

Community Facilities Network Plan Action Plan

Revised 2022

Community Facilities Network Plan Action Plan Overview

Overview

The Community Facilities Network Plan (CFNP) and companion action plan were approved in 2015 by the Governing Body. The CFNP is a strategic document developed to guide Auckland Council's investment and prioritisation of community facility provision for the next 10 to 20 years. The CFNP action plan is a companion to the network plan and outlines the actions and projects that will be undertaken to achieve our vision for community facilities.

The action plan was reviewed in 2022

Every three years the action plan is reviewed and updated to recognise progress of existing actions and assess potential new actions against the Community Facilities Network Plan criteria. In September 2022, the Governing Body approved the revised action plan for the CFNP. The revised action plan is the second review since adoption of the CFNP. It includes 16 increased priority actions resulting from the review process, and 11 new area-based actions arising from the review process, completion of actions and the LTP 2018-2028 direction setting.

The action plan is comprised of two parts:

1. Part A: Actions for delivery 2022 – 2024

a) Strategic improvements

- new actions
- actions not in progress carried over from the 2019 action plan

b) Business improvements

- new actions
- actions not in progress carried over from the 2019 action plan

c) Area-based actions currently underway

- new network priority actions resulting from previous actions and the OLI programme

d) Area-based actions not yet started

- new network priority and non-priority actions
- actions resulting from previous actions and the OLI programme
- actions carried over from the 2019 action plan

2. Part B: Actions underway or complete

a) Strategic improvements

b) Business improvements

c) Network priority and non-priority area-based actions

Strategic improvements include planning and operational changes that will improve the way we work to achieve the new approach outlined in the network plan (CFNP section 3.3).

Area-based actions which are identified as network priorities have been assessed using the criteria in section 5.2 of the CFNP.

Business improvements include actions to improve our understanding of community facilities, to develop tools to complement the implementation of the CFNP or to improve the operation of community facilities.

Projects underway or complete detailed in Part B include strategic and business improvements as well as area-based actions (involving needs assessments along with major upgrades of existing facilities and development of new facilities).

The revised action plan will be used to guide work programmes across Customer and Community Services and Community and Social Policy with implementation from July 2022 depending on staff resource capacity.

Attachment A – CFNP Action Plan 2022

Part A

Actions arising from:

- completion of actions in 2019 action plan
- Long-term Plan (LTP) 2021-2031
- 2022 action plan review
- reassessment of actions (not currently started, carried over from 2019 action plan).

Refer to Part B for 2019 actions underway at the time of the review.

Strategic improvements (incorporating new actions and actions not in progress carried over from 2019 action plan)

	Action	Issue	Benefits	Comments
8	Investigate the development of community facility design models which can reduce the capital and operational costs of community facilities whilst maintaining quality.	The capital cost of community facilities is increasing. Opportunities for reducing the capital cost need to be identified without compromising the quality and design of facilities.	<ul style="list-style-type: none"> • Reduce capital and operating costs. • Reduced design costs associated with new facilities. • Streamlined planning and design for new facilities. 	Not programmed.
11	Investigate and plan for the provision of leased facilities across Auckland.	Council has limited information about its leased facilities.	<ul style="list-style-type: none"> • Greater understanding of the lease portfolio. • Greater opportunities to make network improvements. 	Programmed.
88	Regional arts and culture services needs assessment including: <ul style="list-style-type: none"> • current network provision and future requirements (in response to changing trends and demographics) • rehearsal, storage, studio and administration space • identification of audience and sector needs. 	Council's investment in arts and culture services is largely based on historic arrangements which may not be efficient and effective and providing for a range of practices and customers. There is an opportunity to improve information about specific audience and sector needs for advice to decision-makers.	<ul style="list-style-type: none"> • Better understanding of different operating models for arts and culture services. • Better understanding of the regional arts and culture network to inform future planning and quality advice. • Provide evidence to determine whether there are gaps in the network. • Services deliver on the needs of communities. 	Programmed. To be delivered in conjunction with the review of Toi Whītiki (Arts and Culture Strategic Action Plan).
160	Develop an approach to assess different service delivery models and expand delivery models that support increased impact, efficiency and effectiveness of service delivery.	There is a need to provide quality advice regarding the relative benefits/disbenefits of different delivery approaches across the full range of services.	<ul style="list-style-type: none"> • Identification of potential alternative or optimal service delivery options not currently available. • Identification of potential service models to grow and/or barriers to overcome. • More efficient and cost-effective investigations and responses. 	Not programmed. Will follow on from new business improvement actions 163, 164 and 165.
161	Develop guidelines for providing consistent quality advice regarding the provision of integrated community facilities.	For efficiency and impact, there is a need to move toward integration of services. The Community Facilities Network Plan includes provision guidelines for individual services, but there are no consistent principles for the provision of advice to decision makers and stakeholders.	<ul style="list-style-type: none"> • Evidence supports advice for decision makers. • Clarity and consistency for internal and external communication about integrated service provision. • More efficient and cost-effective investigations and responses. 	Not programmed.

	Action	Issue	Benefits	Comments
162	Investigate how to approach local and regional planning for community services taking into account allocated decision making.	Planning for community services needs to reflect an integrated view on policy directions to inform a portfolio/programme view of services and enable trade-off/prioritisation decisions at a regional level and across local boards.	<ul style="list-style-type: none"> Evidence informs advice for decision-makers. Enables trade-off/prioritisation decisions across local boards. Priorities for investment across different services are understood. Understanding of what regional and local policy directions mean for service and asset planning. 	Word <i>delegated</i> changed to <i>allocated</i> following feedback from local boards in 2022. Not programmed.
170	Carry out a fit-for-purpose assessment of the Community Facilities Network Plan.	The assessment will consider whether the policy remains fit-for-purpose in the light of changes to Auckland Council's strategic and operating environment and how the policy could evolve to reflect these changes.	<ul style="list-style-type: none"> Streamlined planning and design for new facilities. Understanding of what regional and local policy directions mean for service and asset planning. Clarity and consistency for internal and external communication about integrated service provision. 	Action added following feedback from local boards in 2022. Programmed.

Business improvements (incorporating new actions and actions not in progress carried over from 2019 action plan)

	Action	Issue	Benefits	Comments
119	Investigate options to create a calendar of information on programming offered across the network, accessible to the public, customised for different groups.	Programming information is not provided as a central point of information for customers, potentially minimising visibility in the community.	<ul style="list-style-type: none"> Could increase utilisation by allowing users to search for facilities based on their programme of interest. Improves knowledge on facility programming and enables better advice to local boards. 	Not programmed.
163	Develop a consistent approach for capturing and applying customer and community insights.	Improvements are required for the way council captures, and applies customer insight and community need data to help inform service delivery.	<ul style="list-style-type: none"> Evidence supports advice for decision makers. Clarity and consistency for internal and external communication about integrated service provision. Impacts on outcomes of different services and delivery models can be measured and compared. Inform future planning, operation and integration of community services. Services deliver on the needs of customers and communities. 	Underway.
164	Develop a greater understanding of the community services currently provided by council and third parties.	Council has limited information about the range of community service provision currently available, the full costs and effectiveness of different types of provision.	<ul style="list-style-type: none"> Current community services provision (across all private and public providers) is comprehensively mapped and gaps are understood. Effectiveness of different provision models is determined and change is projected over time. Evidence informs advice for decision-makers. More efficient and cost-effective investigations and responses. Clarity around service outcomes and asset standards to support fit for service provision. More affordable and efficient community service delivery. 	Underway.

	Action	Issue	Benefits	Comments
165	Roll out a consistent methodology to measure the benefits community services deliver to communities.	There is no consistent approach for quantification of benefits across the range of community services.	<ul style="list-style-type: none"> • Service benefits are evaluated and monitoring results inform quality advice. • Evidence informs investment options, enables trade-off/prioritisation decisions. • Effectiveness and efficiency of different provision models can be determined and reliably compared. • Improved financial and social outcomes. 	Underway.

Area-based actions (currently underway) – new network priority actions reflecting work resulting from previous actions and the OLI programme

	Local board	Facility type	Facility or area	Network priority	Action	Driver	Status	Comments
137	Waitematā / Regional	Library	Central Library	Yes	Develop an indicative business case for potential expansion or redevelopment of the Central Library to meet future needs	Fit for purpose Growth Performance	Underway	Result of action 108.
136	Waitematā	Community Library	Leys Library and Gymnasium	Yes	Deliver seismic remediation and heritage restoration of Leys Institute	Fit for purpose	Underway	Result of action 107.
148	Upper Harbour	Library	Albany library services	Yes	Develop a detailed business case for improved library services in Albany	Fit for purpose Growth	Underway	Result of action 99.
149	Kaipātiki	Arts and culture Community Library	Northcote community hub	Yes	Build community hub facility in Northcote town centre	Fit for purpose Growth Opportunity	Underway	Result of action 60.
152	Devonport-Takapuna	Community Library	Takapuna community services	Yes	Develop an indicative business case for improved community service delivery in Takapuna	Fit for purpose Opportunity Performance	Underway	Result of action 30.
143	Maungakiekie-Tāmaki	Community Library	Panmure community hub	Yes	Development of an indicative business case for library and community services in Panmure	Gap Growth Opportunity	Underway	Result of action 71 (looked at in conjunction with action 69).
153	Māngere-Ōtāhuhu	Community Leisure	Māngere community facility provision – Walter Massey Park	Yes	Investigate community service provision (including sports facilities and a multi-purpose hub) in the Māngere-East area, with a focus on Walter Massey Park	Fit for purpose Gap Growth	Underway	Action resulting from 63. (Walter Massey Park and Māngere Centre Park were originally combined in one action but the investigations are now separate projects).

Area-based actions (not yet started) – network priority and non-priority actions incorporating new actions, actions resulting from previous actions and the OLI programme, and actions carried over from the 2019 action plan

	Local board	Facility type	Facility or area	Network priority	Action	Driver	Status	Comments
154	Multiple: Whau Albert-Eden Puketāpapa Maungakiekie-Tāmaki Ōrākei Kaipātiki Māngere-Ōtāhuhu Ōtara-Papatoetoe	Community	Auckland Housing Programme (Mt Roskill, Oranga, Māngere, Northcote and Tāmaki) community services	Yes	Develop an understanding of long-term (30 years) community service provision requirements for the Auckland Housing Programme Investment Priority Areas of Mt Roskill, Oranga, Māngere, Northcote and Tāmaki (LTP 2021-2031)	Catalyst Fit for purpose Growth	Programmed	Will inform actions 26, 27, 29, 59, 85 & 86.
155	Multiple: Henderson-Massey Upper Harbour Rodney	Community	North-west (Red Hills, Whenuapai and Westgate) community services (Investment Priority Area)	Yes	Develop an understanding of long-term (30 years) community service provision requirements for the north west Investment Priority Areas (LTP 2021-2031)	Catalyst Fit for purpose Growth	Programmed	Will inform actions 42 & 131.
156	Multiple: Franklin Papakura	Community	Drury community services (Investment Priority Area)	Yes	Develop an understanding of long-term (30 years) community service provision requirements for the Drury Investment Priority Area (LTP 2021-2031)	Catalyst Fit for purpose Growth	Programmed	Will inform actions 35, 144, 146 & 147.
157	Multiple: Albert-Eden Waitematā	Community	City Rail Link (Mount Eden and Karangahape) community services (Investment Priority Area)	Yes	Develop an understanding of long-term (30 years) community service provision requirements for the Mount Eden and Karangahape CRL Investment Priority Areas (LTP 2021-2031)	Catalyst Fit for purpose Growth	Programmed	Will inform action 106.
26	Albert-Eden	Library	Mt Albert	No	Investigate opportunities to develop a new library in Mt Albert and realise value from the existing site, taking account of other Mt Albert community facility provision.	Catalyst	Not programmed	Network priority identified by 2019 review Requires a catalyst of third party development to begin the investigation. Will be informed by completion of action 154.
27	Albert-Eden	Community	Sandringham Community Centre	No	Investigate options to improve Sandringham Community Centre to address fit for purpose issues and future population growth.	Fit for purpose	Not programmed	Will be informed by completion of action 154.
29	Albert-Eden	Arts and culture	Albert-Eden arts and culture services	No	Conduct an art and culture needs assessment in the Albert-Eden area.	Gap	Not programmed	Will be informed by completion of actions 88 and 154. The community arts broker service is focusing on use of existing spaces rather than an asset solution.

	Local board	Facility type	Facility or area	Network priority	Action	Driver	Status	Comments
150	Albert-Eden	Community Library	Point Chevalier community services	No	Monitor third-party development and growth within Point Chevalier to identify opportunities for improved community service provision.	Fit for purpose	Not programmed	Result of previous action 28. This action will be triggered by development activity and growth in the area.
168	Albert-Eden	Pool	Mt Albert aquatic services	No	Investigate community needs for aquatic services in the Albert-Eden Local Board area for delivery in 2029/30 or earlier if the planned aquatic centre in the Whau Local Board area is delayed	Fit-for-purpose Growth	Not programmed	Interdependency with action 135.
169	Albert-Eden	Community	Epsom Community Centre	No	Investigate options for Epsom Community Centre to make the facility fit for purpose.	Fit for purpose	Not programmed	Action added following feedback from local boards in 2022.
31	Devonport-Takapuna Kaipātiki	Arts and culture	Lake House Arts Centre The Depot The Pumphouse The Rose Centre Victoria Picture Palace and Theatre Northart	No	Research in partnership with delivery providers the provision of arts and culture facilities in Devonport, Takapuna, Kaipātiki and the Northern Metro area to identify needs, opportunities and gaps.	Fit for purpose Opportunity	Not programmed	Will be informed by completion of action 88.
32	Devonport-Takapuna	Community Library	Sunnynook and Milford	No	Investigate community needs in Sunnynook and Milford for community facilities and potential improvements to existing assets to address need.	Evidence of need Fit for purpose Gap	Not programmed	
42	Henderson-Massey	Community	Massey North	Yes	Investigate the need for youth space in the Massey North area.	Gap	Not programmed	Network priority identified by 2019 review. Will be informed by completion of action 155.
151	Henderson-Massey (note: Would service multiple boards)	Leisure Pool	Massey-Whenuapai aquatic and indoor court services	Yes	Develop a detailed business case for a destination aquatic centre with two full-sized indoor courts in Massey-Whenuapai	Gap Growth	Not programmed	Result of actions 48 & 129. Part of the OLI programme. Subject to funding availability.
147	Franklin	Arts and culture Community Leisure Library	Paerata community services and indoor courts	No	Investigate the need for community service provision in Paerata to support population growth and emerging community needs, including the need for additional indoor courts.	Gap Growth	Programmed	Result of previous action 33. To be delivered in conjunction with action 144.
144	Franklin	Pool	Franklin and Jubilee pools	Yes	Investigate options for Franklin and Jubilee pools to make services fit for purpose and respond to the needs of the growing population.	Fit for purpose	Programmed	Result of action 34. To be delivered in conjunction with action 147. Will be informed by completion of action 13.

	Local board	Facility type	Facility or area	Network priority	Action	Driver	Status	Comments
146	Franklin	Arts and culture Community Library	Pukekohe community services	Yes	Identify requirements for future community service provision in Pukekohe, including opportunities to optimise existing community facilities for increased utilisation or operational efficiency. Includes consideration of Franklin - The Centre, Pukekohe Town Hall and Pukekohe Old Borough Building.	Fit for purpose Growth	Not programmed	Result of action 36. To be considered in conjunction with action 156.
145	Franklin	Leisure	Karaka Sports Park leisure facilities	No	Implement priorities of the Karaka Sports Park Masterplan.	Growth	Not programmed	Part of the OLI programme. Subject to funding availability.
35	Franklin	Arts and culture	Franklin	No	Investigate arts and culture needs in the Franklin Local Board area.	Gap	Not programmed	Will be assessed following delivery of actions 88 and 156. The community arts broker service is focusing on use of existing spaces rather than an asset solution.
37	Franklin	Library	Beachlands / Drury	No	Investigate the need for provision of library facilities and/or explore alternate service delivery models in this area.	Gap	Not programmed	
124	Howick	Community Library	Te Tuhi Centre and Pakuranga Library	No	Identify the proposed changes in Pakuranga, assess impacts and opportunities for community facilities and determine the appropriate response.	Catalyst	Not programmed	Network priority identified by 2019 review. Lesser priority until triggered by new plans to develop the area.
59	Kaipātiki	Community	Lindisfarne Hall	No	Investigate repurposing as a community lease for general community use.	Performance	Not programmed	To be informed by completion of action 154 .
139	Kaipātiki	Leisure Pool	Glenfield Pool and Leisure Centre	No	Develop an indicative business case to ensure future-proofed aquatic and leisure services in Glenfield.	Fit for purpose	Not programmed	Result of action 58. Subject to funding availability.
142	Kaipātiki	Leisure Pool	Birkenhead War Memorial Park leisure and aquatic facilities	No	Implement the priorities of the Birkenhead War Memorial Park Masterplan including improvement to sport, leisure and aquatic services.	Fit for purpose	Not programmed	Part of the OLI programme. Subject to funding availability.
65	Māngere-Ōtāhuhu	Leisure Pools	Moana-Nui-a-Kiwa Pool & Leisure Centre	No	Investigate the relocation of the outdoor pool plant-room and upgrade of the filtration systems to ensure the outdoor pools are fit for purpose.	Fit for purpose	Not programmed	Network priority identified by 2019 review. Will be informed by completion of action 13.
68	Manurewa	Pools	Tōtara Park Pool	No	Investigate the future provision of Tōtara Park Pool, recognising existing condition issues and operational performance.	Fit for purpose Performance	Not programmed	Will be informed by completion of action 13.
158	Manurewa	Community Leisure	Manurewa War Memorial Park multipurpose facility	No	Develop a multiuse community space and upgrade sports facilities in Manurewa War Memorial Park.	Fit for purpose	Not programmed	Part of the OLI programme. Subject to funding availability.
76	Ōrākei	Leisure	ASB Stadium	No	Investigate in conjunction with the East City Community Trust and School Board of Trustee the future role of ASB Stadium to serve the local and destination sport and recreation functions.	Evidence of need Fit for purpose	Not programmed	
159	Ōtara-Papatoetoe	Community	Manukau town centre community services	Yes	Identify and assess impacts of development and proposed changes in Manukau town centre for community service provision needs, whether existing community facilities are still fit for purpose and how best investment will meet future service requirements.	Catalyst Fit for purpose Growth	Programmed	

	Local board	Facility type	Facility or area	Network priority	Action	Driver	Status	Comments
85	Puketāpapa	Pool	Cameron Pool	Yes	Investigate the need to develop Cameron Pool to address fit for purpose issues and population growth.	Fit for purpose Growth	Not programmed	Network priority identified by 2019 review. Will be informed by completion of action 154 and 13.
86	Puketāpapa	Community Library	Mt Roskill Library Fickling Centre	Yes	Investigate the need to expand and the potential for more connected for integrated facility.	Fit for purpose Opportunity	Not programmed	Network priority identified by 2019 review. Will be informed by completion of action 154.
87	Regional	Leisure	Regional indoor courts assessment	Yes	Investigate the demand for indoor court facilities throughout Auckland and the need for a regional facility based on findings of the national indoor court strategy which showed an under supply in Auckland. Consult with relevant regional sport organisations, recognise regional sport code plans and current proposals for indoor court developments. Determine appropriate responses to meet the need and demand including partnerships and opportunities to optimise or improve existing facilities.	Evidence of need Gap Growth	Not programmed	
91	Rodney	Community	The Arts Centre Helensville Venues for hire Kowhai Art and Craft	No	Undertake a community needs assessment to assess whether the existing facilities in Rodney are aligned to community needs.	Fit for purpose Gap	Not programmed	To be delivered in conjunction with 126.
126	Rodney	Library	Helensville Library	Yes	Investigate the provision of community services and facilities in Helensville and the surrounding area to support community needs and population growth, taking into consideration the condition of Helensville Library.	Fit for purpose Performance	Not programmed	To be delivered in conjunction with action 91.
92	Rodney	Community	Warkworth	No	Investigate the need for a multi-purpose space in Warkworth.	Fit for purpose Gap	Programmed	To be delivered in conjunction with action 94.
94	Rodney	Library	Warkworth	Yes	Investigate the provision of library services in Warkworth to support community needs. Assess options to address population growth at the current location or develop alternate service responses	Fit for purpose Performance	Programmed	Network priority identified by 2019 review. To be delivered in conjunction with action 92.
131	Rodney	Community	Whenuapai	Yes	Develop an indicative business case for investment in community service provision once local population reaches more than 10,000.	Gap Growth	Not programmed	Network priority identified by 2022 review . Result of action 48. Will be informed by completion of action 155. This work will be triggered by population growth.
132	Rodney	Community	Kumeū sub-catchment	Yes	Develop an indicative business case for investment in community service provision once local population reaches more than 10,000.	Gap Growth	Programmed	Network priority identified by 2022 review . Action resulting from 48. This work will be triggered by population growth.
141	Upper Harbour	Leisure	Upper Harbour indoor courts	No	Develop a detailed business case for an indoor court facility in Upper Harbour	Gap Growth	Not programmed	Result of action 133. Subject to funding availability.
166	Waiheke	Pool	Waiheke community swimming pool	No	Community-led fundraising and plans for the development of a community pool by Waiheke Pool Society	Opportunity	Not programmed	To be developed through the Facility Partnerships Policy. Will be triggered by completion of an IBC by the Waiheke Pool Society.

	Local board	Facility type	Facility or area	Network priority	Action	Driver	Status	Comments
101	Waiheke	Leisure	Waiheke Recreation Centre	No	Investigate in conjunction with the Waiheke Recreation Centre Trust and School Board of Trustees how to respond to condition and governance issues at the recreation centre.	Fit for purpose Performance	Not programmed	
106	Waitematā	Leisure	Central city area	No	Investigate the need for leisure space in the central city area and explore partnership opportunities with existing leisure facility providers to address any identified community needs.	Gap Growth Opportunity	Not programmed	Will be informed by completion of action 157.
111	Waitematā	Pool	Grey Lynn Paddling Pool	No	Investigate the future provision of Grey Lynn paddling pool recognising existing condition issues and the master plan for Grey Lynn Park.	Fit for purpose	Not programmed	Will be informed by completion of action 13.
138	Waitematā	Community Library	Grey Lynn Library and community services	No	Develop an indicative business case for a new multi-purpose library and community centre in Grey Lynn funded through optimisation	Fit for purpose	Programmed	Result of action 107.
109	Waitematā	Pool	Pt Erin Pool	Yes	Investigate opportunities to develop Pt Erin Pool as a destination outdoor pool, to improve operational viability and address deteriorating condition.	Fit for purpose	Not programmed	Network priority identified by 2019 review. Will be informed by completion of action 13.

Part B: Actions underway or complete

Strategic improvements

	Action	Issue	Benefits	Status	Comments
1	<p>Trial initiatives to integrate operations within a co-located or connected site. Trial at the following sites:</p> <ul style="list-style-type: none"> • Rocket Park facilities in Mt Albert • Te Atatū Peninsula Library and community centre • Mt Roskill Library and Fickling community centre • Onehunga library and community centre • East Coast Bays library and recreation centre • North Shore Community & Social Services and Takapuna Library • Ōtāhuhu Recreation Precinct • Te Matariki Clendon Library and recreation centre • Papatoetoe Pool in conjunction with Papatoetoe Sports Centre 	<p>There are several community facilities within the network that are co-located but operate separately.</p>	<ul style="list-style-type: none"> • Greater operational cohesiveness between co-located and connected facilities. • Better customer experience. 	Complete	
2	<p>Establish integrated planning across all types of community facilities through the development of internal processes, coordination of investigations and an internal steering group which coordinates and oversees all aspects of implementation.</p>	<p>Opportunities for better alignment of our planning and integration across all types of facilities.</p>	<ul style="list-style-type: none"> • Achieve holistic and integrated planning. • More efficient and cost-effective investigations and responses. 	Complete	<p>The CFNP steering group was disestablished and the Community Provision Forum, a peer network group was formed to have oversight of CFNP action delivery.</p>
3	<p>Develop a consistent process for investigating the potential optimisation and divestment of facilities that are no longer meeting community needs, involving the local boards and wider community.</p>	<p>There are several community facilities that are no longer fit for purpose, have performance issues and do not appear to meet community needs.</p>	<ul style="list-style-type: none"> • More affordable and efficient delivery. • Potential for proceeds from divestment to contribute to optimisation elsewhere in the network. 	Underway	
4	<p>Develop best practice approaches for sustainable partnerships with community and private organisations in the provision of community facilities.</p>	<p>There is no consistent approach to identifying and supporting partnerships to deliver community facilities. Currently there is a range of legacy facility partnership policies.</p>	<ul style="list-style-type: none"> • Clear strategic framework for future partnerships in the development and operation of community facilities. • Improved financial and social outcomes. 	Complete	<p>Facility Partnerships Policy adopted December 2018.</p>
5	<p>Undertake research on non-users of community facilities to understand the reasons why they don't use community facilities and to determine appropriate responses.</p>	<p>There are sectors of the population who are under-represented as users of community facilities. Research of non-users is required to understand why they don't use facilities.</p>	<ul style="list-style-type: none"> • Understanding the community facility needs of Auckland's population. • Inform future planning and operation of community facilities. 	Complete	
6	<p>Investigate the development of a demand and supply tool for community facilities which can further inform the provision framework for community facilities.</p>	<p>There is limited information on the demand for community facilities. Sport New Zealand is investigating a demand and supply tool for sport and recreation facilities. Libraries are investigating a tool for assessing demand for library facilities.</p>	<ul style="list-style-type: none"> • More robust provision framework for community facilities. • Show consequences of different facility options on demand. 	Underway	

	Action	Issue	Benefits	Status	Comments
7	In conjunction with Sport New Zealand and the Ministry of Education, undertake an assessment of Auckland's schools to determine how to support schools to make their facilities accessible for community use.	There are many community facilities in schools which are or could be used for community purposes. More information is needed to understand how to support schools to make their facilities available for community use.	<ul style="list-style-type: none"> Better understanding of the issues impacting on community accessibility to school facilities. Opportunities to increase community access to school facilities. 	Complete	
9	Develop a toolkit to assist decision-makers on the appropriate governance and management of community facilities. This can be used by local boards for both new and existing community spaces and arts and culture spaces.	There is an opportunity to improve the information and advice available to decision makers regarding the governance and management of facilities.	<ul style="list-style-type: none"> Clearer information and strategic guidance for governance and management decisions. Some facilities have the potential to be governed by community organisations. In some cases, community governance can increase community ownership and have a significant empowering effect for local communities. 	Complete	
10	Develop tools and criteria to implement the empowered community approach to the provision and development of community facilities.	Council is exploring a more community empowered approach to delivering of community services. There are opportunities to apply this approach to investigations and the provision of community facilities.	<ul style="list-style-type: none"> More engaged community. Greater community ownership over decisions. Community facilities deliver to the needs of communities. 	Underway	Co design of Te Paataka Koorero O Takaanini has provided a model and case study for this way of working.
12	Identify council and third party owned space that is available for community use, including space available for sport and recreation opportunities, and how that space can be accessed. Opportunities to share existing space with others should also be explored.	Space available for community use could be better utilised to ensure that there is sufficient provision for both current and future populations. A key to this is to ensure that the community are aware of what space is available through council and non-council owned facilities, and to work with others to put in place the frameworks/means to ensure that the space can be accessed by the community.	<ul style="list-style-type: none"> Increased community access leading to better utilisation of existing available space (council and non-council owned). Ensuring that potential investment in new facilities is only made where all other avenues for community space have been explored. Ensure that there is sufficient space available to meet current and future populations. 	Underway	Different models are being piloted in three local board areas to enable shared access to existing space for community use.
13	Undertake a regional review of Auckland's aquatic network to understand the impacts of growth, assess future gaps in relation to services and the lifespan of existing facilities. This should include the whole pool network (indoor, outdoor, non-council, council, learn to swim, school etc.).	Pools and leisure facilities are operated in a variety of different models. Further research is required to assess the relative performance of each model.	<ul style="list-style-type: none"> Better understanding of different operating models for pools and leisure facilities. Provide evidence to determine whether any facilities need to change operating models. 	Underway	
14	Refresh catchment and user behaviour data for pools and recreation facilities and consider expanding to other facility types if practical.	Catchment and user behaviour informs area-based assessments but the current data requires updating.	<ul style="list-style-type: none"> Better understanding of current customers provides information to inform planning. 	Underway	

Business improvements

	Action	Issue	Benefits	Status	Comments
117	Improve and streamline research methodologies and processes to provide better information to inform planning and more robust information to inform monitoring of the effectiveness of community facilities.	A different approach towards researching users has resulted in varying levels of information, limited samples sizes and duplication of effort. This limits the opportunity to understand user profiles and catchment areas.	<ul style="list-style-type: none"> Potential to achieve greater accuracy in surveys. Avoids oversaturation of surveying, by fulfilling planning and operational requirements in one survey. 	Underway	
118	Establish consistent processes for capturing and recording visitor and utilisation figures for community facilities across the region. Investigate methods to consistently document and record lease waiting lists and demand for space.	Visitor and utilisation numbers are recorded in different ways across the region, causing inconsistencies and gaps in information. This inhibits evidence-based planning.	<ul style="list-style-type: none"> Enables more accurate identification of areas of need, issues and gaps in the community facilities network. Allows greater understanding of the performance and profile of facilities. Helps identify overall demand for community facilities and how to fill this demand. 	Underway	
120	Assess and review the pools and leisure facility operating and management models.	Pools and leisure facilities are operated in a variety of different models. Further research is required to assess the relative performance of each model.	<ul style="list-style-type: none"> Better understanding of different operating models for pools and leisure facilities. Provide evidence to determine whether any facilities need to change operating models. 	Underway	
121	Review and update schedule of community facilities and mapping on an ongoing basis, including capturing information on non-council facilities contributing to community outcomes.	The schedule of community facilities will change based on new projects, changing of facility functions and other factors. Many facilities outside of the immediate scope of the network plan contribute to community outcomes.	<ul style="list-style-type: none"> Ensures there is a more complete picture of community facility provision. Ensures provision decisions are based on robust evidence. Helps identify opportunities to support local provision and explore partnerships. 	Complete	

Area-based actions – network priority and non-priority actions

	Local board	Facility type	Facility or area	Network priority	Action	Driver	Status	Comments
28	Albert-Eden	Community	Pt Chevalier Community Centre	No	Investigate options to improve Pt Chevalier Community Centre to address fit for purpose issues and future population growth.	Fit for purpose	Complete
