park.

KEY MANAGEMENT ISSUES

1. Balancing high demand for use of the beachfront area adjacent to Beach Road for casual recreation and beach access, as well as regular sailing activities and large regattas based at the Torbay Sailing Club on Aicken Reserve.
2. Vehicle parking on grassed areas along the beach front displaces other casual use of the park.
3. The threat of coastal hazards damaging and/or causing loss of parkland and vegetation (including large mature pohutukawa) and contributing to the requirement of ongoing maintenance of coastal protection structures.

MANAGEMENT FOCUS

- Coastal, see 10.1
 Note: The management focus only applies to the land classified recreation reserve under the Reserves Act 1977.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTIONS

1. To maintain practical public access to the beach and beach front area for casual park use during periods of high use and events that utilise the park.
2. Consider opportunities for individual, family and group fitness and expanding play opportunities to a community play space scale that caters for older children and helps address gaps in play provision along the eastern edge of Torbay.
3. Consider renaming the sections of this park to recognise their functions - noting the Tor and Waiake Esplanade Reserves are disconnected from the main part of the park known as Waiake Beach Reserve.

 Recreation and ecological linkage

Woodridge Reserve

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Connection
- Informal recreation – general
- Play space

SIGNIFICANT NATURAL VALUES

- Native vegetation including kauri.

OTHER INFORMATION

- The park includes four disconnected land parcels with access through the different land

parcels linking Woodridge Avenue, Stapleford Crescent, Deverell Place, Sherwood Grove, Greenleaf Way and East Coast Road.

- Northcross Reserve, Sherwood Reserve and Woodridge Reserve are nearby.

MANAGEMENT FOCUS

- Recreation and ecological linkage, see 10.4
Note: The management focus only applies to the land classified recreation reserve under the Reserves Act 1977.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTIONS

1. Actively protect and enhance natural values within the park particularly native vegetation, wildlife and associated ecosystems.
2. Support opportunities to protect the park from pathogen incursion, such as kauri dieback, including opportunities to improve, realign or relocate paths through the park particularly those near kauri.
3. Protect the natural character of the park and improve park users experience and ability to connect with nature.
