

## Small-scale land disturbance and intrusive investigation notification form

Some activities, such as small-scale disturbance and intrusive investigations require prior notification to Auckland Council to meet the Permitted Activity (PA) standard. Relevant details can be provided on this form.

The relevant PA standards for discharges arising from activities on contaminated land (or potentially contaminated land) can be found in the Auckland Unitary Plan: Operative in Part (AUP(OP)), [Chapter E30.6.1](#).

*Please note: Common circumstances where small-scale land disturbance of a contaminated land site does not meet PA standards include:*

- *A volume of soil disturbance which exceeds 200m<sup>3</sup> per site*
- *Disturbance of land containing separate phase liquid contaminants, including separate phase hydrocarbons*
- *A duration of soil disturbance which exceeds two months*

*Contaminated material removed from the site must be disposed of at a facility or site authorised to accept such material.*

### Details:

- Site Address: .....
- Legal Description: .....
- Site Owner/Lessee: .....
- Previous and current land uses: .....  
.....
- Consultant/Contractor undertaking work: .....
- What activity is being undertaken on site? *(Please circle)*
  - 1) Intrusive investigation
  - 2) Tank removal/replacement
  - 3) Trenching
  - 4) Other: .....
- Volume of soil to be disturbed: .....
- Date of commencement of the proposed activity: .....
- Duration of work: .....

In accordance with Standard E30.6.1.2(2)(a) of the AUP(OP), **if the volume of soil disturbed on land containing elevated levels of contaminants exceeds 25m<sup>3</sup>**, the Council must be advised of the “*details of the measures or controls to be implemented to minimise discharges of contaminants to the environment and such controls are to be effective for the duration of the activity and until the soil is reinstated to an erosion-resistant state*”:

If applicable, please provide the relevant details below:

.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....

Alternatively, please attach a Site Management Plan/Remedial Action Plan, or provide a hyperlink to one of the above plans.

Prior to commencing work on site please send this notification form to the Contamination, Air & Noise Team at Auckland Council via email to: [ContaminatedSites@aucklandcouncil.govt.nz](mailto:ContaminatedSites@aucklandcouncil.govt.nz);

Failure to notify the Auckland Council may result in a resource consent being required or enforcement action being taken.

*The information gained from this notification form will assist the Auckland Council in the delivery of its function in the context of Section 30(1)(ca) of the RMA, which is “the investigation of land for the purposes of identifying and monitoring contaminated land”. This information will be entered onto the Auckland Council site register.*
