

Property categorisation – request for review

This application form is for homeowners to request a review of their property category decision.

Information on the process for property categorisation disputes is available in the ‘Dispute Resolution Framework’ document available on our website (aucklandcouncil.govt.nz/review).

Please read the guidance, complete and return this form with supporting information to recoveryreview@aucklandcouncil.govt.nz.

If you have reports from your own technical expert, please provide these.

Your details

Surname

First Name

--	--

Property address

Preferred email address for contact

Your property category

Submission ID (if known – this was provided when you first filled out the Flooding and Landslide Registration form and on any site visits)

What aspect of your category are you disputing? (You can select more than one)

Please tick ✓

<input type="checkbox"/>	The risk assessment for my property [i.e. the council’s assessment of whether there is “intolerable risk to life” from flooding and/or landslides for occupants of residential buildings on my property].
--------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<input type="checkbox"/>	Nature of the intervention/mitigation [i.e. the council’s assessment of whether there is a property or community level solution available to mitigate the risk to life associated with my property].
--------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<input type="checkbox"/>	Cost of intervention/mitigation [i.e. the council’s assessment of the approximate cost of a property level solution to mitigate the risk to life associated with my property].
--------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Why are you disputing this? Please set out your reasons and refer to your supporting information (e.g. expert reports) where relevant.
