

Scott Point Sustainable Sports Park (SPSSP)

Procurement Policy

November 2021

Executive Summary/Background

Auckland Council are bound by The Local Government Act 2002 to take a sustainable approach when procuring goods, services and works.

Our commitment to sustainable procurement aligns with three key purchasing documents:

- Auckland Council Group Procurement Policy
- Auckland Council Group Procurement Strategy
- Auckland Council Group Sustainable Procurement Framework

We acknowledge successful procurement does not mean cheapest tender. Our value is embedded in creating a positive impact on the economic, environmental, social, and cultural well-being of the Scott Point community.

Policy Principles and Strategy

- Working together
- Value te ao Māori
- Be sustainable
- Act fairly
- Deliver the best value for every dollar
- Safe with us

Sustainable Procurement Framework Focus Areas

Social and Economic

- Supplier Diversity
Promoting supplier diversity with Māori and Pasifika owned businesses and social enterprises
- Local Supplier Utilisation
Working with local suppliers to deliver contracts
- Quality Employment
Providing quality employment opportunities for target communities

Environmental

- Zero waste by 2040
- Reducing carbon emissions

Key Sustainable Procurement Objectives and Targets

- 100% of contracts adhere to the commitments and targets within the project charter.
- 10% of the total subcontractor time to be awarded to Māori and/or Pasifika businesses or social enterprises

- 75% of subcontracts with local suppliers
- 100% of contracts incorporate waste considerations and commitments in all procurement processes
- 100% of contracts incorporate carbon emission considerations and commitments in all procurement processes
